Project Name: The Executive Park Manhole Project
Project Location: Main Street
Irvine, CA (See Figure 1)
County: Orange

Description of Nature, Purpose and Beneficiaries of Project:

Irvine Ranch Water District (IRWD) owns, operates and maintains a 21-inch sewer line on Main Street which was transferred from the Orange County Sanitation District. IRWD typically installs a sewer manhole on every 400 feet of sewer pipe. On the 21-inch sewer pipe in Main Street north of MacArthur Boulevard, there are 1,200 feet between the nearest manholes preventing the IRWD crews from fully cleaning this reach of the pipe. This project includes construction of a manhole for cleaning and maintenance purposes and does not expand capacity of the existing sewer system. The project location is shown in Figure 1.

Reasons why project is exempt:

The activity is categorically exempt from the California Environmental Quality Act (CEQA) as authorized under the California Code of Regulations, Title 14, Chapter 3, Section 15301 (Class 1). Class 1 consists of the operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

Submission of this form is optional. Local agencies may file this form with the county clerk pursuant to Public Resources Code Section 21152(b). The filing of the notice starts a 35-day statute of limitations on court challenges to the approval of the project under Public Resources Code Section 21167(d). Failure to file the notice results in the statute of limitations being extended to 180 days.
