

IRVINE RANCH WATER DISTRICT

CALL FOR SPECIAL FINANCE AND PERSONNEL
COMMITTEE MEETING BY CHAIRMAN

A Special Finance and Personnel Committee Meeting of the Irvine Ranch Water District is hereby called to be held on March 24, 2021, at the hour of 9:00 a.m. of said day at the principal office of the District, 15600 Sand Canyon Avenue, Irvine, California, for the purposes as set forth in Exhibit "A" attached hereto and by this reference made a part hereof.

The Secretary of the Irvine Ranch Water District is hereby authorized and directed to give notice of said Special Meeting to all persons entitled to notice in accordance with the Bylaws of this District and the Provisions of Section 54956 of the California Government Code.

Dated this 18th day of March 2021.

Peer Swan, Chairman
Irvine Ranch Water District

AGENDA
IRVINE RANCH WATER DISTRICT
SPECIAL FINANCE AND PERSONNEL COMMITTEE MEETING
MARCH 24, 2021

Due to COVID-19, this meeting will be conducted as a teleconference pursuant to the provisions of the Governor's Executive Orders N-25-20 and N-29-20, which suspend certain requirements of the Ralph M. Brown Act. Members of the public may not attend this meeting in person.

Participation by Committee Members will be from remote locations. Public access and participation will only be available telephonically/electronically.

To virtually attend the meeting and to be able to view any presentations or additional materials provided at the meeting, please join online via Webex using the link and information below:

Via Web: <https://irwd.webex.com/irwd/j.php?MTID=ma039f4d751fbbe289c6e181be86a83d3>
Meeting Number: 146 070 8262
Password: zdJd78HC3Mh

After joining the meeting, in order to ensure all persons can participate and observe the meeting, please select the "Call in" option and use a telephone to access the audio for the meeting shown.

Please enter the attendee identification number, which will be provided when you connect to Webex, followed by #.

As courtesy to the other participants, please mute your phone when you are not speaking.

CALL TO ORDER 9:00 a.m., Committee Room, Second Floor, District Office
15600 Sand Canyon Avenue, Irvine, California

ATTENDANCE Chair: Peer Swan _____ Member: Steve LaMar _____

<u>ALSO PRESENT</u>	Paul Cook	_____	Cheryl Clary	_____
	Wendy Chambers	_____	Kevin Burton	_____
	Paul Weghorst	_____	Rob Jacobson	_____
	Tom Malone	_____	Allen Shinbashi	_____
	Christopher Smithson	_____	Eileen Lin	_____
	Jennifer Davis	_____	Tiffany Mitcham	_____
	_____	_____	_____	_____

PUBLIC COMMENT NOTICE

If you wish to address the Committee on any item, please submit a request to speak via the "chat" feature available when joining the meeting virtually. Remarks are limited to three minutes per speaker on each subject. You may also submit a public comment in advance of the meeting by emailing comments@irwd.com before 12:00 p.m. on Tuesday, March 23, 2021.

ALL VOTES SHALL BE TAKEN BY A ROLL CALL VOTE.

COMMUNICATIONS

1. Notes: Clary
2. Public Comments
3. Determine the need to discuss and/or take action on item(s) introduced, which came to the attention of the District subsequent to the agenda being posted.
4. Determine which items may be approved without discussion.

ACTION

5. DETAILED REVIEW OF FISCAL YEAR 2021-22 AND 2022-23 OPERATING BUDGET AND PROPOSED RATES AND CHARGES / PARDEE / SMITHSON / CLARY

Recommendation: That the Committee review and provide feedback on the proposed FY 2021-22 and FY 2022-23 Operating and Non-Operating Budgets and proposed rates and charges for further review at the Finance and Personnel Committee meeting on April 6, 2021 and at both Board Workshops on April 12, 2021 and April 26, 2021.

OTHER BUSINESS

6. CLOSED SESSION CONFERENCE WITH LEGAL COUNSEL — EXISTING LITIGATION – Pursuant to Government Code Section 54956.9(d)(1): *Kessner, et al. v. City of Santa Clara, IRWD, et al.*, Santa Clara County Superior Court Case No. 20CV364054
7. Directors' Comments
8. Adjournment

Availability of agenda materials: Agenda exhibits and other writings that are disclosable public records distributed to all or a majority of the members of the above-named Committee in connection with a matter subject to discussion or consideration at an open meeting of the Committee are available for public inspection in the District's office, 15600 Sand Canyon Avenue, Irvine, California ("District Office"). If such writings are distributed to members of the Committee less than 72 hours prior to the meeting, they will be available from the District Secretary of the District Office at the same time as they are distributed to Committee Members, except that if such writings are distributed one hour prior to, or during, the meeting, they will be available electronically via the Webex meeting noted. Upon request, the District will provide for written agenda materials in appropriate alternative formats, and reasonable disability-related modification or accommodation to enable individuals with disabilities to participate in and provide comments at public meetings. Please submit a request, including your name, phone number and/or email address, and a description of the modification, accommodation, or alternative format requested at least two days before the meeting. Requests should be emailed to comments@irwd.com. Requests made by mail must be received at least two days before the meeting. Requests will be granted whenever possible and resolved in favor of accessibility.

Note: This page is intentionally left blank.

Submitted by: C. Clary

Approved by: Paul A. Cook

SPECIAL FINANCE AND PERSONNEL COMMITTEE

DETAILED REVIEW OF FISCAL YEARS 2021-22 AND 2022-23 OPERATING AND NON-OPERATING BUDGET AND PROPOSED RATES AND CHARGES

SUMMARY:

IRWD is in the process of developing Operating and Non-Operating Budgets for Fiscal Years (FY) 2021-22 and 2022-23. The proposed FY 2021-22 Operating Budget is \$180.5 million, representing an increase of \$6.9 million or 4.0% over the prior year. The proposed FY 2022-23 Operating Budget is \$187.5 million, representing an increase of \$7.0 million or 3.9% over FY 2021-22. The net Non-Operating proposed budget for FY 2021-22 is \$76.7 million, representing a decrease of \$12.0 million or 13.5% over the prior year. The Non-Operating proposed budget proposed FY 2022-23 is \$84.1 million representing an increase of \$7.0 million or 9.2% over FY 2021-22.

The District is in the process of developing rates based on the proposed Operating Budgets. Proposed rate increases will be necessary to provide for cost of service equity. The proposed rates will be based on the 2020 Cost of Service study. The methodology used to set rates in FY 2021-22 and FY 2022-23 is consistent with the methodology included in the 2020 rate study.

BACKGROUND:

Operating Budget Development Process:

The proposed Operating Budget, provided as Exhibit “A”, has been organized into eight major functional areas, plus separate sections for proposed general plant purchases, and labor changes:

- Assumptions;
- Consolidated Operating Budget;
- Revenue and Expenses by System;
- Non-operating Summary of Sources and Uses;
- Current and Proposed Residential Rates;
- Budgeted Revenue Summary by System;
- Budgeted Cost of Water by System;
- Individual tabs with Major Goals, Proposed Organization Chart and Expense Budget by Department;
- General Plant; and
- Summary of Labor and Proposed Changes.

Conservation and Natural Treatment System (NTS) operating results are included as a separate system. Revenues and Expenses by System include:

- Water;
- Sewer;
- Recycled; and
- Conservation and NTS.

The goal of IRWD’s budgeting process is to appropriately fund the resources required to provide excellent service to its customers as cost-efficiently as possible. IRWD continues to aggressively pursue reductions in expenses to offset uncontrollable expenses such as pass-through rate increases from outside agencies on which the District depends for the purchase of water, electricity, and the treatment of sewage. Key budget assumptions are listed at the beginning of the draft budget book. The proposed budgets reflect the full cost of operating the Baker Water Treatment Plant in the individual budget line items with the reimbursement to IRWD for 76% of the operating expenses by the Baker Plant partners shown as a “reimbursement from Baker Partners” below.

The proposed changes over last year’s budget are driven primarily by the following:

Primary Drivers	Variance	
	FY 2020-21 vs. 2021-22	FY 2021-22 vs. 2022-23
Increase in regular labor:	\$1.2M	\$1.6M
- COLA		
- Promotions/upgrades/merit		
- Proposed additions		
Increase in employee benefits:	\$3.8M	\$1.5M
- PERS and health insurance		
Decrease/Increase in purchased water:	(\$2.4M)	\$3.2M
- Pass through rate increases anticipated		
Increase in electricity	\$1.2M	\$0.7M
Increase in IRWD repairs and maintenance	\$1.6M	\$0.4M
Increase in insurance	\$0.8M	\$0.4M
Increase in legal fees	\$0.6M	\$0.2M
Increase in data processing	\$0.8M	-
Increase/Decrease in other professional fees	\$0.7M	(\$0.9M)
Decrease in biosolids disposal	(\$0.7M)	-
Other net changes less than \$0.50	(\$0.4M)	(\$0.1M)
<i>Total proposed budget increases in FY 2021-22 and FY 2022-23:</i>	<i>\$7.2M</i>	<i>\$7.0M</i>

Changes from the preliminary budget reviewed at the March 5, 2019 Finance and Personnel Committee meeting include changes in labor and benefits, electrical and purchased water costs.

Non-Operating Budget Process:

Net Non-Operating income for the FY 2021-22 budget is \$76.7 million which is a decrease of \$12.0 million from the previous FY 2020-21 budget. The primary decrease is due to reduced investment income from lower investment earning rates as well as lower connection fees due to less anticipated developer activity. These are partial offset by lower expected interest expense on the District's variable rate debt.

Net Non-Operating income for the FY 2022-23 budget is \$84.1 million. The increase from the FY 2021-22 budget is driven primarily by anticipated higher property taxes due to increased assessed valuations, higher connection fees and real estate income from the leasing of the Sand Canyon Professional office property.

Rate-setting Process:

The District is in the process of developing rates based on the proposed Operating Budgets. Proposed rate increases are necessary to provide for cost of service equity. As mentioned above, the proposed rates are based on the 2020 Cost of Service study. The methodology used to set rates in FY 2021-22 and FY 2022-23 is consistent with the methodology included in the 2020 rate study. The Board elected to defer the noticed rate increase for FY 2020-21 due to the impact of COVID-19. Rate comparisons for FY 2021-22 below are based on both the rates currently charged to customers as well as the noticed rates for FY 2020-21, where the increase was deferred.

		Proposed		Change	
	Rates	FY 2021-22	FY 2022-23	FY 2021-22	FY 2022-23
Compare to Current Billing Rates					
Low Volume per ccf	\$1.47	\$1.47	\$1.53	\$0.00	\$0.06
Base per ccf	\$2.00	\$2.16	\$2.26	\$0.16	\$0.10
Monthly Fixed Water Service Charge (based on 5/8" meter)	\$10.35	\$10.75	\$11.15	\$0.40	\$0.40
Fixed Sewer Service Charge (based on average usage of 5-10 ccf's)	\$23.50	\$24.45	\$25.35	\$0.95	\$0.90
Current and Proposed Rates	\$55.20	\$57.67	\$59.97	4.5%	4.0%
Compare to Deferred Notice Rates					
Low Volume per ccf	\$1.54	\$1.47	\$1.53	-\$0.07	\$0.06
Base per ccf	\$2.12	\$2.16	\$2.26	\$0.04	\$0.10
Monthly Fixed Water Service Charge (based on 5/8" meter)	\$10.40	\$10.75	\$11.15	\$0.35	\$0.40
Fixed Sewer Service Charge (based on average usage of 5-10 ccf's)	\$23.70	\$24.45	\$25.35	\$0.75	\$0.90
Noticed and Proposed Rates	\$56.64	\$57.67	\$59.97	1.8%	4.0%

Staff's recommendation for a typical residential customer based on what the customer is currently being billed, would result in an increase of \$2.47 or 4.5% in FY 2021-22 and \$2.30 or 4.0% in FY 2022-23. The proposed rate increase would have been 1.8% in FY 2021-22 if the District had not deferred the noticed rates. Assuming average residential usage, the average residential bill is expected to be \$57.67 and \$59.97 per month in FY 2021-22 and FY 2022-23 respectively. The Summary Section of Exhibit "A" (page A-7) shows the impact to rates for a typical residential customer compared to the current billing rates.

For FY 2021-22, staff recommends no change to the current billing rate for low volume and is proposing an increase of \$0.16 per ccf for the base rate, to match the cost of service for these tiers. The budget assumes no significant change per AF to the Replenishment Assessment from OCWD, which is the sole source of water for the low-volume tier and provides for a significant portion of the water used in the base rate. The monthly service charges include an increase to the replacement contribution that averages 11% per year for each system. The monthly water fixed service charge is proposed to increase \$0.40 per month from \$10.35 to \$10.75. Staff recommends a \$0.95 increase in the monthly sewer service charge. Based upon an average residential usage of 12 ccf per month, the recommended change will result in an expected rate increase to the average residential customer of \$2.47 or 4.5% from \$55.20 to \$57.67 per month.

For FY 2022-23, staff recommends an increase of \$0.06 per ccf for low volume and \$0.10 per ccf for the base rate, to match the cost of service for these tiers. The budget assumes a \$31 per AF increase in the groundwater Replenishment Assessment from OCWD (\$509 per AF to \$540 per AF) which again is the sole source of water for the low volume tier and provides for a significant portion of the water used in the base rate. There is a \$0.40 increase recommended for the monthly water fixed service charge and a \$0.90 increase to the monthly sewer service charge. Based upon an average residential usage of 12 ccf per month, the recommended change will result in an expected rate increase to the average residential customer of \$2.30, or 4.0%, from \$57.67 to \$59.97 per month.

The proposed rates are detailed in the Key Assumptions and Summary Section of Exhibit "A". At the Finance and Personnel Committee meeting on April 6, 2021, staff will discuss the methodology for allocating costs to the tiered rates consistent with Proposition 218 requirements. At the meeting, IRWD's departmental directors will answer any questions related to their detailed budgets. Staff recommends the Committee review and provide comments on the updated proposed Operating and Non-Operating Budget and rates for further review by the Committee at its April 6, 2021 meeting and to the full Board at its workshops on April 12 and April 26, 2021.

FISCAL IMPACTS:

The fiscal impacts are describe in detail above.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Committee review and provide feedback on the proposed FY 2021-22 and FY 2022-23 Operating and Non-Operating Budgets and proposed rates and charges for further review at the Finance and Personnel Committee meeting on April 6, 2021 and at both Board Workshops on April 12, 2021 and April 26, 2021.

LIST OF EXHIBITS:

***IRVINE RANCH WATER DISTRICT
OPERATING BUDGET
FISCAL YEAR 2021-22 and 2022-23***

Irvine Ranch
WATER DISTRICT

“DRAFT”

March 24, 2021

SPECIAL FINANCE AND PERSONNEL COMMITTEE

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

The goal of the District's budgeting process remains to fund the resources required to provide services to the District's customers as cost-efficiently as possible. The District aggressively pursues reductions in expenses to offset uncontrollable expenses such as pass-through rate increases from outside agencies on which the District depends for the purchase of water, electricity and the treatment of sewage. The FY 2021-22 and 2022-23 recommended rate increases are primarily associated with pass through rate increases from outside agencies.

This document is a summary of the major assumptions driving the development of the operating and non-operating budgets for FY 2021-22 and 2022-23.

I. OPERATING REVENUES

Growth Estimates:

Residential development growth includes both apartments and single family homes for FY 2021-22 and 2022-23. The unit estimate is based on current projections received from major developers throughout the service area and have been adjusted to recognize changes from economic shifts. Estimates identify approximately 1,800 mixed units coming online in each year for FY 2021-22 and 2022-23. As a result, the growth factor is estimated at 1.5% for FY 2021-22 and 2022-23.

Development projections for the commercial/industrial sector identify 18 acres of development occurring in FY 2021-22 and 2022-23. Revenue assumptions used to estimate sewer revenue are consistent with the assumptions included for potable water.

BUDGET

Key Assumptions Fiscal Years 2021-22 and 2022-23

FY 2021-22 and 2022-23 Estimate for Operating Revenue Sources, by System (in millions):

Total Residential, Landscape, Commercial, and Industrial revenue constitute over 85% of the total operating revenues for both water and sewer.

II. OPERATING EXPENSES

Notable expected changes in operating expenses are addressed below by system and function:

A. Water

The District continues to make efforts in encouraging its customers to conserve. The District will continue to encourage conservation through use of a budgeted allocation. Customers continue to respond well to this messaging.

The FY 2021-22 and 2022-23 budget anticipates no significant change in use from FY 2020-21. The assumption is normal rainfall. The District is budgeting potable and untreated sales for FY 2021-22 and 2022-23 of 52,681 acre feet (AF) and 53,511, respectively, compared to a budget of 54,126 AF in FY 2020-21. The additional potable demand will be met with increased imported supply. The water sources, before process loss and shrinkage, used to meet potable sales are:

BUDGET

Key Assumptions Fiscal Years 2021-22 and 2022-23

The cost for source of supply is one of the District's largest uncontrollable expenses. Groundwater provides over 49,000 acre feet and the District generates nearly 23,000 acre feet of recycled water with the remaining demand coming from imported supply or native water (rainfall and related runoff), as available. The table below identifies the various budgeted sources and associated costs.

Source Cost per Acre Foot (AF)	FY 2020-21	FY 2021-22	FY 2022-23
Orange County Water District (OCWD) Replenishment Assessment (RA)			
Groundwater	\$511	\$509	\$540
Metropolitan Water District (MWD)/MWDOC			
Imported Potable	\$1,110	\$1,124	\$1,166
Imported Nonpotable	\$781	\$790	\$817
Native Water	\$309	\$335	\$345

- No significant change to RA in year 1 and an increase of \$31/AF in year 2. The District's basin production percentage (BPP) is set at a maximum of 70%, per the OCWD / IRWD Annexation Agreement executed in 2013.
- The electricity rate is budgeted to increase 5% in each FY 2021-22 and FY 2022-23.

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

- MWD is expected to increase its treated and untreated rates on January 1, 2022 and on January 1, 2023.
- Native water cost will increase annually by 3% based on the Irvine Lake Yield agreement.
- Staff assumes no substantial change to the costs associated with the IRWD Reservoir Management Systems.

B. Sewer and Biosolids

The MWRP Biosolids and Energy Recovery Facility was operational in July 2021. Costs associated with operating the facility are included in FY 2021-22 and 2022-23. Previously, biosolids produced at MWRP were sent to the Orange County Sanitation District (OC SAN) for processing. The FY 2021-22 and 2022-23 budget assumes no solids handling expense for OC SAN.

C. Salaries and Benefits

Each year, staff prepares a labor budget based upon the total positions in the organization chart, expected merit and cost of living increases, and promotional allowances.

- Salary assumes an increase for merit and projected promotions.
- There are three new positions budgeted in FY 2021-22 and one in FY 2022-23.
- In July of each year, a COLA and promotional factor are applied to salaries - Assumed at 1.6% and 3.0%, respectively.
- Assumes a 6% vacancy factor.
- Paid time off (vacation, sick, and holiday) has been restated from labor to benefits.

The following table reflects salaries and wages included in each budget.

Regular Salaries and Wages (thousands)	
FY 2020-21	\$33,543
FY 2021-22	\$34,770
FY 2022-23	\$36,327

The following table identifies the current and proposed contribution of the District toward employee benefits. The PERS contribution (ARC) and the amount in Excess of ARC will change from the previous Board approved policy based on the 2020 Cost of Service Study. The required ARC contribution is designated by PERS. The ARC is reduced by a proportionate share of a three year average of Pension Trust Fund investment earnings. The proportionate share is based on the PERS's unfunded pension ratio. The PERS in Excess of ARC Contribution will be used to repay the Replacement Fund borrowing which funded the Pension Benefits Trust and will be repaid over a period of twenty years.

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

Additional Contributions Provided by the District			
	FY 2020-21	FY 2021-22	FY 2022-23
Required PERS Employer Contribution (ARC)	21.2%	26.4%	26.8%
PERS in Excess of ARC	3.8%	5.0%	4.5%
Combined Total	25.0%	31.4%	31.3%
District Direct 401A Match	3.0%	3.0%	3.0%
401A Matching Contribution of 3%	2.8%	2.8%	2.8%

III. RATES

Rates are based on actual cost of service and are split into a commodity charge and a monthly fixed service charge for most customers. The District has completed an updated Cost of Service study in 2020. The methodology used to set rates in FY 2021-22 and FY 2022-23 is consistent with the methodology included in the 2020 Cost of Service study.

A. Commodity Charge

Each tier is assigned a rate based on the cost of service, which varies according to the sources of water. Local groundwater from the Dyer Road Well Field is IRWD's lowest-cost water while imported water is the highest-cost water. The tables below reflect the budgeted sales by tier allocated to the various sources of water. The sources are arranged in order of the lowest to highest cost. The budgeted sales by tier are based on a three year historical average. Sales are applied to the lowest cost source of water first until the source is fully utilized. The rates per hundred cubic feet (ccf) are developed based on the volume and cost of the blended sources.

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

FY 2021-22 Potable Water

Allocation of Acre Feet by Source of Supply

	Low			
Tiers	Volume	Base Rate	Inefficient	Wasteful
Sales by Tier in AF	19,105	28,221	2,848	2,320
Sources of Water				
Dyer Road Wellfield	19,105	7,495	-	-
Deep Aquifer Treatment System	-	7,376	-	-
Irvine Desalter Domestic	-	3,560	-	-
Wells 21 & 22 Desalter Treatment	-	1,740	-	-
Baker Treatment Facilities	-	6,631	-	-
Imported Water	-	1,419	2,848	2,320
Net Allocation	19,105	28,221	2,848	2,320

Rates per ccf Based on Cost of Service

	Low			
Tiers	Volume	Base Rate	Inefficient	Wasteful
Lowest Cost Source of Water	\$1.47			
Melded Cost of Water		\$2.12		
Loaded Cost of Imported Water			\$3.15	\$3.15
District Wide Conservation		\$0.04	\$0.04	\$0.04
Water Banking				\$2.06
Targeted Conservation			\$1.14	\$4.70
Natural Treatment Systems (NTS)			\$0.58	\$3.90
Total Cost per Tier	\$1.47	\$2.16	\$4.91	\$13.85

All customers pay for District wide conservation programs as they benefit. Costs associated with water banking, NTS, and targeted conservation are paid for by customers in the inefficient and wasteful tiers. The District would not need these programs if all customers remained within budget.

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

FY 2022-23 Potable Water

Allocation of Acre Feet by Source of Supply

Tiers	Low Volume	Base Rate	Inefficient	Wasteful
Sales by Tier in AF	19,394	28,650	2,893	2,357
Sources of Water				
Dyer Road Wellfield	19,394	7,206	-	-
Deep Aquifer Treatment System	-	7,498	-	-
Irvine Desalter Domestic	-	3,658	-	-
Wells 21 & 22 Desalter Treatment	-	1,789	-	-
Baker Treatment Facilities	-	6,750	-	-
Imported Water	-	1,749	2,893	2,357
Net Allocation	19,394	28,650	2,893	2,357

Rates per ccf Based on Cost of Service

Tiers	Low Volume	Base Rate	Inefficient	Wasteful
Lowest Cost Source of Water	\$1.53			
Melded Cost of Water		\$2.22		
Loaded Cost of Imported Water			\$3.22	\$3.22
District Wide Conservation		\$0.04	\$0.04	\$0.04
Water Banking				\$2.04
Targeted Conservation			\$1.07	\$4.41
Natural Treatment Systems (NTS)			\$0.58	\$3.92
Total Cost per Tier	\$1.53	\$2.26	\$4.91	\$13.63

A similar approach is used for setting the recycled rates. Water banking is not included in rate generation for the recycled system because this source of water becomes necessary during an allocation as a result of an extended drought and the watering restrictions do not apply to recycled water. Cost associated with NTS and targeted conservation are paid for by customers in the inefficient and wasteful tiers because the District would not need these programs if all customers remained within budget.

BUDGET

Key Assumptions Fiscal Years 2021-22 and 2022-23

FY 2021-22 Recycled Water

Allocation of Acre Feet by Source of Supply

Tiers	Low Volume	Base Rate	Inefficient	Wasteful
Sales by Tier in AF	13,769	13,715	1,342	905
Sources of Water				
Produced	13,769	9,121	-	-
Groundwater	-	3,975	-	-
Imported Water	-	619	1,342	905
Net Allocation	13,769	13,715	1,342	905

Rates per ccf Based on Cost of Service

Tiers	Low Volume	Base Rate	Inefficient	Wasteful
Lowest Cost Source of Water	\$1.32			
Melded Cost of Water		\$1.76		
Loaded Cost of Imported Water			\$2.57	\$2.57
District Wide Conservation		\$0.04	\$0.04	\$0.04
Targeted Conservation			\$0.00	\$0.65
Natural Treatment Systems (NTS)			\$0.38	\$2.66
Total Cost per Tier	\$1.32	\$1.80	\$2.99	\$5.92

FY 2022-23 Recycled Water

Allocation of Acre Feet by Source of Supply

Tiers	Low Volume	Base Rate	Inefficient	Wasteful
Sales by Tier in AF	14,100	14,044	1,374	927
Sources of Water				
Produced	14,100	8,790	-	-
Groundwater	-	3,975	-	-
Imported Water	-	1,279	1,374	927
Net Allocation	14,100	14,044	1,374	927

Rates per ccf Based on Cost of Service

Tiers	Low Volume	Base Rate	Inefficient	Wasteful
Lowest Cost Source of Water	\$1.34			
Melded Cost of Water		\$1.81		
Loaded Cost of Imported Water			\$2.83	\$2.83
District Wide Conservation		\$0.04	\$0.04	\$0.04
Targeted Conservation			\$0.00	\$0.55
Natural Treatment Systems (NTS)			\$0.38	\$2.65
Total Cost per Tier	\$1.34	\$1.85	\$3.25	\$6.07

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

B. Monthly Fixed Service Charge

The monthly fixed service charge for water and sewer is based on cost of service and there are separate charges for each. These charges are used to pay for operations and maintenance costs, including the inevitable infrastructure replacements.

The fixed water service charge is based on the meter size. The current monthly service charge for a typical residential customer is \$10.35 and will increase \$0.40 per month to \$10.75 for FY 2021-22. The service charge will increase by \$0.40 to \$11.15 for FY 2022-23 to cover increased operating expenses and infrastructure replacement.

The sewer service charge for a typical residential customer is based on the average water usage in the lowest three months of the prior calendar year. This eliminates increased usage in warmer months for landscape. There are three tiers based on average usage.

- 0.0 and 5.0 ccf's;
- 5.1 and 10.0 ccf's; and
- Over 10.0 ccf's

The District's average usage for a typical residential customer is 12 ccf's and would fall within the second tier based on the average lowest three months.

The current monthly service charge for a typical residential customer in the second tier is \$23.50. Sewer expenses and infrastructure replacement contributions will result in an increase of \$0.95 and \$0.90, respectively, to the monthly service charge for FY 2021-22 and 2022-23.

IV. **USE OF OTHER FUNDS**

A. Over-Allocation Revenue

Over-allocation revenue is generated by customers in the inefficient and wasteful tiers. This revenue offsets the following expenses:

- The cost associated with additional imported water purchases;
- Customers who receive the \$2 low volume capacity rebate on the fixed service charge;
- Budgeted conservation expenses including operational expenses (customer service, fleet management, etc.);
- Urban runoff (NTS) and San Joaquin Marsh maintenance expenses;
- Capital projects that support conservation or maintain NTS facilities; and
- Water banking expenses.

Total conservation expense is expected to meet over allocation revenue in FY 2021-22 and 2022-23. The conservation fund is projected to be approximately \$8 million at the end of FY 2022-23.

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

B. Enhancement Fund User Rate Component

The current enhancement fund contribution for both the water and sewer system for FY 2021-22 was a combined \$1.52 per month (\$0.70 for water and \$0.82 for sewer) for the average residential customer. There was no increase built into these rates for FY 2021-22 and 2022-23. It is estimated that the fund balance will be approximately \$70 million at the end of FY 2022-23. The enhancement user component provides funding for new capital in developed improvement districts that no longer have connection fees.

C. Replacement Fund User Rate Component

The current replacement water service charge is \$2.10. The sewer service charge is \$9.31 per month for the average residential customer. Increases built into the rates identified previously will increase the water service charge by \$0.08 in FY 2021-22 and \$0.24 per month in FY 2022-23. Similarly, the sewer rates identified previously include an increase to the service charge of \$0.35 in FY 2021-22 and \$0.56 per month in FY 2022-23. Some major replacement projects will begin construction during this budget cycle. The fund is used to pay for the inevitable future replacement of the District's infrastructure.

V. **NON-OPERATING REVENUES AND EXPENSES**

The District's non-operating revenues are related to income generated from sources other than user rates, which include property taxes, investment income, connection fees, and real estate. A portion of the non-operating revenues pay the debt service for debt issued by the District. Property taxes and connection fees help pay for new infrastructure. Some of the non-operating revenues contribute to the replacement fund, which is used to pay for the inevitable replacement of existing infrastructure. The District sets the replacement fund monies aside in advance to avoid significant potential future rate impacts. The non-operating revenues and expenses exclude non-cash items, fair value changes, and Pension Benefit Trust.

A. Revenues

Primary assumptions for FY 2021-22 and 2022-23 for each of the revenue categories are as follows:

- Property taxes – 3.4% and 2.8% growth respectively, in projected assessed values.
- Investment income – 0.55% and 0.70% average interest rate and an average cash balance of \$354.8 million and \$304.3 million, respectively.
- Connection fees – Based on current projections received from major developers.
- Real estate income – 2.0% growth for each fiscal year on commercial and residential income. FY 2021-22 and 2022-23 includes income from the Sand

BUDGET

Key Assumptions *Fiscal Years 2021-22 and 2022-23*

Canyon Professional Center building, half leased for three (3) months and fully leased for nine (9) months, respectively.

- Other income – includes lease revenue and other miscellaneous revenue.

B. Expenses

Primary assumptions for FY 2021-22 and 2022-23 are as follows:

- Interest expense – 3.70% average fixed debt rate for each fiscal year. 0.15% and 0.40% average variable debt rate, respectively; and
- Real estate expense – 2.0% growth for each fiscal year excluding depreciation as real estate is based on fair market value. The budget for each fiscal year reflects expenses for the Sand Canyon Professional Center building, including commission expense for leasing the building.

GENERAL MANAGER'S OFFICE

OPERATING BUDGET SUMMARY

Program Description

The General Manager's Office implements the policies established and direction provided by the Board of Directors and, in so doing, provides overall direction to staff to complete that effort. The office also includes Government Relations which develops and advocates for policies at the federal, state and local levels that promote a reliable high quality and cost effective water supply for Irvine Ranch Water District (IRWD) customers, and demonstrates the efficient use of resources. The Government Relations staff represents IRWD's policies and provides technical expertise to the legislative process, particularly on issues of water recycling, water use efficiency, water rates, water supply reliability and governance, among others.

The General Manager's Office also:

- Provides direct services to and communications with the Board of Directors;
- Produces and distributes Board and Board Committee meeting packets;
- Schedules all Board and Board Committee, and annual/special independent corporation meetings;
- Produces the minutes of all Board meetings;
- Maintains all Board resolutions;
- Schedules other meetings and functions on behalf of the Board members and makes travel arrangements, as needed;
- Maintains records of all inter-agency agreements, deeds and easements;
- Maintains records for the various independent corporations;
- Shapes, guides and engages on local, state and federal policies, legislation and regulations;
- Manages and coordinates the legal resources utilized by the District;
- Responds to, or directs response to, all media inquiries; and,
- Responds to, or directs response to, all public information requests and subpoenas.

The General Manager's Office works with the Board of Directors and staff to establish the District's strategic vision for all departments. On February 5, 2021, staff reviewed the 2021 Goals and Target Activities with the Board. The Goals described below reflect the *Strategic Objectives*, as well as the *Mission, Vision and Values* of Irvine Ranch Water District as adopted by the Board. The District's Major Goals for calendar year 2021 are summarized as follows:

Major Goals

1. Optimize and protect local groundwater utilization.
2. Evaluate and invest in projects and programs that will enhance future long-term water supply reliability and resiliency to climate change.

GENERAL MANAGER'S OFFICE

OPERATING BUDGET SUMMARY

3. Optimize use of Irvine Lake as a water resource facility for IRWD and its current and future partners.
4. Develop water banking supplies for IRWD by working with current and future partners.
5. Develop and implement the Kern Fan Groundwater Storage Project.
6. Develop water recycling facilities and applications for optimal benefit.
7. Maximize resource recovery from fully functional biosolids and other resource recovery facilities.
8. Improve energy service reliability, manage demands, control greenhouse gas emissions, and control costs.
9. Maximize watershed protection.
10. Ensure financial and rate stability.
11. Identify, assess and implement new technologies, systems, and facilities to improve operating efficiency.
12. Enhance customer communications.
13. Maximize water use efficiency in the community.
14. Recruit, develop and retain a highly skilled, motivated, and educated work force.
15. Guide and lead local, state and federal policies and legislation.
16. Engage and shape policies and regulations put forth by local, state and federal agencies.
17. Collaborate with other agencies and entities through leadership and innovation.
18. Implement opportunities that enhance safety, security, and emergency preparedness throughout the District.

Irvine Ranch Water District Strategic Objectives

Customer Satisfaction

Provide reliable, responsive, satisfying service to our customers in all aspects of our operations.

Water Reliability

Provide a continuous, reliable supply of water to our current and future customers that meets their needs and expectations, and accounts for changes in climate variability.

Water Quality

Deliver potable and non-potable water that meets all regulatory standards and customer requirements, and improve the water quality of local urban runoff.

Sewer Reliability

Plan, design, operate and maintain the sewer system in a consistent, reliable, and cost effective manner.

Cost Effectiveness

Optimize all of the District's activities to provide service at the lowest possible cost with high standards of quality and reliability.

Employee Satisfaction / Development

Provide employees with a working environment and the tools needed to optimize performance, productivity, and satisfaction and encourage individual career development and enjoyment.

Environmental Commitment

Conduct our business so that we either enhance our environment or minimize negative impacts.

Innovation

Optimize the use of technology and innovation in order to constantly improve processes to provide the most reliable and cost effective services to our customers.

Resource Recovery

Maximize the efficient recovery of resources including the recycling of water, recovery of energy, and use of organic materials for the benefit of our customers and the community.

Communication

Provide clear, accurate, transparent, and timely communication of information regarding our services, projects, finances, and activities utilizing multiple disciplinary tools that include educational programs, publications, electronic media and personal contact.

Water Policy

Develop and advocate for policies at the local, state, and federal levels that promote a reliable, high quality, and cost effective water supply for our customers, as well as the efficient use of resources.

Climate Change

Pursue policies and programs that advance IRWD's resilience to climate change.

Irvine Ranch Water District

Mission, Vision, and Values

Mission

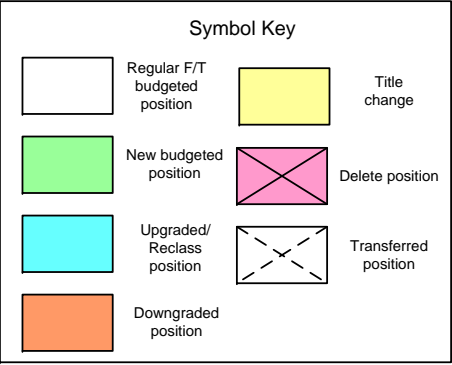

The mission of Irvine Ranch Water District, a public agency, is to provide high quality water and sewer service in an efficient, cost effective, and environmentally sensitive manner that provides a high level of customer satisfaction.

Vision

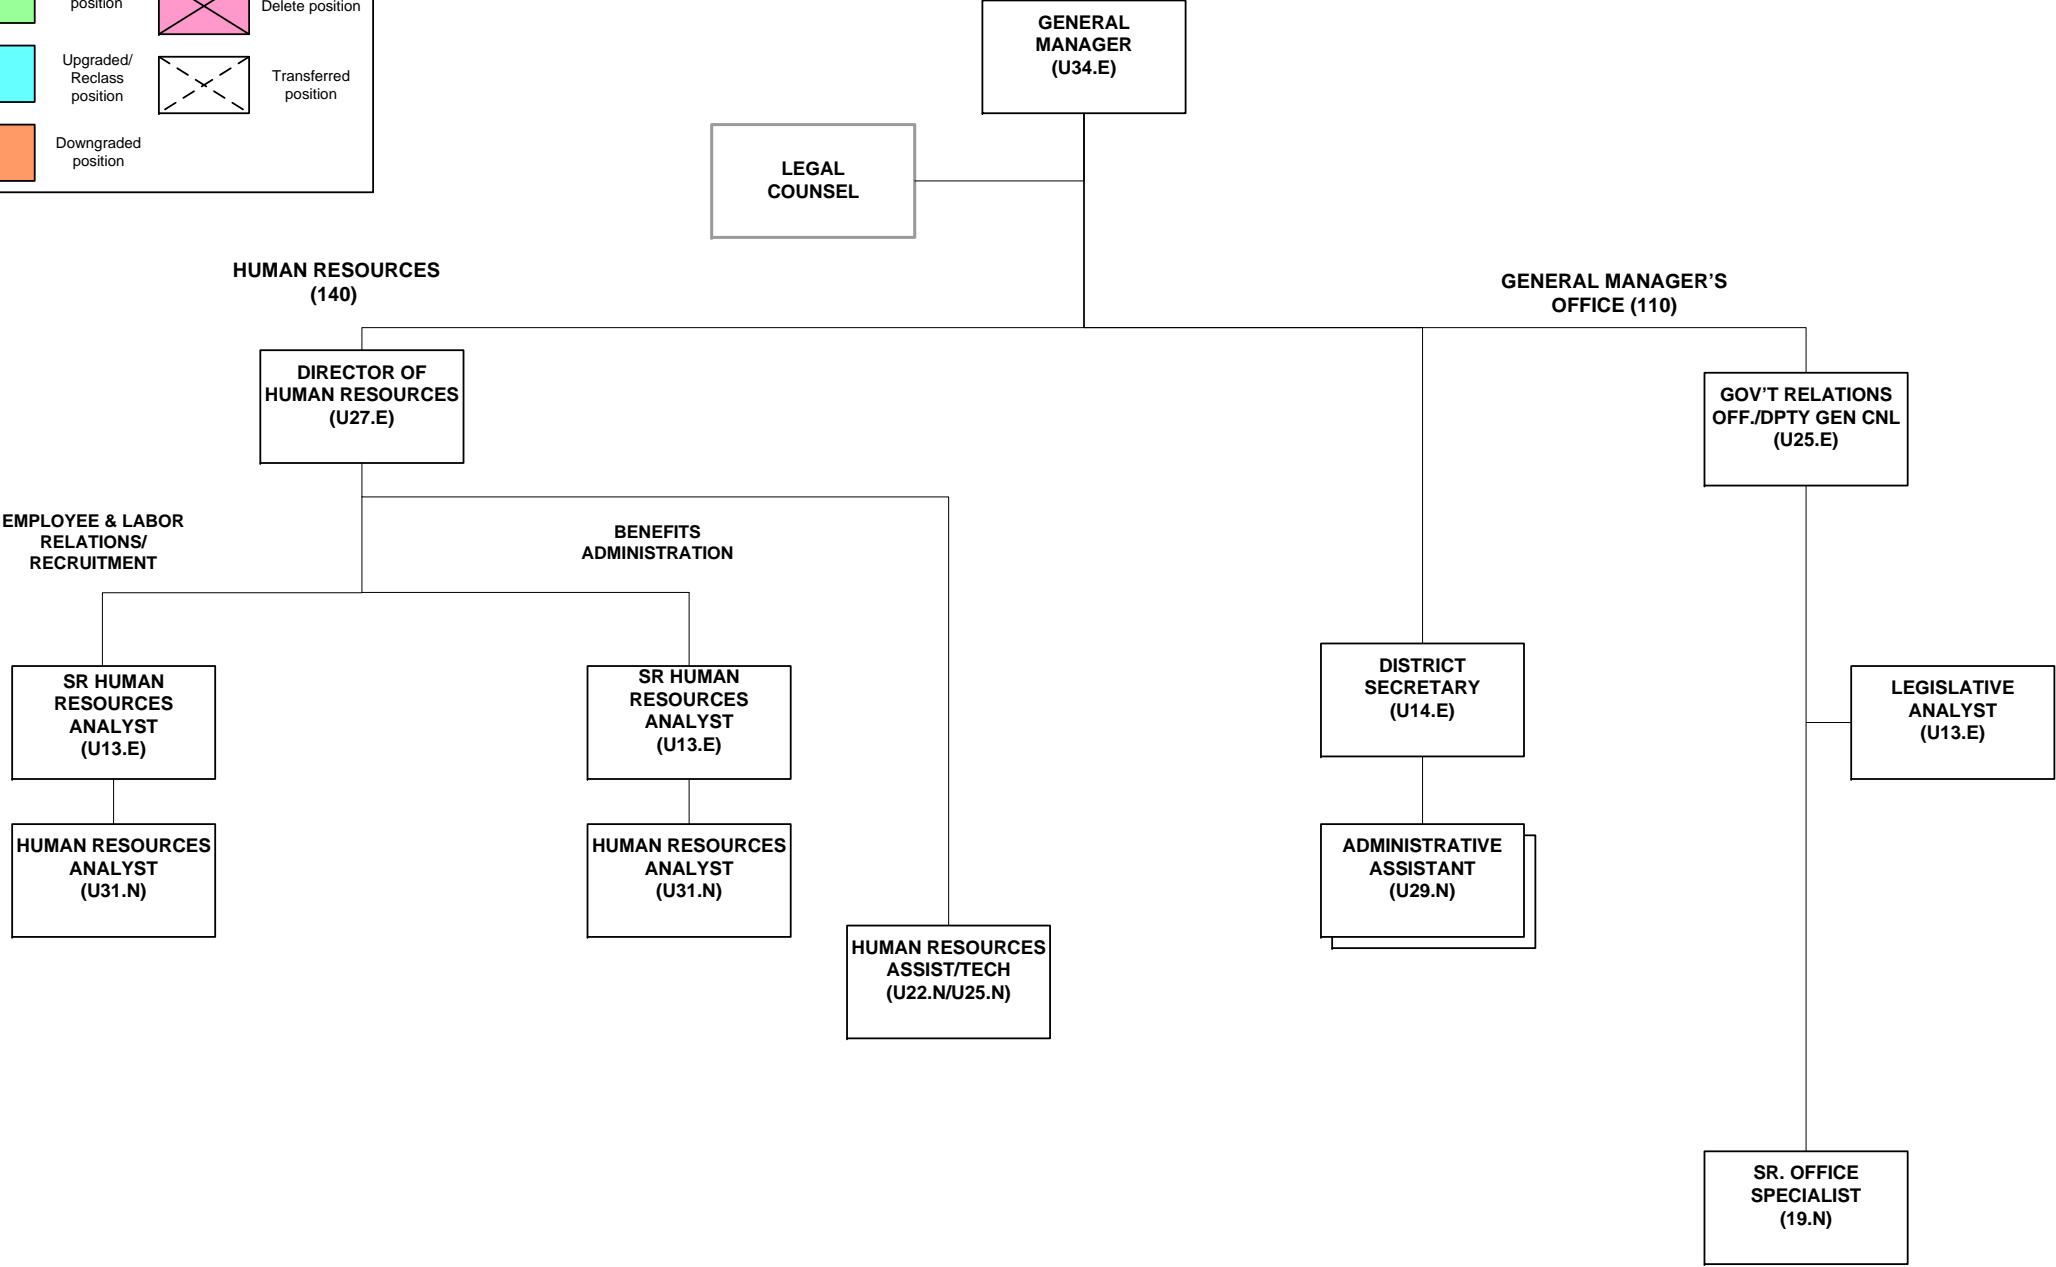

The Irvine Ranch Water District's vision is to achieve greater customer and employee satisfaction, increased reliability and resource conservation, and excellent external relationships with suppliers and others.

Values

Customer Service	We are dedicated to delivering superior service to our customers.
Employee Development	We are committed to recruiting and retaining top quality employees and to providing a workplace environment, training, and a recognition and reward system that enhances employee performance and satisfaction.
Resource Management	We are dedicated to providing, conserving, and maximizing the efficient use and reuse of water and renewable resources to the benefit of our customers and to enhance the environment.
Community Leadership	We will share our resources with the community through education, policy leadership and employee involvement.

HUMAN RESOURCES

OPERATING BUDGET SUMMARY

Program Description

The Human Resources function provides comprehensive organizational development and personnel management services to maximize the potential of the District's human resources and overall employee efficiency, effectiveness and satisfaction. The Human Resources program is responsible for attracting and recruiting a highly qualified work force and working in concert with the organization leadership to develop and sustain a motivated, productive organization.

Human Resources ensures the delivery of a competitive compensation and benefits package; continuous improvement through employee training; fair and consistent employee policies, procedures and guidelines; and an ongoing employee reward and recognition program tied to the achievement of stated goals and objectives. Human Resources is responsible for the employee relations and labor relations processes and facilitates communication and trust with staff through collaboration and the open exchange of ideas.

Major Goals

- Update IRWD hiring practices and procedures.
- Partner with management to assess training and development needs of IRWD employees to ensure a continued supply of highly skilled labor; and
- Evaluate District Policies and Procedures.

FINANCE, TREASURY AND PROCUREMENT

OPERATING BUDGET SUMMARY

Program Description

The Finance Department is responsible for ensuring the financial and rate stability of the District. This includes developing rates and fees that support the long-term sustainability of the District. Finance maintains the official accounting records of the Irvine Ranch Water District and provides financial management of the District's income and real estate investments, new and existing debt issues, and deferred compensation and Pension Benefit Trust plans. The department provides a wide range of accounting and financial services including payroll, accounts payable, accounts receivable, project accounting, financial analysis, financial reporting, coordination of the District's annual operating budget and preparation of the Comprehensive Annual Financial Report (CAFR). The Finance Department also oversees risk management claims and insurance issues as well as District security.

The mission of the Finance Department is to safeguard assets and provide financial and accounting services in a timely, reliable, and cost-effective manner that meet the requirements of the District's internal and external customers.

Major Goals

ACCOUNTING AND BUDGETING

- Prepare and submit accurate financial reports and relevant tax returns to federal, state, county and district agencies within established legal deadlines and requirements;
- Prepare and submit accurate and timely financial reports to the Finance and Personnel Committee and the District's Board of Directors;
- Coordinate the District's annual financial statement audit;
- Prepare the annual CAFR;
- Prepare the Operating Budgets for Board of Director approval including setting adequate rates to ensure long-term financial strength and stability;
- Ensure user rates are proportional with costs of service and support the current rate structure;
- Lead customer noticing effort for Proposition 218 compliance (operating budget, rates and charges);
- Ensure all payments and payroll checks are accurate and timely;
- Transition vendors to electronic payments as appropriate; and,
- Identify and implement enhanced financial reporting and business intelligence capabilities.

LONG-TERM FINANCIAL PLANNING

- Continue to refine and update the cash flow strategic model to ensure sufficient funding for future capital needs;
- Provide analytical support and analysis to Finance, other departments and outside constituents as requested; and,
- Explore financial modeling for acquisition, financing and construction of major projects.

FINANCE, TREASURY AND PROCUREMENT

OPERATING BUDGET SUMMARY

INVESTMENTS AND CASH MANAGEMENT

- Invest District funds in a prudent and professional manner that will provide maximum security of principal, sufficient liquidity to meet working capital requirements and an optimal rate of return;
- Prepare accurate investment reports and the annual investment policy for the Board of Directors and other interested parties within established time frames; and,
- Maintain and enhance short and long-term cash flow models and cash management practices.

REAL ESTATE

- Monitor and report on the performance of all real estate investment assets;
- Manage leasing and related property management activities for all District commercial and residential real estate investments;
- Evaluate development and disposition opportunities of other District properties;
- Assist with acquisition and agricultural leasing activities related to water supply reliability properties; and,
- Resolve outstanding deed, access and other contractual restrictions related to real property.

DEBT ISSUANCE AND ADMINISTRATION

- Issue long-term debt to fund capital projects as needed, and evaluate and recommend alternative opportunities for current District debt issues when appropriate;
- Manage District letters of credit supporting variable rate debt; evaluate new credit support opportunities when appropriate;
- Prepare and submit required continuing disclosure materials for District debt issues to appropriate parties;
- Manage variable rate debt portfolio including periodic remarketings, monitoring remarketing agents of District debt and making adjustments as appropriate; and,
- Execute, manage and report on interest rate swap positions and transactions as appropriate.

RISK MANAGEMENT/INSURANCE

- Ensure the District has adequate insurance to appropriately safeguard assets; and,
- Manage the personal injury and property claims process and coordinate legal matters in a timely manner.

SECURITY

- Assess and implement measures to ensure the security of District employees, facilities and customers;
- Manage third-party security contractor relationships including monitoring and response to field and incident reports;
- Monitor and enhance alarm/security access systems for all District facilities;
- Respond to reported incidents to provide security assistance as required; and,
- Act as District liaison with law enforcement and federal security agencies.

FINANCE, TREASURY AND PROCUREMENT

OPERATING BUDGET SUMMARY

PENSION/DEFERRED COMPENSATION

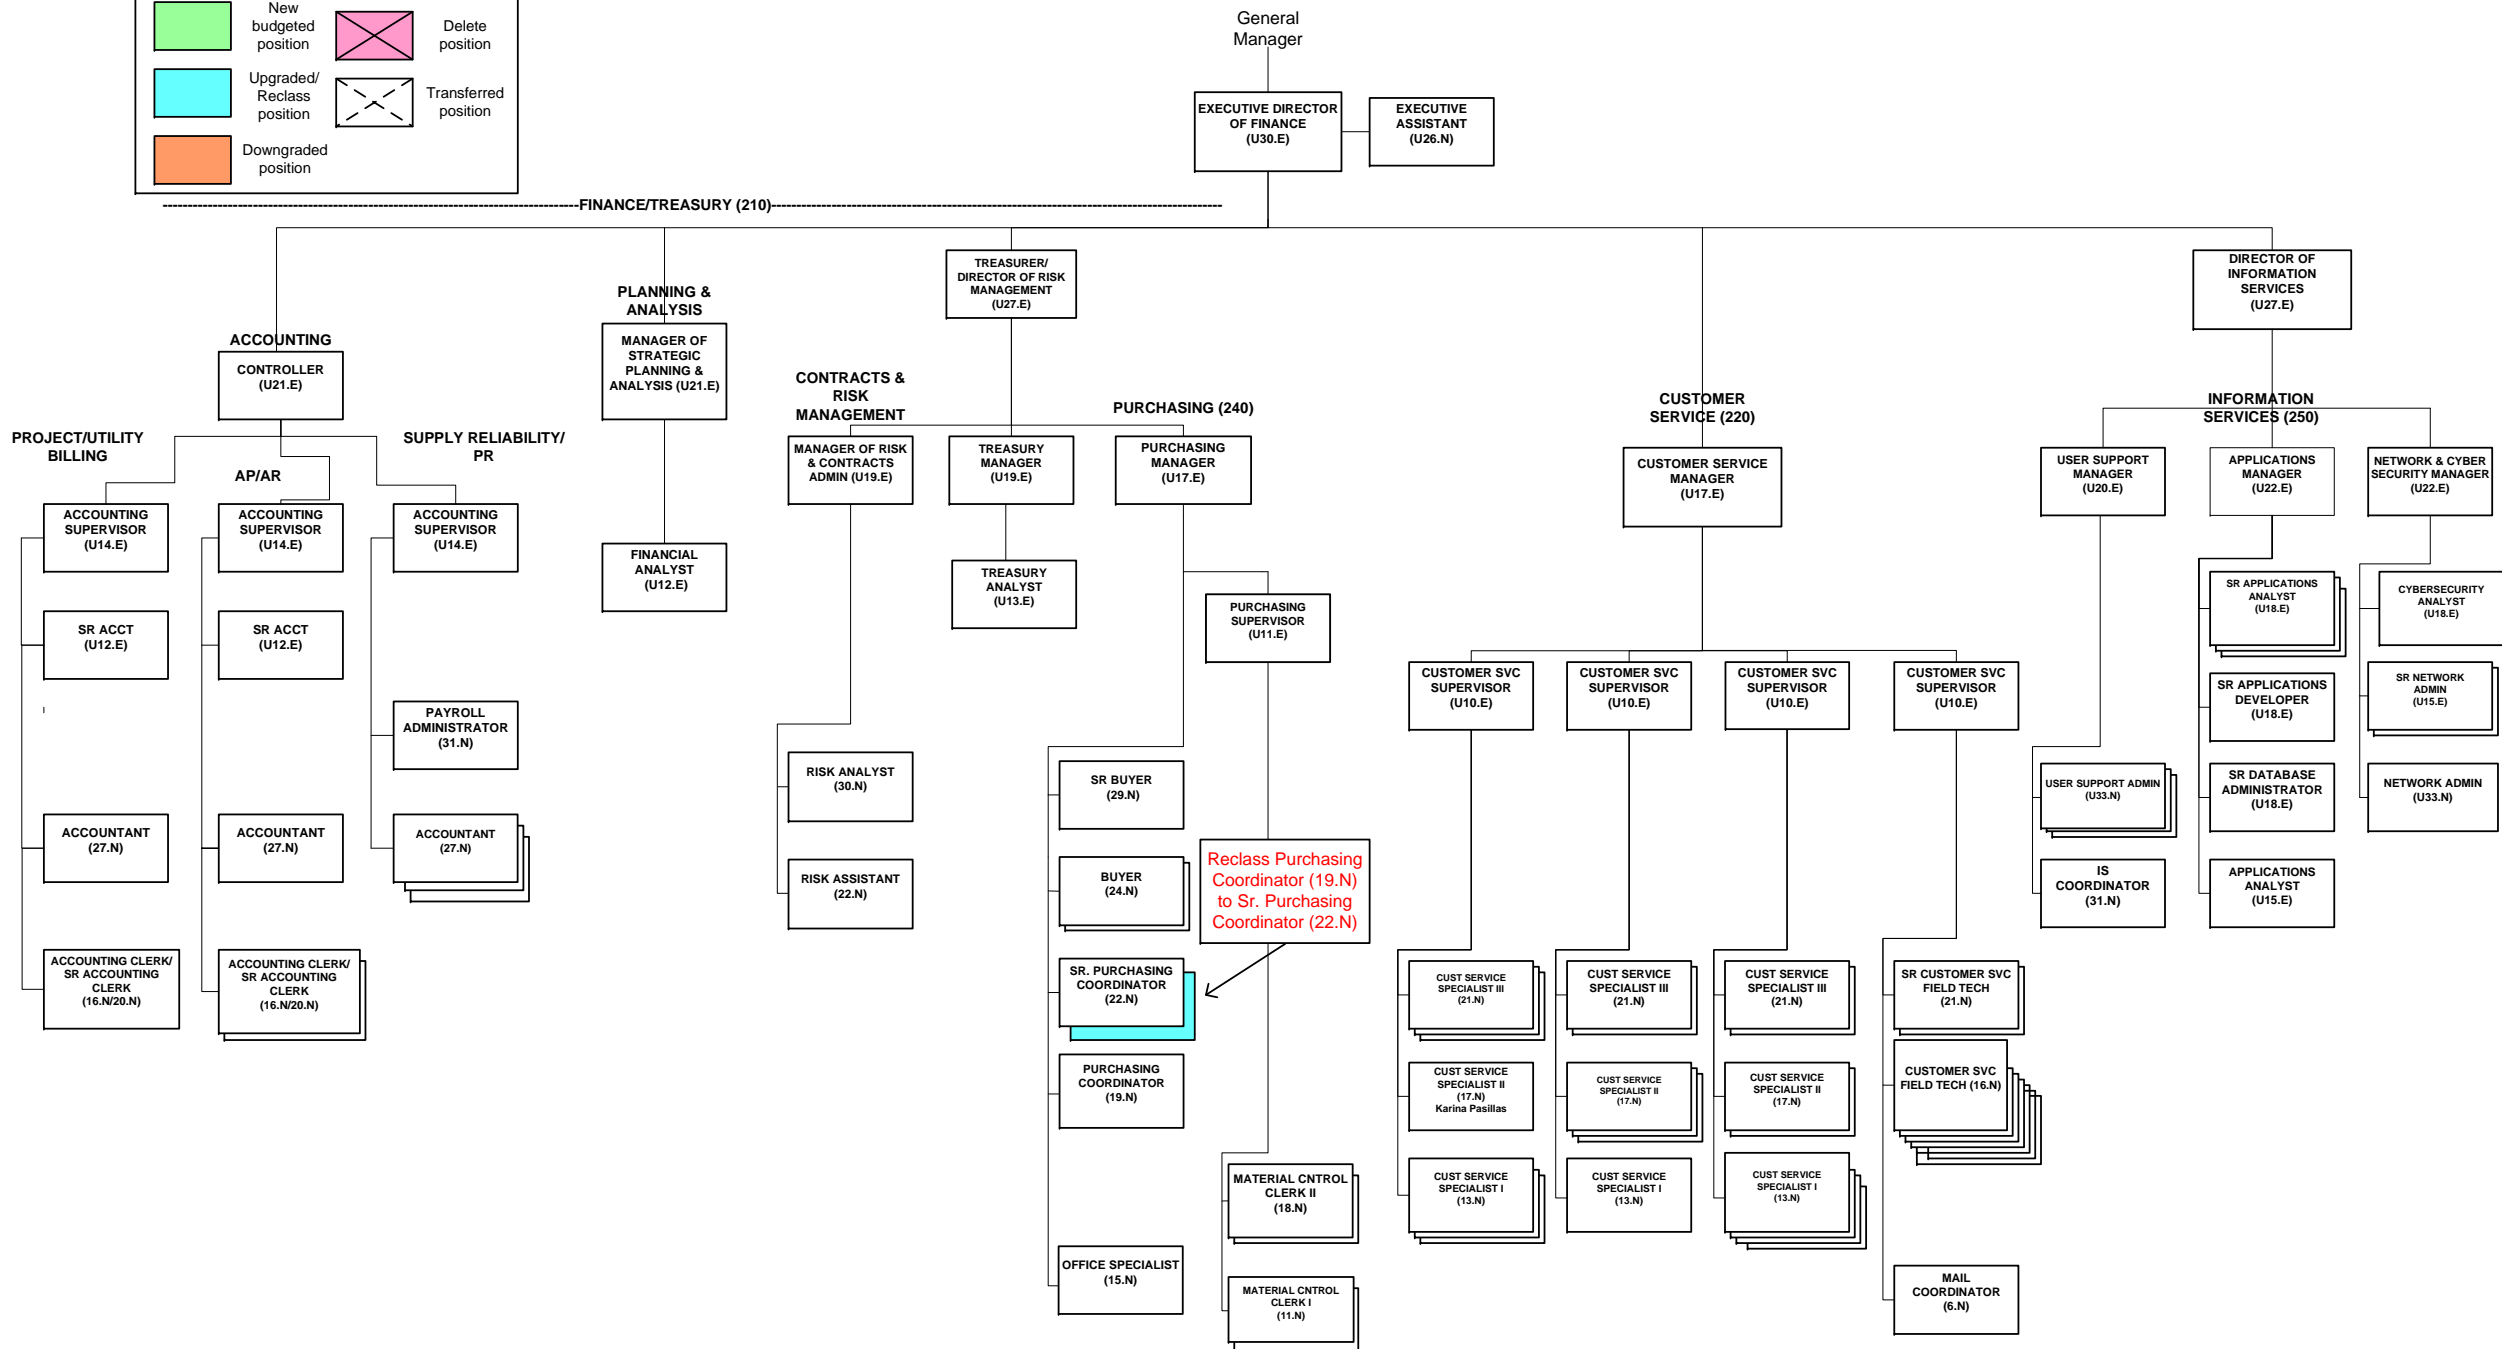

- Maintain and invest Pension Benefits Trust assets and report portfolio performance and recommendations to the Retirement Board;
- Evaluate and monitor Trust Advisor performance; recommend changes in advisory services as appropriate; review additional opportunities to optimize Pension Benefits Trust performance; and,
- Oversee investment performance, reporting and employee education activities related to the District's deferred compensation plans.

PURCHASING

- Purchase materials, supplies and services in a timely manner with appropriate consideration given to quality and best pricing;
- Process all material/service requests timely and efficiently;
- Optimize Maximo system; maintain appropriate warehouse inventory and review/adjust slow moving inventory;
- Streamline business procurement processes and documentation while ensuring appropriate controls on all warehouses;
- Assist with facilitating the design and construction of warehouse expansion space;
- Lead the District record retention efforts;
- Provide ongoing customer support for procurement and inventory systems; and,
- Evaluate and expand participation in cooperative purchasing agreements as appropriate.

CUSTOMER SERVICE

OPERATING BUDGET SUMMARY

Program Description

The mission of the Customer Service Department is to provide exceptional customer satisfaction by providing reliable, courteous and efficient service. The Customer Service Department provides utility billing, account support and mail distribution services.

Major Goals

CUSTOMER SERVICE

- Deliver exceptional customer service both internally and externally;
- Review and resolve billing inquiries and adjustments in a timely manner including education of customers on water budgets;
- Receive and process all orders for new service and discontinuation of service;
- Enhance customer communication and payment options through an improved customer web access portal;
- Process new meter applications;
- Process payments for temporary construction meters, fire flow tests, and customer water bills;
- Coordinate and process all meter reads to ensure accurate billing;
- Process variance requests for additional water budgets;
- Respond to field problems (leaks, no water complaints, high/low pressure, water quality, sewer problems, line breaks, etc.) with a sense of urgency;
- Manage delinquent customer accounts and perform shut-offs as required;
- Provide customers with an accurate bill that is easy to read;
- Distribute customer satisfaction surveys and maintain 90% customer satisfaction;
- Remain compliant with all State, Local and Federal laws pertaining to utility billing;
- Ensure that customers have an accurate understanding of the IRWD rate structure; and,
- Maintain accurate customer data to ensure timely billing and notification.

INFORMATION SERVICES

OPERATING BUDGET SUMMARY

Program Description

The mission of the Information Services Department is to research, develop, integrate and support reliable, secure, cost effective information systems that improve and enhance current and future business requirements of customers and provide a high level of customer satisfaction. The Information Services Department provides implementation, management, security and support for the District's information systems, voice and data communications systems.

Major Goals

INFORMATION SERVICES

- Provide helpful, courteous and timely support to all District staff;
- Provide internal and external software training that meets the needs of District staff;
- Provide a reliable network of servers, personal computers, mobile devices, printers and software applications that meet the needs of District staff;
- Provide reliable voice, data and wireless communications services;
- Implement new and improve existing software applications to meet the requirements of District staff;
- Ensure District IS assets, including network and applications, are maintained to current cybersecurity standards;
- Pursue and implement appropriate transitions of applications to the cloud;
- Complete scheduled hardware and software upgrades to District servers, personal computers, mobile devices, printers, network equipment and software applications;
- Implement the technical upgrade of Oracle Customer Care and Billing software;
- Implement the technical upgrade to the cloud of Oracle Business Intelligence Enterprise Edition (OBIEE);
- Migrate Micro Focus Open Enterprise Server to Microsoft Active Directory, SharePoint and OneDrive;
- Implement recommendations from the Cyber Security Risk Assessment and Response Plan;
- Implement 8x8 cloud-based Unified Communications (UC) telephony application, including contact center; and,
- Monitor industry trends for best practices and opportunities for improved system related technologies.

ENGINEERING

OPERATING BUDGET SUMMARY

Program Description

The Engineering Department provides planning, design and construction coordination to develop, and maintain, the water, sewage and recycled water facilities necessary to provide the highest level of service to the customers of the District. The Engineering Department also provides technical support to other District departments.

Planning: The Planning and Geographic Information Systems (GIS) group of the Department is responsible for all master planning, Capital Improvement Program asset management, and the biennial Capital Budget and Long-Term Capital Programs. The Planning group also oversees water, sewage and recycled water demand projections, water supply planning, and preliminary facility planning studies for developing new, and refurbishing existing, facilities. GIS services are provided to other District departments including the development and support of GIS based applications and facility and atlas maps, maintenance of the District's digital record drawings system, and spatial analysis. The Planning group is also responsible for managing the District's real property and rights of way.

Capital Projects: The Capital Projects group designs and manages construction of major water, sewage and recycled water treatment, distribution and transmission facilities necessary to provide the quality and reliability of service to existing and future customers of the District. The Capital Projects group is responsible for the expansion and improvement of water and sewage treatment facilities; the design and construction of wells, pipelines, storage facilities, pump stations, and sewage lift stations; and the design and construction of integration facilities for areas acquired through agency consolidations.

Development Services: The Development Services group facilitates the land development process within the District by designing the water, sewage and recycled water facilities necessary to support land development. The construction of these facilities is coordinated to ensure that the facilities are available to meet development schedule requirements. Temporary and interim facilities, when necessary, are also coordinated through this group. The Development Services group also reviews developer submittals for quality and conformance with District requirements and assesses and collects appropriate fees.

Inspection Services: The Inspection Services group provides construction inspection services to other groups of the Engineering Department to ensure the highest level of constructed quality. These services include constructability review, pre-construction administration, progress payment processing, field inspection, change order evaluation and processing, and final acceptance coordination. The Inspection Services group is also responsible for coordinating specialized construction support services including surveying and geotechnical testing and inspection.

ENGINEERING

OPERATING BUDGET SUMMARY

Operations Support: The Operations Support group is responsible for providing engineering support to other District departments. The Operations Support group generally focuses on the expansion and rehabilitation of existing District facilities and provides design and construction management of small to medium size water, sewage and recycled water facilities. This group also includes the process control team that conducts research, develops projects and provides process control and technical support to enhance the performance of the District's domestic and recycled water supply, treatment, distribution, and storage facilities. The process control team also provides similar support to the District's sewage collection/treatment, recycled water and urban runoff treatment systems and supports District-wide regulatory compliance objectives.

Major Goals

PLANNING

- Implement Capital Improvement Program Asset Management processes and procedures;
- Integrate the Replacement Planning Model with the Financial and Engineering programs;
- Provide Interagency technical support;
- Groundwater Workplan Update; and
- Expand GIS based applications and cloud infrastructure.

CAPITAL PROJECTS

- LAWRP Modernization Phase 1 design;
- Syphon Reservoir Improvements design;
- Santiago Creek Dam Outlet Tower and Spillway Replacement design;
- SAC Baker Pipeline Relocation design and construction;
- Zone A to Rattlesnake Reservoir Pump Station construction;
- Primary Disinfection Facility Sodium Hypochlorite Storage and Feed construction;
- Santiago Canyon Fleming Reservoir and Pump Station design and construction;
- Lake Forest Zone B-C Recycled Water Pump Station design and construction;
- Well OPA-1 PFAS Treatment design and construction; and
- Well ET-1 PFAS Treatment design and construction.

DEVELOPMENT SERVICES

- Heritage Fields Infrastructure design and construction;
- Orchard Hills Infrastructure design and construction;
- Innovation Park Infrastructure design and construction;
- Nakase Infrastructure design and construction;
- Tustin Legacy Infrastructure design and construction; and
- Irvine Business Complex Redevelopment Infrastructure design and construction.

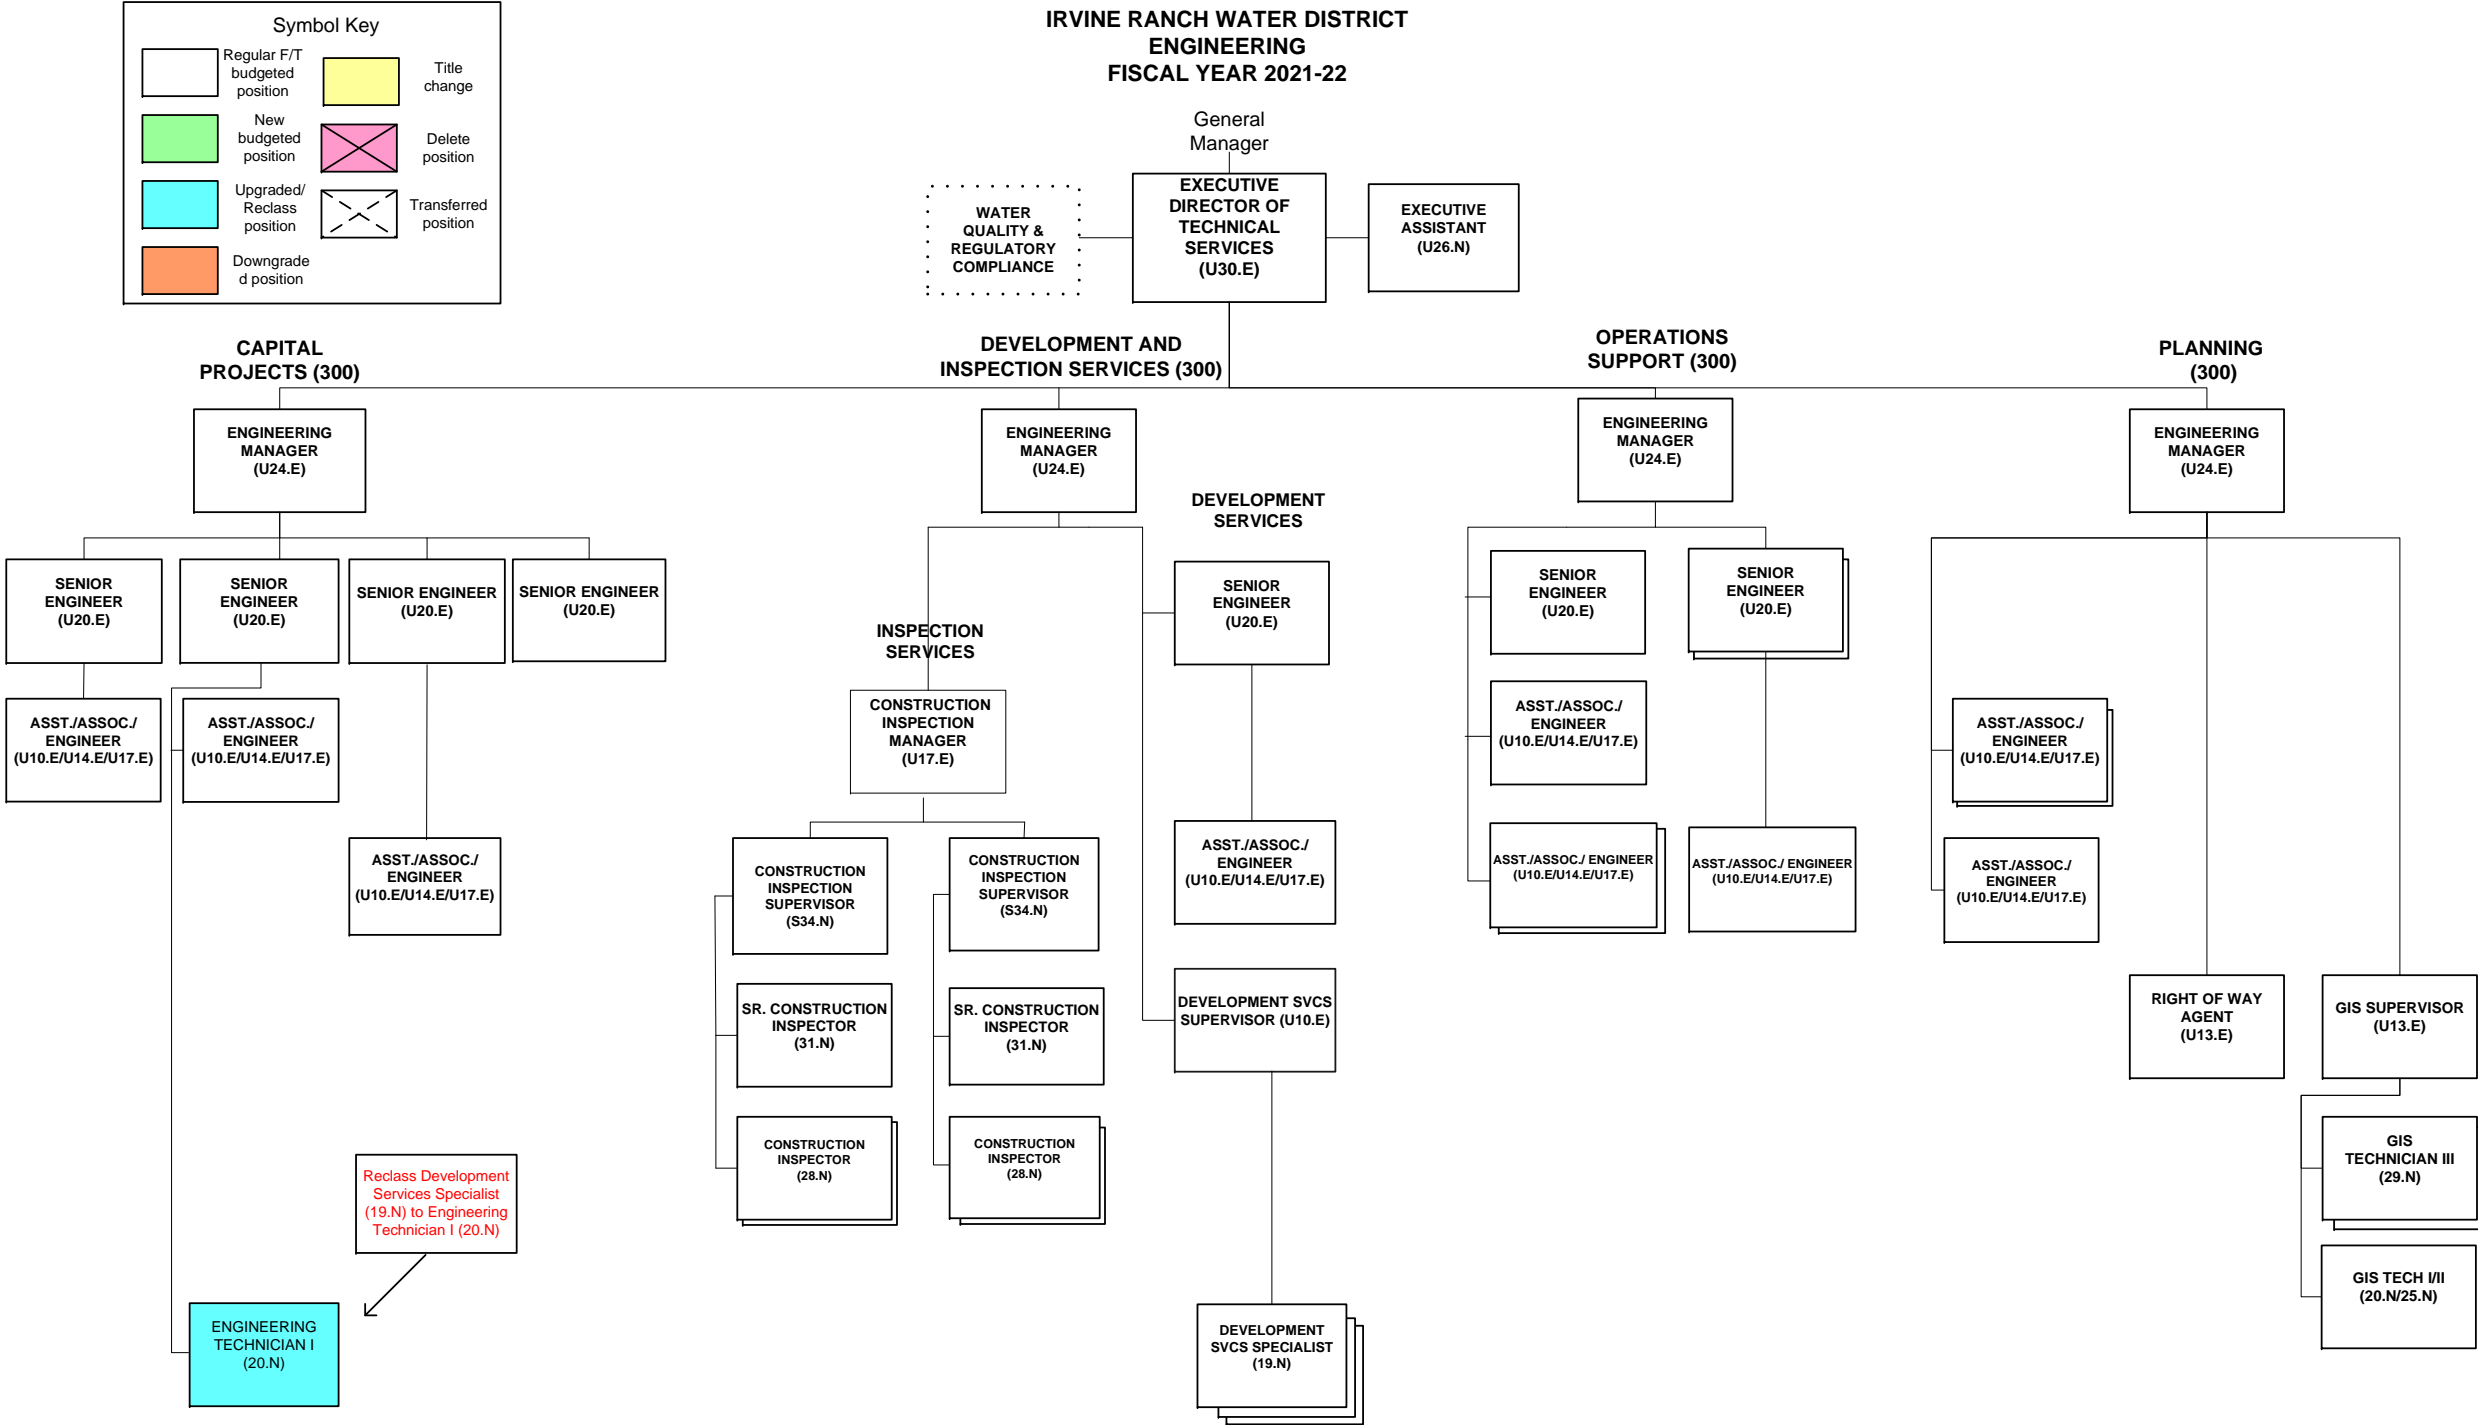

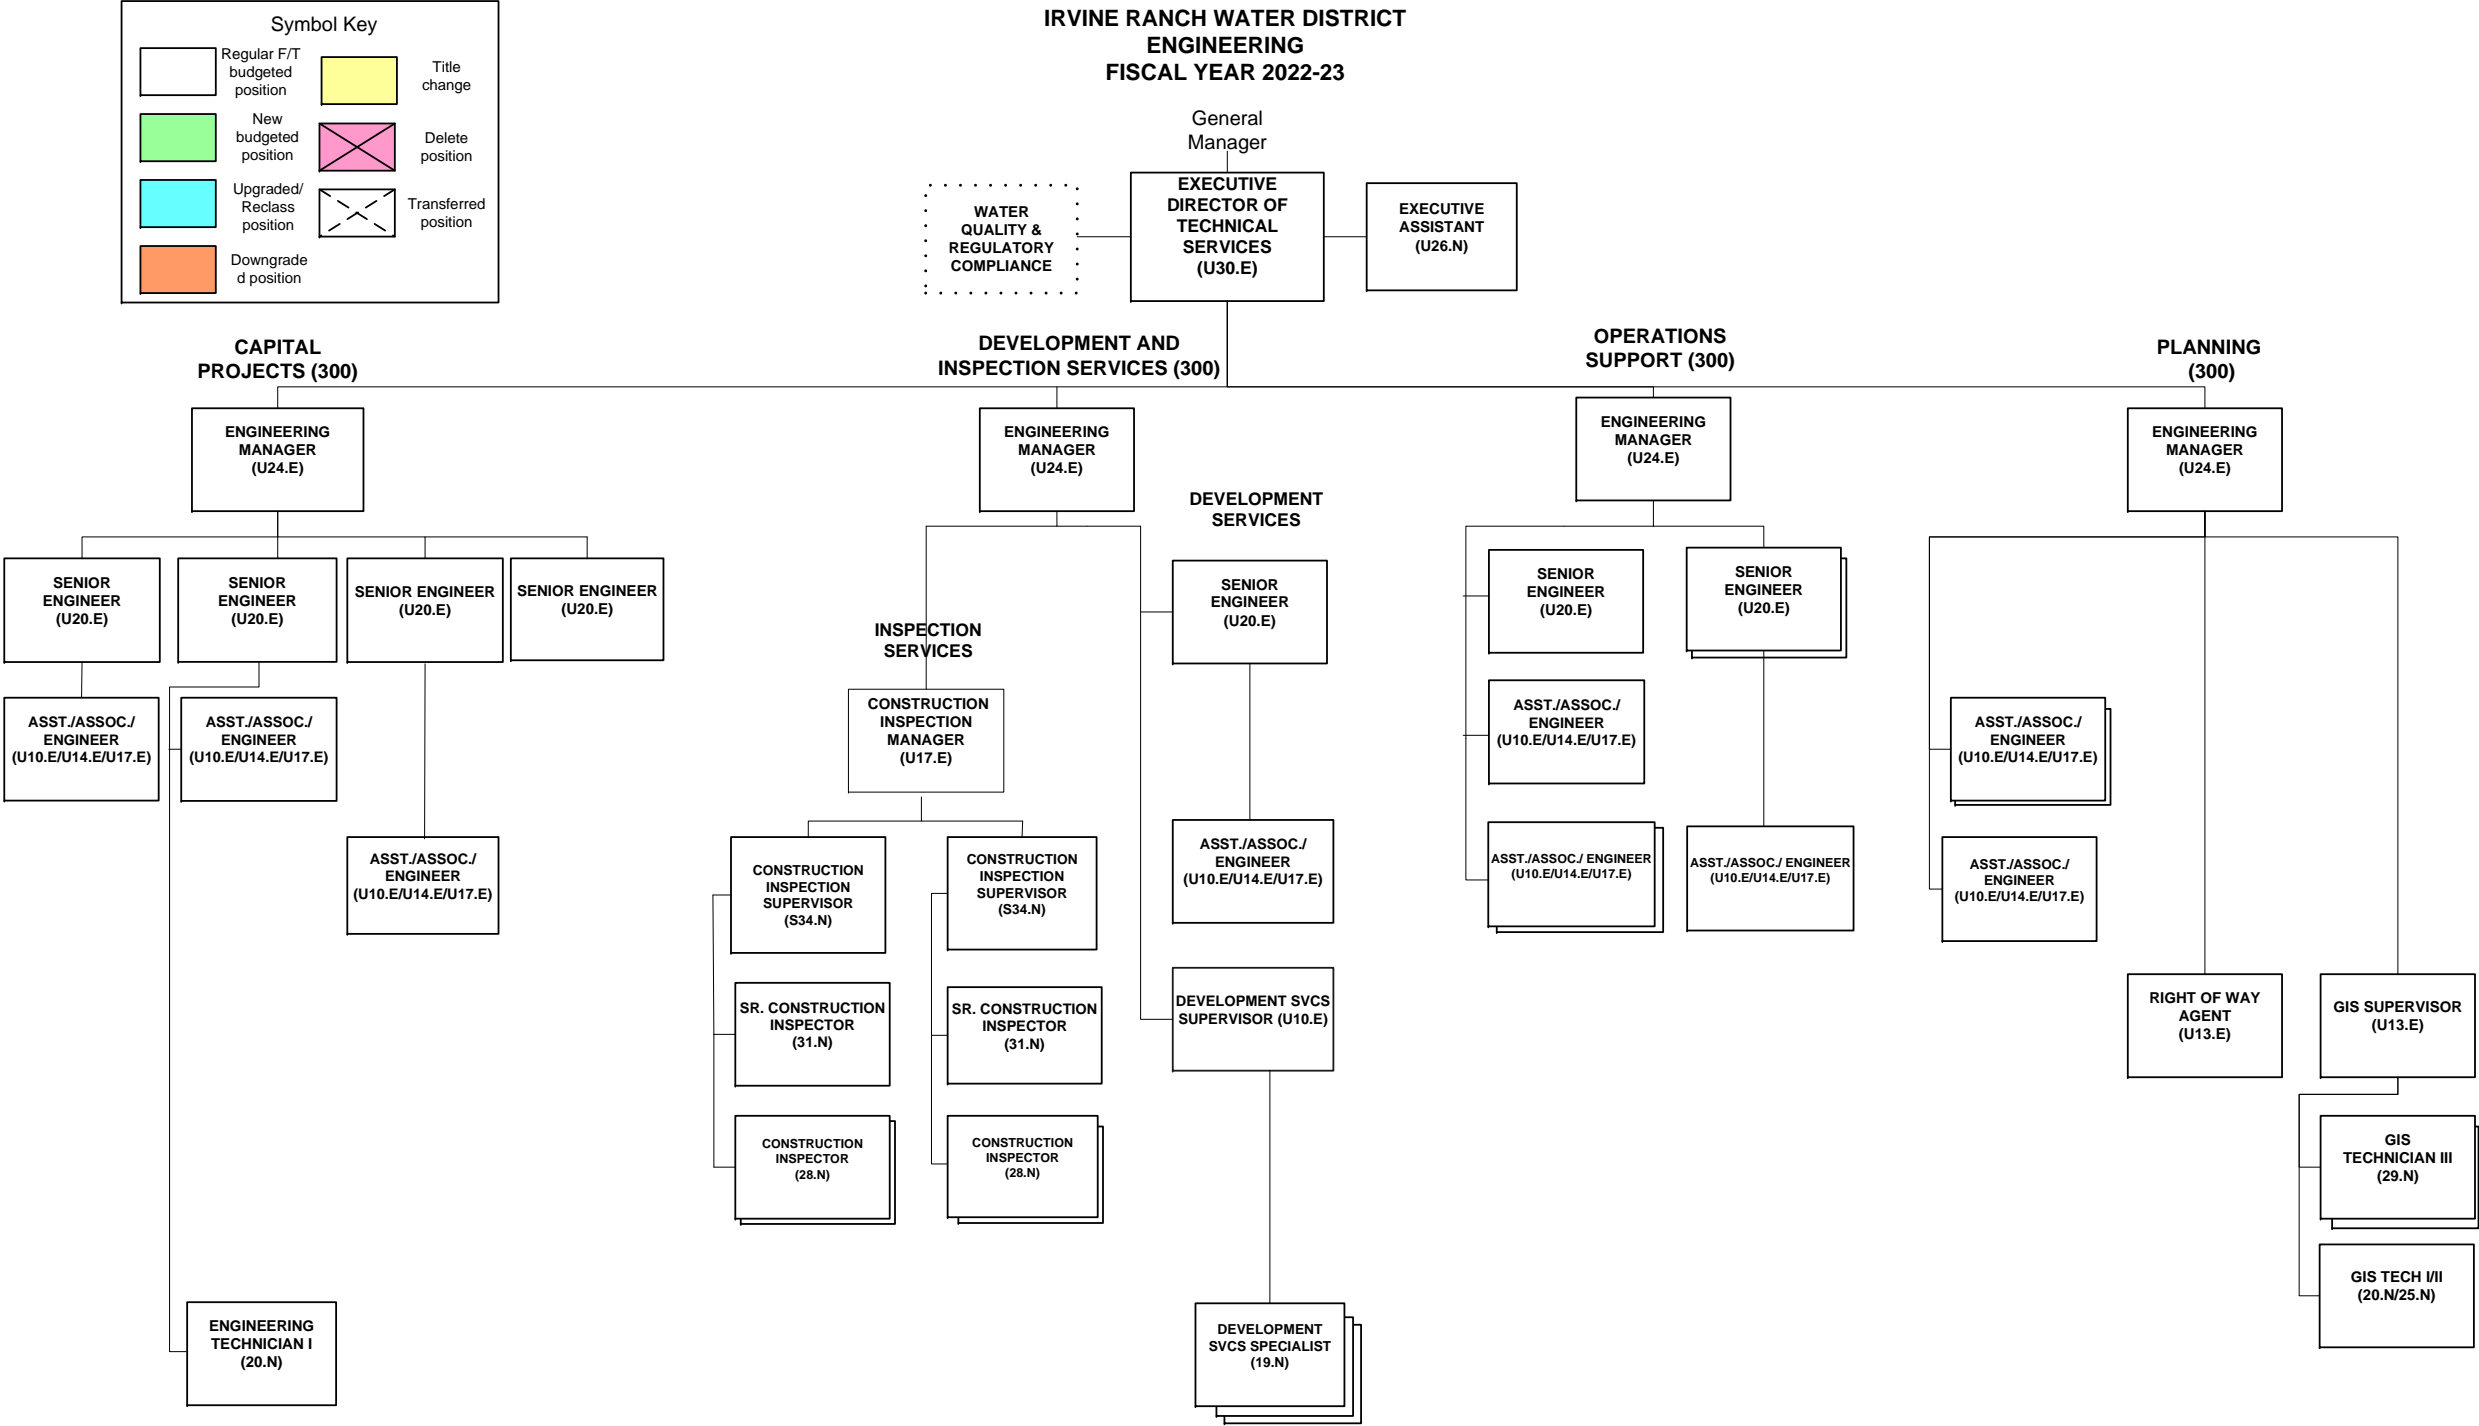

ENGINEERING

OPERATING BUDGET SUMMARY

OPERATIONS SUPPORT

- Santiago Canyon Area Pump Stations Improvements construction;
- Operations Center CNG, Diesel and Gasoline Fueling Facility design and construction;
- Emergency Fuel Storage design and construction;
- Turtle Rock Reservoir Management System design and construction;
- MWRP Tertiary Treatment Facility Rehabilitation design and construction;
- Operations Center Warehouse Expansion design and construction;
- Well Rehabilitation design and construction;
- Sewer Siphons Improvements construction;
- San Joaquin Recycled Water Reservoir Filtration construction;
- Crystal Cove Recycled Water PRV and Pipeline Improvements design and construction;
- Woodbridge Recycled Water Distribution Pipeline Replacement design and construction;
- Lake Forest Woods Sewer Access Improvements design and construction; and
- Evaluate process control and water quality monitoring data to assess, correct or recommend performance improvement of membrane treatment facilities.

WATER QUALITY and REGULATORY COMPLIANCE

OPERATING BUDGET SUMMARY

Program Description

The Water Quality and Regulatory Compliance Department provides laboratory and compliance related support to the operations and maintenance of the domestic and recycled water distribution, sewage collection systems, treatment facilities, and biosolids and energy recovery facilities. The department provides internal and external customers with field and facility monitoring, reproducible data of known and documented quality for regulatory monitoring and reporting, process control, research projects and capital projects utilizing state-of-the-art equipment and certified, analytical methods.

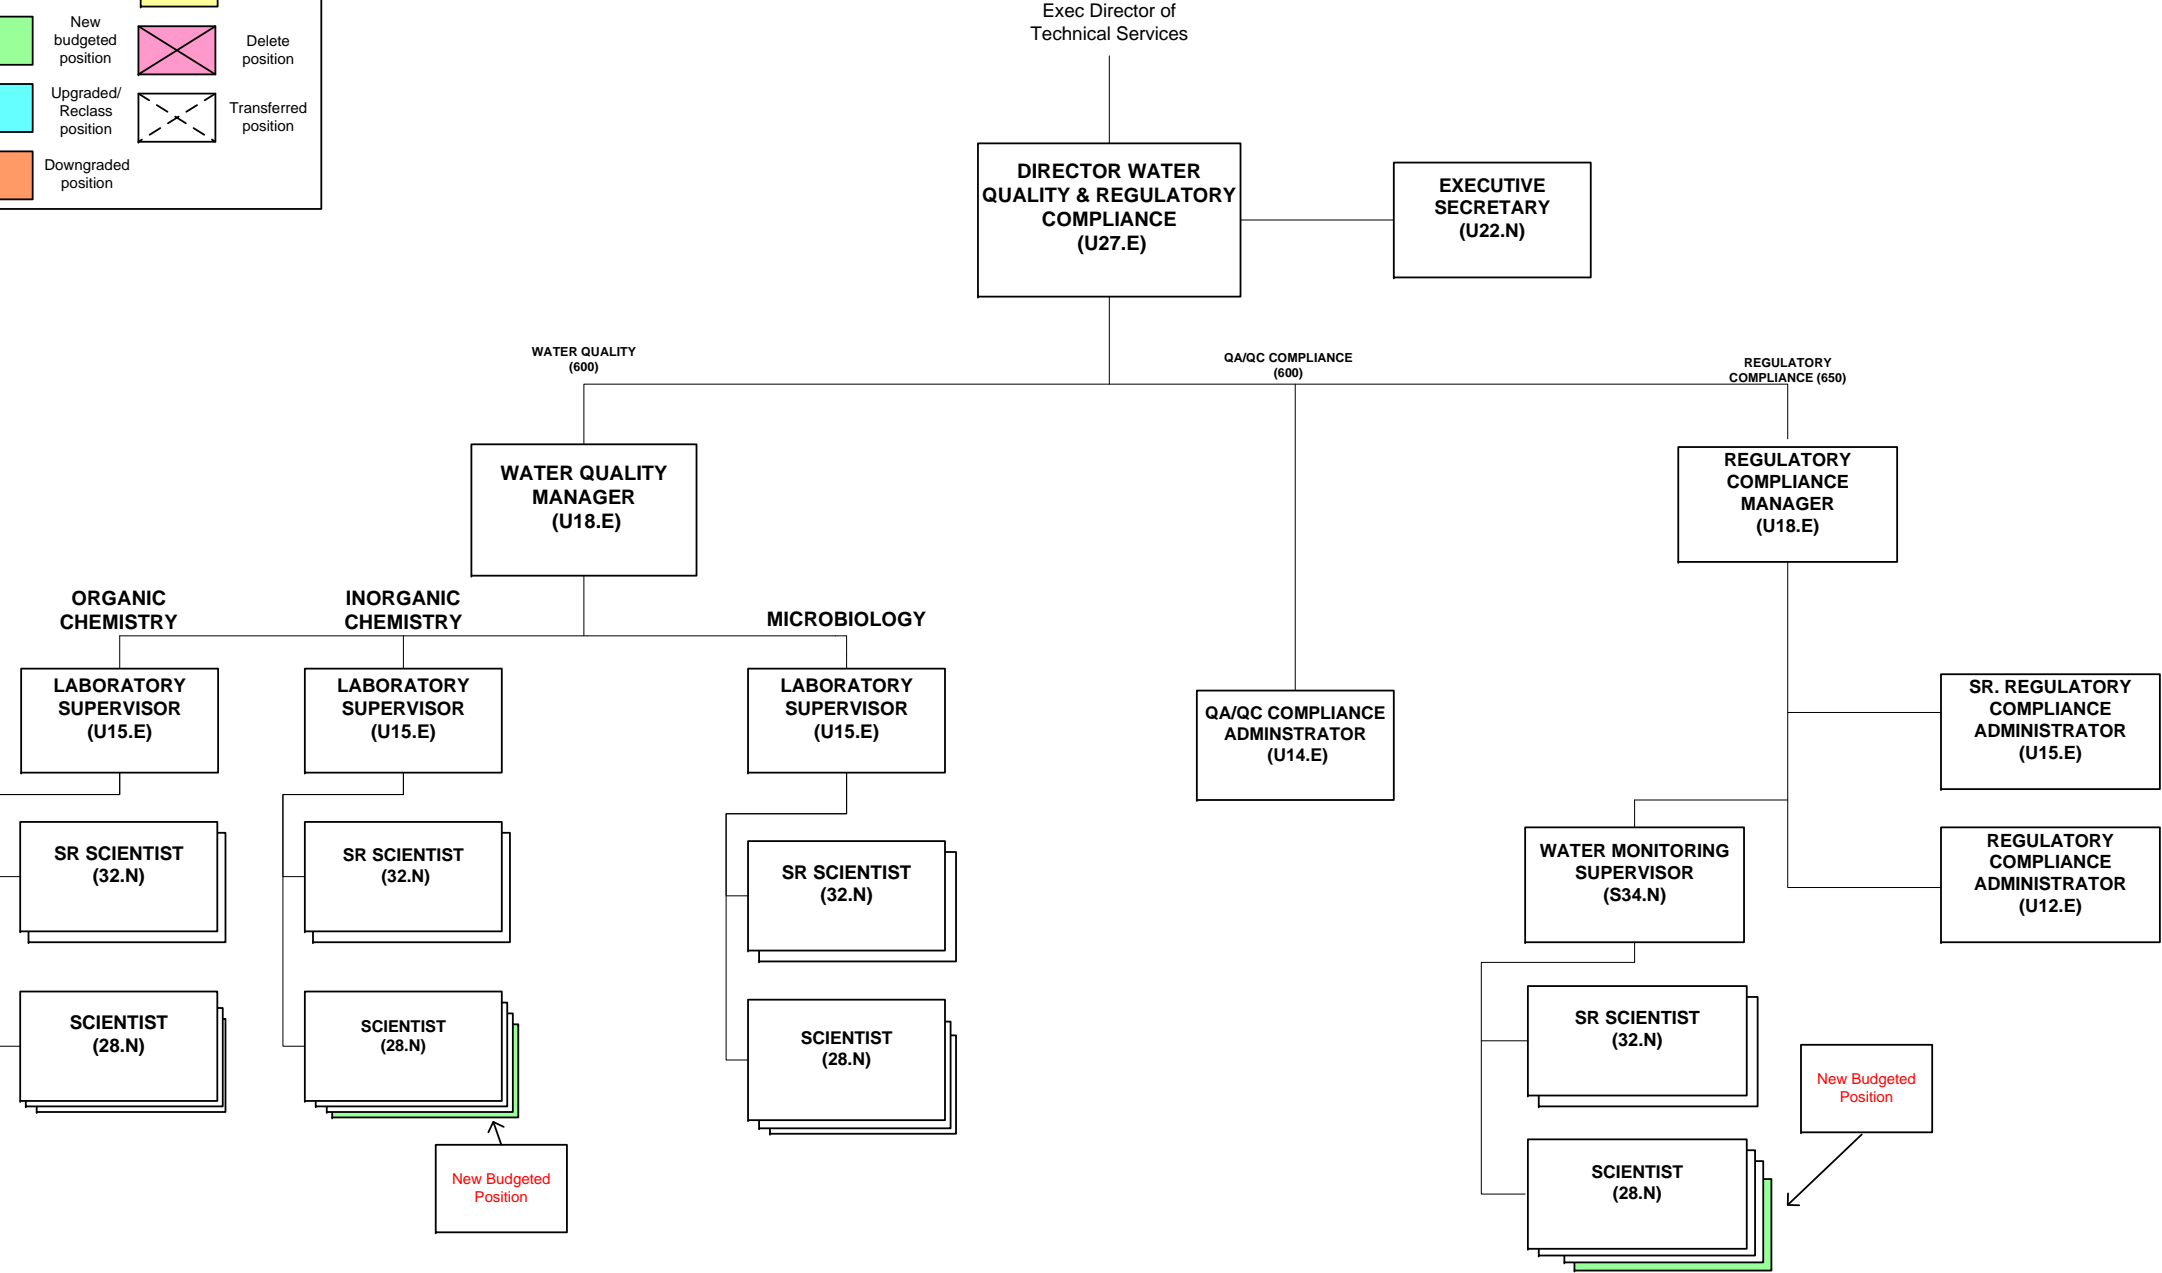

Staff also manages environmental permitting, reporting and compliance covering water, sewage, biosolids, air, hazardous waste, underground and aboveground storage tanks, universal waste, pretreatment program, and Fats, Oils, and Grease (FOG) program. Staff actively participates in association meetings to stay current with developing rules and policies and to advocate on behalf of the District.

Major Goals

- Perform all monitoring and laboratory analyses to provide data to document the District's compliance status with all applicable federal, state and local environmental laws and regulations and for process control purposes;
- Complete analyses within specified hold times and meet quality control specifications;
- Research and implement new testing methods where justified, specifically when timing, compliance, cost or efficiencies support bringing a method in-house;
- Maintain Environmental Laboratory Accreditation Program (ELAP) certification, and implement the newly adopted standard before the compliance date;
- Implement automation in compliance and process monitoring, laboratory processes, data reporting, quality control measures, staff training, and reporting programs;
- Provide compliance oversight and assistance to other departments, as needed.
- Apply for and maintain all necessary permits to comply with environmental regulations;
- Work with Information Services to create an online knowledge base of all environmental compliance requirements and tools to request assistance from the department;
- Communicate, work collaboratively and provide training on these requirements to appropriate staff and leadership across the District;
- Write and submit compliance reports in an accurate and timely manner;
- Respond to and negotiate with regulators to resolve compliance matters;
- Coordinate with other agencies and conduct appropriate inspections, monitoring and enforcement regarding industrial discharges under the pretreatment program; and,
- Participate in associations addressing laboratory and regulatory compliance issues.

WATER OPERATIONS

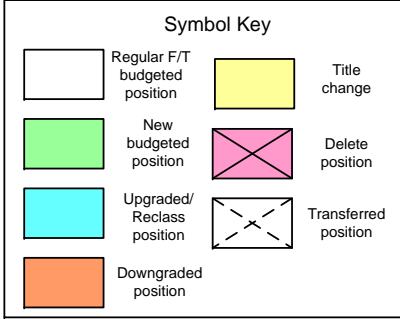

OPERATING BUDGET SUMMARY

Program Description

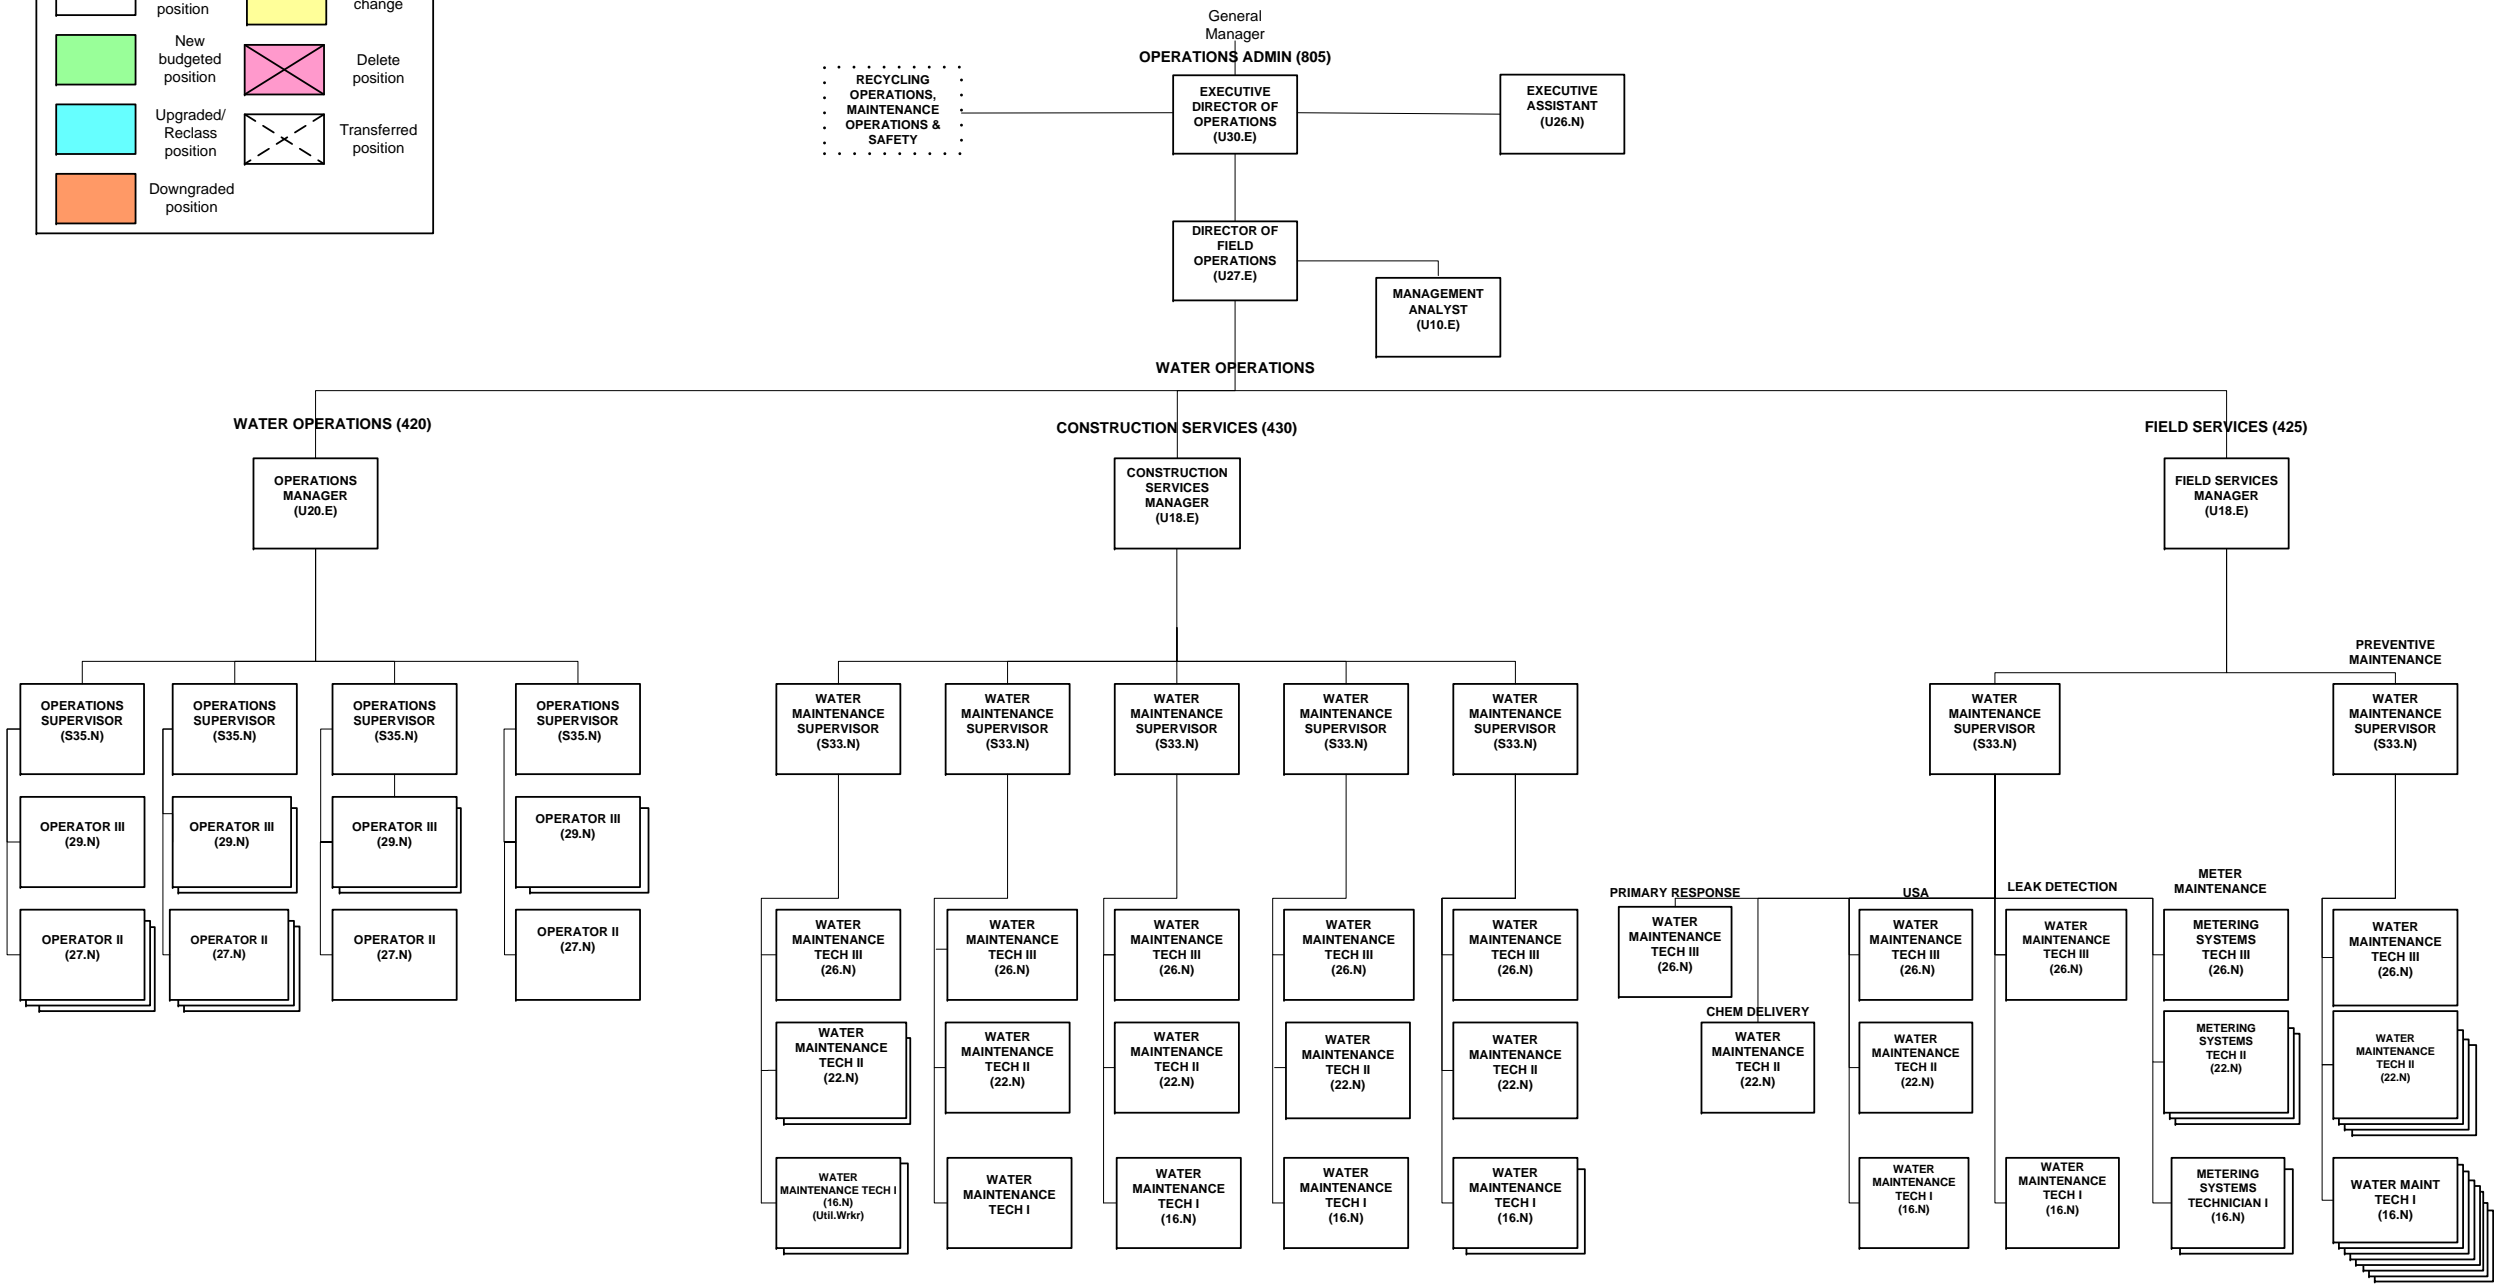

The mission of the Water Operations Department is to operate and maintain the District's potable water, recycled water and untreated water systems in an efficient, cost effective and environmentally safe manner that provides a high level of customer satisfaction. These systems include the Dyer Road Wellfield, Deep Aquifer Treatment System, Wells 21/22 Treatment Plant, Irvine Desalter Project (Potable Treatment Plant, Principal Aquifer Plant and Shallow Groundwater Unit) and Baker Water Treatment Plant.

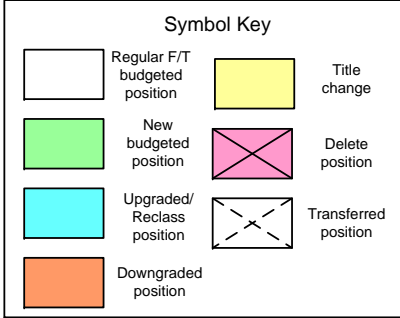

Major Goals

- Maintain 100% compliance with all regulatory permits;
- Meet the Department's adopted Operations and Maintenance budget;
- Maintain 3 or more Water Operators at the T-5 and 5 at the D-5 certification level;
- Coordinate with the Finance, Engineering and Planning Departments on water supply and water banking opportunities to optimize cost effective operations;
- Achieve zero lost time accidents;
- Modify as needed and track adopted Key Performance Indicators (KPI) to optimize operational efficiency and cost effectiveness;
- Develop and maintain staff competency through a combination of internal and external training;
- Operate and maintain all treatment and distribution systems to minimize energy consumption;
- Optimize the recycled water long-term storage supply to reduce imported water usage and to prevent diversion from the Michelson Water Reclamation Plant;
- Maintain the Dyer Road Well Field and Deep Aquifer Treatment System domestic water flows in accordance with the Ground Water Pumping Plan staying within the current Basin Pumping Percentage (BPP) of 70%;
- Operate the Irvine Desalter Project (Potable Treatment Plant, Principal Aquifer Plant and Shallow Groundwater Unit) in accordance with the joint agency agreement and submit required reports;
- Ensure efficient operation of all District pumping, dam operation, and reservoir facilities;
- Maintain a high level of customer satisfaction by responding promptly to all customer service requests and repair water leaks with minimal impact to customers; and,
- Respond to Underground Service Alert (USA) tickets and identify water pipelines and sewer infrastructure to prevent damage from construction activities.

RECYCLING OPERATIONS

OPERATING BUDGET SUMMARY

Program Description

The mission of the Recycling Operations Department is to operate the District's resource recovery and collection systems in a regulatory compliant, efficient, and environmentally safe manner that provides the highest level of customer satisfaction. This includes the Michelson Water Recycling Plant (MWRP), Los Alisos Water Recycling Plant (LAWRP), Natural Treatment System (NTS), sewer collection system and administrative management of the Automated Process Control System.

Major Goals

- Meet the Department's adopted Operations budget;
- Maintain 100% compliance with all regulatory permits;
- Achieve zero lost time accidents;
- Maintain and develop staff competency through a combination of internal and external training;
- Fully utilize computer maintenance management system software tools and perform all planned and requested tasks through work orders;
- Provide technical support to the asset criticality assessment for the sewer collection system, water recycling facilities, Natural Treatment Systems, and Supervisory Control and Data Acquisition (SCADA) equipment;
- Coordinate with Water Operations to optimize production of recycled water and balance with system storage capacity;
- Evaluate, optimize, and monitor chemical usage using key performance indicators (KPIs) for sewer collection and recycling facilities' systems;
- Develop a plan to introduce FOG and food-waste to the IRWD Biosolids facility;
- Maximize beneficial reuse of biogas through energy production or heat recovery systems;
- Maintain agreements with multiple outlets for Biosolids Class A Pellets and Class B cake;
- Complete study and implement relocation of Woodbridge in-line NTS site;
- Integrate newly constructed Agua Chinon A & B basins into the NTS program;
- Initiate and perform station improvements at El Modena NTS site;
- Improve reliability of the SCADA control system and increase uptime by upgrading stations with legacy Programmable Logic Control hardware and software;
- Apply advanced cybersecurity standards and technologies to the IRWD Industrial Control System (ICS)/SCADA infrastructure;
- Improve SCADA communication reliability by adding redundant communication paths to critical pump stations, lift stations, reservoirs and treatment plants;
- Evaluate artificial intelligence and machine learning to improve process control, efficiency and water quality;

RECYCLING OPERATIONS

OPERATING BUDGET SUMMARY

- Develop and implement a program to conduct sewer lift station bypass testing;
- Evaluate and implement processes for inspection and cleaning of large sewer lines (> 21"); and,
- Manage backlog aging of sewer repairs.

MAINTENANCE OPERATIONS

OPERATING BUDGET SUMMARY

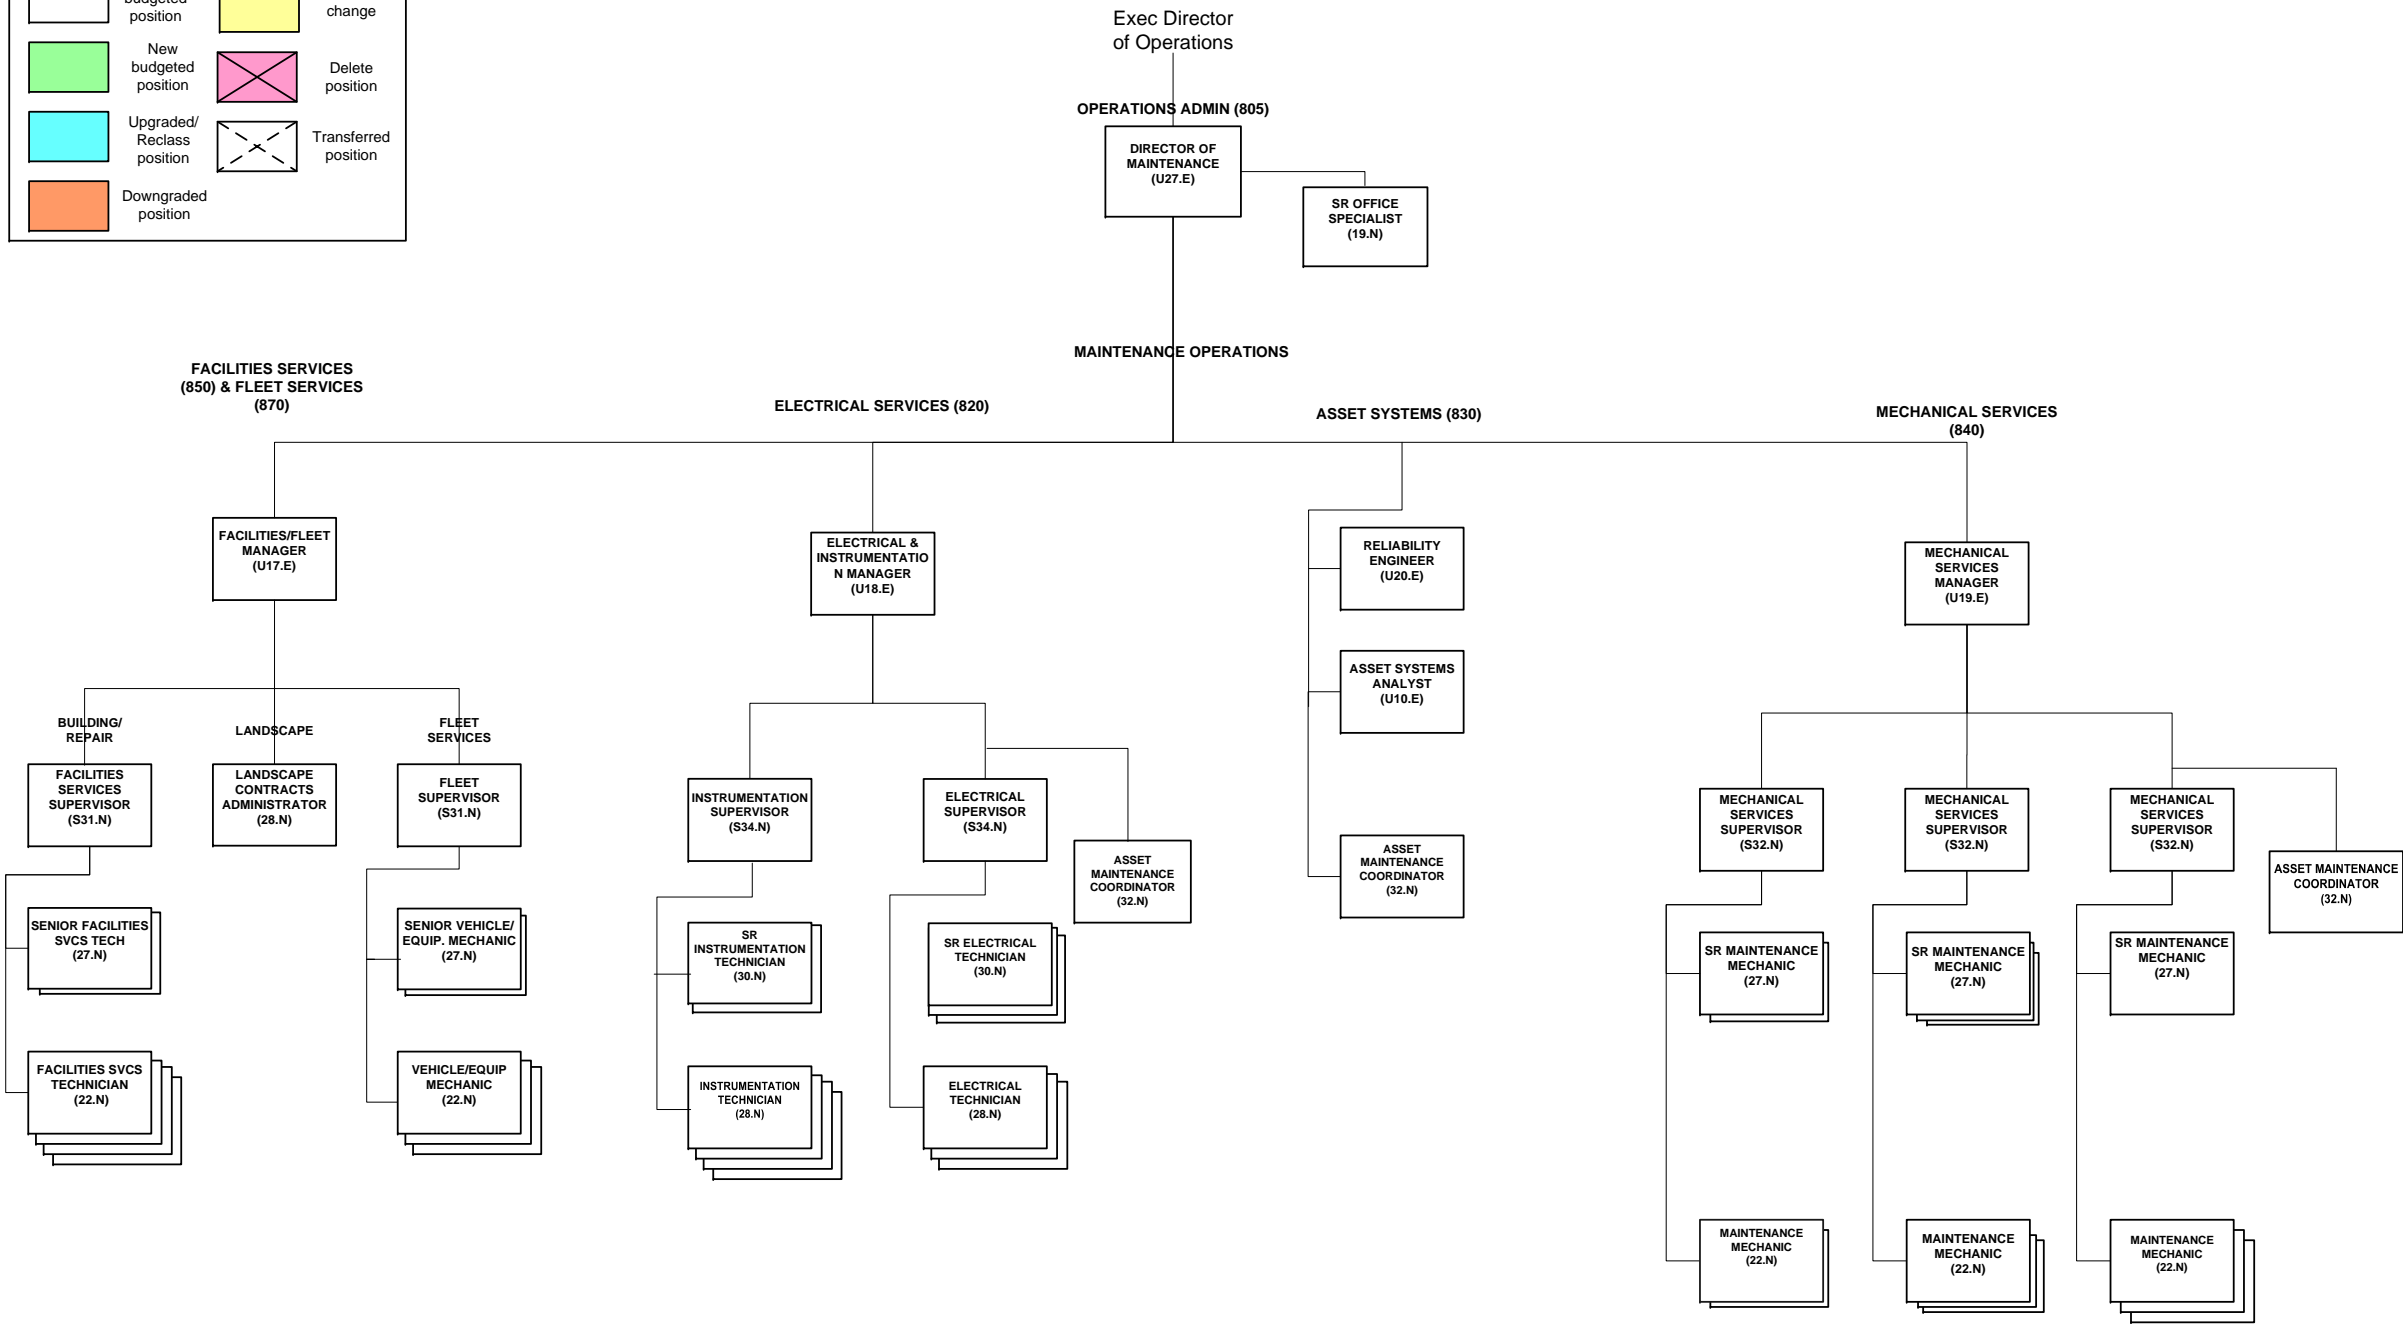

Program Description

The mission of Maintenance Operations is to manage the District's assets to ensure optimal life expectancy, reliability, efficiency and safety goals while providing the highest level of customer satisfaction. Maintenance Operations coordinates the maintenance and repair of the District's electrical, mechanical, instrumentation, fleet and facility assets by utilizing a comprehensive enterprise asset management system to ensure safe, reliable, and cost effective operation.

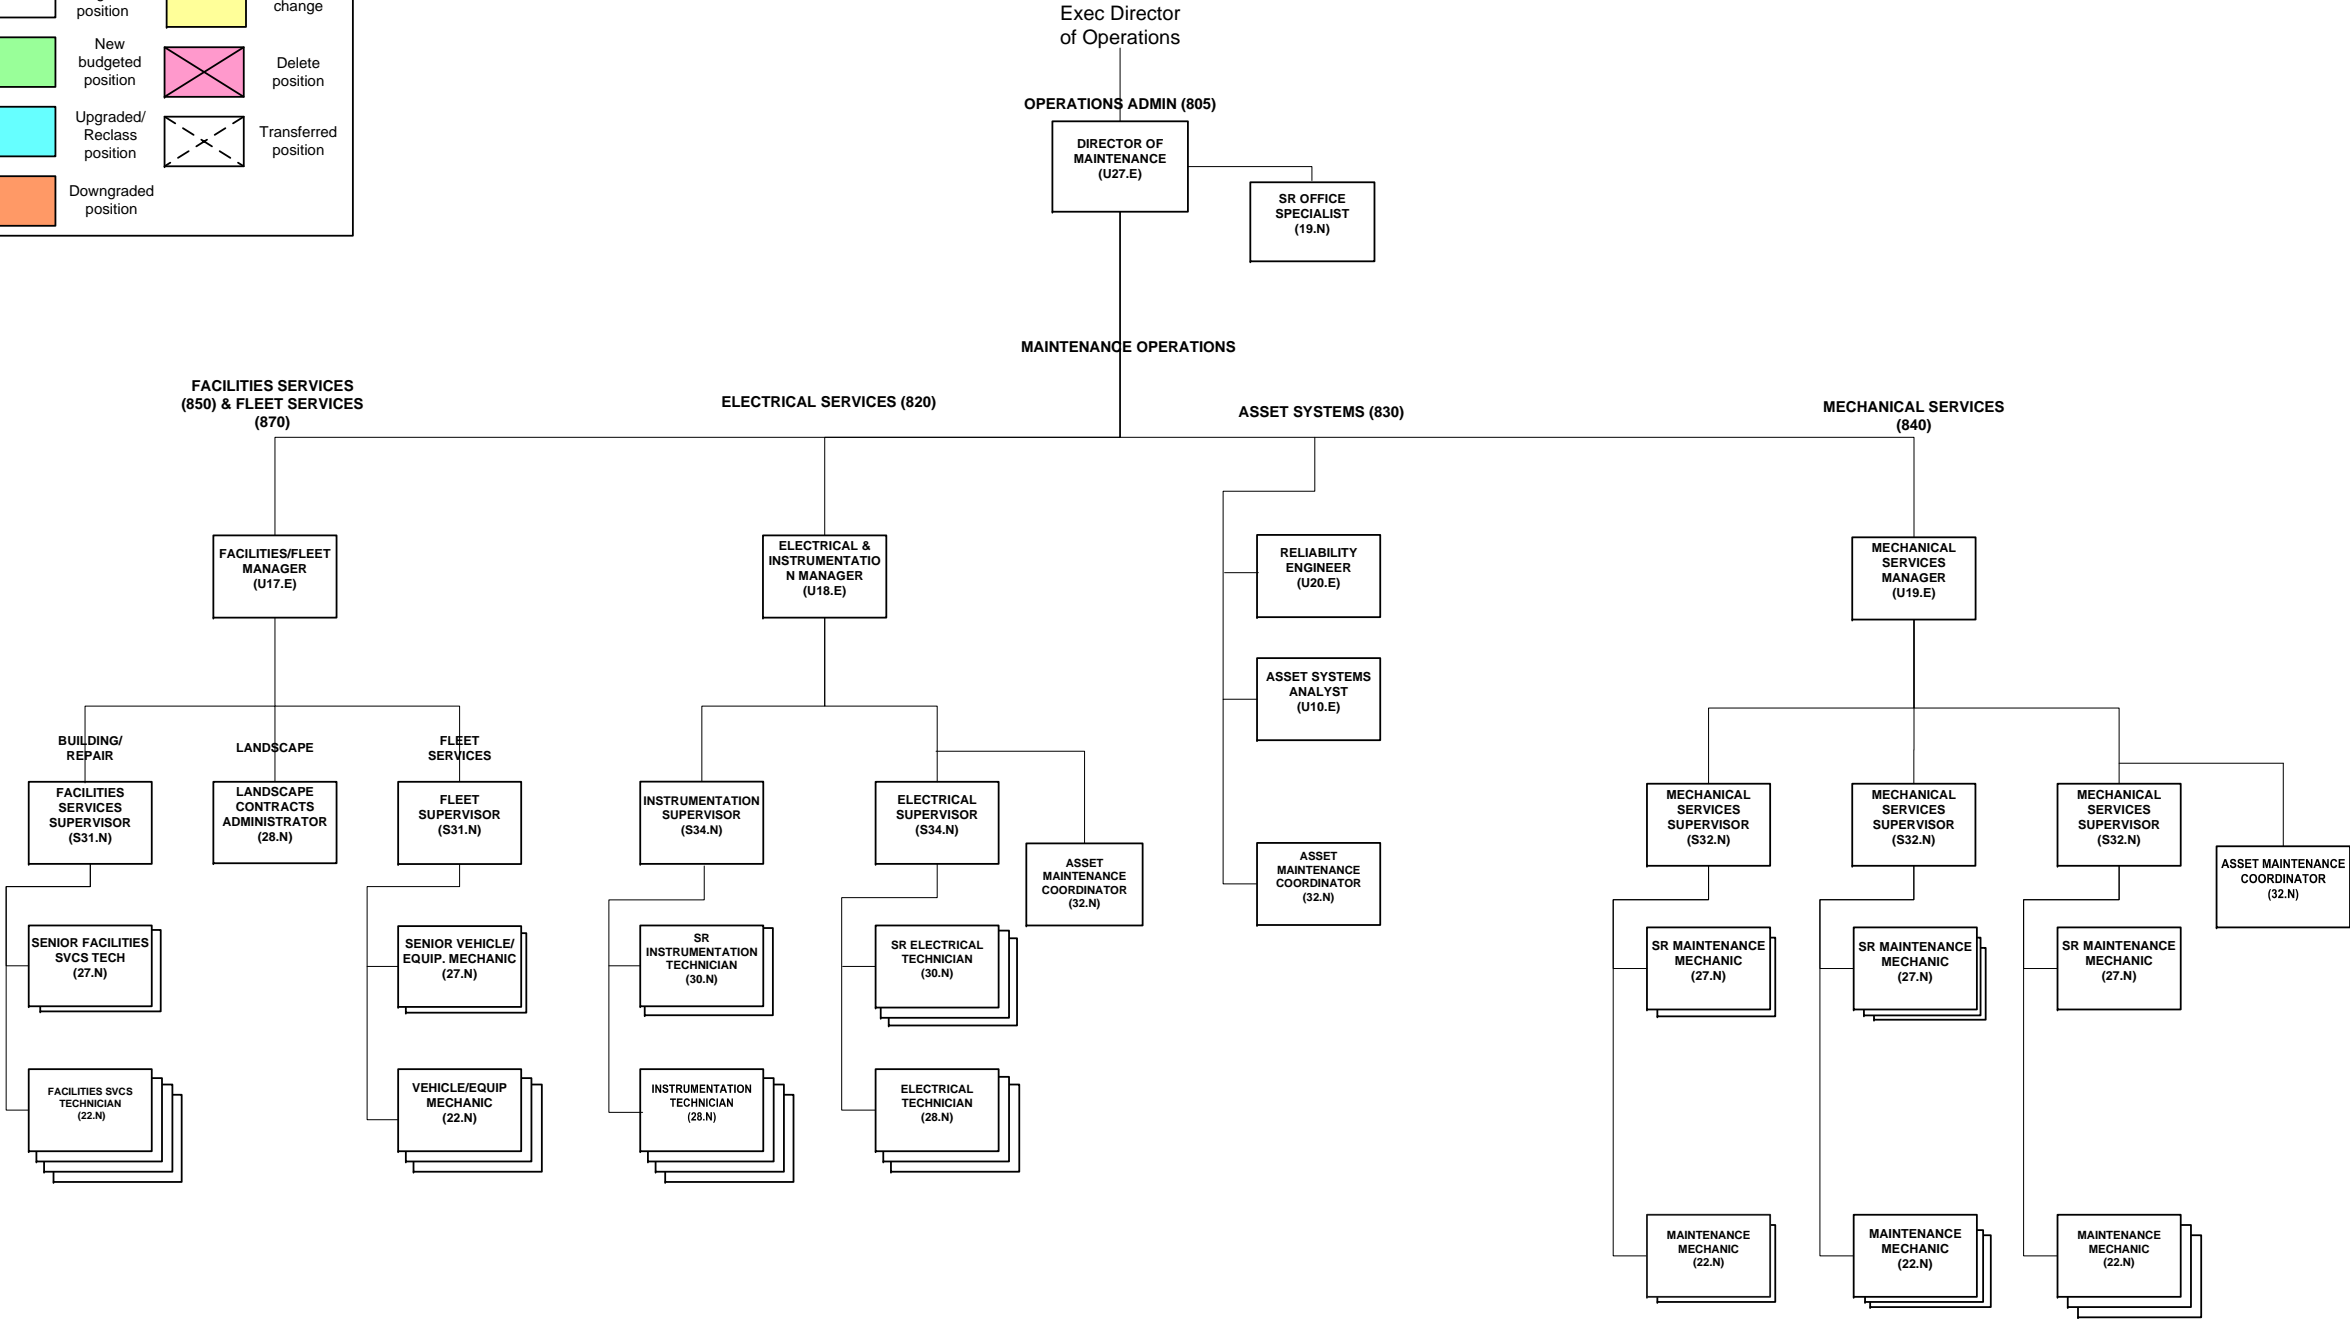

Major Goals

- Meet the Department's adopted Maintenance and General Plant budgets;
- Achieve zero lost time accidents;
- Maintain 100% compliance with all regulatory requirements;
- Identify and track operational Key Performance Indicators (KPIs) to optimize efficiency and cost effectiveness;
- Maintain and develop staff competency through a combination of internal and external training;
- Expand and optimize predictive maintenance processes;
- Maintain all District buildings and facilities to ensure that expected life cycles are reached and building systems function as designed;
- Perform all required maintenance on schedule to provide a safe, reliable, and cost-effective fleet operation;
- Develop annual schedule/plan for complex maintenance of District assets;
- Optimize and expand the Preventative Maintenance Program;
- Perform condition assessment for rehabilitation and reinvestment projects;
- Initiate the development of plans to install a modified Operations Center that can serve as a "hub" for day to day operations and support emergency operations when needed; and,
- Establish maintenance strategies for water pipelines and sewers and incorporate facility criticality into existing maintenance plans for treatment plants, wells and pump/lift stations.

SAFETY

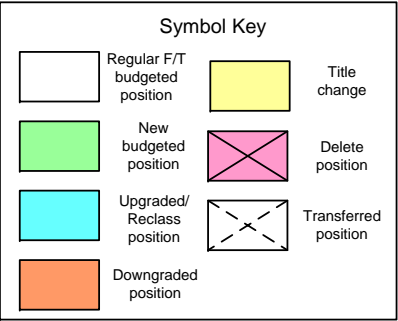

OPERATING BUDGET SUMMARY

Program Description

The mission of the Safety Department is to administer a Safety Program that supports the District's efforts to provide a safe work environment for employees. The Safety Department administers training, maintains and updates Safe Work Practices (SWP's), supports incident investigations by capturing pertinent data for analysis, coordinates emergency preparedness, submits regulatory reports and provides safety expertise and advice.

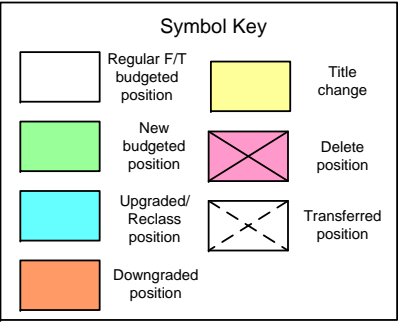

Major Goals

- Meet the Department's adopted Safety budget;
- Improve the District's Accident Investigation program by implementing a "5 Whys" approach. This approach will seek to find the root cause of accidents so that programs can be developed and implemented that educate employees and help minimize recurring errors;
- Train management and employees on safe work practices;
- Conduct an evaluation to assess Senior Staff and Management on practices and characteristics linked to safety climate, culture, and outcomes. Implement customized leadership training to bridge gaps and enhance individual and team safety performance;
- Revitalize the "near miss" reporting program by renaming it the "Good Catch Program." This will be an action-oriented reporting process where employees are rewarded for preventing accidents;
- Implement an internal fall protection and competent person equipment inspections program;
- Solicit feedback on eight (8) SWP's and improve procedures when necessary;
- Utilize the General Safety Committee to update the physical conditions checklists;
- Continue to improve emergency preparedness by updating procedures, performing drills and employing tools to aid in communications;
- Develop, implement and maintain a Hazard Mitigation Plan which will identify, assess, and reduce long-term risk to life and property; and,
- Replace the CodeRed communication system with an intuitive and comprehensive emergency alert, mass notification and incident reporting system.

RECYCLED WATER USE and CROSS-CONNECTION CONTROL

OPERATING BUDGET SUMMARY

Program Descriptions

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. This is, in part, accomplished by expanding the use of recycled water in compliance with State and local requirements. To ensure the protection of the public water supply, including at recycled water use sites, Cross-Connection plays an important role by implementing programs to protect public health.

Recycled Water Development: IRWD is recognized as a national leader in recycled water based on the many years of experience IRWD has with recycled water, the large number of meters served, and groundbreaking projects IRWD has completed. IRWD currently serves almost 6,200 recycled water meters including:

- More than 125 commercial dual-plumbed buildings where recycled water is used for flushing toilets and urinals,
- More than 25 cooling towers, and
- More than 675 single-family lots where recycled water is used for irrigating both the front and back yards.

IRWD continues to work to add new recycled water customers by connecting sites which are the result of new construction and by converting existing potable or untreated water customers to recycled water.

IRWD is also recognized for its support of recycled water through organizations such as the WaterReuse Association, a national recycled water advocacy group. IRWD, in concert with WaterReuse California, is active in state-wide policy, legislation, regulation, and support for other agencies which face challenges as their programs are initiated or are being expanded. On a regional level, IRWD had a lead role in working with other water recycling agencies and the regulatory agencies in Orange County to establish standards for on-going inspection and testing of recycled water use sites.

Recycled Water Use Site Inspection and Testing: Ensuring the safe and proper use of recycled water is important not only to our customers but the community as well. This is accomplished by implementing a use site inspection and testing program. During the development process, staff reviews project plans and inspects for compliance with State and local requirements. Once the sites are activated, IRWD has the responsibility to monitor those sites for on-going compliance with State and local requirements. This is done by having a recycled water use site inspection and testing program where each site is periodically inspected for proper system identification, hours of operation, avoiding runoff, to determine that there are no cross connections, and to ensure that Site Supervisors understand their roles and responsibilities. This work is currently accomplished by both staff and contractors but a transition is underway. As full build-out of the service area

RECYCLED WATER USE and CROSS-CONNECTION CONTROL

OPERATING BUDGET SUMMARY

approaches and fewer new recycled water use sites are added, staff will gradually shift its focus to a more active role in conducting the on-going recycled water use site inspection and testing aspects of IRWD's program. This will correspond to a reduction in work by our contractors.

Cross-Connection Control: Title 17 of the California Code of Regulations requires that water agencies protect the public water system from contamination. This is done by implementing a cross-connection control program. IRWD's program includes periodically surveying properties to determine what hazards, if any, exist and what type of backflow prevention device is required to protect the public system. Once a backflow prevention device is installed, annual testing is required to make sure it functions properly. These tests are performed by Orange County Health Care Agency certified backflow device technicians hired by the property owners. IRWD sends letters to property owners with testable backflow prevention devices notifying them that their devices are to be tested. IRWD provides the list of certified technicians to property owners. Once a device is tested, the technician is required to submit documentation to IRWD. There are currently more than 20,000 testable devices in IRWD's service area.

To confirm for on-going compliance at customer sites, IRWD staff conducts periodic field inspections to monitor for hazardous conditions and to determine if field conditions have changed that would warrant a change to the backflow requirements. These periodic field inspections are prioritized based on the types of activities conducted at customer sites.

IRWD itself has more than 150 backflow prevention devices at its properties that also require testing. These devices are tested by IRWD staff. If maintenance or repairs on IRWD's devices is required, that work is performed by IRWD staff.

The State of California requires water agencies have a cross-connection program in compliance with Title 17 of the California Code of Regulations. The State Water Resources Control Board (SWRCB) will be replacing Title 17 with a Policy Handbook which is currently being drafted by SWRCB staff. Staff will work with SWRCB staff during the public input process. Once the document has been adopted, staff will review IRWD's cross-connection program and revise as necessary.

Major Goals

RECYCLED WATER DEVELOPMENT

- Expand the use of recycled water consistent with Title 22 of the California Code of Regulations;
- Convert a minimum of 100 acre-feet of imported water use to recycled water;
- Pursue a new *Local Resources Program* funding agreement with MWD which provides a "per-acre foot" financial incentive to increase the use of recycled water;
- Assist WaterReuse California with its legislative agenda which includes allowing discharge of recycled water from impoundments during storm events;

RECYCLED WATER USE and CROSS-CONNECTION CONTROL

OPERATING BUDGET SUMMARY

- Remain active in the Orange County Chapter of WaterReuse California; and,
- Seek opportunities to dual-plumb commercial buildings, hotels, condominiums, and apartment properties.

RECYCLED WATER USE SITE INSPECTION & TESTING

- Conduct periodic visual inspections, cross-connection tests, and Site Supervisor training at more than 1,500 recycled water use sites;
- Inform property owners of the things that need to be done to bring the site into compliance with State and local requirements; and,
- Keep records of the site inspection, site testing and Site Supervisor training.

CROSS-CONNECTION CONTROL

- Send notifications to customers requesting they have their backflow prevention device(s) tested and if necessary, repaired. There are more than 20,000 testable backflow prevention devices in IRWD's service area;
- Conduct periodic inspections of customer sites to ensure the proper backflow prevention device(s) are in place;
- Compile a list of high-, medium-, and low-hazard sites in IRWD's service area that will be the basis for future inspections based on level of risk;
- Test IRWD owned backflow prevention devices and repair as necessary; and,
- Monitor progress of the SWRCB's development of the Policy Handbook (which replaces Title 17), provide input during the process, and revise IRWD's cross-connection program as necessary.

WATER RESOURCES AND ENVIRONMENTAL COMPLIANCE

OPERATING BUDGET SUMMARY

Program Description

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. The department is also responsible for managing the District's water banking programs, environmental compliance activities, and energy efficiency and renewable energy programs.

Water Resources and Environmental Compliance: Water Resources and Environmental Compliance is responsible for the planning and development of water supply programs and banking projects primarily outside of the local Orange County area. These programs and projects are increasing the diversity and reliability of the District's water supplies by securing water supplies from sources outside of Orange County during wet periods and storing them for future use in groundwater banking projects in Kern County. Water Resources and Environmental Compliance is also responsible for exploring and developing potential local water supply reliability opportunities. The District's efforts in the development of these programs and projects are needed in response to stressors on water supply reliability such as environmental pressures in the Delta, climate change, risks of major earthquakes, expanding statewide population, climate change, and expanding regulatory requirements.

In addition, Water Resources and Environmental Compliance is responsible for the negotiation and development of agreements with other agencies, banking partners and entities throughout the State of California for water transfer and exchanges that facilitate the recharge, storage and recovery of water at the water banking projects. It is responsible for the negotiation and the development of agreements that facilitate the delivery of water recovered from the water banking projects to IRWD's service area through facilities owned by the California Department of Water Resources, Kern County Water Agency and Metropolitan Water District of Southern California (MWD). It is also responsible for the management of water supplies allocated to District-owned lands within the Dudley Ridge Water District and for the management of IRWD-owned lands located in the Palo Verde Irrigation District (PVID) including the participation of these lands in the PVID/MWD existing fallowing program and any new water conservation related programs that PVID and MWD implement in the future.

Other responsibilities of Water Resources and Environmental Compliance include managing the District's environmental compliance programs, and overseeing the District's salt management plan, the Sustainable Groundwater Management Act (SGMA) compliance, energy efficiency, greenhouse gas reporting and verification, and renewable energy planning activities. The environmental compliance programs focus on fulfilling the District's compliance requirements for the operation of potable and recycled water and wastewater systems operations, facility replacements and the construction of new facilities.

WATER RESOURCES AND ENVIRONMENTAL COMPLIANCE

OPERATING BUDGET SUMMARY

Major Goals

WATER RESOURCES

- Bank supplemental water for IRWD, develop extraction and additional recharge and storage capacity as needed for IRWD and its water banking partners;
- Manage the completion of planning and feasibility studies as well as the development of the agreements needed for the implementation of the Kern Fan Groundwater Storage Project (Kern Fan Project);
- Work with the Groundwater Banking Joint Powers Authority in the design, construction and operation of the Kern Fan Project;
- Negotiate a MWD Policy for the delivery of MWD system water to IRWD's Kern County Banking Projects;
- Prepare the District's Urban Water Management Plan for 2020 for Board adoption in June 2021;
- Evaluate the long term costs and benefits of the District's potential participation in the Sites Reservoir Project and the Delta Conveyance Project;
- Finalize agreements for a pilot program through which other Orange County water agencies can participate in IRWD's water banking program;
- Implement long-term unbalanced exchange agreements with Central Coast Water Authority, Mojave Water Agency and others for IRWD's water banking program;
- Monitor IRWD's SGMA compliance for its Strand Ranch and Stockdale West properties under the Kern Groundwater Authority Groundwater Sustainability Agency;
- Evaluate options to optimize the benefit of IRWD's State Water Project (SWP) supply allocated through the Dudley Ridge Water District under the 2020 SWP Contract Amendment;
- Finalize a business plan for IRWD's water banking projects and programs;
- Implement existing long-term exchange program to facilitate exports of Kern River water to IRWD service area;
- Participate in water conservation programs implemented by MWD and Palo Verde Irrigation District, such as land fallowing, which can make water available for other uses;
- Investigate cost effective opportunities to purchase State Water Project Table A entitlement; and,
- Prepare and submit grant funding applications for eligible IRWD capital projects including Reclamation's WaterSMART funding.

ENVIRONMENTAL COMPLIANCE

- Complete the work and studies associated with the EIR for the Syphon Reservoir Improvement Project; and,

WATER RESOURCES AND ENVIRONMENTAL COMPLIANCE

OPERATING BUDGET SUMMARY

- Fulfill the District's environmental compliance requirements for capital projects, replacements and operations including the development and approval of Mitigated Negative Declarations, Environmental Impact Reports and Notices of Exemption

ENERGY AND OTHER PLANNING

- Update the District's Salt Management Model and Plan in coordination with the District's Sewer Treatment Master Plan;
- Update the District's Energy and Greenhouse Gas Masterplan;
- Evaluate the impact of varying water supplies on maintaining the District's salt balance;
- Seek grant opportunities for District energy projects;
- Monitor and evaluate IRWD's participation in SCE's Direct Access Program;
- Evaluate opportunities for IRWD participation in a Community Choice Aggregation Program; and,
- Maximize participation in Phase 2 of the SCE Water-Energy Pilot Program by jointly working with SCE on evaluating and implementing beneficial energy projects.

PUBLIC AFFAIRS

OPERATING BUDGET SUMMARY

Program Description

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. The department is also responsible for managing the District's environmental compliance program, regulatory requirements and public affairs.

Public Affairs: Public Affairs is responsible for communicating accurate and timely information about Irvine Ranch Water District services, projects, activities and programs, and for promoting the District's water use efficiency initiatives. Public Affairs uses multiple platforms, including websites, print, video, personal contact, education programs, publications, tours, and social media. The IRWD communication program serves the District and its customers by:

- Creating and maintaining credibility and public trust;
- Increasing customer awareness of the services we provide;
- Promoting the District's value, activities and events of significance;
- Conveying accurate, timely information to the public on sensitive and controversial issues; and,
- Promoting transparency and easy-to-access information.

Major Goals

The COVID-19 pandemic has created new needs — and new opportunities — for customer and community outreach. Public Affairs will focus on outreach that will serve customers and the District during and after the pandemic. Elements of the communication program developed during the pandemic will continue to be of value as life returns to normal.

WATER EFFICIENCY OUTREACH

- Develop and implement an overarching message to educate customers about water efficiency;
- Reach customers spending more time at home by educating them about the beauty of water-efficient landscape and IRWD rebates that can help them replace their lawn;
- Upgrade the RightScapeNow.com website with tools to make it easier for customers to take advantage of opportunities to transform their landscapes;
- Enhance water efficiency webinars to make content engaging and useful on multiple platforms;
- Promote water efficiency events to reach more customers, and those who haven't participated;
- Educate the public about the value of recycled water and storage reservoirs;
- Provide students in the IRWD service area with learning opportunities regarding water supply, water reliability, tap water, and water use efficiency programs. Promote water education programs to schools in the IRWD service area. Develop videos and interactive tools to permit learning from home;
- Conduct outreach to customers who regularly exceed their monthly water budget; and

PUBLIC AFFAIRS

OPERATING BUDGET SUMMARY

- Teach customers how to save water and money by understanding their water bill.

COMMUNITY OUTREACH

- Develop and implement virtual tour videos and programs for socially distanced customer education and return to in-person tours when able;
- Through transparency and education, assure customers of the quality of IRWD water;
- Develop educational displays for District facilities;
- Create, update and refine multi-pronged social media outreach channels to inform IRWD customers, the media, business partners, IRWD employees and other government entities;
- Refine and execute tap water quality programs and infrastructure outreach programs;
- Enhance public trust by promoting customer service and answering customer questions;
- Enhance communications with customers regarding construction and maintenance projects;
- Develop an up-to-date crisis communication plan;
- Enhance public trust and employee safety by helping customers access IRWD customer service remotely; and
- Provide enhanced customer outreach initiatives based on customer feedback programs.

INTERNAL COMMUNICATIONS

- Improve employee communication by making the intranet and other tools more accessible, particularly to staff outside the office.

WATER EFFICIENCY

OPERATING BUDGET SUMMARY

Program Description

The Water Resources and Policy Department is responsible for developing and implementing water resource supply and demand management programs to enhance the reliability of water supplies for District customers. The department is also responsible for managing the District's Water Efficiency Programs.

Water Efficiency: Demand management programs directly offset the need for developing additional water supplies and are a critical element in meeting the District's water resources/reliability objectives. IRWD has provided industry leadership through the development of innovative and aggressive demand management programs focusing on water use efficiency and sewage resource recycling. Water efficiency programs focused on outdoor water efficiency, compliance with new state requirements, tactical incentives and participation in innovative pilots and research that maintain IRWD's leadership position are incorporated into the two-year fiscal 2021-23 budget. IRWD will continue to be engaged in the development and implementation of local, regional, state-wide and national water efficiency and demand management policies.

Major Goals

WATER EFFICIENCY

- Update the Water Efficiency Implementation Plan to include new programs and projects that will be offered during Fiscal Years 2021-22 and 2022-23.
- Develop partnerships with private and public entities to leverage the effectiveness and reach of water efficiency programs;
- Research and implement, as appropriate, new technologies and innovative programs to assist customers with improving their water use efficiency with a special emphasis on outdoor efficiency programs;
- Continue to partner with commercial, industrial and institutional customers to implement cost-effective water use efficiency programs;
- Continue to support and expand enhanced customer engagement and reporting as a tool to motivate additional water use efficiency;
- Continue to support and expand educational programs for the professional landscape industry;
- Implement the use of enhanced GIS data to improve customer allocation-setting, outreach and programs targeted toward outdoor water use;
- Actively participate in statewide policy discussions addressing the water-energy nexus;
- Actively engage in discussions with the State Water Resources Control Board, the California Department of Water Resources and other stakeholders on implementation of the State's Conservation as a California Way of Life legislation for efficient water use that balances local conditions, supplies, use of recycled water, prior conservation, growth and other equity adjustments;
- Establish the appropriate metrics and quantify water efficiency targets; and,
- Develop a Water Loss Audit Data Management Report.
