AGENDA IRVINE RANCH WATER DISTRICT FINANCE AND PERSONNEL COMMITTEE MEETING TUESDAY, OCTOBER 31, 2023

This meeting will be held in-person at the District's headquarters located at 15600 Sand Canyon Avenue, Irvine, California. The meeting will also be broadcasted via Webex for those wanting to observe the meeting virtually.

To observe this meeting virtually, please join online using the link and information below:

Via Web: https://irwd.webex.com/irwd/j.php?MTID=m7567faf0fcc58324c4b13050aefa0c94

Meeting number (access code): 2485 166 9587

Meeting password: 6jB6sQR97fD

As courtesy to the other participants, please mute your phone when you are not speaking.

PLEASE NOTE: Participants joining the meeting will be placed into the Webex lobby when the Committee enters closed session. Participants who remain in the "lobby" will automatically be returned to the open session of the Committee once the closed session has concluded. Participants who join the meeting while the Committee is in closed session will receive a notice that the meeting has been locked. They will be able to join the meeting once the closed session has concluded.

CALL TO ORDER	11:30 a.m.	
<u>ATTENDANCE</u>	Chair: Steve LaMar	Member: Doug Reinhart
ALSO PRESENT	Paul Cook	Neveen Adly
	Wendy Chambers	Kevin Burton
	Paul Weghorst	Kent Morris
	Christopher Smithson	Tiffany Mitcham
	Eileen Lin	Lance Kaneshiro
	Stephen Aryan	Jennifer Davis
		<u> </u>

PUBLIC COMMENT NOTICE

Public comments are limited to three minutes per speaker on each subject. If you wish to address the Committee on any item, you may attend the meeting in person and submit a "speaker slip." You may also submit a public comment in advance of the meeting by emailing comments@irwd.com before 7:30 a.m. on Tuesday, October 31, 2023.

COMMUNICATIONS

- 1. Notes: Adly
- 2. Public Comments
- 3. Determine the need to discuss and/or take action on item(s) introduced, which came to the attention of the District subsequent to the agenda being posted.
- 4. Determine which items may be approved without discussion.

INFORMATION

5. <u>EMPLOYEE POPULATION AND RETENTION STATUS REPORT – SRADER / MITCHAM</u>

Recommendation: Receive and file.

6. <u>MONTHLY INVESTMENT AND DEBT REVIEW – MENDOZA / DAVIS / MORRIS / ADLY</u>

Recommendation: Receive and file.

7. EXPENSES AND FEES OF BOARD MEMBERS AND GENERAL

MANAGER PAID THROUGH THE FOURTH QUARTER OF FISCAL

YEAR 2022-23 – PULLES / ADLY

Recommendation: Receive and file.

8. <u>WORKFORCE DEVELOPMENT AND SUCCESSION PLANNING AT IRWD – MITCHAM / COOK</u>

Recommendation: Receive and file.

ACTION

9. ANNUAL BOARD OF DIRECTORS' FEES – K. SWAN / COOK

Recommendation: That the Board either accept or decline the five (5%) percent compensation increase for the calendar year 2024.

FINANCE AND PERSONNEL COMMITTEE

MONTHLY INVESTMENT AND DEBT REVIEW

SUMMARY:

The following items are submitted for the Committee's review and consideration:

- The Investment Portfolio Summary Report as of October 20, 2023 as outlined in Exhibit "A";
- The U.S. Treasury Yield Curve as of October 20, 2023 as shown in Exhibit "B";
- The Summary of Fixed and Variable Debt as of October 20, 2023 as outlined in Exhibit "C"; and
- The Summary of Variable Rate Debt Rates as of October 20, 2023 as outlined in Exhibit "D".

BACKGROUND:

<u>Investment Portfolio:</u>

Due to the timing of the Committee meeting, the rate of return for October is not complete. Preliminary calculations indicate a rate of return for the fixed income investment portfolio of 4.07%, which is a 0.15% increase from September's rate of 3.92%. Including real estate investments, the weighted average rate of return for IRWD's investment portfolio for October 2023 was 6.56%, which was a 0.17% increase from September's rate of 6.39%. The increase is primarily due to the reinvestment of funds at higher yields in the District's money market fund.

Debt Portfolio:

As of October 20, 2023, IRWD's weighted average all-in variable rate for debt was 2.44%, which was a 0.41% decrease from September's rate of 2.85%. Including IRWD's weighted average fixed rate bond issues of 3.72% and the negative cash accruals from fixed payer interest rate swaps (which hedge a portion of the District's variable rate debt), the total average debt rate was 3.28%, a 0.14% decrease from September's rate of 3.42%. The decrease was due to lower average rates for the District's variable rate debt.

FISCAL IMPACTS:

Fiscal impacts are outlined above and included in the exhibits provided.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

FINANCE AND PERSONNEL COMMITTEE

EXPENSES AND FEES OF BOARD MEMBERS AND GENERAL MANAGER PAID THROUGH THE FIRST QUARTER OF FY 2023-24

SUMMARY:

Pursuant to the Policy Regarding Business Expense Reimbursement, Travel, Meeting Compensation, and Representation, staff has assembled for Committee review an Expense Summary, as shown in Exhibits "A" and "B", for IRWD's Board members and the General Manager through the first quarter of Fiscal Year (FY) 2023-24. Provided below is a summary of expenses paid to date.

Board Members:

Name	Conference, Travel, and Other District-Related Expenses	Meeting Fees	Total
LaMar	\$ 8,566	\$ 9,450	\$ 18,016
McLaughlin	0	3,465	3,465
Reinhart	1,486	9,135	10,621
Swan	5,221	9,450	14,671
Withers	1,764	8,190	9,954
Total:	\$ 17,037	\$39,690	\$56,727

General Manager:

Cook	\$ 983	N/A	\$ 983
Total:	\$ 983	N/A	\$ 983

FISCAL IMPACTS:

Meeting fees total \$39,690 versus a budget of \$47,500 resulting in a positive variance of \$7,810 year to date. Conference and meeting-related travel expenses for both the Board of Directors and the General Manager totaled \$18,020 versus a budget of \$33,750, resulting in a positive variance of \$15,730.

The total cost for Board and General Manager conference, travel, and other District-related expenses, including meeting fees, through the first quarter FY 2023-24 is \$57,710, resulting in a positive variance of \$23,540 to budget.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

Finance and Personnel Committee: Expenses and Fees of Board Members and General Manager Paid through the First Quarter of FY 2023-24 October 31, 2023 Page 2

RECOMMENDATION:

Receive and file.

FINANCE AND PERSONNEL COMMITTEE

WORKFORCE DEVELOPMENT AND SUCCESSION PLANNING AT IRWD

SUMMARY:

Staff has prepared a summary of IRWD's approach to employee development relative to the District's current and future workforce needs and succession planning. This document is attached for review and comment by the Committee.

BACKGROUND:

The 2023 IRWD Goals and Target Activities included an item (15.g) to, "develop a description of IRWD's approach to Employee Development relative to workforce and succession planning." Staff has prepared a working draft of this document, provided as Exhibit "A" for this purpose.

This document illustrates the tools and techniques implemented to recruit, retain, and develop talent. While sources of future talent inevitably include external hirings, this plan reinforces the benefit of, and priority given to, developing current IRWD employees for filling future leadership roles and specialized expertise needs of the District.

FISCAL IMPACTS:

None.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

RECOMMENDATION:

Receive and file.

LIST OF EXHIBITS:

Exhibit "A" – Workforce Development and Succession Planning at IRWD – Working Draft

Note: This page is intentionally left blank.

WORKFORCE DEVELOPMENT AND SUCCESSION PLANNING AT IRWD

IRWD understands the importance of workforce development and succession planning to advance its ongoing and future effectiveness. This District has employed multiple techniques to ensure a steady pipeline of talented staff – from both internal and external sources – to implement the vision and goals of IRWD. This document summarizes the need for workforce development and succession planning and steps implemented by IRWD related to this.

Background:

Succession planning is a critical activity for any organization that intends to thrive in the long run. Without proper planning, an organization risks gradually or suddenly finding itself in the future lacking the staff resources it needs to grow, shift its focus, or even provide its basic services. This is why workforce development is inextricably linked to effective succession planning. Succession planning requires a leadership team to ask several questions of itself, including:

- How will we inform, involve, develop, and train our employees to become future supervisors/managers/directors, executive directors, and general managers?
- Do current employees have the right competencies and skills to grow with the organization, or will the right talent be found externally?
- If external hirings are needed to augment internal promotions, what can the organization do to ensure that external resources will be available if needed?

Effective workforce development and succession planning requires sustained buy-in and active engagement of an organization's leadership team to ensure the right talent will remain available to meet the current and future needs of the organization. For succession planning to succeed, these "fundamental guidelines" should be followed:

- Set reasonable employee expectations. Communicate the importance of an individual's contribution and place within the organization and ensure they know where they stand regarding career advancement.
- Seek employee input. Some employees may be very interested in leadership positions, while others may not. Don't assume; ask employees about their interests / goals for professional development / advancement.
- Be inclusive. Avoid focusing on the development of employees who are "just like us." This type of bias can stifle new perspectives that others could present.
- Thoroughly vet potential successors. Evaluate employees for not only their technical abilities but also their leadership abilities.
- Have options. Ensure we have a variety of employees at an array of readiness levels for roles within the District.
- Leadership engagement. As with most projects, success can only be achieved when all leaders provide strong and vocal support. Planning for the future is not just a job for the human resources staff; an organization's entire management team is responsible for ensuring employees are being developed: some to assume leadership roles and some to fill highly technical positions.

WORKING DRAFT

Succession planning should always include a plan and a process; it is not something an organization should wait to do until its existing workforce talent has retired or left the organization. Defining an organization's current and future needs begins with a well-defined strategic direction, coupled with clear goals and priorities. Once the strategic goals and future priorities have been identified, the next step in succession planning is to identify the positions critical to the organization that, unless filled by top-notch employees, would undermine the organization's ability to sustain its ongoing success. Considerations for identifying these positions include:

- Positions that are key to sustaining essential services;
- Positions that are organization-specific;
- Positions that will drive success in areas of future growth;
- Positions of influence within the organization (e.g., influencers of resource allocation or decision-making);
- Jobs with lengthy learning curves (e.g., management positions and specialized equipment operators); and
- Positions where experiential learning is the critical knowledge acquisition method (e.g., scientists, operation staff, etc.).

Succession Planning at IRWD:

To ensure that IRWD is prepared for the inevitable departure of key staff, the District must create its own succession planning framework that aligns best with its unique needs. Foundational to IRWD's ability to serve its customers well remains its commitment to its Values, which set the standard for the District's workplace culture. Following and promoting IRWD's Values links today's excellence to IRWD's future excellence; the Values also provide continuity of culture as new staff join the ranks of IRWD. In addition to District-wide communications regarding its Values, IRWD also actively communicates its strategic planning documents – most prominently the IRWD Strategic Objectives and Target Activities. As public documents adopted each year by the Board of Directors, IRWD's strategic planning documents are also available for anyone to understand where the District is headed.

With these foundational steps firmly established as standard practice at IRWD, the District is well-positioned for its succession planning efforts. Two sources exist for future positions within IRWD: promotion from within and external recruitment. Accessing and optimizing individuals from these two sources requires two different approaches, which are described below.

IRWD Employee Development:

Employee development is essential to maintaining a robust pipeline of potential individuals to fill vacancies due to the retirements, resignations, and promotions of current staff. Some of these individuals will serve in leadership positions, while others may be needed for the District's increasingly specialized expertise needs. There are many inherent advantages to developing current IRWD employees for these future needs, some of which include employee satisfaction, IRWD cost savings, and enhancement of the District's reputation as a great place to work.

WORKING DRAFT

Examples of the many practices and programs IRWD has implemented to promote IRWD employee development are listed below:

- Training Sessions IRWD continues to offer training pertaining to employee development, such as supervisory and management academies, interview skills training, and conflict management training. Trainings are typically developed on an as-needed basis, based on observation of a need or requests from staff.
- Educational Reimbursement IRWD supports the educational advancement of its employees by reimbursing a portion of the tuition and other costs incurred.
- Employee Resources IRWD continues to build its library of written materials (books, articles, PowerPoints) on numerous topics through which employees can learn at their own pace. Eventually, this library will be housed at one location on a page of the IRWD Intranet. The District also accommodates other resources, such as Toastmasters, specifically for the benefit of its interested employees.
- Job Descriptions / Job Analyses Outdated job descriptions for positions at IRWD can confuse succession planning efforts. IRWD has increased the frequency of reviewing and updating job description and job analyses.
- Technical Certifications IRWD recognizes staff that obtain certificates (e.g., Operator certifications) that are not required for their current position. This can help prepare staff for possible future promotional opportunities that may require that certification.
- Mentoring IRWD has traditionally had an "informal" mentoring program through which staff can seek advice from fellow employees. Depending on the level of interest among staff, this program may be elevated to a more formal approach of "matching" mentors and mentees.
- Cross-Training Opportunities The District has promoted cross-training between departments over the years, but it has recently increased its promotion of cross-training. Opportunities for cross-training can emerge from managers or supervisors identifying a need, from employees expressing an interest in cross-training, or from some variation thereof. Cross-training experiences are described in the General Manager's Weekly Report, so all the Board and Management Team are aware.
- Manager Solutions Teams To encourage more intradepartmental communications and problem solving, IRWD has established a process for identifying areas for improvement within the District. Solutions are then developed by a team of managers for subsequent review by Senior Staff.
- Local Government Leadership Development IRWD sponsors its staff in programs such as Leadership Tomorrow, the Cal State Fullerton Leadership Development for Public Agencies, and other groups so staff can learn more about local governments and network with staff from other local agencies.

Additionally, IRWD benefits from employee development even before a staff vacancy emerges. By increasing cross-functional career movement within the District, IRWD will have better coverage during temporary vacancies (vacations, extended leaves) and during emergencies (such as after a major earthquake) when key staff may have temporary travel restrictions.

WORKING DRAFT

External Workforce Development & Recruitment:

As discussed earlier, IRWD has an interest in contributing to the future workforce of the water industry in general, knowing that many of its future workforce needs will be met through external recruitments. Examples of how IRWD contributes to the future workforce and attracts prospective potential candidates to IRWD include the following:

- Job Fairs Staff attends job fairs sponsored by industry associations, academic institutions, and other groups to facilitate direct conversations between current IRWD staff and individuals that may be interested in the District and/or the water industry.
- Internships / Apprenticeships IRWD has a long history of hiring interns across
 many different disciplines. Staff is extending this type of program to
 apprenticeships to encourage individuals who may be interested in the trades
 and/or operations. And starting this year, IRWD brought on its first two student
 workers from the high school level, through a partnership with Cristo Rey Orange
 County High School.
- Temporary Employees IRWD hires temporary employees to temporarily augment staff resources. Often, these same employees successfully apply for full-time employment with IRWD when an opportunity arises. A benefit to IRWD of hiring these individuals is that many times, they have already received much of the training needed to perform their new full-time duties, so they "hit the ground running" on day one.
- Active Participation in Industry Associations IRWD remains highly active and very visible in many industry associations (ACWA, CASA, CMUA, WateReuse, etc.). Participation in these associations presents many opportunities for articulating some of the exciting initiatives at IRWD, networking with industry colleagues, and many other benefits.
- Engagement at Academic Institutions Teaching a class at a local university, serving on the Technical Advisory Committee for Santiago Community College, mentoring students, and judging a local science fair are all great examples of ways IRWD staff can interact with students that may be considering a career in the water industry.

Next Steps:

These and other future programs will be further developed – in collaboration with and with buy-in from the IRWD Management Team – to ensure that the unique needs of the District, across all departments, are being served.

FINANCE AND PERSONNEL COMMITTEE

ANNUAL BOARD OF DIRECTORS' FEES

SUMMARY:

The Finance and Personnel Committee annually reviews the Board of Directors' compensation and recommends that the Board either accept or deny a fee increase for the new calendar year. Pursuant to the District's Ordinance No. 1989-1 and enacted under Section 20202 et seq. of the California Water Code, the Board's meeting compensation increases on January 1 of each year, not exceed an amount equal to five (5%) percent, and no compensation for more than 10 days in a calendar month.

BACKGROUND:

The most recent Board of Directors' compensation increase was effective in January 2022. The current compensation for the Board of Directors is \$315 per meeting, not to exceed 10 meetings per calendar month. In accordance with Section 20202 et seq. of the California Water Code, the Board's meeting compensation increases on January 1 of each year by five (5%) percent, subject to acceptance or rejection by the Board. If the Board approves a 5% increase, the resulting per meeting fee would be \$331 (rounded to the nearest dollar).

Provided as Exhibit "A" is a survey of the Director Fees of other water districts for comparative purposes containing service connections and combined operating and capital budgets.

FISCAL IMPACTS:

A 5% increase has a nominal impact on the operating budget if accepted by the Board.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Board either accept or decline the five (5%) percent compensation increase for calendar year 2024.

LIST OF EXHIBITS:

FINANCE AND PERSONNEL COMMITTEE

FISCAL YEAR 2022-23 ANNUAL COMPREHENSIVE FINANCIAL REPORT

SUMMARY:

IRWD's auditor Davis Farr LLP has completed its annual audit of the District's financial statements for the Fiscal Year (FY) ended June 30, 2023. As stated in its report, Davis Farr concluded that in all material aspects, the statements fairly present the District's financial position as of June 30, 2023 and conform with generally accepted accounting principles.

The Annual Comprehensive Financial Report (ACFR), including the Introductory Section, audited financial statements, accompanying auditor's report, Management's Discussion and Analysis, and Statistical Section is provided as Exhibit "A". Staff recommends that the Board approve the FY 2022-23 Annual Comprehensive Financial Report.

BACKGROUND:

At the Committee meeting, Davis Farr will present its required Auditor Communication pursuant to Statement on Auditing Standards 114 *The Auditor's Communication with Those Charged with Governance*. This letter, provided as Exhibit "B", reflects the auditor's understanding of key management assumptions and practices, and indicates that there were no disagreements with management during the scope of the audit. The auditors have also provided a *Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards*, provided as Exhibit "C", which states that the audit did not identify any material weakness in internal control. In addition, the report states that the result of the audit disclosed no instances of noncompliance or other matters that were required to be reported under government auditing standards.

The IRWD Annual Comprehensive Financial Report:

The FY 2022-23 ACFR is being prepared for the 20th consecutive year by IRWD. All of IRWD's previous ACFRs have won awards from the Government Finance Officers Association (GFOA), which encourages state and local governments to prepare and publish expanded financial reports in conformity with generally accepted accounting principles (GAAP) and provides awards to recognize contributions to the practice of government finance that exemplify outstanding financial management. The awards stress practical, documented work that offers leadership to the profession and promotes improved public finance.

Staff plans to present the FY 2022-23 ACFR to the IRWD Board on November 13, 2023. Staff will continue to produce an enhanced electronic version with key references hyperlinked throughout the document. The ACFR will be made available on IRWD's website.

No. 10 FY 2022-23 ACFR

Finance and Personnel Committee: FY 2022-23 Annual Comprehensive Financial Report October 31, 2023 Page 2

FISCAL IMPACTS:

None.

ENVIRONMENTAL COMPLIANCE:

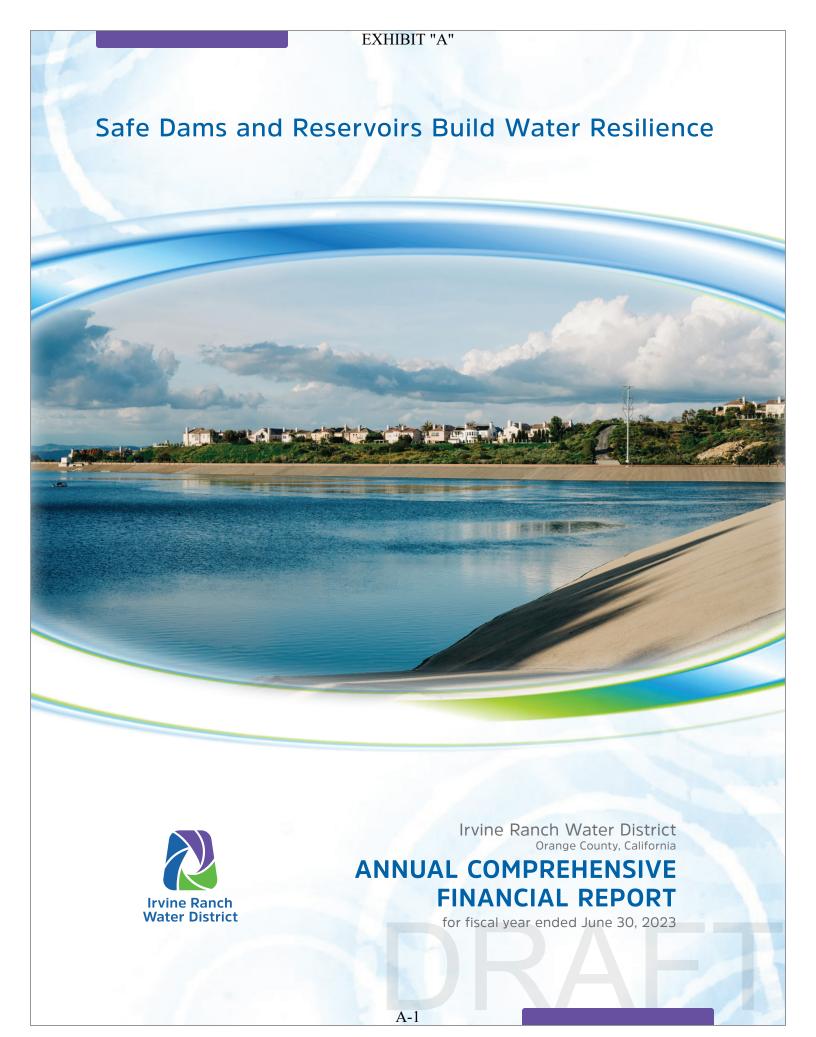

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Board approve the FY 2022-23 Annual Comprehensive Financial Report.

LIST OF EXHIBITS:

Introductory Section

Irvine Ranch Water District Fiscal Year Ended June 30, 2023

This page intentionally left blank.

November 13, 2023

To the Board of Directors, Irvine Ranch Water District:

Management of the Irvine Ranch Water District (IRWD or the District) has prepared an Annual Comprehensive Financial Report of IRWD for the fiscal year ended June 30, 2023. This document, which contains a complete set of basic financial statements, is presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted government auditing standards by a firm of licensed certified public accountants. State law requires that all special-purpose local governments publish these basic financial statements within six months of the close of the agency's fiscal year.

This report contains management's representations concerning the finances of the District. Management assumes full responsibility for the completeness and reliability of the information contained in this report. To provide a reasonable, rather than absolute, basis for making these representations, IRWD management has established a comprehensive framework of internal controls. These controls are designed to protect the District's assets from loss, theft, or misuse, and to ensure sufficiently reliable information for the preparation of the District's basic financial statements in conformity with GAAP. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the basic financial statements are free of any material misstatements. As management, we assert that this financial report is complete and reliable in all material respects.

The District's basic financial statements have been audited by Davis Farr LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the District for the fiscal year ended June 30, 2023 were free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor rendered an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2023 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

A profile of the District is presented in this Introductory Section. In the Financial Section, Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides an overview and analysis of the basic financial statements. This letter of transmittal and introduction is designed to complement the MD&A and should be read in conjunction with it.

Profile of Irvine Ranch Water District

Overview

Irvine Ranch Water District was established in 1961 as a California Water District under the provisions of the California Water Code. As a special district, IRWD focuses on four primary services - providing potable water, collecting sewage, producing and distributing recycled and other non-potable water, and implementing urban runoff source control and treatment programs.

IRWD is an independent public agency governed by a five-member, publicly elected Board of Directors. The members of the Board each have varied professional backgrounds, coupled with an average tenure for the Board members of approximately 23 years. The District is a leader in developing and implementing resource management initiatives such as water recycling, urban runoff control and treatment, water efficiency, energy management, and water banking. The District is a pioneer in financial management practices such as variable rate debt financing and long-term infrastructure replacement program development and funding.

The District serves a 181 square mile area, which includes all of the City of Irvine and portions of the cities of Tustin, Newport Beach, Costa Mesa, Orange and Lake Forest, as well as certain unincorporated areas of Orange County. Extending from the Pacific Coast to the top of the foothills of eastern Orange County, the District's region is semi-arid with a mild climate and an average annual rainfall of approximately 12 inches. The total estimated daytime population served is approximately 670,000 and includes approximately 124,000 water and 119,000 sewer service and recycled water connections. The number of service connections has increased by approximately 21% over the last ten years.

The District provides its core services to its customers by focusing on the following areas:

- Operational Reliability having multiple sources of water supply, various sewage treatment alternatives, preventive maintenance programs, and emergency power capabilities to ensure reliable services.
- *Organizational Strength* having professional staff work in close collaboration with the Board of Directors striving to exceed the expectations of our customers.
- Long-Term Financial Planning ensuring sufficient funds are available to construct, operate, maintain, and replace facilities, while retaining competitive rates now and in the future.

People

Field Crew on Site

The District employed an average of 392 staff who are responsible for administering daily operations and implementing strategic objectives and policies set forth by the Board. The District actively promotes the training and education of employees to increase effectiveness and retention. The average tenure of District employees is approximately 10 years.

Services

The District is functionally organized into four core service areas:

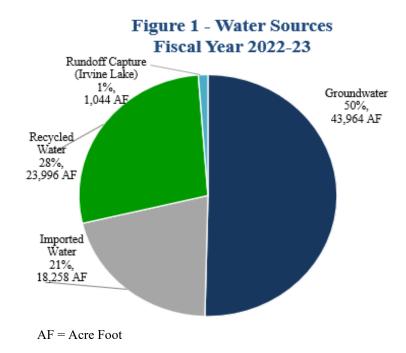

Drinking or "Potable" Water System

For many years, the District received virtually all of its drinking water from imported sources. To minimize this dependence on imported water, in the early 1980's, the District began developing a series of local wells known as the Dyer Road Wellfield to access high quality groundwater from the Orange County Groundwater Basin, managed by the Orange County Water District (OCWD).

IRWD also operates other groundwater wells, and several groundwater wells require treatment before use. In Fiscal Year (FY) 2022-23, local groundwater accounted for 50% of the District's total water supply (Figure 1).

Currently, groundwater is significantly less expensive, more reliable, and less energy intensive than imported water that is transported over hundreds of miles into Southern California and subsequently treated.

As shown in Figure 1, the District purchased 21% of its water supply in FY 2022-23 from the Municipal Water District of Orange County (MWDOC), the regions local wholesale water supplier who purchases its water from the Metropolitan Water District of Southern California. This water is imported from both the Colorado River, which is transported approximately 240 miles to Southern California, and from the Delta, which from water is transported approximately 400 miles from Northern California.

Recycled and Non-Potable Water Systems

The District treats sewage to provide water for irrigation, commercial, industrial and agricultural purposes which further reduces its reliance on more expensive imported water and increases its system reliability. Sewage from the community is collected and recycled to California State Water Resources Control Board Title 22 standards at IRWD's Michelson Water Recycling Plant (MWRP) and the Los Alisos Water Recycling Plant, which have the combined capacity to produce nearly 33.5 million gallons of tertiary recycled water per day.

Once treated, the recycled water is distributed throughout the service area and in FY 2022-23 accounted for approximately 28% of the District's total water supply (Figure 1). Approximately 85% of all business and community landscaped areas (parks, school grounds, golf courses, street medians, etc.) within the District's service area are irrigated with recycled water. The District also provides recycled water for various industrial and commercial uses. IRWD's goal is to continue recycling its sewage flows to provide 25% to 30% of its total water supply once the District's service area is fully developed.

The District operates a non-potable system which includes 5 wells, 5 open reservoirs and 12 storage tanks that store water for non-potable uses. In total, the District has approximately 4,500 acre feet of active recycled water storage capacity. IRWD has 75% ownership in Irvine Lake, a 25,000 acre-feet reservoir that can capture and store both stormwater and imported water supplies.

Sewage Collection and Treatment System

The District has an extensive network of gravity sewers, force mains, sewage lift stations, and siphons that convey sewage to two District-owned water recycling plants or to the Orange County Sanitation District (OC San). In FY 2022-23, the District treated approximately 74% of its sewage, and the remainder was diverted for treatment to OC San treatment facilities. The MWRP Biosolids and Energy Recovery Facility treated solids generated at the Michelson Water Recycling Plant which eliminates the need to send them to OC San for treatment. The biogas produced from the anaerobic digesters was used as fuel for the microturbines to generate electricity to power the facility. The District plans to expand its treatment capacity when and if necessary to serve its growing population.

Urban Runoff Source Control and Treatment System

IRWD is statutorily authorized to control and treat urban runoff and conduct various projects and programs as part of an effort to protect water quality in the San Diego Creek watershed. In the 1990s, the District constructed wetlands at the San Joaquin Marsh, where natural biological processes remove a substantial pollutant load from San Diego Creek's dry weather flow before it reaches the environmentally sensitive Upper Newport Bay State Ecological Reserve. In addition, the District operates a regional urban runoff treatment network known as the Natural Treatment System (NTS). As of June 30, 2023, the NTS consists of 45 constructed wetland treatment sites located throughout the San Diego Creek Watershed and one outside the IRWD service area. The Peters Canyon Wash, Muddy Canyon, and Los Trancos diversion facilities add to these sites and pump runoff high in selenium into the OC San's sewers, where it eventually, after treatment, flows to OCWD's groundwater replenishment system.

San Joaquin Marsh

Infrastructure Assets

The District builds and maintains significant capital infrastructure in order to provide superior service to its customers. The table below provides key information relating to its water and sewer system assets from 2014 to 2023.

Infrastucture Assets		
	2014	2023
Potable System		
Miles of Water Line	1,597	2,014
Number of Storage Tanks	36	37
Maximum Storage Capacity (acre feet)	456	466
Number of Pumping Stations	38	36
Number of Wells	26	27
Well Production Capacity (cfs)	124	119
Water Banking Storage Capacity (acre feet)	109,600	126,000
Potable Treatment Plants	4	5
Non-Potable and Recycled Systems		
Miles of Recycled Line	503	583
Number of Storage Tanks	12	12
Number of Open Reservoirs	5	5
Maximum Storage Capacity (acre feet)	24,155	24,160
Number of Pumping Plants	19	22
Number of Wells	5	5
Well Production Capacity (cfs)	10.0	9.7
Sewer System		
Miles of Sewer Line	1,009	1,486
Number of Lift Stations	13	11
Treatment Plants	2	3
Treatment Capacity (mgd) (Tertiary)	33.5	33.5
Sewage Flows to Michelson Plant	68%	62%
Sewage Flows to Los Alisos Plant	13%	12%
Sewage Flows to Orange County Sanitation District	19%	26%
Natural Treatment System		
Urban Runoff Treatment Facilities	N/A	45
Nuisance Water Diversions	N/A	3
1 acre foot = 325,900 gallons		
cfs = cubic feet per second		
mgd = millions gallons per day		
N/A = Not Available		

2023 Accomplishments

The District conducts a Strategic Planning Process where the Board annually adopts goals and target activities and monitors accomplishments against those goals. Major accomplishments achieved in FY 2022-23 were as follows:

- 1. Established the Irvine Ranch Water District Other Post-Employment Benefits Trust (OPEB Trust) in January 2023 to "pre-fund" a portion of the OPEB unfunded liability. The District made an initial \$10.0 million contribution to the OPEB Trust in June 2023. As of June 30, 2023, the total value of the assets in the OPEB Trust was approximately \$10.1 million which was approximately 49.0 percent of the OPEB liability.
- 2. Maintained fully funded status of the IRWD employee pension plan.
- 3. Received several national and State honors including the following:
 - Association of State Dam Safety Officials, West Regional Dam Safety Award.
 - Water Environment Federation 2023 Utility of the Future Today award for outstanding water stewardship.
 - J.D. Power Customer Satisfaction Award, No 1 for midsize water utility in the Western United States
 - California Association of Public Information Officers, EPIC award, The Shed Show.
 - National WateReuse Association, Award of Excellence for Public Outreach and Communication, 360-degree Recycled Water Experience.
 - National Institute of Governmental Purchasing, Achievement of Excellence in Purchasing Award.
 - Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting.
- 4. Optimized and protected local groundwater utilization by collaborating with Orange County Water District on South Basin Clean-up.
- 5. Developed and implemented maintenance and replacement programs and other systems that enhance safety, sustained operations at the District's facilities by performing a risk based analysis of all IRWD dams. Conduct a criticality analysis and asset condition assessments of sewage collection and treatment facilities to efficiently prioritize activities.
- 6. Implemented opportunities that enhance safety, security and emergency preparedness throughout the District by testing capability to respond to emergencies in line with the IRWD Emergency Operations Plan, updating emergency plans for the Michelson Water Recycling Plant, evaluating requirements for the California Voluntary Protection Program (Cal/VPP) designation and developed an approach to achieve certification, and implementing a new mass-communication program for emergency scenarios.
- 7. Maximized water use efficiency in the community by launching an internet-based tool to promote public awareness and reporting of water system leaks and illegal connections.
- 8. Evaluated and invested in projects and programs that will enhance future long-term water supply reliability and resiliency to climate change by developing a short-term program to provide supplies from IRWD's Water Bank to MWD and participating in programs to improve water supply reliability from high priority water rights during periods of severe drought and supply interruptions.
- 9. Developed water banking supplies for IRWD by working with current and future partners to implement a one-year unbalanced exchange agreement for IRWD water banking facilities with CA

- Department of Water Resources and completing a study of methods to improve groundwater recharge.
- 10. Supported the development and implementation of the Kern Fan Groundwater Storage Project through the Groundwater Banking Joint Powers Authority by creating draft environmental benefits funding agreements and a draft template.
- 11. Ensured financial and rate stability by ensuring adequate funding for future infrastructure replacement needs, continuing to provide low rates for IRWD customers, and maintaining strong financials through solid debt service coverage, liquidity balances, mixed debt profile, and pension plan obligation funding of at least 90 percent and funding its OPEB liability.
- 12. Identified, assessed and implemented new technologies, systems and facilities to improve operating efficiency by upgrading IRWD's Intranet and completing installation, start-up, and certification of new laboratory equipment for the testing of PFAS Compounds and other constituents. Also researched technologies for ongoing monitoring of ammonia levels in recycled water treatment for process and energy optimization and reduction of manual sampling.
- 13. Collaborated with other agencies and entities through leadership and innovation by realigning IRWD JPA ownership in South Orange County Wastewater Authority facilities.
- 14. Enhanced customer communications and community outreach by implementing phase 1 of the update to water use efficiency and educational graphics at Sand Canyon location and developing a more visible and active local presence within the Orange County and IRWD community.

Future Goals

The Strategic Planning Process resulted in the Board adoption of nineteen Strategic Goals which it expects to accomplish within the next 5 years along with Target Activities that are typically accomplished within 12 to 18 months. The Board adopted Strategic Goals are as follows:

- 1. Optimize and protect local groundwater utilization: develop and implement projects to increase IRWD's access to local groundwater and stormwater capture; also implement solutions to remove emerging contaminants of concern (e.g., PFOA/ PFOS).
- 2. Optimize use of Irvine Lake as a water resource facility for IRWD and its current and future partners: implement projects which will enhance the long-term operational reliability of the reservoir.
- 3. Develop water recycling facilities and applications for optimal benefit: identify new opportunities for IRWD to utilize recycled water locally and update the Sewage Treatment Master Plan.
- 4. Maximize resource recovery from fully functional biosolids and other resource recovery facilities: optimize the start-up of IRWD's Biosolids and Energy Recovery Facilities.
- 5. Develop and implement maintenance and replacement programs and other systems that enhance safety, sustained operations at the District's facilities.
- 6. Improve energy service reliability, manage demands, and control greenhouse emissions, and control costs: develop capability to continue operation of key facilities during short and long-term power outages; update Energy and Greenhouse Gas Master Plan/Climate Action Plan.
- 7. Implement opportunities that enhance safety, security and emergency preparedness throughout the District: protect the health and safety of IRWD employees and the public.
- 8. Maximize water use efficiency in the community: explore future opportunities for increased water use efficiency and expand database for improved analytics.

- 9. Maximize watershed protection: control and treat urban runoff and prevent sewer spills.
- 10. Evaluate and invest in projects and programs that will enhance future long-term water supply reliability and resiliency to climate change: pursue projects and supply arrangements to enhance water supply reliability, including increased water banking and water recycling. Develop additional sources of funding for the Syphon Reservoir Improvement Project.
- 11. Develop water banking supplies for IRWD by working with current and future partners: develop capabilities for recharge, storage, and extraction capacity and store water as it becomes available. Continue development of IRWD water banking facilities in Kern County.
- 12. Develop and implement the Kern Fan Groundwater Storage Project through the Groundwater Banking Joint Powers Authority: execute agreements and secure additional water storage investment funding. Secure rights of way and land as needed and complete initial design for elements of the Project.
- 13. Ensure financial and rate stability: ensure adequate funding for future infrastructure replacement needs. Continue to provide low rates for IRWD customers. Maintain strong financials through solid debt service coverage, liquidity balances, mixed debt profile, and pension plan obligation funding of at least 90 percent.
- 14. Identify, assess and implement new technologies, systems and facilities to improve operating efficiency: protect existing and future systems through advanced cybersecurity measures.
- 15. Recruit, develop and retain a highly skilled, motivated, and educated work force: develop employee skills. Develop and implement employee expectations for corporate values and ensure appropriate employee compensation.
- 16. Collaborate with other agencies and entities through leadership and innovation: engage at a high-level in industry associations, regional water agencies, and development of opportunities of mutual benefit for IRWD and partners.
- 17. Enhance customer communications and community outreach: strategically extend community outreach.
- 18. Guide and lead local, state and federal policies and legislation: actively engage in issues of key interest to IRWD including water use efficiency, water rate structures, water storage projects, PFAS regulations and others.
- 19. Influence new policies and regulations put forth by local, state and federal agencies: influence regulations to align with best practices for water loss regulations, water efficiency standards and emergency water supplies.

Water Use Efficiency

The District continues to be a leader in the innovation and implementation of water use measures that promote the most efficient use of water, both on a per capita and per acre basis.

The District's budget-based tiered rate structure, first implemented in 1991, is carefully designed to promote the efficient use of water by providing customers pricing signals related to over-use of water in a financially sustainable way. This structure is recognized as a model for other agencies to emulate.

In 2018, legislation was passed to "Make Conservation a Way of Life In California". As a result, the state is expected to adopt new long-term water efficiency objectives by June 30, 2024. IRWD has a long history of implementing cost-effective water efficiency programs, and is well positioned to meet the future efficiency standards. The District's customers have one of the lowest residential gallons per capita per day (gpcd) rates in California.

The District's Water Use Efficiency Implementation Plan (Plan), adopted April 2020, provides a comprehensive strategy to implement cost-effective water use efficiency measures for the District and its customers. The Plan addresses:

- Engaging in policy discussions and implementing targeted programs to ensure the District is well-positioned to meet the new statewide water use efficiency objectives.
- Continuing to implement cost-effective demand management programs that minimize the need to purchase more expensive imported water, and thereby maintain a lower unit cost of water for the District and its customers.
- Focusing on outdoor water use which remains the biggest potential water conservation opportunity for the District, and the associated urban runoff (typically the result of "overwatering") to minimize water quality degradation from fertilizers, pesticides and animal waste in creeks, rivers and the ocean.
- Reducing water demands, which reduces energy usage and related costs needed to convey water.

The basic tenets of the Plan include local, state and national policy development and leadership, focused customer interface, extensive education and outreach, technology advances, and the development of financial incentives. During the past fiscal year, the District provided financial incentives to residential and business customers to install water efficient devices such as irrigation equipment and conversions from high water use turf landscape to water-efficient landscapes. The District has also pioneered the use of recycled water beginning in the late 1960s and presently serves over 6,100 sites, with approximately 24,000 acre feet of recycled water sold in FY 2022-23 representing 28% of the District's total water supply (Figure 1). The use of recycled water reduced the District's need to import more expensive potable supplies. Due to the investments made by the District to diversify its resources, expand the use of recycled water and improve water use efficiency, IRWD is well prepared to withstand the current statewide drought. IRWD does not project any water shortages and will continue to provide reliable, high quality water to its customers in a cost-effective manner.

Water Shortage Contingency Planning

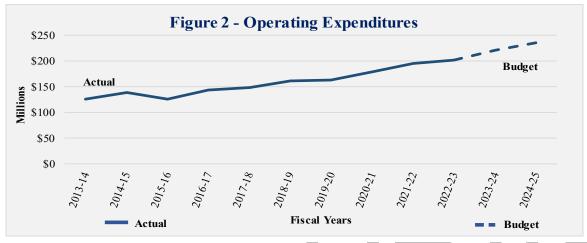

In compliance with California Water Code Section 10632, IRWD adopted an updated Water Shortage Contingency Plan (WSCP) in June 2021. The WSCP allows the District to strategically reduce water use through a number of potential actions that are staged dependent upon the severity of water shortages. The WSCP incorporates six standard water shortage levels corresponding to progressive ranges of up to 10%, 20%, 30%, 40%, 50%, and greater shortages. For each level or shortage, the WSCP includes a list of voluntary measures, non-rate response measures, and potential cost-of-service based rate response strategies. The WSCP provides the Board with the framework to respond to water shortages should they occur. In June 2021, the Board implemented the voluntary responses associated with Level 2 of the WSCP. In February 2022, the Board adopted cost-of service rates associated with the possible action required to achieve each of the six standard water shortage levels should it be required. Implementation of WSCP rates did not go into effect since the Board did not take the additional action required to implement these rates. The Board rescinded the Level 2 Water Shortage on April 10, 2023. In May 2022, the State Water Resources Control Board adopted emergency regulations. The emergency drought requirements were reduced in March 2023, and a statewide Level 2 water shortage was lifted on June 5, 2023. However, the statewide emergency drought proclamation and water conservation emergency regulations are still in effect, including prohibitions on the irrigation of non-residential, non-functional turf with potable water.

Legislative and Regulatory Affairs

The District actively monitors and works to influence local, state and federal legislation, policies and regulatory actions that could affect IRWD's operations, existing and future facilities and strategic planning efforts. The Board of Directors is frequently engaged in, and takes active positions on, relevant pending legislation and regulatory actions. The District continues to engage proactively in policy discussions surrounding water use efficiency, recycled water, and water policy in California. The District and its Board of Directors also actively participate in state and regional trade associations including the Association of California Water Agencies, the California Association of Sanitation Agencies, the WaterReuse Association, the California Special District Association, the California Municipal Utilities Association, and the Bioenergy Association of California.

Financial Plan

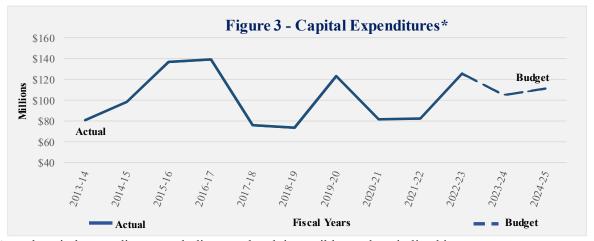

In April 2023, the Board approved a two-year (biennial) operating budget for FY 2023-24 and FY 2024-25. The goal of the District's operating budget process is to appropriately fund the resources required to provide quality service to IRWD customers as cost-efficiently as possible. As shown in Figure 2, the actual operating expenditures through FY 2022-23, as well as the Board approved operating budget for FY 2023-24 and 2024-25.

Increases reflect costs associated with customer growth within the District, as well as an increase in overall operating expenses. Increases have been kept to a minimum by aggressively pursuing reductions in expenses to offset uncontrollable expenses, such as pass-through rate increases from outside agencies.

The approved two-year budget anticipated an increase from \$187.7 million in FY 2022-23 to \$220.7 million in FY 2023-24 and to \$234.5 in FY 2024-25. The primary reasons were increases in labor, higher costs of water, electricity, and chemicals due to expected rate increases from outside agencies, and increased operating and maintenance costs associated with maintenance of aging infrastructure of facilities.

The Board also approved a two-year capital budget in April 2023 based on new, enhancement and replacement infrastructure needs. As shown in Figure 3, the actual capital expenditures through FY 2020-23 and the budgets for FY 2023-24 and 2024-25.

* Actual capital expenditures excluding overhead, intangibles and capitalized interest.

The reduced spending in FY 2017-18 from prior years represents the District's completion of several large projects including the Baker Water Treatment Plant. Higher spending beginning in FY 2013-14 represents the design and construction phases for the Michelson Biosolids and Energy Recovery Facilities, which began construction in FY 2013-14 and spending peaked in FY 2016-17. The Board approved capital budget is \$105.1 million for FY 2023-24 and \$111.0 million for FY 2024-25. Many capital budget projects extend beyond one fiscal year.

User Rates & Charges

User rates and charges are primarily used to fund the District's operation and maintenance expenses. The District separates the cost of constructing water and sewer infrastructure from the cost of daily operations and maintenance. User rates, as discussed below, are billed to customers on a monthly basis, and include a component for the inevitable replacement of existing infrastructure. The District collects replacement funds in advance of their need and invests for future use. This helps stabilize rates and avoid significant potential future rate spikes. In 2021, the District completed a detailed cost of service study which confirmed that user rates billed to customers are based on actual costs to provide the services. The District allocates capital costs within its service area through the use of water and sewer improvement districts, for which general obligation bond authorization is obtained and used as needed to fund new capital projects. Ad valorem property tax rates paid by landowners and connection fees paid by property developers are set biennially by the District and reviewed annually. Generally, the District's policy is to allocate the cost of new infrastructure evenly between the developers/landowners and the ultimate property owners who utilize the water and sewer infrastructure.

Water Rates

The District's rate structure for water use is separated into a commodity charge component and a fixed service charge component. The commodity charge reflects the cost of providing the District's water supplies while the fixed service charge funds the fixed operational and maintenance expenses of the District.

For FY 2022-23, the District's water fixed service charge was \$10.75 for a 5/8-inch by 3/4-inch meter. The District has a long history of planning for the inevitable replacement of capital infrastructure and sets monies aside into enhancement and replacement funds for this purpose to avoid large, sudden rate increases in the future. The FY 2022-23 monthly fixed service charge includes a user enhancement and replacement component of \$0.70 and \$2.08 respectively, which is intended to fund current and future replacement and refurbishment costs that provide reliability and redundancy to the District's infrastructure.

The District has a four-tiered rate structure that promotes water-use efficiency. A basic use allocation is established for each customer account that provides a reasonable amount of water for the customer's needs based on factors such as the number of occupants, type or classification of use, size of the irrigated area, evapotranspiration rate for the billing period and other consistently applied criteria. As of

FY 2022-23 Residential Rate Structure – Potable Water (Commodity Charge)

Tier	Percent of Estimated Customer Need	Cost per ccf*
Low Volume	0 - 40%	\$1.53
Base Rate	41 - 100%	\$2.42
Inefficient	101 - 140%	\$5.15
Wasteful	141% +	\$14.64

*One ccf (100 cubic feet) = 748 gallons

June 2023, approximately 82% of the District's customers were within the first two tiers and approximately 94% of customers fell within the first three tiers. IRWD residential bills are consistently among the lowest in Orange County. The chart above illustrates the four-tier structure that reflects the FY 2022-23 rates and higher cost associated with usage in the higher tiers.

Sewer Rates

The District's sewer service rates are the lowest in Orange County. For a typical residential customer, the fixed monthly service charge was \$20.45. The monthly service charge includes a monthly user enhancement and replacement component of \$0.82 and \$9.61 respectively, which is intended to fund current and future capital costs to replace, refurbish and upgrade the existing system.

Historic Rate Trends

The following chart reflects the charge for a typical customer's water and sewer service through FY 2022-23. Increased costs reflect pass-through increases from outside agencies and wholesale supplies and increased operational costs for both water and sewer, including funding for future infrastructure replacement. The Board elected to defer an approved increase for FY 2021 until February 2022, when rates were adopted and remained in effect through FY 2023.

\$60 \$50 \$40 Monthly Rate \$30 \$20 \$10 \$0 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023 Fiscal Year Sewer Charge ■ Water Charge

FY 2022-23 Typical Monthly District Residential Customer Charges*

Factors Affecting Financial Condition

The information presented in the Financial Section is best understood in the context of the economic environment in which the District operates, as discussed below.

State and Local Economy

Orange County is the third most populous county in California with over 3.3 million residents and a varied economy in which no single industry is considered dominant. With a location central to Orange County, the District's service area is the home to numerous corporate headquarters such as Oakley, Edwards Life Sciences, Blizzard Entertainment, Bandai Namco Holdings USA Inc. and Glidewell Laboratories. The District is also home to various educational institutions, including University of California Irvine, Concordia University, two community colleges, and other colleges and universities with satellite campuses. The total estimated daytime population served is approximately 670,000.

During FY 2022-23, the District continued to expand its operating facilities to accommodate approximately 2,800 new water and sewer service connections constructed within District boundaries. Development and entitlement needs of the builders continue to change and requirements for development have been included in the planning and new facilities are included in the capital budget. The assessed value of land within the District's service area has grown significantly in the last decade from \$42.2 billion in 2014 to more than \$86.4 billion in 2023, demonstrating the strength of the local economy.

Long-Term Water Use Efficiency

IRWD has a long history of implementing cost-effective water efficiency programs and is well prepared to meet future efficiency standards. The District is well positioned to sustain any potential reduction in revenues and meet future efficiency targets with minimal impact on net revenues due to its rate structure, which effectively splits costs into variable and fixed rate components. Any decrease in consumption would be offset by a decrease in related variable costs while the fixed rate component would cover the fixed operating and maintenance costs.

^{*} The typical District customer uses 12 ccf water per month, has a 5/8 inch meter, and is in the lowest sewer rate tier.

COVID-19

The outbreak of coronavirus (COVID-19) and related government containment measures created challenges for essential service providers in the water and sewer industry, including IRWD. Due to COVID-19 and its ramifications to District customers, the Board elected to defer rate increases related to the approved budget for FY 2021-22 until February 2022. Rates implemented in February 2022 provide cost equity based on approved budgets for both FY 2021-22 and FY 2022-23 and were effective through the end of FY 2022-23. Staff resumed the normal two-year rate review cycle consistent with the adoption of the two-year budget for FY 2023-24 and FY 2024-25.

Financial Planning & Budgeting

Short-Term

The Board of Directors approves operating and capital budgets every two years and allocates required funding accordingly. Board approval is required for any overall increase or substantial changes. Throughout the fiscal year, actual operating expenditures are compared to budget. Variances between budget and actual results are analyzed and evaluated to ensure the District's financial goals and objectives are being met. The budget process is further supported by the District's long-term financial models, enabling the Board to make informed decisions on setting rates and charges that ensure the long-term stability of the District. Funding needs are assessed using these financial planning models.

Long-Term

Meeting the goals of reliable, cost effective long-term water and sewer service requires substantial planning for both capital improvements and changing operating conditions. The District's capital program anticipates the need to update, expand or provide redundancy as well as refurbish and replace existing facilities as they reach the end of their useful life. District staff identify future infrastructure requirements well in advance of needs to ensure the necessary funding for those projects is available. Capital projects are funded through a combination of connection fees, property taxes and user rates.

The District has a long history of planning for the enhancement and replacement of aging water and sewer infrastructure. Recognizing that infrastructure replacement is both inevitable and costly, the District established infrastructure Enhancement and Replacement Funds to provide funding for updating, expanding, creating redundancy, as well as replacing and refurbishing various components of the water and sewer systems. The objective of the funds is to help moderate the financial impact on future user rates attributable to expenditures associated with enhancing and replacing capital facilities. For FY 2022-23, the combined funds for water and sewer user enhancement/replacement were \$33.4 million.

Over time, the District has transitioned from a newly developing area to a more fully developed area. While projects slated for construction will provide additional capacity for ultimate demands, the focus of the District is transitioning from building new infrastructure projects to ongoing operations and maintenance activities, as well as upgrading and replacing existing infrastructure. The District utilizes a sophisticated financial model to factor in such variables as future development, construction costs, growth rates, inflation, redevelopment and other criteria in order to project rate setting for funding future capital needs.

The District completed a strategic review of its existing current capital funding plan which resulted in a master consolidation plan that combined certain improvement districts to maintain the future financial viability of each area. Diversification of the District's water supply and sewage treatment options are also major objectives of the District's master plan. Those objectives are discussed in further detail in the *Major Initiatives* section of this introduction.

The District's approach to infrastructure replacement and funding is consistent with the industry best practice and illustrates the District's commitment to financial stability and protection of its customers from significant future rate increases.

Pension and Other Post-Employment Benefits Funding

The District recognizes that defined benefit plans and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the issue and, in 2013, established an irrevocable Pension Trust to substantially fund its CalPERS unfunded liability. The Pension Trust holds the funding contributions for the District pending future remittance to the CalPERS pension trust fund which will pay all retiree benefit payments to employees associated with the plan and will be transferred from the Pension Trust to CalPERS at the District's discretion. Additionally, in January 2023, the District approved establishing a new Section 115 Trust to fund a portion of its unfunded Other Post-Employment Benefits (OPEB) liability, collectively known as the 115 Trusts. In addition to being irrevocable, both Trusts provide funding specific to the purpose for which they were formed.

Investment policy and asset allocation decisions relating to 115 Trusts will be made by the 115 Trust Board, which is composed of two members from the IRWD Board of Directors (specifically, the members of the Finance and Personnel Committee) and the IRWD General Manager.

The District made an initial \$10.0 million contribution to the OPEB Trust and \$35.0 million contribution to the Pension Benefits Trust, and since then has made additional contributions to the Pension Benefits Trust ranging from \$1.9 million to \$12.8 million. As of June 30, 2023, the fair value of the assets in the Pension Benefits Trust was approximately \$106.7 million. The following schedule shows the recent history of pension plan assets and liabilities including the Pension Trust assets (in millions):

Fiscal	Total Pension	Total Pension	Total Pension Assets as a Percentage of the Total
Year (1)	Liability	Assets	Pension Liability
06/30/21	\$306.9	\$315.3	102.7%
06/30/22	323.1	391.2	121.1%
06/30/23	345.9	355.4	102.7%

⁽¹⁾ As of the measurement date June 30, 2020, 2021, and 2022 respectively.

Cash Management Policies and Practices

The District is regulated by State law (primarily California Government Code Section 53600, et seq.) as to the types of fixed-income securities in which it can invest cash assets. In addition, the Board of Directors annually adopts an investment policy that is generally more restrictive than the State codes. The District's standard practice is to maintain an appropriate balance between safety, liquidity and yield of investments to fund required expenditures in conformance with all applicable State laws, the District's investment policy, and prudent cash management principles.

At June 30, 2023, the District's cash and investments (excluding real property investments) totaled approximately \$371.2 million. Cash balances are allocated to various funds including the Replacement Fund, New Capital Fund, Debt Service Fund and others.

Real Property Investments

As a means to match a portion of its long-term replacement cost for water and sewer facilities when they reach the end of their useful lives with long-term funding investments, the District obtained legislative authority from the State to invest a portion of its capital facilities Replacement Fund (up to 30%) in real property located in Orange County.

As of June 30, 2023, the District owns or has an interest in six properties with an approximate fair value of \$293.3 million. The District's income-producing real estate investments have a weighted average return (based on cost) for FY 2022-23 of 12.9%. Net revenues of \$13.7 million generated in FY 2022-23 from the District's real estate investments are retained within the Replacement Fund and effectively reduce future increases in user rates.

Debt Management Policies and Practices

The District strives to minimize the cost of its long-term debt. In 1984, the District obtained State legislation that allowed for the use of variable rate debt to help achieve this goal. The Board minimizes its exposure to interest rate risk by utilizing both fixed and variable rate debt. The District maintains a healthy balance between fixed and variable rate debt. As of June 30, 2023, its debt portfolio included 63.0% of fixed rate debt and 37.0% of variable rate debt. The average all-in cost of debt, including the District's fixed rate payer swaps, was 3.37% for the fiscal year.

The District has a Debt Management Policy Statement (Debt Policy). The Debt Policy objectives formalize District guidelines related to timing and amount of future debt issuance, allowable debt types and structures and spending requirements of bond proceeds. The Debt Policy also addresses underwriter selection and allowable methods of sale, continuing disclosure requirements, financial advisor and credit rating agency relationships and other key debt-related topics.

As of June 30, 2023, the District's rated debt obligations have received the following ratings from the three major rating agencies:

Fitch Ratings: AAA
Moody's: Aa1
Standard and Poor's: AAA

As of June 30, 2023, there were eight outstanding General Obligation (GO) bond issues consisting of \$225.2 million in variable rate mode and \$274.0 million in fixed rate mode (excluding any unamortized premium or discount). As of June 30, 2023, the District also had one outstanding Certificate of Participation (COP) issue with a balance of \$105.7 million in fixed rate mode.

The District has secured direct pay letters of credit to enhance certain issues of its variable rate debt. The GO bond issues are secured by the District's ability to levy ad valorem property taxes to pay debt service. Although the District has elected to use a combination of ad valorem property taxes and other legally available funds to pay debt service, the legal authority exists to fully fund GO bond debt service through such ad valorem taxes. In addition to the ad valorem tax pledge, certain GO bond issues and the COPs issue are secured by the net revenues of the District. The District is required under its debt covenants to collect revenues sufficient to provide net revenues equal to 125% (1.25 times) of senior debt service coverage during the fiscal year. As of June 30, 2023, the District had net revenues equal to 3.8 times senior debt service coverage.

Prior to FY 2003-04, the District's outstanding debt was all in a variable rate mode and the Board of Directors took certain actions to manage and mitigate the interest rate risk. The District's practice has been to maintain a target amount of cash and fixed income investment assets equal to at least 75% of the District's outstanding unhedged variable rate debt. In addition, in 2004 the District began an interest rate swap program under which LIBOR-based fixed payer interest rate swaps were executed to hedge a portion of the District's variable rate exposure. The current \$60 million notional amount of outstanding interest rate swaps allow the District to limit the interest rate risk exposure on approximately \$89.5 million of its remaining tax-exempt variable rate debt to 3.81% (assuming a historical ratio for the tax-exempt SIFMA Index versus taxable 1-month LIBOR of 67%).

In 2017, the U.K. Financial Conduct Authority announced that it will no longer require its participating banks to provide daily submissions of LIBOR rates in the future, which will effectively discontinue the LIBOR index when that occurs. In January 2021, IRWD's Board of Directors approved the adherence to the ISDA LIBOR Fallback Protocol, and the District has completed the adherence process. The 1-month LIBOR index was discontinued on July 1, 2023 and the fixed payer swaps transitioned to the selected Fallback Rate (SOFR + spread).

In FY 2010-11, the District issued \$175 million of general obligation fixed rate debt utilizing the taxable Build America Bond (BABs) program. BABs, created under the American Recovery and Reinvestment Act, are taxable bonds with subsidy payments made by the Treasury Department to issuers equaling 35% of the interest costs. In FY 2022-23, Federal subsidy payments were cut by 5.7% under permanent congressionally mandated sequestration. As a result of the reduced subsidy payments, the net interest rate for the District's BABs issue increased from 4.30% to 4.44%.

Risk Management

The Risk Management Department identifies potential risk and loss exposures and safeguards the District, its capital assets, and employees through its self-insurance and loss control programs, purchasing of appropriate insurance coverages, and developing risk management policies and procedures. The District utilizes a combination of self-insurance and third-party liability insurance to minimize loss exposures from property claims, third-party liability claims and workers compensation claims. The District self-insures the first \$50,000 per occurrence for property losses, \$100,000 per occurrence for third-party liability claims, \$125,000 per occurrence for workers compensation, and \$250,000 per occurrence for cyber liability claims. Various control techniques used to minimize loss include, but are not limited to, regular employee safety meetings and training sessions, the use of uniform language in contracts designed to limit or prevent liability exposure, general risk assessments, and the development of emergency plans, including a business continuation plan. The District engages an outside firm to periodically evaluate its network security. The external network security and cybersecurity assessments, and ongoing staff education and awareness, are just a few of the continuous efforts by the District to safeguard information.

Major Initiatives

The District's major initiatives during FY 2022-23 include continuing programs to secure water supplies, as well as expanding sewage treatment capacity and diverting sewage flows, water education programs, and the continuing implementation of the Water Use Efficiency Plan.

Water Supply Reliability

Groundwater Program

One of the goals of the District's Water Resources Master Plan is to identify a reliable water supply mix which includes developing sufficient groundwater production capacity to pump IRWD's portion of the Orange County Ground Water Basin, additional local groundwater production, and to have enough capacity to meet demands during outage conditions. Currently, the District meets these goals and has the ability to produce approximately 45,000 - 50,000 acre feet per year (AFY) of potable groundwater and 4,000 - 5,000 AFY of non-potable groundwater.

Water Banking

In addition to developing its local groundwater and recycled water systems, the District is further improving its water supply reliability by developing and operating water banking facilities in Kern County, California. These neighboring projects are known as the Strand Ranch Integrated Banking Project and the Stockdale West Integrated Banking Project (collectively, the IRWD Water Bank). The IRWD Water Bank is situated on groundwater recharge lands that overlie the regional Kern County groundwater basin. The purpose of the IRWD Water Bank is to improve the District's water supply reliability by capturing and storing low cost water available during wet hydrologic periods for use during dry periods. The IRWD Water Bank enhances the District's ability to respond to drought conditions and potential long-term water supply interruptions and enables it to reduce the cost of water delivered under such conditions.

The District has entered into agreements for a 30-year water banking partnership with the Rosedale-Rio Bravo Water Storage District (Rosedale) in Kern County. These agreements provide for Rosedale to operate the IRWD Water Bank on behalf of the District and permits the District: (i) to store up to 126,000 acre feet of water in the aquifer; (ii) to recharge a minimum of 44,600 acre feet of water per year in the aquifer; and (iii) to recover a minimum of 28,750 acre feet of water per year from the aquifer.

The District has constructed groundwater recharge ponds and related facilities at its IRWD Water Bank that are necessary to divert water from an adjacent canal into the ponds. Groundwater wells have been constructed on the Strand Ranch and Stockdale West properties. The District, in partnership with Rosedale and others, has also constructed additional wells that will increase the ability to recover water from the IRWD Water Bank during peak summer demand periods. The District has secured water from a number of sources for recharge at the IRWD Water Bank.

The District has entered into an agreement with Metropolitan Water District of Southern California (MWD) which allows the District to convey water through Metropolitan facilities from the IRWD Water Bank into the District's service area.

Since 2010, the District has delivered a total of approximately 101,900 acre feet of water to the IRWD Water Bank through its water supply partnerships. The District has returned its partner's share of the water and holds approximately 40,000 acre feet of water in storage for future use in IRWD's service area. The District is currently pursuing additional potential water supply opportunities for diversion into the IRWD Water Bank.

Kern Fan Groundwater Storage Project

The Kern Fan Groundwater Storage Project (Kern Fan Project) will become a regional water bank in the Kern Fan area to capture, recharge and store unallocated Article 21 water from the State Water Project (SWP) and other water supplies during wet hydrologic periods. Water stored in the Kern Fan Project would be extracted when needed to provide ecosystem, emergency supply and water supply benefits. IRWD's share of the Kern Fan Project would be used in conjunction with the Strand Ranch and Stockdale

West Integrated Banking Projects to meet IRWD's contingency storage needs at build-out. IRWD's goal for contingency storage is to secure supplies adequate to backfill the loss of imported supplies for three consecutive years. The Kern Fan Project, along with the IRWD Water Bank will allow IRWD to meet this goal. The project will be developed, implemented, and operated by the Groundwater Banking Joint Powers Authority, which was formed between IRWD and Rosedale-Rio Bravo Water Storage District in April 2020.

In August 2017, IRWD and Rosedale jointly submitted a grant application to the California Water Commission (CWC) for the proposed Kern Fan Project. The application sought Proposition 1 funds available from the CWC through the Water Storage Investment Program (WSIP). The CWC has conditionally awarded \$89.1 million to the Kern Fan Project. In addition, in 2023 the Kern Fan Project was conditionally awarded approximately \$4.7 million in federal funding from the Bureau of Reclamation under the Small Surface Water and Groundwater Storage Projects Program, with the potential to receive up to the maximum funding level of \$30 million. The GBJPA continues to pursue additional funding opportunities.

Water Rights

The District also owns property with rights to State Water Project water which can be stored in the IRWD Water Bank. The water is available as a result of the District's acquisition of property located within the Dudley Ridge Water District, including the rights to use approximately 1,750 acre feet of Table A State Water Project water allocated to Dudley Ridge. The District can store its Table A water in the IRWD Water Bank with half of the water being available for future use in the District's service area. The acquisition also includes certain participation rights in the Kern Water Bank allowing the District to store up to approximately 9,500 acre feet of water.

The District also owns approximately 3,100 acres of agricultural land (Palo Verde Properties) in Riverside County, California. IRWD's Palo Verde Properties are located within Palo Verde Irrigation District (PVID), which has first priority rights on the Colorado River. The properties are included in a Metropolitan Water District of Southern California and PVID fallowing program under which MWD makes payments to landowners (up to approximately 970 acres of IRWD's Palo Verde Properties) in exchange for letting land lie fallow. Water that is conserved through fallowing is available for use within MWD's service area (which includes the District's service area). The District leases the Palo Verde Properties to tenant farmers for agricultural uses.

Syphon Recycled Water Seasonal Storage Reservoir

Syphon Reservoir, constructed in 1943 and located north of Irvine, is a water storage reservoir historically used for agricultural purposes. The District purchased Syphon Reservoir in January 2010, and in 2015 completed the process of converting the reservoir into a recycled water seasonal storage facility. Seasonal storage reservoirs allow the District to store excess recycled water produced in the winter months for use in higher demand summer months. This will increase water reliability by reducing the District's dependency on imported water from MWD used to supplement the recycled water system.

In 2013, the District completed a feasibility study to increase storage capacity in Syphon Reservoir from its current capacity of 450 acre feet to approximately 5,000 acre feet. Additional storage capacity would allow the District to utilize more of the recycled water it produces. An expansion of Syphon Reservoir to approximately 5,000 acre feet would allow for recycling 100% of the sewage flows tributary to MWRP. The District recently completed the preliminary design for the reservoir expansion and is advancing final design, which is anticipated to be complete in 2024. Construction of the expanded reservoir is anticipated to be complete in Summer 2029.

Community Education and Outreach

California experienced its weather extremes in Fiscal Year 2022-2023, going from historic drought to record snow and rainfall in a matter of months. Irvine Ranch Water District pivoted quickly to adapt its outreach and messaging to the changing conditions. During the first part of the year, the District focused on the drought while the second part of the year, once the weather had changed, it concentrated on tactics to inspire long-term water efficiency. The year centered on social media engagement, video platforms, and other events and media outreach.

Social Media: IRWD's humor-based #HowDoYouDrought social media campaign kicked off the fiscal year in the thick of the state's drought emergency with funny posts that sparked conversations about saving water. The monthlong campaign delivered over 3.2 million impressions and 19,000 engagements; at the same time, the District saw a 17.8% reduction in per-capita residential water use as compared to the 2020 baseline established by the State Water Board. A subsequent campaign, featuring Wastey, The World's Worst Mascot, (introduced in the #HowDoYouDrought campaign), netted over 4.4 million impressions, 500,000 video completions and 568,000 engagements, with a corresponding 10.8% reduction in water use versus the baseline.

Video: IRWD reimagined its use of video, primarily in its landscape-focused video series "The Shed Show." Episode 2 of this series ran from August into November, featuring a more traditional 10-minute segment on transforming small spaces of turf using California native plants. The episode received 1.9 million impressions. Striving to reach a larger audience, the District reinvented the series for Episode 3, leveraging humor and computer-graphic illustrations to create offbeat one-minute segments focused on water-saving irrigation upgrades. With IRWD Senior Water Efficiency Specialist Juan Garcia as host, segments featured quirky concepts such as Juan falling inside a droplet from a drip irrigation tube, or

spouting a gush of water with his mouth atop a rotary spray nozzle. The new approach emphasized video completions – promoting the shorts on traditional social media platforms and paid connected TV. The result: Episode 3 received 2 million impressions, nearly 400,000 engagements, and more than 600,000 video completions in its first run from November to January.

Drops in per-capita residential water use correlated with these campaigns, at times achieving savings as high as 24.3%. Participation in the District's Turf Replacement rebate program also increased during this time.

Events: Face-to-face interaction was a large part of the District's outreach this year, with staff hosting or participating in more than 35 events, reaching thousands of customers. IRWD took The Shed Show on the road with the iconic, IRWD-constructed shed featured in the video. Staff took the set to home-improvement stores and community events to spread the word about water-efficient landscaping and rebates. The shed was also a primary feature of the District's Better Yards By Design landscape expo, which drew more than 600 customers and connected them with climate-friendly landscape designers and contractors to help them transform their lawns into something water-efficient and beautiful.

Media Outreach: IRWD was in the news this year, with regular media coverage. TV coverage and industry and local news articles kept customers up to date on water issues and the importance of water efficiency. One key highlight was the broad coverage of the District's \$12.2 million federal grant announced in August at a press conference coordinated at the District's Rattlesnake Reservoir, and attended by U.S. Rep. Katie Porter, Interior Secretary Deb Haaland and other dignitaries.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Irvine Ranch Water District for its annual comprehensive financial report (ACFR) for the fiscal years ended June 30, 2004 through June 30, 2022. In order to be awarded a Certificate of Achievement, IRWD was required to publish an easily readable and efficiently organized ACFR that satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and will be submitting it to the GFOA to determine its eligibility for another certificate.

Staff would like to acknowledge the IRWD Board of Directors for their support and for maintaining the highest standards of professionalism in the management of the District's operations and finances. We would also like to thank the dedicated employees of the District for their commitment to providing high quality service to the District's customers. The preparation of this report would not have been possible without the efficient and dedicated service of the entire Finance Department staff. We also wish to express our appreciation to all staff that assisted and contributed to the preparation of this report.

Respectfully submitted,

Executive Director/CEO

Financial Section

Irvine Ranch Water District Fiscal Year Ended June 30, 2023

Independent Auditor's Report

Board of Directors Irvine Ranch Water District Irvine, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and the aggregate remaining fund information of Irvine Ranch Water District (the District), as of and for the year June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of Irvine Ranch Water District, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an

auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net pension liability and related ratios, schedule of contributions - defined benefit pension plan, schedule of changes in the OPEB liability and related ratios, and schedule of contributions - OPEB be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited the District's 2022 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 30, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the *introductory section* and *statistical section* but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

in accordance with Government Auditing Standards, we have also issued our report dated
, 2023 on our consideration of the District's internal control over financial
eporting and on our tests of its compliance with certain provisions of laws, regulations,
contracts, and grant agreements and other matters. The purpose of that report is solely to
describe the scope of our testing of internal control over financial reporting and compliance
and the results of that testing, and not to provide an opinion on the effectiveness of internal
control over financial reporting or on compliance. That report is an integral part of an audit
performed in accordance with Government Auditing Standards in considering the District's
nternal control over financial reporting and compliance.

Irvine,	California	
		_, 2023

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the financial performance of the Irvine Ranch Water District (District) provides an overview of the District's financial activities for the fiscal year ended June 30, 2023. This section should be read in conjunction with the basic financial statements and notes to the basic financial statements, which follow this analysis.

Financial Highlights

- Total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$2,189.5 million (net position), consisting of \$1,434.5 million in net investment in capital assets, \$336.8 million restricted for water services and \$418.2 million restricted for sewer services. This is an increase of \$77.5 million or 3.7 percent over the prior fiscal year net position of \$2,112.0 million.
- Total assets are \$2,948.4 million, an increase of \$36.3 million or 1.2 percent over the prior fiscal year. Total assets consist primarily of \$371.2 million in cash and investments, \$63.4 million in receivables, \$20.7 million in other current assets, \$2,081.7 million in net capital assets, and \$411.4 million in noncurrent assets. The increase from the prior year is due primarily to a \$51.9 million increase in net capital assets, a \$15.0 million increase in real estate investments, and a \$11.9 million increase in pension trust investments. These were partially offset by a \$29.9 million decrease in the District's cash and investments and a \$17.2 million decrease in due from other agencies relating to cash deposits held by OC San.
- Total liabilities are \$807.2 million, an increase of \$4.5 million or 0.6 percent from the prior fiscal year. Liabilities consist primarily of \$648.8 million of debt, \$105.7 million of net pension and OPEB liabilities, \$47.4 million of accounts payable and other liabilities, and \$5.3 million of swap liability. The total decrease over the prior year is due primarily to an increase of \$45.6 million in net pension liability, partially offset by, a total principal debt payments of \$18.3 million made during the fiscal year, a decrease of \$10.8 million in accounts payable and accrued expenses, a \$2.3 million of premium amortization, a decrease of \$5.0 million in accumulated losses associated with the fair value of interest rate swaps, and a decrease of \$4.4 million in net OPEB liability.
- The Irvine Ranch Water District Pension Trust (Pension Trust) was established in June 2013 to assist in funding the District's CalPERS unfunded liability. As of June 30, 2023, the District's total pension assets (including the CalPERS and Pension Trust assets) as a percentage of its total pension liability is 102.7 percent. For more detail, see Note 13 of the Notes to the Basic Financial Statements.
- The Irvine Ranch Water District Other Post-Employment Benefits Trust (OPEB Trust) was established in January 2023 to "pre-fund" a portion of the OPEB unfunded liability. The District made an initial \$10.0 million contribution to the OPEB Trust in June 2023. As of June 30, 2023, the total value of the assets in the OPEB Trust was approximately \$10.1 million.
- Total revenues are \$321.0 million, an increase of \$49.1 million or 18.1 percent over the prior fiscal year. Revenues consist primarily of \$188.3 million in water and sewer related revenues generated from rates, \$77.0 million in property taxes, \$18.7 million in real estate income, \$8.3 million in pension trust investments income, and \$7.8 million increase in fair value of real estate investments. Operating revenues increased \$0.1 million due primarily to a Board approved rate increase effective February 2022, partially offset by reductions in customer sales. Nonoperating revenues increased \$49.0 million due primarily to increases in the fair value of pension trust investments and the District's fixed income investment interest income.
- Total expenses are \$297.8 million, an increase of \$17.4 million or 6.2 percent over the prior fiscal year. Operating expenses consist primarily of \$182.6 million in water and sewer related revenues to operating the systems, \$83.5 million of depreciation, and \$22.4 million of interest expense. Operating expenses increased \$15.8 million due primarily to increased general and administration expenses due to higher pension expense, higher flows to OC San for handling, treatment, and disposal of sewage, and increased depreciation expense. Nonoperating expenses increased by \$1.6 million due to an increase of \$1.7 million in interest expense.

Financial Highlights (Continued)

• Capital contributions are \$54.3 million, an increase of \$8.0 million or 17.3 percent over the prior fiscal year. This is due primarily to a \$6.0 million increase in the number of donated facilities that were completed and donated from developers to the District and a \$4.0 million increase in connection fees paid by developers, partially offset by a \$2.0 million decrease in grants.

More detailed analysis about the overall District's financial position and operations is provided in the following sections.

Overview of the Financial Statements

The basic financial statements of the District consist of the financial statements (the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows), Statement of Fiduciary Net Position, Statement of Changes in Fiduciary Net Position, and notes to the basic financial statements. The basic financial statements are prepared using the accrual basis of accounting. This report also contains other supplementary information in addition to the basic financial statements.

Statement of Net Position depicts the District's financial position at June 30, the end of the District's fiscal year. The statement of net position shows all financial assets and liabilities of the District. Net position represents the District's residual interest after liabilities and deferred inflows of resources are deducted from assets and deferred outflows of resources. Net position is displayed in two components: net investment in capital assets and restricted for water and sewer services.

Statement of Revenues, Expenses and Changes in Net Position provides information on the District's operations and can be used to determine whether the District has recovered all of its costs through operating and nonoperating revenues.

Statement of Cash Flows provides information on the District's cash receipts, cash payments and changes in cash resulting from operations, investments, and financing activities.

Fiduciary Fund is used to account for assets held by the OPEB Trust and assets held by the District as a custodian for the San Joaquin Wildlife Sanctuary (SJWS).

Notes to the Basic Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

The **Other Information** includes *required supplementary information* concerning the District's progress in funding its obligations to provide pension and other post-employment benefits to its employees.

Financial Analysis of the District

The following condensed schedules contain summary financial information extracted from the basic financial statements to assist general readers in evaluating the District's overall financial position and results of operations as described in this Management's Discussion and Analysis (MD&A). Increases or decreases in these schedules can be used as performance indicators to assess whether the District's overall financial position has improved or deteriorated. Other external factors such as changes in economic conditions, customer growth, and legislative mandates should also be considered as part of this analysis.

Financial Position Summary

The Statement of Net Position reflects the District's financial position as of June 30. The statement includes assets, deferred outflow of resources, liabilities, and deferred inflows of resources. The net position represents the District's net worth including, but not limited to, capital contributions and net investment in capital assets. A condensed summary of the District's total net position at June 30 is set forth below:

	Table 1 - Summary of Net Position (in millions)						
	Increase/(Decrease						(Decrease)
		2023		2022	A	mount	Percentage
Assets							_
Current assets	\$	455.3	\$	498.3	\$	(43.0)	-8.6%
Capital assets, net		2,081.7		2,029.8		51.9	2.6%
Other noncurrent assets		411.4		384.0		27.4	7.1%
Total assets		2,948.4		2,912.1		36.3	1.2%
Deferred Outflows of Resources		58.3		32.1		26.2	81.6%
Liabilities							
Current liabilities		60.2		69.9		(9.7)	-13.9%
Long-term liabilities		747.0		732.8		14.2	1.9%
Total liabilities		807.2		802.7		4.5	0.6%
Deferred Inflows of Resources		10.0		29.5		(19.5)	-66.1%
Net Position							
Net investment in capital assets		1,434.5		1,362.3		72.2	5.3%
Restricted for water services		336.8		358.3		(21.5)	-6.0%
Restricted for sewer services		418.2		391.4		26.8	6.8%
Total net position	\$	2,189.5	\$	2,112.0	\$	77.5	3.7%

As shown in Table 1, the District's total assets increased \$36.3 million or 1.2 percent during the current fiscal year. Current assets decreased \$43.0 million or 8.6 percent due primarily to a \$29.8 million decrease in cash and investments balances. The District established and made an initial \$10.0 million contribution to the OPEB Trust to "pre-fund" a portion of the OPEB unfunded liability. In addition, current assets include amounts due from other agencies relating to cash deposits held by OC San, the District's third-party provider for excess sewage flows, which decreased by \$17.2 million based on the agreements between the two agencies for future obligations.

Capital assets increased \$51.9 million or 2.6 percent during the current fiscal year. The District added \$100.5 million in water and sewer assets during the year partially offset by an increase of \$79.9 million in accumulated depreciation. The largest capital spending during the current fiscal year was \$9.6 million for the Woodbridge Recycled Water Pipeline Replacement Project, \$7.4 million for the Zone A to Rattlesnake Reservoir Pump Station Project, and \$7.0 million for the Water System's General System Modification and Replacement Project.

Other noncurrent assets increased \$27.4 million or 7.1 percent during the current fiscal year. Noncurrent assets include the District's real estate investments and the pension trust investments.

Financial Position Summary (Continued)

The real estate investments increased by \$15.0 million due primarily to an increase in the fair value of real estate investments and tenant improvements of the Sand Canyon General Office property. In addition, the pension trust investments increased by \$11.9 due primarily to an increase in the fair value of pension trust investments.

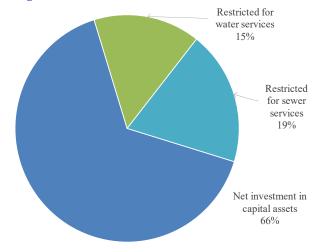

The District's deferred outflows of resources increased by \$26.2 million or 81.6 percent over the prior fiscal year. The increase is due primarily to a \$20.8 million increase in pension actuarial related changes in assumptions and experiences and a \$10.0 million increase in OPEB contributions to the OPEB Trust, partially offset by a \$5.0 million decrease in accumulated losses associated with the fair value of interest rate swaps.

The District's total liabilities increased \$4.5 million or 0.6 percent in the current fiscal year. This was due primarily to a \$45.6 million increase in net pension liability, partially offset by a \$18.3 million in principal payments of the District's general obligation bonds and certificates of participation during the current fiscal year, a \$2.3 million of premium amortization, a \$10.8 million decrease in the accounts payable to various vendors, a \$5.0 million in accumulated losses associated with the fair value of interest rate swaps, and a \$4.4 million decrease in OPEB liability.

The District's deferred inflows of resources decreased \$19.5 million or 66.1 percent in the current fiscal year. This is primarily due to a \$24.0 million decrease in pension actuarial related changes in assumptions and experiences, partially offset by a \$4.8 million increase in OPEB actuarial related changes in assumptions and experiences.

Net position at the end of the current fiscal year increased \$77.5 million or 3.7 percent. Net position consists of net investment in capital assets and restricted net positions (Figure 1).

Figure 1 - Net Position at June 30, 2023

Net investment in capital assets are capital assets, net of accumulated depreciation/amortization liabilities (such as debt) attributable to acquisition, construction, improvement of those assets. investment in capital assets was \$1,434.5 million or 65.5 percent of total net position, an increase of \$72.2 million from the prior fiscal year. The change is due primarily to \$51.9 million in net capital asset additions, \$18.3 million of debt principal \$2.3 and million payments amortizations of premiums in the current fiscal year.

Restricted net position for water services was \$336.8 million or 15.4 percent of total net position. Restricted net position for sewer services was \$418.2 million or 19.1 percent of total net position. Restricted net positions are restricted by legislation which imposes requirements that District assets be used only for the specific purposes for which it was formed.

Activities and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position summarizes the District's operations during the current fiscal year. A Summary of the District's changes in net position for the fiscal years ended June 30, is included in Table 2 below:

Table 2 - Revenues, Expenses and Changes in Net Position (in millions)							
	Increase/(Decre						
	2023 2022		2022			Percentage	
Operating revenues							
Water sales and service charges	\$	103.6	\$	103.3	\$	0.3	0.3%

Change in net position		77.5		37.8		39.7	105.0%
Beginning net position	2	2,112.0	2	2,074.2		37.8	1.8%
Ending net position	\$ 2	2,189.5	\$ 2	2,112.0	\$	77.5	3.7%

Revenues

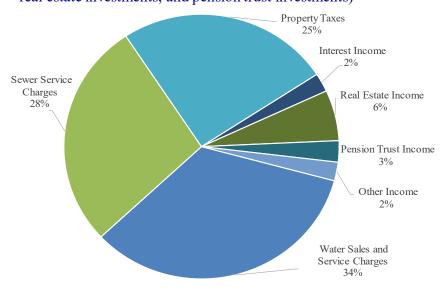

As shown in Table 2, the District's operating revenues total \$188.3 million or 58.7 percent of total revenues. Water sales contributed \$103.6 million or 55.0 percent to total operating revenues and sewer sales contributed \$84.7 million or 45.0 percent to total operating revenues. Operating revenues increased by \$0.1 million or 0.1 percent from the prior fiscal year. The increase is primarily due to a Board approved rate increase effective February 2022, partially offset by reductions in customer sales.

The chart below illustrates the sources of revenue for the fiscal year ended June 30, 2023.

Nonoperating revenues total \$132.7 million and account for 41.3 percent of total revenues for the fiscal year ended June 30, 2023. This is an increase of \$49.0 million or 58.5 percent from the prior fiscal year. The increase in the current fiscal year is due to:

- An increase of \$28.3 million in changes in the fair value of the pension trust investments, real estate investments, and the District's fixed income investments.
- An increase of \$8.1 million in the District's fixed income investment interest income.
- An increase of \$6.2 million in one percent and ad valorem property tax revenue associated with higher assessed values in the District's service area.
- An increase of \$3.3 million in the pension trust interest and dividends income.

Figure 2 - Revenues for Fiscal Year Ended June 30, 2023 (excluding changes in fair value of investments, real estate investments, and pension trust investments)

- An increase of \$2.3 million in income from the real estate investments.
- An increase of \$0.8 million in other nonoperating income.

Expenses

As shown in Table 2, operating expenses total \$266.1 million, of which \$182.6 million relates to the cost of providing water and sewer services to the District's customers. Water service operating costs are 106.4 percent of revenues and sewer service operating costs are 85.5 percent of revenues. Water and sewer operating expenses, excluding depreciation, increased by \$11.3 million or 6.6 percent over the prior fiscal year.

Water expenses totaled \$110.2 million, an increase of \$3.8 million or 3.6 percent from the prior fiscal year primarily due to:

- An increase of \$5.8 million in general and administration expenses due primarily to an increase in pension expense.
- An increase of \$4.2 million in electricity, chemicals, labor costs, and other professional services for potable and untreated water treatment and system maintenance.
- A decrease of \$5.0 million in water costs due primarily to lower imported water purchases.
- A decrease of \$1.6 million in expensed water projects relating to the District's capital program.
- Other net increases of \$0.4 million.

Expenses (Continued)

Sewer service expenses totaled \$72.4 million, an increase of \$7.5 million or 11.6 percent from the prior fiscal year primarily due to:

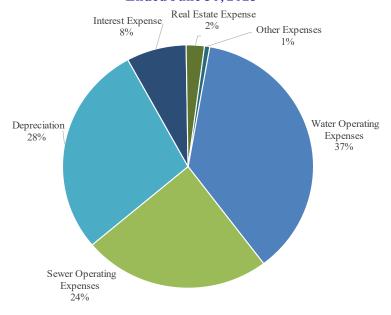

- An increase of \$5.2 million in general and administration expenses due primarily to an increase in pension expense.
- An increase of \$2.2 million in chemicals, labor costs, and professional services.
- An increase of \$2.1 million in the cost of handling, treatment, and disposal of sewage sent to the District's third-party provider OC San due to higher flows.
- A decrease of \$1.9 million in recycled water purchases.
- Other net decreases of \$0.1 million.

Depreciation expense totaled \$83.5 million, an increase of \$4.5 million or 5.7 percent over the prior fiscal year. The increase is the result of the completion of several capital projects.

Nonoperating expenses totaled \$31.7 million, an increase of \$1.6 million or 5.3 percent from the prior fiscal year primarily due to:

- An increase of \$1.7 million in interest expense associated with the District's debt.
- An increase of \$0.7 million in real estate expense.
- A decrease of \$0.8 million in other nonoperating expenses associated with the prior fiscal year's

Figure 3 - Functional Expenses for Fiscal Year Ended June 30, 2023

write-off of customer accounts receivable as a result of federal funding received from the California Water and Wastewater Arrearage Payment Program provided by the California State Water Resources Control Board.

Capital Contributions

Capital contributions totaled \$54.3 million, an increase of \$8.0 million or 17.3 percent from the prior fiscal year. Donated facilities from developers increased \$6.0 million due to an increased number of projects that were completed and donated to the District. Connection fees paid by developers were \$14.4 million, an increase of \$4.0 million from the prior year due to a higher number of new units in the building industry. The District also received \$2.0 million less from grants / contributions from federal, state, and local agencies compared to the prior fiscal year.

Capital Assets

The District's investment in capital assets consists of the following as of June 30:

Table 3 - Capital Assets, Net of Depreciation (in millions)								
			Increase/	(Decrease)				
	2023	2022	Amount	Percentage				
Water assets	\$ 1,326.2	\$ 1,273.6	\$ 52.6	4.1%				
Sewer assets	1,730.1	1,682.2	47.9	2.8%				
Less: accumulated depreciation	(1,213.0)	(1,133.1)	(79.9)	7.1%				
Land and water rights	127.5	126.6	0.9	0.7%				
Construction in progress	110.9	80.5	30.4	37.8%				
Total	\$ 2,081.7	\$ 2,029.8	\$ 51.9	2.6%				

Capital assets, net of depreciation increased \$51.9 million or 2.6 percent in the current fiscal year. Construction in Progress added \$119.7 million during the current fiscal year. Total projects transferred from Construction in Progress to Capital Assets and depreciated during the fiscal year ended June 30, 2023 were \$89.3 million. The District's accumulated depreciation increased by \$79.9 million for depreciation expense in the current fiscal year. The following is a list of the top 10 capital projects expenditures which accounted for 38.2 percent of total capital assets additions incurred in the current fiscal year (in millions):

Project Description	Amount
Woodbridge Recycled Water Pipeline Replacement	\$ 9.6
Zone A to Rattlesnake Reservoir Pump Station	7.4
Water System's General System Modification and Replacement	7.0
San Joaquin Reservoir Outlet Recycled Water Filtration System	4.5
Fleming Reservoir and Pump Station Improvements	4.2
Zone C Recycled Water Pump Station	4.0
Syphon Reservoir Expansion	2.8
Recycled Water General System Modification and Replacement	2.6
Santiago Dam Outlet Tower and Spillway	1.8
Zone 1 Reservoir Replacement Interior Coating	1.8
Total	\$ 45.7

Additional information on the District's capital assets can be found in Note 5 of the Notes to the Basic Financial Statements.

Debt Administration

As shown below in Table 4, as of June 30, 2023, the District had total debt outstanding of \$648.8 million, a decrease of \$20.5 million or 3.1 percent from the prior fiscal year.

Table 4 - Outstanding Debt (including current portions) (in millions)							
					I	ncrease/	(Decrease)
	2023 2022						
General Obligation bonds	\$	520.0	\$	535.3	\$	(15.3)	-2.9%
Certificates of participation		127.9		133.2		(5.3)	-4.0%
Notes payable		0.2		0.3		(0.1)	-33.3%
Leases payable		0.7		0.5		0.2	40.0%
Total	\$	648.8	\$	669.3	\$	(20.5)	-3.1%

During the current fiscal year, the decreases in the District's total debt were primarily due to \$18.3 million in debt payments and \$2.3 million of premium amortization. The decrease was offset by a \$0.2 million increase in leases payable. The District's rated debt obligations have received the following ratings from the three major rating agencies:

Fitch Ratings: AAA
Moody's: Aa1
Standard and Poor's: AAA

Additional information on the District's long-term debt can be found in Note 10 of the Notes to the Basic Financial Statements.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general review of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Executive Director of Finance and Administration at the Irvine Ranch Water District, 15600 Sand Canyon Avenue, Irvine, California 92618-7500.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

(1) Summary of Significant Accounting Policies

(a) Reporting Entity

The Irvine Ranch Water District (District) was formed in 1961 as a special district under Division 13 of the California Water Code (the Act). The District provides potable and recycled water service as well as sewage collection, treatment, and disposal to users within its boundaries.

The District is divided geographically into eight water and ten sewer improvement districts (IDs), as well as several planning areas (PAs) that function as informal improvement districts. Each improvement district is a sub-fund of the District and their primary purpose is to allocate costs and funding on an equitable basis for the construction of water, sewer, and recycled water infrastructure. Most improvement districts have authority to issue general obligation bonds to finance the construction of capital facilities that were identified and valued in a Plan of Works specific to the improvement district. Each improvement district with authority to issue general obligation bonds also has the authority to levy and collect connection fees and ad valorem taxes on the land within its legal boundaries sufficient to meet its general obligation bond indebtedness.

Connection fees which are paid by developers and property taxes which are paid by property owners vary by improvement district based upon, among other considerations, total capital costs, ratio of developed to undeveloped land, and development densities; however, water and sewer user fees are uniform throughout the District.

Description of the Reporting Entity

The financial statements of the District include the financial activities of the following sub-fund improvement districts and planning areas:

Area Excluded from IDs 111/222 112/212 Former El Toro Marine Base 113/213 Former Tustin Marine Base 125/225 Developed/Underlay 240 Newport Coast/Newport Ridge 252 Santiago Hills 153/253 Irvine Business District /Spectrum /Shady Canyon/Laguna Laurel/East Orange 154 Santiago Canyon(s) 256 Orange Park Acres 185/285 Los Alisos Area 188/288 Portola Hills Commercial 110/210 Overall District Boundary

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(a) Reporting Entity (Continued)

Blended Component Units - Blended component units although legally separate entities, are, in substance, part of the District's operations since they have the same governing board. The District has both financial accountability and operational responsibility for the blended component units. The District has the following blended component units:

The Irvine Ranch Water District Water Service Corporation – In January 1997, the District formed a 501(c)(4) corporation for the purpose of financing and acquiring water, sewer and other public improvements. The Corporation was created to effect the merger of the Santa Ana Heights Water Company and the issuance of the 2002 Certificates of Participation, 2008 Refunding Certificates of Participation, 2010 Refunding Certificates of Participation, and 2016 Certificates of Participation. The Corporation's bylaws mandate that the members of the District's Board of Directors shall constitute the Corporation's five-member Board of Directors. The Irvine Ranch Water District Water Service Corporation does not issue separate financial statements.

Bardeen Partners, Inc. – In March 1991, the District formed a 501(c)(4) corporation for the purpose of accounting for the financial data and transactions for certain District real estate investments, including the investments in Wood Canyon Villas, Sycamore Canyon Apartments, and Irvine Technology Center. Bardeen Partners is governed by a Board of Directors consisting of the five members of the District's Board of Directors. Bardeen Partners does not issue separate financial statements.

(b) Basic Financial Statements

The basic financial statements are comprised of the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, the Statement of Cash Flows, the Statement of Fiduciary Net Position, the Statement of Changes in Fiduciary Net Position, and the Notes to the Basic Financial Statements.

(c) Measurement Focus, Basis of Accounting and Financial Statement Presentation
The District's financial activities are accounted for as an enterprise fund (proprietary fund type). A fund is an accounting entity with a self-balancing set of accounts established to record the financial position and results of operations of a specific governmental activity. The activities of enterprise funds closely resemble those of ongoing businesses in which the purpose is to conserve and add to basic resources while meeting operating expenses from current revenues. Enterprise funds account for operations that provide services on a continuous basis and are substantially financed by revenues derived from user charges.

The fiduciary fund types include a trust fund and a custodial fund. The trust fund is used to account for assets held by the Irvine Ranch Water District Other Post-Employment Benefits Trust (OPEB Trust). The custodial fund is used to account for assets held by the District as a custodian for the activities of the San Joaquin Wildlife Sanctuary (SJWS).

Both the enterprise fund and fiduciary fund utilize the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as they are incurred. Internal activity has been eliminated in the accompanying basic financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(c) Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The District distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with water and sewer operations. The principal operating revenues of the District are charges to customers for sales and services. Operating expenses include cost of sales and services, general and administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Capital contributions consist of contributed capital assets, connection fees, grants and other charges that are legally restricted for capital expenditures by state law or by the Board action that established those charges.

Net position of the District is classified into two components: (1) net investment in capital assets and (2) restricted net position. These classifications are defined as follows:

Net Investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation reduced by the outstanding balances of notes or borrowing(s) that are attributable to the acquisition of the asset, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

Restricted net position – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, the District uses unrestricted resources first, and then restricted resources as they are needed. For capital expenditures, legally available restricted bond proceeds are used first, then other restricted resources, and then unrestricted resources are used if needed.

(d) **Property Taxes**

The District is authorized under the Act to levy taxes on all taxable property (lands only) within its boundaries for the purposes of paying certain of its debt obligations, subject to certain limitations in the Act, the Revenue and Taxation Code and the California Constitution. The District also receives a portion of the County's 1% ad valorem property taxes from certain lands within its boundaries. Property tax revenue is recognized in the fiscal year in which the taxes are levied. The property tax calendar is as follows:

Lien date: January 1 Levy date: July 1

Due date: First installment – November 1

Second installment – February 1 First installment – December 10

Delinquent date: First installment – December 1
Second installment – April 10

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(d) **Property Taxes (Continued)**

The assessment, levy and collection of property taxes are the responsibility of the County of Orange and are remitted to the District periodically.

(e) Cash and Cash Equivalents

For the purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near to their maturity that they present insignificant risk of changes in value because of changes in interest rates and have an original maturity date of 3 months or less.

(f) District Investments

Investments are reported in the accompanying Statement of Net Position at fair value, except for certain investment contracts that are reported at cost because they are not transferable, and they have terms not affected by changes in market interest rates.

Changes in fair value that occur during the fiscal year are recognized as an increase (decrease) in fair value of investments reported for that fiscal year. Interest income includes interest earnings on the District's investments.

(g) Pension and OPEB Trusts Investments

Investments of the Pension Trust are reported in the accompanying Statement of Net Position at fair value. Investments of the OPEB Trust are reported in the accompanying Statement of Fiduciary Net Position at fair value.

Changes in fair value that occur during the fiscal year are recognized as an increase (decrease) in fair value of investments reported for that fiscal year. Interest income is recorded on the accrual basis. Dividends are recorded on the payment date.

(h) Real Estate Investments

Real estate investments consist of a wholly-owned apartment complex and four commercial office properties. The District is also a party to a real estate limited partnership in which the District has more than a 50% ownership interest but does not exercise control. All real estate investments are reported at fair value. Changes in fair value that occur during the fiscal year are recognized as increase (decrease) in fair value of real estate investments reported for that fiscal year.

(i) Fair Value Measurements

Certain assets and liabilities are required to be reported at fair value. The fair value framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(i) Fair Value Measurements (Continued)

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly and fair value is determined through the use of models or other valuation methodologies including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are inactive.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These unobservable inputs reflect the District's own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk). These unobservable inputs are developed based on the best information available in the circumstances and may include the District's own data.

(j) Inventory and Prepaid Items

Water inventory related to water stored in its banking facilities in Kern County is stated at its purchase cost or at a rate equivalent to what the District would charge for storage. The District's warehouse materials and supplies are valued using the average cost method. Inventory is recorded when purchased, and expensed at the time the inventory is consumed. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

(k) Capital Assets and Depreciation

Capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated assets are valued at their estimated acquisition value on the date received. The District capitalizes all assets with a historical cost of at least \$10,000 and a useful life of at least three years. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Depreciation is computed utilizing the straight-line method over the following estimated useful lives:

Buildings and Structures 3 to 100 years Transmissions and Distributions 10 to 75 years Machinery and Equipment 3 to 50 years

(1) Compensated Absences

The District's policy permits employees to accumulate earned but unused vacation and sick leave benefits up to certain limits. Earned vacations pay to a maximum of 400 hours (or more with written approval of the General Manager). Sick leave hours accrue at the rate of one day per month and employees may elect to receive cash for accumulated sick leave for up to 96 hours in excess of the first 80 hours accumulated. Fifty percent of accumulated sick leave up to a maximum of 960 hours may be paid upon termination of employment. All accumulated vacation and vested sick leave pay is recorded as expense at the time the benefit is earned.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(m) **Pensions**

For purposes of measuring the net pension liability, deferred outflows and inflows of resources relating to pensions and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD) June 30, 2021 Measurement Date (MD) June 30, 2022

Measurement Period (MP) July 1, 2021 to June 30, 2022

(n) Other Post-Employment Benefits (OPEB)

The OPEB liability, deferred outflows and inflows of resources relating to OPEB and OPEB expense have been determined by an independent actuary. Benefit payments are recognized when currently due and payable in accordance with the benefit terms.

GASB requires that the reported results pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD) June 30, 2022 Measurement Date (MD) June 30, 2022

Measurement Period (MP) July 1, 2021 to June 30, 2022

(o) Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred amounts related to refunding charges, accumulated decreases in fair value of swap agreements, employer contributions subsequent to measurement date for pension and OPEB, and actuarial amounts related to pension and OPEB.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The deferred amounts are related to actuarial amounts of pension, OPEB, and leases.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(p) Leases

Lessee: The District is a lessee for the noncancellable leases of production well and antenna sites. The District recognizes a lease liability and an intangible right-to-use the lease asset (lease asset) in the basic financial statements. The District recognizes lease liabilities with an initial, individual value of \$10,000 or more and a useful life of at least three years.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the District has determined is reasonably certain to be exercised. In those situations, the lease is amortized over the useful life of the underlying asset.

Key estimates and judgements related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments at present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the Statement of Net Position.

Lessor: The District is a lessor for the noncancellable leases of land properties. The District recognizes a lease receivable and a deferred inflow of resources in the basic financial statements.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable is adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Summary of Significant Accounting Policies (Continued)

(p) Leases (Continued)

Key estimates and judgements include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a re-measurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

(q) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(r) Comparative Financial Statements and Reclassifications

The information included in the accompanying financial statements for the prior year has been presented for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles. Certain amounts presented in the prior year financial statements have been reclassified in order to be consistent with the current year's presentation.

(2) Cash and Investments

Cash and investments as of June 30, 2023 are classified in the accompanying financial statements as follows (in thousands):

Proprietary Fund:

District Cash and Investments	\$ 371,239
Pension Trust Investments	106,742
Total Proprietary Fund	477,981
Fiduciary Funds:	
OPEB Trust Fund	10,107
Custodial Fund	958
Total Fiduciary Funds	11,065
Total Cash and Investments	\$ 489,046

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(2) Cash and Investments (Continued)

Cash and investments as of June 30, 2023 consist of the following (in thousands):

Cash on hand	\$ 3
Deposits with financial institutions	9,879
Investments	479,164
Total Cash and Investments	\$ 489,046

The following table identifies the investment types that are authorized for the District by the California Government Code, the California Water Code, and the District's investment policy, whichever is most restrictive. The table also identifies certain provisions that address interest rate risk and concentration of credit risk.

Authorized Investment Type	Maximum Maturity ⁽¹⁾	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds	5 years	None	None

⁽¹⁾ Maximum maturity unless express authority has been granted otherwise by the Board of Directors pursuant to the California Government Code Section 53601.

^{(2) 30%} of Replacement Fund, as authorized by the California Water Code Section 35912.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(2) Cash and Investments (Continued)

Pension and Other Post-Employment Benefits (OPEB) Trusts (The 115 Trusts) Authorized Investment Strategy

The District recognizes that defined benefit plans and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the issue and in 2013, established a Pension Trust to substantially fund its CalPERS unfunded liability. In 2023, the District established a new OPEB section 115 Trust to fund a portion of its unfunded OPEB liability. The 115 Trusts' investment policy authorizes investment of Trust assets in financial instruments in three broad categories: equity, fixed income, and real estate. These financial instruments can include, but are not limited to, corporate bonds, commercial paper, U.S. government securities, common and preferred stock, real estate investment trusts, and mutual funds. Investments may include derivatives, options and futures as portfolio protection strategies. The following is a summary of the 115 Trusts' investment policy.

The 115 Trusts are governed by a 115 Trusts Board (the Board) which consists of two IRWD Board members and the General Manager. The Board designates one or more investment advisors to manage the assets under their supervision subject to the laws of the State of California and Investment Guidelines established by the Board. The long-term asset allocation policy including the minimum-maximum asset allocation range for each asset class is as follows:

Asset Classes	Minimum	Maximum
Cash	0%	30%
Public Equity- Domestic & International	30%	80%
Private Equity	0%	5%
Fixed Income	10%	40%
Real Estate	0%	10%

The asset allocation policy will be pursued by the 115 Trusts on a long-term basis and may be revised if necessary due to market conditions. The Board will monitor the current asset allocation against the long-term allocation policy and rebalance as it deems necessary.

Cash equivalent reserves shall consist of cash instruments having a quality rating of A-1, P-1 or higher, as established by Moody's or Standard & Poor's. Bankers' acceptances, certificates of deposit and savings accounts must be made of United States banks or financial institutions, or United States branches of foreign banks, which are federally insured with unrestricted capital of at least \$50 million. Short-term corporate obligations must be rated A or better by Moody's or by Standard & Poor's. Money Market funds must attain the highest ranking or the highest letter and numerical rating provided by not less than two nationally recognized statistical rating organization (NRSRO).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(2) Cash and Investments (Continued)

Pension and Other Post-Employment Benefits (OPEB) Trusts (The 115 Trusts) Authorized Investment Strategy (Continued)

Equity investments are restricted to high quality, readily marketable securities of corporations that are actively traded on a major exchange. Not more than 5% of the total stock portfolio valued at fair value may be invested in the common stock of any one corporation. Ownership of the shares of one company shall not exceed 2% of those outstanding. Not more than 25% of stock valued at fair value may be held in any one industry category. The overall non-U.S. equity allocation should include a diverse global mix of at least 10 countries. The emerging markets exposure as defined by Morgan Stanley Capital International Inc. should be limited to 35% of the non-U.S. portion of the portfolio.

Fixed income securities of any one issuer shall not exceed 5% of the total bond portfolio, at time of purchase. The 5% limitation does not apply to issues of the U.S. Treasury or other Federal Agencies. The overall rating of the fixed income assets shall be at least "A", according to one of the three rating agencies (Fitch, Moody's or Standard & Poor's). In cases where the yield spread adequately compensates for additional risk, securities where two of the three rating agencies (Fitch, Moody's or Standard & Poor's) have assigned ratings of Baa3 or BBB- ratings, can be purchased up to a maximum of 20% of total fair value of fixed income securities.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code requires that a financial institution secure deposit made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

(2) Cash and Investments (Continued)

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming near to maturity as necessary to provide the cash flow and liquidity needed for District operations.

Information about the sensitivity of the fair values of the District's and 115 Trusts' investments to market interest rate fluctuations is provided by the following table that shows the distribution of the investments by maturity at June 30, 2023 (in thousands):

		Remaining Maturity				
		12 Months	13 to 36	37 Months	Not

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that the issuer of the investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of year-end for each investment type (in thousands):

District Cash and Investments:

			Not
Investment Type	Amount	$\mathbf{AAA}^{(1)}$	Rated
Federal Agency Securities	\$ 151,328	\$ 136,480	\$ 14,848
US Treasury Note	185,890	185,890	-
Money Market	25,097	25,097	-
Total	\$ 362,315	\$ 347,467	\$ 14,848

Pension Trust Investments:

Investment Type	ent Type Amount		_
Mutual Funds - Equities	\$	80,781	(2)
Mutual Funds - Fixed Income Bonds		25,913	(3)
Mutual Funds - Money Market		48	(4)
Total	\$	106,742	_

OPEB Trust Investments:

Investment Type	estment Type Amount		
Mutual Funds - Equities	\$	6,118	(5)
Mutual Funds - Fixed Income Bonds		3,968	(6)
Mutual Funds - Money Market		21	(7)
Total	\$	10,107	_

⁽¹⁾ Based on Moody's rating.

⁽⁷⁾ The Money Market Mutual Fund is not rated.

⁽²⁾ Equity Mutual Funds as of 6/30/2023 include four "index funds" and are each comprised of diversified portfolios of equity securities. Credit ratings are not provided for Equity Mutual Funds.

⁽³⁾ Fixed Income Mutual Funds are comprised of two diversified portfolios of fixed income securities. As of 6/30/2023, 46.41% of the holdings were rated A-AAA, 41.02% of the holdings were rated B-BBB, and 12.57% of the holdings were rated below B or Not Rated.

⁽⁴⁾ The Money Market Mutual Fund is not rated.

⁽⁵⁾ Equity Mutual Funds as of 6/30/2023 include one "index fund" and is comprised of diversified portfolios of equity securities. Credit ratings are not provided for Equity Mutual Funds.

⁽⁶⁾ Fixed Income Mutual Funds are comprised of one diversified portfolio of fixed income securities. As of 6/30/2023, 65.30% of the holdings were rated A-AAA, 34.10% of the holdings were rated B-BBB, and 0.60% of the holdings were rated below B or Not Rated.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(2) Cash and Investments (Continued)

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments are as follows (in thousands):

Issuer	Investment Type	Amount
FFCB	Federal Agency Security	\$ 53,721
FHLB	Federal Agency Security	78,895
	Total	\$ 132,616

Disclosures Relating to Fair Value Measurements

The District categorizes its fair value investments within the fair value hierarchy established by generally accepted accounting principles. The District has the following fair value measurements as of June 30, 2023 (in thousands):

District Cash and Investments:

			Fair Value M	easi	ure ments
Investment Type	Amount		Level 1		Level 2
Federal Agency Securities	\$ 151,328	\$	-	\$	151,328

⁽¹⁾ These are not subject to the fair value measurements classification.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>3</u>) Interest Rate Swap Agreements

In September 2003, the District's Board of Directors approved a policy regarding the use of interest rate swap transactions. The policy provides that interest rate swap transactions will be designed to enhance the relationship between risk and return with respect to an investment or a program of investments entered into by the District; and/or to reduce the amount or duration of payment, rate, spread, or similar risk; and/or result in a lower cost of borrowing when used in combination with bonds or other indebtedness of the District. Pursuant to the policy, the Board of Directors may authorize general parameters for interest rate swap transactions while the Finance and Personnel Committee would structure any specific transactions within the Board-authorized parameters. The Treasurer, with the concurrence of the Chairman of the Finance and Personnel Committee, is authorized to enter into interest rate swap transactions that are within all authorized parameters.

The International Swaps and Derivatives Association, Inc. (ISDA) Master Agreement, including the schedule and credit support annex, is used as the form of contract with interest rate swap counterparties. The District is compliant with all Dodd-Frank Protocol provisions regarding swap advisor representation and transparency.

The outstanding interest rate swaps are pay-fixed, receive variable swaps ("fixed payer swaps"). As of June 30, 2023, the notional amount and fair value balance of the District's interest rate swaps are \$60.0 million and \$(5.3) million, respectively. For the year ended June 30, 2023, the increase in fair value of the fixed payer interest rate swaps was \$5.0 million.

The fair value of the swap agreements at June 30, 2023 is calculated using a zero-coupon method (Level 2 inputs). This method calculates the future net settlement payments required by the swaps, assuming, for the LIBOR fixed payer swaps, that the current LIBOR forward rates implied by the LIBOR yield curves correctly anticipate future LIBOR spot interest rates. These payments are discounted using the spot rates implied by the current yield curves for hypothetical zero-coupon bonds due on the date of each future net settlement of the swaps.

The District's fixed payer swaps were executed in 2004 and became effective in 2007. The purpose of the fixed payer swaps was to hedge a portion of the interest rate risk exposure associated with the District's 100% variable rate debt structure at the time the swaps were executed. The interest rate swap notional amounts and maturities are not specifically related to a particular District debt issue, however, are considered a hedge of a pooled portion of the District's variable rate debt exposure.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(3) Interest Rate Swap Agreements (Continued)

The following table displays the objective and terms of the District's interest rate swaps outstanding at June 30, 2023, along with the credit rating of the associated counterparty.

Current Year Active Interest Rate Swaps (in thousands):

Туре	Objective	Notional Amount	Effective Date	Maturity Date	Terms	Counterparty Rating
Fixed	Hedge of	\$30,000	3/10/07	3/10/29	Pay	Aa1/A+/AA
Payer	changes in cash				5.687%;	
	flows on pool				receive 1-	
	of variable rate				Mo. LIBOR	
	debt issues					
Fixed	Hedge of	\$30,000	3/10/07	3/10/29	Pay	Aa3/A+/A+
Payer	changes in cash				5.687%;	
	flows on pool				receive 1-	
	of variable rate				Mo. LIBOR	
	debt issues					

The ISDA agreements for the above referenced interest rate swaps include a provision that the counterparties shall be required to post collateral should the mark-to-market value of the total interest rate swap portfolio with the respective counterparty, including any current outstanding swap accruals, exceed a threshold of \$(15.0) million. The amount of the collateral posted shall be the amount of the mark-to-market value and outstanding swap accrual amounts in excess of \$(15.0) million. As of June 30, 2023, the mark-to-market value of the total interest rate swaps with Citibank N.A. and Bank of America, N.A. as counterparties did not exceed the threshold amount.

Credit risk: The District is exposed to credit risk on interest rate swaps. To minimize its exposure to loss related to credit risk, the District's policy requires that the Finance and Personnel Committee evaluate and approve the counterparty creditworthiness of each counterparty prior to executing an ISDA Agreement, and all current swap agreements include collateral posting provisions. These terms require full collateralization of the fair value of interest rate swaps in asset positions (net of the effect of applicable netting arrangements) should the counterparty's credit rating fall below BBB+ as issued by Fitch Ratings and Standard & Poor's or Baa1 as issued by Moody's Investors Service. Collateral posted is to be in the form of U.S. Treasuries, or other approved securities, held by a third-party custodian.

The District has executed interest rate swap transactions with Bank of America, N.A. and Citibank N.A. Their ratings are Aa1/A+/AA (50% of net exposure to credit risk) and Aa3/A+/A+ (50% of net exposure to credit risk), respectively, as of June 30, 2023.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(3) Interest Rate Swap Agreements (Continued)

Interest rate risk: The District is exposed to interest rate risk on its interest rate swaps. On its fixed payer swaps, as the 1-month LIBOR index decreases, the District's net payment on the swap increases. Alternatively, on its fixed payer swaps, as the 1-month LIBOR index increases, the District's net payment on the swap decreases.

Basis risk: The District is exposed to basis risk on its fixed payer swaps because the variable-rate payments received by the District on these swaps are based on a rate or index other than interest rates the District pays on its variable-rate debt, which is remarketed daily or weekly.

Termination risk: The District or its counterparties may terminate an interest rate swap if the other party fails to perform under the terms of the contract. If at the time of termination, an interest rate swap is in a liability position, the District would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

Collateral requirements: The District's interest rate swaps include provisions that require the District to post collateral in the event its credit rating falls below A as issued by Fitch Ratings and Standard & Poor's or A2 as issued by Moody's Investors Service.

The collateral posted is to be in the form of U.S. Treasuries or other approved securities in the amount of the fair value of interest rate swaps in liability positions net of the effect of applicable netting arrangements. If the District does not post collateral, the swaps may be terminated by the counterparty. The District's credit rating is Aa1/AAA/AAA; therefore, no collateral has been posted at June 30, 2023.

$(\underline{4})$ Inventories

Inventories consist of available water in storage and materials and supplies in the District's warehouse facilities. As of June 30, 2023, the District had 38,647.9 acre-feet of banked water in various water bank facilities at a cost of \$8.8 million. Inventories at June 30, 2023 consisted of the following (in thousands):

Water in storage	\$ 8,844
Materials and supplies	10,484
Total	\$19,328

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>5</u>) Capital Assets

Capital asset activity for the year ended June 30, 2023 is as follows (in thousands):

		Balance		A J J!4!		D.1.4		Balance

Total capital assets, net	\$	2,029,778	\$	141,982	\$	(90,054)	\$	2,081,706

Total projects transferred from Construction in Progress to Capital Assets and depreciated during the fiscal year ended June 30, 2023 were \$89.3 million. The District's proportionate share of the Orange County Sanitation District's jointly funded capital assets increased \$16.1 million during the fiscal year ended June 30, 2023

Certain administrative and general expenses relating to assets under construction are charged to construction-in-progress until the assets are ready for their intended use. The amount of administrative and general expenses capitalized to construction-in-progress for the fiscal year ended June 30, 2023 was \$11.7 million.

(6) Orange County Sanitation District (OC San)

The District, with OC San, negotiated an agreement as of July 1, 1985, which has been amended from time to time. The District agreed to annually fund payment of the District's proportionate share of OC San's joint capital outlay revolving fund (CORF) budget requirements and certain capital improvements, calculated on an annual flow basis using the four highest months of actual flows, during the term of the agreement.

The capital assets associated with this agreement are co-owned by the two agencies and provide an operational benefit to both agencies. During the fiscal year ended June 30, 2023, the District paid \$10.9 million of the equity integration adjustment of OC San's capital assets. In addition, the District's CORF payments to OC San for the current fiscal year totaled \$5.2 million.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(6) Orange County Sanitation District (OC San) (Continued)

The District's share of the jointly funded capital assets and CORF in the amount of \$80.6 million is included in capital assets in the District's basic financial statements.

The accompanying basic financial statements reflect management's best estimate of balances pertaining to this agreement based upon information provided by OC San. Periodically this information is subjected to further review based on the performance of agreed upon procedures when the records for such review have been made available to the District. Adjustments pertaining to the accounting estimates associated with this agreement are recognized as the information for such adjustments becomes available. As of June 30, 2023, the District had a net receivable of \$36.7 million from OC San which is reflected as a due from other agencies in the District's basic financial statements.

(7) Leases Receivable

The District entered into two agreements that leased the District's property to third parties. These leases are in effect through 2036 and 2041. Payments to the District are based on the terms in each agreement and include certain variable payments not included in the measurement of the lease receivable. During the fiscal year, the District recognized \$1.0 million in lease revenue and \$52,186 in interest revenue related to these leases. As of June 30, 2023, the District's receivable for lease payments was \$2.2 million. Also, the District has a deferred inflow of resources associated with these leases that will be recognized as revenue over the lease terms. As of June 30, 2023, the balance of the deferred inflow of resources was \$2.2 million. The following schedule is the expected future minimum payments under these agreements (in thousands):

Fiscal Year	Pri	Principal		Interest		Total	
2024	\$	106	\$	51	\$	157	
2025		110		48		158	
2026		113		45		158

Net real estate income as of June 30, 2023 is as follows (in thousands):

Real estate income	\$ 18,694
Increase in fair value of real estate investments	7,810
Real estate expense	(7,297)
Net real estate income	\$ 19,207

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(8) Real Estate Investments (Continued)

Included in real estate investments are two apartment properties and four commercial office buildings. The District, through Bardeen Partners, Inc., is the sole limited partner in Wood Canyon Villas, L.P. (Wood Canyon), and the sole owner of both Sycamore Canyon Apartments and a commercial office building (230 Commerce). Separate from Bardeen Partners, Inc., the District is the sole owner of three other commercial office buildings (Waterworks Way Business Park, Sand Canyon Professional Center, and Sand Canyon General Office).

The construction of Wood Canyon Villas, a 230-unit apartment property, was completed in 1993. The property is located in Orange County, California, and was 97% occupied at June 30, 2023. The Wood Canyon partnership agreement provides the District with a 9% cumulative preferred return on its unrecovered contribution accounts, as defined in the agreement (\$6.0 million contribution). The property's fair value and the District's partnership interest were based on a fixed growth factor included in the limited partnership agreement.

In 1992, the District acquired a 450-unit apartment property (original cost, \$34.1 million) in Orange County, California known as Sycamore Canyon Apartments. The property was 93% occupied as of June 30, 2023. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2023.

In 2003, the District completed construction of the 41,000 square foot for-lease 230 Commerce professional office building located in Irvine, California. Land and construction costs for the project totaled \$5.6 million. The building was 89.1% occupied as of June 30, 2023. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2023.

In November 2008, the District completed construction of a 37,200 square foot for-lease R&D office building located in Irvine, California known as the Waterworks Way Business Park. The building was constructed on land owned by IRWD adjacent to a District water treatment facility. Land and construction costs for the office project totaled \$9.0 million. As of June 30, 2023, the building was 100% occupied. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2023.

In April 2012, the District completed construction of a 16,350 square foot for-lease medical office building located in Irvine, California known as the Sand Canyon Professional Center. Land and construction costs for the project totaled \$8.4 million. The building was 100% occupied as of June 30, 2023. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2023.

In August 2020, the District completed construction of a new for-lease 70,000 square foot office building located in Irvine, California known as the Sand Canyon General Office. Land and construction costs for the project totaled \$31.4 million. The building was 100% occupied as of June 30, 2023. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2023.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(9) Investment in Joint Venture

The District is a participant with the Rosedale-Rio Bravo Water Storage District (RRB) in a joint venture to design, build and operate a Kern Fan Groundwater Storage Project. Groundwater Banking Joint Powers Authority (GBJPA), a legally separate public agency, was created for that purpose effective July 1, 2020. GBJPA is governed by a four-member board composed of two appointees from the District and two appointees from the RRB. The District and the RRB are each obligated by contract to provide equal funding (50-50) of the costs and are each entitled to one-half of GBJPA's annual operating income or loss, if any. The District's net investment in the joint venture represents its proportionate share of capital and operating expenses of GBJPA. The District's investment in GBJPA was \$7.0 million at June 30, 2023. Complete financial statements for GBJPA can be obtained from GBJPA's office at 849 Allen Road, Bakersfield, CA 93314.

(10) Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2023 was as follows (in thousands):

	Balance June 30, 2		Additions	D	Deletions	Balance June 30, 2023	Due within One Year	e in more one Year

⁽³⁾ Proceeds from the sale of property.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>10</u>) Long-Term Liabilities (Continued)

General Obligation Bonds (Continued)

The above table incorporates the net receipts/payments of the hedging instruments that are associated with the variable rate debt issue(s). The amounts assume that current interest rates on variable rate bonds and the current reference rates of the hedging instruments will remain the same for their term. As these rates vary, interest payments on variable rate bonds and net receipts/payments on the hedging instruments will vary. Additionally, the above table includes the most recent BABs subsidy reduction of 5.7% under the Congressionally mandated sequestration which began in FY 2012-13. Refer to Note 3 for additional information regarding the hedging instruments associated with the debt of the District.

Certificates of Participation

In September 2016, the Irvine Ranch Water District Service Corporation issued \$116.7 million of Certificates of Participation Series 2016 (the Series 2016 Certificates) to finance the cost of certain capital improvements and to refund a portion of the outstanding Certificates of Participation Refunding Series 2010 (the Series 2010 Certificates).

The annual debt service requirements for the Certificates of Participation, including principal and interest payments, were as follows (in thousands):

Fiscal Year	Principal	Interest	Total
2024	\$ 4,220	\$ 5,286	\$ 9,506
2025	4,555	5,074	9,629
2026	4,905	4,847	9,752
2027	5,225	4,602	9,827

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>10</u>) Long-Term Liabilities (Continued)

Notes Payable

The District has one outstanding loan, which was assumed because of its consolidation with the Santiago County Water District. The original loan amount was \$1.3 million. The loan is payable semi-annually with interest at 2.32%. The loan matures in July 2025. Amounts required to amortize notes payable at June 30, 2023 were as follows (in thousands):

Fiscal Year	Pri	ncipal	Inte	erest	T	otal
2024	\$	77	\$	4	\$	81
2025		79		2		81
2026		41		1		42
Total	\$	197	\$	7	\$	204

Leases Payable

As of June 30, 2023, the District was a lessee for three noncancellable leases that met the requirements of GASB Statement No. 87, Lease. For the first production well lease, an initial lease liability of \$524,259 was recorded. As of June 30, 2023, the lease liability was \$475,726. The District makes annual principal and interest payments of \$30,000, adjusted periodically based on the terms identified in the lease agreement. The lease term ends on June 30, 2043 and the lease used an implicit interest rate of 2.32%. For the second production well lease, the annual lease payment for the year ended June 30, 2023 was \$237,826 and the lease term ends on June 30, 2039. No lease liability was recorded for the second lease since the annual lease payments are variable based on a formula. During the current fiscal year, the District entered into an agreement for the right to use certain property for an antenna site. An initial lease liability of \$242,169 was recorded. As of June 30, 2023, the lease liability was \$238,881. The District makes annual principal and interest payments of \$10,518, adjusted periodically based on the terms identified in the lease agreement. The lease term ends on December 31, 2042 and the lease used an implicit interest rate of 2.37%.

The annual lease payment requirements, including principal and interest payments, are as follows (in thousands):

Fiscal Year	Pri	Principal		Interest		otal
2024	\$	24	\$	16	\$	40
2025		25		16		41
2026		26		15		41
2027		27		15		42
2028		28		14		42

2034-2038		196		40		236
2039-2043		229		15		244
Total	\$	715	\$	192	\$	907

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(11) Unearned Revenue

Unearned revenue at June 30, 2023 consisted of the following (in thousands):

Unearned revenue, current portion	\$ 565
Unearned revenue, net of current portion	3,133
Total	\$ 3,698

On November 10, 2008, the Board approved the South Orange County – Irvine Ranch Water District Interconnection Projects Participation Agreement (Agreement). The Agreement was effective on November 2008 between the District, City of San Clemente (CSC), Laguna Beach County Water District (LBCWD), Moulton Niguel Water District (MNWD), Santa Margarita Water District (SMWD), South Coast Water District (SCWD), Municipal Water District of Orange County (MWDOC), and Orange County Water District (OCWD). The purpose of the Agreement is to allow the South County water agencies (CSC, LBCWD, MNWD, SMWD, and SCWD) to reserve capacity in the District system and reimburse the District for various new intertie facilities which provide that up to 25 cfs of water supply per month may be made available during a water supply disruption. The total cost of the agreement was paid in full by each party in the fiscal year ended June 30, 2009. The amount of unearned revenue related to the South County Water Agencies is amortized over 20 years, the term of the Agreement. The amount of amortization for the fiscal year ended June 30, 2023 was \$0.5 million.

(<u>12</u>) Letters of Credit

The District has letters of credit securing the payment of principal and interest on certain General Obligation Bonds. The letters of credit are issued in favor of the trustees and enable the trustees to make drawings against the letters of credit for payment of principal and interest amounts.

The terms of the letters of credit, as of June 30, 2023 are summarized as follows (in thousands):

Letter of Credit	Trustee	Amount	Expiration Date
Bank of America: 2009 Series B Consolidated	U.S. Bank	\$ 48,031	April 21, 2025
Sumitomo Mitsui: 2008 Series A Refunding	Bank of New York Mellon	41,607	May 28, 2025
U.S. Bank: 1993 Consolidated 2009 Series A Consolidated	Bank of New York Mellon U.S. Bank	21,486 48,031	May 1, 2025 May 1, 2025

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(13) Defined Benefit Pension Plan

Plan Descriptions

All qualified employees are eligible to participate in the District's agent multiple-employer public employee defined benefit pension plan which is administrated by the California Public Employees' Retirement System (CalPERS). CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by State statute and the District's Board of Directors. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at www.calpers.ca.gov.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. The Plan's provisions and benefits in effect at June 30, 2023, are summarized as follows:

	Hire Date						
		On or after					
	Prior to	October 1, 2012 to	On or after				
	October 1, 2012	December 31, 2012	January 1, 2013				
Benefit Formula	2.5% @ 55	2.0% @ 60	2.0% @ 62				
Benefit Vesting Schedule	5 Years of Service	5 Years of Service	5 Years of Service				
Benefit Payments	Monthly for Life	Monthly for Life	Monthly for Life				
Minimum Retirement Age	50	50	52				
Monthly Benefits, as a % of	2.0% to 2.5%	1.092% to 2.418%	1.0% to 2.5%				
Eligible Compensation							
Required Employee	8.00%	7.00%	6.50%				
Contribution Rate							
Required Employer Normal	9.19%	9.19%	9.19%				
Cost Rate							

In addition, the District made a \$7.8 million unfunded liability contribution during the current fiscal year.

Employees Covered

As of June 30, 2021 (valuation date), the following employees were covered by the benefit terms for the Plan:

Active Employees	400
Inactive Employees or Beneficiaries Currently Receiving Benefits	325
Inactive Employees Entitled to But not Yet Receiving Benefits	219
Total	944

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>13</u>) Defined Benefit Pension Plan (Continued)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

As of June 30, 2023, the total pension liability was determined using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Actuarial Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table (1)	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	The Lesser of Contract COLA up to 2.30% until
	Purchasing Power Protection Allowance Floor
	on Purchasing Power applies, 2.30% thereafter

⁽¹⁾ The mortality table used was developed based on CalPERS' specific data. The probabilities of mortality are based on 2021 CalPERS Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from November 2021 that can be found on the CalPERS website.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>13</u>) Defined Benefit Pension Plan (Continued)

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations.

Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 Basis points.

The expected real rates of return by asset class are as follows:

	Assumed	
Asset Class (1)	Asset Allocation	Real Return (1), (2)
Global Equity – Cap-weighted	30.00%	4.54%
Global Equity – Non-Cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	(5.00)%	(0.59)%
Total	100%	

⁽¹⁾ An expected inflation of 2.30% used for this period.

⁽²⁾ Figures are based on the 2021 Asset Liability Management study.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>13</u>) **Defined Benefit Pension Plan (Continued)**

Discount Rate

The discount rate used to measure the total pension liability was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

The plan fiduciary net position disclosed in the GASB 68 accounting valuation report may differ from the plan assets reported in the funding actuarial valuation report due to several reasons. For example, for the accounting reports, CalPERS must keep items such as deficiency reserves and fiduciary self-insurance included as assets. These amounts are excluded for rate setting purposes in the funding actuarial valuation.

Changes in the Net Pension Liability

The changes in the net pension liability for the Plan were as follows (in thousands):

	Increase (Decrease)							
	То	tal Pension Liability		n Fiduciary et Position		et Pension bility/(Asset		
		(a)		(b)	(c	(a) - (b)

(13) Defined Benefit Pension Plan (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan, calculated using the discount rate of 6.90 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90 percent) or 1 percentage-point higher (7.90 percent) than the current rate (in thousands):

	Discount	Current	Discount
	Rate -1%	Discount Rate	Rate +1%
	(5.90%)	(6.90%)	(7.90%)
let Pension Liability	\$ 132,634	\$ 85,407	\$ 46,436

Plan's Net Pension Liability

Funding of CalPERS Plan and Pension Benefits Trust

The District recognizes that defined benefit plans and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the issue and in 2013, established a Pension Trust to substantially fund its CalPERS unfunded liability. The Pension Trust provides the District with an alternative to CalPERS that allows for investment by a professional fund management team selected and monitored by the District. The Pension Trust holds the funding contributions for the District pending future remittance to the CalPERS pension trust fund which will pay all retiree benefit payments to employees associated with the plan. Future contributions will be transferred from the Pension Trust to CalPERS at the District's discretion.

As of June 30, 2023, the total value of the assets in the Pension Trust was approximately \$106.7 million.

The following schedule shows the District's total pension liability, CalPERS assets, Pension Trust assets, and the relationship of the total pension liability (in thousands):

							CalPERS Assets	Trust Assets	Pension Assets
	(1)	Total		Net Pension	l		as a Percentage	as of Percentage	as a Percentage

⁽¹⁾ As of the measurement date June 30, 2020, 2021, and 2022 respectively.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(13) Defined Benefit Pension Plan (Continued)

Subsequent Events

On July 12, 2021, CalPERS reported a preliminary 21.3% net return on investments for fiscal year 2020-21. Based on the thresholds specified in CalPERS Funding Risk Mitigation policy, the excess return of 14.3% prescribes a reduction in investment volatility that corresponds to a reduction in the discount rate used for funding purposes of 0.20%, from 7.00% to 6.80%. Since CalPERS was in the final stages of the four-year Asset Liability Management (ALM) cycle, the board elected to defer any changes to the asset allocation until the ALM process concluded, and the board could make its final decision on the asset allocation in November 2021.

On November 17, 2021, the CalPERS board adopted a new strategic asset allocation. The new asset allocation along with the new capital market assumptions, economic assumptions and administrative expense assumption support a discount rate of 6.90% (net of investment expense but without a reduction for administrative expense) for financial reporting purposes. This includes a reduction in the price inflation assumption from 2.50% to 2.30% as recommended in the November 2021 CalPERS Experience Study and Review of Actuarial Assumptions. This study also recommended modifications to retirement rates, termination rates, mortality rates and rates of salary increases that were adopted by the board. These new assumptions will be reflected in the GASB 68 accounting valuation reports for the June 30, 2022, measurement date.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Net Difference between Projected and	5 year straight-line amortization
Actual Earnings on Pension Plan	
Investments	
All Other Amounts	Straight-line amortization over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period

The expected average remaining service lifetime for the Plan for the fiscal year ended June 30, 2023 was 5.0 years, which was obtained by dividing the total service years of 4,712 (the sum of remaining service lifetimes of the active employees) by 944 (the total number of participants: active, inactive, and retired). Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

(13) Defined Benefit Pension Plan (Continued)

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended June 30, 2023, the District recognized pension expense of \$11.2 million. At June 30, 2023, the District reported deferred outflows and deferred inflows of resources related to pensions from the following sources (in thousands):

	Ou	eferred tflows of esources	Deferred Inflows of Resources	
Pension Contributions made Subsequent to the Measurement Date	\$	11,830	\$	-
Differences between Expected and Actual Experiences		2,168		2,386
Changes in Assumptions		8,815		-
Net Difference between Projected and Actual Earnings on Pension Plan Investments		13,223		-
Total	\$	36,036	\$	2,386

\$11.8 million reported as deferred outflows of resources related to employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2024. \$21.8 million net of deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows (in thousands):

	Deferred Outflows/		
Fiscal Year	(Inflows) of Resources		
2024	\$ 4,902		
2025	4,212		
2026	2,907		
2027	9,799		
Total	\$ 21,820		

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>14</u>) Other Post-Employment Benefits

Plan Descriptions

The District administers three other post-employment benefits (OPEB) plans which are subject to changes based on the discretion of the Board:

- **PEMHCA:** The District provides an agent multiple-employer defined benefit healthcare plan to retirees through the California Public Employee Retirement System (CalPERS) under the California Public Employees Medical and Hospital Care Act (PEMHCA), commonly referred to as CalPERS Health. Employees are eligible for this lifetime benefit if they retire from the District and are eligible to begin drawing a CalPERS pension. Participation in PEMHCA is financed in part by the District through a contribution of \$149 per month per participating retiree.
- RHCRP: The District also administers a single-employer defined benefit Retiree Health Costs Reimbursement Plan (RHCRP), which provides medical benefits to covered employees and their eligible dependents. The duration of the benefit is based on employees' years of service as follows: 12 months of benefits for employees with 3-7 years of service; 24 months of benefits for employees with 8-9 years of services; 36 months of benefits for employees with 15-19 years of service; and 60 months of benefits for employees with at least 20 years of service. Employees are eligible for this benefit if they retire from the District on or after age 55 with at least three years of service. The District reimburses retirees for eligible healthcare costs of up to \$160 per month (for retirees with at least three years of service at the District), to a maximum of \$600 per month after 25 years of service. On February 27, 2023, the Board approved an enhancement to the RHCRP by increasing each tier by \$200 for eligible employees who retire from (and become eligible retirees of) the District on or after July 1, 2023.
- **Death Benefit**: The District administers a single-employer defined benefit Retiree Death Only plan (Death Benefit). Employees hired on or before December 31, 2008 and who retire from the District on or after age 55 with at least 10 years of service at the District are eligible for term life insurance with a face amount equal to 100% of their final annual salary at the time of retirement. Employees hired after December 31, 2008 are not currently eligible for this plan.

(<u>14</u>) Other Post-Employment Benefits (Continued)

Employees Covered

As of the June 30, 2022 measurement date, the following employees were covered by the benefit terms under each Plan:

			Death	
	PEMHCA	RHCRP	Benefit	Total
Inactive Employees or Beneficiaries	119	49	-	168
Currently Receiving Benefits				
Inactive Employees Entitled to But not	86	-	136	222
Yet Receiving Benefits				
Active Employees	377	377	118	872
Total	582	426	254	1,262

Contributions

The contributions for the District's various other post-employment benefits are based on pay-as-you-go financing requirements.

For the fiscal year ended June 30, 2023, the District's cash contributions were \$10.5 million and estimated implied subsidy was \$0.3 million resulting in total payments of \$10.8 million. The following shows contributions by each OPEB plan (in thousands):

					D	eath		
	PE	MHCA	\mathbf{R}	HCRP	Be	enefit	T	otal

Actuarial Methods and Assumptions Used to Determine Total OPEB Liability

The June 30, 2022 measurement date was used to determine the June 30, 2023 total OPEB liability, based on the following actuarial methods and assumptions:

	PEMHCA	RHCRP	Death Benefit		
Actuarial Method	Entry Age Normal				
Actuarial Assumptions:	, , , , , , , , , , , , , , , , , , ,				
Contribution Policy	Pay-as-you-go				
Discount Rate	3.54% at June 30, 2022 and	1 2.16% at June	30, 2021		
	(Bond Buyer 20	-Bond Index)			
Inflation	2.50% Aı	nnually			
Mortality, Disability,	CalPERS 2000-2019 Experience Study				
Termination, Retirement					
Mortality Improvement	Mortality Projected Fully Generational with Scale MP-2021				
Salary Increases	2.75% Annually and CalPERS 2000-2019 Experience Study				
Medical Trend	Non-Medicare - 8.50% for 2024,	Not A	pplicable		
	decreasing to 3.45% in 2076				
	Medicare - 7.50% for 2024,				
	decreasing to 3.45% in 2076				
Minimum Increase	3.50%	Not Applicable			
Participation at	Participation at Medical Coverage: 90% if eligible		100%		
Retirement	for RHCRP.	District	Participate		
	Otherwise, 50% if currently in	Service: 100%			
	District's medical plan, 0% if not.	Participate			

Change in Assumptions

For the fiscal year ended June 30, 2022 measurement period, the discount rate was increased from 2.16 percent to 3.54 percent based on the municipal bond rate. Inflation rate was decreased from 2.75 percent was 2.50 percent. CalPERS 2000-2019 experience study was used. Medical and PEMHCA minimum trends were updated. Participation assumption was updated. Mortality improvement scale was updated to Scale MP-2021.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>14</u>) Other Post-Employment Benefits (Continued)

Discount Rate

The discount rate used to measure the total OPEB liability was 3.54 percent, which was based on the Bond Buyer 20-Bond G.O. Index.

Changes in the OPEB Liability

The changes in the OPEB liability were as follows (in thousands):

]	Death	
	PF	EMHCA	F	RHCRP	F	Benefit	Total
Balance at June 30, 2022	\$	19,332	\$	3,613	\$	1,794	\$ 24,739
Changes Recognized for the Period:							
Service Cost		1,245		234		39	1,518
Interest		439		80		39	558
Changes in Assumptions		(3,342)		(333)		(332)	(4,007)
Difference between Expected and Actual Experience		(1,542)		(42)		(76)	(1,660)
Benefit Payments		(532)		(263)		(20)	(815)
Net Change		(3,732)		(324)		(350)	(4,406)
Balance at June 30, 2023	\$	15,600	\$	3,289	\$	1,444	\$ 20,333

Sensitivity of the OPEB Liability to Changes in the Discount Rate

The following presents the OPEB liability, calculated using a discount rate that is one percentage point lower or one percentage higher than the current rate for the measurement period ended June 30, 2022 (in thousands).

	Discount	Current	Discount
	Rate - 1%	Discount Rate	Rate + 1%
OPEB Liability	(2.54%)	(3.54%)	(4.54%)
PEMHCA	\$ 18,090	\$ 15,600	\$ 13,585
RHCRP	3,494	3,289	3,096
Death Benefit	1,551	1,444	1,349
Total	\$ 23,135	\$ 20,333	\$ 18,030

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>14</u>) Other Post-Employment Benefits (Continued)

Sensitivity of OPEB Liability to Changes in the Healthcare Trend Rates (Continued)

The following presents the OPEB liability, calculated using health care cost trend rates that are one percentage point lower or one percentage higher than the current rate for the measurement period ended June 30, 2022 (in thousands).

	Healthcare Trend	Curent Healthcare	Healthcare Trend
OPEB Liability	Rates -1%	Trend Rates	Rates +1%
PEMHCA	\$ 13,208	\$ 15,600	\$ 18,678
RHCRP	3,289	3,289	3,289
Death Benefit	1,444	1,444	1,444
Total	\$ 17,941	\$ 20,333	\$ 23,411

Subsequent Events

The District established an OPEB Trust and contributed \$10.0 million during the fiscal year ended June 30, 2023. This may reduce the net OPEB liability reported in future years.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability are recognized in OPEB expense systematically over time.

The first amortized amounts are recognized in OPEB expense for the fiscal year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The amortization period differs depending on the source of the gain or loss. Straight line amortization over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits (active and retired) as of the beginning of the measurement period is used for each Plan.

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to **OPEB**

For the fiscal year ended June 30, 2023, the District recognized OPEB expense of \$2.0 million which consisted of \$1.7 million for PEMHCA and, \$0.3 million for RHCRP.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>14</u>) Other Post-Employment Benefits (Continued)

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB (Continued)

On June 30, 2023, the District reported deferred outflows and deferred inflows of resources related to OPEB from the following sources (in thousands):

	Defer	red Outflo	ws of Reso	urces	Deferred Inflows of Resources										
			Death				Death								
	PEMHCA	RHCRP	Benefit	Total	PEMHCA	RHCRP	Benefit	Total

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>15</u>) **Deferred Compensation Plans**

Retirement for Part Time Employees

The District provides pension benefits for all its part-time employees through a defined contribution plan, in lieu of providing social security benefits. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The plan is administered as part of the District's Section 457 plan. All part-time and seasonal employees are eligible to participate from the date of employment. For the year ended June 30, 2023, the District's payroll covered by the plan was \$212,872. The District made no employer contributions. Employees contributed \$16,418 for the fiscal year ended June 30, 2023.

Deferred Compensation

All regular, full-time District employees are eligible to participate in the District's deferred compensation program pursuant to Section 457 of the Internal Revenue Code (Plan) whereby they can voluntarily contribute a portion of their earnings into a tax-deferred fund administered by the District and invested through a third-party provider. Pursuant to the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), effective January 1, 2002, employees may contribute the lesser of 100% of includible compensation or the maximum dollar amount allowable under Internal Revenue Code Section 457 in effect for the year. The dollar amount currently in effect for calendar year 2023 is \$22,500.

Effective January 1, 2008, for employees with one year or more of services, the District provides 100% matching up to an annual maximum of 3% of the employee's base salary after one year of service. Such employer contribution amounts are deposited into a money purchase plan pursuant to Section 401(a) of the Internal Revenue Code. All full-time employees who have completed two years of regular, full-time service with the District, are eligible for an additional District contribution. Beginning with the first month following an employee's second anniversary date, the District will deposit to the employee's 401 (a) Plan account on a per-pay period basis an amount equal to 1% of the employee's base salary. During the fiscal year ended June 30, 2023, the District contributed \$1.4 million to employee accounts under the 401(a) plan.

The assets in both plans are held in trust for the exclusive benefit of the participants and their beneficiaries and are therefore not reported in the basic financial statements of the District.

(16) Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, and natural disasters for which the District carries commercial insurance.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

(<u>16</u>) Risk Management (Continued)

Property, Boiler and Machinery insurance is provided by the Public Risk Innovation, Solutions, and Management (PRISM). Property insurance includes flood insurance for all properties, and earthquake insurance for the District's real estate investment properties. General and excess liability coverage and excess workers' compensation insurance are provided through participation in the PRISM program. Pollution and legal liability coverage for the Irvine Desalter Project is provided by a policy with Ironshore Holdings, a Liberty Mutual Company.

Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Excess coverage insurance policies cover individual general liability claims in excess of \$100,000, property claims in excess of \$50,000 and workers compensation claims in excess of \$125,000.

Changes in the reported liability resulted from the following (in thousands):

		Li	ability	Claims and				Li	ability]	Due	Due i				
		Beg	ginning	Ch	Changes in		laim		End	W	ithin	mo	re than

	2023		1,650		(82)		-		1,568		522		1,046			

(<u>17</u>) Commitments and Contingencies

Legal Actions

The District is a defendant in various legal actions arising out of the conduct of the District's operations. Management believes that, based on current knowledge, the outcome of these matters will not have a material adverse effect on the District's financial position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023 (Continued)

Ouring Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Post-employment Benefit Plans Other than Pensions (GASB 75), CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75.

⁽²⁾ Includes any beginning of year adjustment.

Required Supplementary Information For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Defined Benefit Pension Plan – California Public Employees' Retirement System (Continued)

(a) Schedule of Changes in the Net Pension Liability and Related Ratio (in thousands) (Continued)

Notes to Schedule of Changes in the Net Pension Liability and Related Ratio

Change of Benefit Terms: The figures above generally include any liability impact that may have resulted from voluntary benefit changes that occurred on or before the Measurement Date. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the Valuation Date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary.

Changes of Assumptions: Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15 percent to 6.90 percent. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The accounting discount rate was 7.15 percent for measurement dates 2017 through 2021, 7.65 percent for measure dates 2015 through 2016, and 7.50 percent for measurement date 2014.

⁽¹⁾ Historical information is required only for measurement periods from which GASB 68 is applicable. Fiscal Year 2015 was the first year of GASB 68 implementation.

⁽²⁾ Employers are assumed to make contributions equal to the actuarially determined contributions. However, some employers may choose to make additional contributions towards their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions.

Required Supplementary Information For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Defined Benefit Pension Plan – California Public Employees' Retirement System (Continued)

(b) Schedule of Contributions (in thousands) (Continued)

Notes to Schedule of Contributions

The actuarial methods and assumptions used to set the actuarially determined contributions for the fiscal year ended June 30, 2023 were from the June 30, 2020 funding valuation report.

Actuarial Cost Method	Entry Age Normal
Amortization Method/Period	Level Percent of Payroll
Asset Valuation Method	Fair Value of Assets
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Payroll Growth	2.75%
Investment Rate of Return	7.00% (net of investment and administrative expenses)
Retirement Age	The probabilities of Retirement are based on the 2017
	CalPERS Experience Study for the period from 1997 to
	2015.
Mortality	The probabilities of mortality are based on the 2017
	CalPERS Experience Study for the period from 1997 to
	2015. Pre-retirement and Post-retirement mortality rates
	include 15 years of projected on-going mortality
	improvement using 90% of Scale MP 2016 published by the
	Society of Actuaries.

Changes in Assumptions: On December 21, 2016, the CalPERS Board of Administration lowered the discount rate from 7.50 percent to 7.00 percent using a three-year phase-in beginning with the June 30, 2016 actuarial valuations. The minimum employer contributions for Fiscal Year 2022-23 were calculated using a discount rate of 7.00 percent.

Subsequent Event: The contribution requirements determined in this actuarial valuation report are based on demographic and financial information as of June 30, 2020. Changes in the value of assets subsequent to that date are not reflected. Investment returns below the assumed rate of return will increase future required contributions while investment returns above the assumed rate of return will decrease future required contributions.

CalPERS will be completing an Asset Liability Management (ALM) review process in November 2021 that will review the capital market assumptions and the strategic asset allocation and ascertain whether a change in the discount rate and other economic assumptions is warranted. In addition, the Actuarial Office will be completing its Experience Study to review the demographic experience within the pension system and make recommendations to modify future assumptions where appropriate.

Furthermore, this valuation does not reflect any impacts from the COVID-19 pandemic on your pension plan. The impact of COVID-19 on retirement plans is not yet known and CalPERS actuaries will continue to monitor the effects and, where necessary, make future adjustments to actuarial assumptions.

Required Supplementary Information For the Fiscal Year Ended June 30, 2023 (Continued)

(1) Defined Benefit Pension Plan – California Public Employees' Retirement System (Continued)

(b) Schedule of Contributions (in thousands) (Continued)

The projected employer contributions on Page 6 are calculated under the assumption that the discount rate remains at 7.00 percent going forward and that the realized rate of return on assets for fiscal year 2020-21 is 7.00 percent.

This actuarial valuation report reflects statutory changes, regulatory changes and CalPERS Board actions through January 2021. Any subsequent changes or actions are not reflected.

⁽¹⁾ Historical information is required only for measurement periods to which GASB 75 is applicable. Fiscal Year 2018 was the first year of GASB 75 implementation.

Notes to Schedule of Changes in the OPEB Liability and Related Ratio Changes of Assumptions:

For the fiscal year ended June 30, 2022 measurement period, the discount rate was 3.54 percent based on municipal bond rate. The inflation rate decreased from 2.75 percent was 2.50 percent. CalPERS 2000-2019 experience study was used. Medical and PEMHCA minimum trends were updated. Participation assumption was updated. Mortality improvement scale was updated to Scale MP-2021.

For the fiscal year ended June 30, 2021 measurement period, the discount rate was 2.16 percent based on municipal bond rate.

For the fiscal year ended June 30, 2020 measurement period, the discount rate was 2.21 percent based on municipal bond rate. Mortality improvement scale was updated to Scale MP-2020. ACA Excise Tax was removed due to repeal of the law in December 2019.

For the fiscal year ended June 30, 2019 measurement period, the discount rate was 3.50 percent based on municipal bond rate.

For the fiscal year ended June 30, 2018 measurement period, the discount rate was 3.87 percent based on municipal bond rate. CalPERS 1997-2015 Experience Study was used. Mortality improvement scale was updated to Scale MP-2018. Medical claims costs were developed by Axene Health Partners based on demographic data for the CalPERS health plans provided by CalPERS and Axene's proprietary AHP Cost Model. Short term medical trend was developed in consultation with Axene Health Partners' healthcare actuaries. Long-term medical trend developed using the Society of Actuaries Getzen Model of Long-Run Medical Cost Trends. Participation at retirement for medical coverage was updated to 70% if eligible for RHCRP. A 2% load on the cash liability was added to estimate the ACA Excise Tax.

Required Supplementary Information For the Fiscal Year Ended June 30, 2023 (Continued)

(2) Other Post-Employment Benefits (Continued)

Schedule of Changes in the OPEB Liability and Related Ratio (in thousands)(1) (Continued)

For the fiscal year ended June 30, 2017 measurement period, the discount rate was 3.58 percent based on municipal bond rate.

Subsequent Event: The District established an OPEB Trust and contributed \$10.0 million during the fiscal year ended June 30, 2023. This may reduce the net OPEB liability reported in future years.

Statistical Section

Irvine Ranch Water District Fiscal Year Ended June 30, 2023

This section of the Irvine Ranch Water District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<u>Financial Trends Schedules</u> – These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Net Position Changes in Net Position

<u>Revenue Capacity Schedules</u> – These schedules contain information to help the reader assess the factors affecting the District's ability to generate its property and sales taxes.

Water Sold by Type of Customer Water Rates Largest Water Customers Sewer Rates Largest Sewer Customers Ad Valorem Property Tax Rates

<u>Debt Capacity Schedules</u> – These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Assessed Valuation and Estimated Actual Value of Taxable Property and 1% Property Tax Revenue Direct and Overlapping Property Tax Rates
Principal Property Taxpayers
Property Tax Collections/Delinquency
Outstanding Debt by Type
Outstanding General Obligation Bonds by Improvement District
Ratio of General Obligation Debt to Assessed Values
Ratio of Annual Debt Service Expenditures to Total General Expenditures
Debt Service Coverage

<u>Demographic and Economic Information</u> – These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments.

Principal Employers Demographic and Economic Statistics

Operating Information – These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

Operating Indicators by Function – Water and Sewer Service Connections
Operating Indicators by Function – New Service Connections
Operating Indicators by Function – Average Monthly Usage

Source: Irvine Ranch Water District

Note:

⁽¹⁾ The water charge to the typical residential customer is based upon an average of 12 ccf per month. The first 5 ccf are at the District's low volume rate, which is \$0.89 less than the commodity base rate in FY 2023. The fixed monthly service charge includes components that areadded to enhancement and replacement funds for future inevitable repair and replacement of IRWD's infrastructure.

⁽²⁾ Rate increase effective February 1, 2022 to June 2023.

Source: Orange County Auditor-Controller and Orange County Tax Collector.

In 1978, the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor' (limited to a maximum increase of 2%). With few exceptions, property is only reassessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold.

Source County of Orange Tax Ledger

Notes:

⁽¹⁾ The estimated levy for one percent revenue is generated internally and it is based on prior year receipts and developer growth projections.

⁽²⁾ The estimated levy for G.O. tax receipts is based on the county's assessed value projection multiplied by the tax rate assessed within each improvement district.

⁽³⁾ The General Obligation column for Collected tax receipts includes an unbudgeted utility tax revenue from improvement districts 190/290 that adds approximately \$400K per year.

Source: Irvine Ranch Water District

Notes:

- (1) Extremely dry conditions led to a considerable increase in demands.
- (2) State mandated reduction in usage resulted in a significant decrease in overall demand.
- (3) Significant rainfall resulted in a decrease in overall demand.
- (4) Drought messaging in the first half of the fiscal year and significant rainfall in the second half resulted in a decrease in overall demand.

Notes:

⁽¹⁾ Miles of Line include laterals.

⁽²⁾ Total number of tanks excludes IRWD's storage capacity with East Orange County Water District. However, this capacity is accounted for in the maximum storage capacity estimate (467 AF). This number also includes the two 16-MG tanks at the Baker location and the newly constructed 3.7 MG Zone 1 Tank at the existing Zone 1 tank location.

⁽³⁾ Excludes Serrano Water District's capacity in Irvine Lake, which equals 25% of total capacity.

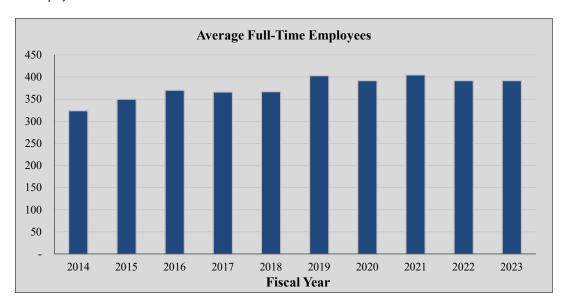

⁽⁴⁾ Accounts for active production wells only (Excludes SGU Injection Well).

⁽⁵⁾ Excludes lift stations serving individual IRWD facilities.

REQUIRED AUDIT COMMUNICATIONS

Board of Directors Irvine Ranch Water District Irvine, California

We have audited the financial statements of Irvine Ranch Water District (the District) as of and for the year ended June 30, 2023, and have issued our report thereon dated______, 2023. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated January 31, 2023, our responsibility, as described by professional standards, is to form and express an opinion(s) about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you in our letter dated _______, 2023.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, and our firm have complied with all relevant ethical requirements regarding independence.

We identified self-review threats to independence as a result of non-attest services provided. Those non-attest services included recording journal entries detected during the audit process. To mitigate the risk, management has compared the draft financial

statements and footnotes to the underlying accounting records to verify accuracy and has reviewed a disclosure checklist to ensure footnotes are complete and accurate.

Significant Risks Identified

We have identified the following significant risks:

- Implementation of the new Subscription Based Information Technology Arrangements (SBITAs) accounting standard. We reviewed the Authority's inventory of SBITAs and selected a sample of SBITA agreements to test the calculations of the transactions. We ensured the Authority's SBITA disclosure footnotes were accurate and complete in accordance with the new standard.
- Risk of unrecorded receivable or payables related to transactions with Orange County Sanitation District (OC San): We compared the information in the reports to the transactions in the District's records to ensure significant amounts were reconciled. We evaluated the need to record additional receivables or payables based on transactions that have occurred after the date of the most recent agreed upon procedures report.
- Risk of errors associated with real estate investments. We evaluated the District's categorizations of fair values in the financial statement footnotes for reasonableness.
 We reviewed appraisals and other documentation supporting the fair value of the District's Real Estate Investments.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the year ended June 30, 2023. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements include:

- Judgments concerning which capital project expenditures should be capitalized and depreciated versus expensed in the financial statements and judgments concerning which projects should be placed in service.
- Judgements regarding the fair value of real estate investments.
- Judgments regarding the fair value of interest rate swap agreements.

- Judgements involving the calculation of the net pension liability and related transactions
- Judgements involving the calculation of the other post-employment benefit (OPEB) liability and related transactions.

We evaluated the key factors and assumptions used to develop the estimates and determined that it is reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

- The disclosure of investment fair value in note 2 to the financial statements
- The disclosure of interest rate swap agreements in note 3 to the financial statements
- The disclosure of pensions in note 13 to the financial statements
- The disclosure of OPEB in note 14 to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Significant Unusual Transactions

For purposes of this communication, professional standards require us to communicate to you significant unusual transactions identified during our audit. There were no unusual transactions noted as a result of our audit procedures.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit. There was one uncorrected misstatement detected during the audit process to record unbilled customer accounts receivable for service that occurred in June and subsequently billed until after the end of the fiscal year.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. There were no material misstatements noted as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the District's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management in a letter dated _______, 2023.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

Other Information Included in the Annual Comprehensive Financial Report

Pursuant to professional standards, our responsibility as auditors for other information, whether financial or nonfinancial, included in the District's annual report, does not extend beyond the information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have read the information and considered whether such information, or the manner of its presentation, was materially inconsistent with its presentation in the financial statements.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Board of Directors and management of the District and is not intended to be and should not be used by anyone other than these specified parties.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Independent Auditor's Report

Finance Personnel Committee Irvine Ranch Water District Irvine, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of Irvine Ranch Water District (the "District") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated ________, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests

disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
