

**Public Comment Submitted to the Irvine Ranch Water District  
on the Composition of Possible Divisions  
August 15 – October 15, 2018**

<b>Author</b>	<b>Comment Submitted</b>
Zeke Hernandez on behalf of California LULAC/Santa Ana LULAC Council #147	This districting plan provides an opportunity for a Latino candidate to be elected to the IRWD board because the northeast area of the District that has a strong Latino voting block is not splintered.

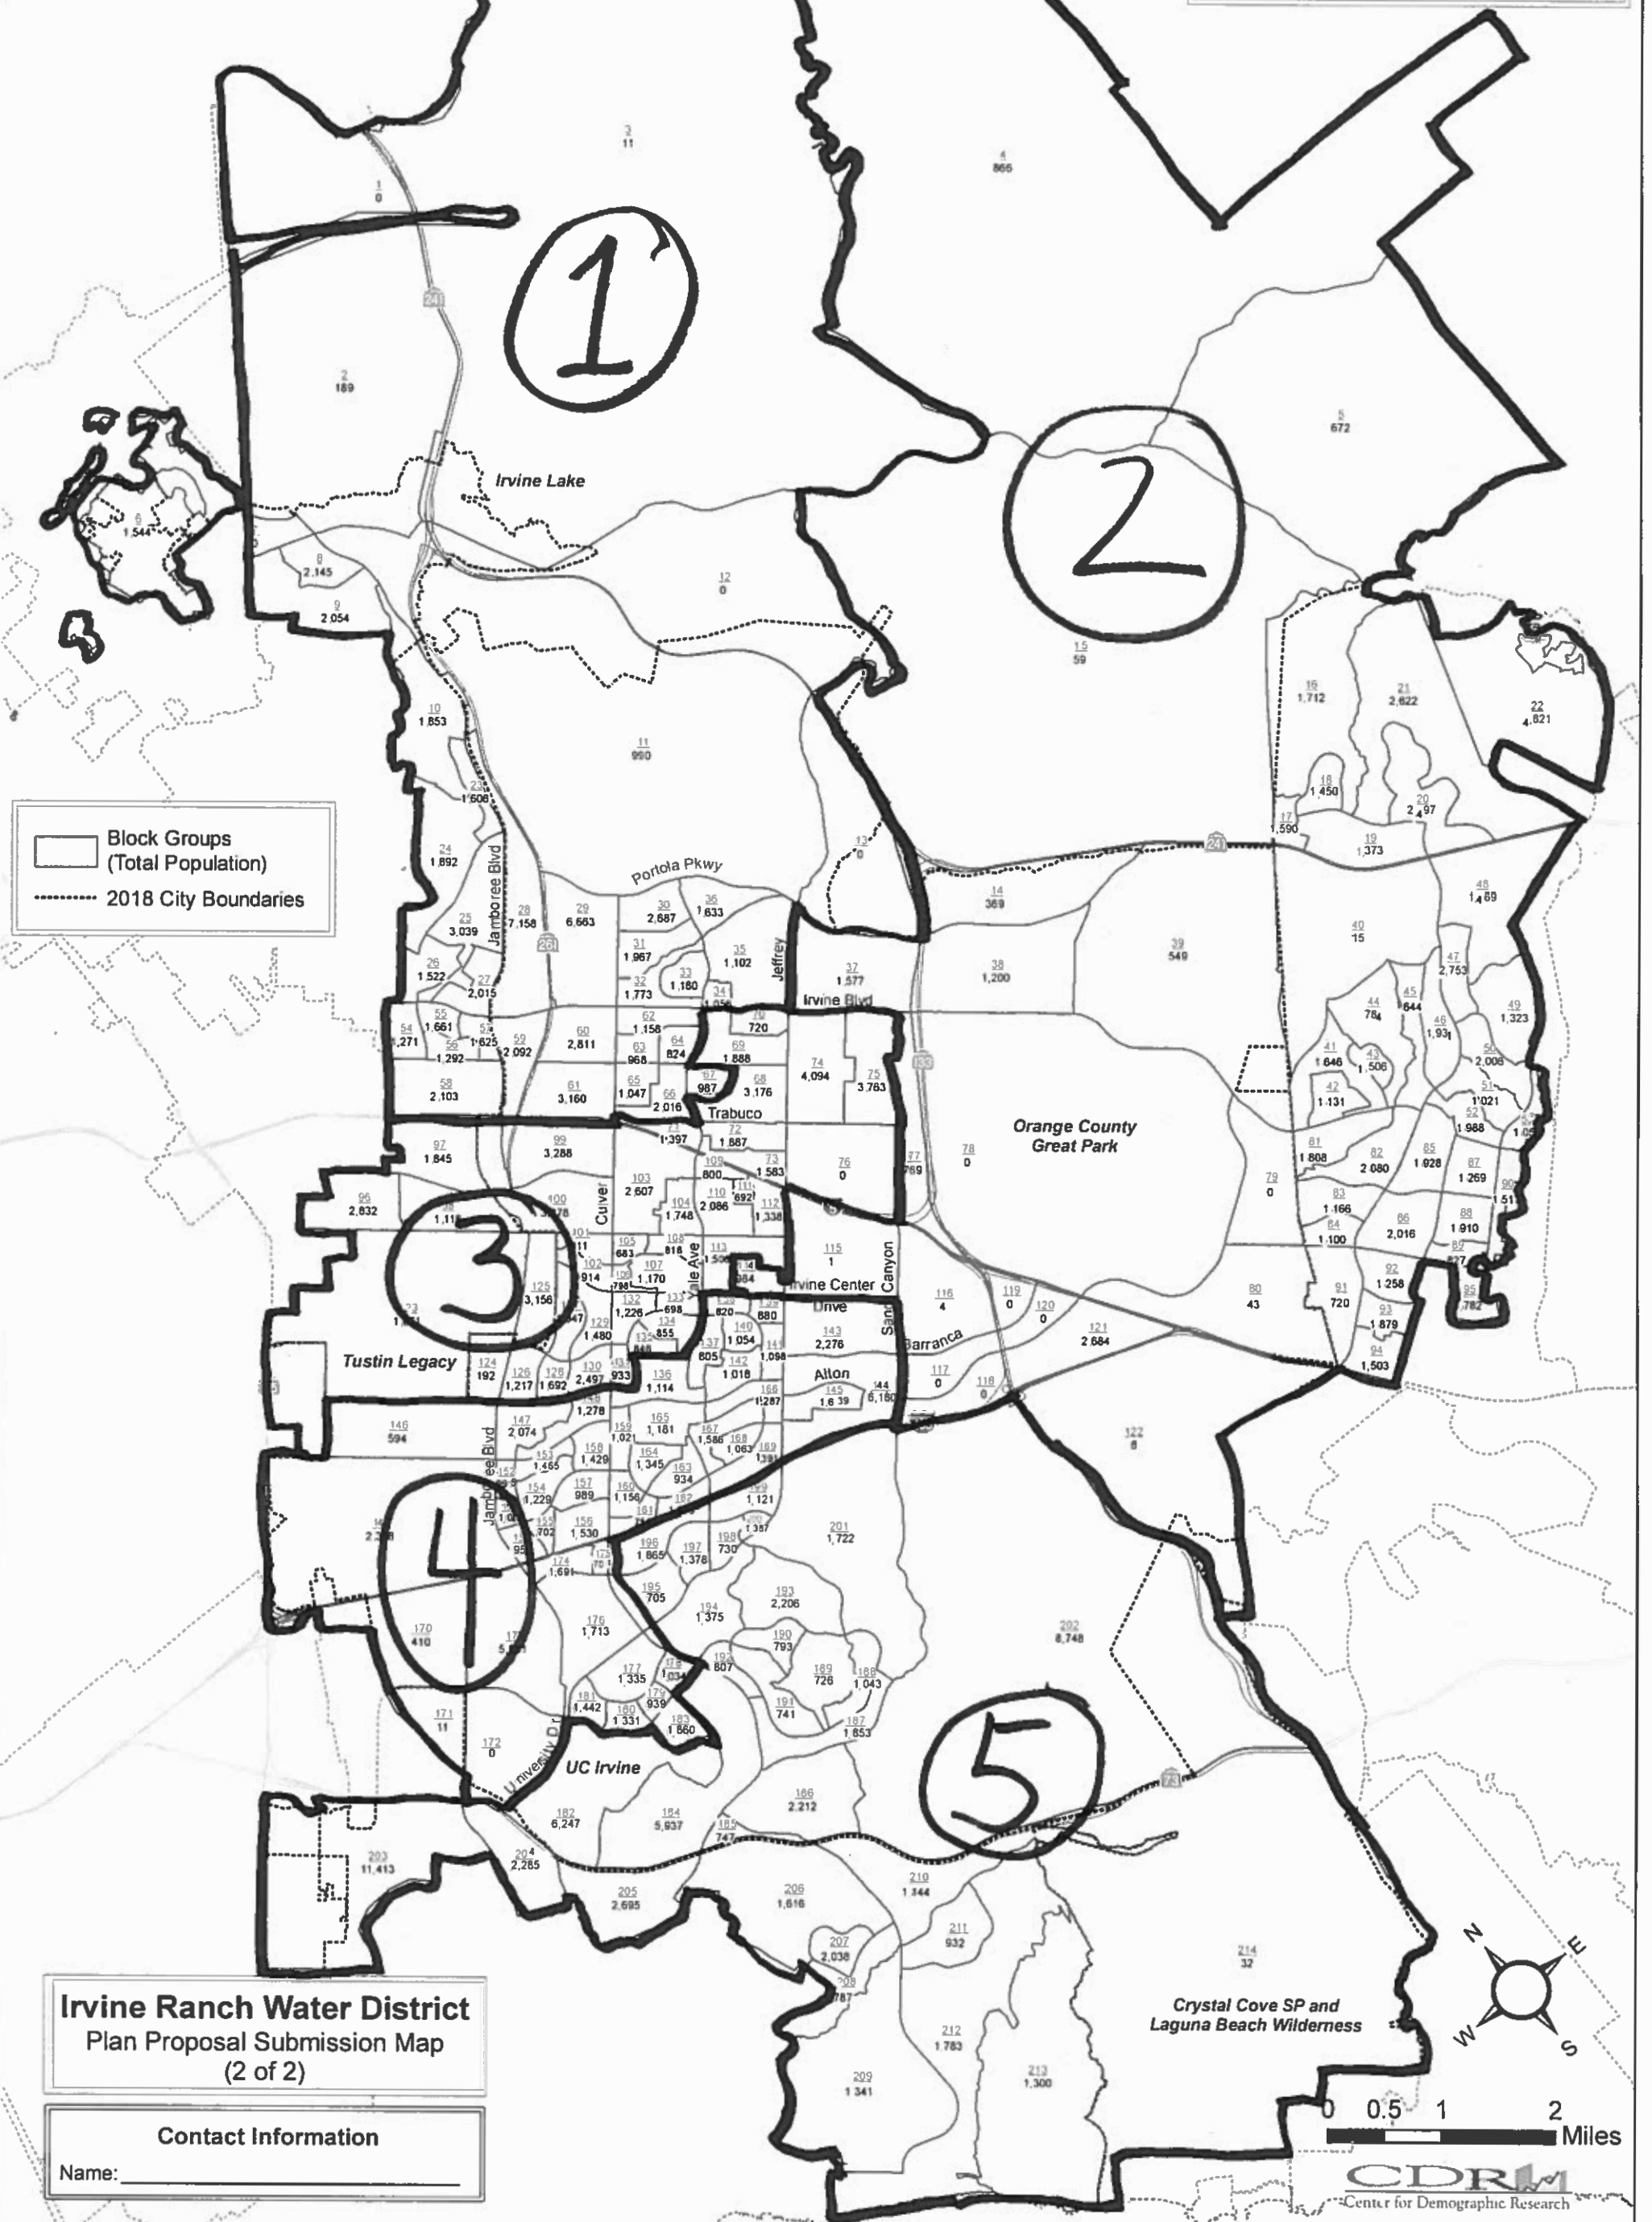

Create five divisions with as nearly equal populations as possible. The goal is to have approximately 67,430 people for each division. Generally, each division's population should approximately be between 64,059 and 70,802 people. You may use a thick, black or blue marker to draw the proposed division boundaries on the map.

Submissions may be sent to:  
Leslie Bonkowski, District Secretary
