

**AGENDA
IRVINE RANCH WATER DISTRICT
BOARD OF DIRECTORS
REGULAR MEETING**

June 14, 2021

Due to COVID-19, this meeting will be conducted as a teleconference pursuant to the provisions of the Governor's Executive Orders N-25-20 and N-29-20, which suspend certain requirements of the Ralph M. Brown Act. Members of the public may not attend this meeting in person.

Participation by members of the Board of Directors will be from remote locations. Public access and participation will only be available telephonically/electronically.

To virtually attend the meeting and to be able to view any presentations or additional materials provided at the meeting, please join online via Webex using the link and information below:

Via Web: <https://irwd.webex.com/irwd/j.php?MTID=m8693f086f8af4312c352b0f4e01c4f60>
Meeting Number (Access Code): 146 862 1331
Meeting Password: 9E4EjFYkmS9

After joining the meeting, in order to ensure all persons can participate and observe the meeting, please select the "Call in" option and use a telephone to access the audio for the meeting by using the call-in information and attendee identification number provided.

As courtesy to the other participants, please mute your phone when you are not speaking.

PLEASE NOTE: Participants joining the meeting will be placed into the Webex lobby when the Board enters closed session. Participants who remain in the "lobby" will automatically be returned to the open session of the Board once the closed session has concluded. Participants who join the meeting while the Board is in closed session will receive a notice that the meeting has been locked. They will be able to join the meeting once the closed session has concluded.

CALL TO ORDER 5:00 p.m.

ROLL CALL Directors LaMar, McLaughlin, Swan, and Withers, and President Reinhart

PUBLIC COMMENT NOTICE

If you wish to address the Board of Directors on any item, please submit a request to speak via the "chat" feature available when joining the meeting virtually. Remarks are limited to three minutes per speaker on each subject. You may also submit a public comment in advance of the meeting by emailing comments@irwd.com before 12:00 p.m. on Monday, June 14, 2021.

ALL VOTES SHALL BE TAKEN BY A ROLL CALL VOTE.

COMMUNICATIONS TO THE BOARD

1. A. Written:

B. Oral:

2. ITEMS RECEIVED TOO LATE TO BE AGENDIZED

Recommendation: Determine the need to discuss and/or take immediate action on item(s).

CONSENT CALENDAR, ITEMS 3-9 (Next Resolution No. 2021-9)

3. BOARD MEETING MINUTES

Recommendation: That the minutes of the May 24, 2021 Regular Board meeting be approved as presented.

4. RATIFY/APPROVE BOARD OF DIRECTORS' ATTENDANCE AT MEETINGS AND EVENTS

Recommendation: That the Board ratify/approve the meetings and events for Steven LaMar, Karen McLaughlin, Douglas Reinhart, Peer Swan, and John Withers, as described.

5. 2021 LEGISLATIVE AND REGULATORY UPDATE

Recommendation: That the Board adopt a "support in concept" and "seek amendments" position on the FUTURE Western Water Infrastructure and Drought Resiliency Act.

6. IRWD SALARY GRADE SCHEDULE CHANGES FOR MANAGERS, EXEMPT SUPERVISORS, CONFIDENTIAL EMPLOYEES AND EXEMPT EMPLOYEES FOR FISCAL YEAR 2021-22

Recommendation: That the Board approve the revised salary grade schedules based on a Cost-of-Living Adjustment of 3.6% for FY 2021-22 and adopt a resolution superseding Resolution No. 2020-22 and adopting a revised Schedule of Positions and Salary Rate Ranges for Managers, Exempt Supervisors, Confidential Employees and Exempt Employees.

7. CONSULTANT SELECTION FOR RECYCLED WATER USE SITE INSPECTION, TESTING AND TRAINING

Recommendation: That the Board authorize the General Manager to execute Professional Service Agreements with Real Water Consultants and West Yost Associates, each in an amount not to exceed \$365,000, to provide on-call recycled water use site visual inspections, cross-connection tests, and site supervisor training for a two-year period.

Reso. No. 2021-9

CONSENT CALENDAR - Continued

8. WATER EFFICIENCY TACTICAL INCENTIVE FUNDING AUTHORIZATION

Recommendation: That the Board authorize the General Manager to allocate \$230,000 in funding to the FY 2021-22 rebate programs administered through the Water Conservation Participation Agreement between Municipal Water District of Orange County and IRWD and execute addenda to the agreement as may be necessary to allocate funds to specific programs and modify device incentive levels based on customer participation rates and regional program funding levels.

ACTION CALENDAR

9. WATERSMART SOFTWARE VARIANCE NO. 2

Recommendation: That the Board authorize the General Manager to execute Variance No. 2 to the Professional Services Agreement with WaterSmart Software, Inc. in the amount of \$188,100.

10. 2021-2022 WATER USE EFFICIENCY OUTREACH CAMPAIGN

Recommendation: That the Board authorize the General Manager to execute a Professional Services Agreement with Sukle Advertising & Design in the amount of \$1,384,000 for implementation of IRWD's 2021-2022 water efficiency outreach campaign.

OTHER BUSINESS

Pursuant to Government Code Section 54954.2, members of the Board of Directors or staff may ask questions for clarification, make brief announcements, and make brief reports on his/her own activities. The Board or a Board member may provide a reference to staff or other resources for factual information, request staff to report back at a subsequent meeting concerning any matter, or direct staff to place a matter of business on a future agenda. Such matters may be brought up under the General Manager's Report or Directors' Comments.

11. General Manager's Report

12. Receive oral update(s) from District liaison(s) regarding communities within IRWD's service area and provide information on relevant community events.

13. Directors' Comments

CLOSED SESSION

14. CONFERENCE WITH LABOR NEGOTIATORS – Pursuant to Government Code Section 54957.6.

Agency Designated Representatives: Paul Cook, General Manager, and Tiffany Mitcham, Director of Human Resources

Employee Groups: International Brotherhood of Electrical Workers (AFL-CIO) Local #47 for the General Unit and the Non-Exempt Supervisor Unit

15. Open Session

16. Adjourn

Availability of agenda materials: Agenda exhibits and other writings that are disclosable public records distributed to all or a majority of the members of the above-named Board in connection with a matter subject to discussion or consideration at an open meeting of the Board are available for public inspection in the District's office, 15600 Sand Canyon Avenue, Irvine, California ("District Office"). If such writings are distributed to members of the Board less than 72 hours prior to the meeting, they will be available from the District Secretary of the District Office at the same time as they are distributed to Board Members, except that if such writings are distributed one hour prior to, or during, the meeting, they will be available electronically via the Webex meeting noted. Upon request, the District will provide for written agenda materials in appropriate alternative formats, and reasonable disability-related modification or accommodation to enable individuals with disabilities to participate in and provide comments at public meetings. Please submit a request, including your name, phone number and/or email address, and a description of the modification, accommodation, or alternative format requested at least two days before the meeting. Requests should be emailed to comments@irwd.com. Requests made by mail must be received at least two days before the meeting. Requests will be granted whenever possible and resolved in favor of accessibility.

CONSENT CALENDAR

BOARD MEETING MINUTES

SUMMARY:

Provided are the minutes of the May 24, 2021 Regular Board meeting for approval.

FISCAL IMPACTS:

None.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

COMMITTEE STATUS:

Not applicable.

RECOMMENDATION:

THAT THE MINUTES OF THE MAY 24, 2021 REGULAR BOARD MEETING BE APPROVED AS PRESENTED.

LIST OF EXHIBITS:

Exhibit "A" – May 24, 2021 Minutes

Note: This page is intentionally left blank.

EXHIBIT "A"

MINUTES OF REGULAR MEETING – May 24, 2021

The regular meeting of the Board of Directors of the Irvine Ranch Water District (IRWD) was called to order at 5:00 p.m. by President Reinhart on May 24, 2021, via teleconference pursuant to the provisions of the Governor's Executive Orders N-25-20 and N-29-20 due to COVID-19. Members of the public did not attend this meeting in person.

Directors Present: LaMar, McLaughlin, Withers, Swan, and Reinhart

Directors Absent: None.

Also Present: Acting General Manager Weghorst, Executive Director of Technical Services Burton, Executive Director of Operations Chambers, Executive Director of Finance and Administration Clary, Director of Treasury and Risk Management Jacobson, Director of Water Quality and Regulatory Compliance Colston, Director of Recycling Operations Zepeda, Director of Information Services Malone, Director of Water Resources Sanchez, Director of Maintenance Mykitta, Director of Human Resources Mitcham, Government Relations Officer/Deputy General Counsel Compton, Secretary Bonkowski, General Counsel Collins, other staff, and public.

WRITTEN AND ORAL COMMUNICATIONS: None.

ITEMS RECEIVED TOO LATE TO BE AGENDIZED: None.

CONSENT CALENDAR

Director Swan asked that Item No. 6, POLICY REVISIONS AND ADDITIONS RELATED TO DISTRICT APPROVALS, AUTHORIZATIONS, AND PROCEDURES, be moved to the Action Calendar. There being no objection, this item was moved accordingly. On MOTION by Swan, seconded by McLaughlin and unanimously carried by a roll call vote (5-0) McLaughlin, Swan, Withers, LaMar and Reinhart voting aye, and 0 noes ITEMS 3 THROUGH 5 WERE APPROVED AS FOLLOWS:

3. BOARD MEETING MINUTES

Recommendation: That the minutes of the May 10, 2021 and May 17, 2021 Regular Board meetings be approved as presented.

4. RATIFY/APPROVE BOARD OF DIRECTORS' ATTENDANCE AT MEETINGS AND EVENTS

Recommendation: That the Board ratify/approve the meetings and events for Steven LaMar, Karen McLaughlin, and John Withers, as described.

5. TREASURY REPORT

Recommendation: That the Board receive and file the Treasurer's Investment Summary Report, the Summary of Fixed and Variable Rate Debt, and Disclosure Report of Reimbursements to Board Members and staff, approve the April 2021 Summary of Payroll ACH payments in the total amount of \$2,136,010, and approve the April 2021 Accounts Payable Disbursement Summary of Warrants 416897 through 417884, Workers' Compensation Distributions, wire transfers, payroll withholding distributions and voided checks in the total amount of \$22,136,818.

ACTION CALENDAR

POLICY REVISIONS AND ADDITIONS RELATED TO DISTRICT APPROVALS, AUTHORIZATIONS, AND PROCEDURES

Director Swan asked that language be added to the policy under Section 6 to reflect that prior to a legal representative casting a vote in a called election for a specific landowner district, a recommendation on how the District's vote(s) are to be cast shall be brought to and approved by the Supply Reliability Programs Committee. There being no further discussion, on MOTION by Swan, seconded by McLaughlin and unanimously carried by a roll call vote (5-0) McLaughlin, Swan, Withers, LaMar and Reinhart voting aye, and 0 noes, THE BOARD ADOPTED THE FOLLOWING RESOLUTION BY TITLE AND APPROVED AMENDING LANGUAGE TO SECTION NO. 6 TO ALSO REFLECT THAT A RECOMMENDATION ON HOW THE DISTRICT'S VOTE(S) ARE TO BE CAST SHALL BE BROUGHT TO AND APPROVED BY THE SUPPLY RELIABILITY PROGRAMS COMMITTEE:

RESOLUTION NO. 2021 –8

RESOLUTION OF THE BOARD OF DIRECTORS OF IRVINE RANCH
WATER DISTRICT, SUPERSEDING RESOLUTION NO. 2020-1 AND
ADOPTING A REVISED REAL PROPERTY POLICY

HARVARD AVENUE TRUNK SEWER DIVERSION STRUCTURE REHABILITATION AND MWRP PRIMARY CLARIFIERS CHANNEL LINING BUDGET INCREASE AND CONSTRUCTION AWARD

Executive Director of Technical Services Burton reported that the Harvard Avenue Trunk Sewer (HATS) Diversion Structure is an approximately 20-foot-deep manhole located on Main Street west of the intersection with Harvard Avenue. Mr. Burton said that in 2018, a visual inspection was completed of the interior of the structure and identified the structure lining to be compromised. The inspection recommended that the existing liner be fully replaced, and the underlying concrete be rehabilitated.

Mr. Burton said that during the design of the current project to replace the aluminum covers at the MWRP Primary Clarifiers, the lining of the influent and effluent channels was inspected and observed to be in poor condition and in need of full replacement; the existing lining was installed in 1996. He said that this work to replace the channels' lining was added to the HATS project scope since it was similar in nature, i.e., bypassing flow and relining structures.

Work at the HATS Diversion Structure will include removal of the existing liner, repair of all spalled concrete, relining the structure, and replacing both slide gates. To perform this work, an average of 11 million gallons per day (MGD) of flow will be bypass pumped around the HATS structure to OC SAN for approximately seven weeks. In addition to rehabilitating the HATS Diversion Structure, the nearby Bypass Manhole and Junction Structure located at the intersection of Main Street and Harvard Avenue will be relined as well.

Mr. Burton said that the project was advertised to a select bidders list of 18 mechanical and pipeline contractors on April 6, 2021. The bid opening occurred on May 6, 2021 with two bids received from Pacific Hydrotech Corporation and Vido Artukovich & Son, Inc./Vidmar Inc., a Joint Venture. Pacific Hydrotech was the apparent low bidder with a bid of \$1,827,750. The

bids ranged from 19% higher to 65% higher than the engineer's estimate of \$1,530,000. The discrepancy between the bids and the engineer's estimate can be attributed to an underestimate of the amount of effort that will be required for the temporary bypass pumping system as well as the relining of the influent and effluent channels of the Primary Clarifiers. The overall complexity of the project and reduced competition for the bid due to the high volume of current construction work also likely contributed to the discrepancy between the bids and the engineer's estimate. Pacific Hydrotech has extensive experience with mechanical rehabilitation projects and is well qualified to construct the improvements.

Following Director Swan's inquiry about possibly directing flows to IRWD's MWRP vs. OCSD, Mr. Burton said that staff had reviewed other possibilities, and that OCSD was the best option. In response to his further inquiry on the District's impacts on CORF payments during this project, Engineering Manager Akiyoshi said that he will provide CORF estimates for his review. There being no further discussion, on MOTION by Withers, seconded by Swan and unanimously carried by a roll call vote (5-0) McLaughlin, Swan, Withers, LaMar and Reinhart voting aye, and 0 noes, THE BOARD AUTHORIZED A BUDGET INCREASE FOR PROJECT 11122 IN THE AMOUNT OF \$2,155,000, FROM \$707,000 TO \$2,862,000, AND AUTHORIZED THE GENERAL MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH PACIFIC HYDROTECH CORPORATION IN THE AMOUNT OF \$1,827,750 FOR THE HARVARD AVENUE TRUNK SEWER DIVERSION STRUCTURE REHABILITATION AND MICHELSON WATER RECYCLING PLANT PRIMARY CLARIFIERS CHANNEL LINING, PROJECT 11122.

IRWD WELL ET-1 PFAS TREATMENT SYSTEM DESIGN CONSULTANT SELECTION AND SETTLEMENT AGREEMENT AMENDMENT

Using a PowerPoint presentation, Engineering Manager Mori reported that the District operates and maintains Well ET-1 and its associated volatile organic compounds (VOC) treatment facilities in accordance with the 2001 Settlement Agreement with U.S. Departments of Justice and Navy. Using a map, he identified its location on Irvine Center Drive adjacent to the Oak Creek Golf Club and across the street from Irvine Valley College. Using a chart, he showed that water from Well ET-1 is treated through air stripping, and the off-gas from the air strippers is delivered to a vapor phase granular-activated carbon (GAC) treatment system where the VOCs are removed. The treated water is then delivered into the recycled water distribution system.

Mr. Mori said that in the summer 2018, elevated levels of PFAS compounds were detected in the well. While the existing treatment system is capable of effectively removing VOCs from the water, it is unable to remove PFAS compounds. In early 2019, staff began delivering the treated water to the Peters Canyon Channel rather than continuing to deliver it to the recycled water distribution system.

Mr. Mori said that in late 2020, staff contracted with Tetra Tech to identify and evaluate various treatment systems that would be capable of effectively removing both PFAS and VOC compounds from the well. Mr. Mori said that the evaluation included analysis of existing water quality parameters, finished water quality goals, pretreatment requirements, evaluation of media selection options including GAC and ion exchange, and the impact to the overall site and other existing facilities based on the recommended treatment system. He said that the evaluation concluded with a recommendation to replace the existing air stripper and vapor phase GAC treatment systems with a liquid phase GAC treatment system, which would effectively remove both VOCs and PFAS compounds.

Mr. Mori said that in parallel with the Tetra Tech evaluation identified above, staff authorized Jacobs Engineering Group to conduct bench-scale treatability testing of various adsorbent products capable of effectively removing PFAS compounds. He said that the bench testing program consisted of a series of rapid small-scale column tests for each of the adsorbent products, which can simulate months to years of full-scale operations in a relatively short period of time. He said that this reduces the time for testing, the amount of water required, and the waste produced. He further said that at the completion of the testing program, anticipated for late May 2021, Jacobs will recommend a preferred adsorbent that will be incorporated into the final design of the proposed treatment facilities for Well ET-1.

Mr. Mori said that per the 2001 Settlement Agreement, IRWD maintains a \$20,000,000 pollution insurance policy to reasonably cover risks associated with the facilities included in the 2001 Settlement Agreement. He said that in December 2018, staff submitted a claim to the insurance carrier to cover the cost associated with implementing modifications to the well for PFAS treatment. The insurance carrier recently accepted the claim, so all costs above the \$250,000 deductible associated with the design, construction, and implementation of PFAS treatment facilities at Well ET-1 will be reimbursed by the insurance carrier.

Mr. Mori said that staff requested a proposal from Tetra Tech for engineering design services for the proposed treatment system at Well ET-1. He said that in addition to being the design engineer for the existing treatment system at Well ET-1, Tetra Tech has extensive knowledge of the existing site, has performed several recent similar PFAS treatment improvement projects for OCWD and other local agencies, and is best suited to quickly and efficiently progress the design effort.

Mr. Mori said that in accordance with the Settlement Agreement, Well ET-1 can be removed from service no more than two months per year. Mr. Mori said that since construction of the proposed treatment system will take longer than two months, a fifth amendment to the Settlement Agreement is required. He said that the fifth amendment will allow for the temporary shutdown of Well ET-1 and the existing treatment system for up to 18 months while construction is underway. Staff anticipates the construction duration to be approximately 10 months, which is well within the time allowed for by the amendment. The DON and DOJ have reviewed the amendment and are in the process of executing it. OCWD has also reviewed the amendment and approved it.

Director Withers said that this item was reviewed by the Engineering and Operations Committee on May 18, 2021. Following discussion, on MOTION by Withers, seconded by Swan and unanimously carried by a roll call vote (5-0) McLaughlin, Swan, Withers, LaMar and Reinhart voting aye, and 0 noes, THE BOARD AUTHORIZED THE GENERAL MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH TETRA TECH IN THE AMOUNT OF \$316,300 FOR ENGINEERING DESIGN SERVICES AND AUTHORIZED THE GENERAL MANAGER TO EXECUTE THE FIFTH AMENDMENT TO THE SETTLEMENT AGREEMENT FOR THE MARINE CORPS AIR STATION EL TORO GROUNDWATER REMEDIATION PROJECT FOR THE WELL ET-1 PFAS TREATMENT SYSTEM, PROJECT 11171.

GENERAL MANAGER’S REPORT

Acting General Manager Weghorst reported that recently, under the urgent necessity clause, the District procured the services of Paulus Engineering to make repairs to an 8-inch asbestos cement recycled water pipeline at Toledo Way in Lake Forest. Mr. Weghorst said that the pipeline project was completed at a cost of \$408,154. He said that staff worked closely with the City of Irvine and the City of Lake Forest to ensure roadway restoration requirements were met and repairs were completed in a timely manner. He further thanked Dave Crowe and his crews for their efforts.

COMMUNITY UPDATES

Consultant Newell said that it was quiet in the canyon, and that he is working with staff relative to the four-hour shutdown on June 22.

DIRECTORS’ COMMENTS

Director Swan reported on his attendance at the ACWA 2021 Spring Virtual conference, a MWDOC Administration and Finance Committee meeting, a Board meeting, and Government Affairs Committee meeting, and a Newport Chamber of Commerce meeting, and that tomorrow he will be attending a Southern California Dialogue meeting.

Director McLaughlin reported on her attendance at an IRWD introduction to the Irvine Company, and a Water UCI Colloquium series meeting.

Director Withers reported that he attended an NWRI Board meeting, an ACWA spring conference, and an OCWA Industry Insight presentation.

Director LaMar reported on his attendance at ACWA meetings.

Director Reinhart reported on his attendance at the ACWA 2021 Spring Virtual conference and an OCWD Board meeting.

ADJOURNMENT

President Reinhart adjourned the meeting at 6:01 p.m.

APPROVED and SIGNED this 14th day of June 2021.

President, IRVINE RANCH WATER DISTRICT

Secretary IRVINE RANCH WATER DISTRICT

APPROVED AS TO FORM:

Claire Hervey Collins, General Counsel
Hanson Bridgett LLP

RATIFY/APPROVE BOARD OF DIRECTORS’
ATTENDANCE AT MEETINGS AND EVENTS

SUMMARY:

Pursuant to Resolution 2006-29 adopted on August 28, 2006, the following events and meetings require approval by the Board of Directors:

Steven LaMar

May 14 Meeting with Senator Josh Newman via teleconference
June 23 ACWA Region 1 Zoom Event – Regional Drought Impacts: How Well
Managed Water Supplies Went Dry
July 20 ACWA Region 3 Zoom Event – Understanding the Impacts of the
California Air Resources Boards’ Advanced Clean Fleets Rule
August 19 ACWA Region 5 Zoom Event – Developments in Regional Water
Management
September 22 ACWA Region 8 Zoom Event – Innovation on the Colorado:
Metropolitan’s Regional Recycled Water Program & Lower Basin
Drought Resilience

Karen McLaughlin

June 23 ACWA Region 1 Zoom Event – Regional Drought Impacts: How Well
Managed Water Supplies Went Dry
July 20 ACWA Region 3 Zoom Event – Understanding the Impacts of the
California Air Resources Boards’ Advanced Clean Fleets Rule
August 19 ACWA Region 5 Zoom Event – Developments in Regional Water
Management
September 22 ACWA Region 8 Zoom Event – Innovation on the Colorado:
Metropolitan’s Regional Recycled Water Program & Lower Basin
Drought Resilience

Douglas Reinhart

May 17 Meeting with the General Manager

Peer Swan

May 7 Water UCI Colloquium – Tapping into the Future: Potable Reuse in
Tomorrow’s World Webinar
August 11-13 California Association of Sanitation Agencies’ 2021 Annual Conference,
San Diego

John Withers

May 27	OCWD Water Reuse Webinar
June 16	OCWA Monthly Industry Insight Webinar: <i>The Use of Data to Manage Infrastructure</i>
August 11-13	California Association of Sanitation Agencies' 2021 Annual Conference, San Diego

RECOMMENDATION:

THAT THE BOARD RATIFY/APPROVE THE MEETINGS AND EVENTS FOR STEVEN LAMAR, KAREN MCLAUGHLIN, DOUGLAS REINHART, PEER SWAN, AND JOHN WITHERS AS DESCRIBED HEREIN.

LIST OF EXHIBITS:

None.

2021 LEGISLATIVE AND REGULATORY UPDATE

SUMMARY:

This report provides an update on the 2021-2022 legislative session, regulatory issues, and IRWD priorities. As legislation and regulations develop, staff will provide updates and recommendations to the Water Resources Policy and Communications Committee and the Board, as appropriate.

Staff recommends the Board adopt a “support in concept” and “seek amendments” position on the H.R. 3404 (Huffman, D-CA), the FUTURE Western Water Infrastructure and Drought Resiliency Act.

BACKGROUND:

The last day for fiscal committees to meet and report bills introduced in their house to the floor was May 21, 2021. In advance of that deadline, the Senate and Assembly Appropriations Committees acted on their respective Suspense Files and decided which bills would be held in committee and which would advance this year. The Assembly Appropriations Committee acted on 537 bills. Conversely, the Senate Appropriations Committee acted on more than 357 bills.

June 4 was the house-of-origin deadline, the deadline by which each house is required to pass bills introduced in its house if they are to move forward this year. Bills that fail to advance to the second house by the house-of-origin deadline will become two-year bills that cannot be acted on until next year unless they contain an urgency clause or are proposed constitutional amendments.

The next legislative deadline is June 15, the constitutional deadline for passage of the State budget.

A copy of the 2021 Legislative Matrix is provided as Exhibit “A”. Links to the bills discussed below are included within each discussion unless a separate exhibit is noted.

Assembly and Senate Bill Limit

On May 19, two days before the fiscal committee deadline, Senate President pro Tempore Toni Atkins transmitted a memorandum to the full Senate informing Senators that she and Assembly Speaker Anthony Rendon agreed to limit the number of bills each member of the Legislature will be permitted to move forward for the remainder of 2021. Each Assemblymember and Senator is limited to 12 bills. According to reports, members of the Legislature are being afforded discretion over which of their bills to advance this year.

The new bill limit means that, for the 120 members of the Legislature, no more than 1,440 bills will advance to the second house in 2021, which is approximately 1,000 fewer bills than were introduced this session. To put this in perspective, 828 Senate bills and 1,593 Assembly bills were introduced this session.

Senator Atkins was quoted as saying that the bill limit is being imposed because legislative committees are still working under conditions put in place during COVID-19 that have limited the number of hearing rooms that can be used for bill hearings and procedures, which has extended the time that hearings run to accommodate public testimony by telephone.

As of May 19, 264 Senate Bills and 320 Assembly Bills had already been passed to the second house.

2021 State Legislative Update:

Governor's Expanded Drought Emergency Proclamation:

On May 10, Governor Newsom expanded the drought emergency proclamation he had issued on April 21 for the Russian River Watershed. The May 10 proclamation expanded the drought emergency to counties around the Klamath River, Sacramento-San Joaquin Delta, and Tulare Lake Watershed. The Governor's drought proclamation now covers 41 of California's 58 counties, and 30 percent of the state's population.

In addition to suspending procurement, State contracting, and fleet asset requirements, the new emergency proclamation directed the State Water Resource Control Board to consider requests to move water, modify requirements for reservoir releases or diversion limitations, consider development of emergency regulations to curtail water diversions, and evaluate minimum instream flows and other actions needed to protect fish in critical stream systems.

The May 10 proclamation also requires the Department of Water Resources (DWR), the State Board, and the Department of Food and Agriculture to take specified actions to prioritize drought response and preparedness resources. Following the Governor's May 10 proclamation, [information on drought preparedness](#) was added to the State's Water Resilience Portfolio website. This website provides information about current conditions with reservoirs, precipitation, snowpack, and river flows, state action taken since the 2012-16 drought, and the Governor's Drought Resilience Task Force. This site provides a link to the State's water conservation website, [Save Our Water](#).

Governor's May Revise:

Governor Newsom released the May revision to his proposed Fiscal Year 2021-22 Budget (the May Revise) on May 14, 2021. For Fiscal Year 2021-22, the May Revise proposes \$196.8 billion in total General Fund expenditures, projects \$175.9 billion in total General Fund revenues, and proposes to transfer \$3.4 billion from the General Fund to the Budget Stabilization Account/Rainy Day Fund, bringing the Rainy Day Fund total to \$15.9 billion. Another \$450 million is proposed for the Safety Net Reserve. This compares with the \$164.5 billion in total General Fund expenditures, \$158.4 billion in projected General Fund revenues, and \$3.0 billion

proposed to be transferred from the General Fund to the Budget Stabilization Account/Rainy Day Fund that was in the Governor's Proposed Budget in January. The addition of the \$3.0 billion would have brought the forecasted total of Budget Stabilization Account/Rainy Day Fund to \$15.6 billion. When compared to the enacted FY 2020-21 budget, the May Revise represents a \$31.5 billion, or 19.1 percent, increase in General Fund expenditures.

Following the FY 2020-21 Budget that was crafted on a projected \$54 billion budget deficit resulting from lost economic activity due to COVID-19, the Governor presented his budget in January with a projected \$15 billion surplus. With the May Revise, unprecedented \$75.7 billion budget surplus is now anticipated. With \$26 billion in federal America Rescue Funds added to the state General Fund surplus, the Governor has included his "California Comeback Plan" in the May Revise, which proposes \$100 billion in spending. Included in the California Comeback Plan is \$5.1 billion over four years for water infrastructure, drought response, and improved climate resilience. This plan is discussed in more detail below.

The Governor's May Revise also proposes to spend \$2 billion in federal funds to address water, electric, and gas bill arrearages. \$1 billion of the \$2 billion proposed for arrearages has been proposed for the State Board to administer grants and other direct payments to community water systems. The grants and payments could cover COVID-19-related arrearages and other COVID-19-related revenue losses that community water systems have sustained. This is a different approach than the approach proposed by the State Senate.

The Legislature has until June 15 to pass a balanced budget. On June 3, staff provided the Water Resources Policy and Communications Committee with an update on the latest discussions on funding for water arrearages.

Governor's Plan for Water Infrastructure, Drought Response, and Improved Climate Resilience

As noted above, Governor Newsom unveiled a \$5.1 billion plan for water infrastructure, drought response and improved climate resilience. The May Revise added the following funding to the Governor's Proposed Budget:

- \$1.3 billion for drinking water/wastewater infrastructure, especially for small and disadvantaged communities;
- \$500 million for multi-benefit land repurposing to support growers;
- \$300 million for drought relief and urban water management grants for approximately 2,400 small community water systems that serve schools and all of California's 58 counties as they plan for drought and potential water shortages;
- \$300 million for Sustainable Groundwater Management Act implementation to improve water supply security, water quality, and water reliability;
- \$266 million for water resilience projects to improve ecosystem health for native fish in the Sacramento and San Joaquin rivers and their tributaries;

- \$230 million for ecosystems to improve passage for wildlife or fish;
- \$220 million for Salton Sea to maximize habitat outcomes and provide immediate economic relief to the community;
- \$200 million for habitat restoration and multi-benefit projects including tidal wetland, floodplain, and flood-risk reduction projects to restore fish and wildlife habitat;
- \$200 million for Oroville pump storage to increase clean electricity generation to improve grid reliability;
- \$200 million for water conveyance to address subsidence and rising cost of moving water through the Friant-Kern Canal, the Delta-Mendota Canal, the California Aqueduct, and the San Luis Canal;
- \$150 million for groundwater cleanup and water recycling to improve climate resilience;
- \$140 million for flood to reduce flood risk for 1.1 million people and over \$100 billion of assets;
- \$91 million for critical data collection to improve forecasting;
- \$60 million for State Water Efficiency and Enhancement (SWEEP) in grants to help farmers reduce irrigation water use and reduce greenhouse gas emissions from agriculture pumping;
- \$33 million for fisheries and wildlife to protect and conserve California’s diverse ecosystems; and
- \$27 million for emergency and permanent solutions to drinking water drought emergencies.

This funding, with the water infrastructure funding included in the Governor’s Proposed Budget, totals \$5.1 billion.

When asked whether the funding proposals in his May Revise to address the consequences of climate change substitute for a climate resilience bond measure, Governor Newsom responded that “they substantially do across the spectrum.”

Updates Other State Legislation of Interest to IRWD:

Staff also updated the Water Resources Policy and Communications Committee on the following bills:

- *AB 377 (R. Rivas, D-Hollister) – Water Quality*: AB 377, as introduced in February, proposed to require all California surface waters to be fishable, swimmable, and drinkable by January 1, 2050, and to remove discretion of regional water boards over NPDES permits

and waste discharge requirements, and regional water quality control plans. The bill was amended three separate times in March and April, and in advance of the Assembly Appropriation Committee, the author circulated an additional set of amendments. In the end, the amendments that the author was willing to accept did not address the underlying, fundamental problems with the bill. The Assembly Appropriations Committee postponed its hearing of the bill on May 20. This means that the bill is now a two-year bill and that it will not be eligible to advance until 2022. The District currently has an “oppose” position on AB 377 and has been part of a large multi-sector coalition that has raised concerns about the bill;

- *AB 1434 (Friedman, D-Glendale) – Indoor Residential Water Use Standard:* The 2018 “Making Conservation a Way of Life” legislation requires each urban water supplier to calculate and meet an urban water use object. The urban water use object is calculated largely by using an indoor water use efficiency standard, outdoor water use efficiency standard, and water loss standard. The standard for indoor residential water use was set by statute in the 2018 legislation. The legislation, which was heavily negotiated with the water community, set the indoor residential standard at 55 gallons per capita daily (gpcd) until 2025. It then reduced the standard to 52.5 gpcd between 2025 and 2030, and to 50 gpcd in 2030. AB 1434 proposes to change the indoor standard. The bill would set the standard for indoor residential water use at 48 gpcd until 2025. It would then reduce the standard to 44 gpcd between 2025 and 2030, and to 40 gpcd in 2030. AB 1434 was recently made a two-year bill. The District currently has an “oppose” position on AB 1434;
- *SB 222 (Dodd, D-Napa) – Water Affordability Assistance Program and SB 223 (Dodd) – Discontinuation of Residential Water Service:* SB 222 (Dodd), which would create a Water Rate Assistance Program, was passed by the Senate Appropriations Committee to the Senate Floor. SB 223, which would have changed the rules for when a water agency could shut off a residential customer for non-payment and required an evaluation of arrearage management plans, was held on the Senate Appropriation’s Suspense File. This means that the bill is now dead. IRWD and a large coalition of water suppliers, led by the Association of California Water Agencies, opposed SB 223 and remain at an “oppose unless amended” position on SB 222;
- *SB 323 (Caballero, D-Salinas) – Legal Action on Water and Sewer Service Rates:* Existing law establishes a 120-day statute of limitations for challenging certain local government fees and charges. SB 323 would establish a similar 120-day statute of limitations for water and sewer rates. SB 323 was passed by the Senate on a vote of 34-1-5 vote. Upon being transmitted to the Assembly, it was assigned to the Assembly Local Government and Assembly Judiciary Committees. Staff expects that the bill will be heard in the Assembly Local Government Committee on June 9; and
- Other legislation of interest to the District.

2021 State and Regional Regulatory Update:

2021 State Adaptation Strategy Update:

California's Climate Adaptation Strategy provides a roadmap for state agencies to mitigate and manage the impacts of climate change on communities, infrastructure, services, and the natural environment. The State is in the process of updating California's State Adaptation Strategy, with the goal of delivering an updated strategy this year that outlines the state's key climate resilience priorities. The California Natural Resources Agency and the Governor's Office of Planning and Research held a virtual kick-off webinar on May 26 to provide information about the development of this update and upcoming regional workshops. It is a priority for the Administration that the Strategy reflect and reinforce regional priorities. Staff plans to participate in the Los Angeles region workshop on June 16, and will update the Water Resources Policy and Communications Committee, as appropriate.

Other 2021 State Regulations:

The following is a list of some of the State regulations and agency reports staff is monitoring, tracking or planning to engage in over the next three to 12 months. As the next drafts of the regulations or reports are released for public review and comment, staff will engage, as appropriate.

The pending regulations and reports actively being tracked include the:

- California Air Resources Board (CARB) Advanced Clean Fleets Rules;
- CARB Climate Change Scoping Plan Update;
- CARB In-Use Off-Road Diesel-Fueled Fleets Regulation Amendments;
- California Water Commission's [White Paper on the State's Financing of Water Conveyance Projects](#);
- DWR and the State Board's implementation of the "[Making Water Conservation a California Way of Life](#)" legislation;
- DWR and the State Board's Indoor Water Use Study and Indoor Water Use Standard Recommendations;
- DWR's Work Group on commercial, industrial, and institutional performance measures;
- Implementation of Executive Order [EO-N-82-2020](#) requiring 30 percent of the state's land and coastal waters to be conserved by 2030;
- [Implementation of the Governor's Water Resiliency Portfolio](#);

- State Board’s development of a “Cross Connection Policy Handbook;”
- State Board’s Direct Potable Reuse Regulations;
- State Board’s drought monitoring and emergency actions;
- State Board’s Electronic Annual Report;
- State Board’s [Safe and Affordable Funding for Equity and Resilience \(SAFER\) Drinking Water Program](#); and
- State Board’s [Water Loss Performance Standards Regulations](#).

2021 Federal Legislative Update:

IRWD’s federal advocacy efforts in 2021 continue to largely focus on seeking federal funding for the Kern Fan Groundwater Storage Project and advocating for an increased funding authorization for the federal Water Storage Program. Recently, the District’s federal advocates recently submitted an \$8.35 million Fiscal Year 2022 earmark request for the Kern Fan Groundwater Storage Project to Senator Alex Padilla’s Office. This amount is approximately 25 percent of the estimated FY 2022 budget for the project.

On June 3, 2021, staff updated the Water Resources Policy and Communications Committee on these efforts and the ongoing efforts related to positioning the Kern Fan Groundwater Storage Project for federal funding this year, and other federal proposals of interest to the District.

Updates Other Federal Legislation of Interest to IRWD:

H.R. 3404, FUTURE Western Water Act (Huffman, D-CA):

Representative Jared Huffman (D-CA) reintroduced the FUTURE Western Water Infrastructure and Drought Resiliency Act (FUTURE Western Water Act) on May 20. The bill proposes:

- \$750 million for sustainable, multi-benefit water storage projects;
- \$500 million for water recycling and reuse projects; and
- \$260 million for innovative water desalination projects.

It also includes investments in water data and technology to improve water management and reduce energy and water waste, investments in ecosystem protection and restoration and investments in water job training and education. Additionally, the legislation would establish a new process to authorize new major water storage projects owned or supported by the Department of the Interior, modeled on the process used to authorize the U.S. Army Corps of Engineers water projects through the Water Resources Development Act.

It would also grandfather certain water storage projects and deem these projects as eligible for funding consideration within the federal water storage project. Grandfathered projects include projects that have been awarded at least \$200 million in conditional funding by the California

Water Commission under Proposition 1's Water Storage Program. Unfortunately, as currently drafted, it excludes the Kern Fan Groundwater Storage Project. Staff has raised this issue with the Congressman's office and is seeking amendments to the grandfathering language.

Given the funding and programmatic changes proposed in the FUTURE Western Water Act, and the changes staff has been seeking to the grandfathering language, staff recommends that the Board adopt a "support in concept" and "seek amendments" position the bill. This would allow the District to communicate its support for efforts to extend the water storage program and fund water recycling while still seeking amendments that would benefit the Kern Fan Groundwater Storage Project.

FISCAL IMPACTS:

Not applicable.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

COMMITTEE STATUS:

This item was reviewed by the Water Resources Policy and Communications Committee on June 3, 2021.

RECOMMENDATION:

THAT THE BOARD ADOPT A "SUPPORT IN CONCEPT" AND "SEEK AMENDMENTS" POSITION ON THE FUTURE WESTERN WATER INFRASTRUCTURE AND DROUGHT RESILIENCY ACT.

LIST OF EXHIBITS:

Exhibit "A" – IRWD Legislative Matrix

EXHIBIT “A”
IRWD 2021 LEGISLATIVE MATRIX
Updated 05/25/2021

Bill No. Author	Title	IRWD Position	Summary/Effects	Status
<u>AB 1</u> Garcia (D)	Hazardous Waste		Creates the Board of Environmental Safety in the California Environmental Protection Agency. Provides requirements for the membership of the board and requires the board to conduct no less than 6 public meetings per year. Provides for the duties of the board, which would include, among others, reviewing specified policies, processes, and programs within the hazardous waste control laws.	05/24/2021 - In ASSEMBLY. Read second time. To third reading.
<u>AB 2</u> Fong (R)	Regulations: Legislative Review: Regulatory Reform		Requires the Office of Administrative Law to submit to each house of the Legislature for review a copy of each major regulation that it submits to the Secretary of State. Requires each state agency to review that agency's regulations, identify any regulations that are duplicative, overlapping, inconsistent, or out of date, to revise those identified regulations, and report to the Legislature and Governor.	05/20/2021 - In ASSEMBLY. Joint Rule 62(a) suspended.;05/20/2021 - In ASSEMBLY Committee on APPROPRIATIONS: Held in committee.
<u>AB 9</u> Wood (D)	Fire Safety: Wildfires: Fire Adapted Communities		Establishes in the Department of Conservation the Regional Forest and Fire Capacity Program to support regional leadership to build local and regional capacity and develop, prioritize, and implement strategies and projects that create fire adapted communities and landscapes by improving watershed health, forest health, community wildfire preparedness, and fire resilience.	05/24/2021 - In ASSEMBLY. Read second time. To third reading.
<u>AB 11</u> Ward (D)	Climate Change: Regional Climate Change Authorities		Requires the Strategic Growth Council to establish regional climate change authorities to coordinate climate adaptation and mitigation activities in their regions and coordinate with other regional climate adaptation authorities, state agencies, and other relevant stakeholders. Authorizes the regional climate change authorities to engage in certain activities to address climate change. Requires the regional climate change authorities to annually submit to the council a report on their activities.	01/21/2021 - From ASSEMBLY Committee on NATURAL RESOURCES with author's amendments.;01/21/2021 - In ASSEMBLY. Read second time and amended. Re-referred to Committee on NATURAL RESOURCES.

IRWD 2021 LEGISLATIVE MATRIX
Updated 05/25/2021

Bill No. Author	Title	IRWD Position	Summary/Effects	Status
<u>AB 15</u> Chiu (D)	COVID-19 Relief: Tenancy Stabilization Act of 2021		Extends the definition of "COVID-19 rental debt" as unpaid rent or any other unpaid financial obligation of a tenant that came due between March 1, 2020, and December 31, 2021. Extends the repeal date of the COVID-19 Tenant Relief Act of 2020 to January 1, 2026. Prohibits a landlord from taking certain actions with respect to a tenant's COVID-19 rental debt, including, among others, charging or attempting to collect late fees, or withholding a service or amenity.	01/11/2021 - To ASSEMBLY Committee on HOUSING AND COMMUNITY DEVELOPMENT.
<u>AB 16</u> Chiu (D)	Tenancies: Tenant, Small Landlord, and Housing Act		Establishes the Tenant, Small Landlord, and Affordable Housing Provider Stabilization Program. Authorizes the Director of Housing and Community Development to direct an existing office or program within the Department of Housing and Community Development to implement the program. Establishes in the State Treasury the COVID-19 Tenant, Small Landlord, and Affordable Housing Provider Stabilization Fund, and, upon appropriation, distributes all moneys in the fund to carry out the purposes of the program.	01/12/2021 - From ASSEMBLY Committee on HOUSING AND COMMUNITY DEVELOPMENT with author's amendments.;01/12/2021 - In ASSEMBLY. Read second time and amended. Re-referred to Committee on HOUSING AND COMMUNITY DEVELOPMENT.
<u>AB 20</u> Lee (D)	Political Reform Act of 1974: Corporate-Free Elections		Enacts the Corporate-Free Elections Act. Prohibits a candidate for elective office from receiving a contribution from a business entity, and a business entity from making a contribution to a candidate for elective office.	04/29/2021 - In ASSEMBLY Committee on ELECTIONS: Heard, remains in Committee.
<u>AB 25</u> Kiley (R)	Worker Classification: Employees and Contractors		Generally repeals provisions relating to the "ABC" test to determine if workers are employees or independent contractors. The bill would instead require the determination of whether a person is an employee or an independent contractor to be based on the specific multifactor test set forth in the Borello decision, including whether the person to whom service is rendered has the right to control the manner and means of accomplishing the result desired.	01/11/2021 - To ASSEMBLY Committee on LABOR AND EMPLOYMENT.

Bill No. Author	Title	IRWD Position	Summary/Effects	Status
			the identified priority fuel reduction projects from certain legal requirements in a similar manner as provided in the proclamation of a state of emergency issued by the Governor on March 22, 2019.	
<u>AB 386</u> Cooper (D)	Public Employees Retirement: Investments: Confidential		Exempts from disclosure under the California Public Records Act specified records regarding an internally managed private loan made directly by the Public Employees' Retirement Fund. Provides that these records would include quarterly and annual financial statements of the borrower or its constituent owners, unless the information has already been publicly released by the keeper of the information. Prescribes specified exceptions to this exemption from disclosure.	05/13/2021 - In ASSEMBLY. Read second time. To third reading.
<u>AB 404</u> Salas (D)	Workers' Compensation: Medical-Legal Expenses		Relates to Workers compensation. Requires that the medical-legal fee schedule be reviewed, and updated if necessary, to increase the conversion factor by the percentage increase in the most recent federal Medicare Economic Index.	05/24/2021 - In ASSEMBLY. Read second time. To third reading.
<u>AB 418</u> Valladares (R)	Emergency Services: Grant Program		Establishes the Community Power Resiliency Program to be administered by the Office of Emergency Services, to support governments' efforts to improve resiliency in response to power outage events.	05/25/2021 - In ASSEMBLY. Read second time. To third reading.
<u>AB 426</u> Bauer-Kahan (D)	Toxic Air Contaminants		Authorizes air pollution control districts and air quality management districts to adopt and implement regulations to require data regarding air pollution within the district's jurisdiction from indirect and areawide sources of air pollution, including mobile sources drawn by those sources, to enable the calculation of health risks from toxic air contaminants. Authorizes the districts to adopt and implement regulations to accomplish these objectives in carrying out their responsibilities.	03/17/2021 - From ASSEMBLY Committee on NATURAL RESOURCES with author's amendments.;03/17/2021 - In ASSEMBLY. Read second time and amended. Re-referred to Committee on NATURAL RESOURCES.

IRWD 2021 LEGISLATIVE MATRIX
Updated 05/25/2021

Bill No. Author	Title	IRWD Position	Summary/Effects	Status
<u>AB 427</u> Bauer-Kahan (D)	Electricity: Resource Adequacy Requirements		Requires the Public Utilities Commission to establish a capacity valuation methodology for customer-sited energy storage resources and customer-sited hybrid resources, as defined, in consultation with the ISO and the State Energy Resources Conservation and Development Commission for the 2023 resource adequacy year.	05/20/2021 - In ASSEMBLY Committee on APPROPRIATIONS: Held in committee.
<u>AB 428</u> Mayes (R)	Government: Board Of Supervisors		Requires that, when term limits are imposed, the limit must be no fewer than a specified amount of terms. Specifies that the board of supervisors is included in the definition of county officers for whom the board of supervisors is required to prescribe compensation.	05/13/2021 - In ASSEMBLY. Read third time. Passed ASSEMBLY. *****To SENATE.
<u>AB 431</u> Patterson (R)	Forestry: Timber Harvesting Plans: Defensible Space		Extends to January 1, 2026, the State Board of Forestry and Fire Protection's authorization to exempt a person from the Forest Practice Act of 1973 engaging in the cutting or removal of trees on the person's property in compliance with specified defensible space requirements as provided.	05/12/2021 - To SENATE Committee on NATURAL RESOURCES AND WATER.
<u>AB 436</u> Fong (R)	Wages: Records: Inspection and Copying		Relates to existing law which gives every current and former employee the right to inspect and receive a copy of the personnel records that the employer maintains relating to the employee's performance. Requires, if an employee or their representative requests to inspect or copy records relating to the itemized statement and also requests to inspect or receive a copy of personnel records, that the deadline to comply with both requests be governed by the response deadline provisions.	02/12/2021 - To ASSEMBLY Committee on LABOR AND EMPLOYMENT.
<u>AB 440</u> Bigelow (R)	Bear Lake Reservoir: Recreational Use		Deletes a condition that bodily contact is allowed for no more than 4 months each year, and would delete the above-referenced minimum frequency for the Lake Alpine Water Company to conduct the monitoring program.	05/12/2021 - To SENATE Committee on ENVIRONMENTAL QUALITY.

			or of the person no longer being physically or mentally incapacitated, or a year after the claim accrues.	
SB 505 Hertzberg (D)	Wages: Withholdings: Written Authorization		Requires a public employer, absent fraud, misrepresentation, or theft, to make a good faith effort to consult with an employee to obtain a written authorization to resolve a monetary obligation before utilizing third-party collection services or commencing a civil action. Requires the written authorization to include a mutual agreement between the public employer and employee and, to the extent possible, would prohibit that written authorization from placing an undue financial burden upon the employee.	05/20/2021 - To ASSEMBLY Committees on LABOR AND EMPLOYMENT and JUDICIARY.
SB 506 Jones (R)	California Environmental Quality Act: Greenhouse Gas		Prohibits the Department of Forestry and Fire Protection from requiring applicants for a grant or other funds made available to the department from the Greenhouse Gas Reduction Fund to consider the greenhouse gas emissions impacts of vegetation management projects pursuant to the California Environmental Quality Act (CEQA) as a condition of applying for or receiving a grant or other funds from moneys made available to the department from the fund.	02/25/2021 - To SENATE Committees on NATURAL RESOURCES AND WATER and ENVIRONMENTAL QUALITY.
SB 520 Wilk (R)	Water Resources: Permit to Appropriate: Applications		Requires the State Water Resources Control Board, if the board has not rendered a final determination on an application for a permit to appropriate water within 30 years from the date the application was filed, to issue a new notice and provide an opportunity for protests before rendering a final determination, with specified exceptions.	05/13/2021 - To ASSEMBLY Committee on WATER, PARKS AND WILDLIFE.
SB 526 Min (D)	Community Water Systems: Lead User Service Lines		Requires community water system to remove or replace the full lead user service line, if the community water system disturbs, removes, or replaces a portion thereof. Applies specified enforcement provisions to a violation of the requirements of the bill, thereby creating a state-mandated local program by	02/25/2021 - To SENATE Committee on ENVIRONMENTAL QUALITY.

IRWD SALARY GRADE SCHEDULE CHANGES FOR MANAGERS, EXEMPT SUPERVISORS, CONFIDENTIAL EMPLOYEES AND EXEMPT EMPLOYEES FOR FISCAL YEAR 2021-22

SUMMARY:

IRWD typically makes a cost-of-living adjustment (COLA) for District staff effective July 1 of each year. Staff recommends the Board approve the Schedules of Revised Positions and Salary Grades based on a COLA of 3.6% for Managers, Exempt Supervisors, Confidential Employees and Exempt Employees for FY 2021-22 and adopt a resolution superseding Resolution No. 2020-22 and adopting the revised Schedules of Positions and Salary Rate Ranges for these positions.

BACKGROUND:

IRWD typically makes a cost-of-living adjustment for staff effective on July 1. For Fiscal Year 2021-22, the proposed changes to the IRWD Salary Grade Schedule incorporates a 3.6% COLA for Managers, Exempt Supervisors, Confidential Employees, and Exempt Employees. The proposed adjustments are based on the 12-month change in the Consumer Price Index (CPI) posted by the Bureau of Labor Statistics for the Los Angeles-Long Beach-Anaheim areas. The proposed adjustments are reflected on Exhibit "A".

A resolution adopting the proposed changes to the IRWD Salary Grade Schedules is provided as Exhibit "B". Staff recommends the Board adopt a resolution superseding Resolution No. 2020-22 and adopting a revised Schedules of Positions and Salary Rate Ranges effective July 1, 2021. The General Employee Unit and Non-Exempt Supervisor Unit are currently in on-going labor negotiations with management so there are no changes to those Salary Grade Schedules at this time.

FISCAL IMPACTS:

A COLA for employee salaries was included in the Fiscal Year 2021-22 Operating Budget approved by the Board on April 26, 2021.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

COMMITTEE STATUS:

This item was not reviewed by a Committee.

RECOMMENDATION:

THAT THE BOARD APPROVE THE REVISED SALARY GRADE SCHEDULE AND
ADOPT THE FOLLOWING RESOLUTION BY TITLE:

RESOLUTION NO. 2021 –

RESOLUTION OF THE BOARD OF DIRECTORS OF THE
IRVINE RANCH WATER DISTRICT SUPERSEDING
RESOLUTION NO. 2020-22 AND ADOPTING A REVISED
SCHEDULE OF POSITIONS AND SALARY RATE RANGES
FOR MANAGERS, EXEMPT SUPERVISORS,
CONFIDENTIAL EMPLOYEES AND EXEMPT EMPLOYEES
WITH NO CHANGES TO THE SCHEDULE OF POSITIONS
AND SALARY RATE RANGES FOR THE GENERAL
EMPLOYEE UNIT AND NON-EXEMPT SUPERVISOR UNIT.

LIST OF EXHIBITS:

Exhibit “A” – Salary Grade Schedule Changes for Fiscal Year 2021-22

Exhibit “B” – Resolution

Exhibit "A"

RESOLUTION NO. 2021 –

RESOLUTION OF THE BOARD OF DIRECTORS OF
IRVINE RANCH WATER DISTRICT, SUPERSEDING
RESOLUTION NO. 2020-22 AND ADOPTING A REVISED
SCHEDULE OF POSITIONS AND SALARY RATE RANGES

The Board of Directors of Irvine Ranch Water District, by adoption of Resolution No. 2020-22 on November 23, 2020, established a Schedule of Positions and Salary Rate Ranges of the Irvine Ranch Water District; and

The Board of Directors of Irvine Ranch Water District have reviewed the Schedule of Positions and Salary Rate Ranges and desires to make revisions to the Schedule of Positions and Salary Rate Ranges for the Managers, Exempt Supervisors, Confidential and Exempt Employees with no changes to the Schedule of Positions or Salary Rate changes for the General Employees or Non-Exempt Supervisors.

The Board of Directors of Irvine Ranch Water District does hereby resolve, determine and order as follows:

Section 1. That the Schedule of Positions and Salary Rate Ranges adopted by Resolution No. 2020-22 on November 23, 2020 is hereby superseded effective July 1, 2021.

Section 2. That the revised Schedule of Positions and Salary Rate Ranges for the Irvine Ranch Water District as set forth in Exhibit “A” attached to this Resolution, and as effective July 1, 2021 for all classifications, is hereby approved and adopted.

ADOPTED, SIGNED and APPROVED on June 14, 2021.

President, IRVINE RANCH WATER DISTRICT
and of the Board of Directors thereof

Secretary, IRVINE RANCH WATER DISTRICT
and of the Board of Directors thereof

APPROVED AS TO FORM:

Hanson Bridgett LLP

CONSENT CALENDAR

CONSULTANT SELECTION FOR
RECYCLED WATER USE SITE INSPECTION, TESTING AND TRAINING

SUMMARY:

IRWD is required by the Santa Ana Regional Water Quality Control Board to conduct periodic visual inspections at all recycled water use sites. IRWD is also required to conduct periodic cross-connection tests at specific recycled water use sites based on regulations and arrangements with the State Water Resources Control Board, Division of Drinking Water (DDW). Over the past two years, IRWD has contracted with two consulting firms to augment staff's efforts to complete inspection and testing work in a timely manner. Anticipating the need to continue using consulting services over the next two years, staff solicited proposals from four firms to conduct visual inspections, cross-connection tests and Site Supervisor training. Staff recommends the Board authorize the General Manager to execute Professional Service Agreements with Real Water Consultants and West Yost Associates, each in an amount not to exceed \$365,000, to provide on-call recycled water use site visual inspections, cross-connection tests and Site Supervisor training for a two-year period.

BACKGROUND:

IRWD currently serves approximately 6,300 recycled water use sites with more added each year. While staff conducts recycled water use site visual inspections, cross-connection tests and Site Supervisor training at dual-plumbed and other select sites, IRWD has been using consultants since 2012 to supplement staff's work. During the past two years, IRWD retained Real Water and West Yost to assist staff with these efforts.

IRWD's inspection and testing responsibilities are increasing as new recycled water use sites come online and regulatory requirements change. Accordingly, there remains the need to hire consultants to augment staff's efforts in conducting inspection, testing, and training work. Following is an overview of the need for site inspection, testing and training work as well as a new state policy handbook that could substantially affect the work. Also provided is an overview of the selection of consultants to assist with IRWD's inspection, testing and training program.

Recycled Water Use Site Inspection, Testing and Training:

Inspections and tests are performed to check for compliance with regulatory requirements and best management practices. Inspections are performed to determine if: 1) on-site water systems are properly identified, 2) signage is in place, 3) recycled water uses are allowed and approved, 4) there is a Site Supervisor for each site, and 5) each Site Supervisor has received some basic training. Cross-connection tests are performed to confirm that the recycled water system is not connected to a potable water system.

The type of recycled water use site determines the regulatory requirements for conducting visual inspections and cross-connection tests. Dual-plumbed use sites, which include single-family lots where recycled water is used for outdoor irrigation as well as commercial buildings where recycled water is used indoors for flushing toilets and urinals, require that visual inspections be performed annually, and that a cross-connection test be performed at least once every four years. IRWD currently serves approximately 810 dual-plumbed use sites where staff handles the inspection, testing and training responsibilities. IRWD also serves approximately 880 homeowners' associations where visual inspections and cross-connection tests are required annually.

New Cross-connection Control Policy Handbook:

Title 17 of the California Code of Regulations contains the requirements for a cross-connection control program which is to protect a water supplier's potable water system. Drinking water permit holders, like IRWD, are required to implement a cross-connection control program consistent with Title 17. DDW recently drafted a Cross-connection Control Policy Handbook, which once adopted by the State Water Resources Control Board, will replace Title 17.

The draft Handbook requires drinking water permit holders to prepare and submit a written cross-connection control plan which must be approved by DDW staff. One of the requirements in the draft Handbook is that "High Hazard" sites, which include recycled water use sites, must have regular follow-up assessments (presumably the same as an inspection). The frequency of these assessments is currently unknown. As drafted, the Handbook will certainly formalize and possibly increase IRWD's recycled water use site inspection and testing responsibilities. The draft Handbook is currently going through the public comment process. IRWD joined with several nearby water/recycled water agencies on a joint letter providing comments on the draft Handbook. Staff will continue to monitor development of the document.

Consultant Selection Process:

Recycled water use sites vary in size, complexity, and regulatory requirements. Some sites are smaller irrigation sites such as medians and parkways that have only recycled water, while others are larger, more complex irrigation sites such as golf courses and homeowners' associations that also have potable water at the site. Staff prepared a request for proposal (RFP) seeking the qualifications, experience, and proposed costs to conduct visual inspections, cross-connection tests, and Site Supervisor training at various site types in IRWD's service area.

The scope of work in the RFP calls for the consultants to contact the Site Supervisor to arrange for a field meeting, conduct the field work (e.g., visual inspection and cross-connection test), provide Site Supervisor training, and complete and submit associated paperwork. The RFP also specifies that the consultants comply with prevailing wage requirements. The RFP was issued to John Robinson Consulting, Real Water, West Yost and Woodard and Curran. John Robinson Consulting and Woodard and Curran declined to submit proposals. Staff evaluated the proposals received from Real Water and West Yost and interviewed each firm. Provided as Exhibit "A" is the Consultant Selection Matrix prepared by staff.

Based on the anticipated workload and qualifications of the firms, staff recommends the selection of both Real Water and West Yost to assist with recycled water use site visual inspections, cross-connection tests, and Site Supervisor training. Equal costs were negotiated with both firms, as shown in the cost proposal provided as Exhibit “B”. These rates are identical to those charged for the last two fiscal years. Staff recommends the Board authorize the General Manager to execute a Professional Services Agreement with each firm for a not to exceed amount of \$365,000 over the next two years.

FISCAL IMPACTS:

The following table illustrates the amounts included in the Board-approved two-year operating budget for consultants to perform inspection, testing and training work:

Fiscal Year	For Site Inspection, Testing, and Training
2021-2022	\$380,000
2022-2023	\$350,000
Total	\$730,000

It is staff’s intent to split the work equally between Real Water and West Yost.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

COMMITTEE STATUS:

This item was reviewed by the Water Resources Policy and Communications Committee on June 3, 2021.

RECOMMENDATION:

THAT THE BOARD AUTHORIZE THE GENERAL MANAGER TO EXECUTE PROFESSIONAL SERVICE AGREEMENTS WITH REAL WATER CONSULTANTS AND WEST YOST ASSOCIATES, EACH IN AN AMOUNT NOT TO EXCEED \$365,000, TO PROVIDE ON-CALL RECYCLED WATER USE SITE VISUAL INSPECTIONS, CROSS-CONNECTION TESTS, AND SITE SUPERVISOR TRAINING FOR A TWO-YEAR PERIOD.

ATTACHMENT "B"

COST PROPOSAL

The Consultant shall provide the hours for each scenario and the per meter cost proposal to complete the tasks identified on Attachment "A" and as directed by the IRWD representative.

Below are descriptions of each different type of recycled water meters that IRWD currently serves. Also indicated are the approximate number of active meters for each specific type.

Type 1: *Single-supply, agricultural sites with no potable water systems within the irrigated area.*

- **Sample:** *Agriculture field located at the corner of Alton Parkway and Muirlands (south side of Alton), Irvine, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 30 irrigation meters.*
- **Cost Proposal:**
 1. Inspection only cost per meter \$: 79.00 Assumed hours: 1
 2. Testing only cost per meter \$: 79.00 Assumed hours: 1
 3. Inspection & Testing cost per meter \$: 158.00 Assumed hours: 2

Type 2: *Single-supply, medians, freeway landscaping, slope areas etc.*

- **Sample:** *Median strip located at the corner of Newport Coast Drive and San Joaquin Hills Corridor, Newport Beach, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 2800 irrigation meters.*
- **Cost Proposal:**
 1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
 2. Testing only cost per meter \$: 79.00 Assumed hours: 1
 3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 3: *Dual-supply, agricultural sites also served by potable water meters.*

- **Sample:** *Agriculture field located east side of Portola Parkway, corner of Jeffrey Road, Irvine, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 9 irrigation meters.*
- **Cost Proposal:**
 1. Inspection only cost per meter \$: 79.00 Assumed hours: 1
 2. Testing only cost per meter \$: 98.75 Assumed hours: 1.25

3. Inspection & Testing cost per meter \$: 177.75 Assumed hours: 2.25

Type 4: *Dual-supply, recycled and potable water meters typically serving park landscape and recreational facilities, guard shack landscape and interior, club houses, etc.*

- **Sample:** *Mason Regional Park on University Drive and Campus Drive & guard houses located on both entrances to the Shady Canyon Community, Irvine, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 450 irrigation meters.*
- **Cost Proposal:**
 1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
 2. Testing only cost per meter \$: 79.00 Assumed hours: 1
 3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 5: *Dual-supply, multi-family homeowners association landscape where structures are served by master meters for domestic water and protected with RPPA backflow devices.*

- **Sample:** *Toscana Apartments. Multifamily units located at the corner of Jamboree Road and Michelson Drive, Irvine, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 400 irrigation meters.*
- **Cost Proposal:**
 1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
 2. Testing only cost per meter \$: 79.00 Assumed hours: 1
 3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 6: *Dual-supply, homeowners' association landscape where structures served by potable waters that do not have RPPA backflow protection.*

- **Sample:** *Woodbridge Pine Apartments located at the corner of Alton and Barranca Parkway, Irvine, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 900 irrigation meters.*
- **Cost Proposal:**
 1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
 2. Testing only cost per meter \$: 79.00 Assumed hours: 1
 3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 7: *Dual-supply, golf courses where structures and facilities are served by potable water meters.*

- **Sample:** *Pelican Hills Golf Course. Located at the corner of Pacific Coast Highway and Newport Coast Drive, Newport Beach, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 11 irrigation meters.*

• **Cost Proposal:**

1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
2. Testing only cost per meter \$: 79.00 Assumed hours: 1
3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 8: *Dual-supply, cemeteries where structures and facilities are served by potable water meters.*

- **Sample:** *Ascension Cemetery. Located on the corner of Trabuco Road and Paseo Tranquilo, Lake Forest, CA.*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 2 irrigation meters.*
- **Cost Proposal:**

1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
2. Testing only cost per meter \$: 79.00 Assumed hours: 1
3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 9: *Dual-supply, industrial uses (e.g., cement batch mixing, cooling towers) where non-dual plumbed structures and facilities are served by potable water meters.*

- **Sample:** *Roberston's Ready Mix. Construction Circle, Irvine, CA.*
- **Method of testing:** *One-way shut-down test or two way shut-down or pressure differential gage test.*
- **Quantities:** *Approximately 9 irrigation meters.*
- **Cost Proposal:**

1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
2. Testing only cost per meter \$: 79.00 Assumed hours: 1
3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 10: *Dual-supply, landscape around commercial buildings and parking lot areas.*

- **Sample:** *Irvine Ranch Water District parking lot irrigation system. Located at the corner of Sand Canyon Avenue & Waterworks Way, Irvine, CA*
- **Method of testing:** *One-way shut down test.*
- **Quantities:** *Approximately 850 irrigation meters.*
- **Cost Proposal:**

1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
2. Testing only cost per meter \$: 79.00 Assumed hours: 1
3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 11: *Dual-plumbed, front and back yard landscape at single family homes (e.g., "Full Lot Irrigation"), under the control of the homeowner.*

- **Sample:** Dual Plumbed Custom Homes located in Shady Canyon, Crystal Cove, Pelican Crest, and Pelican Hills communities, Irvine and Newport Beach.

- **Method of testing:** One-way shut down test.

- **Quantities:** Approximately 670 irrigation meters.

- **Cost Proposal:**

1. Inspection only cost per meter \$: 39.50 Assumed hours: 0.5
2. Testing only cost per meter \$: 39.50 Assumed hours: 0.5
3. Inspection & Testing cost per meter \$: 79.00 Assumed hours: 1

Type 12: Dual-plumbed, non-residential ("commercial") structures where toilets, trap primers, urinals, or cooling towers are served.

- **Sample:** Irvine Ranch Water District Sand Canyon Building, Sand Canyon Avenue and Waterworks Way, Irvine, CA.

- **Method of testing:** Two-way shutdown test or Pressure differential gage test along with Fixture Test

- **Quantities:** Approximately 125 meters.

- **Cost Proposal:**

1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
2. Testing only cost per meter \$: 79.00 Assumed hours: 1
3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

Type 13: Dual-plumbed, industrial structures (e.g., carpet dye applications, plating, manufacturing, etc.)

- **Sample:** Currently none.

- **Method of testing:** Two-way shut down test or Pressure differential gage test along with a Fixture Test.

- **Quantities:** 0

- **Cost Proposal:**

1. Inspection only cost per meter \$: 158.00 Assumed hours: 2
2. Testing only cost per meter \$: 79.00 Assumed hours: 1
3. Inspection & Testing cost per meter \$: 237.00 Assumed hours: 3

CONSENT CALENDAR

WATER EFFICIENCY TACTICAL INCENTIVE FUNDING AUTHORIZATION

SUMMARY:

IRWD's Water Use Efficiency Program includes tactical incentives to encourage customers to remove turf and to install commercial and outdoor water conservation devices that are cost-effective to the District. In 2015, IRWD executed a multi-year Water Conservation Participation Agreement with the Municipal Water District of Orange County (MWDOC) to administer District incentives for regional rebate programs. Staff recommends the Board authorize the General Manager to allocate \$230,000 from over-allocation revenues, included in the FY 2012-22 Operating Budget, to rebate programs that are administered through the agreement with MWDOC; and to execute addenda to the agreement, as may be necessary, to reallocate the funds among the individual rebate programs and to modify incentive levels based on customer participation rates and changes in regional program funding levels.

BACKGROUND:

Tactical incentives are a key element to IRWD's Water Use Efficiency Program. The financial incentives provided by IRWD are used to supplement existing regional rebate programs that are administered by MWDOC. IRWD's incentives are provided taking into consideration avoided costs to the District as a result of the installation of various water conservation devices.

In July 2015, the Board approved the multi-year Water Conservation Participation Agreement with MWDOC, provided as Exhibit "A". Each fiscal year, addenda to the agreement are executed to allocate funding and to specify device rebate funding levels for the outdoor Residential, Commercial, Turf Removal and Spray to Drip programs.

Device Funding Levels:

The proposed allocation of IRWD tactical incentive funding and the specific device funding levels for FY 2021-22 are shown in Exhibit "B". The allocation is based on prior customer participation rates and regional funding.

Total tactical incentive program funding in the amount of \$230,000 is included in the FY 2021-22 Operating Budget. To continue providing program incentives through June 2022, staff recommends the Board authorize the General Manager to allocate \$230,000 in funding to the FY 2021-22 rebate programs administered through IRWD's agreement with MWDOC and to execute addenda to the agreement, as may be necessary.

FISCAL IMPACTS:

Funding from over-allocation revenues for tactical incentives in the amount of \$230,000 is included in the FY 2021-22 Operating Budget.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act as authorized under the California Code of Regulations, Title 14, Chapter 3, Section 15378.

COMMITTEE STATUS:

This item was reviewed by the Water Resources Policy and Communications Committee on June 3, 2021.

RECOMMENDATION:

THAT THE BOARD AUTHORIZE THE GENERAL MANAGER TO ALLOCATE \$230,000 IN FUNDING TO THE FY 2021-22 REBATE PROGRAMS ADMINISTERED THROUGH THE WATER CONSERVATION PARTICIPATION AGREEMENT BETWEEN MUNICIPAL WATER DISTRICT OF ORANGE COUNTY AND IRWD AND EXECUTE ADDENDA TO THE AGREEMENT AS MAY BE NECESSARY TO ALLOCATE FUNDS TO SPECIFIC PROGRAMS AND MODIFY DEVICE INCENTIVE LEVELS BASED ON CUSTOMER PARTICIPATION RATES AND REGIONAL PROGRAM FUNDING LEVELS.

LIST OF EXHIBITS:

Exhibit "A" – Water Conservation Participation Agreement with MWDOC

Exhibit "B" – Device Funding Levels FY 2021-22

Exhibit "A"

Water Conservation Participation Agreement between the Municipal Water District of Orange County and Irvine Ranch Water District

This Water Conservation Participation Agreement (“Agreement”) is made between the Municipal Water District of Orange County (“MWDOC”) and Irvine Ranch Water District (“Participant Agency”). MWDOC and Participant Agency may be collectively referred to as “Parties” and individually as “Party.”

Recitals

- A. The Metropolitan Water District of Southern California (“Metropolitan”) provides incentive funding to residential, commercial, and industrial water users in its service area for a variety of water conservation activities, including, but not limited to, rebates for the purchase and installation of water-saving devices (“Metropolitan Base Incentives”).
- B. MWDOC is a member agency of Metropolitan and has agreements with Metropolitan that enable residential, commercial, and industrial water users in MWDOC’s service area, and for the benefit of MWDOC’s member agencies, to participate in and take advantage of Metropolitan’s Base Incentives.
- C. Participant Agency, as a MWDOC member agency or a direct Metropolitan member agency, may elect to participate in Metropolitan’s program to replace non-conserving items within its service area.
- D. The Metropolitan Base Incentives amounts for each eligible device or program available to MWDOC and Metropolitan member agencies are listed in the attached Addendums 1A and 1B. It is expected that Metropolitan will establish funding for additional water conservation items and to change some or all of the existing funding rates throughout the term of this Agreement. Any such changes will be incorporated herein by amendment to Addendums 1A and 1B.
- E. Metropolitan and MWDOC each have fiscal responsibility to manage their individual budgets, and hence may have a need to limit availability of funds.
- F. MWDOC and Metropolitan member agencies may also choose to provide additional supplemental funding of their own to augment the Metropolitan Base Incentives. Based on the terms and conditions of this Agreement, MWDOC will facilitate supplemental funding for Participant Agency through the Metropolitan rebate contractor (“Rebate Contractor”) or MWDOC directly. Metropolitan member agencies will coordinate any supplemental funding directly with Metropolitan.
- G. In addition to the Metropolitan Base Incentives, MWDOC has developed and arranged additional local, state, and federal grant funding (“Grant Funding”) for eligible devices in a number of water conservation programs (“MWDOC Administered Programs”) that MWDOC offers to Participant Agency and Metropolitan member agencies. This grant funding may be used to enhance the Metropolitan Base Incentives. Granting agencies

include, but are not limited to, the Department of Water Resources and the United States Bureau of Reclamation.

- H. Participant Agency may also operate customized, local water conservation incentive programs in their respective service areas (“Participant Agency Administered Programs”) and may have access to the Metropolitan Base Incentives and Grant Funding for such, subject to MWDOC and Metropolitan approval and the terms and conditions of this Agreement and any MWDOC and/or Metropolitan agreements.
- I. The purpose of this Agreement is to create a master water conservation participation agreement between MWDOC and Participant Agency that combines all of the conservation programs and incentives (“Programs”) into one agreement. Addendums to this Agreement will be issued for changes involving Metropolitan approved items, MWDOC Board approved items, Grant Funding, adding and subtracting MWDOC Administered Programs and Participant Agency Administered Programs as identified in Section 2, and changes to incentive programs, including funding and incentive levels.

NOW THEREFORE, in consideration of the promises and covenants hereinafter set forth, the Parties do agree as follows:

Section 1: Agreement Term and Administration

- 1.1 This Agreement will be effective on July 1, 2015 or upon execution of this Agreement by all Parties, whichever is later, and shall terminate on June 30, 2025 (“Term”). Continuance of this Agreement will be subject to annual budget approval by MWDOC’s Board of Directors.
- 1.2 This Agreement may be amended at any time by written mutual agreement of the Parties, or by Addendums issued by MWDOC as set forth in Recital I.
- 1.3 This Agreement may be terminated by either Party for any reason upon thirty (30) days written notice to the other Party.
- 1.4 All Addendums are enforced for the duration of this Agreement unless the Addendums are amended or terminated by either Party.
- 1.5 In the event the Agreement is terminated early, Participant Agency is responsible for payment of any funding contributions required by this Agreement that that were initiated prior to the effective date of the termination. For purposes of this Agreement, an application is deemed initiated when an application has been received by Metropolitan’s rebate vendor, EGIA, by MWDOC, or a reservation has been made within any of MWDOC’s online application portals that is pursuant to any of the programs described within this Agreement and the attached Addendums.
- 1.6 Notwithstanding any other provision in this Agreement, funds for all of the programs described within this Agreement and the attached Addendums are conditioned upon the

availability of funds and MWDOC is under no obligation to provide funding for any of the programs if MWDOC determines, in its own discretion, that such funding is exhausted, reduced, eliminated, or unavailable from any funding source, for any reason.

Section 2: Program Funding

2.1 Supplemental Funding

2.1.1 In addition to the Metropolitan Base Incentives, Participant Agency may provide additional funding to augment the Metropolitan Base Incentives amounts for those programs and devices that Participant Agency identifies, and in the amounts indicated, in the appropriate locations in Addendums 2A, 2B, and 2C (“Supplemental Funding”). The Supplemental Funding listed in Addendums 2A through 2C shall specify the amount of Supplemental Funding Participant Agency will provide per device or program, as well as the total maximum Supplemental Funding amount committed to each category of device or program. If the Participant Agency does not complete, sign, and return Addendums 2A through 2C to MWDOC, notwithstanding any other provision of this Agreement, the Participant Agency will not be bound by this Section or the provisions in Addendums 2A through 2C. In general, Supplemental Funding Addendums submitted by the 15th of a month will become effective the first of the following month.

2.1.2 If Participant Agency elects to provide Supplemental Funding or enhanced incentives under this Agreement for any device or program, Participant Agency is responsible for tracking the use of and the remaining availability of those funds. MWDOC will assist, in every way possible, but the ultimate responsibility for tracking all Participant Agency funding is the responsibility of Participant Agency. Participant Agency will ultimately be responsible for any overuse of Participant Agency Supplemental Funding.

2.1.3 Any requests for changes or revisions to Participant Agency’s Supplemental Funding, including funding transfers between Programs, must be submitted by Participant Agency to MWDOC in the form of revised Addendum 2s listing the new funding amounts/limits.

2.1.4 The Participant Agency may elect to participate in the Supplemental Funding Program and be bound by the provisions of this Section 2.1, Sections 3, 5, 6, 7, and 8 of this Agreement, and Addendum 2A through 2C by having its authorized representative complete and sign Addendum 2A through 2C in the spaces provided.

2.2 MWDOC Administered Programs

2.2.2 Participant Agency may elect to take advantage of the MWDOC Administered Programs by having its authorized representative complete and sign Addendums 3A through 3C in the spaces provided. If Participant Agency completes and signs Addendums 3A through 3C, Participant Agency agrees to be bound by the provisions of this Section 2.2, Sections 3, 5, 6, 7, and 8 of this Agreement, and Addendums 3A through

3C. If the Participant Agency does not complete, sign, and return Addendums 3A through 3C, notwithstanding any other provision of this Agreement, the Participant Agency will not be bound by this Section or the provisions in Addendums 3A through 3C.

2.3 Participant Agency Administered Programs

2.3.1 From time to time, funding may be made available for Participant Agency to operate a customized member agency administered local water conservation incentive program or programs (“Participant Agency Administered” “PA” or “MAA Program”) in its service area and access the Metropolitan Base Incentives for such, subject to MWDOC approval of the program and the terms and conditions of this Agreement and Addendum 4. The Participant Agency Administered Program(s) and requirements in connection with it are described in more detail in Addendum 4.

2.3.2 Upon receipt of approval of a Participant Agency Administered Program by MWDOC, Participant Agency is bound by the provisions of Sections 3, 5, 6, 7, and 8 of this Agreement and Addendum 4.

2.4 Exhaustion of Funding

2.4.1 In the event Participant Agency provided funding for any Program or device is exhausted, and Participant Agency does not elect to add additional funding or transfer available funding from another Program or device, MWDOC will discontinue offering the additional rebate funding for that Program or device in Participant Agency’s service area. Notwithstanding any other provision in this Agreement, MWDOC may terminate this Agreement as it relates to Section 2 at any time without prior notice in the event that MWDOC determines that funding for any device or program on Addendums 2 through 4 or MWDOC Grant Funding is exhausted, reduced, eliminated, or unavailable from any funding source, for any reason.

Section 3: Participant Agency Responsibility and Ownership

- 3.1 Participant Agency, at its sole discretion, may independently contract with its own agents under separate agreements for program administration and management for any Participant Agency Administered Program provided that doing so does not compromise program performance, create or present a conflict of interest, or violate the terms of this Agreement.
- 3.2 Participant Agency and/or its agent shall provide all necessary services and materials for such Participant Agency Administered Programs including, but not limited to the following: program administration, promotion, marketing materials, data collection, and analysis, installation verification, and reporting.
- 3.3 All materials and supplies necessary to implement a Participant Agency Administered Program shall be the exclusive property of Participant Agency. MWDOC shall have no

ownership, right, title, security interest, or other interest in any Participant Agency Administered Program materials or supplies, nor any rights duties, or responsibilities, therefor.

- 3.4 Participant Agency is responsible for assuring that any Participant Agency Administered Program complies with all federal, state, and local requirements.
- 3.5 Participant Agency agrees to cooperate with MWDOC's data management activities related to assessing device saturation and program success.
- 3.6 As part of any Participant Agency Administered Program, Participant Agency shall use, maintain, and submit to MWDOC within the designated timeframe an electronic database, to be approved by MWDOC prior to use, for any conservation items installed, distributed, or rebated by Participant Agency or its agents to avoid duplicate distributions and to determine the saturation rate of items by the appropriate geographic delineation.
- 3.7 Participant Agency is solely responsible for the performance of its staff or representatives in complying with the terms of this Agreement and for the proper allocation and appropriate use of funds provided by Metropolitan and/or MWDOC for the purpose of achieving water conservation savings under this Agreement.

Section 4: MWDOC's Obligations

- 4.1 MWDOC will be response to Participant Agency for ensuring that timely reports on the Programs' results are prepared by MWDOC's staff.
- 4.2 MWDOC will develop a database of information regarding participation in the Programs and provide monthly electronic and/or written reports of activity to Participant Agency.
- 4.3 MWDOC will invoice Participant Agency for any Participant Agency funding obligations on a monthly basis for rebates issued in the previous month.
- 4.4 MWDOC does not guarantee any minimum number of rebates will be available for Participant Agency's service area.

Section 5 Marketing.

- 5.1 Participant Agency agrees to assist in the marketing of programs it participates in under this Agreement. With regard to Participant Agency Administered Programs, Participant Agency will be solely responsible for marketing its Participant Agency Administered Program to customers in its service area.

Section 6: Installation Verification

- 6.1 Participant Agency shall be responsible for conducting installation verifications of items installed, distributed, and/or rebated by Participant Agency under Participant Agency

Administered Programs, and/or for paying all costs associated with this verification. Installation verification measures for program devices must be designed to ensure that materials, installation verifications of eligible program devices, and services meet requirements established by Metropolitan, which requirements will be provided to Participant Agency by MWDOC.

- 6.2 Participant Agency may be responsible for conducting installation verifications of items installed, distributed, and/or rebated by Participant Agency or MWDOC under MWDOC Administered Programs, and/or for paying all costs associated with this verification. Installation verification measures for program devices must be designed to ensure that materials, installation verifications of eligible program devices, and services meet requirements established by Metropolitan, which requirements will be provided to Participant Agency by MWDOC.
- 6.3 MWDOC reserves the right to conduct installation verification of items within Participant Agency's service area.
- 6.4 Participant Agency acknowledges that any device receiving funding from Metropolitan may be subject to an installation verification to be performed by Metropolitan, or its agent(s), at Metropolitan's discretion.
- 6.5 Participant Agency shall promptly refund to MWDOC any amounts paid under any Participant Agency Administered Program or MWDOC Administered Program for installed or distributed devices in the event MWDOC or Metropolitan establishes via installation verification that the program devices were not installed.

Section 7: Reporting and Invoicing

- 7.1 For any and all Supplemental Funding provided by Participant Agency and/or Participant Agency provided funding or inspection costs under the MWDOC Administered Programs pursuant to Section 2 of this Agreement, and as more particularly described in Addendums 2 and 3, MWDOC will invoice Participant Agency on a monthly basis for the cost of such funding, and Participant Agency must pay the full amount of such invoice within thirty (30) days of receipt of any such invoice.
- 7.2 For any and all Participant Agency Administered Program(s), Participant Agency will invoice MWDOC on a monthly basis, by the 10th of each month, for any approved funding and costs associated with the Participant Agency Administered Program(s) as indicated in and subject to the provisions of Addendum 4. MWDOC is under no responsibility to reimburse Participant Agency for any costs incurred by Participant Agency that are not approved by MWDOC consistent with the terms and conditions of this Agreement and Addendum 4. The invoice package shall include a fully completed, to the satisfaction of MWDOC, Excel customer/applicant spreadsheet showing program activity, and an invoice, signed by the General Manager or designee of Participant Agency, certifying the information provided as accurate. Participant Agency shall use the Excel customer/applicant spreadsheet and Invoice forms approved by MWDOC.

- 7.3 Participant Agency shall maintain all Participant Agency Administered Program information, including Participant Agency applications, water bills, and purchase receipts, for a period of seven years from the end date of this Agreement.
- 7.4 Payment of Participant Agency invoices shall be in the form of either a credit on MWDOC's water bill to Participant Agency or a check made payable to Participant Agency. Method of payment shall be at MWDOC's discretion.

Section 8: Confidentiality

- 8.1 MWDOC agrees to maintain the confidentiality of Participant Agency's customer names, addresses, and other information gathered in connection with this Agreement. MWDOC will not cause or permit the disclosure of such information except as necessary to carry out any of the MWDOC Administered or Participant Agency Administered Programs, or as required by law. To the extent that MWDOC contracts with third party contractors to carry out all or any portion of any of the Programs, MWDOC will require such contractors to maintain the confidentiality of such customer information.
- 8.2 Notwithstanding anything to the contrary in this Agreement, Participant Agency acknowledges and agrees that MWDOC may request and use historical water consumption data for purposes of satisfying any grant water use and water quality evaluation requirements of any of the Programs. Participant Agency also acknowledges and agrees that MWDOC may also request to use Program applicant information, such as name, mailing address, site photos, and email address to market other water use efficiency programs to past applicants. A similar provision will be required of every individual applicant.

Section 9. Indemnification.

- 9.1 The parties agree that each Party shall be responsible for its own actions, and the actions of its officers, employees, and agents, in performing services under this Agreement. Except as provided in this Agreement and its Addendums, each Party agrees to indemnify and hold the other Party and its officers and agents harmless and agrees to defend the other Party against any claim or asserted liability arising out of its actions, either willful or negligent, or the actions of its officers, employees, and agents, in performing services pursuant to this Agreement. Such indemnity will include any losses relating to any claim made, whether or not a court action is filed, and will include attorney fees and administrative and overhead costs related to or arising out of such claim or asserted liability.
- 9.2 Participant Agency shall include the following language in its agreement with any consultant or contractor retained by Participant Agency to work on any of the Program" "(Consultant) agrees at is sole cost and expense to protect, indemnify, defend, and hold harmless Metropolitan, MWDOC, and their associated Boards of Directors, officers, representatives, agents and employees from and against any and all claims and liability

of any kind (including, but not limited to, any claims or liability for injury or death to any person, damage to property, natural resources or to the environment, or water quality problems) that arise out of or related to Participant Agency's approval, construction, operation, repair, or ownership of any Program. Such indemnity shall include all damages and losses related to any claim made, whether or not a court action is filed, and shall include attorneys' fees, administrative and overhead costs, engineering and consulting fees, and all other costs related to our arising out of such claim or asserted liability."

Section 10. Certification re Lobbying (43 CFR 18)

10.1 The undersigned hereby certifies on behalf of Participant Agency that no Federal appropriated funds have been paid or will be paid, by or on behalf of the Participant Agency, to any person for influencing or attempting to influence an officer or employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying" in accordance with its instructions. To the extent federal funds are involved, the Participant Agency shall require that the language of this certification be included in the awards documents for any sub-awards by the Participant Agency at all tiers (including sub-contracts, sub-grants, and contracts under grants, loans and cooperative agreements) and that sub-recipients, if any, shall certify accordingly.

Section 11. Other Terms

- 11.1 Any alteration or variation of the terms of this Agreement will not be valid unless made in writing and signed by both Parties.
- 11.2 This Agreement will inure to the benefit of and be binding upon the Parties and their respective successors.
- 11.3 The partial or total invalidity of one or more parts of this Agreement will not affect the intent or validity of this Agreement.
- 11.4 This agreement shall be deemed a contract made under the laws of the State of California, and for all purposes will be interpreted in accordance with such laws. The Parties hereby agree and consent to the exclusive jurisdiction of the courts of the State of California, and that the venue of any action brought hereunder will be in Orange County, California.

///
///

11.5 This Agreement constitutes the entire agreement between the Parties.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement.

**FIRST AMENDMENT TO WATER CONSERVATION PARTICIPATION
AGREEMENT**

This First Amendment to Water Conservation Participation Agreement (“First Amendment”) is effective on July 1, 2016 (“Effective Date”), by and between the Municipal Water District of Orange County (“MWDOC”) and Irvine Ranch Water District (“Participant Agency”) MWDOC and Participant Agency may be collectively referred to as “Parties” and individually as “Party.”

RECITALS

- A. MWDOC and Participating Agency entered into a Water Conservation Participation Agreement regarding the Participating Agency’s participation in certain water conservation programs (“Agreement”).
- B. The Parties now desire to amend the Agreement to make certain changes to provisions regarding verification of the installation of items and devices installed as part of certain water conservation incentive programs.

TERMS

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree to amend the Agreement as follows:

1. Amendment. Section J is added to the Recitals to read as follows:
 - “J. The purpose of this Agreement is also to acknowledge that Participating Agency is participating in MWDOC’s Choice Water Use Efficiency Program (“WUE Program”) and in doing so is agreeing to pay for its proportionate share of MWDOC’s administrative and direct program costs of the WUE Program.”

2. Amendment. Section 1 .7 is added to the Agreement to read as follows:
 - “1.7 Participating Agency understands that by entering into this Agreement it is participating in MWDOC’s Choice Water Use Efficiency Program (“WUE Program”) and agrees to pay MWDOC for its proportionate share of MWDOC’s costs for administering the WUE Program based on Participating Agency’s level of participation in the WUE Program. MWDOC will annually invoice Participating Agency.

3. Amendment. Section 6 is amended in its entirety to read as follows:

“Section 6: Installation Verification/Inspection

- 6.1 Participant Agency shall be responsible for conducting installation verifications/inspections of items and devices installed, distributed, and/or rebated by Participant Agency under Participant Agency Administered Programs to ensure compliance with program requirements, and/or for paying all costs associated with this verification/inspection. Installation verification/inspection measures must be designed to ensure that materials, installation verifications/inspections of eligible program items and devices, and services meet requirements established by Metropolitan and MWDOC, which requirements will be provided to Participant Agency by MWDOC as Attachment A.
- 6.2 Participant Agency shall be responsible for conducting installation verifications/inspections of items or devices installed, distributed, and/or rebated by Participant Agency or MWDOC under MWDOC Administered Programs to ensure compliance with program requirements, and/or for paying all costs associated with this verification/inspection. Installation verification/inspection measures for program items and devices must be designed to ensure that materials, installation verifications/inspections of eligible program items and devices, and services meet requirements established by Metropolitan and MWDOC, which requirements will be provided to Participant Agency by MWDOC as Attachment A.
- 6.3 Participant Agency may elect to (1) conduct its own installation verifications/inspections by either utilizing its in-house staff or contracting with a third party vendor of its choice; or (2) utilize MWDOC’s installation verification/inspection contractor to conduct the installation verification/inspections. If Participant Agency elects to utilize MWDOC’s verification/inspection vendor, Participant Agency may elect to contract directly with MWDOC’s verification/inspection vendor. If Participant Agency elects not to enter into such contract, MWDOC, in MWDOC’s sole discretion, may require that Participant Agency contract directly with MWDOC’s verification/inspection vendor.
- 6.3.1 Notwithstanding any other provision in this Agreement, Participant Agency understands and agrees that if Participant Agency utilizes MWDOC’s verification/inspection vendor, Participant Agency must still comply with all of the requirements of this Agreement, including the refund requirements in Section 6.6, and MWDOC is in no way liable or responsible for the acts or omissions of such vendor and makes no

representations or warranties regarding the quality of such vendor's work. Participant's sole recourse as to any action, claims or damages arising out of the acts or omissions of MWDOC's verification/inspection vendor is with the vendor and not with MWDOC.

- 6.4 MWDOC reserves the right to conduct installation verification/inspection of items and devices within Participant Agency's service area.
- 6.5 Participant Agency acknowledges that any item or device receiving funding from Metropolitan may be subject to an installation verification/inspection to be performed by Metropolitan, or its agent(s), at Metropolitan's discretion.
- 6.6 Participant Agency shall promptly refund to MWDOC any amounts paid under any Participant Agency Administered Program or MWDOC Administered Program for installed or distributed items or devices, including any grant funds, in the event MWDOC or Metropolitan establishes via installation verification/inspection and/or audit that the program items or devices were not installed in compliance with the requirements established by Metropolitan and MWDOC pursuant to this Agreement. If such a refund is not provided to MWDOC within thirty (30) days of request, the requested amount may be debited by MWDOC on Participating Agency's next water service invoice.
- 6.7 "Items" and "devices" includes, but is not limited to, plumbing fixtures, irrigation devices, turf (removal and replacement), and any other items, devices or materials that are installed in connection with a program covered by this Agreement.

4. Authority to enter into First Amendment. Each Party represents to the other that the person executing this First Amendment has the requisite power and authority to execute the First Amendment and to bind each respective Party.

5. Continuing Effect of Agreement. Except as amended by this First Amendment, all other provisions of the Agreement remain in full force and effect. From and after the date of this First Amendment, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement as amended by this First Amendment.

6. Execution in Counterparts. This First Amendment may be executed in duplicate counterparts, each of which shall be deemed an original.

MWDOC and Participating Agency have each caused this First Amendment to be executed by its duly authorized representative as of the date set forth below the authorized signature.

IN WITNESS WHEREOF, the Parties hereto have executed this First Amendment.

I. Purpose of this document

It is the practice of the Municipal Water District of Orange County (MWDOC) to ensure that public funds used to administer Rebate Programs are utilized for its intended purposes. Therefore, the purpose of this Inspection and Verification Procedures document (Inspection Procedures) is to establish a clear set of inspection procedures to be followed by MWDOC and/or its member agencies (hereafter “Participant Agency”) and inspection contractors when conducting pre- and/or post-installation verification inspections for all MWDOC-Administered and or Participant Agency-Administered Rebate Programs. These procedures are required regardless of the funding source (Grant funded, Metropolitan Water District of Southern California funded (Metropolitan), or fully funded by Participant Agency, etc.) and/or regardless of program administrator (MWDOC or Participant Agency). This Inspection Procedures document will be updated as needed to reflect new or modified inspection requirements, techniques, or procedures as they arise.

II. Program Implementation Process

For ease of explanation, this document categorizes the MWDOC Rebate Programs into the following rebate program types:

- Device-Based Rebate Programs
 - Residential
 - Commercial
 - Spray to Drip - Residential
- Area-Based Rebate Programs
 - Turf Removal
 - Spray to Drip - Commercial

The inspection procedures contained in this document have been developed in coordination with requirements from Metropolitan pursuant to its Residential and Commercial Water Conservation Funding Agreements and Addendums thereto, MWDOC, and/or supplemental grant funding agreements.

The following general rules apply for all programs types.

Application Package

When receiving an application package, **all** components should be examined before requesting an inspection. The application package currently requires, at a minimum, a fully completed application signed by the property owner and containing the following:

- Current water bill to determine
 - Participant Agency is participating in the program
 - Project site is located within Orange County
 - Payee name matches the application name
- Device eligibility, if a device-based program
- Site plan for area-based rebates
 - Indicate the project area, location, and project intent
- Pictures of the site for area-based and spray-to-drip rebates. Pictures to show

- Current site condition
- Complete area to be removed
- Area complies with eligibility criteria

It is recommended that the application, terms and conditions, and program guidelines each contain language stating that on-site inspections will be performed and are required for participation in any rebate programs.

Invoice Submission

Rebates may not exceed the total project/equipment costs nor the reserved rebate amount. For a receipt/invoice to be considered eligible it must include the following:

- Dated within the project period
- Scope of work performed
- Signed by the customer/applicant/property owner and references site location (if applicable)
- Itemized to include make, model, sku, quantity, price per item, total price
- If labor is to be considered, it must be listed on a separate line item and must be accompanied by the California State Contractor License Board (CSCLB) contractor license number

Once projects are completed, invoices and receipts are submitted to the program administrator and MWDOC, all invoices and receipts are to be carefully tabulated by program administrator and MWDOC to prevent payment for materials/costs not associated with the program; specific program eligible material/costs are based on program type.

Labor Costs

Due to California state law, all sites that are invoiced at \$500.00 or more require that work be performed by a contractor licensed by the California State Contractor License Board (CSCLB). If labor costs are invoiced by someone who is not licensed, those costs are not eligible. This labor cost provision is consistent with state law but, most importantly, protects Orange County consumers from unlicensed contractors. Materials utilized by the unlicensed contractor may be considered eligible costs. Additionally, there have been some instances where costs for landscape architectural drawings were submitted, but the drawings were not performed by a California State Licensed Landscape Architect. Those costs are also not rebate-eligible.

Federal, State, and Local Laws and Ordinances

All projects, including projects at historic sites, are subject to the terms of their local agency's ordinances and must comply with all applicable federal, state, and local laws, as well as applicable Covenants, Conditions & Restrictions (CC&R) and/or Homeowners Association (HOA) restrictions. Applicants should obtain any necessary approvals for their projects from their city's/county's code enforcement and/or HOA/CC&R board. It is the responsibility of the each applicant to ensure their project is in compliance. Customers must agree to adhere to their local rules and provisions in order to accept funding. Questions from program participants regarding compliance with any of

the above laws, ordinances, and/or restrictions will be directed to Participant Agency for guidance.

Supplemental Inspections

Some sites may need to be re-inspected by MWDOC and/or Metropolitan when unique circumstances arise. At these times, communication with the customer is vital in order to remain in adherence with the program intent while ensuring that projects are successfully completed. All inspection and verification procedures and invoice criteria described in this document must be adhered to.

Inspection Confirmation Quality Control

Each Participant Agency performing their own inspections/verifications will be required to adopt these Inspection Procedures as their own or, alternatively, to develop and submit for approval by Metropolitan and/or MWDOC Participant Agency's own inspection and verification procedures document in line with the requirements and procedures contained in this document. All projects that require inspection must be inspected prior to Participant Agency invoicing MWDOC. MWDOC/Metropolitan may request inspection reports from Participant Agency at any time. Installation vendors hired for project implementation cannot inspect their own installations.

Metropolitan and/or MWDOC reserve the right to verify and perform onsite inspections of any projects at any time. This can be before, during, and/or after project installation, and/or after the rebate payment, and results of these inspections may affect payment made to Participant Agency or require a refund to be paid by Participant Agency to MWDOC. If installation cannot be verified, Participant Agency must reimburse MWDOC and/or Metropolitan depending on the source of funds.

III. Device-Based Inspection Procedures

For residential and commercial devices rebated through Metropolitan's regional rebate program, device-based inspections will be conducted solely by Metropolitan, at its discretion. For devices rebated through a MWDOC and/or a Participant Agency-Administered Program (MAA Program), the inspection procedures are set forth below.

Residential Devices

Residential device inspections must satisfy both the Metropolitan and MWDOC inspection procedures in place at the time of the post-inspection or issuance of the rebate check. Currently, those inspection procedures are as follows:

In order for Participant Agency to be reimbursed for incentives from MWDOC/Metropolitan, Participant Agency must certify on each invoice that the terms and conditions within each project have been met, all devices have been installed, and all work has been performed. The party signing each invoice must have signing authority to certify the invoice.

For residential device-based MAA Programs, Participant Agency will utilize the sample size calculator provided by MWDOC to assist in determining the appropriate number of devices to

inspect to ensure a 98% installation rate given the overall quantity of devices. Participant Agency must report verification/inspection method employed on each invoice submitted.

Participant Agency must:

- a. Validate quantity of devices installed.
- b. Verify new device type, make, and model with Project information.
- c. Verify Installation address or specific locations within the address with Project documentation.
- d. With permission from the customer, take photographs relating to the devices installed to be included in Inspection report.
 - i. Indoor Inspection: Indoor inspection includes detailed fixture count of toilets and clothes washer(s). Access to fixture locations (such as bathrooms and laundry facilities) are required to perform the inspection, and property owner/applicant person should be made aware of this through the application.
 - ii. Outdoor Inspection: Outdoor inspection includes detailed fixture counts of installed and operating landscape devices such as rain barrels, cisterns, irrigation controllers, residential drip, and nozzles. For irrigation controllers, inspect the model to ensure it matches the rebate application, verify that it is operating as a “smart device” and is communicating with the onsite weather station or is receiving offsite/remote weather data and, if possible, have the contact person show the inspector how the controller has been programmed, and confirm quantity of stations of timer model.

Commercial Devices

Commercial MAA Program device inspections must satisfy both the Metropolitan and MWDOC inspection procedures in place at the time of the post-inspection or issuance of the rebate check. Metropolitan may require Participant Agency to submit inspection reports for specific projects, and Metropolitan/MWDOC reserves the right to perform onsite inspections of projects/sites prior to payment.

To determine the amount of inspections required for commercial devices, Participant Agency must apply the following criteria (a-e below) to the project(s):

- a. Automatic Inspection: Regardless of the 5% rule listed in Section d below, Participant Agency must first determine if any site within the MAA Program Project requires an Automatic Inspection. Automatic Inspections are triggered when any site within an MAA Program Project has been approved for Metropolitan’s funding in excess of \$10,000. All sites receiving \$10,000 or more in funding must be automatically inspected by Participant Agency. Participant Agency must also notify MWDOC/Metropolitan within 3 to 5 business days of upcoming inspection by Participant Agency for site(s) exceeding \$10,000. MWDOC, Metropolitan or a designated representative may attend inspection. Notification of upcoming inspection to be sent to bfahl@mwdoc.com and maconservation@mwdh2o.com

To determine how many devices need to be inspected at a \$10,000+ site, follow the next two points.

- i. If the site triggering an Automatic Inspection also meets the criteria for a Large Project, as described below, then Participant Agency must inspect a minimum of 10% of the devices installed.
 - ii. If the site triggering an Automatic Inspection does not meet the criteria for a Large Project, then the Participant Agency must inspect 100% of devices at the site.
- b. Large Project/Sites: Participant Agency must next determine if any of the sites meet the definition of a Large Project/Site. Regardless of the 5% rule listed in Section d below, any site with less than \$10,000 in funding but that receives the designation of Large Project/Site **must** be inspected. The total number of devices to be inspected for Large Projects/Sites will be a minimum of 10% of the total devices installed at each site. If any site within your overall MAA Program Project installs any combination of the following number of devices, you must conduct an inspection of a minimum 10% of any combination of the devices installed.

Large Projects/Sites are defined as:

- i. For plumbing devices – 50 device units or more at one installation address.
 - ii. For irrigation controllers – 20 controllers or more at one installation address. Note that irrigation controllers may be installed in different landscape areas inside a single complex.
 - iii. For sprinkler nozzles – 100 nozzles or more at one installation address.
- c. Regular Projects/Sites: For sites not meeting: (a) \$10,000+ in funding per site or (b) the Large Project/Site criteria above, Participant Agency must inspect 100% of devices at the site.
- d. For each MAA Program Project that Participant Agency submits a Request for, Participant Agency must physically inspect a minimum of 5% of the value of each device-based MAA Program Project approved by MWDOC/Metropolitan before invoicing. For example if the MAA Program Project is approved for \$100,000, then a minimum of \$5,000 worth of devices must be inspected per MAA Program Project.
- e. Inspections for Regular Projects/Sites, sites defined as Automatic Inspections (mandatory), as well as those defined as Large Projects/Sites (mandatory) count towards the 5% (section d above) minimum of the value of each device-based MAA Program Project to be inspected. Participant Agency will report progress toward the 5% inspection requirement on each invoice for all inspections required by MWDOC/Metropolitan. The party signing each invoice must have signing authority to certify the invoice.

Inspection Requirements

Participant Agency inspection at a minimum will:

- a. Validate quantity of devices installed.

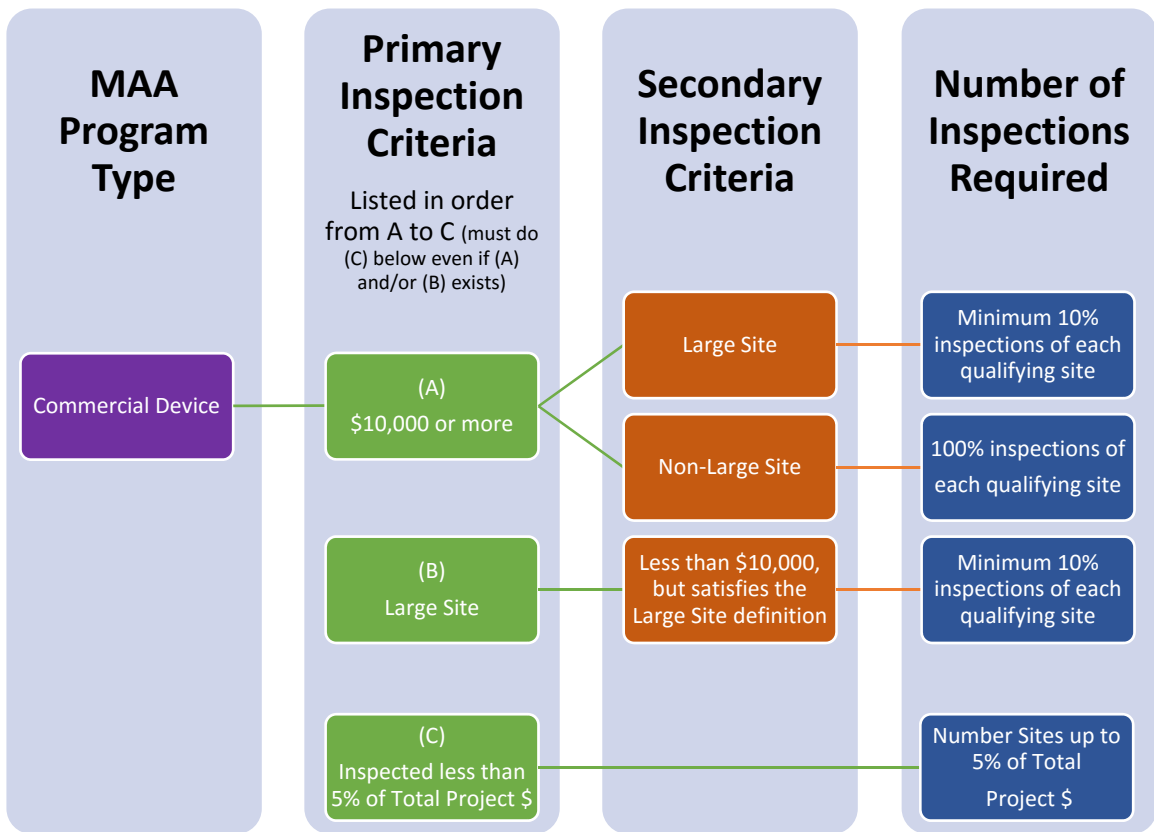

- b. Verify new device type, make, and model with Project information.
- c. Verify Installation address or specific locations within the address with Project documentation.
- d. With permission from the customer, take photographs relating to the devices installed to be included in Inspection report.
 - i. Indoor Inspection: Indoor inspection includes detailed fixture count of toilets, urinals, dry vacuum pumps, food steamers, ice machines. Access to bathrooms, kitchens, eating facilities, and medical facilities are required to perform the inspection and property owner/applicant should be made aware of this at the application stage.
 - ii. Outdoor Inspection: Outdoor inspection includes count of installed and operating landscape devices such as irrigation controllers and nozzles; and cooling tower controllers. Access to either landscape area or rooftop is required to perform the inspection. For irrigation controllers, inspect the model to ensure it matches the rebate application, verify that it is operating as a “smart device” and is communicating with the onsite weather station or is receiving offsite/remote weather data and, if possible, have the contact person show the inspector how the controller has been programmed, and confirm quantity of stations of timer model.

Potential Inspection Results

- a. Partial fail: Inspection completed with discrepancies between Project information and inspection process. Participant Agency to only bill MWDOC for verified quantity.
- b. Device(s) installed at a different location: the installation must be inspected prior to billing MWDOC. A substitute device cannot be included. If installation is verified at the different location, Project information must be revised to reflect new information.
- c. Device count is different from the application:
 - i. If the count is more, only the amount approved in the Project will be reimbursed.
 - ii. If the inspection count is less, only the verified count will be billed to MWDOC. For Large Projects where the inspection count is less, the Participant Agency inspector will increase the inspection from 10% to 20% of total installations. The percentage found to be installed for Large Projects will be applied against the total and the total quantity will be reduced by that percentage. For example, after inspecting 20% of the total installations of 100 toilets, 15 out of 20 toilets were verified installed (75% installed); then the final approved count would be 75 toilets (75% of the 100 = 75), rather than 100. If inspection reveals a discrepancy as described in the example, Participant Agency may choose to inspect 100% of the project, otherwise the extrapolation as shown on the example must be taken and the amount revised prior to billing MWDOC.

- d. The make/model is different from the application: verify that different make/model is a Metropolitan approved device. If so, inspect as usual and revise information on Project documentation prior to billing MWDOC.
- e. Failed inspections will not be billed to MWDOC. Reasons for failure:
- Device(s) not installed
 - Device(s) installed, but no working properly
 - For “smart” irrigation controllers, device(s) not operating as a “smart” device
 - Installed device(s) has been removed
 - Access to property not allowed
 - Device(s) installed at a different site.

MWDOC/Metropolitan reserves the right to verify and inspect any approved projects at any time. If installation cannot be verified, Participant Agency must reimburse MWDOC.

Spray to Drip - Residential

The residential portion of the Spray-to-Drip Rebate Program is a device-based program with different inspection requirements and criteria than other device-based inspections. The inspection requirements for residential Spray-to Drip Rebate projects are described below:

Pre-Inspection Procedure

Once an application is received, a project cannot be accepted and no funding is reserved until a “pre-inspection” is conducted, as follows:

MWDOC reviews the application to confirm:

- Program application is completed in full
- A copy of a current water bill is attached and confirms that
 - Participant agency is participating in the program
 - Project site is located within Orange County
 - Payee name matches the application name
- Applicant has attached 3 to 5 photos of the project area taken with the existing sprinkler system turned on. Photos must clearly show the sprinkler system in use and that the spray heads are functional. Photos must also contain identifying features (house in background, unique landscape/decorating features, etc.) to confirm that photos submitted are for the property/site listed in the application.
- The number of drip “kits” the applicant is applying/eligible for.
- A simple site plan has been attached indicating the proposed spray-to-drip conversion areas
- Any supplemental documents included have been reviewed.

Once MWDOC confirms that the application is complete and satisfies the above requirements, MWDOC forwards the application to the Participant Agency to conduct its own review and approval utilizing the steps listed above.

If the application has satisfied all of the above requirements, a Project Approval Notice is generated by MWDOC/Participant Agency and emailed to the applicant. The funding is reserved at this point and cannot increase. However, the funding amount may decrease if the applicant installs less drip equipment than was specified on the application or if the costs of the equipment are less than anticipated. Should the application fail the pre-inspection process, the application will be denied. MWDOC reserves the right to conduct, or to require Participant Agency to conduct, an on-site pre-inspection of any Spray-to Drip application should MWDOC, in its best judgment, deem it necessary to do so.

Post-Inspection Procedure

Once the Spray-to-Drip Project is complete, applicant completes the Spray to Drip Completion form to request an on-site post-inspection. Prior to scheduling the post-inspection, the Completion Form will be reviewed by MWDOC to confirm the following:

- Completion Form is completed in full.
- Payee Name and Mailing Address for Rebate Check is provided.
- Applicant has attached at least 3 completed conversion area pictures showing:

- Wide angle view of completed project area(s)
- Close-up(s) of installed pressure regulation/filtration component(s)
- Close-up(s) of installed drip tubing
- Applicant has attached copies of any project related receipts or invoices. For a receipt/invoice to be considered eligible it must include the following:
 - Dated within the project period.
 - Signed by the customer/applicant/property owner and includes the site location, scope of work, and costs.
 - Itemized to include make, model, sku, quantity, price per item, total price.
 - The actual quantity of drip “kits” purchased and the quantity of kits eligible for rebate.
 - Labor is not reimbursable and must be listed as a separate line item.

If the Completion Form is missing or does not comply with the requirements of any of the above, MWDOC/Participant Agency shall work with the applicant to obtain the information and or appropriate photos/documents prior to scheduling the post-inspection. If applicant is unable to provide receipts/invoices that meet the requirements set forth above, the post-inspection will be considered a fail, the application will be denied, no rebate will be issued, and no on-site post-inspection should be scheduled.

If the Completion Form has satisfied all of the above requirements, MWDOC/Participant Agency and/or its inspector will work with Applicant to schedule the mandatory on-site post-inspection. The purpose of the on-site post-inspection is to serve as an independent verification of the information contained in the Completion Form. As part of the on-site post-inspection, Participant Agency/inspector must verify the following:

- That drip irrigation equipment has been installed. For residential on-site post-inspection, if microspray, point-source emitters, or any other type of drip irrigation other than embedded emitter tubing has been installed, this must be noted and photographed. Only embedded emitter tubing installations are eligible for rebates in residential settings.
- That pressure regulation/filtration components have been installed as part of the drip conversion. Manufacturer/make, model, model number/sku, and quantity should be documented, and the equipment should be photographed.
- That drip tubing has been installed. The drip tubing should be photographed. If covered, a minimum of a 10-foot section must be uncovered for the photograph.
- That spray irrigation is no longer functional in the drip conversion area(s). Any remaining spray heads in the conversion area must be capped (no exceptions).

Once the on-site post inspection is complete, Participant Agency will complete the Rebate Check Authorization form, in full, and upload all photos and documentation. Once the Check Authorization form has been submitted, it will be reviewed by MWDOC, along with copies of all

receipts and invoices, and if the spray-to-drip project has satisfied all the terms, conditions, guidelines, and requirements of the program, the application will be processed for rebate. If all the terms, conditions, guidelines, and requirements of the program have not been satisfied, the post-inspection will be considered a fail, and the application will be denied and no rebate funds will be issued.

MWDOC reserves the right to conduct or attend any on-site post-inspection of any Spray-to Drip application should MWDOC, in its best judgment, deem it necessary to do so.

IV. Area-Based Programs

Area-based programs include any program where the rebate amount is determined by an area measurement. Such programs currently include, but are not limited to, residential and commercial Turf Removal and commercial Spray to Drip.

Turf Removal Participation Procedure

The Turf Removal Rebate Process, as it currently exists, is depicted in the following chart. The process flow is broken down into 11 distinct steps starting with the Customer Application Submittal and ending with Metropolitan and Participant Agency Invoicing. The 11 steps are as follows:

Step 1: On-line Application and Document Submittal Process

Performed by the Customer

Step 2: Application Review Process and Pre Inspection Distribution

Performed by MWDOC

Step 4: Pre-Installation Inspection Process

Performed by Participant Agency or Inspection Vendor and sent to MWDOC for review

Step 5: Notice to Proceed or Denial Letter to Customer Process

Performed by MWDOC

Step 6: Participant Project Installation and Project Completion Notification

Performed by Customer

Step 7: Initial Project review, Post-Work Order Generation and Distribution

Performed by MWDOC

Step 8: Post-Installation Inspection Process

Performed by Participant Agency, MWDOC, or Inspection Vendor and sent to MWDOC for review

Step 9: Application Approval or Denial and Invoice Review Process

Performed by MWDOC

Step 10: The Rebate Check Run and W-9 Request Process

Performed by MWDOC

Step 11: Metropolitan Water District and Participant Agency Invoicing Process

Performed by MWDOC

General Inspection Procedures

For all customer types, all sites will be measured by the Participant Agency and or its inspector for 100% of the sites for 100% of the project areas during both the pre- and post-inspections. Required minimum techniques for area measurements are described in Section V - Measurement Techniques. All inspection procedures/verifications must adhere to the following additional inspection and certification requirements:

- Residential Area-Based Inspections: For residential area-based customers with an approved Metropolitan rebate amount exceeding \$5,000, Participant Agency or inspection vendor must notify MWDOC/Metropolitan within 3 to 5 business days of upcoming post-inspection(s) by Agency. MWDOC, Metropolitan or a designated representative may attend inspection. Notification of upcoming inspection to be sent to turfremoval@mwdoc.com.
- Commercial Area-Based Inspections: For commercial area-based customers with an approved Metropolitan rebate amount exceeding \$10,000, Participant Agency must notify MWDOC/Metropolitan 3 to 5 business days prior to upcoming post-inspection(s) by Agency. MWDOC, Metropolitan or a designated representative may attend inspection. Notification of upcoming inspection to be sent to turfremoval@mwdoc.com.
- Participant Agency will only bill MWDOC/Metropolitan for the square footage measured.
- Participant Agency must adopt these Inspection Procedures as their own or, alternatively, to develop and submit for approval by Metropolitan and/or MWDOC Participant Agency's own inspection and verification procedures document in line with the requirements and procedures contained in this document. MWDOC/Metropolitan will require Participant Agency to submit them. MWDOC/Metropolitan may perform onsite inspections of projects prior to payment. Result of the inspection may affect payment made to Participant Agency
- All projects that require inspection must be inspected prior to Participant Agency invoicing MWDOC. MWDOC may request inspection reports from Participant Agency at any time.

Pre-Inspection Procedures – Turf Removal

After an application is received and the information has been verified, a project cannot be accepted and funding is not reserved until a “pre-inspection” is conducted by the Participant

Agency or by a vendor inspector. The pre-inspection on-site visit is a means to determine confirmation of eligibility. The pre-inspection process verifies that the project area contains live turf or sufficient evidence that live turf recently existed and that the requested square footage to be removed seems reasonable and consistent with the physical inspection. This requirement applies to both residential and commercial turf removal areas unless otherwise noted.

When establishing that areas are eligible, careful inspection with accurate, and precise measurements, as described in Section V, are always required. For Turf Removal, during the pre-inspection the total project area square footage is measured. Any non-eligible square footage is removed, such as non-turf areas including bare soil, trees, shrubs, mulch, paving, and utility box footprint, etc. Refer to specific program terms and conditions for eligibility criteria.

The square footage listed on the application is to be used as a reference, the initial project area is to be based on the square footage as measured during the pre-inspection. Once the initial project area square footage has been determined, that number is used to reserve funding, and a letter to proceed is generated and sent to the customer.

[On-Site Inspections for Area-Based Rebates](#)

Unless the program guidelines specifically state otherwise, on-site eligibility verification and area measurement for the pre-inspection is the method to be utilized by the inspection vendor as well as any Participant agency conducting its own inspection.

[Measuring Large Sites by GIS](#)

With extremely large sites (in excess of 50,000 sf) where physical measurements are difficult, aerial imagery is often employed to measure the site. In these circumstances a GIS measurement may only be used to measure the project area and a pre-inspection site visit is still required to ensure that the site meets all program conditions and requirements and is eligible to participate. This method is often referred to as a "spot-check" since the sites are checked for existing turf during the inspection, but measured separately using GIS.

If a site is measured by GIS, rather than through an on-site measurement technique, it must explicitly be noted on a work order or through an equivalent form for written communication from the Participant Agency/vendor inspector to MWDOC. Digital imagery must be saved and sent to MWDOC. There must still be confirmation that the site/area to be rebated contains live turf and that the requested footage to be removed seems reasonable and consistent with the aerial inspection

[Condition of Turf at Pre-Inspection](#)

If bare areas were included by the customer, the inspector must subtract those areas. In many cases, due to the drought or season, dormant or dead brown grass is present. Dormant or dead brown grass that appears to have been maintained in the recent past is still eligible. However sites where there is bare soil that appears compact and no turf was present in the recent past, are not eligible. In addition, moss areas where there is no turf or areas that have grown or mowed weeds would be ineligible. A lawn with weeds would still remain eligible. Photo documentation of the turf is required in order to approve the site. Photos of the entire area and detailed photos should

be taken showing turf and bare soil conditions. For large sites with multiple separated areas (or sub-areas), a map must be submitted identifying the area measured for each separate sub-area.

Multiple Applications under same Site

Residential sites have a lifetime maximum. Commercial sites have an annual maximum.

Modifications to Initial Project Area

In some instances a customer may want to swap turf removal areas/locations after a letter to proceed has already been sent and construction has begun. This is common in HOAs, Golf Courses, Parks, and other large sites, but occasionally occur with residential projects. There are many reasons for changes such as: HOA board decisions, public outcry, irrigation system delineation restrictions, or even finding out that some part of the property belongs to another entity (as is common in parkways along sidewalks, and around common area parks). When these changes occur, if the customer is simply removing an area to be renovated, no action is required. However, if a decision is made to swap an area with another, additional documentation and a second pre-inspection must occur and is required to ensure that the site is eligible and matches the area measurements. This documentation must include a new site plan and photos of the intended areas. At this point, because a letter to proceed has already been sent and construction has begun, the site eligible for a rebate may not increase in size. If construction has not begun, and the customer would like to increase the area of turf to be removed within program maximum square footage guidelines, a second pre-inspection must occur and is required to ensure that the site is eligible and matches the area measurements. If the swapping of one area for another occurs during the construction phase of the project and is not previously approved by MWDOC, the swapped area will not be eligible for rebate as it was not subject to the mandatory pre-inspection.

Post-Inspection Procedures – Turf Removal

For both residential and commercial projects, unless otherwise noted, once the letter to proceed has been issued, the initial project area square footage may not increase; however, it may decrease if the customer decides to remove less turf than what was measured.

After the customer has completed their project, a second on-site inspection (post-inspection) occurs to ensure that the renovated areas are in compliance with the program. Entire (100%) project re-measurement should occur during the post-inspection, utilizing the same techniques as employed during the pre-inspection measurement, with the exception of GIS. Negative deviations between the pre- and post-inspections area measurements, as well as swapped areas occurring without a proper pre-inspection and approval from MWDOC, will result in a reduction of the rebate eligible area (meaning the lesser area measurement will be the basis for the rebate). All projects must be inspected prior to Participant Agency invoicing MWDOC.

When establishing that areas are eligible, careful inspection with accurate, and precise measurements, as described in Section V, are always required. For Turf Removal, during the post-inspection the total converted area square footage must be measured. Any non-eligible square footage is removed, such as remaining-turf areas, bare soil, or non-permeable area including hardscape and pools. Refer to specific program terms and conditions for eligibility criteria.

The initial project area square footage established during the pre-inspection is to be used as a reference, the final project area is to be based on the square footage as measured during the post-inspection. Once the final project area square footage has been determined, that number is used to determine the actual potential rebate amount, so long as it does not exceed the total eligible project costs. Only that final project square footage measured by the Participant Agency/inspection vendor may be included in the payment request to MWDOC.

Project Extensions

In some instances, projects may experience delays. As all projects either have a 60 day deadline or 90 day deadline to complete their project, an extension may be requested. In all cases, extensions may only be granted to sites who are making progress to complete their project. Documentation or a site visit is often required for the purposes of verifying that progress is being made at a site. Examples of documentation are signed contracts with a landscape contractor, photos of the site with turf removed and work under way, or canceled checks to a contractor. This is an important step; if a site is not showing progress and there is no motivation to complete, it may be cancelled to allow the funding of other, more motivated, rebate customers.

Spray to Drip - Commercial

The commercial portion of the Spray-to-Drip Rebate Program is administered in a similar way to the residential portion, with the exception of the post-inspection requirements which are area-based. The inspection requirements for commercial Spray-to Drip Rebate projects are described below:

Pre-Inspection Procedure

Once an application is received, a project cannot be accepted and no funding is reserved until a “pre-inspection” is conducted, as follows:

MWDOC reviews the application to confirm:

- Program application is completed in full.
- A copy of a current water bill is attached and confirms that
 - Participant agency is participating in the program
 - Project site is located within Orange County
 - Payee name matches the application name
- Applicant has attached 5 to 10 photos of the project area taken with the existing sprinkler system turned on. Photos must clearly show the sprinkler system in use and that the spray heads are functional. Photos must also contain identifying features (buildings in the background, unique landscape/decorating features, etc.) to confirm that photos submitted are for the property/site listed in the application.
- Applicant has provided the square footage of the proposed spray-to-drip conversion area.
- A simple site plan has been attached indicating the proposed spray-to-drip conversion areas.
- Any supplemental documents included have been reviewed.

Once MWDOC confirms that the application is complete and satisfies the above requirements, MWDOC forwards the application to the Participant Agency to conduct its own review and approval utilizing the steps listed above.

If the application has satisfied all of the above requirements, a Project Approval Notice is generated by MWDOC/Participant Agency and emailed to the applicant. The funding is reserved at this point and cannot increase. However, the funding amount may decrease if the applicant installs less drip equipment than was specified on the application or if the costs of the equipment are less than anticipated. Should the application fail the pre-inspection process, the application will be denied. MWDOC reserves the right to conduct, or to require Participant Agency to conduct, an on-site pre-inspection of any Spray-to Drip application should MWDOC, in its best judgment, deem it necessary to do so.

Post-Inspection Procedure

Once the Spray-to-Drip Project is complete, applicant completes the Spray to Drip Completion form to request an on-site post-inspection. Prior to scheduling the post-inspection, the Completion Form will be reviewed by MWDOC to confirm the following:

- Completion Form is completed in full.
- Payee Name and Mailing Address for Rebate Check is provided.
- Applicant has attached at least 5 completed conversion area pictures showing:
 - Wide angle view of completed project area(s)
 - Close-up(s) of installed pressure regulation/filtration component(s)
 - Close-up(s) of installed drip tubing
- Applicant has attached copies of any project related receipts or invoices. For a receipt/invoice to be considered eligible it must include the following:
 - Dated within the project period
 - Signed by the customer/applicant/property owner and includes the site location, scope of work, and costs.
 - Itemized to include make, model, sku, quantity, price per item, total price. If microspray or point source emitters have been installed, the flow rate for each must be 2.5 gallons per hour or less, or per the terms and conditions of the Program.
 - Labor is not reimbursable and must be listed as a separate line item.

If the Completion Form is missing or does not comply with the requirements of any of the above, MWDOC/Participant Agency shall work with the applicant to obtain the information and or appropriate photos/documents/invoices prior to scheduling the post-inspection. If applicant is unable to provide photos/documents/invoices that meet the requirements set forth above, the post-inspection will be considered a fail, the application will be denied, no rebate will be issued, and no on-site post-inspection should be scheduled.

If the Completion Form has satisfied all of the above requirements, Participant Agency and/or its inspector will work with Applicant to schedule the mandatory on-site post-inspection. The purpose of the on-site post-inspection is to serve as an independent verification of the

information contained in the Completion Form. As part of the on-site post-inspection, Participant Agency/inspector must verify the following:

- The actual square footage of the conversion area. All commercial spray-to-drip sites will be measured by the Participant Agency and or its inspector for 100% of the sites for 100% of the spray-to-drip conversion areas during the post-inspections. The required minimum techniques for area measurements are described in Section V -Measurement Techniques.
- That drip irrigation equipment has been installed. The type of drip equipment (embedded emitter tubing/microspray/point source emitters must be noted and photographed.
- That pressure regulation/filtration components have been installed as part of the drip conversion. Manufacturer/make, model, model number/sku, and quantity should be documented, and the equipment should be photographed.
- That drip tubing has been installed. The drip tubing should be photographed. If covered, a minimum of a 20-foot section must be uncovered for the photograph.
- That spray irrigation is no longer functional in the drip conversion area(s). Any remaining spray heads in the conversion area must be capped (no exceptions).

Once the on-site post inspection is complete, Participant Agency will complete the Rebate Check Authorization form, in full, and upload all photos and documentation. Once the Check Authorization form has been submitted, it will be reviewed by MWDOC, along with copies of all receipts and invoices, and if the spray-to-drip project has satisfied all the terms, conditions, guidelines, and requirements of the program, the application will be processed for rebate. If all the terms, conditions, guidelines, and requirements of the program have not been satisfied, the post-inspection will be considered a fail, and the application will be denied and no rebate funds will be issued.

MWDOC reserves the right to conduct or attend any on-site post-inspection of any Spray-to Drip application should MWDOC, in its best judgment, deem it necessary to do so.

V. Measurement Techniques

When measuring sites, tape measurers remain the most accurate method of measurement. Measuring wheels are nearly as accurate when rolling on a flat surface such as concrete or asphalt. Measuring wheels on turf or shrub areas run the risk of being inaccurate. Tape measurers are recommended whenever uneven surfaces are encountered. For large sites, a map should be provided indicating all the turf areas intended for removal and all project areas should be measured and noted with square footage.

Odd shapes are often hard to measure accurately. A series of methods of measuring odd shapes have been reviewed and below are a listing of acceptable measurement techniques of odd shapes. Alternative measuring techniques must be submitted to MWDOC for review and approval prior to implementation and must be at least as accurate as the techniques listed here.

Non-Uniform Rectangular

First measure the length of the longest axis of the area (line AB). This is called the *length line*. Next, divide the length line into equal sections, for example 13 ft. At each of these points, measure the distance across the area in a line perpendicular to the length line at each point (lines C through G). These lines are called *offset lines*. Finally, average the lengths of all offset lines and multiply the result times line AB (65 ft. in this example). This is most notably different from the Non-Uniform Ellipse method in that exactly one of the left or right edges is measured, in this case line "C."

Example: Non-Uniform Rectangular

Length line (AB) = 65 ft

Distance between offset lines is 13 ft apart

Length of each offset line:

C = 20 ft F = 20 ft

D = 10 ft G = 25 ft

E = 15 ft H = 20 ft

Average length of offset lines = $\frac{(C + D + E + F + G + H)}{(\text{Number of offset lines})}$

$$= \frac{(20 + 10 + 15 + 20 + 25 + 20)}{6}$$

$$= 18.3 \text{ ft}$$

Total Area = (Length line)
 x (Average length of offset lines)
 = 65 ft x 18.3 ft
 = 1192 ft²

Irregular Rhombus or Widening Rectangular

A fast way to measure irregular rhombi is shown in the example below. Stake one end of the measuring tape at point (A, B); measure line d and then line B. Without removing the stake measure line c and then line A. Using those four measurements you will be able to find line a and line b. The areas of triangle (ad), triangle (cb), and rectangle cd) can now be calculated.

Example: Irregular Rhombus or Widening Rectangular	
Length of each line:	
A = 20 ft	c = 18 ft
B = 25 ft	d = 21 ft
Line (f) = A - c = 20 ft - 18 ft = 2 ft	Line (e) = B - d = 25 ft - 21 ft = 4 ft
Area (cd) = c x d = 18 ft x 21 ft = 378 ft ²	
Area (cb) = (c x e) / 2 = (18 ft x 4 ft) / 2 = 36 ft ²	
Area (fd) = (f x d) / 2 = (2 ft x 21 ft) / 2 = 21 ft ²	
Total Area = Area (cd) + Area (ce) + Area (fd) = 378 ft ² + 36 ft ² + 21 ft ² = 435 ft ²	

Non-Uniform Round

First measure 16 evenly spaced radii from the same center point (point A). This is called the *center point*. Next take the average of all the radii (B + C + D + E + F + G + H + I + J + K + L + M + N + O + P + Q) / 16. Use the average radii to calculate the area of a circle. (12.25 ft. in this example).

Board used for measuring

Example: Non-Uniform Round	
Length of each offset line: B = 10 ft E = 12 ft H = 10 ft K = 9 ft N = 16 ft Q = 9 ft C = 15 ft F = 15 ft I = 15 ft L = 8 ft O = 10 ft D = 10 ft G = 13 ft J = 17 ft M = 15 ft P = 12 ft	
Number of radii = 16	
Average length of offset lines $= (B + C + D + E + F + G + H + I + J + K + L + M + N + O + P + Q)$ $/ (\text{Number of radii})$ $= (10 + 15 + 10 + 12 + 15 + 13 + 10 + 15 + 17 + 9 + 8 + 15 + 16 + 10 + 12 + 9)$ $/ 16$ $= 12.25 \text{ ft}$	
Total Area = $\pi \times 12.25^2 \text{ ft}$ $= 3.14 \times 12.25 \text{ ft} \times 12.25 \text{ ft}$ $= 471 \text{ ft}^2$	

Non-Uniform Ellipses

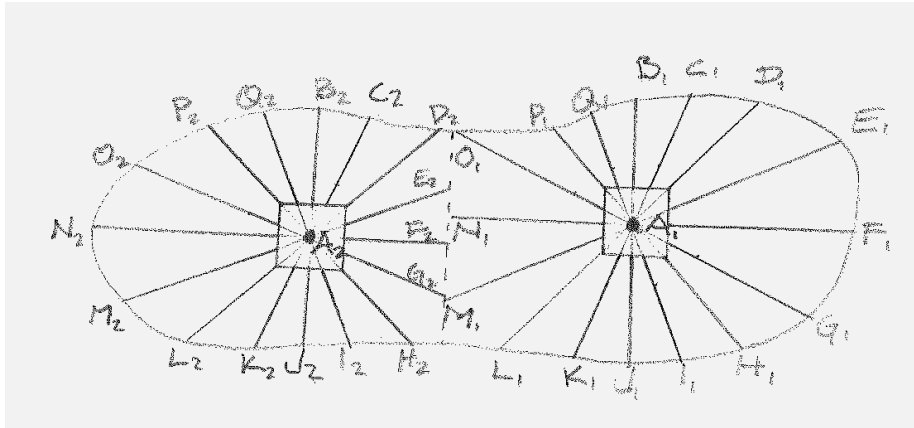

The method used for irregular shaped areas is called the "offset method". First measure the length of the longest axis of the area (line AB). This is called the *length line*. Next, divide the length line into equal sections, for example 10 ft. At each of these points, measure the distance across the area in a line perpendicular to the length line at each point (lines C through G). These lines are called *offset lines*. Finally, add the lengths of all offset lines and multiply the result times the distance that separates these lines (10 ft. in this example). This is most notably different from Non-Uniform Rectangular in that neither the left or right edges of the shape are measured in the ellipse.

Example: Non-Uniform Ellipse	
Length line (AB) = 60 ft Distance between offset lines is 10 ft apart	
Length of each offset line C = 15 ft F = 25 ft D = 10 ft G = 20 ft E = 15 ft	
Total length of offset lines = C + D + E + F + G $= 15 + 10 + 15 + 25 + 20$ $= 85 \text{ ft}$	
Total Area = (Distance between offset lines) x (sum of the length of offset lines) $= 10 \text{ ft} \times 85 \text{ ft}$ $= 850 \text{ ft}^2$	

Non-Uniform Ellipses Alternate

An alternate method of measuring non-uniform ellipses is by dividing the ellipses in uniform parts and utilizing the non-uniform round method as described above. An example is shown below.

ACTION CALENDAR

WATERSMART SOFTWARE VARIANCE NO. 2

SUMMARY:

In 2016, IRWD executed a Professional Services Agreement with WaterSmart Software, Inc. to develop and implement the WaterSmart Program to provide enhanced water use information to residential, Commercial, Industrial and Institutional (CII) customers. The program is an effective tool that promotes water use efficiency and customer engagement through monthly water reports and leak alert notifications, in addition to creating opportunities for customer outreach. In 2021, the program was integrated with IRWD's customer payment processing portal, Paymentus. Staff recommends the Board authorize the General Manager to execute Variance No. 2 to IRWD's Professional Services Agreement with WaterSmart Software Inc. in the amount of \$188,100 to continue program implementation for Fiscal Year (FY) 2021-22.

BACKGROUND:

The WaterSmart Program was first implemented as a pilot program in 2012 with 1,000 IRWD customers. Based on the amount of water savings and positive customer responses, the program was expanded in FY 2013-14 into a full-scale program that targeted over-allocation, single-family customers. The following year the program was expanded to include CII customers. After a competitive process in 2016, IRWD entered into an agreement with WaterSmart to continue implementation of the program for three additional years.

In December 2019, Variance No. 1 to the agreement extended the program through FY 2020-21 and provided for the integration of WaterSmart with IRWD's new bill payment processing system (Paymentus). The integration of Paymentus with the WaterSmart Customer portal provides improved customer access to IRWD payment options.

Overview of WaterSmart Program:

WaterSmart provides access to proprietary software. Its staff has developed a unique understanding of the requirements of IRWD and its customers. The WaterSmart Program provides monthly water reports comparing a customer's water use to the water usage of similar households to inform customers about typical and efficient water use. The reports also inform customers about IRWD's programs and incentives for water use efficiency as well as customized ways to save water. The report content is modified for each billing cycle to encourage customers to participate in appropriate programs or events, or to take action to resolve potential leaks.

Water reports are sent monthly to customers by electronic mail and standard mail. Customers who receive paper reports are encouraged to sign up online to receive electronic reports and to access the Customer Portal, which presents customer water usage information in a simple format.

Customer response to the integration program has been very positive, and has proven to be an effective way for staff to provide support and assistance to customers.

Variance No. 2 with WaterSmart:

Variance No. 2, in the amount of \$188,100, would extend the WaterSmart Program for one additional year. The variance cost reflects an increase in number of District customer accounts, increased postage rates since 2016, support for the Paymentus integration and up to three custom reports. Staff negotiated the costs associated with Variance No. 2 and finds the variance to be fair and reasonable for the required tasks. A copy of the variance is provided as Exhibit "A". Staff recommends the Board authorize the General Manager to execute Variance No. 2 to the Professional Services Agreement with WaterSmart in the amount of \$188,100.

Upon approval of Variance No. 2, the program will enter the fifth year under the current agreement. During the past five years new companies have likely emerged that provide similar services. In 2022, staff will issue a new request for proposal (RFP) to invite other companies to provide proposals to provide this service for the next five-year period. Two proposals were received by staff in the 2016 RFP process.

FISCAL IMPACTS:

Funding for the WaterSmart Program is included in the adopted FY 2021 - 22 Operating Budget.

ENVIRONMENTAL COMPLIANCE:

IRWD's WaterSmart Program is not a project as defined in the California Environmental Quality Act as authorized under the California Code of Regulations, Title 14, Chapter 3 and Section 15378.

COMMITTEE STATUS:

This item was reviewed by the Water Resources Policy and Communications Committee on June 3, 2021.

RECOMMENDATION:

THAT THE BOARD AUTHORIZE THE GENERAL MANAGER TO EXECUTE VARIANCE NO. 2 TO THE PROFESSIONAL SERVICES AGREEMENT WITH WATERSMART SOFTWARE, INC. IN THE AMOUNT OF \$188,100.

Scope of Work and Budget Description

This scope of work is to continue to provide services for the Performance Period dating 7/1/2021 to 6/30/2022. The pricing, attached hereto, includes the core WaterSmart Platform: Utility Dashboard and Portal, mobile access, My Use Notifications and Group Messenger, and leak alerts.

1. The core Program Design includes the following:
 - a. Up to 6,000 print Home Water Reports pushed out monthly
 - b. Unlimited email Home Water Reports pushed out monthly
 - c. WaterSmart will select Home Water Report recipients as follows:
 - i. All new account holders, enrolled on a rolling basis. New accounts without an email address on file will receive print Home Water Reports for a maximum of six months, after which they will be removed from the recipient group. If they provide their email address at any time in the first six months, they will continue to receive Home Water Reports by email for the duration of this contract.
 - ii. All single-family residential accounts that have been over their allocation by at least 5 CCF for at least three of the last twelve months. WaterSmart will update this group every six months, removing accounts that no longer meet the criteria and adding accounts that do. The account selection thresholds may be adjusted at any time to maintain alignment with the report capacity included in the program design.

iii. Any IRWD customer who opts in to receive email Home Water Reports.

2. WaterSmart will maintain the embedded Paymentus payments functionality within the WaterSmart Customer Portal.
3. Option for the development of up to three custom reports to be added by June 30, 2022 or earlier based on requirements and design. Requests for individual reports will be designed with input from IRWD. The schedule for each report will be determined by the report requirements and approved by IRWD prior to commencing development.

Item	Cost
Core Program FY 2021-22	\$176,600
Paymentus Single Sign-On Support	\$5,500
Optional Custom Reports (3 at \$2,000 each)	\$6,000
Total	\$188,100

ACTION CALENDAR

2021-2022 WATER USE EFFICIENCY OUTREACH CAMPAIGN

SUMMARY:

Staff proposes an 18-month Water Use Efficiency Outreach Campaign consisting of targeted initiatives to help customers save water outdoors. Using engaging visuals and user-friendly tools, the campaign will significantly increase customer interest in water-efficient RightScaping, encourage customers to learn efficient landscape techniques through multi-media and in-person gardening workshops and make it easier for customers to transform their yards through a redesigned RightScape.com website. A request for proposal (RFP) was issued to four outreach consulting firms, offering the opportunity to work with staff to develop and implement the campaign. The new campaign will build on the successes and lessons learned from IRWD's 2020 outreach campaign. Staff recommends the Board authorize the General Manager to execute a Professional Services Agreement with Sukle Advertising & Design in the amount of \$1,384,000 for implementation of the proposed 2021-2022 campaign.

BACKGROUND:

In July 2020, staff implemented a new suite of creative and targeted outreach initiatives, known as the 2020 Water Use Efficiency Outreach Campaign. The campaign supported programs to help customers save water outdoors, where IRWD sees the greatest potential for additional efficiency. On July 13, 2020, the Board approved a Professional Services Agreement with Sukle Advertising & Design to implement the campaign, which occurred over the last five months of 2020 and in early 2021.

Following is a recap of the 2020 outreach campaign, lessons learned from the campaign, and an overview of the proposed 18-month 2021-2022 Water Use Efficiency Outreach Campaign.

2020 Water Use Efficiency Outreach Campaign:

The 2020 outreach campaign focused on:

- Promoting turf removal and weather-based irrigation controller incentives through a monthly email campaign;
- Raising awareness of, and increasing interest in, RightScaping by refreshing the [RightScape.com](https://www.rightscape.com) landing page, highlighting the beauty of water-efficient plants in IRWD-owned media and through a paid social media campaign featuring humorous "Dino" videos that highlighted the difficulties of maintaining a traditional lawn;
- Increasing attendance at virtual garden workshops through a paid social media and email campaign featuring beautiful garden images; and
- Refreshing WaterStar Business Outreach Program materials and webpages.

2020 Campaign Results:

The 2020 RightScape social media campaign reached 83% of residential customers and drove a 380% increase (18,521 versus 3,855) in year-over-year traffic to [RightScape.com](https://www.rightscape.com). The campaign's strategy of positioning RightScaping as a way of bringing beauty and individuality to customers' outdoor spaces helped capture the attention and imagination of IRWD customers. Analytics show that customers driven from the campaign to [RightScape.com](https://www.rightscape.com) were most interested in content that provided inspiration and helpful planning tools. Almost 85% of users clicked on either "Before and After Turf Gallery" or "Design Resources."

IRWD's gardening workshops were quickly converted to online virtual events due to COVID-19. Presenting the workshops online increased the potential audience, and marketing drove up the number of participants versus prior years when workshops were conducted in person. The workshop marketing campaign drove 749 total registrations across the three promoted workshops, a year-over-year increase of 499%. Total registrations rose 220% from September to November as the campaign was implemented.

Proposed 2021-2022 Water Use Efficiency Outreach Campaign:

Interest in home gardening remains high, after a year in which customers spent more time at home due to social distancing. The new outreach campaign will craft engaging messaging and visuals to highlight the beauty of water-efficient landscaping and to build desire and need for a RightScaped yard. The campaign will continue to drive attendance at IRWD water-efficient-gardening workshops as well as improve workshop content to extend service life and make it more engaging on digital platforms. [RightScape.com](https://www.rightscape.com) will be redesigned with new tools to make it easier for customers to follow through with rebates and turf replacement once they are inspired to make the change.

Elements of 2021-2022 Outreach Campaign:

Building on the accomplishments of the 2020 outreach campaign, staff recommends implementing the following new creative and targeted initiatives:

- Redesign [RightScape.com](https://www.rightscape.com) to optimize it for mobile and tablet devices, where 55% of users experience it, and equip the site with innovative tools to make landscape transformation easier for customers;
- Design a creative and highly visual outreach campaign to promote turf replacement and RightScaping;
- Re-imagine gardening workshops and transform three of them from one-time presentations into visual, engaging, and always-accessible digital content built around a unifying brand;
- Promote gardening workshops to increase attendance and draw customers who have not previously participated; and
- Target single-family homeowners with an email campaign to increase redemption rates of smart irrigation controller rebates and installations.

Consultant Selection Process:

On March 10, 2021, staff issued an RFP to four public outreach consulting firms: 1) Fiona Hutton & Associates, 2) Gigasavvy, 3) Idea Hall, and 4) Sukle Advertising and Design, offering them the opportunity to work with staff to develop and implement a 2021-2022 Water Use Efficiency Outreach Campaign for IRWD. Fiona Hutton & Associates declined to participate. Gigasavvy, Idea Hall and Sukle submitted proposals. Staff thoroughly evaluated the proposals and interviewed all three firms. The Consultant Selection Matrix is provided as Exhibit "A".

Staff recommends that Sukle be selected to implement the proposed 2021-2022 campaign. Since 2016, IRWD has retained Sukle for water efficiency outreach through a series of Professional Service Agreements. Public Affairs and Water Efficiency Department staff have been highly satisfied with the firm's work. Key strengths of Sukle's 2021-2022 proposal include:

- An inspiring approach and method for taking IRWD's water efficiency outreach to the next level, particularly by re-imagining water efficiency workshops as multi-media experiences provided to tens of thousands of targeted customers, and a vision to redesign RightScape.com into an engaging hub that will help customers transform their yards;
- An outstanding principal and technical leads, with a five-year record of delivering top-quality work to IRWD;
- Deep knowledge of IRWD issues, values, and customer relationships, with a clear understanding of IRWD's objectives;
- Extensive relevant experience in water-efficiency outreach for IRWD and other water-industry clients; and
- A detailed proposal that was highly responsive to the RFP that included the lowest average hourly fee of any of the applicants.

After the evaluation, staff met with Sukle to negotiate and finalize the scope of work. Sukle's final scope of work and compensation schedule are provided as Exhibit "B".

Consultant's Scope of Work:

To assist with the development and implementation of the 2021-2022 Water Use Efficiency Outreach Campaign, staff recommends the Board authorize the General Manager to execute a Professional Services Agreement with Sukle that incorporates its scope of work. Awarding the work to Sukle will allow staff to efficiently build on the successes of the 2020 campaign through Sukle's extensive knowledge of IRWD and its customers.

To ensure uninterrupted and well-timed messaging throughout IRWD customers' landscape planning and planting cycles, an 18-month work plan is included in Sukle's scope of work, running from July 2021 through December 2022. In addition to the campaign elements described above, the scope of work calls for end-of-year planning to refine objectives and tactics heading into 2022 and to develop a 2023 outreach plan. The following table provides the negotiated not-to-exceed costs for program-related tasks, which will be billed by Sukle on a time-and-materials basis.

2021 Tasks	Cost
Promote existing gardening workshops (two new campaigns)	\$30,000
Re-imagine, transform, and promote one gardening workshop	\$170,000
RightScape.com redesign and online tools	\$185,000
Promote smart controllers	\$9,000
RightScaping/turf replacement campaign (design and production)	\$319,000
Account leadership (July-December at \$4,000 per month)	\$24,000
Post-campaign analysis	\$10,000
2022 outreach planning	\$20,000
Subtotal:	\$767,000

2022 Tasks	Cost
Promote existing gardening workshops (two new, two repurposed)	\$45,000
Re-imagine, transform, and promote two gardening workshops	\$280,000
RightScaping/turf replacement campaign (media fees)	\$214,000
Account leadership (January-December at \$4,000 per month)	\$48,000
Post-campaign analysis	\$10,000
2023 outreach planning	\$20,000
Subtotal:	\$617,000

TOTAL:	\$1,384,000
---------------	--------------------

Option for Additional Concepting:

If requested by IRWD, for an estimated additional cost of \$40,000, the consultant would conceptualize and design an additional campaign, such as implementing a mobile garden that could allow staff to engage the community by bringing examples of RightScaped yards to community and neighborhood events.

FISCAL IMPACTS:

Funding for the 2021-2022 Water Use Efficiency Outreach Campaign is included in the FY 2021-22 and FY 2022-23 Operating Budgets. The campaign will be paid from IRWD's Over-allocation Conservation Fund.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

COMMITTEE STATUS:

This item was reviewed by the Water Resources Policy and Communications Committee on June 3, 2021.

RECOMMENDATION:

THAT THE BOARD AUTHORIZE THE GENERAL MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH SUKLE ADVERTISING & DESIGN IN THE AMOUNT OF \$1,384,000 FOR IMPLEMENTATION OF IRWD'S 2021-2022 WATER EFFICIENCY OUTREACH CAMPAIGN.

IRVINE RANCH WATER DISTRICT

2021-2022 SCOPE OF WORK

May 24, 2021

SITUATION

This scope of work is based on IRWD's objectives for 2021 and 2022, learnings from the 2020 WUE Outreach Campaign, and the IRWD Future Potential WE Study completed in 2019.

In 2021 and 2022, IRWD would like to draw more customers to workshops, RightScape.com, rebates, and promotions.

IRWD wants to inspire customers with the beauty of water-efficient landscaping and provide them with tools to convert to RightScaping easier. And, of course, track the results to ensure it's working and to inform future efforts.

Based on the 2020 Outreach Campaign and the WE Study, here are our learnings:

- The most significant opportunities for water savings are in outdoor water use across all customer sectors.
- Turf replacement was identified as the most significant area to address. This scope of work focuses on various RightScaping Initiatives that will begin to upgrade the beauty of RightScaping in the eyes of IRWD's customers and the user experience on RightScape.com.
- The strategy of positioning RightScaping to bring beauty and individuality to customers' outdoor spaces and execute on it in an unexpected, creative way helped capture the attention and imagination of IRWD customers in an incredibly effective way.
- Marketing and outreach have proven to drive customer participation in water efficiency programs to date.

The Agency will create and implement the tools and resources necessary to inspire and guide customers to change their landscaping.

This scope of work is the start of a longer-term effort to:

- Make people aware of the beauty and value of RightScaping
- Educate them by providing tools and resources that allow them to take the steps towards a more water-efficient landscape
- Activate customers to secure rebates

WATER USE EFFICIENCY EFFORTS

2021 Promote Existing Gardening Workshops

Workshops provide an opportunity to deliver a high-touch experience effectively educate customers about RightScaping and prime them for action. This effort will continue the momentum from the fall 2020 effort.

Audience: Single family homeowners

Objectives:

- Increase online RSVPs in garden workshops
- Increase attendance in garden workshops

- Expand the reach of workshops to ensure we're drawing new people (not just the same people for each one)

Tactics:

Owned Tactics

The workshop mini campaigns will be comprised of a description and visual for each workshop and pushed out through organic and boosted social, email and RightScapeNow.com.

Deliverables:

- 2x workshop mini campaigns which consists of:
- 1x email (per workshop)
- 1x visual (in multiple sizes) for social and the website (per workshop)
- Boosted social for 2x workshops

Budget: \$30,000

2021 Re-imagine Garden Workshops

Water efficiency workshops have a significant impact on supporting the RightScaping initiative and enhancing the perception of IRWD, but they have limited reach. By transforming workshops from a monthly program that can only be experienced live into always-on, always-accessible content, we can reach and impact a far greater number of customers while expanding their usefulness.

The Agency will redesign the format and promotion of the Garden Workshops. We will create short, snackable pieces of content and deliver them through social and digital media to tens of thousands of highly targeted customers across the District. Some ideas might include:

- Bring your yard to life. How RightScaping can attract birds, bees, and butterflies to your backyard.
- A summer of fresh eating. Tips from a local chef and nutritionist on how to make the perfect right-sized vegetable garden

Audience: Single-family homeowners

Objective:

Transform live workshops into engaging digital content, which can expand the reach and effectiveness of workshop efforts in educating customers about water-efficient behaviors and helping them convert to RightScaping.

Tactics:

Owned Tactics

Create evergreen RightScaping content (video clips, digital on-demand recorded workshop, etc.) to be utilized across organic and boosted social, The Dirt, email, and RightScape.com.

Paid/Boosted Social Effort

Expose up to 50,000 people to workshop content. Digital platforms to be considered include Facebook, Instagram, Pinterest, Houzz and YouTube.

Deliverables:

A visual brand for the Garden Workshops

- A name
- Logo
- Style guide

New approach to Fall 2021 Workshop content, this will include:

- Content strategy
- Simple production process/format (that can be easily replicated)
- Digital on-demand recorded workshop (30 minutes)
- 3x cutdowns optimized for social channels (:30 seconds up to two minutes)
- 3x how-to or animated clips (:15 seconds)

Promotion

- Using IRWD owned media, including The Dirt, RightScape.com, your social channels, emails, and on-site messaging.
- 2 week paid media effort on digital and social media

Budget: \$170,000

2022 Deliverables:

2022 Promote Existing Gardening Workshops

Deliverables:

- 2x new workshop mini campaigns which consists of:
 - 1x email (per workshop)
 - 1x visual (in multiple sizes) for social and the website (per workshop)
 - Boosted social for 2x workshops
- Repurpose 2x pick-up workshop mini campaigns from 2020 which consists of:
 - New copy
 - Pick-up 1x email (per workshop)
 - Pick-up 1x visual (in multiple sizes) for social and the website (per workshop)
 - Boosted social for 2x workshops

Budget: \$45,000

2022 Re-imagine Garden Workshops

2x - Re-imagined garden workshops (1x spring workshop / 1x fall workshop)

- Content strategy
- Simple production process/format (that can be easily replicated)
- Digital on-demand recorded workshop (30 minutes)
- 3x cutdowns optimized for social channels (:30 seconds up to two minutes)
- 3x how-to or animated clips (:15 seconds)

Promote garden workshops (1x spring workshop / 1x fall workshop)

- 1x creative execution for social per workshop
- 2-week paid media flight per workshop to expose up to 50,000 people to workshop content

Budget: \$280,000*

Timing: 16-20 weeks per workshop

**Note – there will be some efficiencies created in the 2021 fall workshop that reduce the cost of the two workshops in 2022.*

RightScape.com Redesign

The website is a critical hub that each of the other components of this effort will support. The site's user experience must be improved to help ensure and support a customer through their journey to RightScape their home. Two key priorities will be addressed. First, we will optimize the experience for users who are using mobile/tablet (55% of all users last year who spent approximately 69% less time on site than their desktop counterparts). Secondly, we will improve the content and tools to ensure users find the website valuable enough for them to use for planning, inspiration, and rebate programs.

Audience: All IRWD customers

Objectives:

- Increase the value and utility of RightScape.com to customers
- Enhance the user experience, especially for those users on mobile/tablet
- Improve the content and tools to make the website more helpful to customers

Tactics:

Refresh the website design by:

- Developing the site to be responsive for mobile and tablet users
- Including new content that's interesting and engaging for visitors
- Improving the user experience, so content is easier to locate
- Developing tools to help users plan and implement RightScaping

Process

Phase 1 – IRWD Input Session

There will be a 1–2-hour input session with key members from the IRWD team and the Agency to define objectives, customer journey, functionality, recommended tools, and the content outline. The outcome of this session will be a content outline and a functionality wishlist.

Phase 2 – UX Strategy: Sitemap/Wireframes

The UX Phase will include developing a sitemap, which will show the content's organization and create interactive wireframes. It's anticipated that this phase will consist of one initial site map and wireframe version, with up to two additional rounds of refinements based on client feedback. Once these elements are approved, the Agency will proceed by developing a more detailed content outline phase.

The Agency will develop new tools that will help customers throughout the RightScaping process. Those may include look books, image galleries, plant catalogs, project planners, design tools, conversion calculators, rebate, and professional service finders.

Some tools and resources that might be considered:

- INSPIRATION

- Look books created by season and style. Agency would create different landscape looks and provide the tips and descriptions of plants necessary to pull them off.
- User-generated image gallery. Collection of projects from real people in the District, continuously posted. Give the impression that everyone is RightScaping.
- Before and after galleries. Imagery of RightScaping transformations.
- DESIRE AND PLANNING
 - Personal project planner. A secure space on the site where users can save personal information, inspiration, designs, shopping lists, and rebates.
 - Landscape designer tool. Simple tool, with drag-and-drop plants, that would allow people to draw and plan their new landscaping.
- ACTIVATION
 - Rebate finder. Rather than have customers click through each rebate, tool would prompt a few simple questions and then match all available rebates from IRWD and other entities.
 - Turf to cash calculator. Customer would type in address and set yard boundaries to quickly estimate the amount of turf and available rebates.
 - Professional landscaper finder. Connecting to Google search, the site would help connect visitors to professional resources. Direct links to providers could drive SEO.

The Agency will work with IRWD to prioritize the final list of tools to see what can be designed within this scope's budget as well as within the development budget.

Phase 3 – Content Outline & Copy

The content outline will capture all existing content that will be used on the website – it will include detailed notes for any copy that needs to be refined and new copy that needs to be written. Once IRWD reviews and approves the content outline, the Agency will share the detailed document with the copywriter to begin making refinements and write new copy where necessary. The copy will be reviewed, optimized for organic search, and approved by IRWD before proceeding with the design.

Phase 4 – Design Directions

Two design directions will be presented for IRWD's consideration. The design directions will include the home page design as well as two key interior pages.

Phase 5 – Design & Content Creation/Population

Based on the approved design direction, each element of the website will be designed and produced. Those elements will include site graphics, photography, forms, designing any tools that have been approved. Once the design is fully fleshed out and has final IRWD approval, the Agency will collect XD files to pass off for development. Content will also be shared to be populated into the CMS.

Phase 6 – Development Planning

The Agency will engage a developer in Phases 1 and 2 to weigh in on technical requirements, development of the overall site, and the tools. The Agency will work with IRWD's preferred development partner and/or obtain bids from other entities to get a

sense of a development budget early on and continue to keep the development partner engaged (when necessary) throughout the different phases.

Phase 7 – Manage Implementation and Development

Once IRWD has signed off on development budgets and oversight to manage the implementation, the Agency will supervise the developer and communicate expectations and timelines clearly with IRWD. The Agency will oversee the entire development, QA, and implementation of the site and tools. (Development is not included in this scope of work.)

Deliverables:

- Complete design, copy, and content creation for the RightScope.com website and select tools (desktop + mobile)
 - This budget assumes:
 - That the Agency will simplify the RightScaping story and bring the number of website pages (currently 45 pages) to 20 pages.
 - The language/translate tool will translate the content into the necessary languages. There is no budget for translations included in this scope of work.
- Final XD files for development
- Create a budget for managing the implementation and development of the tools and website
- Specific deliverables for each phase are outlined here:
 - Phase 1 – Word document that summarizes the Input Session
 - Phase 2 – Sitemap/wireframes
 - Phase 3 – Content outline and content document
 - Phase 4 – Two unique design directions (each design would show a homepage and 1-2 interior pages of the website)
 - Phase 5 – XD files for development (Full copy/design and final produced assets: photography/video/animation)
 - Phase 6 – Bid from IRWD's preferred partner and a budget for Suple to manage the implementation of the designs and the QA process

Budget: \$185,000

Timing: 6-8 months

Smart Controllers

Weather-based smart controller rebates provide a means of reducing outdoor water waste for residential customers and play a critical role in addressing common issues with overallocation watering during the fall shoulder months—conversion to a smart controller results in an average annual water savings of 9,335 gallons.

Audience: Single-family homeowners who have been over-allocation in the past 18 months

Objective: Increase redemption rates of smart controller rebates/installs

Tactic:

Emails

Use existing creative executions (3x) from 2020 and implement the creative into WaterSmart.

Deliverables:

3x WaterSmart emails deployed in the spring and fall (based on existing creative from 2020)

Budget: \$9,000

Timing: 3-4 weeks

RightScaping/Turf Replacement

Research identified residential turf replacement and conversion to RightScaping as the most significant opportunity to increase water efficiency across the District and marketing outreach as an effective means of driving customer participation.

Audience: Single-family homeowners with larger yards and those who reduced water use during the drought, which is associated with a predisposition to convert to RightScaping.

Objectives:

- Increase awareness of RightScaping as an option to add value and personality to your home
- Increase RightScaping “desirability” attitudinal measures (ex: belief that RightScaped yards are beautiful)
- Increase redemption of turf replacement rebates

Tactics:**RightScaping/Turf Replacement Campaign**

The Agency will create a campaign to increase awareness, change the perceptions and motivate customers to replace turf lawns with RightScaping. The campaign will be designed to build desire and the need for a beautifully RightScaped yard. Part of the messaging exploration will include a way to introduce “turf replacement” in a fun and inviting way. IRWD needs to let people know what they’re missing out on – a one-of-a-kind sanctuary or an extension of your home that creates value.

Social media and digital outreach will be used to precisely target homeowners in the District while tracking interest and engagement.

Behavioral and interest-driven data will be used to create a profile of the ideal target audience to deliver messages via digital and social platforms. The campaign will also be promoted on IRWD’s owned media channels. The Agency will develop a plan outlining messages, objectives, timing, tactics, and evaluation metrics.

Photography

The campaign visuals will be critical to the success of the campaign. They need to be beautiful images of water-efficient landscaping. The images will be sourced in many ways: photoshoot, existing stock photography, and/or existing resources like the IRWD archives and GardenSoft. These images will be used across the entire campaign.

Owned Tactics

The message and visuals of “beautify your yard” will encourage customers to consider how they could re-imagine their outdoor space. This creative will be applied to newsletters, emails, and RightScape.com.

Deliverables:

- RightScaping/Turf Replacement Campaign
 - Campaign concepts (2-3 concepts will be presented to IRWD)
 - Selected campaign concept for production
 - 5-6x social posts (mix of animated and static)
 - 5x HTML5 display banners
 - Translations: Cultural consultation for campaign idea and translations for up to three pieces of campaign creative
- Paid Media
 - Targeted media plan
 - Media channels: Facebook and Instagram, Google Display Network
 - Placements: Newsfeed static and video units, display banners
 - Duration: 8-week campaign
 - Reporting: Bi-weekly reports
- Photography
 - Photoshoot in Orange County
 - 10-15 selects and final photographs
- Owned Tactics
 - 3x emails
 - 3x IRWD Pipeline graphics
 - Website landing page

Budget:

- \$319,000 (Design + Production)
- \$214,000 (Media)

Timing: 12-16 weeks

2021/2022 YEARLY BUDGET ALLOCATIONS**2021/2022 Account Leadership**

Account leadership entails all ongoing leadership that ensures your account is run as seamlessly and efficiently as possible. This often involves work that spans across multiple projects and initiatives and is critical to the overall success.

This includes general account and campaign oversight and management functions that are not specific to any one component of the campaign(s), including regular status calls, budget/fiscal management and reconciliation, account onboarding discussions, and learnings that impact multiple topics and projects.

Deliverables:

- Weekly project status meetings
- Monthly budget management and reconciliation, including the creation of a master budget document and monthly billing summary reports
- Review of any documentation, presentations, research reports

Budget:

- 2021: \$24,000 (\$4,000/monthly)
- 2022: \$48,000 (\$4,000/monthly)

Timing: Ongoing, July 2021-December 2022

2021/2022 Post Campaign Analysis

At the conclusion of each campaign effort, in the fall of 2021 and 2022, a keynote presentation will evaluate the Outreach Campaigns. The presentation will include key performance indicators, analytics, key takeaways, and implications for the following year.

Deliverable: A keynote presentation for 2021 and 2022

Budget:

- 2021: \$10,000
- 2022: \$10,000

Timing: November/December 2021, November/December 2022

2022/2023 Planning

The Agency will lead a planning session with the IRWD team members to review the evaluation of the 2021 campaign and outline a marketing plan for 2022. The plan will include objectives, strategies, tactics, budget allocation, timelines, key performance indicators, and responsibilities.

This process will be duplicated in 2022 for the 2023 marketing campaign.

Deliverables:

- 2 - Planning sessions (virtual or in-person)
- 2022 Marketing Plan
- 2023 Marketing Plan

Budget:

- 2021: \$20,000
- 2022: \$20,000

Timing: November/December 2021, November/December 2022

OPTION FOR ADDITIONAL CONCEPTING

Mobile Gardens Concepting

If requested by the District, the Agency will explore a community-driven tactic using RightScape gardens created on flatbed trucks. This tactic provides the campaign with a physical presence that is also mobile that can move around the District to engage the community in an engaging way.

Deliverables:

- Mobile Garden concepting
 - Concepting and writing messaging
 - Design concepts for the vehicle and garden
 - Fabrication vendor search and recommendation
 - Production budget

Budget: \$40,000*

**Note – The budget accounts for this to be concepted as well as provide a production bid. However, production and implementation of this tactic are not included in this scope of work.*

2021 BUDGET

2021 WATER USE EFFICIENCY EFFORTS

2021 Promote Existing Gardening Workshops	\$30,000
