PUBLIC HEARING

SEWER CHARGES IN IRWD'S NEWPORT NORTH AREA

SUMMARY:

On June 23, 2025, the Board adopted Rates and Charges effective July 1, 2025, which included monthly sewer charges of \$43.45 for a residential single-family home and \$28.80 per unit for multiple-family dwelling units. IRWD customers in Newport North will be charged the same rate, but the method of collection differs in that customers pay sewer fees on an annual basis by means of the County of Orange tax rolls.

BACKGROUND:

By adoption of Resolution No. 1987-45, the Board of Directors elected to have sewer charges for certain parcels of land located in the Newport North area collected on the tax roll together with IRWD's general taxes. This resolution directs the filing of a report, attached as Exhibit "A", containing a description of such parcels and the corresponding charges for each fiscal year. The recommended resolution for adopting the sewer charge report and authorizing the collection of sewer charges on the tax roll for IRWD's Newport North Area is attached as Exhibit "B".

On June 23, 2025, the Board adopted Rates and Charges effective July 1, 2025, which included monthly sewer charges of \$43.45 for a residential single-family home and \$28.80 per unit for multiple-family dwelling units in FY 2025-26.

Sewer Charges for IRWD's Newport North Customers

IRWD's Newport North customers are charged the IRWD Board-adopted sewer rate. They pay their sewer fees on an annual basis by means of the County of Orange tax rolls. In 2024, the previous monthly sewer charges of \$36.79 for a residential single-family home and \$25.70 per unit for multiple-family dwelling units were included in County tax rolls for IRWD's Newport North customers for the 12-month period of July 2024 to June 2025. The monthly sewer charges increased to \$43.45 for a residential single-family home and \$28.80 per unit for multiple-family dwelling units for Fiscal Year (FY) 2025-26. The total assessment will be \$521.40 and \$345.60 for single-family home customers and multiple-family dwelling unit customers, respectively.

To implement these sewer charges for IRWD's Newport North customers, staff recommends that the Board conduct the Public Hearing, per Resolution No. 1987-45, and adopt the recommended resolution regarding the new sewer charges for these customers.

PUBLIC HEARING:

Resolution No. 1987-45 directs the filing of a report containing a description of such parcels and the corresponding charges for each fiscal year. Pursuant to the requirements of the Health and Safety Code of the State of California, a public hearing on the report is required. The District Secretary has noticed a hearing for this meeting for objections or protests to the report, if any.

OUTLINE OF PROCEEDINGS

President: Declare this to be the time and place for a hearing on the sewer charge report for the Newport North area and declare the hearing open. Ask the Secretary how the hearing was noticed.

Secretary: The report was filed with the Secretary on June 5, 2025, and notice of the filing of the report and the time and place of this hearing was published in the Daily Pilot on June 29, 2025, and July 6, 2025. A notice was also posted in the District office on June 16, 2025, and on the District's website on June 16, 2025.

Board: RECOMMENDED MOTION: "RECEIVE AND FILE THE AFFIDAVIT OF POSTING AND THE PROOF OF PUBLICATION PRESENTED BY THE SECRETARY."

President: Request Legal Counsel to describe the nature of the proceedings.

Legal
Counsel: A public hearing on the sewer charge report is an annual requirement of the Health and Safety Code, Section 5473, in order to collect the sewer charges on the tax roll.

President: Inquire of the Secretary whether there have been any written communications.

President: Inquire whether there is anyone present who wishes to address the Board regarding the proposed collection of sewer charges on the tax roll.

President: Inquire whether there are any comments or questions from members of the Board of Directors. State that the hearing will be closed.

Board: RECOMMENDED MOTION: THAT THE HEARING BE CLOSED AND THAT THE FOLLOWING RESOLUTION BE ADOPTED BY TITLE:

RESOLUTION NO. 2025 - X

RESOLUTION OF THE BOARD OF DIRECTORS
OF IRVINE RANCH WATER DISTRICT ADOPTING THE
SEWER CHARGE REPORT AND AUTHORIZING COLLECTION OF SEWER CHARGES
ON THE TAX ROLL FOR IRWD'S NEWPORT NORTH AREA

FISCAL IMPACTS:

The sewer rates charged in IRWD's Newport North are the same as any other area within the District, and therefore will be set at total assessment of \$521.40 for a residential single-family home, which is the equivalent of twelve months assessment of \$43.45 per month for FY 2025-26, and \$345.60 for multiple-family dwelling units, which is the equivalent of 12 months assessment of \$28.80 per month for FY 2025-26, respectively. The total sewer charges are the same rate as other IRWD customers, but the means of collection is different for the customers in Newport North.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

COMMITTEE STATUS:

This is a routine annual item for the Board's consideration and was not reviewed by a Committee.

RESOLUTION OF THE BOARD OF DIRECTORS OF
IRVINE RANCH WATER DISTRICT ADOPTING THE
SEWER CHARGE REPORT AND AUTHORIZING COLLECTION
OF SEWER CHARGES ON THE TAX ROLL FOR THE
NEWPORT NORTH SERVICE AREA

Resolution No. 1987-45 was adopted on August 10, 1987. The Board of Directors of Irvine Ranch Water District ("IRWD") elected to have sewer charges for certain parcels collected on the tax roll each year in the same manner, by the same persons, and at the same time as, together with and not separately from, its general taxes, pursuant to Section 5473 et seq. of the California Health and Safety Code.

Pursuant to said Resolution, a report has been filed with the Secretary containing a description of such parcels and the corresponding charges for Fiscal Year 2025-26 and notice was given as required by law of a hearing on the report to be held on Monday, the 14th day of July 2025, at 5:00 p.m. (or as soon thereafter as is reasonably practicable) in the Board of Directors meeting room of IRWD, 15600 Sand Canyon Avenue, Irvine, California.

The duly noticed public hearing was held and all persons interested were given an opportunity to be heard concerning the report and to submit any objections or protests to the report.

The Board of Directors of IRWD does hereby RESOLVE, DETERMINE and ORDER as follows:

Section 1. The Board of Directors hereby determines that protests to the report were not made by the owners of a majority of separate parcels of property described in the report.

Section 2. The Board of Directors hereby adopts the report containing a description of the parcels for which charges for sewer service shall be collected on the tax roll and containing the amount of the charges for each parcel for the Fiscal Year 2025-26, computed in conformity with the schedule of rates and charges adopted by Resolution No. 2025-14. The report is provided as Attachment "A" and is incorporated herein by this reference. Each charge set forth in Attachment "A" is hereby determined to be adopted.

Section 3. The Secretary is hereby authorized and directed to endorse on the report a statement that the report was adopted by this Board on July 14, 2025, and to take whatever other action is required by the Auditor of the County of Orange in regard thereto in order to place the charges on the tax roll for the parcels described in the report.

Section 4. The Secretary is hereby authorized and directed to file a copy of such report with the Auditor of the County of Orange.

Prior to taking a vote, General Manager Cook reported that General Counsel Collins left the Board Room at 5:26 p.m. due to her firm's contract being up for review under Item 7 on the Consent Calendar

General Manager Cook also requested to read into the record, pursuant to Government Code Section 54953(c)(3), prior to taking final action on changes to salary schedules that include salary ranges for local agency executives, a summary of the recommended action before the Board under Item 8 is required.

He said the recommended action for the Board's consideration is adoption of a resolution revising the District's Schedule of Positions and Salary Rate Ranges for the General Unit, the non-exempt Supervisor Unit, and for Managers, Exempt Supervisors, Confidential and Exempt Employees, effective July 1, 2025, and superseding resolution No. 2024-12.

Mr. Cook concluded that there was a typographical correction to the title of the Resolution provided as Exhibit "A" to Item 8. The Resolution will match what was provided on the agenda and in the write up.

FISCAL YEAR 2025-26 OPERATING BUDGET VENDOR EXPENDITURE COMMITMENTS GREATER THAN \$200,000

SUMMARY:

Each year, following Board approval of IRWD's operating budget, staff initiates or renews commitments with vendors for certain products and services included in the approved budget. Staff has provided a list of those vendors with expected commitments of \$200,000 or greater in Fiscal Year (FY) 2025-26 for the Board's review. The list of vendor commitments excludes contracts or agreements approved by separate Board action. Consistent with provisions included in the District's Policy Regarding Authorization of Expenditures, staff recommends that the Board approve the list of vendor expenditure commitments greater than \$200,000 for FY 2025-26.

BACKGROUND:

On a biennial basis, the Board approves the fiscal year operating budget for the District for the upcoming year. Included in the operating budget are expenditures for line items such as chemicals, fuel, hauling of biosolids, and other products and services, which result in commitments greater than \$200,000. These expenditures typically utilize cooperative agreements for best pricing when applicable or have been previously competitively bid, and in some cases, are for specialized products (e.g., certain chemicals) provided by a single supplier.

These commitments are structured as open purchase orders and typically consist of multiple individual transactions during the fiscal year with the cumulative total of the purchase order exceeding \$200,000. The approval structure allows staff to order goods and services on a regular and efficient basis during the fiscal year. These commitments are a "not to exceed" amount and can be cancelled at any time.

A list of the planned vendor commitments exceeding \$200,000 for FY 2025-26 is attached as Exhibit "A". The list includes vendor names, descriptions of the products or service being provided, the basis for pricing (e.g., cooperative agreement, single source, etc.) and estimated annual expense. Excluded from this list are contracts in excess of \$200,000 which have been previously approved by a separate Board action and are within their approved contract period, as well as recurring utility bills.

The total planned expenditure amount for the listed vendors for FY 2025-26 is \$17,595,000, representing approximately 7.1% of total planned expenditures in the approved operating budget. Consistent with provisions included in the District's Policy Regarding Authorization of Expenditures, staff recommends that the Board approve the list of vendor commitments greater than \$200,000 for FY 2025-26.

FISCAL IMPACTS:

Total planned expenditures for FY 2025-26 for vendor commitments greater than \$200,000 (excluding contracts / agreements approved by separate Board action) are \$17,595,000, representing approximately 7.1% of total planned expenditures in the approved FY 2025-26 operating budget.

ENVIRONMENTAL COMPLIANCE:

Not applicable.

COMMITTEE STATUS:

This item has been reviewed by the Finance and Personnel Committee on June 30, 2025.

RECOMMENDATION:

THAT THE BOARD APPROVE THE LIST OF VENDOR COMMITMENTS GREATER THAN \$200,000 BASED ON APPROVED FISCAL YEAR 2025-26 OPERATING BUDGET EXPENDITURES.

LUMP SUM PAYMENT OPTION FOR EMPLOYER CONTRIBUTIONS FOR FISCAL YEAR 2025-26 TO THE CALIFORNIA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

SUMMARY:

IRWD typically chooses to pay the Annual Unfunded Accrued Liability (UAL) “Prepayment Option” in order to reduce overall costs to the District. Following this past practice, staff recommends the Board approve a lump sum payment option for employer contributions to the California Public Employees’ Retirement System (CalPERS) by making a one-time contribution of \$9,349,467 to CalPERS for IRWD’s Fiscal Year (FY) 2025-26.

BACKGROUND:

The total minimum required employer contribution to CalPERS is the sum of the CalPERS Plan’s Employer Normal Cost Rate (expressed as a percentage of payroll) plus the employer Unfunded Accrued Liability (UAL) contribution amount (billed monthly in dollars). Beginning in FY 2009-10, IRWD elected to utilize the lump sum payment option for the total minimum required employer contribution as the District benefits from not incurring interest expense at the assumed actuarial interest rate, which is currently 6.80%.

Beginning eight years ago, CalPERS changed its rules so that only the UAL portion of the employer contribution can be prepaid in full no later than July 31 of each year. The normal cost contributions for IRWD, estimated to be \$4.7 million, will be made as part of the bi-weekly payroll reporting process. CalPERS has indicated that IRWD’s UAL lump sum payment for FY 2025-26 will be \$9,349,467, as shown in Exhibit “A”. The total UAL cost of choosing the monthly payments option is approximately \$9,662,121. Therefore, choosing the lump sum payment option will save IRWD approximately \$312,654 this fiscal year.

FISCAL IMPACTS:

The District’s approved operating budget for FY 2025-26 includes normal and UAL employer contributions of \$14.6 million and repayment of replacement fund loan of \$0.4 million. The payments are consistent with the impacts identified in setting rates for FY 2025-26. The Operating Fund will fund this UAL lump sum payment.

Actuarial Assumptions

In 2021, CalPERS completed its most recent asset liability management study incorporating actuarial assumptions and strategic asset allocation. In November 2021, the board adopted changes to the asset allocation that increased the expected volatility of returns. The adopted asset allocation was expected to have a long-term blended return that continued to support a discount rate assumption of 6.80%. The board also approved several changes to the demographic assumptions that more closely aligned with actual experience.

For more details and additional rationale for the selection of the actuarial assumptions, please refer to the [2021 CalPERS Experience Study and Review of Actuarial Assumptions](#) that can be found on the CalPERS website under: Forms and Publications. Click on “View All” and search for Experience Study.

All actuarial assumptions (except the discount rates and price inflation assumption used for the accrued liability on a termination basis) represent an estimate of future experience rather than observations of the estimates inherent in market data.

Economic Assumptions

Discount Rate

The prescribed discount rate assumption, adopted by the board on November 17, 2021, is 6.80% compounded annually (net of investment and administrative expenses) as of June 30, 2023. The discount rate is based on the long-term expected rate of return on assets using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The current assumption, originally based on capital market assumptions developed by the Investment Office in 2021, has been reviewed for this valuation based on capital market assumptions developed by the Investment Office in 2023.

Termination Liability Discount Rate

The current discount rate assumption used for termination valuations is a weighted average of the 10-year and 30-year U.S. Treasury yields where the weights are based on matching asset and liability durations as of the termination date. The accrued liabilities on a termination basis in this report use discount rates that are based on the 20-year Treasury rate on the valuation date.

To illustrate the impact of the variability of interest rates, the accrued liabilities on a termination basis in this report use discount rates 1% below and 1% above the 20-year Treasury rate on the valuation date. The 20-year Treasury rate was 4.06% on June 30, 2023.

CONSULTANT SELECTION FOR RECYCLED WATER SITE INSPECTION, TESTING, TRAINING, AND HAZARD ASSESSMENTS

SUMMARY:

IRWD is required by the Santa Ana Regional Water Quality Control Board to conduct periodic inspections and cross connection tests at sites served with recycled water. Since 2014, IRWD has contracted with consulting firms to supplement staff efforts. Anticipating the need to continue the use of consultants in conducting this work, as well as new hazard assessments required by the State's Cross-Connection Control Policy Handbook (Policy Handbook), staff solicited proposals from four firms. Three proposals were received and evaluated by staff. Staff recommends the Board authorize the General Manager to execute Professional Service Agreements with Real Water Consultants and West Yost Associates, each in the amount of \$550,000, to provide on-call recycled water use site inspections, cross-connection tests, Site Supervisor training, and hazard assessments for Fiscal Years 2025-26 and 2026-27.

BACKGROUND:

IRWD currently serves approximately 6,500 recycled water service connections with more added each year. While staff conducts recycled water use site visual inspections, cross-connection tests, and Site Supervisor training at dual-plumbed and other select sites, IRWD has been using consultants to supplement staff's work since 2014. During the past two years, IRWD retained consultants Real Water and West Yost to assist staff with these efforts.

IRWD's inspection and testing responsibilities are increasing as new recycled water use sites come online and in response to the need to conduct hazard assessments consistent with the requirements of the Policy Handbook. Accordingly, the assistance of consultants continues to be necessary to augment staff's efforts. The following is an overview of the required site inspections, testing, training, and hazard assessments.

Site Inspection, Testing, Training, and Assessments:

Recycled water use sites vary in size, complexity, and regulatory requirements. Some sites are small irrigation sites such as medians and parkways that have only recycled water, while others are large and more complex, such as golf courses and homeowners' associations with both recycled and potable water on site. Inspection and testing of recycled water use sites is performed to ensure compliance with regulatory requirements and best management practices. Inspections are performed to determine if:

- Each recycled water use site is properly identified with signage and other identifiers for recycled fixtures and piping;
- Recycled water uses are allowed as well as approved, and no new unauthorized system changes have been made;
- There is no runoff or leaks of recycled water; and
- A Site Supervisor is responsible for each site and has received the required training.

Cross-Connection testing is performed to ensure that there are no connections between the recycled water system and the domestic water system at each site. Hazard assessments are also performed at sites supplied with both recycled and domestic water.

Consultant Selection Process:

Staff prepared and submitted a Request for Proposals (RFP) seeking the qualifications, experience, and proposed costs for consultants to conduct visual inspections, cross-connection tests, Site Supervisor training, and hazard assessments. The scope of work in the RFP requires contacting each Site Supervisor to arrange for a meeting on site, conducting a visual inspection and cross connection test, providing Site Supervisor training, completing a hazard assessment for the site, and completing and submitting associated paperwork. The RFP was issued to Real Water Consultants, West Yost, G & G Environmental Compliance, and Arroyo Irrigation. Arroyo Irrigation declined to submit a proposal. Staff evaluated the remaining three proposals and prepared the Consultant Selection Matrix provided as Exhibit “A”.

Based on anticipated workload and the qualifications of the firms, staff recommends the selection of both Real Water and West Yost to assist with the requested services. Equal costs were negotiated with both firms, as shown in Exhibit “B”. Staff recommends that the Board authorize the General Manager to execute a Professional Services Agreement with each firm for an amount of \$550,000 to conduct work over the next two fiscal years.

FISCAL IMPACTS:

Funding for this work is included in the Operating Budget for FY 2025-26 and FY 2026-27.

Not applicable.

TECHNOLOGY DRIVE AND ADA RECYCLED WATER PIPELINE REPLACEMENT CONSTRUCTION AWARD

SUMMARY:

The Technology Drive and Ada Recycled Water Pipeline Replacement project will install new recycled water pipelines to replace existing recycled water pipelines that have experienced several main breaks due to failing asbestos cement pipe (ACP). Staff recommends that the Board authorize the General Manager to execute a construction contract with CCL Contracting, Inc., in the amount of \$1,882,082 for the Technology Drive and Ada Recycled Water Pipeline Replacement project.

BACKGROUND:

The pipeline replacement project is located within the Irvine Industrial Complex East on Technology Drive between Alton Parkway on both ends and on Ada between Alton Parkway and Barranca Parkway. The recycled water distribution pipelines within the project limits only serve irrigation demands. The project location is shown in Exhibit "A".

In the last few years and recent months, there have been several pipeline breaks on the 6-inch ACP distribution pipelines that were originally installed in 1984. Because of the major disruptions caused by the main breaks and subsequent repairs, the project has been on a rapid schedule for replacement. This project will replace approximately 4,600 feet of 6-inch ACP with 6-inch polyvinyl chloride pipe and install a new 2-inch service connection to each property along the pipeline.

Construction Bid Process:

The project was advertised to a select list of 17 contractors on June 16, 2025. The bid opening occurred on July 9, 2025, with eight bids received as summarized in the table below.

Bidder	Bid Amount
CCL Contracting, Inc.	\$1,882,082.00
Ferreira Construction Co., Inc.	\$1,956,440.80
T.E. Roberts, Inc.	\$2,333,839.00
KEC Engineering	\$2,529,333.00
Paulus Engineering, Inc.	\$2,730,777.00
Leatherwood Construction, Inc.	\$2,963,330.00
L&S Construction, Inc.	\$2,998,525.00
E.J. Meyer Company	\$3,494,444.00
<i>Engineer's Estimate</i>	<i>\$2,308,000.00</i>

CCL Contracting, Inc. is the apparent low bidder with a bid of \$1,882,082, which is 18 percent lower than the engineer's estimate of \$2,308,000. Two bids were lower than the engineer's estimate, and CCL Contracting's bid results are shown in Exhibit "B". CCL Contracting, Inc., has completed previous IRWD pipeline projects and is well qualified to construct this project.

FISCAL IMPACTS:

Technology Drive and Ada Recycled Water Pipeline Replacement, Project 12979, is included in the Fiscal Year 2025-26 Capital Budget. The existing budget is sufficient to fund the project's construction.

ENVIRONMENTAL COMPLIANCE:

The project is exempt from California Environmental Quality Act (CEQA) as authorized under the California Code of Regulations, Title 14, Division 6, Chapter 3, Section 15301 (Class 1 "Existing Facilities") and Section 15302 (Class 2 "Replacement or Reconstruction"). Class 1 exempts the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use, such as existing facilities of publicly owned utilities used to provide public utility services. Class 2 exempts the replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced, such as the replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.

COMMITTEE STATUS:

Construction Awards are not routinely taken to Committee prior to submittal to the Board.

RECOMMENDATION:

THAT THE BOARD AUTHORIZE THE GENERAL MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH CCL CONTRACTING, INC. IN THE AMOUNT OF \$1,882,082 FOR THE TECHNOLOGY DRIVE AND ADA RECYCLED WATER PIPELINE REPLACEMENT, PROJECT 12979.

SETTING CONNECTION FEES AND PROPERTY TAXES FOR FISCAL YEARS 2025-26 AND 2026-27

SUMMARY:

IRWD proposes setting new connection fees for two fiscal years, consistent with its two-year budget cycle and the prior connection fee and tax rate setting schedule. The changes to connection fees proposed for Fiscal Year (FY) 2025-26 are based on updates to IRWD's capital budget, developer projections, and adjustments to the Engineering News Record (ENR) construction cost index. The increase in connection fees for FY 2025-26 is attributed to the allocation of costs associated with Irvine Lake, including the proposed dam embankment improvements and the allocated costs that had previously been the responsibility of the Serrano Water District (25%). Changes to the connection fees proposed for FY 2026-27 are based on estimated construction cost increases of 3.0% for all Improvement Districts (IDs).

This item was initially presented to the Finance and Personnel Committee on June 2, and developers requested time to review the financial model components. Staff met with two local developers to review the factors influencing the model. Based upon those discussions, staff received additional information from the developers, which has led to a reduction in the initial connection fee presented at the June 2 Committee meeting.

During the Finance and Personnel Committee meeting on June 30, the Committee directed staff to model scenarios which would spread the connection fee increases over the two year rate setting cycle for ID's where development projections are shared with the District on an annual basis. Staff prepared two alternatives for IDs 112/212 and IDs 153/253 to address the Committee's request. Both developers are anticipating changes that will result in reduced connection fees in time and spreading the increase over the two-year rate setting cycle will limit potential spikes to the fees. Staff recommends that the Board approve the changes to the existing connection fees and property tax rates based on Alternative Two and adopt resolutions approving these revisions.

BACKGROUND:

The IRWD Board has a long-standing policy by which the costs associated with new capital facilities are shared equally between the connection fees paid by developers and property taxes paid by property owners: "the 50/50 split." In 2014, IRWD worked with key developers within its service area to create IRWD's Long-Term Capital Funding Plan (LTFP). The LTFP details the process used to generate rates for both connection fees and property tax rates. It also includes a comprehensive financial model that incorporates capital costs, debt funding, future development, growth rates, inflation, and other variables. This model currently reflects projected fund balances through FY 2059-60.

Connection fees were modeled for two alternatives along with a consolidated tax rate for both residential and commercial development. Staff updated IRWD's financial model for FY 2025-26 and 2026-27 connection fees and tax rate-setting to include the following:

- Updated capital improvement program based upon the FY 2025-26 and 2026-27 approved capital budget and updates that include the Santiago Dam Improvement Project, including:
 - The addition of Serrano Water District's former portion of costs associated with this project is deemed new capital to IRWD, and
 - The proposed dam embankment improvements that would allow the dam to meet IRWD's risk-informed decision-making criteria relative to risk and consequence;
- ENR estimated capital cost increase for FY 2025-26 (3.7%) and FY 2026-27 (3.0%);
- Fund balance adjustments through March 2025 with assumptions through fiscal year end;
- Updated assessed valuations; and
- Updated projections for development units.

Exhibit "A" provides a summary of two alternatives for proposed connection fees and property tax rates by ID, Exhibit "B" provides an analysis of changes from current values within each ID to Alternative 1, and Exhibit "C" provides ID activity over the next two fiscal years. Provided as Exhibit "D" is a PowerPoint presentation summarizing the changes. The resolutions in support of staff's recommendations are provided as Exhibits "E", "F", and "G". Exhibit "H" and Exhibit "I" represent two alternative proposed changes to the IRWD Schedule of Rates and Charges included in the District's Rules and Regulations. Exhibit "I" is staff's recommendation for Rates and Charges pertaining to Alternative 2.

IDs 112 / 212:

Three separate developments contribute to IDs 112 / 212:

1. The City of Irvine / Great Park;
2. The FivePoint Communities Great Park Neighborhoods; and
3. The County of Orange's 100-acre parcel.

Connection fees for these developments are set separately.

City of Irvine / Great Park:

The recycled water connection fee for the Great Park that was approved by the Board in 2017, per an agreement with the City of Irvine, was updated. The City made the first recycled water connection fee payment of \$9.9 million in September 2017. The remainder will be paid as the parcels are placed into service. The Great Park will pay 100% of the planned recycled capital expenditures.

FivePoint Communities – Great Park Neighborhoods:

Two developers participate closely with the District in the connection fee rate setting process, providing a stronger representation of the development timeline. The Finance and Personnel Committee directed staff to provide two alternatives that consider the necessary rate increase to be captured within the two-year rate setting window:

- Alternative One: Full increase in FY 2025-26 and an increase with ENR in FY 2026-27
- Alternative Two: Split the consolidated increase over two years

Both alternatives result in the same outcome when the debt is extinguished. The costs are shared equally between the developer and the homeowner through connection fees and property tax rates.

The Great Park Neighborhoods is the FivePoint Communities development within ID 112 / 212. Alternative One increases the connection fees by \$3,272 for FY 2025-26 and \$338 in FY 2026-27 based on estimated ENR and estimated increases in capital projects.

The split between the water connection fee and the sewer connection fee was changed to reflect changes in capital spending. The consolidated water and sewer connection fee will increase from \$7,981 per unit to \$11,253 per unit in FY 2025-26 and to \$11,591 per unit in FY 2026-27. Staff recommends continuing the current consolidated tax rate of \$0.0475 per \$100 of land assessed value to maintain the 50/50 split.

Staff recommends Alternative Two, the increase in FY 2025-26 would be \$1,875 and the increase for FY 2026-27 would be \$2,316 per unit. The consolidated water and sewer connection fee will increase from \$7,981 per residential unit to \$9,856 per residential unit in FY 2025-26 and to \$12,172 per unit in FY 2026-27.

County of Orange 100-acre Parcel (IDs 112 / 212a):

Staff utilized the same two alternatives for this development. Staff recommends applying the same percentage increase for FY 2025-26 and for FY 2026-27 to the connection fees, for the reasons discussed above, for the 100-acre development site owned by the County of Orange. Because it is publicly owned, this land has no tax base. Under Alternative One, the consolidated water and sewer connection fee will increase from \$14,682 to \$22,611 per unit in FY 2025-26 and to \$23,289 per unit in FY 2026-27. The property tax rate will remain at zero as long as the property is owned by the County.

IDs 113 / 213 – Former Tustin Marine Base:

For FY 2025-26 and 2026-27, staff recommends increasing the total water and sewer connection fees by \$3,989 and \$444 respectively due to increases in ENR and estimated increases in capital projects. This will increase the total water and sewer connection fee from \$10,781 per unit to \$14,770 per unit in FY 2025-26. The split between the water connection fee and the sewer connection fee was adjusted to reflect changes in capital spending. Connection fees will increase to \$15,214 per unit in FY 2026-27. Staff recommends continuing the current consolidated tax rate of \$0.0990 per \$100 of land assessed value to maintain the 50/50 split.

IDs 185 / 285 – Lake Forest Opportunity Study Area, Excluding Portola:

For FY 2025-26 and 2026-27, staff recommends increasing connection fees by \$7,175 and \$431 respectively due to increases in ENR and estimated increases in capital projects. The ID is nearly fully developed. The consolidated water and sewer connection fee will increase from \$7,175 per unit to \$14,350 per unit and to \$14,781 per unit in FY 2026-27. The split between the water connection fee and the sewer connection fee was changed to reflect changes in capital spending. Staff recommends continuing the consolidated tax rate of \$0.0218 per \$100 of assessed land value in order to meet debt obligations and maintain the 50/50 funding split.

IDs 188 / 288 Lake Forest Opportunity Study Area, Portola Only:

For FY 2025-26 and 2026-27, staff recommends increasing connection fees by \$6,376 and \$352 respectively due to increases in ENR. The consolidated water and sewer connection fee will increase from \$5,358 per residential unit to \$11,734 per residential unit in FY 2025-26 and to \$12,086 per unit in FY 2026-27. Staff recommends decreasing the consolidated tax rate from \$0.0394 to \$0.0330 per \$100 of assessed land value in order to meet debt obligations and maintain the 50/50 funding split.

IDs 153 / 253 – Developing IDs:

IRWD and the Irvine Company established future usage and related revenue from the sale of native water from Irvine Lake. A portion of the revenue produced by native water sales is applied to connection fees for the developing IDs 153 / 253. The amended Irvine Lake agreement, executed in July 2019, ensures that the Irvine Company pays its fair share of capital infrastructure (without overpaying), recognizing that future sales of native water will reduce the amount of connection fees and tax revenue. The native water assumption includes 3,800 acre-feet (AF) per year at a rate of \$368 per AF in FY 2024-25 with the cost of water escalating annually at 3% thereafter. The agreement also provides for a reconciliation every five years between the assumed and the actual native water revenue. The reconciliation is on hold until the Santiago Dam project is completed. The final reconciliation will occur at the end of twenty years in 2038.

The local developer participates closely with the District in this process and the two alternatives that consider the necessary rate increase be captured within the two year rate setting window was applied to these ID's as well.

In Alternative One for FY 2025-26, the consolidated water and sewer connection fee will increase by \$809 due to cost escalations in capital projects. The split between the water connection fee and the sewer connection fee was changed to reflect changes in capital spending. For FY 2026-27, connection fees increase by \$135 based on estimated ENR. The consolidated water and sewer connection fee will increase from \$3,678 per residential unit to \$4,487 per residential unit in FY 2025-26 and to \$4,622 per unit in FY 2026-27.

Staff recommends Alternative Two in which the increase in FY 2025-26 would be \$478 and the increase for FY 2026-27 would be \$540 per unit. The consolidated water and sewer connection fee will increase from \$3,678 per residential unit to \$4,156 per residential unit in FY 2025-26 and to \$4,696 per unit in FY 2026-27.

Staff recommends continuing the current consolidated tax rate of \$0.0220 per \$100 of assessed land value in order to meet debt obligations and maintain the 50/50 funding split.

All Other IDs:

For FY 2025-26 and 2026-27, staff recommends increasing connection fees by 25% and 3.0% respectively due to increases in ENR and estimated increases in capital projects. Staff recommends continuing the current consolidated tax rate of \$0.0280 per \$100 of land assessed value in ID's 125 / 225 to meet debt requirements. Staff recommends reducing the current tax rate per \$100 of land assessed value in ID's 240 from \$0.01950 to \$0.0065 to meet debt requirements. The consolidated tax rate in this area (ID 125 / 240) will be \$.0150 per \$100 of land assessed value.

CONNECTION FEE AND PROPERTY TAX DEVELOPMENT

This process remains unchanged since the Board approved the Long Term Financial Plan (LTFP) in 2013-14:

- Request input from local developers and incorporate changes.
- Update IRWD Connection Fee and Property Tax model.
- Set connection fees and property tax to share costs equally between developers and property owners (through 2060).
- Recommend Board approval of connection fees and property tax rates for FY 2025-26 and FY 2026-27.

Staff will revisit connection fees and tax rates at mid-cycle and update the Committee on any changes that could affect tax rates and fees.

RESOLUTION NO. 2025-

RESOLUTION OF THE BOARD OF DIRECTORS OF
IRVINE RANCH WATER DISTRICT
ADOPTING CHANGES TO CONNECTION FEES AS SET FORTH IN
THE SCHEDULE OF RATES AND CHARGES IN EXHIBIT “B” TO THE
RULES AND REGULATIONS OF IRVINE RANCH WATER DISTRICT
FOR WATER, SEWER, RECYCLED WATER, AND NATURAL
TREATMENT SYSTEM SERVICE
(EFFECTIVE AUGUST 1, 2025)

The Irvine Ranch Water District (“IRWD”) is a California Water District organized and existing under the California Water District Law, and all of the lands within the boundaries of said District are located in the County of Orange, State of California.

California Water Code Sections 35423, 35470, and 35501 empower the District to establish, print and distribute equitable rules and regulations and prescribe and collect rates or other charges for water and sewer service, which includes connection fees for connection and service capacity.

The Board of Directors of IRWD, by adoption of Resolution No. 2025- approved and adopted amended “Rules and Regulations of Irvine Ranch Water District for Water, Sewer, Recycled Water, and Natural Treatment System Service effective June 9, 2025 (“Rules and Regulations”).

Exhibit “B” of the Rules and Regulations sets forth rates and charges, which may be changed from time to time by adoption of changes to any of the rates and charges or establishing any new rates and charges.

Public Resources Code Section 21080(b) (8) provides that the establishment, modification, structuring, restructuring or approval of rates, tolls, fares, or other charges by public agencies are exempt from the requirements of the California Environmental Quality Act if certain findings are made specifying the basis for the claim of exemption.

Article XIII B of the Constitution of the State of California, limiting local agencies’ appropriations of proceeds of taxes, excludes user charges or fees or regulatory fees from the definition of proceeds of taxes, as long as such fees and charges do not produce revenue exceeding the costs reasonably borne in providing the regulation, product or service, and further excludes appropriations for debt service and appropriations for qualified capital outlay projects from appropriations subject to limitation.

The Board of Directors of IRWD deems it advisable and finds that it would be in the best interest of the District to amend or establish connection fees, consistent with applicable constitutional and statutory requirements.

The proposed revisions to the connection fees, as set forth in Exhibit “A” to this resolution, do not modify or establish any property-related fees or charges subject to the notice and hearing procedures of Article XIID of the Constitution of the State of California.

The Board of Directors of IRWD therefore resolves as follows:

Section 1. It is hereby found and determined that the proposed changes to the Schedule of Rates and Charges are within the purposes set forth in Section 21080(b) of the Public Resources Code including but not by way of limitation, the purposes of (1) obtaining funds for capital projects necessary to maintain service within existing areas, and (2) meeting financial reserve needs, and therefore, that such changes are exempt from CEQA.

Section 2. It is hereby found and determined that relative to Article XIII B of the Constitution of the State of California, the charges or fees or regulatory fees established or increased hereby do not produce revenues exceeding the costs reasonably borne in providing the regulation, product or service and/or are used for debt service or qualified capital outlay projects and accordingly do not constitute proceeds of taxes, the appropriation of which is limited under Article XIII B, and that the documentation used in making such determinations has been on file in the office of IRWD for not less than 15 days prior to the date hereof, pursuant to Section 7910 of the Government Code of the State of California. It is hereby further found and determined that relative to the requirements of Sections 66013 and 66016 of the Government Code of the State of California, the availability of such documentation also satisfies the requirement to make publicly available the data indicating the estimated cost and revenue sources to provide the service for which the fee is imposed at least 10 days prior to the meeting at which this resolution is adopted, and that the connection fees established or increased hereby do not exceed the estimated reasonable cost of providing the service for which they are imposed.

Section 3. The new and/or revised connection fees as set forth in Exhibit “A” attached to this resolution and by this reference incorporated herein are hereby adopted, and the corresponding rate(s), fee(s) or charge(s), if any, as set forth in Rules and Regulations Exhibit “B” currently in effect, are hereby superseded. Staff is directed to incorporate the hereby adopted new and/or revised connection fee(s) into Exhibit “B” to the Rules and Regulations.

Section 4. That the provisions of this Resolution shall be effective August 1, 2025.

Section 5. That the Secretary is hereby ordered and directed to post a certified copy of this Resolution in a public place within the Irvine Ranch Water District.

Pursuant to Water Code Section 37206, the Board of Directors annually shall furnish to the Board of Supervisors of Orange County and to the County Auditor, an estimate in writing of the amount of money needed to be raised by the District during the fiscal year for the payment of its proportion of the amount required for the purposes of the District.

RESOLUTION NO. 2025-

RESOLUTION OF THE BOARD OF DIRECTORS OF
IRVINE RANCH WATER DISTRICT
AMENDING ALLOCATION OF *AD VALOREM* PROPERTY
TAXES TO DEBT SERVICE, SUBJECT TO PLEDGE

The Board of Directors of the Irvine Ranch Water District (“IRWD”) has adopted Resolution Nos. 1992-48 and 2002-10, relating to IRWD’s appropriation and pledge of revenues from the general 1% *ad valorem* property tax.

Those resolutions authorized and directed the Treasurer to annually allocate the general 1% *ad valorem* property tax revenues received by IRWD among the debt service requirements of the issues of bonds specified in those resolutions (“Secured Bonds”) in accordance with a formula set forth therein, with the 2002 pledge formula to be applied in lieu of the 1992 pledge formula to the extent provided in Resolution No. 2002-10.

No Secured Bonds that received a pledge of general 1% *ad valorem* property tax revenues under Resolution Nos. 1992-48 or 2002-10 currently remain outstanding, except for the Series 1993 bonds.

IRWD’s revenues from the general 1% *ad valorem* property tax to the extent not applied to pay principal and interest on the Secured Bonds, have been pledged by IRWD to certain parity obligations (the “Parity Obligations”) identified by the Indenture of Trust, dated April 1, 2011, as amended and supplemented (the “2011 Indenture”), relating to the Bonds of Irvine Ranch Water District, Refunding Series 2011A-1.

On November 11, 2013, pursuant to Water Code Section 36454 *et seq.*, the Board of Directors adopted Resolution No. 2013-43, ordering the consolidation of Improvement District Nos. 102, 105, 106, 121, 130, 135, 140, 161, 182, 184 and 186, as modified by certain annexations and detachments ordered by the Board, into a single improvement district designated “Improvement District No. 125” and the consolidation of Improvement District Nos. 2(202), 206, 221, 230, 235, 250, 261, 282, 284 and 286, as modified by certain annexations and detachments ordered by the Board, into a single improvement district designated “Improvement District No. 225.”

The consolidation is one of several actions taken by IRWD based upon its comprehensive evaluation and study of its long-term financial requirements, including: a detailed planning, engineering and financial assessment of the total costs of existing and future facilities in the water and wastewater systems; available bond authorization and other revenue sources to finance facilities to serve future development, system reliability necessary to meet upgraded regulatory requirements for both existing and future demands and replacement and refurbishment to the existing systems; debt service; simplification of the improvement district structure; and assurance of equitable and fair sharing of regional and local cost between existing and future users and among the areas that have comprised the various existing improvement districts and other geographic areas served by the system.

Pursuant to Water Code Section 36454.1, the included amounts and/or included percentages of each series of the Secured Bonds or Parity Obligations that constituted the general obligation of one or more of Improvement District Nos. 105, 121, 130, 135, 140, 161, 182, 184

and 186 were assumed by and became the liability of Improvement District No. 125, and the included amounts and/or included percentages of the respective series of the Secured Bonds or Parity Obligations that constituted the general obligation of one or more of Improvement District Nos. 221, 230, 235, 250, 261, 282, 284 and 286 were assumed by and became the liability of Improvement District No. 225.

The Board deems it to be appropriate, in the interest of IRWD and consistent with the pledges contained in Resolution No. 2002-10 and the 2011 Indenture (collectively, the “Pledges”), to modify the allocation of the revenues from the general 1% *ad valorem* property tax received during the 2025-26 fiscal year (the “Fiscal Year”), subject to the availability of other revenues for debt service on Secured Bonds and Parity Obligations in such year.

The proposed modifications consist of substitution of an allocation of 1% *ad valorem* tax revenues among debt service obligations that is different from the allocation that would be calculated under the formulas specified in the Pledges; in addition, by separate resolution adopting the capital budget, this Board has allocated a portion of the 1% *ad valorem* tax revenues for the Fiscal Year to one or both of IRWD’s Replacement Fund or Enhancement Fund.

Article XIII B of the Constitution of the State of California provides that the appropriations of local agencies will be limited each year to those of the previous year, adjusted for changes in population, cost of living and transfers in sources of funding.

Section 9 of Article XIII B excludes from the appropriations subject to limitation appropriations for debt service and appropriations for all qualified capital outlay projects; a qualified capital outlay project is defined by statute as an appropriation for a fixed asset (including land and construction) with a useful life of 10 or more years and a value which equals or exceeds one hundred thousand dollars (\$100,000).

The Board of Directors of the Irvine Ranch Water District therefore resolves as follows:

Section 1. Subject in all respects to the Pledges, the Treasurer is hereby authorized and directed to implement a modified allocation of the pledged amounts (as defined in the Pledges) of the general 1% *ad valorem* property tax revenues for the Fiscal Year 2025-26 in the manner set forth as follows:

- (a) the amount to be allocated to the Replacement Fund shall be as specified in the resolution adopting the capital budget for the Fiscal Year;
- (b) the amount to be allocated to the Enhancement Fund shall be as specified in the resolution adopting the capital budget for the Fiscal Year;
- (c) the amount to be allocated to the sharing of regional and local cost by existing and future users of the areas known as 111 and 222 shall be as set forth in Attachment “A,” which is attached to this resolution and by this reference made a part hereof;
- (d) the allocation among the Improvement Districts’ debt service obligations shall be as set forth in Attachment “A,” subject to adjustments as may be necessary to reflect actual tax revenues received by IRWD;
- (e) the amount allocated to each Improvement District or combination of Improvement Districts specified in Attachment “A” shall be further allocated by the Treasurer among the various outstanding bond issues based upon their debt service requirements and/or other criteria as deemed appropriate; and

(f) the amounts to be allocated pursuant to paragraphs (d) and (e) from the pledged amount of the general 1% *ad valorem* property tax revenues received by IRWD shall be held unallocated until such allocations are made, and each such amount shall be deposited into the appropriate debt service fund or account for the respective bond issue as and when determined by the Treasurer.

The applications described in this section shall be made only if and to the extent there is not a deficiency at the time of application in the amounts available to pay debt service for any Secured Bonds or Parity Obligations.

Section 2. Nothing contained in this resolution is intended to impair or modify in any way the pledge of the general 1% *ad valorem* property tax revenues as stated in the Pledges. Nothing contained in this resolution is intended to create any entitlement with respect to the use of general 1% *ad valorem* property tax revenues for any particular purpose, it being intended that such revenues are unrestricted except by such Pledges and are subject to application as determined in the discretion of the Board of Directors from time to time.

Section 3. It is hereby found and determined that relative to appropriations subject to limitation under Article XIII B of the Constitution of the State of California, the applications of revenues described in this resolution are for debt service, and accordingly do not constitute proceeds of taxes the appropriation of which is limited under Article XIII B, and that the documentation used in making such determinations has been on file in the office of IRWD for not less than 15 days prior to the date hereof, pursuant to Section 7910 of the Government Code of the State of California

Section 4. The President, Secretary, Treasurer and each other officer of IRWD, acting singly, be and hereby is authorized and directed to execute and deliver any and all documents or instruments and to do and perform any and all acts and things necessary or proper for carrying out the transactions contemplated by this resolution.

1.3 Commodity Charges

- 1) Rates are based on usage per hundred cubic feet (ccf).
- 2) Irvine Ranch Water District (IRWD) establishes a water budget for each customer. The rates billed are based on use as a percentage of budget. Water budgets are based using an assumed number of residents (and units, in the case of apartments), landscape square footage and actual daily weather and evapotranspiration (ET) data for each of three microclimates within the District.
- 3) Customers may apply for water budget variances for larger than normal landscaped areas, more people living in the home or special medical needs.
- 4) The water budget process is described in detail in Budgets and Variances on page 10 and residential customers can apply for a variance at <https://www.irwd.com/services/request-a-water-variance>.

1.4 Water Budgets and Variances

1.4.1 Base Water Budgets For Commodity Charges

Monthly budget includes a fixed component for indoor usage and a variable component based on evapotranspiration (ET) rate for landscape irrigation.

Account Type	Base Budget Number of Residents	Landscape Area (LA)	Base Budget Indoor	Base Budget Outdoor ET x LA x PF	Total Budget
Residential Detached	4	1300 sq. ft (0.03 acres)	# Residents x 50 gpd (IU)	ET x LA x 0.75	(Indoor x # days in bill service period) + Outdoor
Residential Condo Attached/ Detached*	3	435 sq. ft (0.01 acres)	# Residents x 50 gpd (IU)	ET x LA x 0.75	(Indoor x # days in bill service period) + Outdoor
Apartments*	2	N/A	# Residents x 50 gpd (IU)		Indoor x # days in bill service period
Potable Irrigation		Site specific based on irrigated acreage	N/A	ET x LA x 0.75	Outdoor based on bill service period
Recycled Irrigation		Site specific based on irrigated acreage	N/A	ET x LA x 0.87	Outdoor based on bill service period
Commercial, Industrial, Public Authority, and mixed non-residential Use			Site specific, based on productivity, employees, water use efficiency practices etc.	Site specific, based on irrigation needs	Site specific, adjusted for # days in bill service period

*For master-metered apartments and condominiums, the base budget is multiplied by the number of dwelling units.

CCF = 100 cubic feet. 1 CCF = 1 billing unit = 748 gallons

ET = reference evapotranspiration – from IRWD weather stations located in coastal, central or foothill zones for cool season turf

GPD = gallons per day

IU = Internal Use – assumes 50 GPD per person

LA = irrigated landscape acres

PF = plant factor. Adjusts ET based on plant needs relative to cool season turf and irrigation system efficiency requirements. The plant factor for potable irrigation is 0.75. For recycled water, the plant factor is 0.8

1.4.2 Water Budget Variances

Variances are available for larger than normal landscaped areas, more people living in the home or special medical needs. Applications for variances may be obtained from the District website <https://www.irwd.com/services/request-a-water-variance> or from Customer Service at (949) 453-5300. See IRWD Rules and Regulations, Section 12.6 for variance procedures.

1.4.2.1 Justifications for variances

Applicants must provide proof acceptable to the District to support any variance request.

- 1) Number of people residing in a residential dwelling unit
Each additional person increases the budget by 1.6 ccf/month which is IU x 0.8.
- 2) Landscape
Increased budgets shall be given for residential lot size beyond the standard base budget lot size.
Applicants must provide acceptable documentation to the District of the actual irrigated landscape area served.
- 3) Medical needs
Approval is contingent upon medical documentation.
- 4) Increased budget will be determined on a case-by-case basis and based on the type of medical need.
- 5) Licensed care facilities (in a residential dwelling unit)
A current license from appropriate regulatory agency will be required.
 - a. A licensed 24-hour care facility will be provided budget increases based on the IU x 0.8 for each additional resident.
 - b. A licensed day care facility (not 24-hour) will be provided budget increases based on the IU x 0.5 for each additional person.
- 6) Additional budget for medical reasons will be determined on a case-by-case basis.
- 7) Fire control zones
Adjustments to budgets will be determined by the District based upon relevant factors such as area, slope, planting material, etc.
- 8) Commercial/industrial/public authority
Adjustments to the base budget will be determined on a case-by-case basis. Relevant factors will include expansion of productive capacity, existing conservation practices that can be shown to have reduced water usage, severe economic hardship, etc.
- 9) New account establishment variance
Landscape accounts – billed at the base rate for the first six months and, beginning in the seventh month, the budget will be based on irrigated acres.
- 10) Commercial and industrial accounts – billed at the base rate on usage for the first six months and, beginning in the seventh month, the monthly budget will be based on unique business and site demands as determined by the District.

1.4.2.2 Variance limitations

- 1) An approved variance will become effective on the date the request for variance is approved by the District but must be submitted within thirty (30) days of receipt of the bill.
- 2) Approvals are valid for a period specified by the District (one year or less) and must be resubmitted on or before the expiration date to remain in effect.

1.4.2.3 Water budget variance impact

- 1) Residential
Approved variances will extend each tier of the residential structure by a percentage.
- 2) Non-residential
Approved variances will extend each tier of the non-residential structure by a given percentage (or other method) determined on a case-by-case basis.

1.5 Pumping Surcharges

- 1) A pumping surcharge will be added to the variable water usage charge for customers in locations that cause the District to incur additional pumping costs to supply their water. Customers are assigned to an area depending upon the average cost to pump water to serve their location.
- 2) The surcharge is based upon prevailing energy costs.

1.5.1 Potable Water Pumping Surcharges

1.9 Water Shortage Contingency Plan (WSCP) Rates

The IRWD Board of Directors adopted an updated Water Shortage Contingency Plan (WSCP) in June 2021. The WSCP includes a “toolbox” of potential strategies for responding to 6 levels of water shortage.

Using WSCP as a guide and following Proposition 218’s requirements, rates were developed for each shortage level. These will be referred to as “WSCP rates” and have only been developed for the potable system commodity rates. They have no impact on the monthly fixed service water or sewer charges or on the recycled system.

The rates at each level are as follows.

<i>Tiers</i>	<i>WSCP Levels</i>					
	<i>Commodity Rates</i>					
	1	2	3	4	5	6
	Up to 10%	11-20%	21-30%	31-40%	41-50%	Over 51%
Low Volume	\$2.08	\$2.09	\$2.10	\$2.11	\$2.14	\$2.17
Base	\$2.78	\$2.87	\$2.93	\$3.05	\$3.26	\$3.50
Inefficient	\$7.49	\$7.61	\$7.67	\$7.46	\$7.88	\$8.82
Wasteful	\$19.42	\$20.25	\$21.20	\$22.53	\$24.96	\$28.36

These commodity rates provide cost of service equity for the budgeted Board-approved operating variable costs and additional costs incurred as a direct result of a water shortage declaration at the associated stage level. Implementation of WSCP rates would require additional Board action.

Section 2: Sewer

2.1 Monthly Sewer Service Charge

2.1.1 Residential (Single Family And Multi-Family Dwelling Units)

- 1) No credit will be granted for vacancies resulting from the normal turnover of occupants in an existing multiple dwelling unit. The price structure contained herein includes considerations of average vacancy rates.
- 2) A newly constructed multiple dwelling unit may be billed at the non-residential metered rate, with appropriate allowance for landscape irrigation, until the structure is released for occupancy.

2.1.1.1 Collection and treatment

- 1) The monthly sewage service charge is based upon the average of the actual lowest three months' water usage during the prior calendar year. Charges are based on a 30-day billing period.
- 2) Customers with less than a full calendar year of history are charged the 90% rate.

Average Monthly Water Use		Rate	Monthly Sewer Service Charge per Unit

Over 1,000 cubic feet	100%	\$23.95

2.1.2 Non-Residential (Commercial, Industrial, and Institutional)

- 1) Quantity charges assume that 90% of non-residential water consumption returns to the sewer.
- 2) Due to landscape irrigation or consumptive usage, some non-residential users may discharge substantially less of their metered water into the sewer system. Those users may, upon request to the District, be permitted to have the amount of water being discharged into the sewer determined by means acceptable to the District.
- 3) To qualify for the sewage service charge only, a customer usage history cannot be greater than 120 ccf in a full calendar year based on actual meter readings. Usage exceeding 10.0 ccf per month will pay a quantity charge.
- 4) Upon request by the user and at the sole discretion of the District, an alternate service charge may be applied.
- 5) During construction, prior to occupancy, these rates are applicable.

The alternative service charge for use shall be computed by the following formula:

$$\text{Charge for use} = VR_v + BR_b + SR_s$$

Where V = Total volume of flow in hundred cubic feet.

B = Total discharge of biochemical oxygen demand (BOD) in pounds.

S = Total discharge of suspended solids (SS) in pounds

1.3 Commodity Charges

- 1) Rates are based on usage per hundred cubic feet (ccf).
- 2) Irvine Ranch Water District (IRWD) establishes a water budget for each customer. The rates billed are based on use as a percentage of budget. Water budgets are based using an assumed number of residents (and units, in the case of apartments), landscape square footage and actual daily weather and evapotranspiration (ET) data for each of three microclimates within the District.
- 3) Customers may apply for water budget variances for larger than normal landscaped areas, more people living in the home or special medical needs.
- 4) The water budget process is described in detail in Budgets and Variances on page 10 and residential customers can apply for a variance at <https://www.irwd.com/services/request-a-water-variance>.

1.4 Water Budgets and Variances

1.4.1 Base Water Budgets For Commodity Charges

Monthly budget includes a fixed component for indoor usage and a variable component based on evapotranspiration (ET) rate for landscape irrigation.

Account Type	Base Budget Number of Residents	Landscape Area (LA)	Base Budget Indoor	Base Budget Outdoor ET x LA x PF	Total Budget
Residential Detached	4	1300 sq. ft (0.03 acres)	# Residents x 50 gpd (IU)	ET x LA x 0.75	(Indoor x # days in bill service period) + Outdoor
Residential Condo Attached/ Detached*	3	435 sq. ft (0.01 acres)	# Residents x 50 gpd (IU)	ET x LA x 0.75	(Indoor x # days in bill service period) + Outdoor
Apartments*	2	N/A	# Residents x 50 gpd (IU)		Indoor x # days in bill service period
Potable Irrigation		Site specific based on irrigated acreage	N/A	ET x LA x 0.75	Outdoor based on bill service period
Recycled Irrigation		Site specific based on irrigated acreage	N/A	ET x LA x 0.87	Outdoor based on bill service period
Commercial, Industrial, Public Authority, and mixed non-residential Use			Site specific, based on productivity, employees, water use efficiency practices etc.	Site specific, based on irrigation needs	Site specific, adjusted for # days in bill service period

*For master-metered apartments and condominiums, the base budget is multiplied by the number of dwelling units.

CCF = 100 cubic feet. 1 CCF = 1 billing unit = 748 gallons

ET = reference evapotranspiration – from IRWD weather stations located in coastal, central or foothill zones for cool season turf

GPD = gallons per day

IU = Internal Use – assumes 50 GPD per person

LA = irrigated landscape acres

PF = plant factor. Adjusts ET based on plant needs relative to cool season turf and irrigation system efficiency requirements. The plant factor for potable irrigation is 0.75. For recycled water, the plant factor is 0.8

1.4.2 Water Budget Variances

Variances are available for larger than normal landscaped areas, more people living in the home or special medical needs. Applications for variances may be obtained from the District website <https://www.irwd.com/services/request-a-water-variance> or from Customer Service at (949) 453-5300. See IRWD Rules and Regulations, Section 12.6 for variance procedures.

1.4.2.1 Justifications for variances

Applicants must provide proof acceptable to the District to support any variance request.

- 1) Number of people residing in a residential dwelling unit
Each additional person increases the budget by 1.6 ccf/month which is IU x 0.8.
- 2) Landscape
Increased budgets shall be given for residential lot size beyond the standard base budget lot size.
Applicants must provide acceptable documentation to the District of the actual irrigated landscape area served.
- 3) Medical needs
Approval is contingent upon medical documentation.
- 4) Increased budget will be determined on a case-by-case basis and based on the type of medical need.
- 5) Licensed care facilities (in a residential dwelling unit)
A current license from appropriate regulatory agency will be required.
 - a. A licensed 24-hour care facility will be provided budget increases based on the IU x 0.8 for each additional resident.
 - b. A licensed day care facility (not 24-hour) will be provided budget increases based on the IU x 0.5 for each additional person.
- 6) Additional budget for medical reasons will be determined on a case-by-case basis.
- 7) Fire control zones
Adjustments to budgets will be determined by the District based upon relevant factors such as area, slope, planting material, etc.
- 8) Commercial/industrial/public authority
Adjustments to the base budget will be determined on a case-by-case basis. Relevant factors will include expansion of productive capacity, existing conservation practices that can be shown to have reduced water usage, severe economic hardship, etc.
- 9) New account establishment variance
Landscape accounts – billed at the base rate for the first six months and, beginning in the seventh month, the budget will be based on irrigated acres.
- 10) Commercial and industrial accounts – billed at the base rate on usage for the first six months and, beginning in the seventh month, the monthly budget will be based on unique business and site demands as determined by the District.

1.4.2.2 Variance limitations

- 1) An approved variance will become effective on the date the request for variance is approved by the District but must be submitted within thirty (30) days of receipt of the bill.
- 2) Approvals are valid for a period specified by the District (one year or less) and must be resubmitted on or before the expiration date to remain in effect.

1.4.2.3 Water budget variance impact

- 1) Residential
Approved variances will extend each tier of the residential structure by a percentage.
- 2) Non-residential
Approved variances will extend each tier of the non-residential structure by a given percentage (or other method) determined on a case-by-case basis.

1.5 Pumping Surcharges

- 1) A pumping surcharge will be added to the variable water usage charge for customers in locations that cause the District to incur additional pumping costs to supply their water. Customers are assigned to an area depending upon the average cost to pump water to serve their location.
- 2) The surcharge is based upon prevailing energy costs.

1.9 Water Shortage Contingency Plan (WSCP) Rates

The IRWD Board of Directors adopted an updated Water Shortage Contingency Plan (WSCP) in June 2021. The WSCP includes a “toolbox” of potential strategies for responding to 6 levels of water shortage.

Using WSCP as a guide and following Proposition 218’s requirements, rates were developed for each shortage level. These will be referred to as “WSCP rates” and have only been developed for the potable system commodity rates. They have no impact on the monthly fixed service water or sewer charges or on the recycled system.

The rates at each level are as follows.

<i>Tiers</i>	<i>WSCP Levels</i>					
	<i>Commodity Rates</i>					
	1	2	3	4	5	6
	Up to 10%	11-20%	21-30%	31-40%	41-50%	Over 51%
Low Volume	\$2.08	\$2.09	\$2.10	\$2.11	\$2.14	\$2.17
Base	\$2.78	\$2.87	\$2.93	\$3.05	\$3.26	\$3.50
Inefficient	\$7.49	\$7.61	\$7.67	\$7.46	\$7.88	\$8.82
Wasteful	\$19.42	\$20.25	\$21.20	\$22.53	\$24.96	\$28.36

These commodity rates provide cost of service equity for the budgeted Board-approved operating variable costs and additional costs incurred as a direct result of a water shortage declaration at the associated stage level. Implementation of WSCP rates would require additional Board action.

Section 2: Sewer

2.1 Monthly Sewer Service Charge

2.1.1 Residential (Single Family And Multi-Family Dwelling Units)

- 1) No credit will be granted for vacancies resulting from the normal turnover of occupants in an existing multiple dwelling unit. The price structure contained herein includes considerations of average vacancy rates.
- 2) A newly constructed multiple dwelling unit may be billed at the non-residential metered rate, with appropriate allowance for landscape irrigation, until the structure is released for occupancy.

2.1.1.1 Collection and treatment

- 1) The monthly sewage service charge is based upon the average of the actual lowest three months' water usage during the prior calendar year. Charges are based on a 30-day billing period.
- 2) Customers with less than a full calendar year of history are charged the 90% rate.

2.1.2 Non-Residential (Commercial, Industrial, and Institutional)

- 1) Quantity charges assume that 90% of non-residential water consumption returns to the sewer.
- 2) Due to landscape irrigation or consumptive usage, some non-residential users may discharge substantially less of their metered water into the sewer system. Those users may, upon request to the District, be permitted to have the amount of water being discharged into the sewer determined by means acceptable to the District.
- 3) To qualify for the sewage service charge only, a customer usage history cannot be greater than 120 ccf in a full calendar year based on actual meter readings. Usage exceeding 10.0 ccf per month will pay a quantity charge.
- 4) Upon request by the user and at the sole discretion of the District, an alternate service charge may be applied.
- 5) During construction, prior to occupancy, these rates are applicable.

The alternative service charge for use shall be computed by the following formula:

Charge for use = VRv + BRb + SRs

Where V = Total volume of flow in hundred cubic feet.

B = Total discharge of biochemical oxygen demand (BOD) in pounds.

3.2.2 Redevelopment Water Connection Fees

Redevelopment connection fees will be calculated using the following methodology.

- 1) Calculate new development connection fees based on new development land use type (and estimated water usage for high volume users, if applicable) utilizing current rates and charges.
- 2) Calculate existing development connection fee credit based on existing land use type (and existing water usage for high volume users, if applicable) utilizing current rates and charges.
- 3) The redevelopment connection fee is the difference between the new development connection fee and the connection fee credit. No refunds will be given if the credit is greater than the connection fee.

3.2.4 Meter/Service Modifications by District – Residential Only

3.2.4.1 Meter/Service Modifications

Customers may request the District to provide a quote for the following services:

- 1) Install, relocate, and abandon domestic and recycled water meters/service line up to 2-inch in size for residential projects.
- 2) Replace (downsize or upsize) domestic and recycled water meters/service line up to 2-inch in size for residential projects.

3.2.4.2 Quote request

To request an action listed above, the customer must submit a Quote Request for Service or Meter Modifications which can be obtained by contacting Development Services via email at plancheck@IRWD.com. District staff will prepare a cost estimate to include the individual meter as shown in Subsection 3.2.3 and any additional parts required for project and labor required for installation. District meter quotes are valid for 30 days.

- 1) A connection fee will apply for any previously undeveloped parcel (See section 3.1).
- 2) When payment is received, a work order will be issued to District staff to begin coordination and installation.
- 3) Easements will be required for any facilities located outside of the public right of way.

3.2.4.3 Additional requirements:

- 1) It is the customer's responsibility to ensure that any upsizing or downsizing of the meter will not have adverse effects to the customer's system as it relates to water pressure, fire protection or ability to successfully serve the demand of the home or business. The District may require OCFA approval of any modifications and/or a signed Request & Authorization to Change Meter Size form.
- 2) Any private-side (downstream of the water meter) modifications or repairs are the sole responsibility of the customer. Any required backflow device shall be installed and maintained by the customer.
- 3) If for any reason the customer chooses to change back to the original size meter, all installation costs would once again apply.
- 4) The District reserves the right to decline a customer's request for meter/service modifications for any reason. In the event the District declines to perform modifications, the requester is required to follow the formal plan approval process by submitting design plans to Development Services.
- 5) The District will not provide quotes for non-residential projects.
- 6) For further information, see Development Services Procedural Guidelines document which can be found at <https://www.irwd.com/doing-business/engineering>.
