IRVINE RANCH WATER DISTRICT

CALL FOR SPECIAL FINANCE AND PERSONNEL COMMITTEE MEETING BY CHAIRMAN

A Special Finance and Personnel Committee Meeting of the Irvine Ranch Water District is hereby called to be held on March 22, 2023, at the hour of 11:30 a.m. of said day at the principal office of the District, 15600 Sand Canyon Avenue, Irvine, California, for the purposes as set forth in Exhibit "A" attached hereto and by this reference made a part hereof.

The Secretary of the Irvine Ranch Water District is hereby authorized and directed to give notice of said Special Meeting to all persons entitled to notice in accordance with the Bylaws of this District and the Provisions of Section 54956 of the California Government Code.

Dated this 22nd day of March 2023.

Seven E. L. Mm

Steve LaMar, Vice Chairman Irvine Ranch Water District

AGENDA IRVINE RANCH WATER DISTRICT SPECIAL FINANCE AND PERSONNEL COMMITTEE MEETING MARCH 22, 2023

This meeting will be held in-person at the District's headquarters located at 15600 Sand Canyon Avenue, Irvine California. The meeting will also be broadcasted via Webex for those wanting to observe the meeting virtually.

To observe the meeting virtually, please join online using the link and information below:

Via Web: <u>https://irwd.webex.com/irwd/j.php?MTID=mc4129f5b5ccd6d8424071125fd431f26</u> Meeting Number: 2494 714 5526 Password: FkkWimnS453

As courtesy to the other participants, please mute your phone when you are not speaking.

PLEASE NOTE: Participants joining the meeting will be placed onto the Webex lobby when the Committee enters closed session. Participants who remain in the "lobby" will automatically be returned to the open session of the Committee once the closed session has concluded. Participants who join the meeting while the Committee is in closed session will receive a notice that the meeting has been has been locked. They will be able to join the meeting once the closed session has concluded.

CALL TO ORDER	11:30 a.m., Board Room, 15600 Sand Canyon Ave			
<u>ATTENDANCE</u>	Vice Chair: Steve LaMa	r	Alt. Member: Doug	Reinhart
<u>ALSO PRESENT</u>	Paul CookWendy ChambersPaul WeghorstLance KaneshiroChristopher SmithsonJennifer Davis		Cheryl Clary Kevin Burton Kent Morris Tiffany Mitcham Eileen Lin Tiffany Mitcham	

PUBLIC COMMENT NOTICE

If you wish to address the Committee on any item, please submit a request to speak via the "chat" feature available when joining the meeting virtually. Remarks are limited to three minutes per speaker on each subject. You may also submit a public comment in advance of the meeting by emailing comments@irwd.com before 5:00 p.m. on Tuesday, March 22, 2023.

COMMUNICATIONS

- 1. Notes: Clary
- 2. Public Comments
- 3. Determine the need to discuss and/or take action on item(s) introduced, which came to the attention of the District subsequent to the agenda being posted.
- 4. Determine which items may be approved without discussion.

ACTION

5. <u>DETAILED REVIEW OF FISCAL YEAR 2023-24 AND 2024-25 OPERATING</u> <u>BUDGET AND PROPOSED RATES AND CHARGES – LI / PARDEE /</u> <u>SMITHSON / CLARY</u>

Recommendation: That the Committee review and provide feedback on the proposed FY 2023-24 and FY 2024-25 Operating and Non-Operating Budgets and proposed rates and charges for further review at the Finance and Personnel Committee meeting on April 4, 2023 and at both Board Workshops on April 10, 2023 and April 24, 2023.

OTHER BUSINESS

- 6. Directors' Comments
- 7. Adjournment

Availability of agenda materials: Agenda exhibits and other writings that are disclosable public records distributed to all or a majority of the members of the above-named Committee in connection with a matter subject to discussion or consideration at an open meeting of the Committee are available for public inspection in the District's office, 15600 Sand Canyon Avenue, Irvine, California ("District Office"). If such writings are distributed to members of the Committee less than 72 hours prior to the meeting, they will be available from the District Secretary of the District Office at the same time as they are distributed to Committee Members, except that if such writings are distributed one hour prior to, or during, the meeting, they will be available electronically via the Webex meeting noted. Upon request, the District will provide for written agenda materials in appropriate alternative formats, and reasonable disability-related modification or accommodation to enable individuals with disabilities to participate in and provide comments at public meetings. Please submit a request, including your name, phone number and/or email address, and a description of the modification, accommodation, or alternative format requested at least two days before the meeting. Requests should be emailed to comments@irwd.com. Requests made by mail must be received at least two days before the meeting. Requests will be granted whenever possible and resolved in favor of accessibility.

Note: This page is intentionally left blank.

March 22, 2023 Prepared by: V. Li / D. Pardee / C. Smithson Submitted by: C. Clary Approved by: Paul A. Cook

SPECIAL FINANCE AND PERSONNEL COMMITTEE

DETAILED REVIEW OF FISCAL YEARS 2023-24 AND 2024-25 OPERATING AND NON-OPERATING BUDGET AND PROPOSED RATES AND CHARGES

SUMMARY:

IRWD is in the process of developing Operating and Non-Operating Budgets for the Fiscal Year (FY) 2023-24 and FY 2024-25. The proposed FY 2023-24 net Operating Budget is \$220.7 million, representing an increase of \$32.9 million or 17.5% over the prior year. The proposed FY 2024-25 net Operating Budget is \$234.5 million, representing an increase of \$13.8 million or 6.3% over FY 2023-24. The net Non-Operating proposed budget for FY 2023-24 is \$91.3 million, representing an increase of \$7.2 million or 8.5% over the prior year. The Non-Operating proposed budget for FY 2024-25 is \$91.4 million representing an increase of \$0.1 million or 0.1% over FY 2023-24.

The District is in the process of developing rates based on the proposed Operating Budgets. Proposed rate increases will be necessary to provide for cost-of-service equity. The proposed rates will be based on the 2021 Cost of Service study. The methodology used to set rates in FY 2023-24 and FY 2024-25 is consistent with the methodology included in the 2021 rate study.

BACKGROUND:

Operating Budget Development Process:

The proposed Operating Budgets, provided as Exhibit "A", are organized into eight major functional areas, plus separate sections for proposed general plant purchases and labor changes:

- Assumptions;
- Consolidated Operating Budget;
- Net Income by System;
- Non-operating Net Income;
- Current and Proposed Residential Rates;
- Budgeted Revenue Summary by System;
- Budgeted Cost of Water by System;
- Individual tabs with Major Goals, Proposed Organization Chart and Expense Budget by Department;
- General Plant; and
- Summary of Labor and Proposed Changes.

Special Finance and Personnel Committee: Detailed Review of Fiscal Years 2023-24 and 2024-25 Operating and Non-Operating Budget and Proposed Rates and Charges March 22, 2023 Page 2

Revenues and Expenses are provided for the following Systems:

- Potable;
- Sewer;
- Recycled; and
- Conservation and NTS.

The goal of IRWD's budgeting process is to appropriately fund the resources required in order to provide excellent service to its customers as safely and cost-efficiently as possible. IRWD continues to aggressively pursue reductions in expenses to offset uncontrollable expenses such as pass-through rate increases from outside agencies on which the District depends, such as for the purchase of water and energy. Key budget assumptions are listed at the beginning of the draft Budget Book. The proposed budgets reflect the full cost of operating the Baker Water Treatment Plant in the individual budget line items with the reimbursement to IRWD for 76% of the operating expenses by the Baker Plant partners shown as a "reimbursement from Baker Partners" below.

(in millions)	Vari	ance		
Primary Drivers	FY 2022-23 vs. 2023-24	FY 2023-24 vs. 2024-25		
Increase in regular labor:				
- COLA	\$8.2	\$3.2		
- Promotions/upgrades/merit	\$0.2	\$ 3. 2		
- Proposed additions				
Increase in Overtime Labor	1.1	0.1		
Decrease/Increase in employee benefits:	(1,2)	2.2		
- PERS and health insurance	(1.2)	<i>∠.∠</i>		
Increase in cost of water:	7.5	3.5		
- Pass through rate increases anticipated	1.5	5.5		
Increase in electricity	9.0	2.4		
- Pass through rate increases anticipated	8.0	2.4		
Chemicals	27	0.4		
- Pass through rate increases anticipated	3.7	0.4		
Increase in IRWD repairs and maintenance	1.9	1.3		
Decrease in legal fees	(0.1)	(0.5)		
Increase in other professional fees	1.7	0.1		
Increase in biosolids disposal	0.7	0.0		
Other net changes less than \$0.5 million	1.4	1.1		
Total proposed budget increases:	\$32.9	\$13.8		

The proposed changes over last year's budget are driven primarily by the following:

Special Finance and Personnel Committee: Detailed Review of Fiscal Years 2023-24 and 2024-25 Operating and Non-Operating Budget and Proposed Rates and Charges March 22, 2023 Page 3

Changes from the preliminary budget reviewed at the March 7, 2023 Finance and Personnel Committee meeting include updates to labor and benefits, electrical and purchased water costs.

Non-Operating Budget Process:

Net Non-Operating income for the FY 2023-24 budget is \$91.3 million, which is an increase of \$7.2 million from the previous FY 2022-23 budget. The primary increase is due to investment income from higher investment earning rates as well as higher property taxes. These are partially offset by higher expected interest expense on the District's variable rate debt.

Net Non-Operating income for the FY 2024-25 budget is \$91.4 million. The increase from the FY 2023-24 budget is driven primarily by higher expected property taxes, partially offset by less anticipated investment income due to lower cash balances.

IRWD Rate-setting Process:

The District is in the process of developing rates based on the proposed Operating Budgets. Proposed rate increases are necessary to provide for cost-of-service equity. The methodology used to develop rates in FY 2023-24 and FY 2024-25 is consistent with the methodology included in the 2021 rate study.

For a typical IRWD residential customer, the calculated rates would increase by \$8.86 per month or 15.9% for FY 2023-24 and \$3.05 per month or 4.7% for FY 2024-25. Staff recommends using the Rate Stabilization Fund to mitigate and even out both year rate increases. Following the Finance & Personnel Committee's recommendations from its March 7, 2023 meeting, proposed increases remain below 10% for each fiscal year for the typical residential customer. Assuming average residential usage, this would result in a use of approximately \$8.5 million from the rate stabilization fund. Exhibit "A" (page A-7) shows the impact of the rates for a typical residential customer compared to the current billing rates.

For FY 2023-24, staff recommends an increase of \$0.22 per hundred cubic feet (ccf) for low volume and \$0.10 per ccf for the base rate. The budget assumes an increase of \$84 per AF (or 15.6%) to the Replenishment Assessment from OCWD, which is the sole source of water for the low-volume tier and provides for a significant portion of the water used in the base rate. The monthly service charges include an increase to the replacement contribution that averages 11% per year for each system. The monthly water fixed service charge is proposed to increase \$1.10 per month from \$10.75 to \$11.85. Staff recommends a \$2.65 increase in the monthly sewer service charge. Based upon an average residential usage of 12 ccf per month, the recommended change will result in an expected rate increase to the average residential customer of \$5.55 or 9.9% from \$55.79 to \$61.34 per month.

For FY 2024-25, staff recommends an increase of \$0.24 per ccf for low volume and \$0.13 per ccf for the base rate. The budget assumes a \$41 or 6.6% per AF increase in the groundwater Replenishment Assessment from OCWD which, as mentioned above, is the sole source of water for the low volume tier and provides for a significant portion of the water used in the base rate. There is a \$1.40 increase recommended for the monthly water fixed service charge and a \$2.55

Special Finance and Personnel Committee: Detailed Review of Fiscal Years 2023-24 and 2024-25 Operating and Non-Operating Budget and Proposed Rates and Charges March 22, 2023 Page 4

increase to the monthly sewer service charge. Based upon an average residential usage of 12 ccf per month, the recommended change will result in an expected rate increase to the average residential customer of \$6.06 or 9.9%, from \$61.34 to \$67.40 per month.

The proposed rates are detailed in the Key Assumptions and Summary Section of Exhibit "A". Staff will present a PowerPoint to discuss the methodology for allocating costs to the tiered rates consistent with Proposition 218 requirements at the Finance and Personnel Committee meeting on March 22, 2023. At this meeting, IRWD's departmental directors will answer any questions related to their detailed budgets. Staff recommends the Committee review and provide comments on the updated proposed Operating and Non-Operating Budget and rates for further review by the Committee at its April 4, 2023 meeting where staff will also present Water Shortage Contingency Plan rates.

FISCAL IMPACTS:

The fiscal impacts associated with the proposed operating and non-operating budgets for FY 2023-24 and FY 2024-25 are as described above.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Committee review and provide feedback on the proposed FY 2023-24 and FY 2024-25 Operating and Non-Operating Budgets and proposed rates and charges for further review at the Finance and Personnel Committee meeting on April 4, 2023 and at both Board Workshops on April 10, 2023 and April 24, 2023.

LIST OF EXHIBITS:

Exhibit "A" – Proposed Operating Budgets for FY 2023-24 and FY 2024-25

IRVINE RANCH WATER DISTRICT OPERATING BUDGET FISCAL YEAR 2023-24 and 2024-25

"DRAFT"

March 22, 2023

Special Finance and Personnel Committee

Key Assumptions Fiscal Years 2023-24 and 2024-25

The goal of the District's budgeting process remains to fund the resources required to provide services to the District's customers as cost-efficiently as possible. The District aggressively pursues reductions in expenses to offset uncontrollable expenses such as pass-through rate increases from outside agencies on which the District depends for the purchase of water, electricity and the treatment of sewage. The District is in the process of developing rates based on the proposed Operating Budgets. Proposed rate increases will be necessary to provide cost of service equity.

This document is a summary of the major assumptions driving the development of the operating and non–operating budgets for FY 2023-24 and 2024-25.

I. OPERATING REVENUES

Growth Estimates:

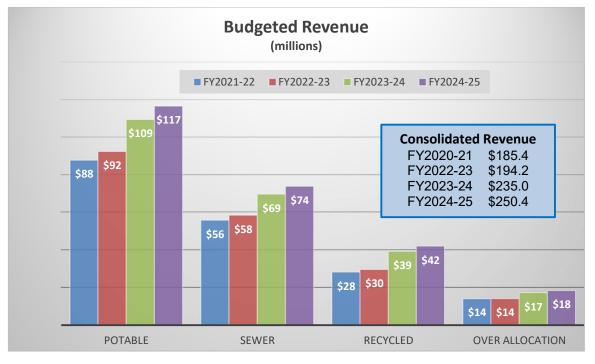

Residential development growth includes both apartments and single family homes for FY 2023-24 and 2024-25. The unit estimate is based on current projections received from major developers throughout the service area and have been adjusted to recognize changes from economic shifts. Estimates identify approximately 2,200 mixed units coming online in each year for FY 2023-24 and 2024-25. As a result, the growth factor is estimated at 2.0% for FY 2023-24 and 2024-25.

Development projections for the commercial/industrial sector identify 11 acres of development occurring in FY 2023-24 and 2024-25. Revenue assumptions used to estimate sewer revenue are consistent with the assumptions included for potable water.

Key Assumptions Fiscal Years 2023-24 and 2024-25

FY 2023-24 and 2024-25 Estimate for Operating Revenue Sources, by System (in millions):

Total Residential, Landscape, Commercial, and Industrial revenue constitute over 85% of the total operating revenues for both water and sewer.

II. OPERATING EXPENSES

Notable expected changes in operating expenses are addressed below by system and function:

A. <u>Water</u>

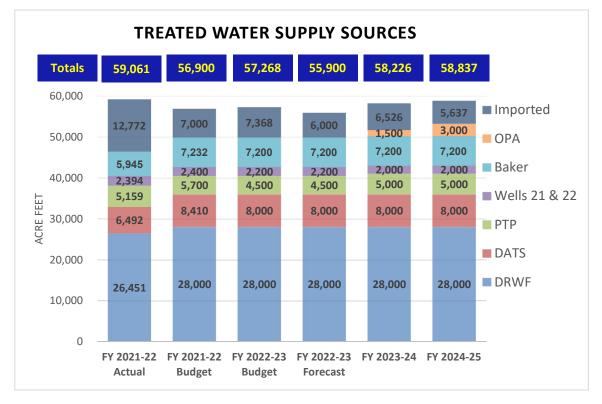

The District continues to make efforts in encouraging its customers to conserve. The District will continue to encourage conservation through use of a budgeted allocation. Customers continue to respond well to this messaging.

The FY 2023-24 and 2024-25 budget anticipates no significant change in use from FY 2020-21. The assumption is normal rainfall. The District is budgeting potable sales for FY 2023-24 and 2024-25 of 53,481 acre feet (AF) and 54,551 AF, respectively, compared to a budget of 53,294 AF and a forecast of 51,200 AF in FY 2022-23. The additional potable demand will be met with increased groundwater from the addition of the Orange Park Acres Well #1 (1,500 AF) and imported supply.

Key Assumptions Fiscal Years 2023-24 and 2024-25

The water sources, before process loss and shrinkage, used to meet potable sales are:

The cost for source of supply is one of the District's largest uncontrollable expenses. Groundwater provides over 48,000 acre feet and the District generates nearly 26,000 acre feet of recycled water with the remaining demand coming from imported supply or native water (rainfall and related runoff), as available. The table below identifies the various budgeted sources and associated costs.

	FY	FY	FY							
Source Cost per Acre Foot (AF)	2022-23	2023-24	2024-25							
Orange County Water District (OCWD) Replenishment Assessment (RA)										
Groundwater	\$540	\$624	\$665							
Metropolitan Water District (MWD)/MWDOC										
Imported Potable	\$1,166	\$1,257	\$1,308							
Imported Nonpotable	\$817	\$906	\$972							
Native Water	\$345	\$355	\$366							

Key Assumptions Fiscal Years 2023-24 and 2024-25

- RA will increase by 16.0% over budget (\$540) in FY 2023-24 and 6.6% in FY 2024-25. The District's basin production percentage (BPP) will increase from 70% to 85% for both fiscal years.
- Electricity rates have increased significantly over the prior year budgets. The FY 2023-24 rates were developed using 6 month actual rates which were 38.5% higher than the FY 2022-23 budget. Rate increases of 7.3% and 9.1% were applied for FY 2023-24 and FY 2024-25, respectively.
- MWD is expected to increase its treated and untreated rates on January 1, 2022 and again on January 1, 2023.
- Native water cost will increase annually by 3% based on the Irvine Lake Yield agreement.
- Staff assumes no substantial change to the costs associated with the IRWD Reservoir Management Systems.

B. Sewer and Biosolids

The MWRP Biosolids and Energy Recovery Facility was operational in July 2021. Costs associated with operating the facility are included in FY 2023-24 and 2024-25. The FY 2023-24 and 2024-25 budget assumes no solids handling expense for OC SAN.

C. Salaries and Benefits

Each year, staff prepares a labor budget based upon the total positions in the organization chart, expected merit and cost of living increases, and promotional allowances.

- Salary assumes an increase for merit and projected promotions.
- There are seven new positions budgeted in FY 2023-24 and five in FY 2024-25.
- Five positions were eliminated in FY 2023-24.
- In July of each year, a COLA and promotional factor are applied to salaries Assumed at 6.0% and 3.5%, respectively.
- Assumes a 6% vacancy factor.
- Paid time off (vacation and sick) is included in benefits.

The following table reflects salaries and wages included in each budget.

Regular Salaries and Wages (thousands)								
FY 2022-23	\$36,327*							
FY 2023-24	\$44,490							
FY 2024-25	\$47,653							
* Πισμορία ο ΦΑ Αυστίμου μαθία								

* Excludes \$1.4 million holiday expense.

The following table identifies the current and proposed contribution of the District toward employee benefits. The PERS contribution is based on the Board approved policy based on the 2020 draft Cost of Service Study. The required contribution is

Key Assumptions Fiscal Years 2023-24 and 2024-25

designated by PERS. The total contribution is reduced by a proportionate share of a three year average of Pension Trust Fund investment earnings. The proportionate share is based on the PERS's unfunded pension ratio. The PERS Contribution will be used to repay the Replacement Fund borrowing which funded the Pension Benefits Trust and will be repaid over a period of twenty years. The District anticipates funding a Section 115 Trust for Other Post Employment Benefits (OPEB) with an additional \$10 million borrowing from the replacement fund. Repayment of the loan will begin in FY 2025-26 when the unfunded accrued pension liability is expected to decrease.

Additional Contributions	Provided by	the District	
	FY	FY	FY
	2022-23	2023-24	2024-25
Required PERS Normal Cost	9.0%	8.9%	8.8%
PERS in Excess of ARC/UAL*	22.8%	19.2%	19.3%
Combined Total	31.8%	28.1%	28.1%
District Direct 401A Match	3.0%	3.0%	3.0%
401A Matching Contribution of 3%	2.8%	2.8%	2.8%
*UAL = Unfunded Accrued Actuarial L	iability		

III. USE OF OVER-ALLOCATION REVENUE

Over-allocation revenue is generated by customers in the inefficient and wasteful tiers. This revenue offsets the following expenses:

- The cost associated with additional imported water purchases;
- Customers who receive the \$2 low volume capacity rebate on the fixed service charge;
- Budgeted conservation expenses including operational expenses (customer service, fleet management, etc.);
- Urban runoff (NTS) and San Joaquin Marsh maintenance expenses;
- Capital projects that support conservation or maintain NTS facilities; and
- Water banking expenses.

IV. NON-OPERATING REVENUES AND EXPENSES

The District's non-operating revenues are related to income generated from sources other than user rates, which include property taxes, investment income, connection fees, and real estate. A portion of the non-operating revenues pay the debt service for debt issued by the District. Property taxes and connection fees help pay for new infrastructure. Some of the non-operating revenues contribute to the replacement fund, which is used to pay for the inevitable replacement of existing infrastructure. The District sets the replacement fund monies aside in advance to avoid significant potential future rate impacts. The non-operating revenues and expenses exclude non-cash items, fair value changes, and Pension Benefit Trust.

Key Assumptions Fiscal Years 2023-24 and 2024-25

A. <u>Revenues</u>

Primary assumptions for FY 2023-24 and 2024-25 for each of the revenue categories are as follows:

- Property taxes 4.0% and 4.0% growth, respectively, in projected assessed values.
- Investment income 3.6% and 3.9% average interest rate and an average cash balance of \$314.1 million and \$222.2 million, respectively.
- Connection fees Based on current projections received from major developers.
- Real estate income 8.0% and 3.0% growth on commercial and residential income, respectively. FY 2023-24 includes a full year of income from the Sand Canyon Professional Center building.
- Other income includes lease revenue and other miscellaneous revenue.

B. <u>Expenses</u>

Primary assumptions for FY 2023-24 and 2024-25 are as follows:

- Interest expense 3.7% average fixed debt rate for each fiscal year. 3.1% and 3.4% average variable debt rate, respectively; and
- Real estate expense 4.5% and 3.0% growth, respectively, excluding depreciation as real estate is based on fair market value.

GENERAL MANAGER'S OFFICE

OPERATING BUDGET SUMMARY

Program Description

The General Manager's Office implements the policies established and direction provided by the Board of Directors and, in so doing, provides overall direction to staff to complete that effort. The office also includes the Strategic Communications, Advocacy and Deputy General Counsel's Department. These divisions develop and advocate for policies at the federal, state and local levels that promote a reliable high quality and cost-effective water supply for Irvine Ranch Water District (IRWD) customers and demonstrate the efficient use of resources. The Advocacy and Communications staff represent IRWD's policies and provides technical expertise to the legislative process, particularly on issues of water recycling, water use efficiency, water rates, water supply reliability and governance, among others, and engage with community leaders, key stakeholders and groups on behalf of the District.

The General Manager's Office also:

- Provides direct services to and communications with the Board of Directors;
- Produces and distributes Board and Board Committee meeting packets;
- Schedules all Board and Board Committee, and annual/special independent corporation meetings;
- Produces the minutes of all Board meetings;
- Maintains all Board resolutions;
- Schedules other meetings and functions on behalf of the Board members and makes travel arrangements, as needed;
- Maintains records of all inter-agency agreements, deeds and easements;
- Maintains records for the various independent corporations;
- Shapes, guides and engages on local, state and federal policies, legislation and regulations;
- Manages and coordinates the legal resources utilized by the District;
- Responds to, or directs response to, all media inquiries; and,
- Responds to, or directs response to, all public information requests and subpoenas.

The General Manager's Office works with the Board of Directors and staff to establish the District's strategic vision for all departments. On January 31, 2023, staff reviewed the 2023 Goals and Target Activities with the Board. The Goals described below reflect the *Strategic Objectives*, as well as the *Mission, Vision and Values* of Irvine Ranch Water District as adopted by the Board. The District's Major Goals for calendar year 2023 are summarized as follows:

GENERAL MANAGER'S OFFICE

OPERATING BUDGET SUMMARY

Major Goals

- 1. Optimize and protect IRWD's local groundwater utilization.
- 2. Optimize use of Irvine Lake as a water resource facility for IRWD and its current and future partners.
- 3. Develop water recycling facilities and applications for optimal benefit.
- 4. Maximize resource recovery from fully functional biosolids and other resource recovery facilities.
- 5. Develop and implement maintenance and replacement programs and other systems that enhance safety, sustained operations at the District's facilities.
- 6. Improve energy service reliability, manage demands, control greenhouse gas emissions, and control costs.
- 7. Implement opportunities that enhance safety, security, and emergency preparedness throughout the District.
- 8. Maximize water use efficiency in the community.
- 9. Maximize watershed protection.
- 10. Evaluate and invest in projects and programs that will enhance future long-term water supply reliability and resiliency to climate change.
- 11. Develop water banking supplies for IRWD by working with current and future partners.
- 12. Develop and implement the Kern Fan Groundwater Storage Project through the Groundwater Banking Joint Powers Authority.
- 13. Ensure financial and rate stability.
- 14. Identify, assess, and implement new technologies, systems, and facilities to improve operating efficiency.
- 15. Recruit, develop, and retain a highly skilled, motivated, and educated work force.

GENERAL MANAGER'S OFFICE

OPERATING BUDGET SUMMARY

- 16. Collaborate with other agencies and entities through leadership and innovation.
- 17. Enhance customer communications and community outreach.
- 18. Guide and lead local, state, and federal policies and legislation.
- 19. Influence new policies and regulations put forth by local, state, and federal agencies.

COMMUNICATIONS

OPERATING BUDGET SUMMARY

Program Description

The Strategic Communications and Advocacy Department, which is within the General Manager's Office, is responsible for the Districts communications, advocacy, community relations and legal services. The Communications division of that department is responsible for communicating accurate and timely information about Irvine Ranch Water District services, projects, activities and programs, and for promoting the District's water use efficiency initiatives. Communications uses multiple platforms, including websites, print, social media, video, personal contact, education programs, publications, and tours.

The IRWD communication program serves the District and its customers by:

- Creating and maintain credibility and public trust;
- Increasing customer awareness of the services IRWD provides;
- Promoting the District's value, activities and events of significance;
- Conveying accurate, timely information to the public on sensitive and controversial issues;
- Promoting transparency and easy-to-access information.

<u>Major Goals</u>

WATER EFFICIENCY OUTREACH

- Develop and implement an overarching message to educate customers about water efficiency;
- Reach customers about the beauty of water-efficient landscape and IRWD rebates;
- Enhance water efficiency webinars to make content engaging and useful on multiple platforms;
- Promote water efficiency events to reach more customers, and those who haven't participated;
- Educate the public about the value or recycled water and storage reservoirs;
- Provide students in the IRWD service area with learning opportunities regarding water supply, water reliability, tap water, and water use efficiency programs. Promote water education programs to schools in the IRWD service area;
- Conduct outreach to customers who regularly exceed their monthly water budget; and
- Teach customers how to save water and money by understanding their water bill.

CUSTOMER OUTREACH

- Conduct tours and programs to educate customers;
- Through transparency and education, assure customers of the quality of IRWD water;
- Develop educational displays for District facilities;

COMMUNICATIONS

OPERATING BUDGET SUMMARY

- Continue to create, update and refine multi-pronged social media outreach channels to inform IRWD customers, the media, business partners, IRWD employees and other government entities;
- Refine and execute tap water quality programs and infrastructure outreach programs;
- Enhance public trust by promoting customer service and answering customer questions;
- Enhance communications with customers regarding construction and maintenance projects;
- Enhance public trust and employee safety by helping customers access IRWD customer service remotely; and
- Provide enhanced customer outreach initiatives based on customer feedback programs.

INTERNAL COMMUNICATIONS

• Improve employee communication by expanding the usefulness of the intranet and other tools to communicate with staff.

SAFETY

OPERATING BUDGET SUMMARY

Program Description

The mission of the Safety & Security Department is to administer the Safety, Security, and Emergency Preparedness Programs that supports the District's efforts to provide a safe and secure work environment for employees. The Safety & Security Department administers training, develops, maintains, and updates Health & Safety Programs (HSPs), supports incident investigations by capturing pertinent data for analysis, coordinates emergency preparedness activities such as training and exercises, submits regulatory reports, and provides safety expertise and advice.

<u>Major Goals</u>

- Meet the Department's adopted Safety & Security budget;
- Continue to enhance and provide safety training and learning opportunities for all levels of staff;
- Implement customized supervisor leadership training to enhance individual and team safety performance;
- Continue to encourage near miss, good catch, and safety suggestion reporting to promote employee involvement and contribution toward a safe work environment;
- Develop a safety rewards system to recognize those that go above and beyond the call to safety by consistently demonstrating the Safety Value;
- Continue to review and update existing Safe Work Practices (SWPs) and reformat to Health & Safety Programs (HSPs) with input from stakeholders;
- Re-establish the General Safety Committee for members to participate, share information, and promote safety within their respective sections and departments;
- Conduct emergency preparedness training and exercises in line with the Multi-Year Training & Exercise Plan (MYTEP).
- Review and update emergency preparedness procedures, including the Emergency Operations Plan (EOP) and Hazard Specific Response Plans (HSRPs) based on the results of training, exercises, and events where improvements are necessary;
- Implement a mass notification system to communicate with employees and customers of an emergency and test the system periodically; and
- Continue to ensure the security of District facilities by reviewing facility access controls, determining appropriate level of video surveillance, or other methods to maintain the integrity of District operations.

HUMAN RESOURCES

OPERATING BUDGET SUMMARY

Program Description

The Human Resources function provides comprehensive organizational development and personnel management services to maximize the potential of the District's human resources and overall employee efficiency, effectiveness, and satisfaction. The Human Resources Department is responsible for attracting and recruiting a highly qualified workforce and working with management to attract, develop and sustain a motivated, productive organization.

Human Resources ensures the delivery of a competitive compensation and benefits package, continuous improvement through employee training, and an ongoing employee reward and recognition program tied to achieving stated goals and objectives. The Department also manages employee leaves and the accommodation process; provides guidance to staff; oversees the DMV pull notice and drug and alcohol testing programs, equal employment opportunity program reporting; and ensures compliance with State and Federal employment mandates. The Department is responsible for employee and labor relations, which includes contract negotiations, interpretation, and implementation of the Memoranda of Understanding (MOUs), policies, procedures, and guidelines. Human Resources also acquires and maintains insurance for the District and oversees contract administration, risk management claims, and the workers' compensation program.

<u>Major Goals</u>

HUMAN RESOURCES

- Partner with management to assess the training and development needs of IRWD employees;
- Engage with other Orange County public agencies, and pursue other workforce development efforts to ensure a continued supply of highly skilled labor; and
- Evaluate District Policies and Procedures.

CONTRACT ADMINISTRATION/RISK MANAGEMENT/INSURANCE

- Ensure the District has adequate insurance to safeguard assets appropriately;
- Manage the personal injury, workers' compensation, and property claims and coordinate legal matters in a timely manner; and
- Assist with contract administration ensuring adequate insurance coverage language is incorporated into contracts to protect the District's interests.

FINANCE, TREASURY AND PROCUREMENT

OPERATING BUDGET SUMMARY

Program Description

The Finance Department is responsible for ensuring the financial and rate stability of the District. This includes developing rates and fees that support the long-term sustainability of the District. Finance maintains the official accounting records of the Irvine Ranch Water District and provides financial management of the District's income and real estate investments, new and existing debt issues, and deferred compensation and Pension/Post Employment (OPEB) Benefit Trust plans. The department provides a wide range of accounting and financial services including payroll, accounts payable, accounts receivable, project accounting, financial analysis, financial reporting, coordination of the District's biennial operating budget and preparation of the Annual Comprehensive Financial Report (ACFR).

The mission of the Finance Department is to safeguard assets and provide financial and accounting services in a timely, reliable, and cost-effective manner that meet the requirements of the District's internal and external customers.

<u>Major Goals</u>

ACCOUNTING AND BUDGETING

- Prepare and submit accurate financial reports and relevant tax returns to federal, state, county and district agencies within established legal deadlines and requirements;
- Prepare and submit accurate and timely financial reports to the Finance and Personnel Committee and the District's Board of Directors;
- Coordinate the District's annual financial statement audit;
- Prepare the annual ACFR;
- Prepare the Operating Budgets for Board of Director approval including setting adequate rates to ensure long-term financial strength and stability;
- Ensure user rates are proportional with costs of service and support the current rate structure;
- Lead customer noticing effort for Proposition 218 compliance (operating budget, rates and charges);
- Ensure all payments and payroll checks are accurate and timely;
- Transition vendors to electronic payments as appropriate; and,
- Identify and implement enhanced financial reporting and business intelligence capabilities.

LONG-TERM FINANCIAL PLANNING

- Continue to refine and update the cash flow strategic model to ensure sufficient funding for future capital needs;
- Provide analytical support and analysis to Finance, other departments and outside constituents as requested; and,
- Provide financial modeling for acquisition, financing, construction of major projects and other projects as requested.

FINANCE, TREASURY AND PROCUREMENT

OPERATING BUDGET SUMMARY

INVESTMENTS AND CASH MANAGEMENT

- Invest District funds in a prudent and professional manner that will provide maximum security of principal, sufficient liquidity to meet working capital requirements and an optimal rate of return;
- Prepare accurate investment reports and the annual investment policy for the Board of Directors and other interested parties within established time frames; and,
- Maintain and enhance short and long-term cash flow models and cash management practices.

REAL ESTATE

- Monitor and report on the performance of all real estate investment assets;
- Manage leasing and related property management activities for all District commercial and residential real estate investments;
- Evaluate development and disposition opportunities of other District properties;
- Assist with acquisition and agricultural leasing activities related to water supply reliability properties; and,
- Resolve outstanding deed, access and other contractual restrictions related to real property.

DEBT ISSUANCE AND ADMINISTRATION

- Issue long-term debt to fund capital projects as needed, and evaluate and recommend alternative opportunities for current District debt issues when appropriate;
- Manage District letters of credit supporting variable rate debt; evaluate new credit support opportunities when appropriate;
- Prepare and submit required continuing disclosure materials for District debt issues to appropriate parties;
- Manage variable rate debt portfolio including periodic remarketings, monitoring remarketing agents of District debt and making adjustments as appropriate; and,
- Execute, manage and report on interest rate swap positions and transactions as appropriate.

PENSION/DEFERRED COMPENSATION

- Maintain and invest Pension Benefits and OPEB Trust assets and report portfolio performance and recommendations to the Retirement Board;
- Evaluate and monitor Trust Advisor performance; recommend changes in advisory services as appropriate; review additional opportunities to optimize Pension and OPEB Benefits Trust performance; and,
- Oversee investment performance, reporting and employee education activities related to the District's deferred compensation plans.

PURCHASING

- Purchase materials, supplies and services in a timely manner with appropriate consideration given to quality and best pricing;
- Process all material/service requests timely and efficiently;
- Optimize Maximo system; maintain appropriate warehouse inventory and review/adjust slow

FINANCE, TREASURY AND PROCUREMENT

OPERATING BUDGET SUMMARY

moving inventory;

- Streamline business procurement processes and documentation while ensuring appropriate controls on all warehouses;
- Assist with facilitating the design and construction of warehouse expansion space;
- Lead the District record retention efforts;
- Provide ongoing customer support for procurement and inventory systems; and,
- Evaluate and expand participation in cooperative purchasing agreements as appropriate.

CUSTOMER SERVICE

OPERATING BUDGET SUMMARY

Program Description

The mission of the Customer Service Department is to provide exceptional customer satisfaction by providing reliable, courteous and efficient service. The Customer Service Department provides utility billing, account support, meter readings and mail distribution services.

<u>Major Goals</u>

CUSTOMER SERVICE

- Deliver exceptional customer service both internally and externally;
- Coordinate and process all meter reads to ensure accurate billing;
- Provide customers with an accurate bill that is easy to read;
- Review and resolve billing inquiries and adjustments in a timely manner including education of customers on water budgets;
- Receive and process all orders for new service and discontinuation of service;
- Enhance customer communication and payment options through an improved customer web access portal;
- Process new meter applications;
- Process payments for temporary construction meters, fire flow tests, and customer water bills;
- Process variance requests for additional water budgets;
- Respond to field problems (leaks, no water complaints, high/low pressure, water quality, sewer problems, line breaks, etc.) with a sense of urgency;
- Manage delinquent customer accounts and perform shut-offs as required;
- Distribute customer satisfaction surveys and maintain 90% customer satisfaction;
- Remain compliant with all State, Local and Federal laws pertaining to utility billing;
- Ensure that customers have an accurate understanding of the IRWD rate structure;
- Maintain accurate customer data to ensure timely billing and notification;
- Support all District staff through accurate and efficient mail processing and delivery; and,
- Provide Receptionist support to all incoming callers and visitors to the Sand Canyon Offices.

INFORMATION SERVICES

OPERATING BUDGET SUMMARY

Program Description

The mission of the Information Services Department is to research, develop, integrate and operate reliable, secure, innovative and cost-effective information systems that enable the District to achieve its current and future business requirements and provide a high level of customer satisfaction. The Information Services Department provides implementation, management and support for the District's information systems, cybersecurity program, and voice and data communications systems.

<u>Major Goals</u>

INFORMATION SERVICES

- Implement, manage and maintain IRWD's IT Strategic Plan;
- Facilitate IT Governance for IT activities across the District;
- Provide values-driven, professional and timely IT services to all District staff;
- Ensure District IT assets, including network, applications and data, are maintained to current cybersecurity standards;
- Provide software products and related user support and training for District staff that enable greater productivity;
- Provide Information Services staff with technical training and development opportunities to improve skills and services;
- Provide a reliable and secure network of servers, personal computers, mobile devices, printers and software applications that improve District efficiencies;
- Provide reliable and secure voice, data and wireless communications services;
- Provide technologies for external customers, including bill presentment and payment;
- Pursue and implement appropriate transitions to cloud, innovative and forward-looking technologies;
- Complete scheduled hardware and software upgrades to District servers, personal computers, mobile devices, printers, network equipment and software applications;
- Migrate Micro Focus Open Enterprise Server to Microsoft Active Directory, Windows Server, SharePoint and OneDrive;
- Conduct annual cybersecurity tabletop exercise to test and improve cyber incident response;
- Upgrade and expand the Wi-Fi wireless network system to improve connectivity;
- Implement EZMaxPlanner application to enhance productivity with the Maximo software;
- Monitor industry trends and collaborate with external partners for best practices and opportunities for improved system related technologies.

ENGINEERING

OPERATING BUDGET SUMMARY

Program Description

The Engineering Department provides planning, design and construction coordination to develop, and maintain, the water, sewage and recycled water facilities necessary to provide the highest level of service to the customers of the District. The Engineering Department also provides technical support to other District departments.

<u>Treatment and Conveyance</u>: The Treatment and Conveyance group designs and manages construction of major water, sewage and recycled water treatment and transmission facilities necessary to provide the quality and reliability of service to existing and future customers of the District. The group is responsible for the expansion and improvement of water and sewage treatment facilities and the design and construction of wells, pipelines, pump stations, and sewage lift stations.

Infrastructure Planning: The Infrastructure Planning group of the Department is responsible for all master planning, Capital Improvement Program asset management, and the biennial Capital Budget and Long-Term Capital Programs. The Planning group also oversees water, sewage and recycled water demand projections, water supply planning, and preliminary facility planning studies for developing new, and refurbishing existing, facilities. GIS services are provided to other District departments including the development and support of GIS based applications and facility and atlas maps, maintenance of the District's digital record drawings system, and spatial analysis. The group is also responsible for managing the District's real property and rights of way.

<u>Development Services</u>: The Development Services group facilitates the land development process within the District by designing the water, sewage and recycled water facilities necessary to support land development. The construction of these facilities is coordinated to ensure that the facilities are available to meet development schedule requirements. Temporary and interim facilities, when necessary, are also coordinated through this group. The group also reviews developer submittals for quality and conformance with District requirements and assesses and collects appropriate fees.

<u>Inspection Services</u>: The Inspection Services group provides construction inspection services to other groups of the Engineering Department to ensure the highest level of constructed quality. These services include constructability review, pre-construction administration, progress payment processing, field inspection, change order evaluation and processing, and final acceptance coordination. The group is also responsible for coordinating specialized construction support services including surveying and geotechnical testing and inspection.

ENGINEERING

OPERATING BUDGET SUMMARY

<u>Operations Support and Pipelines</u>: The Operations Support and Pipelines group is responsible for providing engineering support to other District departments. The group generally focuses on the rehabilitation of existing District facilities and provides design and construction management of small to medium size water, sewage and recycled water facilities. This group also includes the process control team that conducts research, develops projects and provides process control and technical support to enhance the performance of the District's domestic and recycled water supply, treatment, distribution, and storage facilities. The process control team also provides similar support to the District's sewage collection/treatment, recycled water and urban runoff treatment systems and supports District-wide regulatory compliance objectives.

<u>Dams and Storage</u>: The Dams and Storage group is responsible for overseeing the District's dam safety program and ensuring compliance with the state's dam safety requirements. The group also manages the design and construction of dam improvements and storage facilities. The storage facilities mainly consist of the recycled water and domestic water tanks located throughout the District.

<u>Major Goals</u>

TREATMENT AND CONVEYANCE

- MWRP Phase 3 Expansion design;
- Wells 51 and 52 Wellhead Equipping and Offsite Pipelines design;
- Syphon Reservoir Improvements design and construction;
- San Joaquin Recycled Water Reservoir Filtration construction;
- Zone A to Rattlesnake Reservoir Pump Station construction;
- Lake Forest Zone B-C Recycled Water Pump Station construction;
- Sewer Siphons Phase II Improvements design and construction;
- Well OPA-1 PFAS Treatment construction; and
- Well ET-1 and SGU PFAS Treatment construction.

INFRASTRUCTURE PLANNING

- Implement Capital Improvement Program Asset Management processes and procedures for linear assets;
- Complete detailed condition assessments and prioritize the next five years of repair and replacement projects for pump stations, steel tanks, wells, and lift stations;
- Integrate the Replacement Planning Model with the Financial and Engineering programs;
- Provide Interagency technical support;
- Groundwater Workplan Update; and
- Complete the GIS Master Plan, implement Enterprise Licensing, and initiate GIS infrastructure upgrades.

ENGINEERING

OPERATING BUDGET SUMMARY

DEVELOPMENT SERVICES

- Heritage Fields Infrastructure design and construction;
- Orchard Hills Infrastructure design and construction;
- Orange Heights Infrastructure design and construction; and
- Tustin Legacy Infrastructure design and construction.

OPERATIONS SUPPORT AND PIPELINES

- Santiago Canyon Area Pump Stations Improvements construction;
- Operations Center CNG, Diesel and Gasoline Fueling Facility construction;
- Turtle Rock Reservoir Management System design and construction;
- MWRP Tertiary Treatment Facility Rehabilitation construction;
- Operations Center Warehouse Expansion design and construction;
- Well Rehabilitation design and construction;
- Woodbridge Recycled Water Distribution Pipeline Replacement construction;
- Lake Forest Woods Sewer Improvements design and construction;
- Coastal Zone 2 and Coastal Zone 4 Pump Stations Rehabilitation design and construction;
- Serrano Creek Raw Water Pipeline Replacement design and construction;
- 36-inch Sanitary Sewer Relocation at State Route 133 and San Diego Creek design; and
- Evaluate process control and water quality monitoring data to assess, correct or recommend performance improvement of membrane treatment facilities.

DAMS AND STORAGE

- Santiago Creek Dam Outlet Tower and Spillway Replacement design;
- Fleming Zone 8 Reservoir and Zone 8 to 9 Pump Station construction;
- Emergency Fuel Storage design and construction;
- Rattlesnake Dam Rehabilitation evaluation;
- Sand Canyon Dam Spillway Condition Assessment;
- Dam Instrumentation & Data Acquisition Upgrades;
- Harding Canyon Dam Condition Assessment;
- InSAR Satellite Monitoring and Dam Surveillance Monitoring; and
- Periodic Dam Safety Review.

WATER QUALITY and REGULATORY COMPLIANCE

OPERATING BUDGET SUMMARY

Program Description

The Water Quality and Regulatory Compliance Department provides laboratory and compliance related support to the operations and maintenance of the domestic and recycled water distribution, sewage collection systems, treatment facilities, and biosolids and energy recovery facilities. The department provides internal and external customers with field and facility monitoring, reproducible data of known and documented quality for regulatory monitoring and reporting, process control, research projects and capital projects utilizing state-of-the-art equipment and certified, analytical methods.

Staff also manages the laboratory safety, asset management and preventative maintenance programs, environmental permitting, reporting and compliance covering water, sewage, biosolids, air, hazardous waste, underground and aboveground storage tanks, universal waste, pretreatment program, and Fats, Oils, and Grease (FOG) program. Staff actively participates in association meetings to stay current with developing rules and policies.

<u>Major Goals</u>

- Perform all monitoring and laboratory analyses to provide data to document the District's compliance status with all applicable federal, state and local environmental laws and regulations and for process control purposes;
- Complete analyses within specified hold times and meet quality control specifications;
- Research and implement new testing methods where justified, specifically when timing, compliance, cost or efficiencies support bringing a method in-house;
- Maintain Environmental Laboratory Accreditation Program (ELAP) certification;
- Implement automation in compliance and process monitoring, laboratory processes, data reporting, quality control measures, staff training, and reporting programs;
- Provide compliance training, oversight, and assistance to other departments;
- Apply for and maintain all necessary permits to comply with environmental regulations;
- Work with Information Services to create an online knowledge base of all environmental compliance requirements and tools to request assistance from the department;
- Write and submit compliance reports in an accurate and timely manner;
- Respond to and negotiate with regulators to resolve compliance matters;
- Coordinate with other agencies and conduct appropriate inspections, monitoring and enforcement regarding industrial discharges under the pretreatment program; and,
- Participate in associations addressing laboratory and regulatory compliance issues.
- Oversee a safe work environment within the water quality laboratory;
- Ensure lab assets are tracked and properly maintained for audit purposes.

WATER OPERATIONS

OPERATING BUDGET SUMMARY

Program Description

The mission of the Water Operations Department is to operate and maintain the District's potable water, recycled water and untreated water systems in an efficient, cost effective and environmentally safe manner that provides a high level of customer satisfaction. These systems include the Dyer Road Wellfield, Deep Aquifer Treatment System, Wells 21/22 Treatment Plant, Irvine Desalter Project (Potable Treatment Plant, Principal Aquifer Plant and Shallow Groundwater Unit) and Baker Water Treatment Plant.

<u>Major Goals</u>

- Maintain 100% compliance with all regulatory permits;
- Meet the Department's adopted Operations and Maintenance budget;
- Maintain 3 or more Water Operators at the T-5 and 5 at the D-5 certification level;
- Coordinate with the Finance, Engineering and Planning Departments on water supply and water banking opportunities to optimize cost effective operations;
- Achieve zero lost time accidents;
- Modify as needed and track adopted Key Performance Indicators (KPI) to optimize operational efficiency and cost effectiveness;
- Develop and maintain staff competency through a combination of internal and external training;
- Operate and maintain all treatment and distribution systems to minimize energy consumption;
- Optimize the recycled water long-term storage supply to reduce imported water usage and to prevent diversion from the Michelson Water Reclamation Plant;
- Maintain the Dyer Road Well Field and Deep Aquifer Treatment System domestic water flows in accordance with the Ground Water Pumping Plan staying within the current Basin Pumping Percentage (BPP) of 70%;
- Operate the Irvine Desalter Project (Potable Treatment Plant, Principal Aquifer Plant and Shallow Groundwater Unit) in accordance with the joint agency agreement and submit required reports;
- Ensure efficient operation of all District pumping, dam operation, and reservoir facilities;
- Maintain a high level of customer satisfaction by responding promptly to all customer service requests and repair water leaks with minimal impact to customers; and,
- Respond to Underground Service Alert (USA) tickets and identify water pipelines and sewer infrastructure to prevent damage from construction activities;
- Provide excellent customer service to our internal and external customers by incorporating asset management tools and software into our daily tasks.

RECYCLING OPERATIONS

OPERATING BUDGET SUMMARY

Program Description

The mission of the Recycling Operations Department is to operate the District's resource recovery and collection systems in a regulatory compliant, efficient, and environmentally safe manner that provides the highest level of customer satisfaction. This includes the Michelson Water Recycling Plant (MWRP), Los Alisos Water Recycling Plant (LAWRP), Natural Treatment System (NTS), sewer collection system and administrative management of the Automated Process Control System.

<u>Major Goals</u>

- Meet the Department's adopted Recycled Water Operations budgets;
- Achieve zero lost time accidents;
- Maintain 100% compliance with all regulatory permits;
- Maintain and develop staff competency through a combination of internal and external training;
- Fully utilize Maximo tools and perform all planned and requested tasks through work orders;
- Provide technical support to the asset criticality assessment for the sewer collection system, water recycling facilities, Natural Treatment Systems, and Supervisory Control and Data Acquisition (SCADA) equipment;
- Coordinate with Water Operations to optimize production of recycled water and balance with system storage capacity;
- Evaluate, optimize, and monitor chemical usage using key performance indicators (KPIs) for sewer collection and recycling facilities' systems;
- Implement developed plan to introduce FOG to the IRWD Biosolids facility;
- Maximize beneficial reuse of biogas through energy production and heat recovery systems;
- Maintain agreements with multiple outlets for Biosolids Class A Pellets and Class B cake;
- Complete the pilot study of bioreactor systems to enhance nutrient removal at IRWD NTS basins to bolster existing nutrient offset programs;
- Implement station improvements at El Modena NTS site;
- Schedule, plan, and complete required SCADA software system updates for major IRWD sites (Baker, MWRP Biosolids, and Water OPS);
- Apply advanced cybersecurity standards and technologies to the IRWD Industrial Control System (ICS)/SCADA infrastructure;
- Improve SCADA communication reliability by adding redundant communication paths to critical pump stations, lift stations, reservoirs and treatment plants;
- Update District's Sewer System Management Plan (SSMP) as required per the Sanitary Sewer Systems State Waste Discharge Requirements (SSS WDR);
- Conduct a criticality analysis coupled with asset condition assessments, of all sewage collection and treatment facilities to efficiently prioritize maintenance and replacement activities.

MAINTENANCE OPERATIONS

OPERATING BUDGET SUMMARY

Program Description

The mission of Maintenance Operations is to manage the District's assets to ensure optimal life expectancy, reliability, efficiency and safety goals while providing the highest level of customer satisfaction. Maintenance Operations coordinates the maintenance and repair of the District's electrical, mechanical, instrumentation, fleet and facility assets by utilizing a comprehensive enterprise asset management system to ensure safe, reliable, and cost effective operation.

<u>Major Goals</u>

- Meet the Department's adopted Maintenance and General Plant budgets;
- Achieve zero lost time accidents;
- Maintain 100% compliance with all regulatory requirements;
- Identify and track operational Key Performance Indicators (KPIs) to optimize efficiency and cost effectiveness;
- Maintain and develop staff competency through a combination of internal and external training;
- Expand and optimize predictive maintenance processes;
- Maintain all District buildings and facilities to ensure that expected life cycles are reached and building systems function as designed;
- Perform all required maintenance on schedule to provide a safe, reliable, and cost-effective fleet operation;
- Develop annual schedule/plan for complex maintenance of District assets;
- Optimize and expand the Preventative Maintenance Program;
- Perform condition assessment for rehabilitation and reinvestment projects;
- Initiate arc flash studies across District facilities;
- Develop and implement interdepartmental charters for operations and;
- Establish maintenance strategies for water pipelines and sewers and incorporate facility criticality into existing maintenance plans for treatment plants, wells and pump/lift stations.

OPERATING BUDGET SUMMARY

Program Descriptions

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. This is, in part, accomplished by expanding the use of recycled water in compliance with State and local requirements. To ensure the protection of the public water supply, including at recycled water use sites, the On-Site and Cross-Connection Control groups play important roles by implementing programs to protect public health.

<u>Recycled Water Customer Development:</u> IRWD is recognized as a national leader in recycled water based on the many years of experience IRWD has with recycled water, the large number of meters served, and groundbreaking projects IRWD has completed in partnership with its customers. IRWD currently serves more than 6,400 recycled water meters including:

- More than 145 commercial dual-plumbed buildings where recycled water is used for flushing toilets and urinals,
- More than 30 cooling towers,
- Approximately 700 single-family lots where recycled water is used for irrigating both the front and back yards, and
- Thousands of irrigation sites including golf courses, parks, school grounds, HOA common areas, agricultural sites, and more.

IRWD continues to work to add new recycled water customers by connecting sites which are the result of new construction and by converting existing potable or untreated water customers to recycled water. This is done by reviewing the plans for the use of recycled water to insure compliance with State and local requirements. Staff checks to make sure the uses for recycled water are allowed, that the water systems are properly identified, pipe material and separation standards are met, signage is in place, and more.

IRWD is also recognized for its support of recycled water through organizations such as the WateReuse Association, a national recycled water advocacy group. IRWD, in concert with WateReuse California, is active in state-wide policy, legislation, regulation, and support for other agencies which face challenges as their programs are initiated or are being expanded. On a regional level, IRWD had a lead role in working with other water recycling agencies and the regulatory agencies in Orange County to establish standards for on-going inspection and testing of recycled water use sites.

<u>Recycled Water Use Site Inspection and Testing:</u> Ensuring the safe and proper use of recycled water is important not only to our customers but the community as well. This is accomplished by implementing a recycled water use site inspection and testing program. Once the recycled water use sites are activated, IRWD has the responsibility to monitor those sites for on-going compliance

OPERATING BUDGET SUMMARY

with State and local requirements. This is done by having a recycled water use site visual inspection and cross-connection testing program where each site is periodically inspected for proper system identification, hours of operation, avoiding runoff, and to confirm that there are no cross connections. During the inspection, staff reviews the "Do's and Don'ts" with the Site Supervisors to clarify their roles and responsibilities as they are responsible for the day-to-day operation of the sites.

The State Water Resources Control Board (SWRCB) is currently revising regulations which may lead to more stringent standards regarding the frequency by which recycled water use sites are inspected and tested. This work is currently accomplished by both staff and contractors. Once the revised regulations are approved by the SWRCB, IRWD will determine the optimal use of resources to meet the new requirements.

<u>Cross-Connection Control</u>: Title 17 of the California Code of Regulations requires that water agencies protect the public water system from contamination. This is done by implementing a cross-connection control program. IRWD's program includes periodically surveying properties to determine what hazards, if any, exist and what type of backflow prevention device is required to protect the public system. Once a backflow prevention device is installed, annual testing is required to make sure it functions properly. These tests are performed by Orange County Health Care Agency certified backflow device technicians hired by the property owners. IRWD sends letters to property owners with testable backflow prevention devices notifying them that their devices are to be tested. IRWD provides the list of certified technicians to property owners. Once a device is tested, the technician is required to submit documentation to IRWD. There are currently more than 20,000 testable devices in IRWD's service area.

To confirm on-going compliance at customer sites, IRWD staff conducts periodic field inspections to monitor for hazardous conditions and to determine if field conditions have changed that would warrant a change to the backflow requirements. These periodic field inspections are prioritized based on the types of activities conducted at customer sites.

IRWD itself has more than 150 backflow prevention devices at its properties that also require testing annually. These devices are tested by IRWD staff. If maintenance or repairs on IRWD's devices is required, that work is performed by IRWD staff.

The State of California requires water agencies have a cross-connection program in compliance with Title 17 of the California Code of Regulations. The State Water Resources Control Board (SWRCB) will be replacing Title 17 with a Policy Handbook which is currently being drafted by SWRCB staff. Staff will work with SWRCB staff during the public input process. Once the document has been adopted, staff will review IRWD's cross-connection program and revise as necessary.

OPERATING BUDGET SUMMARY

<u>Major Goals</u>

RECYCLED WATER CUSTOMER DEVELOPMENT

- Expand the use of recycled water consistent with Title 22 of the California Code of Regulations;
- Work with Orange County Parks to pursue the conversion of the Irvine Regional Park irrigation system to recycled water. This would conserve approximately 240 acre-feet per year of imported water;
- Work with the Roman Catholic Diocese of Orange to pursue the conversion of the Holy Sepulcher Cemetery irrigation system to recycled water. This would conserve approximately 100 acre-feet per year of potable water;
- Pursue a new Local Resources Program funding agreement with MWD which provides a "peracre foot" financial incentive to increase the use of recycled water;
- Assist WateReuse California with its legislative agenda which includes allowing discharge of recycled water from impoundments during storm events;
- Remain active in the Orange County Chapter of WateReuse California; and,
- Seek opportunities to dual-plumb commercial buildings, hotels, condominiums, and apartment properties.

RECYCLED WATER USE SITE INSPECTION & TESTING

- Conduct periodic visual inspections, cross-connection tests, and Site Supervisor training at more than 2,300 recycled water use sites;
- Inform property owners of the things that need to be done to bring each site into compliance with State and local requirements;
- Keep records of the site inspection, site testing and Site Supervisor training, and
- Work with other recycled water agencies in Orange County to develop reasonable standards for on-going inspection and testing of recycled water use sites which can be incorporated into water agencies written Cross-Connection Control Plans which will be required by the SWRCB's Cross-Connection Control Policy Handbook.

CROSS-CONNECTION CONTROL

- Send notifications to customers requesting they have their backflow prevention device(s) tested and if necessary, repaired. There are more than 20,000 testable backflow prevention devices in IRWD's service area;
- Conduct periodic inspections of customer sites to ensure the proper backflow prevention device(s) are in place;
- Compile a list of high-, medium-, and low-hazard sites in IRWD's service area that will be the basis for future inspections based on level of risk;
- Test IRWD owned backflow prevention devices and repair as necessary; and,
- Work with other domestic water agencies in Orange County to develop reasonable standards

OPERATING BUDGET SUMMARY

for on-going hazard assessments of potable water use sites which can be incorporated into water agencies written Cross-Connection Control Plans which will be required by the SWRCB's Cross-Connection Control Policy Handbook, which will replace Title 17 of the California Code of Regulations.

WATER RESOURCES AND ENVIRONMENTAL COMPLIANCE

OPERATING BUDGET SUMMARY

Program Description

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. The department is also responsible for managing the District's water banking programs, environmental compliance activities, and energy efficiency and renewable energy programs.

<u>Water Resources and Environmental Compliance:</u> The Water Resources and Environmental Compliance group is responsible for the planning and development of water supply programs and banking projects primarily outside of the local Orange County area. These programs and projects are increasing the diversity and reliability of the District's water supplies by securing water supplies from sources outside of Orange County during wet periods and storing them for future use in groundwater banking projects in Kern County. Water Resources and Environmental Compliance is also responsible for exploring and developing potential local water supply reliability opportunities. The District's efforts in the development of these programs and projects are needed in response to stressors on water supply reliability such as environmental pressures in the Delta, climate change, risks of major earthquakes, expanding statewide population, climate change, and expanding regulatory requirements.

In addition, the Water Resources and Environmental Compliance group is responsible for the negotiation and development of agreements with other agencies, banking partners and entities throughout the State of California for water transfer and exchanges that facilitate the recharge, storage and recovery of water at the water banking projects. It is responsible for the negotiation and the development of agreements that facilitate the delivery of water recovered from the water banking projects to IRWD's service area through facilities owned by the California Department of Water Resources, Kern County Water Agency and Metropolitan Water District of Southern California (MWD). It is also responsible for the management of water supplies allocated to District-owned lands within the Dudley Ridge Water District and for the management of IRWD-owned lands located in the Palo Verde Irrigation District (PVID) including the participation of these lands in the existing PVID/MWD fallowing program and any new water conservation related programs that PVID and MWD implement in the future.

Other responsibilities of Water Resources and Environmental Compliance include managing the District's environmental compliance programs, and overseeing the District's salt management plan, Sustainable Groundwater Management Act (SGMA) compliance as well as energy efficiency, greenhouse gas reporting, verification, and renewable energy planning activities. The environmental compliance programs focus on fulfilling the District's compliance requirements for the operation of potable and recycled water and wastewater systems operations, facility replacements and the construction of new facilities.

WATER RESOURCES AND ENVIRONMENTAL COMPLIANCE

OPERATING BUDGET SUMMARY

<u>Major Goals</u>

WATER RESOURCES

- Update the IRWD's Water Supply Evaluation;
- Bank supplemental water for IRWD while developing extraction and additional recharge and storage capacity as needed for IRWD and its water banking partners;
- Manage the completion of planning and conceptual design work as well as the development of the agreements needed for the implementation of the Kern Fan Groundwater Storage Project (Kern Fan Project);
- Work with the Groundwater Banking Joint Powers Authority in the design, construction and operation of the Kern Fan Project;
- Negotiate agreements for the delivery of MWD system water to IRWD's Kern County Banking Projects;
- Evaluate the long-term costs and benefits of the District's potential participation in the Sites Reservoir Project and the Delta Conveyance Project;
- Work to implement a pilot program through which other water agencies can participate in IRWD's water banking program;
- Implement long-term unbalanced exchange agreements with Central Coast Water Authority, Santa Clarita Valley Water Agency, Mojave Water Agency and others for IRWD's water banking program;
- Conduct research into increasing recharge rates at IRWD's water banking projects;
- Monitor IRWD's SGMA compliance for its Strand Ranch and Stockdale West properties consistent with plans prepared and implemented by the Kern Groundwater Authority Groundwater Sustainability Agency;
- Evaluate options to optimize the benefit of IRWD's State Water Project (SWP) supply allocated through the Dudley Ridge Water District;
- Continue to update the business plan for IRWD's water banking projects and programs;
- Exercise IRWD's existing long-term exchange program to facilitate use of Kern River water to IRWD service area;
- Participate in water conservation programs implemented by MWD and Palo Verde Irrigation District, such as land fallowing, which can make water available for other uses and improve IRWD's water supply reliability;
- Pursue grant funding for the Syphon Reservoir Improvement Project and other IRWD Capital Projects; and
- Prepare and submit grant funding applications for eligible IRWD capital projects including Reclamation's WaterSMART funding.

WATER RESOURCES AND ENVIRONMENTAL COMPLIANCE

OPERATING BUDGET SUMMARY

ENVIRONMENTAL COMPLIANCE

- Complete the work and studies associated with the preparation of an EIR and permitting for the Santiago Creek Dam Spillway and Outlet Tower Improvement Project;
- Work with the Groundwater Banking Joint Powers Authority and the California Department of Water Resources in the preparation and approval of supplemental environmental compliance documents as well as any necessary addendums to existing documents for the Kern Fan Project;
- Finalize a mitigation agreement and complete permitting work associated with the Syphon Reservoir Improvement Project;
- Obtain federal environmental compliance approval for Syphon Reservoir Improvement Project; and,
- Fulfill the District's environmental compliance requirements for capital projects, replacements and operations including the development and approval of Mitigated Negative Declarations, Environmental Impact Reports and Notices of Exemptions.

ENERGY AND OTHER PLANNING

- Update the District's Energy and Greenhouse Gas Master Plan as phase 1 of the development of the District's Climate Action Plan;
- Monitor the impact of varying water supplies on maintaining the District's salt balance;
- Seek grant opportunities for District energy projects;
- Monitor and evaluate IRWD's participation in SCE's Direct Access Program;
- Maximize participation in Phase 2 of the SCE Water-Energy Pilot Program by jointly working with SCE on evaluating and implementing beneficial energy projects.

WATER EFFICIENCY

OPERATING BUDGET SUMMARY

Program Description

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. The department is also responsible for managing the District's Water Efficiency Programs.

<u>Water Efficiency:</u> Demand management programs directly offset the need for developing additional water supplies and are a critical element in meeting the District's water resources and reliability objectives. IRWD has provided industry leadership through the development of innovative and aggressive demand management programs focusing on water use efficiency and sewage resource recycling. Water efficiency programs focused on outdoor water efficiency, compliance with new state requirements, tactical incentives and participation in innovative pilot programs and research that maintain IRWD's leadership position are incorporated into the two-year fiscal 2024-25 budget. IRWD will continue to be engaged in the development and implementation of local, regional, state-wide and national water efficiency and demand management policies.

Major Goals

WATER EFFICIENCY

- Update the Water Efficiency Implementation Plan to include new programs and projects that will be offered during Fiscal Years 2023-24 and 2024-25.
- Develop partnerships with private and public entities to leverage the effectiveness and reach of water efficiency programs;
- Research and implement, as appropriate, new technologies and innovative programs to assist customers with improving their water use efficiency with a special emphasis on outdoor efficiency programs;
- Continue to partner with commercial, industrial and institutional customers to implement costeffective water use efficiency programs;
- Continue to support and expand enhanced customer engagement and reporting as a tool to motivate additional water use efficiency;
- Continue to support and expand educational programs for the professional landscape industry;
- Implement the use of enhanced GIS data to improve customer allocation-setting, outreach and programs targeted toward outdoor water use;
- Actively participate in statewide policy discussions addressing the water-energy nexus;
- Actively engage in discussions with the State Water Resources Control Board, the California Department of Water Resources and other stakeholders on implementation of the State's Conservation as a California Way of Life legislation for efficient water use that balances local conditions, supplies, use of recycled water, prior conservation, growth and other equity adjustments;
- Establish the appropriate metrics and quantify water efficiency targets;
- Develop a feasibility study and business plan for the implementation of Advanced Meter Infrastructure projects in IRWD's service area; and,
- Develop a Water Loss Data Management Plan.

Proposed Personnel Budget Changes Reflected in the FY 2023/24 Operating Budget

Title and Salary Grade Changes for Existing Positions/Job Titles

General Manager (110):

Senior Office Specialist (Salary Grade 19.N) to Executive Secretary (Salary Grade U22.N)

This position reclassification is being requested to more properly reflect the specific duties and responsibilities of the position.

Advocacy (110)

Community Relations Assistant (Salary Grade 24.N) to Community Relations Specialist (Salary Grade 30.N)

This position reclassification is being requested to more properly reflect the specific duties and responsibilities of the position.

Community Relations Manager (Salary Grade U18.E) to External Affairs Manager (Salary Grade U21.E)

This position reclassification is being requested to meet the needs of the department, specifically to increase involvement in the District's legislative and regulatory efforts.

Finance & Treasury (210):

Accountant (Salary Grade 27.N) to Payroll Administrator (Salary Grade 31.N) This position reclassification is being requested to reflect the primary duties of the position.

Engineering (300):

Senior Engineer (Salary Grade U20.E) to Engineer (Salary Grade U17.E) This position reclassification is being requested to reflect the level of engineer currently needed in the department.

Water Operations (420):

Operator II (Salary Grade 27.N) to Operator I (Salary Grade 22.N) This position reclassification is being requested to reflect the level of operator currently needed in the department.

Collection Systems (570)

Collection Systems CCTV Technician (Salary Grade 23.N) to Asset Maintenance Coordinator (Salary Grade 32.N)

This position reclassification is being requested due to a shift in the needs of the District with the increased demands of the asset management effort.

Water Quality (600)

Scientist (Salary Grade 29.N) to Senior Scientist (Salary Grade 32.N) This position reclassification is being requested to as this position will be performing work at a level appropriate for a Senior Scientist.

Water Resources (720)

Water Resources Specialist (Salary Grade 26.N) to Water Resources Planner (Salary Grade U13.E)

This position reclassification is being requested to more properly reflect the specific duties and responsibilities of the position.

Operations Administration (805)

Director of Field Services (Salary Grade U27.E) to Biosolids Manager (Salary Grade U21.E)

This position reclassification is being requested as the District's biosolids operations require a dedicated manager to accomplish the goals of this operation.

Asset Systems (830)

Reliability Engineer (Salary Grade U20.E) to Reliability Engineer Manager (Salary Grade U22.E)

This position reclassification is being requested to more reflect the specific duties and responsibilities of the position.

Title Changes Only

Engineering (300):

GIS Technician III (Salary Grade 29.N) to Senior GIS Technician (Salary Grade 29.N) Title change only.

GIS Technician II (Salary Grade 25.N) to GIS Technician (Salary Grade 25.N) Title change only.

Eliminated Positions

Field Services (425):

Metering Systems Technician I (Salary Grade 16.N) – 1 position

Water Maintenance Technician I (Salary Grade 16.N) - 1 position

MWRP Operations (550): Process Specialist (Salary Grade 32.N) – 1 position

Collection Systems (570): Collection Systems Technician I (Salary Grade 15.N) – 2 positions

New Positions

Human Resources (140):

Senior Human Resources Analyst (Salary Grade U13.E) – 1 position This position is being requested to meet the increased need for human resource services at the District due to workforce expansion and an increase in services provided.

Information Services (250):

Senior User Support Administrator (Salary Grade U15.E) – 1 position This position is being requested to meet increased need for Information Systems user support due to an increase in workforce and in the number of devices utilized at the District.

Automation (530):

Senior SCADA Network Administrator (Salary Grade U15.E) – 1 position This new position is required to assist with the growing size and complexity of SCADA.

MWRP Operations (550):

Operator III (Salary Grade 30.N) – 1 position This position is required to assist with the increased workload at Biosolids.

Water Quality (600):

QA/QC Specialist (Salary Grade 29.N) - 1 position

This position is being requested to meet the District's need to continue to maintain the increasingly complex systems and equipment within its Water Quality Laboratory.

Water Efficiency (750):

Water Efficiency Specialist (Salary Grade 26.N) – 1 position This position is required due to the increased workload and to reduce temporary labor.

Mechanical Services (830):

Senior Maintenance Mechanic (Salary Grade 27.N) – 1 position This position is being requested to meet District's increase mechanical maintenance needs, particularly in its biosolids operations.
