## **Irvine Ranch Water District Embraces Latest Web Technology To Help Residents Save Water**

Irvine Ranch Water District (IRWD) will be hosting its first online Webinar, entitled “New Ways for Smart Landscape Watering” to provide simple, practical tips to help local residents learn how to water their landscapes more efficiently, reduce runoff and prevent water pollution.

The Webinar, a free seminar delivered over the internet, will take place at 8 a.m. and 10 a.m. on Saturday, May 30, 2009. Participants will be able to join IRWD’s conservation and landscape experts for an informative, interactive session from the comfort of their homes, by simply logging on.

The Webinar will cover:

- Five easy steps to tune up your irrigation system
- Three “must use” features of your irrigation timer
- Simple ways to manage your landscaping
- Q & A with IRWD’s experts

As space is limited, attendees can reserve their Webinar “seats” by visiting IRWD’s water conservation site, [www.alwayswatersmart.com](http://www.alwayswatersmart.com) and clicking on the SIGN UP NOW button.

#####

*IRWD serves a population of 330,000 in Irvine, Tustin Ranch, Portola Hills, Foothill Ranch, Santa Ana Heights, Orange Park Acres and portions of Lake Forest, Newport Beach, Costa Mesa, Orange and unincorporated Orange County.*
