AGENDA
IRVINE RANCH WATER DISTRICT
FINANCE AND PERSONNEL COMMITTEE MEETING
MONDAY, NOVEMBER 21, 2022

This meeting will be held in-person at the District's headquarters located at 15600 Sand Canyon Avenue, Irvine, California. The meeting will also be broadcasted via Webex for those wanting to observe the meeting virtually.

To observe this meeting virtually, please join online using the link and information below:

Via Web:
https://irwd.webex.com/irwd/j.php?MTID=m5367317d50cdb3fe9dded53add4149d4
Meeting Number (Access Code): 2485 646 5942
Meeting Password: jhDx69SrcN3

As courtesy to the other participants, please mute your phone when you are not speaking.

PLEASE NOTE: Participants joining the meeting will be placed into the Webex lobby when the Committee enters closed session. Participants who remain in the "lobby" will automatically be returned to the open session of the Committee once the closed session has concluded. Participants who join the meeting while the Committee is in closed session will receive a notice that the meeting has been locked. They will be able to join the meeting once the closed session has concluded.

CALL TO ORDER 11:30 a.m.

FINANCE AND PERSONNEL COMMITTEE

MONTHLY INVESTMENT AND DEBT REVIEW

SUMMARY:

The following items are submitted for the Committee's review and consideration:

- The Investment Portfolio Summary Report as of October 31, 2022, as outlined in Exhibit "A";
- The U.S. Treasury Yield Curve as of October 31, 2022, as shown in Exhibit "B";
- The Summary of Fixed and Variable Debt as of October 31, 2022, as outlined in Exhibit "C"; and
- The Summary of Variable Rate Debt Rates as of October 31, 2022, as outlined in Exhibit "D".

BACKGROUND:

Investment Portfolio:

The rate of return for the fixed income investment portfolio was 1.47%, which was a 0.22% increase from September's rate of 1.25%. Including real estate investments, the weighted average rate of return for IRWD's investment portfolio for October 2022 was 3.83%, which was a 0.25% increase from September's rate of 3.58%. The increases were due to the average balance in the fixed income portfolio at higher interest rates.

Debt Portfolio:

As of October 31, 2022, IRWD's weighted average all-in variable rate was 2.34%, which was a 0.69% increase from September's rate of 1.65%. Including IRWD's weighted average fixed rate bond issues of 3.71% and the negative cash accruals from fixed payer interest rate swaps, which hedge a portion of the District's variable rate debt, the total average debt rate was 3.46%, a 0.25% increase from September's rate of 3.21%. The increase was due to the higher average rates for the District's variable rate debt.

FISCAL IMPACTS:

Fiscal impacts are outlined above and included in the exhibits provided.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

Receive and file.

LIST OF EXHIBITS:

Exhibit "A" – Investment Portfolio Summary as of October 31, 2022
Exhibit "B" – Yield Curve as of October 31, 2022
Exhibit "C" – Summary of Fixed and Variable Debt as of October 31, 2022
Exhibit "D" – Summary of Variable Rate Debt Rates as of October 31, 2022

FINANCE AND PERSONNEL COMMITTEE

EXPENSES AND FEES OF BOARD MEMBERS AND GENERAL MANAGER
PAID THROUGH THE FIRST QUARTER OF FY 2022-23

SUMMARY:

Pursuant to the Policy Regarding Business Expense Reimbursement, Travel, Meeting Compensation, and Representation, staff has assembled for Committee review an Expense Summary, as shown in Exhibits "A" and "B", for IRWD's Board members and the General Manager through the first quarter of Fiscal Year (FY) 2022-23. Provided below is a summary of expenses paid to date.

	Name	Conference, Travel, and Other District-Related Expenses	Meeting Fees	Total
Board Members:	LaMar	$ 7,753	$ 9,450	$ 17,203
	McLaughlin	0	4,095	4,095
	Reinhart	0	9,450	9,450
	Swan	3,521	9,450	12,971
	Withers	1,275	9,450	10,725
	Total:	*$ 12,549*	*$41,895*	*$54,444*
General Manager:	Cook	$ 79	N/A	$ 79
	Total:	*$ 79*	*N/A*	*$ 79*

FISCAL IMPACTS:

Meeting fees total $41,895 versus a budget of $49,000 resulting in a positive variance of $7,105 year to date. Conference and meeting-related travel expenses for both the Board of Directors and the General Manager totaled $12,628 versus a budget of $29,500, resulting in a positive variance of $16,872.

The total cost for Board and General Manager conference, travel, and other District-related expenses, including meeting fees, through the first quarter FY 2022-23 is $54,523, resulting in a positive variance of $23,977 to budget.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

Receive and file.

FINANCE AND PERSONNEL COMMITTEE

LEGAL FEES QUARTERLY UPDATE

SUMMARY:

Below is an analysis that provides a summary of legal fees incurred by IRWD for the first quarter of Fiscal Year (FY) 2022-23.

BACKGROUND:

Legal fees for IRWD's general operations in the first quarter of FY 2022-23 totaled $580,950 compared to a budget of $804,625, resulting in a positive variance of $223,675, or 27.8%. Of the total legal fees attributable to operations, general services was over budget by $187,398 due primarily to work associated with general counsel legal services; personnel issues was over budget by $5,209 due primarily to work associated with human resource matters. There were positive variances in all other categories including litigation and special projects. Actual legal fees accounted for 1.19% of actual operating expenses and 0.91% of total expenditures.

Capitalized legal fees associated with major capital projects for the first quarter of FY 2022-23 totaled $61,322. The Shallow Groundwater Unit (SGU) Optimization for PFAS and the Well ET-1 PFAS Treatment projects comprised 74.2% of the total legal fees associated with capital spending for the first quarter of FY 2022-23.

There were no non-operating legal fees in the first quarter of FY 2022-23.

Exhibit "A" provides a detailed comparison of actual-to-budgeted legal fees for the first quarter of FY 2022-23. Exhibit "B" provides a three-year comparison of fees incurred by the firms providing services to IRWD in FY 2020-21 through FY 2022-23, their hourly rates, and a general description of the services provided.

FISCAL IMPACTS:

Fiscal impacts are outlined above.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

Receive and file.

FINANCE AND PERSONNEL COMMITTEE

QUARTERLY DEFERRED COMPENSATION PLAN AND FUND REVIEW

SUMMARY:

The following is submitted for the Committee's review:

- A Summary of the Deferred Compensation Program and Distribution of Assets as of September 30, 2022, as outlined in Exhibit "A"; and
- Mutual Fund Performance Review as of September 30, 2022, as outlined in Exhibit "B".

BACKGROUND:

IRWD manages the Deferred Compensation Plan, which provides employees the opportunity to save for retirement on a tax-advantaged basis. For the quarter, 89% of IRWD employees participated in the voluntary 457(b) Deferred Compensation Plan. In-person quarterly employee meetings were reinstated in October 2022 and were well attended.

Overview of the Deferred Compensation Assets:

As of September 30, 2022, IRWD's Sections 457(b) and 401(a) Plans (collectively, the "Plans") assets totaled $76,914,582, which represented a $1,789,779 decrease from the prior quarter end, and a $14,805,444 decrease for the one-year period. The changes in Plan assets over the two periods are summarized as follows:

	One Year Period Ending September 30, 2022	*Quarter Ending September 30, 2022*
Beginning Balance	$91,720,027	$78,704,361
Employee Contributions	3,641,376	795,240
District Contributions	1,382,681	333,195
Transfers to/from Other Plans	388,617	41,394
Distributions	(5,045,897)	(268,618)
Loan Distributions (1)	(295,081)	(22,443)
Loan Repayments	307,149	81,180
Net Investment Gain (Loss)	(15,184,291)	(2,749,728)
Ending Balance – September 30, 2022	$76,914,582	$76,914,582
Change in Assets for the Period	($14,805,444)	($1,789,779)

(1) Number of loans outstanding: 71

Review of Investment Funds:

IRWD's Deferred Compensation Policy states that any investment performing "Below Benchmark" for four consecutive quarters or seven out of the trailing 12 quarters, has "Failed" the Long-Term Rolling Analysis (LTRA) and the investment option will be a candidate for replacement. The Committee may also place a fund on "Watch Status" if it has failed to meet certain Policy criteria for further evaluation. For the quarter ended September 30, 2022, all funds in the Plans passed the overall rating and the Victory Integrity Small-Cap Value R6 Fund continues to remain on "Watch Status" based on the LTRA criteria. The Fund Performance Review as of September 30, 2022, is provided as Exhibit "B".

FISCAL IMPACTS:

As of September 30, 2022, the District's Plan assets totaled $76,914,582, which represented a $1,789,779 decrease from the quarter ended June 30, 2022, and a $14,805,444 decrease for the one-year period.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

Receive and file.

FUND PERFORMANCE REVIEW

Irvine Ranch Water District - 98453-01/02/F1

Reporting Period Ending September 30, 2022

The analytical material contained herein merely describes the process that Empower Investments applies in evaluating funds. It may or may not be based on the plan's current investment policy and is not intended to be used by plan sponsors as a primary basis for deciding whether to make a particular fund available under the plan. Funds listed on the Fund Performance Review are designed to meet stated investment objectives and risk profiles, but do not constitute investment advice from Empower. Plan fiduciaries should review the educational material provided and consult with their investment advisers if necessary to make the investment decision. Neither Empower Investments, nor its representatives, agents or affiliates are permitted to give legal, ERISA, or tax advice. Any discussion of these matters included or related to this document or other educational information is provided for informational purposes only. Such discussion does not purport to be complete or to cover every situation. Current tax and ERISA law are subject to interpretation and legislative change. The appropriateness of any product for any specific taxpayer may vary depending on the particular set of facts and circumstances. You should consult with and rely on your own legal and tax advisers.

FUND PERFORMANCE REVIEW

IMPORTANT DISCLOSURES:

The Fund Performance Review is compiled at the request of the Plan fiduciary based on the specific criteria specified by the Plan fiduciary. It is designed as a high level analytical tool to aid plan fiduciaries in carrying out their fiduciary responsibilities. Empower Annuity Insurance Company of America and its affiliates (collectively, “Empower") are not providing impartial investment advice in a fiduciary capacity to the plan with respect to the Fund Performance Review. The Plan fiduciaries are solely responsible for the selection and monitoring of the Plan's investment options and for determining the reasonableness of all plan fees and expenses. Empower receives investment management and other fees and revenue from any Empower-affiliated or Putnam-affiliated investment options included in the Fund Performance Review. In addition, Empower may receive revenue sharing type payments in relation to the investment options provided on the Fund Performance Review. Please contact your Empower representative for more information. Plan Sponsors may wish to review the enclosed material with their investment adviser, consultant or broker, if necessary, prior to making final investment decisions.

Risks associated with the investment options can vary significantly and the relative risks of investment categories may change under certain economic conditions. *The investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be more or less than their original cost. Current performance may be lower or higher than performance data shown due to market activity. Past performance is not a guarantee of future results.*

Empower Equities, Inc. registered representatives may also be investment adviser representatives of Empower affiliate, Empower Advisory Group, LLC. Representatives do not offer or provide investment, fiduciary, financial, legal or tax advice or act in a fiduciary capacity for any client unless explicitly described in writing. Any discussion of these matters included or related to this document or other educational information is provided for informational purposes only. Such discussion does not purport to be complete or to cover every situation. Current tax and ERISA law are subject to interpretation and legislative change. The appropriateness of any product may vary depending on the particular set of facts and circumstances. You should consult with and rely on your own financial, legal and tax advisers.

FUND PERFORMANCE REVIEW: OVERVIEW

OBJECTIVE:
* To quantify historical fund performance relative to peer group benchmarks.
* To identify funds that have performed below a peer group median over the long-term.
* To assist in identifying style drift and discern gaps within the plan portfolio.

FUNDAMENTALS:
* An objective analysis based on set criteria.
* Based on long-term and risk-adjusted performance.
* Comparison against peer group of similar funds based on Morningstar, Inc. fund categories.

SOURCE:
* Statistics are derived from an independent third-party source: primarily Morningstar® Direct℠

SCOPE:
* The Fund Performance Review is designed as a high level analytical tool to aide plan sponsors in carrying out their fiduciary responsibilities; it is not intended as investment advice.

Although data is gathered from reliable sources, including but not limited to Morningstar, Inc., the completeness or accuracy of the data shown cannot be guaranteed. Where data obtained from Morningstar, ©2022 Morningstar, Inc. All Rights Reserved. The data: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information.

Required performance information may appear on more than one page. The "Return Analysis" page includes the 1, 5, and 10 Year/Since Inception performance percentages as well as the inception date for each of the funds.

It is important to note that when applicable, performance shown prior to inception date reflects performance achieved by the oldest share class of the same fund as determined by Morningstar. While the newer share class is less expensive than the oldest share class of the same fund, performance was not adjusted upwards to display higher returns.

Investment options available in the plan may be through mutual funds, collective trusts, separately managed accounts and/or a group fixed and variable annuity contract.

FUND PERFORMANCE REVIEW (FPR): CRITERIA

OVERALL RATING: Based on a combination of performance, risk-adjusted performance and the Overall Morningstar Rating.

Return Composite: Determined by taking the equal-weighted average of the 3-, 5- and 10-year category return percentiles.

Sharpe Composite: Calculated by averaging the 3- and 5-year category sharpe percentiles.

Overall Composite: The equally-weighted average of the Return Composite and Sharpe Composite.

Overall Morningstar Rating™: Represents a measure of an investment's risk-adjusted return, relative to similar investments.

The Overall Composite is the sole determinate for the Overall Rating for funds that do not have an Overall Morningstar Category Rating.

Overall Composite		Overall Morningstar Rating	Overall Rating
> 50.0%	AND	❸, ❹, or ❺	Above
≥ 50.0%	OR	❸, ❹, or ❺	Neutral
< 50.0%	AND	❶, or ❷	Below
< 25.0%			Below

LONG-TERM ROLLING ANALYSIS: Based on the accumulated trailing 12 quarter "Overall Ratings".

Consecutive number of Quarters Receiving a Below Rating		Total number of Quarters Below out of trailing 12 quarters	Long-Term Rolling Analysis *
< 4 Quarters	AND	< 7 Quarters	Pass
≥ 4 Quarters	OR	≥ 7 Quarters	Watch
OR			
Overall Rating: < 25.0%			Watch

*'Pass' and 'Watch' ratings in the long-term rolling analysis are not available for target date funds or Empower SecureFoundation funds. Morningstar's category classification system has not evolved to address differences in target-date glidepaths. The current system separates funds only by target retirement date and does not consider the level of equity in the glidepath (i.e. how aggressive or conservative the glidepath is versus peers). Plans should consider how their demographics align with their chosen target date glidepath rather than attempt to "time the market" by changing glidepaths based on peer performance rankings. All target-date funds will receive an 'N/A' rating in the FPR. The Empower SecureFoundation funds will also receive an 'N/A' rating in the FPR. These funds are unique in that they also require the purchase of a Guaranteed Lifetime Withdrawal Benefit (Guarantee) either as a fixed deferred annuity contract, a certificate to a group fixed deferred annuity contract, or a rider to a variable annuity contract. The Guarantee provides guaranteed retirement income for the life of a designated person(s), provided certain conditions are met. Plan Sponsors that seek this feature should take a long-term, holistic view with these funds as this benefit does not show up in peer group performance rankings as measured and scored through the FPR process.

For expanded definitions of the Composites, Sharpe Ratio and Ratings, please refer to the corresponding glossary.

A Percentile Ranking of 100% represents the highest performance whereas 0% represents the lowest.

Current performance may be lower or higher than performance data shown.

Performance data quoted represents past performance and is not a guarantee or prediction of future results. The investment return and principal value of an investment will fluctuate so that, when redeemed shares/units may be worth more or less than their original cost. For performance data current to the most recent month-end, please visit www.empower-retirement.com/participant. Total return performance shown above represents that of the underlying fund and does not include a deduction for any applicable annuity contract of administrative fees/expenses. Performance numbers shown above would be less after applicable fee/expenses are deducted.

Current performance may be lower or higher than performance data shown.Performance data quoted represents past performance and is not a guarantee or prediction of future results
The investment return and principal value of an investment will fluctuate so that, when redeemed, shares/units may be worth more or less than their original cost.
Total return performance shown above represents that of the underlying fund and does not include a deduction for any applicable annuity contract of administrative fees/expenses.
Performance numbers shown above would be less after applicable fee/expenses are deducted.

MSCI EMF ID	A capitalization-weighted index of stocks from 26 emerging markets that only includes issues that may be traded by foreign investors. The reported returns reflect equities priced in US dollars and do not include the effects of reinvested dividends.
MSCI EAFE Ndtr_D	Widely accepted as a benchmark for international stock performance, the EAFE Index is an aggregate of 21 individual country indexes that collectively represent many of the major markets of the world.
MSCI World Ndtr_D	Includes all 23 MSCI developed market countries. Ndtr_D indexes are calculated daily and take into account actual dividends reinvested daily before withholding taxes, but exclude special tax credits declared by companies.
Russell 2000 Growth	Market-weighted total return index that measures the performance of companies within the Russell 2000 Index having higher price-to-book ratios and higher forecasted growth values.
Russell 2000	Consists of the smallest 2000 companies in the Russell 3000 Index, representing approximately 7% of the Russell 3000 total market capitalization.
Russell 2000 Value	Market-weighted total return index that measures the performance of companies within the Russell 2000 Index having lower price-to-book ratios and lower forecasted growth values.
Russell Mid Cap Growth	Market-weighted total return index that measures the performance of companies within the Russell Midcap Index having higher price-to-book ratios and higher forecasted growth values.
Standard & Poor's Midcap 400	Includes approximately 10% of the capitalization of U.S. equity securities. These are comprised of stocks in the middle capitalization range.
Russell Mid Cap Value	Market-weighted total return index that measures the performance of companies within the Russell Midcap Index having lower price-to-book ratios and lower forecasted growth values.
Russell 1000 Growth	Market-weighted total return index that measures the performance of companies within the Russell 1000 Index having higher price-to-book ratios and higher forecasted growth values.
Standard & Poor's 500	A market capitalization-weighted index of 500 widely held stocks often used as a proxy for the stock market. It measures the movement of the largest issues. Standard and Poor's chooses the member companies for the 500 based on market size, liquidity and industry group representation.
Russell 1000 Value	Market-weighted total return index that measures the performance of companies within the Russell 1000 Index having lower price-to-book ratios and lower forecasted growth values.
BBgBarc US Aggregate Bond	Composed of the Bloomberg Barclays Govt/Credit Index, the Mortgage-Backed Securities Index, and the Asset-Backed Securities Index.
BBgBarc US Capital Credit	Listed for corporate bond-general and high-quality funds. This index tracks the returns of all publicly issued, fixed-rate, nonconvertible, dollar-denominated, SEC-registered, investment-grade corporate debt.
BBgBarc US Mortgage-Backed	Includes 15- and 30-year fixed-rate securities backed by mortgage pools of the Government National Mortgage Association (GNMA).
BBgBarc US Government Bond	Listed for government-bond general and Treasury funds because it tracks the returns of U.S. Treasuries, agency bonds, and one- to three-year U.S. government obligations. This index is effective for tracking portfolios holding non-mortgage government securities.
BBgBarc US 1-3 Year Governme	Comprised of both the Treasury Bond index (all public obligations of the U.S. Treasury, excluding flower bonds and foreign-targeted issues) and the Agency Bond Index (all publicly issued debt of U.S. Government agencies and quasi-federal corporations and corporate-debt guaranteed by the U.S. Government).

A benchmark index is not actively managed, does not have a defined investment objective and does not incur fees or expenses. Therefore, performance of a fund will generally be less than its benchmark index. You cannot invest directly in a benchmark index.

Securities, when presented, are offered and/or distributed by Empower Financial Services, Inc., Member FINRA/SIPC. EFSI is an affiliate of Empower Retirement, LLC; Empower Funds, Inc.; Putnam Funds; and registered investment adviser, Empower Advisory Group, LLC. This material is for informational purposes only and is not intended to provide investment, legal or tax recommendations or advice.

Carefully consider the investment option's objectives, risks, fees and expenses. Contact Empower for a prospectus, summary prospectus for SEC-registered products or disclosure document for unregistered products, if available, containing this information. Read each carefully before investing.

About investment risk:
Stock values fluctuate in response to the activities of the general market, individual companies and economic conditions. Alternative investments generally invest in non-traditional asset categories or use non-conventional strategies and may have more risk than traditional investments. Asset allocation and balanced investment options and models are subject to the risks of their underlying investments. Commodity and real asset investments may be affected by natural disasters and political and economic developments. Foreign securities involve risks, such as currency fluctuations, economic changes and political developments. These risks may be heightened in emerging markets, which may also experience liquidity risk. Infrastructure funds invest in a limited number of companies and are subject to issuer, political, regulatory, market and economic risks, especially in foreign or emerging markets. Natural resources funds invest in a limited number of companies subject to industry, political, economic, commodity prices and regulation risks, especially in foreign or emerging markets. Real estate securities and trusts involve risks, including declining property values, changes in zoning laws or losses from casualty. Real estate securities that invest in foreign real estate involve additional risks, including currency fluctuations and political developments. Under certain market conditions, socially responsible funds may underperform funds that do not utilize a socially responsible investment style. Securities of small and mid-size companies may be more volatile than those of larger, more established companies. Specialty funds invest in a limited number of companies and may be more volatile than a more diversified fund.

Bond prices generally fall when interest rates rise (and vice versa) and are subject to risks, including changes in credit quality, market valuations, inflation, liquidity and default. High-yield bonds have a greater risk of default. The interest from Treasury inflation-protected securities (TIPS) is adjusted periodically according to the Consumer Price Index. The return from TIPS may understate the actual rate of inflation due to changes in the bond's underlying price. U.S. Treasury securities, where listed, are guaranteed as to the timely payment of principal and interest if held to maturity. The fund itself is neither issued nor guaranteed by the U.S. government. Cash-alternative funds are not federally guaranteed and are subject to interest rate, inflation and credit risks.

The date in a target date fund's name is the approximate date when investors plan to start withdrawing their money (generally assumed at age 65). The principal value of the fund(s) is not guaranteed at any time, including at the time of the target date and/or withdrawal.

It is possible to lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Empower Funds are underwritten by Empower Financial Services, Inc., Member FINRA/SIPC, an affiliate of Empower Funds, Inc.; Empower Trust Company, LLC and registered investment adviser Empower Capital Management, LLC, marketed under the Empower Investments brand. Empower Capital Management, LLC, is the investment adviser to Empower Funds, Inc.

About Overall Morningstar Rating™

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Please note, for any funds with a newer share class, the rating information is based on extended performance, which is derived from the historical performance of the older class shares, not adjusted for fees. Past performance is no guarantee of future results.

About Morningstar Rankings

Peer groups are created using Morningstar's category classification system. Peer groups are the combination of all share classes of all mutual funds in Morningstar's Open End Fund database (in a given asset class), all collective investment trusts in Morningstar's Separate Accounts/CITs database (in the same asset class), and all funds in Morningstar's Insurance and Pension Funds database (in the same asset class). As an example, the Large Blend peer group is created as a combination of all share classes of all mutual funds in Morningstar's US Fund Large Blend category, all collective investment trusts in Morningstar's US SA Large Blend category, and all funds in Morningstar's US Insurance Large Blend category. Please note, for any funds with a newer share class, the ranking information is based on extended performance, which is derived from the historical performance of the older class shares, not adjusted for fees.

Morningstar® is a registered trademark and Overall Morningstar Rating™ is a trademark of Morningstar, Inc. Morningstar, Inc. is not affiliated with Empower Annuity Insurance Company of America or any other affiliated companies and/or subsidiaries.

APPENDIX - GLOSSARY

12b-1 Fee The maximum annual charge deducted from fund assets to pay for distribution and marketing costs. Although usually set on a percentage basis, this amount will occasionally be a flat figure.

Actively managed A fund attempts to add portfolio value through such active investment techniques as sector allocation (top-down) and/or security selection (bottom-up).

Aggressive Growth (Objective) Funds that seek high growth of capital. Investments may include smaller companies, companies in newly-emerging industries or in

Alpha is the coefficient that measures the portion of an investment's return arising from non-market or unsystematic risk. In actively managed portfolio. Alpha is considered to be the value added by the manager through sector or security selection. A negative alpha would indicate that active management had produced less-than-market returns.

Annual Returns Total returns calculated on a calendar -year basis. The annual return for a fund will be the same as its trailing 12-month total return only at year-end

Annualized Returns Returns for periods longer than one year are expressed as "annualized returns." This is equivalent to the compound rate of return which, over a certain period of time, would produce a fund's total return over that same period.

Asset Allocation (Objective) Funds that seek high total return by investing in a mix of equities, fixed-income securities and money market instruments.

Bloomberg US Aggregate Bond Index Composed of the Bloomberg Barclays Capital Govt/Credit Index, the Mortgage-Backed Securities Index, and the Asset-Backed Securities Index. The returns published for the index are total returns, which include reinvestment of dividends.

Bloomberg Government Bond Index Listed for government-bond general and Treasury funds. Because it tracks the returns of U.S. Treasuries, agency bonds, and one- to three-year U.S. government obligations, this index is effective for tracking portfolios holding non-mortgage government securities. The returns published for the index are total returns, which include reinvestment of dividends.

Basis Point One-hundredth of a percentage point. For example, 50 basis points equals .50%.

Beta also known as market or systematic risk, beta is the coefficient that measures an investment's volatility relative to "the market" (the S & P 500 Index has a beta of 1.00) as a whole. Portfolios with a beta greater than 1.00 will move higher or lower than the market as a whole, while those with betas of less than 1.00 will move less than the market.

Bond funds Contrary to individual bonds, which offer a guaranteed rate of return, bond funds are variable funds and their returns may rise or fall depending on market conditions. Funds with 70% or more of their assets invested in bonds are classified as Bond Funds. Bond funds are divided into two main groups: Taxable Bond and Municipal Bond. Taxable Bond Fund categories include the following: Long-Term Government, Intermediate-Term Government, Short-Term Government, Long-Term Bond, Intermediate-Term Bond, Short-Term Bond, Ultrashort-Bond, International- Bond, High-Yield Bond, Emerging-Markets Bond and Multisector Bond.

Capital Appreciation The market rise in share value of a company as it experiences growth in earnings and/or assets. By extension, funds will experience capital appreciation as the underlying securities in their portfolios appreciate in value.

Capitalization The total market value of all stock issued by a company. Funds are frequently categorized by the market capitalization of the stocks in their portfolios; i.e., "small cap" generally refers to companies valued by the market at less than $1 billion, "Mid-cap" to companies valued between $1 billion and $5 billion, and "Large-cap" to companies valued at more than $5 billion.

Corporate Bond--General (Objective) Funds that seek income by investing in fixed-income securities. Funds with this objective may hold a variety of issues, including but not limited to government bonds, high-quality corporates, mortgages, asset-backeds, bank loans and junk bonds.

Corporate Bond--High Yield (Objective) Funds that seek income by generally investing 65% or more of their assets in bonds rated below BBB. The price of these issues is generally affected more by the condition of the issuing company (similar to a stock) than by the interest-rate fluctuation that usually causes bond prices to move up and down.

APPENDIX - GLOSSARY (CONT.)

Diversification The investment practice of spreading assets in a portfolio among a number of different companies, industries, sectors and/or instruments. Under Modern Portfolio Theory, the practice of diversification may assist an investor in reducing overall portfolio risk and evening out portfolio returns.

Domestic equity funds are placed in a category based on the style and size of the stocks they typically own. The style and size parameters are based on the divisions used in the investment style box: Value, Blend, or Growth style and Small, Medium, or Large median market capitalization.

Duration A measure of the sensitivity of the price of a fixed-income security to a change in interest rates. Duration is expressed as a number of years. Duration is a measure of interest rate risk. The larger the duration number, the greater the interest rate risk or reward for bond prices.

Equity-Income (Objective) Funds that are expected to pursue current income by investing at least 65% of their assets in dividend-paying equity securities.

Excess Returns The percentage of fund assets paid for operating and administrative expenses, as well as management fees. Fund expenses are reflected in a Fund's NAV.

Expense Ratio The percentage of fund assets paid for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's NAV. Sales charges are not included in the expense ratio.

Foreign Stock Category An international fund having no more than 10% of stocks invested in the United States.

Fund of Funds A fund that specializes in buying shares in other mutual funds rather than individual securities. Quite often this type of fund is not discernible from its name alone, but rather through prospectus wording (i.e.: the fund's charter).

Government Bond--General (Objective) Offerings that pursue income by investing in a combination of mortgage-backed securities, Treasuries, and agency securities.

Empower Funds S&P 500®, S&P Mid Cap 400® Index and S&P Small Cap 600® Index are registered trademarks of Standard & Poor's Financial Services LLC and have been licensed for use by Empower Annuity Insurance Company of America. The Empower Real Estate Index Fund is not sponsored, endorsed, sold or promoted by S&P Dow Jones Indices LLC, Dow Jones, S&P or their respective affiliates, and S&P Dow Jones Indices LLC; Dow Jones, S&P; and their respective affiliates make no representation regarding the advisability of investing in the fund. The Empower Stock Index Fund seeks to track the total return of the S&P 500® Index and S&P Mid Cap 400® Index, weighted according to their pro rata share of the market. S&P 500® and S&P Mid Cap 400® are trademarks of Standard & Poor's and have been licensed for use by Empower Annuity Insurance Company of America. The fund is not sponsored, endorsed, sold or promoted by Standard & Poor's or its third-party licensors, and neither

Growth (Objective) Funds that pursue capital appreciation by investing primarily in equity securities. Current income, if considered at all, is a secondary concern.

Growth and Income (Objective) Growth of capital and current income are near-equal objectives for these funds. Investments are typically selected for both appreciation potential and dividend-paying ability.

Index Fund A fund that tracks a particular index and attempts to match returns. While an index typically has a much larger portfolio than a mutual fund, the fund's management may study the index's movements to develop a representative sampling, and match sectors proportionately.

Information Ratio Is an alternative to the Sharpe Ratio for measuring the risk-adjusted performance of a portfolio. It is calculated by subtracting the benchmark (usually an index) from the return of the portfolio as a whole, then dividing by the tracking error (standard deviation of the difference between portfolio returns and the returns of the index). The higher the Information Ratio, the better the more consistent a manager is.

International Equity Funds with 40% or more of their equity holdings in foreign stocks (on average over three years) are placed in the international equity class. These categories include Europe, Japan, International Hybrid, Latin America, Diversified Pacific, Pacific ex. Japan, Specialty Precious Metals, Diversified Emerging Markets, World Stock, and Foreign Stock. Foreign investments involve special risks, including currency fluctuations and political developments.

APPENDIX - GLOSSARY (CONT.)

Life Cycle These funds are geared toward investors of a certain age or with a specific time horizon for investing. Typically they are grouped together in sets (i.e. conservative, moderate, and aggressive portfolios).

Management Fees The management fee is the percentage deducted from fund assets to pay an advisor or subadvisor. Often, as the fund's net assets grow, the percentage deducted for management fees decreases. For example, a particular fund may report a management fee of 0.40% on the first $500 million in assets, 0.35% on all assets between $500 million and $1 billion, and 0.30% on assets in excess of $1 billion. Thus, if the fund contains $1.5 billion in total net assets, the advisor scales back its management fees accordingly. Alternatively, the fund may compute the fee as a flat percentage of average net assets. The management fee might also come in the form of a group fee (G), a performance fee (P), or a gross income fee (I). Note: The management fee is just one (albeit a major) component of a fund's costs. The overall expense ratio is the most useful number for investors. Actual fees are also noted in this section.

Morningstar Category identifies funds based on their actual investment styles as measured by their underlying portfolio holdings (portfolio statistics and compositions over the past three years). If the fund is new and has no portfolio, we estimate where it will fall before assigning a more permanent category. When necessary, we may change a category assignment based on current information.

MSCI EAFE Ndtr_D Listed for foreign stock funds (EAFE refers to Europe, Australasia, and Far East). Widely accepted as a benchmark for international stock performance, the EAFE Index is an aggregate of 21 individual country indexes that collectively represent many of the major markets of the world. Ndtr_D indexes are calculated daily and take into account actual dividends reinvested daily before withholding taxes, but exclude special tax credits declared by companies. In addition, Ndtr_D indexes subtract withholding taxes retained at the source, for foreigners who do not benefit from a double taxation treaty. The returns published for the index are total returns, which include reinvestment of dividends.

MSCI World Ndtr_D Includes all 23 MSCI developed market countries. Ndtr_D indexes are calculated daily and take into account actual dividends reinvested daily before withholding taxes, but exclude special tax credits declared by companies. In addition, Ndtr_D indexes subtract withholding taxes retained at the source, for foreigners who do not benefit from a double taxation treaty.

Mutual fund An investment option that pools money from many shareholders and invests it in a group of stocks, bonds, or other securities. Also known as an open-end investment management company, mutual funds are securities required to be registered with the SEC.

NAV Stands for net asset value, which is the fund's share price. Funds compute this value by dividing the total net assets by the total number of shares.

Net Assets The month-end net assets of the mutual fund, recorded in millions of dollars. Net-asset figures are useful in gauging a fund's size, agility, and popularity. They help determine whether a small company fund, for example, can remain in its investment-objective category if its asset base reaches an ungainly size.

Prospectus A fund's formal written statement, generally issued on an annual basis. In this statement the fund sets forth its proposed purposes and goals, and other facts (e.g.: history and investment objective) that an investor should know in order to make an informed decision.

Prospectus Objective Indicates a particular fund's investment goals, based on the wording in a fund's prospectus.

R-squared (R2) measures the degree to which movement in one variable is related to the movement in another variable. Portfolios with a high R-squared will react similarly to various market conditions. By combining investments with low correlations, an investor can reduce the overall risk within a portfolio.

Risk Basically there are four types of risk: 1) inflation risk means your money may not earn enough in the long run because as prices go up the value of your money goes down; 2) market risk means you could lose money because the price of a stock may go down; 3) credit risk means a company or organization that borrowed your money may not be able to pay it back; and 4) interest rate risk means you could lose money because as interest rates go up the value of bond investments goes down.

APPENDIX - GLOSSARY (CONT.)

Russell 1000 Consists of the 1000 largest companies within the Russell 3000 index. Also known as the Market-Oriented Index, because it represents the group of stocks from which most active money managers choose. The returns published for the index are total returns, which include reinvestment of dividends.

Russell 1000 Growth Market-capitalization weighted index of those firms in the Russell 1000 with higher price-to-book ratios and higher forecasted growth values. The Russell 1000 includes the largest 1000 firms in the Russell 3000, which represents approximately 98% of the investable US equity market.

Russell 1000 Value Market-capitalization weighted index of those firms in the Russell 1000 with lower price-to-book ratios and lower forecasted growth values. The Russell 1000 includes the largest 1000 firms in the Russell 3000, which represents approximately 98% of the investable US equity market.

Russell 2000 Consists of the smallest 2000 companies in the Russell 3000 Index, representing approximately 7% of the Russell 3000 total market capitalization. The returns published for the index are total returns, which include reinvestment of dividends.

Russell 2000 Growth Market-weighted total return index that measures the performance of companies within the Russell 2000 Index having higher price-to-book ratios and higher forecasted growth values. The Russell 2000 Index includes the 2000 firms from the Russell 3000 Index with the smallest market capitalizations. The Russell 3000 Index represents 98% of the of the investable US equity market.

Russell 2000 Value Market-weighted total return index that measures the performance of companies within the Russell 2000 Index having lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Index includes the 2000 firms from the Russell 3000 Index with the smallest market capitalizations. The Russell 3000 Index represents 98% of the of the investable US equity market.

Share Classes Shares of the same fund that offer different shareholder rights and obligations, such as different fee and load charges. Common share classes are A (front-end load), B (deferred fees), C (no sales charge and a relatively high annual 12b-1 fee, such as 1.00%). Multi-class funds hold the same investment portfolio for all classes, and differ only in their surrounding fee structure.

Sharpe Ratio measures the risk-adjusted performance of a portfolio. It is calculated by subtracting the risk-free rate of return (i.e., the return on treasury bills) from the return of the portfolio as a whole, then dividing by the standard deviation of the returns. The higher the Sharpe Ratio, the better the risk-adjusted performance of the portfolio.

Sortino Ratio is similar to the Sharpe Ratio, except that it uses downside deviation for the denominator instead of standard deviation. This alternative to the Sharpe Ratio provides a risk-adjusted measure of a security or fund's performance without penalizing it for upward price movements.

Standard Deviation A statistical measurement of dispersion about an average, which, for a mutual fund, depicts how widely the returns varied over a certain period of time. Investors use the standard deviation of historical performance to try to predict the range of returns that are most likely for a given fund. When a fund has a high standard deviation, the predicted range of performance is wide, implying greater volatility.

Tax-deferred earnings You don't have to pay taxes on any earnings in your defined contribution plan until you withdraw your money. The money in a defined contribution plan can grow faster than with other types of savings plans, because the earnings you accumulate, if any, are also tax-deferred.

Turnover Ratio A measure of the percentage of holdings that have been "turned over" -- replaced with other holdings -- within a portfolio during the course of a year.

Variable funds Investments that fluctuate with market conditions. Unlike guaranteed investments, such as bonds or CDs, variable funds don't guarantee a specific rate of return. They do offer potential for higher earnings in return for higher degree of market risk.

World Stock Category An international fund having more than 10% of stocks invested in the US. Also known as global funds. Foreign Investments involve special risks, including currency fluctuations and political developments.

FINANCE AND PERSONNEL COMMITTEE

FISCAL YEAR 2022-23 OPERATING AND NON-OPERATING
FINANCIAL HIGHLIGHTS QUARTERLY UPDATE

SUMMARY:

Staff has prepared a financial analysis of the unaudited operating statements through the first quarter of Fiscal Year (FY) 2022-23. Actual operating net revenue was $46.1 million, while total system operating expenses were $43.8 million for a net operating income of $2.3 million. Consolidated expenses, including capital, totaled $48.8 million which is $0.3 million over budget. Non-operating net income was $18.4 million compared with a budget of $16.0 million.

BACKGROUND:

Details of unaudited actual results through the first quarter of FY 2022-23 are provided in the following documents:

- Operating revenues and expenses by system, provided as Exhibit "A";
- Operating expenses, provided as Exhibit "B"; and
- Non-operating revenues and expenses, provided as Exhibit "C".

Exhibits "A", "B", and "C" provide operating and non-operating results with detailed explanations for variances that exceed $0.5 million. These variances are color coded, and explanations are included in the exhibits with matching colors for easy reference. Exhibit "A" includes cost of water and acre-feet (AF) details for potable and recycled water. Exhibit "B" includes a summary of the major components included in salaries and benefits.

Summary of Operating Revenues and Expenses:

Net revenues were $46.1 million and operating expenses were $43.8 million resulting in a net operating income through the first quarter of FY 2022-23 of $2.3 million. Exhibit "A" shows a detailed comparison and explanations for significant variances of actual to budget revenues and expenses by system through the first quarter of FY 2022-23. A summary by system is outlined below.

Potable Water System:

Net revenues were lower than budget by $0.8 million and total expenses exceeded budget by $0.8 million as shown on Exhibit "A-2". Sales were 870 AF under budget, resulting in commodity sales $0.6 million below budget. Purchased water was over budget by $0.6 million. More information is included on Exhibits "A-2" and "A-3".

Recycled Water System:

Net revenues were under budget by $0.2 million and total expenses were over budget by $0.6 million. Sales were 456 AF lower than budget. Commodity revenues were $0.6 below budget. More information is included on Exhibits "A-4" and "A-5".

Sewer System:

Net revenues were lower than budget by $0.2 million and total expenses were over budget by $0.5 million. More information is included on Exhibit "A-6".

Conservation, Natural Treatment System (NTS), and Water Banking (Over-allocation Fund):

Net revenues were below budget by $0.3 million and total expenses were under budget by $0.4 million. More information is included on Exhibit "A-7".

Summary of Operating Expenses:

Exhibit "B" is a summary of actual to budget expenses by major category, including capital, through the first quarter of FY 2022-23. Net operating expenses were $48.8 million, which is $0.3 million over budget. Explanations are provided on Exhibit "B-2". Salary and employee benefits are detailed on Exhibit "B-3".

Summary of Non-Operating Revenues and Expenses:

Exhibit "C" is a summary of non-operating revenues and expenses. IRWD's non-operating revenues are related to income generated from sources other than user rates. They include property taxes, investment income, connection fees, and real estate. A portion of the non-operating revenue pays debt service. Property taxes and connection fees help to pay for new infrastructure.

The non-operating net income was $18.4 million, which was positive to budget by $2.4 million. Revenues were over budget by $1.9 million and expenses were under budget by $0.5 million.

FISCAL IMPACTS:

Fiscal impacts are outlined above and are included in the exhibits provided.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

Receive and file.

LIST OF EXHIBITS:

Exhibit “A” – Actual to Budget Operating Revenues and Expenses by System
Exhibit “B” – Consolidated Actual to Budget and Forecast Operating Expenses
Exhibit “C” – Consolidated Actual to Budget and Forecast Non-Operating Net Income

All Other Operating Expense	8,956	8,485	(471)
Total Expenses	**$ 43,831**	**$ 42,379**	**$ (1,452)**
Net Operating Income (Loss)	**$ 2,312**	**$ 5,230**	**$ (2,918)**

Explanations for significant variances greater than $500K are included in the details of each system.

Actual vs Budget Operating Net Income by System
Through the First Quarter of Fiscal Year 2022-23
(in thousands)

Potable (treated and untreated systems)

Revenues:	Actual	Budget	Variance
Commodity	$ 15,508	$ 16,116	$ (608)
Fixed Service Charges and Other	10,253	10,481	(228)
Total Revenues	**$ 25,761**	**$ 26,597**	**$ (836)**
Contribution to Enhancement and Replacement Funds	(2,375)	(2,446)	71
Net Revenues	**$ 23,386**	**$ 24,151**	**$ (765)**
Expenses:			
Salaries and Benefits	$ 3,922	$ 3,849	$ (73)
Purchased Water	12,179	11,611	(568)
Electricity	3,170	3,312	142
Repairs and Maintenance	1,054	1,294	240
All Other Operating Expense	3,021	2,523	(498)
Total Expenses	**$ 23,346**	**$ 22,589**	**$ (757)**
Net Operating Income (Loss)	**$ 40**	**$ 1,562**	**$ (1,522)**

Revenues:

Commodity Revenue was under budget.

Residential and commercial sales were under budget due to conservation messaging.

FY 2021-22 Revenue includes cost recovery for FY 2022-23 ($1.0 million).

- These were partially offset by reduced PVID revenue ($0.6 million).

Expenses:

Purchased Water was over budget. See additional details on Exhibit "A-3".

- Untreated Imported water was purchased to replace less expensive native water.

Actual vs Budget Operating Net Income by System

Sales/Cost of Sales	**14,917**	**15,787**	**870**	**$ 12.2**	**$ 11.6**	**$ (0.6)**
Total				**$ 12.2**	**$ 11.6**	**$ (0.6)**

Pumped Water usage was under budget and costs were under budget.

- Groundwater levels were too low to pump from Wells 21 and 22.
- Dyer Road Well Field (DRWF) pumping was reduced due to storage limitations for customers in some elevated areas as a result of reservoir maintenance.

Potable Imported water usage and cost exceeded budget.

Imported water was used to replace pumped water.

Untreated Imported water usage and cost exceeded budget.

- Imported water was increased due to lack of native water availability to meet recycled demands.
- Untreated imported water was purchased and placed in Irvine Lake for the Baker Treatment Plant.

Water transferred to the recycled system was over budget.

Untreated water transferred to the recycled system was increased to replace stored / produced water.

Sales were under budget.

Overall usage under budget by 5.5%.

*Cost reimbursement is included in Reimbursement from Partners

System Loss	(741)	(221)	520			
Sales/Cost of Sales	**11,422**	**11,878**	**456**	**$ 2.8**	**$ 2.4**	**$ (0.4)**

Stored water usage was under budget.

Production was higher than budget but less stored water was used to meet demands. There is no associated cost because the expense was recognized previously.

Untreated supplemental water usage and cost were over budget.

Untreated water transferred to the recycled system was used to meet demands.

System losses exceeded budget.

The El Toro Remediation Project (ETGR) was sent to outfall due to PFAS levels (362 AF).

Sales were under budget.

Usage was under budget by 3.8% primarily due to reduced agricultural and landscape sales as a result of conservation messaging.

Irvine Ranch Water District
Operating Expenses
Through the First Quarter of Fiscal Year 2022-23

Key variances (over)/under budget greater than $0.5 Million are as follows:

Water is over budget by $1.3 million.

Imported water was increased due to the following reasons:

- Untreated imported water that was stored at Irvine Lake was transferred to the Baker Treatment Plant (BTP). Compensation from the Baker Partners is reflected in the reimbursements from Partners below.
- Use of Native water was reduced due to lack of availability.
- Increased untreated imported water was needed for the Recycled System to replace groundwater sent to the outfall due to PFAS.

Irvine Ranch Water District
Consolidated Non-Operating Actual to Budget
Period Ending September 30, 2022
(in thousands)

	Actual	Budget	Actual vs Budget
Revenues:			
Property Taxes	$ 14,148	$ 13,308	$ 840
Investment Income*	1,057	480	577
Connection Fees	4,355	3,250	1,105
Real Estate Income	4,244	4,545	(301)
Other Income	1,233	1,500	(267)
Total Revenues	**$ 25,036**	**$ 23,083**	**$ 1,953**
Expenses:			
Interest Expense	$ 4,909	$ 5,285	$ 376
Real Estate Expense	1,727	1,585	(142)
Other Expenses	15	250	235
Total Expenses	**$ 6,651**	**$ 7,120**	**$ 469**
Net Income	**$ 18,385**	**$ 15,963**	**$ 2,423**

Revenues:

Property Taxes were over budget.

Ad valorem was higher than anticipated, higher assessed values.

Investment Income

Investment rates were higher than budgeted (Budget 0.60% versus 1.07%).

Connection Fees were over budget.

Connection Fees exceeded budget due to increased construction activity.

***Based on accounting standards, the general ledger reflects investment income of approximately $650K due to the timing of recognition for bond premiums/discounts.**

FINANCE AND PERSONNEL

FUNDING IRWD'S OTHER POST-EMPLOYMENT BENEFITS LIABILITY

SUMMARY:

IRWD has fully funded its pension liability through a combination of contributions to CalPERS and its Section 115 Pension Benefits Trust. The District also has three Other Post-Employment Benefits Plans (OPEB). Currently, IRWD has no mechanism to fund its OPEB liability. Staff recommends that the Board approve establishing a new Section 115 OPEB Trust for the purpose of funding IRWD's future OPEB liability. Guiding Principles for determining future amounts to be funded and other matters will be developed in the coming months.

BACKGROUND:

IRWD Pension Liability:

IRWD recognizes that defined benefit plans such as CalPERS and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the pension issue and in 2013, established an irrevocable trust to substantially fund its CalPERS unfunded pension liability.

IRWD OPEB Liability:

To date, IRWD has elected to fund only the annual required contributions for its OPEB plans. The District's OPEB liability has increased over the last five years due primarily to a change in accounting standards in Fiscal Year (FY) 2017-18, which required that OPEB be reflected on the balance sheet on an actuarial basis. The current OPEB liability as of FY ended 2022 is $24.7 million, compared to $4.3 million in 2017 (which was prior to the accounting required change).

The OPEB liability will likely continue to increase. The District can continue the current approach of paying only the annual contribution, or it can take steps to begin mitigating the liability. At the meeting, staff will present a PowerPoint (provided as Exhibit "A") showing projected growth of the OPEB unfunded liability and two approaches for managing this liability:

1. Continue the current funding strategy: pay-as-you-go and only fund the annual required contributions; or
2. Establish a plan/ plan amendment to permit future funding to reduce the unfunded OPEB liability.

Staff recommends that the Board approve establishing a new Section 115 OPEB Trust to provide for future funding to reduce the District's OPEB liability. Guiding Principles for determining future amounts to be funded will be developed in the coming months.

FISCAL IMPACTS

Unable to determine at this time.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Board approve establishing a Section 115 OPEB Trust for the purpose of funding IRWD's future OPEB liability.

LIST OF EXHIBITS:

Exhibit "A" – Draft PowerPoint Presentation

CONSIDERATIONS FOR FUNDING OPEB

Finance & Personnel Committee Meeting
November 2022

DRAFT

1

1

AGENDA

1. IRWD's current OPEB Plans
2. Current funding strategy for OPEB
3. Current / Projected OPEB Liability
4. Alternatives for addressing OPEB liability
5. Next Steps

Irvine Ranch Water District

2

2

IRWD'S CURRENT OPEB PLANS

1. PEMHCA – California public employees medical and hospital care act (PERS health) $151/month
2. RHCAP – Retiree Health Cost Assistance Program, which provides medical reimbursement based on years of service up toa maximum of $600 per month
3. Retiree Death Only Plan ("death benefit") – 100% of annual salary for employees hired prior to December 31, 2008

Irvine Ranch Water District

3

3

IRWD'S CURRENT OPEB PLANS

Number of participants in current OPEB Plans:

Participants	PEMHCA	RHCAP	Death Benefit	Total
Inactive Employees or Beneficiaries Receiving	114	46	-	160
Entitled Inactive Employees not yet Receiving	89	-	135	224
Active Employees	408	408	123	939
TOTAL	611	454	258	1,323

Irvine Ranch Water District

4

4

CURRENT FUNDING STRATEGY FOR OPEB

IRWD historically has only paid the annual contribution ("pay-as-you-go"), which is the minimum amount required.

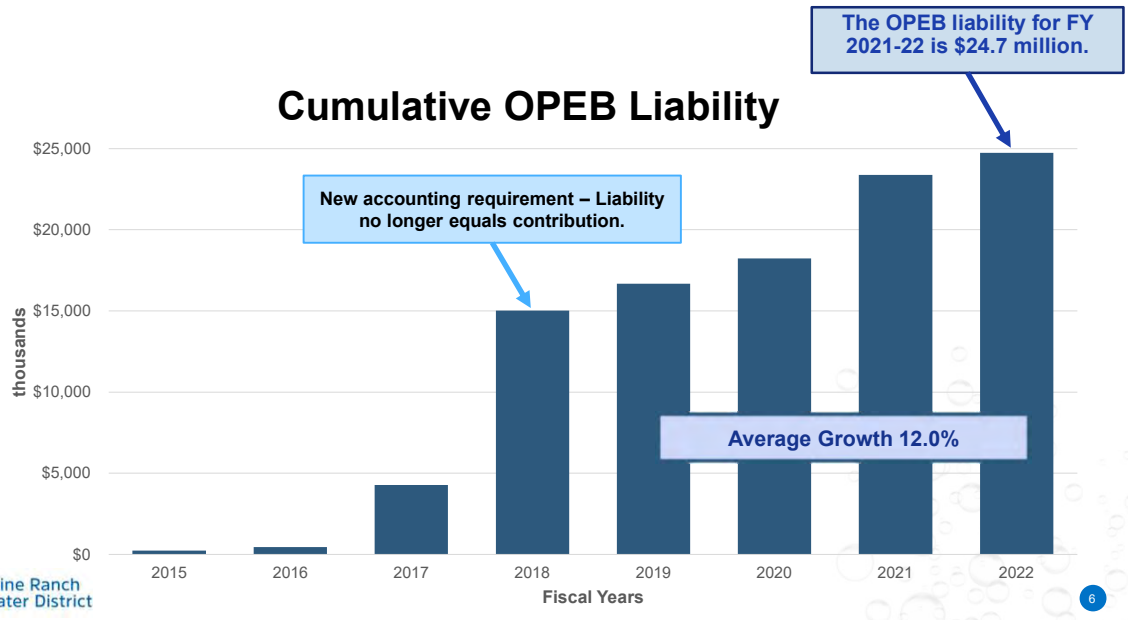
Result: a growing liability on IRWD's financial statements

Irvine Ranch Water District

5

5

IRWD'S CURRENT OPEB LIABILITY



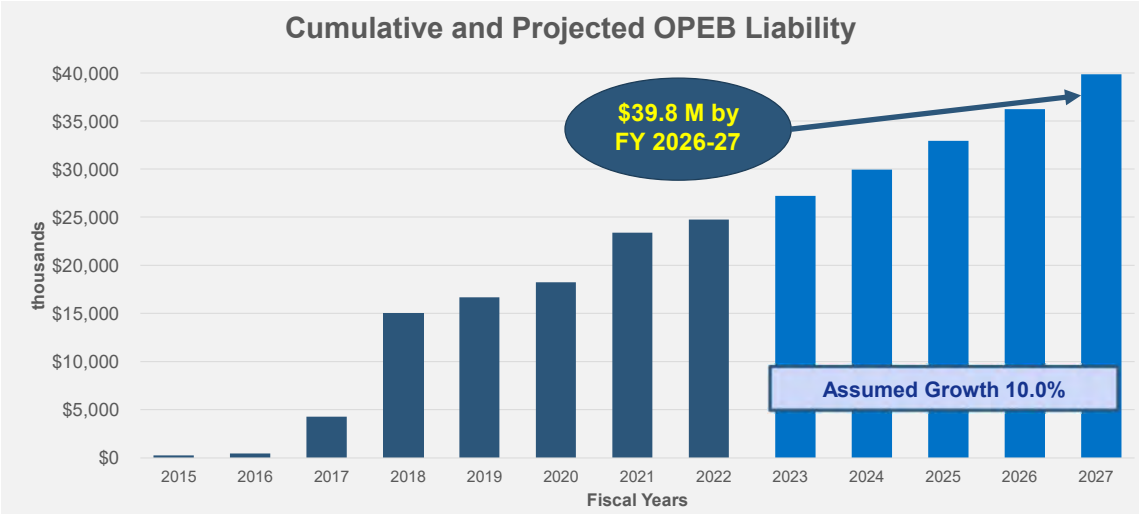
Irvine Ranch Water District

6

6

PROJECTED OPEB LIABILITY

The assumed growth factor is 10%.



Irvine Ranch Water District

7

7

8

FUTURE FUNDING STRATEGY ALTERNATIVES FOR OPEB

1. No change to the current approach: pay annual contribution and liability continues to grow

   or

2. Establish mechanism to begin funding the OPEB liability

   Options:

   a) Amend the existing Pension Benefit Trust Fund to include both pension and OPEB; or

   b) Adopt a new Trust Fund to address OPEB liability; or

   c) Participate in a third party 115 Trust for OPEB liability

Irvine Ranch Water District

9

9

1. NO CHANGE TO THE CURRENT APPROACH

No change to the current approach: pay annual contribution of $0.8 million (for FY 2021-22) and liability continues to grow.

Advantages

– Meets annual obligation

Disadvantages

– Continued growth of OPEB liability could eventually impact IRWD's credit rating

Irvine Ranch Water District

10

10

2. ESTABLISH MECHANISM TO BEGIN FUNDING OPEB LIABILITY

a) Amend the existing Pension Benefit Trust Fund to include both pension and OPEB

Create two separate sub accounts for the pension and OPEB liabilities using new funds for OPEB

Advantages

– Requires only an amendment to existing plan

Disadvantages

– Cost to amend existing Trust document

– Any material amendment to the Trust would be outside the IRS Private Letter Ruling (PLR) potentially risking current tax-exempt status

Irvine Ranch Water District

11

11

2. ESTABLISH MECHANISM TO BEGIN FUNDING OPEB LIABILITY

Staff Recommendation

b) Adopt a new Trust Fund to address OPEB liability

Adopt a separate, stand alone 115 Trust for OPEB using new funds

Advantages

– The IRS position on OPEB 115 trusts is well-established - there are hundreds of PLRs ruling that OPEB 115 trusts are tax-exempt

– The new Trust could largely mirror the existing Trust document

– The new Trust can permit the trust assets to revert to IRWD at its discretion if the District fully satisfies its OPEB obligations

Disadvantages

– Cost to establish the new Trust Fund

Irvine Ranch Water District

12

12

2. ESTABLISH MECHANISM TO BEGIN FUNDING OPEB LIABILITY

c) Participate in a third party 115 Trust for OPEB liability

Use new funds to participate in another 115 Trust (e.g., PARS, PFM, CalPERS)

Advantages

– Provides a turnkey environment to invest funds with minimal management time requirement

– Lowest initial cost to implement

Disadvantages

– The District no longer controls the investment strategy

– Higher ongoing costs/fees than District's self managed plan

Irvine Ranch Water District

13

13

NEXT STEPS

1. Staff recommends that the Board approve establishing a Section 115 OPEB Trust

2. Develop guiding principles for funding the OPEB Trust

FINANCE AND PERSONNEL COMMITTEE

PROPOSED 2023 INVESTMENT POLICY

SUMMARY:

Each year, IRWD is required to adopt an Investment Policy. Changes to the policy from year-to-year are required to conform to any amendments to the California Government Code governing investment of public funds. During 2022, there were no significant changes to the Government Code and the proposed policy for 2023 has no significant changes from the policy adopted for 2022. Staff recommends the Board approve the proposed policy attached as Exhibit "A".

BACKGROUND:

Staff annually submits an Investment Policy to the Board of Directors for approval. The annual submittal generally incorporates amendments to investment-related Government Code sections, policy objectives, delegation of authority and a detailed schedule of authorized investments. The proposed 2023 Investment Policy and related Resolution are attached as Exhibits "A" and "B", respectively. During 2022, there were no significant amendments to the Government Code section relating to authorized investments for local agencies, and therefore the 2023 proposed policy is generally the same as the 2022 Investment Policy.

As specified in the Government Code, the Board's delegation of authority to the Treasurer and Assistant Treasurer(s) to manage the District's investment program is limited to a one-year period, renewable annually. The recommended 2023 Investment Policy includes continuation of this annual delegation of authority to the Treasurer and Assistant Treasurer(s).

Given the conservative nature of the State codes and the Board's additional restrictions, staff believes the authorized investments in the recommended 2023 Investment Policy are sufficiently limited to ensure appropriate investment security while retaining some degree of flexibility to take advantage of changing market opportunities. Additionally, the recommended policy provides authority for the Finance and Personnel Committee to further restrict, but not liberalize, authorized investments. Any liberalization of authorized investments would first require the approval of the Board of Directors.

FISCAL IMPACTS:

None.

ENVIRONMENTAL COMPLIANCE:

This activity is categorically exempt from the California Environmental Quality Act (CEQA) as authorized under the California Code of Regulations, Title 14, Chapter 3, Sections 15301 and 15302.

RECOMMENDATION:

That the Board approve the proposed 2023 Investment Policy and adopt the following resolution by title:

RESOLUTION NO. 2022-__

RESOLUTION OF THE BOARD OF DIRECTORS OF THE
IRVINE RANCH WATER DISTRICT APPROVING AN INVESTMENT
POLICY AND AUTHORIZING THE TREASURER AND ASSISTANT
TREASURERS TO INVEST AND REINVEST FUNDS OF THE
DISTRICT AND OF EACH OF ITS IMPROVEMENT DISTRICTS
AND TO SELL AND EXCHANGE SECURITIES

LIST OF EXHIBITS:

Exhibit "A" – Proposed 2023 Investment Policy
Exhibit "B" – Resolution Adopting 2023 Investment Policy

IRVINE RANCH WATER DISTRICT

Draft 2023 INVESTMENT POLICY

Introduction:

This investment policy is intended to establish a clear understanding of the District's authorized investment activities for members of the public, the Board of Directors of the Irvine Ranch Water District (the "District"), District management, and outside investment professionals.

Policy:

It is the policy of the District to invest its funds in a prudent and professional manner which will provide maximum security of principal while meeting required cash flow demands and conforming to all State statutes governing the investment of public funds, the District's investment policies, and prudent cash management principles.

Scope:

This investment policy applies to all District funds that are under the direct oversight of the Board of Directors. The investment of any bond proceeds or related funds will also be made in accordance with this investment policy.

Standard of Care:

The Board of Directors and those persons authorized to make investment decisions on behalf of the District are trustees of public funds. The standard of care to be used in all investment transactions shall be the "prudent investor" standard set forth in California Government Code Section 53600.3, which states:

> "When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency."

Officers and employees of the District involved in the investment process shall refrain from personal business activities that could conflict with proper execution of the investment program or could impair their ability to make impartial investment decisions. "Designated employees" of the District involved in the investment of District funds, which includes the Treasurer and Assistant

Treasurer(s), shall disclose all information at the times and in the manner required by the District's Conflict of Interest Code.

Objectives:

The primary objectives of the District's investment activities, in priority order, are as follows:

1. Safety: Safety of principal is the foremost objective of the investment program. Investments of the District shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. Accordingly, diversification by issuer, type, and maturity of securities will be made to avoid or minimize potential losses on individual securities.

2. Liquidity: The District's investment portfolio will remain sufficiently liquid to enable the District to meet all operating and capital cash requirements. To the extent required, this liquidity will be maintained through the purchase of securities with active secondary or resale markets and with short-term maturities to minimize market risk on the market price of the securities.

3. Yield: The District's investment portfolio shall be designed with the objective of attaining the highest rate of return commensurate with the above requirements for the preservation of capital and the maintenance of adequate liquidity.

Delegation of Authority:

In accordance with Government Code Sections 53607 and 53608, the Board of Directors hereby delegates to the District's Treasurer and Assistant Treasurer(s) the authority to manage the District's investment program and to provide for the safekeeping of securities. This delegated authority is effective for the 2023 calendar year (Resolution 2022-).

Authorized Investments:

The District is authorized to invest its funds pursuant to the following laws:

California Government Code:

- Section 53600 *et seq.* - General investments
- Section 16429.1 - Local Agency Investment Fund (LAIF)
- Section 53684 - Orange County Treasury Pool (not currently authorized by the Board of Directors)
- Section 5920 *et seq.* - Public finance contracts

California Water Code:

- Section 35912 - Real estate

The language of the Investment Policy will conform to the statutory requirements as the statutes change over time.

The Treasurer and Assistant Treasurer(s) are authorized to invest District funds in accordance with these laws, subject to certain restrictions imposed by the District's Board of Directors. These authorized investments and restrictions are shown in Exhibit "A".

Whenever practical, a competitive process shall be used for the purchase and sale of securities.

The Treasurer and Assistant Treasurer(s) are authorized to invest in securities with terms or remaining maturities in excess of five years as part of the District's investment program, but no such investments are to be made without the concurrence of the Finance and Personnel Committee.

Authorized Financial Institutions:

Only financial institutions designated as "primary dealers" by the Federal Reserve Bank of New York, or other dealers that qualify under Securities and Exchange Commission Rule 15C3-1 (uniform net capital rule), are authorized to provide investment services to the District. The Treasurer and Assistant Treasurer(s) may limit the number of dealers authorized to provide such services.

A copy of the District's annual investment policy shall be provided to each institution authorized by the Treasurer or Assistant Treasurer(s) to provide services to the District. Prior to providing investment services, such financial institution shall acknowledge in writing that it has received the District's investment policy and that all persons handling the District's account have reviewed the policy.

All authorized financial institutions are required to provide electronic access to the financial statements.

Safekeeping and Custody:

All security transactions entered into by the District shall be conducted on a delivery-versus-payment (DVP) basis. All securities owned by the District shall be delivered to the District by book entry, physical delivery, or a third-party custodial agreement. Any third-party custodian shall be designated by the Treasurer, and all securities held by such custodian, including book entry and physical securities, shall be held in a manner that clearly establishes the District's right of ownership. The District's custodial agent shall meet the requirements of Government Code Section 53608. The District's deposits with LAIF or any other authorized investment pool shall be evidenced by the standard reporting requirements of LAIF or the investment pool.

Reporting:

The Treasurer shall file a monthly report with the Board of Directors at a public meeting that shows the status of the District's cash and securities, and all related investment transactions that occurred during the month. The status report shall also be filed with the District's General Manager and will include at least the following information:

- Type of investment
- Original cost
- Issuing institution
- Market value, including source
- Par amount
- Maturity date
- Coupon and/or yield

In addition, the status report shall include the portfolio's rate of return for the month, the average weighted life of the portfolio, a statement regarding the portfolio's compliance with the District's investment policy, and a statement regarding the District's ability to meet expenditure requirements over the following six months. (California Government Code Sections 53607 and 53646.)

The Treasurer or Assistant Treasurer(s) shall also file a quarterly report with the Board of Directors at a public meeting with respect to the District's real estate investments and any related transactions which occurred during such quarter. The real estate report will be structured to comply as closely as possible with the information requirements of California Government Code Section 53646.

Investment Policy Adoption and Amendments:

The Treasurer or Assistant Treasurer(s) shall submit an investment policy at least annually to the Board of Directors at a public meeting. (California Government Code Section 53646.) The policy shall be effective for the calendar year specified. If the Board of Directors does not approve an investment policy for any calendar year, then the investment policy for the previous calendar year shall remain in effect until a new policy is approved.

The District's Finance and Personnel Committee is authorized to make changes in the investment policy from time to time as may be necessary, provided that such changes may only be more restrictive in nature. Any changes that would liberalize the investment policy shall be approved by the Board of Directors before becoming effective. Any changes in the investment policy by the Finance and Personnel Committee shall be reported to the Board of Directors at its next regular meeting

Exhibit A
Authorized Investments and Restrictions

INVESTMENT TYPE	DESCRIPTION	RESTRICTIONS
California State and Local Agency Bonds, Notes and Warrants	Registered state warrants, treasury notes or bonds. Any bonds, notes, warrants or other evidences of indebtedness of any local agency in California.	Limited to securities approved by the Finance and Personnel Committee.
U.S. Treasury and Agency Obligations	U.S. Treasury notes, bonds, bills or certificates of indebtedness, or those for which the full faith and credit of the United States are pledged for the payment of principal and interest. Also federal agency or U.S. government sponsored enterprise (GSE) obligations, participations, or other instruments.	No additional restrictions.
Registered treasury notes or bonds of California or other 49 United States	Registered treasury notes or bonds of any of the other 49 United States in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the other 49 United States, in addition to California.	Limited to states and/or agencies approved by the Finance and Personnel Committee.
Banker's Acceptances	Must be eligible for discount at the Federal Reserve Bank. May not exceed 180 days maturity or 40% of local agency funds. No more than 30% of local agency funds may be invested in banker's acceptances of any one commercial bank.	Limited to domestic and foreign banks approved by the Finance and Personnel Committee.
U.S. Dollar Denominated Senior Unsecured Unsubordinated Obligations	Permits United States dollar-denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank, with a maximum remaining maturity of five years or less, and eligible for purchase and sale within the United States. Must be rated "AA" or its equivalent or better by a nationally recognized statistical rating organization ("NRSRO"). Limited to 30% of local agency funds.	Limited to securities approved by the Finance and Personnel Committee.

Commercial Paper	Must be of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by an NRSRO. Issuers must be organized and operating in the United States as a general corporation, have assets exceeding $500 million, and has debt other than commercial paper, if any, that is rated "A" or its equivalent or better by an NRSRO. May not exceed 270 days maturity. Local agencies, that have less than $100 million of investment assets under management may invest no more than 25% of their moneys in eligible commercial paper. Local agencies that have $100 million or more of investment assets under management may invest up to 40% percent of their moneys in eligible commercial paper. A local agency may invest no more than 10% of its total investment assets in the commercial paper and the medium-term notes of any single issuer.	Limited to corporations approved by the Finance and Personnel Committee.
Negotiable Certificates of Deposit	Issued by national or state-chartered banks, savings associations, federal associations, state or federal credit unions, or by a federally licensed or state-licensed branch of a foreign bank. Specified restrictions on credit unions for conflicts of interest. Limited to 30% of local agency funds.	Limited to domestic and foreign banks and thrift institutions approved by the Finance and Personnel Committee.
Repurchase and Reverse Repurchase Agreements	Repurchase agreements are limited to a term of one year or less, and securities underlying the agreement shall be valued at 102% or greater of the funds borrowed against the securities, with the value adjusted at least quarterly. Reverse repurchase agreements, including securities lending agreements, are limited to 20% of the base portfolio value and to terms of 92 days or less unless a minimum earning or spread for the entire term is guaranteed in writing. Securities being sold on reverse must be owned by the agency for at least 30 days prior to sale. Reverse repurchase agreements shall be made with primary dealers of the Federal Reserve Bank of New York, or nationally and state	All reverse repurchase agreements must have the prior approval of the Finance and Personnel Committee.

	chartered banks with a significant banking relationship with the local agency.	

Medium Term Notes	All debt securities issued by U.S. organized and operating corporations or depository institutions licensed by the U.S. or any state and operating within the U.S. Notes must be rated "A" or its equivalent or better by an NRSRO. May not exceed five years maturity, 30% of local agency funds, and no more than 10% of its total investment assets in the commercial paper and the medium-term notes of any single issuer.	For depository institutions, same as shown under Negotiable Certificates of Deposit. For corporations, limited to those approved by the Finance and Personnel Committee.
Shares of Beneficial Interest	Issued by diversified management companies investing in securities and obligations as authorized by Cal. Gov. Code §53601(l). Companies shall have the highest ranking or highest letter and numerical rating assigned by not less than two NRSROs, or shall have a registered and experienced investment advisor. Purchase price shall not include any commissions. Limited to 20% of funds of which no more than 10% may be with any one fund.	No additional restrictions.
Collateralized Negotiable Securities	Notes, bonds or obligations secured by a valid first priority security interest in securities specified in Cal. Gov. Code §53651. (Cal. Gov. Code §53601(n).) Collateral to be placed by delivery or book-entry into the custody of a trust company or trust department of a bank not affiliated with the issuer. Security interest perfected in accordance with Uniform Commercial Code or applicable federal regulations. Collateral requirements are the same as required to secure bank deposits made by local agencies as specified in Cal. Gov. Code §53652.	No investment in collateralized negotiable securities shall be made without the prior approval of the Finance and Personnel Committee.
Collateralized Mortgage Obligations and Asset-Backed Securities	Mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable pass-through certificate, or consumer	No investment in collateralized mortgage obligations or asset-backed securities shall be made without the prior approval of

	receivable-backed bond. Securities must have an "AA" rating or its equivalent as rated by an NRSRO, must have a maximum remaining maturity of five years or less, and may not exceed 20% of surplus funds.	the Finance and Personnel Committee.
Financial Futures and Options	Authorizes the investment in financial futures and financial option contracts in any of the investment categories contained in Cal. Gov. Code §53601.1	No investments in financial futures and financial option contracts are to be made without the prior approval of the Finance and Personnel Committee.
Prohibited Investments	A local agency shall not invest any funds in inverse floaters, range notes, mortgage derived interest-only strips, or any security that could result in zero interest accrual if held to maturity. However, a local agency may hold prohibited instruments until their maturity dates. Notwithstanding the prohibition above, a local agency may invest in securities issued by, or backed by, the United States government that could result in zero- or negative-interest accrual if held to maturity, in the event of, and for the duration of, a period of negative market interest rates. A local agency may hold these instruments until their maturity dates. This section shall remain in effect only until January 1, 2026, and as of that date is repealed. (Cal. Gov. Code §53601.6.)	No additional restrictions.
Local Agency Investment Fund	Permits a local agency to deposit funds with the State Treasurer for the purpose of investment in securities prescribed in Cal. Gov. Code §§16429.1 *et seq*.	No additional restrictions.
Orange County Treasury Pool	Permits a local agency to deposit funds with the County Treasurer for investment in securities prescribed in Cal. Gov. Code §53635 or 53684.	No investments are to be made with the Orange County Treasury Pool without the prior approval of the Board.
Inactive Public Deposits	Deposits or contracts with Federal Reserve System banks insured by FDIC, savings associations or federal associations which are home loan bank members or insured by FSLIC, and state or federal credit unions. Specified restrictions on credit unions.	No inactive public deposits are to be made without the prior approval of the Finance and Personnel Committee.
Public Finance Contracts	Includes interest rate swap agreements, currency swap agreements, forward	The Board is authorized to approve the general parameters

	payment conversion agreements, futures, or index-based agreements to hedge payment, currency, rate, spread or similar exposure. Requires certain determinations by governing body. (Cal. Gov. Code §§5920 *et seq*.)	for swap transaction types, maximum notional amount(s) and maximum duration(s). The Finance and Personnel Committee shall structure specific parameters for individual transactions including notional amount, transaction timing, counterparty selection, index to be used and ISDA agreement approval. (Resolution 2003-36)
Real Estate Investments	Authorized to invest no more than 30% of the District's Replacement Fund in real estate located in Orange County. (Cal. Wat. Code §35912.)	Real estate investments shall be made in accordance with existing Board policies (Resolution 1990-30). All real estate investments must be individually approved by the Board.

RESOLUTION NO. 2022-

RESOLUTION OF THE BOARD OF DIRECTORS OF THE IRVINE RANCH WATER DISTRICT APPROVING AN INVESTMENT POLICY AND AUTHORIZING THE TREASURER AND ASSISTANT TREASURERS TO INVEST AND REINVEST FUNDS OF THE DISTRICT AND OF EACH OF ITS IMPROVEMENT DISTRICTS AND TO SELL AND EXCHANGE SECURITIES

The Treasurer of the Irvine Ranch Water District ("District") is permitted by Section 53646 of the California Government Code to annually render to the Board of Directors (the "Board") a statement of investment policy, which the Board shall consider at a public meeting.

The Treasurer has presented an investment policy to the Board at a public meeting, in the form attached as Exhibit A ("2023 Investment Policy").

Section 53607 of the California Government Code permits the Board to annually delegate to the Treasurer of the District the Board's authority to invest or reinvest funds of the District or sell or exchange securities so purchased, allows renewal of the delegation of authority to the Treasurer by the Board on an annual basis, and establishes a requirement for monthly reporting of the transactions by the Treasurer to the Board.

Section 53608 of the California Government Code permits the Board to delegate to the Treasurer of the District the Board's authority to deposit for safekeeping with a federal or state association (as defined by Section 5102 of the California Financial Code), a trust company or a state or national bank in California or in any city designated as a reserve city by the Board of Governors of the Federal Reserve System, or with any Federal Reserve bank, the bonds, notes, bills, debentures, obligations, certificates of indebtedness, warrants or other evidences of indebtedness in which money of the District is invested.

Under Section 53635.2 of the California Government Code, funds of the District may be deposited with certain financial institutions.

Pursuant to Section V, Paragraph 8 of the District's Bylaws, the Board has appointed one or more Assistant Treasurers.

Resolution No. 2021-25 contains the Board's previous delegation of authority to the Treasurer and Assistant Treasurer(s) to invest or reinvest funds, sell or exchange securities, deposit investments for safekeeping, and deposit funds, and the Board intends by this resolution to renew that delegation of authority.

The Board of Directors of Irvine Ranch Water District therefore resolves as follows:

Section 1. The 2023 Investment Policy of the District is approved in the form attached as Exhibit A, effective January 1, 2023, and will remain in effect until it is revoked or is superseded.

Section 2. The authority of the Board to invest or reinvest funds of the District and its improvement districts or to sell or exchange securities so purchased, subject to the requirements of the 2023 Investment Policy, is hereby delegated to each of the Treasurer and the Assistant Treasurer(s). Pursuant to California Government Code Section 53607, the Treasurer shall assume full responsibility for those transactions until this delegation is revoked or expires. This delegation is effective as of January 1, 2023, and will remain in effect until it is revoked or is superseded by a subsequent delegation.

Section 3. The authority of the Board to deposit for safekeeping with a federal or state association (as defined by Section 5102 of the California Financial Code), a trust company or a state or national bank in California or in any city designated as a reserve city by the Board of Governors of the Federal Reserve System, or with any Federal Reserve bank, the bonds, notes, bills, debentures, obligations, certificates of indebtedness, warrants or other evidences of instruments in which money of the District and its improvement districts is invested, subject to the requirements of the 2023 Investment Policy, is hereby delegated to each of the Treasurer and the Assistant Treasurer(s). This delegation is effective as of January 1, 2023, and will remain in effect until it is revoked or is superseded by a subsequent delegation.

Section 4. This resolution supersedes Resolution No. 2021-25.

ADOPTED, SIGNED AND APPROVED this _____ day of _____, 20_____.

FINANCE AND PERSONNEL COMMITTEE

FISCAL YEAR 2021-22 ANNUAL COMPREHENSIVE FINANCIAL REPORT

SUMMARY:

IRWD's auditor Davis Farr LLP has completed its annual audit of the District's financial statements for the Fiscal Year (FY) ended June 30, 2022. As stated in its report, Davis Farr concluded that in all material aspects, the statements fairly present the District's financial position as of June 30, 2022 and conform with generally accepted accounting principles.

A draft of the Annual Comprehensive Financial Report (ACFR), including the Introductory Section, audited financial statements, accompanying auditor's report, Management's Discussion and Analysis, and Statistical Section is provided as Exhibit "A". The draft is being presented for review and comment by the Committee.

BACKGROUND:

At the Committee meeting, Davis Farr will present its required Auditor Communication pursuant to Statement on Auditing Standards 114 *The Auditor's Communication with Those Charged with Governance.* This letter, provided as Exhibit "B", reflects the auditor's understanding of key management assumptions and practices, and indicates that there were no disagreements with management during the scope of the audit. The auditors have also provided a *Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards*, provided as Exhibit "C", which states that the audit did not identify any material weakness in internal control. In addition, the report states that the result of the audit disclosed no instances of noncompliance or other matters that were required to be reported under government auditing standards.

The IRWD Annual Comprehensive Financial Report:

The FY 2021-22 ACFR is being prepared for the 19th consecutive year by IRWD. All of IRWD's previous ACFRs have won awards from the Government Finance Officers Association (GFOA), which encourages state and local governments to prepare and publish expanded financial reports in conformity with generally accepted accounting principles (GAAP) and provides awards to recognize contributions to the practice of government finance that exemplify outstanding financial management. The awards stress practical, documented work that offers leadership to the profession and promotes improved public finance.

Staff plans to present the FY 2021-22 ACFR to the IRWD Board on December 12, 2022. Staff will continue to produce an enhanced electronic version with key references hyperlinked throughout the document. The ACFR will be made available on IRWD's website.

FISCAL IMPACTS:

None.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Board approve the FY 2021-22 Annual Comprehensive Financial Report.

LIST OF EXHIBITS:

Exhibit "A" – Draft FY 2021-22 Annual Comprehensive Financial Report
Exhibit "B" – SAS 114 Auditor's Communication with Those Charged with Governance from Davis Farr LLP
Exhibit "C" – Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards from Davis Farr LLP

Introductory Section

Irvine Ranch Water District
Fiscal Year Ended June 30, 2022

This page intentionally left blank.

December 12, 2022

To the Board of Directors,
Irvine Ranch Water District:

Management of the Irvine Ranch Water District (IRWD or the District) has prepared an Annual Comprehensive Financial Report of IRWD for the fiscal year ended June 30, 2022. This document, which contains a complete set of basic financial statements, is presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted government auditing standards by a firm of licensed certified public accountants. State law requires that all special-purpose local governments publish these basic financial statements within six months of the close of the agency's fiscal year.

This report contains management's representations concerning the finances of the District. Management assumes full responsibility for the completeness and reliability of the information contained in this report. To provide a reasonable, rather than absolute, basis for making these representations, IRWD management has established a comprehensive framework of internal controls. These controls are designed to protect the District's assets from loss, theft, or misuse, and to ensure sufficiently reliable information for the preparation of the District's basic financial statements in conformity with GAAP. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the basic financial statements are free of any material misstatements. As management, we assert that this financial report is complete and reliable in all material respects.

The District's basic financial statements have been audited by Davis Farr LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the District for the fiscal year ended June 30, 2022 were free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor rendered an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2022 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

A profile of the District is presented in this Introductory Section. In the Financial Section, Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides an overview and analysis of the basic financial statements. This letter of transmittal and introduction is designed to complement the MD&A and should be read in conjunction with it.

Profile of Irvine Ranch Water District

Overview

Irvine Ranch Water District was established in 1961 as a California Water District under the provisions of the California Water Code. As a special district, IRWD focuses on four primary services - providing potable water, collecting sewage, producing and distributing recycled and other non-potable water, and implementing urban runoff source control and treatment programs.

IRWD is an independent public agency governed by a five-member, publicly elected Board of Directors. The members of the Board each have varied professional backgrounds, coupled with an average tenure for the Board members of approximately 22 years. The District is a leader in developing and implementing resource management initiatives such as water recycling, urban runoff control and treatment, water efficiency, energy management, and water banking. The District is a pioneer in financial management practices such as variable rate debt financing and long-term infrastructure replacement program development and funding.

The District serves a 181 square mile area, which includes all of the City of Irvine and portions of the cities of Tustin, Newport Beach, Costa Mesa, Orange and Lake Forest, as well as certain unincorporated areas of Orange County. Extending from the Pacific Coast to the top of the foothills of eastern Orange County, the District's region is semi-arid with a mild climate and an average annual rainfall of approximately 12 inches. The total estimated daytime population served is approximately 600,000 and includes approximately 122,000 water and 117,000 sewer service and recycled water connections. The number of service connections has increased by approximately 22% over the last ten years.

The District provides its core services to its customers by focusing on the following areas:

- *Operational Reliability* – having multiple sources of water supply, various sewage treatment alternatives, preventive maintenance programs, and emergency power capabilities to ensure reliable services.
- *Organizational Strength* – having professional staff work in close collaboration with the Board of Directors striving to exceed the expectations of our customers.
- *Long-Term Financial Planning* – ensuring sufficient funds are available to construct, operate, maintain, and replace facilities, while retaining competitive rates now and in the future.

People

Field Crew on Site

The District employed an average of 392 staff who are responsible for administering daily operations and implementing strategic objectives and policies set forth by the Board. The District actively promotes the training and education of employees to increase effectiveness and retention. The average tenure of District employees is approximately 11 years.

Services

The District is functionally organized into four core service areas:

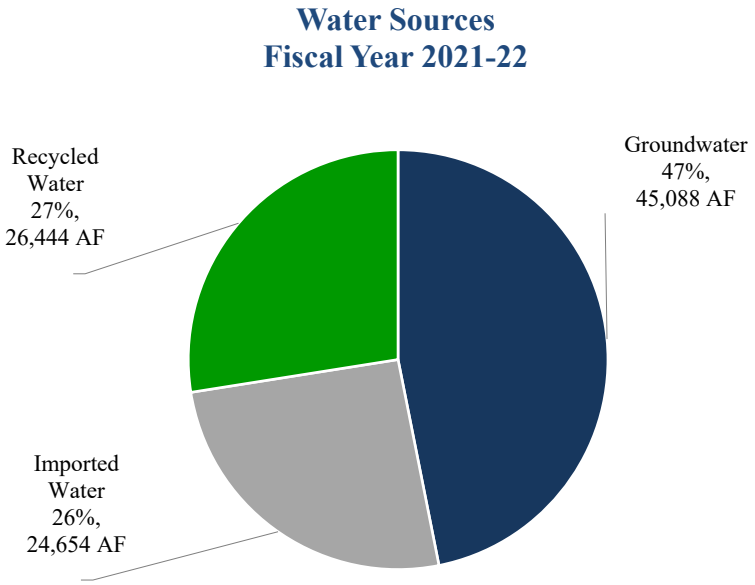
Drinking or "Potable" Water System

For many years, the District received virtually all of its drinking water from imported sources. To minimize this dependence on imported water, in the early 1980's, the District developed a series of local wells known as the Dyer Road Wellfield to access high quality groundwater from the Orange County Groundwater Basin, managed by the Orange County Water District (OCWD).

IRWD also operates other groundwater wells, and several groundwater wells require treatment before use. In Fiscal Year (FY) 2021-22, local groundwater accounted for 47% of the District's total water supply.

Currently, groundwater is significantly less expensive, more reliable, and less energy intensive than imported water that is transported over hundreds of miles into Southern California and subsequently treated.

The District purchased 26% of its water supply in FY 2021-22 from the Municipal Water District of Orange County (MWDOC), the regions local wholesale water supplier who purchases its water from the Metropolitan Water District of Southern California. This water is imported from both the Colorado River, which is transported approximately 240 miles to Southern California, and from the Delta, from which water is transported approximately 400 miles from Northern California.



Recycled and Non-Potable Water Systems

The District treats sewage to provide water for irrigation, commercial, industrial and agricultural purposes which further reduces its reliance on more expensive imported water and increases its system reliability. Sewage from the community is collected and recycled to California State Water Resources Control Board Title 22 standards at IRWD's Michelson Water Recycling Plant (MWRP) and the Los Alisos Water Recycling Plant, which have the combined capacity to produce nearly 33.5 million gallons of tertiary recycled water per day.

Once treated, the recycled water is distributed throughout the service area and in FY 2021-22 accounted for approximately 27% of the District's total water supply. Approximately 85% of all business and community landscaped areas (parks, school grounds, golf courses, street medians, etc.) within the District's service area are irrigated with recycled water. The District also provides recycled water for various industrial and commercial uses. IRWD's goal is to continue recycling its sewage flows to provide 25% to 30% of its total water supply once the District's service area is fully developed.

The District operates a non-potable system which includes 5 wells, 5 open reservoirs and 12 storage tanks that store water for non-potable uses. In total, the District has approximately 4,500 acre feet of active recycled water storage capacity. IRWD has 75% ownership in Irvine Lake, a 25,000 acre-feet reservoir that can capture and store both stormwater and imported water supplies.

Sewage Collection and Treatment System

The District has an extensive network of gravity sewers, force mains, sewage lift stations, and siphons that convey sewage to two District-owned water recycling plants or to the Orange County Sanitation District (OC San). In FY 2021-22, the District treated approximately 80% of its sewage, and the remainder was diverted for treatment to OC San treatment facilities. In FY 2020-21, the District completed construction and began operation of the MWRP Biosolids and Energy Recovery Facility. This facility enables IRWD to process biosolids generated at the Michelson Water Recycling Plant which eliminates the need to send them to OC San for treatment. The District plans to expand its treatment capacity when and if necessary to serve its growing population. This expansion is discussed in more detail in the *Major Initiatives* section of this document.

Urban Runoff Source Control and Treatment System

IRWD is statutorily authorized to control and treat urban runoff and conduct various projects and programs as part of an effort to protect water quality in the San Diego Creek watershed. In the 1990s, the District constructed wetlands at the San Joaquin Marsh, where natural biological processes remove a substantial pollutant load from San Diego Creek's dry weather flow before it reaches the environmentally sensitive Upper Newport Bay State Ecological Reserve. In addition, the District operates a regional urban runoff treatment network known as the Natural Treatment System (NTS). As of June 30, 2022, the NTS consists of 45 constructed wetland treatment sites located throughout the San Diego Creek Watershed and one outside the IRWD service area, with several more currently under construction. The Peters Canyon Wash, Muddy Canyon, and Los Trancos diversion facilities add to these sites and pump runoff high in selenium into the OC San's sewers, where it eventually, after treatment, flows to OCWD's groundwater replenishment system.

San Joaquin Marsh

Infrastructure Assets

The District builds and maintains significant capital infrastructure in order to provide superior service to its customers. The table below provides key information relating to its water and sewer system assets from 2013 to 2022.

Infrastucture Assets

	2013	2022
Potable System		
Miles of Water Line	1,516	1,979
Number of Storage Tanks	36	37
Maximum Storage Capacity (acre feet)	456	467
Number of Pumping Stations	37	39
Number of Wells	26	27
Well Production Capacity (cfs)	124	118
Water Banking Storage Capacity (acre feet)	109,600	126,000
Potable Treatment Plants	4	5
Non-Potable and Recycled Systems		
Miles of Recycled Line	488	576
Number of Storage Tanks	12	12
Number of Open Reservoirs	5	5
Maximum Storage Capacity (acre feet)	24,155	24,155
Number of Pumping Plants	20	19
Number of Wells	5	5
Well Production Capacity (cfs)	10.0	10.0
Sewer System		
Miles of Sewer Line	971	1,374
Number of Lift Stations	13	13
Treatment Plants	2	2
Treatment Capacity (mgd) (Tertiary)	23.5	33.5
Sewage Flows to Michelson Plant	69%	68%
Sewage Flows to Los Alisos Plant	14%	12%
Sewage Flows to Orange County Sanitation District	17%	20%
Natural Treatment System		
Urban Runoff Treatment Facilities	N/A	45
Nuisance Water Diversions	N/A	3

1 acre foot = 325,900 gallons

cfs = cubic feet per second

mgd = millions gallons per day

N/A = Not Available

2022 Accomplishments

The District conducts a Strategic Planning Process where the Board annually adopts goals and target activities and monitors accomplishments against those goals. Major accomplishments achieved in FY 2021-22 were as follows:

1. Continued to deliver superior service to customers during the Coronavirus Pandemic without any interruptions in customer service, governance or operations. There have been no customer shut offs or late fees charged for water service since March 2020 and customers were provided the opportunity to temporarily increase their residential water budget if needed. The District received $2.0 million in State funding and applied it to qualified customers past due accounts. In addition, customers facing financial hardship have been offered payment plans to assist with their water bills.
2. Continued to promote long-term water use efficiency measures resulting in District customers having among the lowest residential gallons per capita per day (gpcd) rates in California. In FY 2021-22, IRWD's residential water use (indoors and outdoors) averaged 68 gpcd, which was 32% lower than the statewide residential water use average of 100 gpcd. District finances were not negatively impacted by lower water usage as IRWD recovers its costs from customers through fixed and variable charges.
3. Received $12.2 million in Federal Funding on the Syphon Reservoir Improvement Project which will significantly expand the Districts recycled water supply.
4. Secured a tenant for a long-term lease of approximately 70,000 square feet of available office space for one of the District's real property investments. The District's ownership of real property investments helps fund a portion of the long-term replacement cost for water and sewer facilities and assists in keeping customer rates amongst the lowest in Orange County.
5. Secured initial land for the Groundwater Banking Joint Powers Authority, a partnership between IRWD and Rosedale Rio-Bravo Water Storage District to design, construct and operate the Kern Fan Groundwater Storage Project needed for additional supply reliability.
6. Completed a Master Agreement related to Irvine Lake real property matters and the use of Irvine Lake with Serrano Water District, County of Orange, and the Irvine Company.
7. Updated the Districts key performance metrics which measures performance against goals.
8. Continued to improve the District's computer systems by increasing cybersecurity measures.
9. Continued to fully fund the IRWD employee pension plan, including the IRWD Pension Benefits Trust, which contains funds adequate to cover the District's CalPERS projected pension liability as of the current fiscal year end.
10. Received several national honors including the U.S. Environmental Protection Agency's WaterSense Sustained Excellence, WaterSense Partner of the Year; the national WateReuse Association's Excellence for Public Outreach and Excellence in Action; the national WateReuse Association Service Award to General Manager Paul Cook; the American Water Works Association's 2022 Public Communications Achievement Award; the National Institute of Governmental Purchasing Achievement of Excellence; and Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting. State honors included the California Association of Sanitation Agencies' Project of the Year and Public Outreach awards.

Future Goals

The Strategic Planning Process resulted in the Board adoption of nineteen Strategic Goals which it expects to accomplish within the next 5 years along with Target Activities that are typically accomplished within 12 to 18 months. The Board adopted Strategic Goals are as follows:

1. Optimize and protect local groundwater utilization: develop and implement projects to increase IRWD's access to local groundwater and stormwater capture; also implement solutions to remove emerging contaminants of concern (e.g., PFOA/ PFOS).
2. Optimize use of Irvine Lake as a water resource facility for IRWD and its current and future partners: implement projects which will enhance the long-term operational reliability of the reservoir.
3. Develop water recycling facilities and applications for optimal benefit: identify new opportunities for IRWD to utilize recycled water locally.
4. Maximize resource recovery from fully functional biosolids and other resource recovery facilities: optimize the start-up of IRWD's Biosolids and Energy Recovery Facilities.
5. Develop and implement maintenance and replacement programs and other systems that enhance safety, sustained operations at the District's facilities: Evaluate risk - based analysis of all IRWD dams. Conduct a criticality analysis and asset condition assessments of sewage collection and treatment facilities to efficiently prioritize activities.
6. Improve energy service reliability, manage demands, and control greenhouse emissions, and control costs: develop capability to continue operation of key facilities during short and long–term power outages; update Energy and Greenhouse Gas Master Plan/Climate Action Plan.
7. Implement opportunities that enhance safety, security and emergency preparedness throughout the District: protect the health and safety of IRWD employees and the public.
8. Maximize water use efficiency in the community: explore future opportunities for increased water use efficiency and expand database for improved analytics.
9. Maximize watershed protection: control and treat urban runoff and prevent sewer spills.
10. Evaluate and invest in projects and programs that will enhance future long-term water supply reliability and resiliency to climate change: pursue projects and supply arrangements to enhance water supply reliability, including increased water banking and water recycling. Provide additional water storage opportunities for regional water supply reliability. Develop additional sources of funding for the Syphon Reservoir Improvement Project.
11. Develop water banking supplies for IRWD by working with current and future partners: develop capabilities for recharge, storage, and extraction capacity and store water as it becomes available. Continue development of IRWD water banking facilities in Kern County.
12. Develop and implement the Kern Fan Groundwater Storage Project through the Groundwater Banking Joint Powers Authority: execute agreements and secure additional water storage investment funding. Secure rights of way and land as needed and complete initial design for elements of the Project.
13. Ensure financial and rate stability: ensure adequate funding for future infrastructure replacement needs. Continue to provide low rates for IRWD customers. Maintain strong financials through solid debt service coverage, liquidity balances, mixed debt profile, and pension plan obligation funding of at least 90 percent.
14. Identify, assess and implement new technologies, systems and facilities to improve operating efficiency: protect existing and future systems through advanced cybersecurity measures.
15. Recruit, develop and retain a highly skilled, motivated, and educated work force: develop employee skills. Develop and implement employee expectations for corporate values and ensure appropriate employee compensation.
16. Collaborate with other agencies and entities through leadership and innovation: engage at a high-level in industry associations, regional water agencies, and development of opportunities of mutual benefit for IRWD and partners.

17. Enhance customer communications: strategically extend community outreach.
18. Guide and lead local, state and federal policies and legislation: actively engage in issues of key interest to IRWD including water use efficiency, water rate structures, water storage projects, PFAS regulations and others.
19. Engage and shape policies and regulations put forth by local, state and federal agencies: influence regulations to align with best practices for water loss regulations, water efficiency standards and emergency water supplies.

Water Use Efficiency

The District continues to be a leader in the innovation and implementation of water use measures that promote the most efficient use of water, both on a per capita and per acre basis.

The District's budget-based tiered rate structure, first implemented in 1991, is carefully designed to promote the efficient use of water by providing customers pricing signals related to over-use of water in a financially sustainable way. This structure is recognized as a model for other agencies to emulate.

In 2018, legislation was passed to "Make Conservation a Way of Life In California". As a result, the state will establish new long-term water efficiency objectives by December 31, 2022. IRWD has a long history of implementing cost-effective water efficiency programs, and is well positioned to meet the future efficiency standards. The District's customers have one of the lowest residential gallons per capita per day (gpcd) rates in California.

The District's Water Use Efficiency Implementation Plan (Plan), adopted April 2020, provides a comprehensive strategy to implement cost-effective water use efficiency measures for the District and its customers. Specifically, the Plan addresses:

- Engaging in policy discussions and implementing targeted programs to ensure the District is well-positioned to meet the new statewide water use efficiency objectives.
- Continuing to implement cost-effective demand management programs that minimize the need to purchase more expensive imported water, and thereby maintain a lower unit cost of water for the District and its customers.
- Focusing on outdoor water use which remains the biggest potential water conservation opportunity for the District, and the associated urban runoff (typically the result of "over-watering") to minimize water quality degradation from fertilizers, pesticides and animal waste in creeks, rivers and the ocean.
- Reducing water demands, which reduces energy usage and related costs needed to convey water.

The basic tenets of the Plan include local, state and national policy development and leadership, focused customer interface, extensive education and outreach, technology advances, and the development of financial incentives. During the past fiscal year, the District provided financial incentives to residential and business customers to install water efficient devices such as irrigation equipment and conversions from high water use turf landscape to water-efficient landscapes. The District has also pioneered the use of recycled water beginning in the late 1960s and presently serves over 6,100 sites, with approximately 26,000 acre feet of recycled water sold in FY 2021-22 representing 27% of the District's total water supply. The use of recycled water reduced the District's need to import more expensive potable supplies. Due to the investments made by the District to diversify its resources, expand the use of recycled water and improve water use efficiency, IRWD is well prepared to withstand the current statewide drought. IRWD does not project any water shortages and will continue to provide reliable, high quality water to its customers in a cost-effective manner.

Water Shortage Contingency Planning

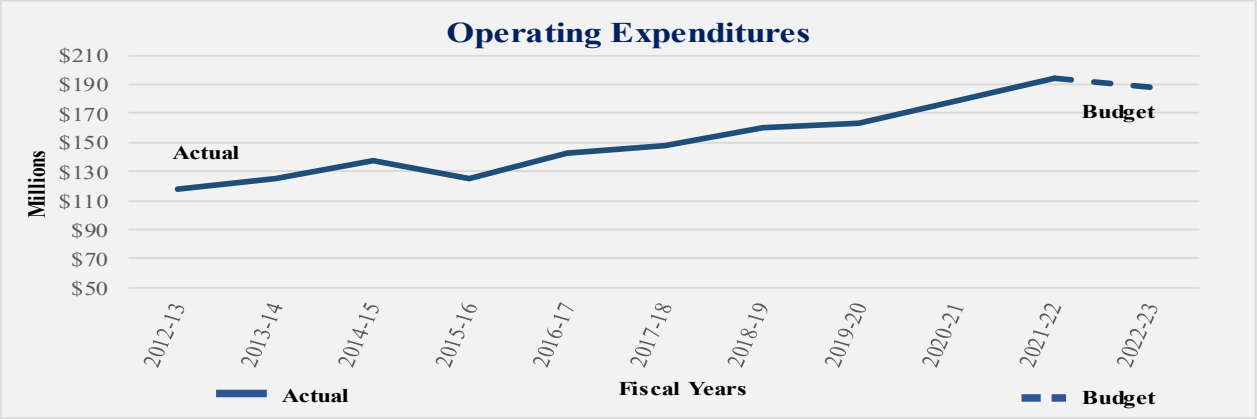
In compliance with California Water Code Section 10632, IRWD adopted an updated Water Shortage Contingency Plan (WSCP) in June 2021. The WSCP allows the District to strategically reduce water use through a number of potential actions that are staged dependent upon the severity of water shortages. The WSCP incorporates six standard water shortage levels corresponding to progressive ranges of up to 10%, 20%, 30%, 40%, 50%, and greater shortages. For each level or shortage, the WSCP includes a list of voluntary measures, non-rate response measures, and potential cost-of-service based rate response strategies. The WSCP provides the Board with the framework to respond to water shortages should they occur. In May 2022, the State Water Resources Control Board adopted its emergency regulation which includes prohibitions on the irrigation of non-residential, non-functional turf with potable water. The regulation also requires each water supplier to implement the demand management response actions defined in its WSCP associated with a Level 2 water shortage. In June 2021, the Board implemented the voluntary responses associated with Level 2 of the WSCP. In February 2022, the Board adopted cost-of service rates associated with the possible action required to achieve each of the six standard water shortage levels should it be required. Implementation of these rates would not go into affect unless the Board took additional action to implement these rates.

Legislative and Regulatory Affairs

The District actively monitors and works to influence local, state and federal legislation, policies and regulatory actions that could affect IRWD's operations, existing and future facilities and strategic planning efforts. The Board of Directors is frequently engaged in, and takes active positions on, relevant pending legislation and regulatory actions. The District continues to engage proactively in policy discussions surrounding water use efficiency, recycled water, and water policy in California. The District and its Board of Directors also actively participate in state and regional trade associations including the Association of California Water Agencies, the California Association of Sanitation Agencies, the WaterReuse Association, the California Special District Association, the California Municipal Utilities Association, and the Bioenergy Association of California.

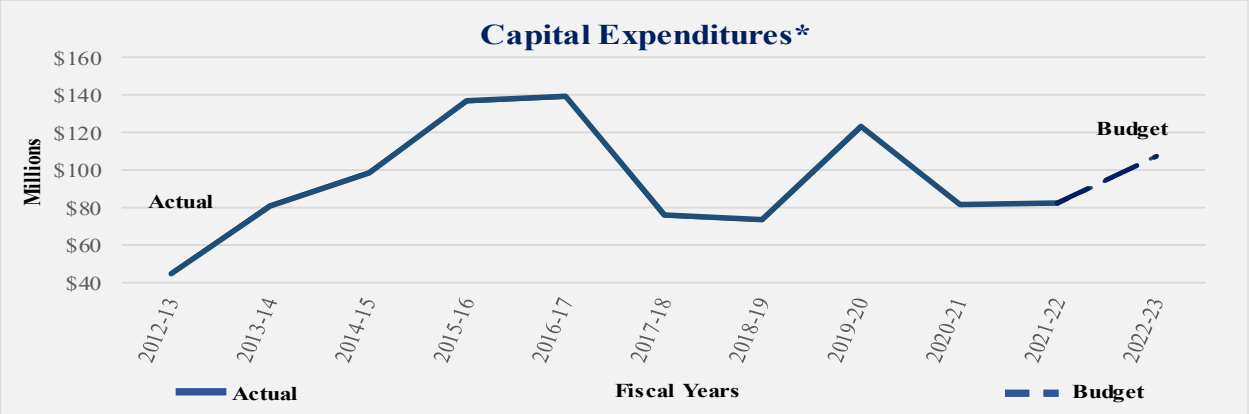
Financial Plan

In April 2021, the Board approved a two-year (biennial) operating budget for FY 2021-22 and FY 2022-23. The goal of the District's operating budget process is to appropriately fund the resources required to provide excellent service to IRWD customers as cost-efficiently as possible. The graph below shows the actual operating expenditures through FY 2021-22, as well as the Board approved operating budget for FY 2022-23. Increases reflect costs associated with customer growth within the District, as well as an increase in overall operating expenses. Increases have been kept to a minimum by aggressively pursuing reductions in expenses to offset uncontrollable expenses, such as pass-through rate increases from outside agencies.



The approved two-year budget anticipated an increase from $180.2 million in FY 2021-22 to $187.7 million in FY 2022-23. The primary reasons were increases in retirement funding, labor and associated benefits for additional positions necessary to support increased regulatory requirements and software cybersecurity and complexity, higher costs of electricity due to expected rate increases from outside agencies, and increased operating and maintenance costs associated with new facilities coming online as well as maintenance of aging infrastructure of existing facilities.

The Board also approved a two-year capital budget in April 2021 based on new, enhancement and replacement infrastructure needs. The following chart shows the actual capital expenditures through FY 2021-22 and the budget for FY 2022-23.



* Actual capital expenditures excluding overhead, intangibles and capitalized interest.

The reduced spending in FY 2017-18 from prior years represents the District's completion of several large projects including the Baker Water Treatment Plant. Higher spending beginning in FY 2013-14 represents the design and construction phases for the Michelson Biosolids and Energy Recovery Facilities, which began construction in FY 2013-14 and spending peaked in FY 2016-17. The Board approved capital budget is $107.5 million for FY 2022-23. Many capital budget projects extend beyond one fiscal year.

User Rates & Charges

User rates and charges are primarily used to fund the District's operation and maintenance expenses. The District separates the cost of constructing water and sewer infrastructure from the cost of daily operations and maintenance. User rates, as discussed below, are billed to customers on a monthly basis, and include a component for the inevitable replacement of existing infrastructure. The District collects replacement funds in advance of their need and invests for future use. This helps stabilize rates and avoid significant potential future rate spikes. In 2021, the District completed a detailed cost of service study which confirmed that user rates billed to customers are based on actual costs to provide the services. The District allocates capital costs within its service area through the use of water and sewer improvement districts, for which general obligation bond authorization is obtained and used as needed to fund new capital projects. Ad valorem property tax rates are set biannually by the District, as are connection fees paid by property developers and landowners. Generally, the District's policy is to allocate the cost of new infrastructure evenly between the developers/landowners and the ultimate property owners who utilize the water and sewer infrastructure.

Water Rates

FY 2021-22 Residential Rate Structure – Potable Water (Commodity Charge)

Tier	Percent of Estimated Customer Need	Cost per ccf* July 2021 to January 2022	Cost per ccf* February to June 2022
Low Volume	0 - 40%	$1.47	$1.53
Base Rate	41 - 100%	$2.00	$2.42
Inefficient	101 - 140%	$4.86	$5.15
Wasteful	141% +	$13.63	$14.64

*One ccf (100 cubic feet) = 748 gallons

The District's rate structure for water use is separated into a commodity charge component and a fixed service charge component. The commodity charge reflects the cost of providing the District's water supplies while the fixed service charge funds the fixed operational and maintenance expenses of the District. Considering the hardship many of the District's customers experienced due to the impacts from COVID-19, the Board elected to defer planned water and sewer rate increases from FY 2020-21 until February 2022. The rate increase provided cost equity, funding the two-year budget cycle increases within a 16-month period (February 2022 to June 2023).

For FY 2021-22, the District's water fixed service charge was $10.35 per month until February 2022 when it was increased to $10.75 for a 5/8-inch by 3/4-inch meter. The District has a long history of planning for the inevitable replacement of capital infrastructure and sets monies aside into enhancement and replacement funds for this purpose to avoid large, sudden rate increases in the future. The FY 2021-22 monthly fixed service charge includes a user enhancement and replacement component of $0.70 and $2.08, respectively which is intended to fund current and future replacement and refurbishment costs that provide reliability and redundancy to the District's infrastructure.

The District has a four-tiered rate structure that promotes water use efficiency. A basic use allocation is established for each customer account that provides a reasonable amount of water for the customer's needs based on factors such as the number of occupants, type or classification of use, size of the irrigated area, evapotranspiration rate for the billing period and other consistently applied criteria. The chart above illustrates the four-tier structure that reflects the FY 2021-22 rates and higher cost associated with usage in the higher tiers. As of June 2022, approximately 82% of the District's customers were within the first two tiers and approximately 94% of customers fell within the first three tiers. IRWD residential bills are consistently among the lowest in Orange County.

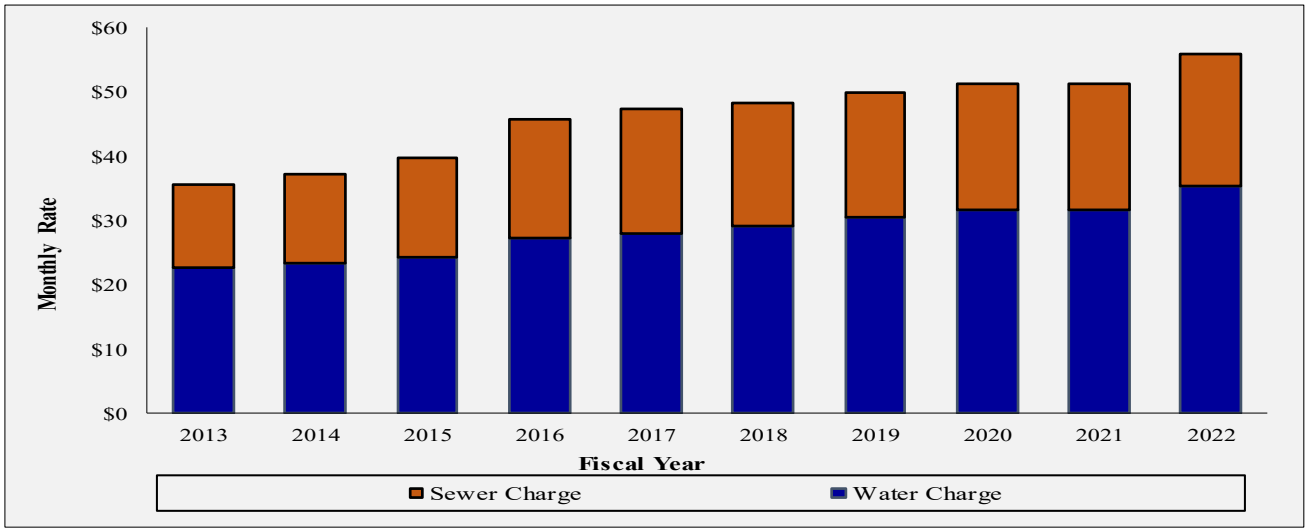
Sewer Rates

The District's sewer service rates are also among the lowest in Orange County. For a typical residential customer, the fixed monthly service charge covering the collection and treatment of sewage remained at the FY 2019-20 rate of $19.55 in FY 2021-22 until February 2022 when it was increased to $20.45. The monthly service charge includes a user enhancement and replacement component of $0.68 and $7.65, respectively, per month, which is intended to fund current and future capital costs to replace, refurbish and upgrade the existing system.

Historic Rate Trends

The following chart reflects the annual "base rate" charge for a typical customer's water and sewer service through FY 2021-22. As stated previously, the Board elected to defer an approved increase for FY 2021-22 until February 2022. Increased costs reflect pass-through increases from outside agencies and wholesale supplies and increased operational costs for both water and sewer, including funding for future infrastructure replacement.

FY 2021-22 Typical Monthly District Residential Customer Charges*



* The typical District customer uses 12 ccf water per month, has a 5/8 inch meter, and is in the lowest sewer rate tier.

Factors Affecting Financial Condition

The information presented in the Financial Section is best understood in the context of the economic environment in which the District operates, as discussed below.

State and Local Economy

Orange County is the third most populous county in California with over 3.2 million residents and a varied economy in which no single industry is considered dominant. With a location central to Orange County, the District's service area is the home to numerous corporate headquarters such as Oakley, Edwards Life Sciences, Blizzard Entertainment, Bandai Namco and Glidewell Laboratories. The District is also home to various educational institutions, including University of California Irvine, Concordia University, two community colleges, and other colleges and universities with satellite campuses. The total estimated daytime population served is approximately 600,000.

During FY 2021-22, the District continued to expand its operating facilities to accommodate approximately 3,900 new water and sewer service connections constructed within District boundaries. Development and entitlement needs of the builders continue to change and there remains less than 20% of land available for future development. Requirements for these areas have been included in the planning and these facilities are included in the capital budget. The assessed value of land within the District's service area has grown significantly in the last decade from $37.8 billion in 2013 to more than $79.7 billion in 2022, demonstrating the strength of the local economy.

Long-Term Water Use Efficiency

IRWD has a long history of implementing cost-effective water efficiency programs and is well prepared to meet the future efficiency standards. The District is well positioned to sustain any potential reduction in revenues and meet future efficiency targets with minimal impact on net revenues due to its rate structure which effectively splits costs into variable and fixed rate components. Any decrease in consumption would be offset by a decrease in related variable costs while the fixed rate component would cover the fixed operating and maintenance costs.

COVID-19

The outbreak of coronavirus (COVID-19) and related government containment measures created challenges for essential service providers in the water and sewer industry, including IRWD. Due to COVID-19 and its ramifications to District customers, the Board elected to defer rate increases related to the approved budget for FY 2021-22 until February 2022. Rates implemented in February 2022 provide cost equity based on approved budgets for both FY 2021-22 and FY 2022-23 and will be effective through the end of FY 2022-23. Staff anticipates resuming the normal two-year rate review cycle consistent with the adoption of the two-year budget for FY 2023-24 and FY 2024-25.

In mid-March 2020, prior to the Executive Order issued by the Governor to suspend water shut-offs to customers for non-payment of services, the District proactively suspended all shut-offs and late payment penalties to customers. Payment arrangements as well as temporary variances for additional water usage for added people in the house were offered to all customers. Customer shut-offs will resume in fall 2022.

The State Water Resources Control Board received federal funding allocated through the California Water and Wastewater Arrearage Payment Program (CWWAPP). This program assisted Californians by providing payments to participating water and sewer service agencies for their customers' past-due water and sewer bills from March 4, 2020 to June 15, 2021, allowing this debt to be forgiven. IRWD applied for and received approximately $2.0 million in funding for eligible customers under this program.

Financial Planning & Budgeting

Short-Term

The Board of Directors approves operating and capital budgets every two years and allocates required funding accordingly. The General Manager has limited discretion to transfer capital between activities and Board approval is required for any overall increase or substantial changes. Throughout the fiscal year, actual expenditures are compared to budget. Variances between budget and actual results are analyzed and evaluated to ensure the District's financial goals and objectives are being met. The budget process is further supported by the District's long-term financial models, enabling the Board to make informed decisions on setting rates and charges that ensure the long-term stability of the District. Funding needs are assessed using these financial planning models.

Long-Term

Meeting the goals of reliable, cost effective long-term water and sewer service requires substantial planning for both capital improvements and changing operating conditions. The District's capital program anticipates the need to update, expand or provide redundancy as well as refurbish and replace existing facilities as they reach the end of their useful life. District staff identifies future infrastructure requirements well in advance of needs to ensure the necessary funding for those projects is available. Capital projects are funded through a combination of connection fees, property taxes and user rates.

The District has a long history of planning for the enhancement and replacement of aging water and sewer infrastructure. Recognizing that infrastructure replacement is both inevitable and costly, the District established infrastructure Enhancement and Replacement Funds to provide funding for updating, expanding, creating redundancy, as well as replacing and refurbishing various components of the water and sewer systems. The objective of the funds is to help moderate the financial impact on future user rates attributable to expenditures associated with enhancing and replacing capital facilities. For FY 2021-22, the combined water and sewer user enhancement/replacement were $34.3 million.

Over time, the District has transitioned from a newly developing area to a more fully developed area. While many of IRWD's projects slated for construction will provide additional capacity for ultimate demands, the focus of the District is transitioning from building new infrastructure projects to ongoing

operations and maintenance activities, as well as upgrading and replacing existing infrastructure. Connection fees paid by developers, which generated $18.9 million for new capital in FY 2020-21 decreased to $10.4 million in FY 2021-22 due to slowing development. The District utilizes a sophisticated financial model to factor in such variables as future development, construction costs, growth rates, inflation, redevelopment and other criteria in order to project rate setting for funding future capital needs.

The District completed a strategic review of its existing current capital funding plan which resulted in a master consolidation plan that combined certain improvement districts to maintain the future financial viability of each area. Diversification of the District's water supply and sewage treatment options are also major objectives of the District's master plan. Those objectives are discussed in further detail in the *Major Initiatives* section of this introduction.

The District's approach to infrastructure replacement and funding is consistent with the industry best practice and illustrates the District's commitment to financial stability and protection of its customers from significant future rate increases.

Pension Funding

The District recognizes that defined benefit plans and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the issue and, in 2013, established an irrevocable Pension Benefits Trust to substantially fund its CalPERS unfunded liability. The Pension Benefits Trust provides the District with an additional funding option to CalPERS that allows for investment by a professional advisor selected and monitored by the District. The Pension Benefits Trust holds the funding contributions for the District pending future remittance to the CalPERS pension trust fund which will pay all retiree benefit payments to employees associated with the plan and will be transferred from the Pension Benefits Trust to CalPERS at the District's discretion.

Investment policy and asset allocation decisions relating to the Pension Benefits Trust are made by a Retirement Board consisting of two members from the IRWD Board of Directors and the District's General Manager. The District made an initial $35.0 million contribution to the Pension Benefits Trust, and since then has made additional contributions ranging from $1.9 million to $12.8 million. As of June 30, 2022, the fair value of the assets in the Pension Benefits Trust was approximately $94.8 million. The following schedule shows the recent history of pension plan assets and liabilities including the trust assets (in thousands):

Fiscal Year [(1)]	Total Pension Liability	Total Pension Assets	Total Pension Assets as a Percentage of the Total Pension Liability
06/30/20	$291,334	$301,256	103.4%
06/30/21	306,889	315,287	102.7%
06/30/22	323,147	391,236	121.1%

(1) As of the measurement date June 30, 2019, 2020, and 2021 respectively.

Cash Management Policies and Practices

The District is regulated by State law (primarily California Government Code Section 53600, et seq.) as to the types of fixed-income securities in which it can invest cash assets. In addition, the Board of Directors annually adopts an investment policy that is generally more restrictive than the State codes. The District's standard practice is to maintain an appropriate balance between safety, liquidity and yield of investments to fund required expenditures in conformance with all applicable State laws, the District's investment policy, and prudent cash management principles.

For FY 2021-22, the District's fixed-income investment portfolio consisted primarily of short-term securities with a portfolio average maturity of approximately 8 months. These securities included U.S. Treasury notes, U.S. government agency notes and the State-managed Local Agency Investment Fund. The average annual return for all District cash investments in FY 2021-22 was 0.49%. Including real estate investments, the weighted average rate of return was 2.85% for the same period.

At June 30, 2022, the District's cash and investments totaled approximately $401.1 million. Cash balances are allocated to various funds including the Replacement Fund, New Capital Fund, Debt Service Fund and others.

Real Property Investments

As a means to match a portion of its long-term replacement cost for water and sewer facilities when they reach the end of their useful lives with long-term funding investments, the District obtained legislative authority from the State to invest a portion of its capital facilities Replacement Fund in real property located in Orange County.

As of June 30, 2022, the District owns or has an interest in six properties with an approximate fair value of $278.6 million. The District's income-producing real estate investments have a weighted average return (based on cost) for FY 2021-22 of 12.3%. Net revenues of $9.8 million generated in FY 2021-22 from the District's real estate investments are retained within the Replacement Fund and effectively reduce future increases in user rates.

Debt Management Policies and Practices

The District strives to minimize the cost of its long-term debt. In 1984, the District obtained State legislation that allowed for the use of variable rate debt to help achieve this goal. The Board minimizes its exposure to interest rate risk by utilizing both fixed and variable rate debt and has leveraged opportunities provided by the low interest rate environment in recent years. The District maintains a healthy balance between fixed and variable rate debt. As of June 30, 2022, its debt portfolio included 62.0% of fixed rate debt and 38.0% of variable rate debt. The average all-in cost of debt, including the District's fixed rate payer swaps, was 3.00% for the fiscal year.

The District has a Debt Management Policy Statement (Debt Policy). The Debt Policy objectives formalize District guidelines related to timing and amount of future debt issuance, allowable debt types and structures and spending requirements of bond proceeds. The Debt Policy also addresses underwriter selection and allowable methods of sale, continuing disclosure requirements, financial advisor and credit rating agency relationships and other key debt-related topics.

As of June 30, 2022, there were eight outstanding General Obligation (GO) bond issues consisting of $237.3 million in variable rate mode and $276.2 million in fixed rate mode (excluding any unamortized premium or discount).

As of June 30, 2022, the District also had one outstanding Certificate of Participation (COP) issue with a balance of $109.7 million in fixed rate mode.

The District has secured direct pay letters of credit to enhance certain issues of its variable rate debt. The GO bond issues are secured by the District's ability to levy ad valorem property taxes to pay debt service. Although the District has elected to use a combination of ad valorem property taxes and other legally available funds to pay debt service, the legal authority exists to fully fund GO bond debt service through such ad valorem taxes. In addition to the ad valorem tax pledge, certain GO bond issues and the COPs issue are secured by the net revenues of the District. The District is required under its debt covenants to collect revenues sufficient to provide net revenues equal to 125% (1.25 times) of senior debt service coverage during the fiscal year. As of June 30, 2022, the District had net revenues equal to 3.5 times senior debt service coverage.

Prior to FY 2003-04, the District's outstanding debt was all in a variable rate mode and the Board of Directors took certain actions to manage and mitigate the interest rate risk. The District's practice has been to maintain a target amount of cash and fixed income investment assets equal to at least 75% of the District's outstanding unhedged variable rate debt. In addition, in 2004 the District began an interest rate swap program under which LIBOR-based fixed payer interest rate swaps were executed to hedge a portion of the District's variable rate exposure. The current $60 million notional amount of outstanding interest rate swaps allow the District to limit the interest rate risk exposure on approximately $89.5 million of its remaining tax-exempt variable rate debt to 3.81% (assuming a historical ratio for the tax-exempt SIFMA Index versus taxable 1-month LIBOR of 67%).

In 2017, the U.K. Financial Conduct Authority announced that it will no longer require its participating banks to provide daily submissions of LIBOR rates in the future, which will effectively discontinue the LIBOR index when that occurs. In January 2021, IRWD's Board of Directors approved the adherence to the ISDA LIBOR Fallback Protocol, and the District has completed the adherence process. When the 1-month LIBOR index is discontinued, the fixed payer swaps will transition to the selected Fallback Rate. It is currently anticipated that the 1-month LIBOR index will be discontinued mid-2023.

In FY 2010-11, the District issued $175 million of general obligation fixed rate debt utilizing the taxable Build America Bond (BABs) program. BABs, created under the American Recovery and Reinvestment Act, are taxable bonds with subsidy payments made by the Treasury Department to issuers equaling 35% of the interest costs. In FY 2021-22, Federal subsidy payments were cut by 5.7% under permanent congressionally mandated sequestration. As a result of the reduced subsidy payments, the net interest rate for the District's BABs issue increased from 4.30% to 4.44%.

Risk Management

The Risk Management Department identifies potential risk and loss exposures and safeguards the District, its capital assets, and employees through its self-insurance and loss control programs, purchasing of appropriate insurance coverages, and developing risk management policies and procedures. The District utilizes a combination of self-insurance and third-party liability insurance to minimize loss exposures from property claims, third-party liability claims and workers compensation claims. The District self-insures the first $25,000 per occurrence for property losses, $100,000 per occurrence for third-party liability claims and $125,000 per occurrence for workers compensation claims. Various control techniques used to minimize loss include, but are not limited to, regular employee safety meetings and training sessions, the use of uniform language in contracts designed to limit or prevent liability exposure, general risk assessments, and the development of emergency plans, including a business continuation plan. The District engages an outside firm to periodically evaluate its

network security. The external network security and cybersecurity assessments, and ongoing staff education and awareness, are just a few of the continuous efforts by the District to safeguard information.

Major Initiatives

The District's major initiatives during FY 2021-22 include continuing programs to secure water supplies, as well as expanding sewage treatment capacity and diverting sewage flows, water education programs, and the continuing implementation of the Water Use Efficiency Plan.

Water Supply Reliability

Groundwater Program

One of the goals of the District's Water Resources Master Plan is to identify a reliable water supply mix which includes developing sufficient groundwater production capacity to pump IRWD's portion of the Orange County Ground Water Basin, additional local groundwater production, and to have enough capacity to meet demands during outage conditions. Currently, the District meets these goals and has the ability to produce approximately 45,000 – 50,000 acre feet per year (AFY) of potable groundwater and 4,000 – 5,000 AFY of non-potable groundwater.

Water Banking

In addition to developing its local groundwater and recycled water systems, the District is further improving its water supply reliability by developing and operating water banking facilities in Kern County, California. These neighboring projects are known as the Strand Ranch Integrated Banking Project and the Stockdale West Integrated Banking Project (collectively, the IRWD Water Bank). The IRWD Water Bank is situated on groundwater recharge lands that overlie the regional Kern County groundwater basin. The purpose of the IRWD Water Bank is to improve the District's water supply reliability by capturing and storing low cost water available during wet hydrologic periods for use during dry periods. The IRWD Water Bank enhances the District's ability to respond to drought conditions and potential long-term water supply interruptions and enables it to reduce the cost of water delivered under such conditions.

The District has entered into agreements for a 30-year water banking partnership with the Rosedale-Rio Bravo Water Storage District (Rosedale) in Kern County. These agreements provide for Rosedale to operate the IRWD Water Bank on behalf of the District and permits the District: (i) to store up to 126,000 acre feet of water in the aquifer; (ii) to recharge a minimum of 44,600 acre feet of water per year in the aquifer; and (iii) to recover a minimum of 28,750 acre feet of water per year from the aquifer.

The District has constructed groundwater recharge ponds and related facilities at its IRWD Water Bank that are necessary to divert water from an adjacent canal into the ponds. Groundwater wells have been constructed on the Strand Ranch and Stockdale West properties. The District, in partnership with Rosedale and others, has also constructed additional wells that will increase the ability to recover water from the IRWD Water Bank during peak summer demand periods. The District has secured water from a number of sources for recharge at the IRWD Water Bank.

The District has entered into agreements with Metropolitan Water District of Southern California (MWD) which allows it to transfer water from the IRWD Water Bank into the District's service area.

Since 2010, the District has delivered a total of approximately 75,317 acre feet of water to the IRWD Water Bank through its water supply partnerships. The District has returned its partner's share of the

water and holds approximately 30,000 acre feet of water in storage for future use in IRWD's service area. The District is currently pursuing additional potential water supply opportunities for diversion into the IRWD Water Bank.

Kern Fan Groundwater Storage Project

The Kern Fan Groundwater Storage Project (Kern Fan Project) will become a regional water bank in the Kern Fan area to capture, recharge and store unallocated Article 21 water from the State Water Project (SWP) and other water supplies during wet hydrologic periods. Water stored in the Kern Fan Project would be extracted when needed to provide ecosystem, emergency supply and water supply benefits. IRWD's share of the Kern Fan Project would be used in conjunction with the Strand Ranch and Stockdale West Integrated Banking Projects to meet IRWD's contingency storage needs at build-out. IRWD's goal for contingency storage is to secure supplies adequate to backfill the loss of imported supplies for three consecutive years. The Kern Fan Project, along with the IRWD Water Bank will allow IRWD to meet this goal. The project will be developed, implemented and operated by the Groundwater Banking Joint Powers Authority, which was formed between IRWD and Rosedale-Rio Bravo Water Storage District in April 2020.

In August 2017, IRWD and Rosedale jointly submitted a grant application to the California Water Commission (CWC) for the proposed Kern Fan Project. The application sought Proposition 1 funds available from the CWC through the Water Storage Investment Program (WSIP). The CWC has conditionally awarded $89.1 million to the Kern Fan Project and the District is currently pursuing additional funding opportunities.

Water Rights

The District also owns property with rights to State Water Project water which can be stored in the IRWD Water Bank. The water is available as a result of the District's acquisition of property located within the Dudley Ridge Water District, including the rights to use approximately 1,750 acre feet of Table A State Water Project water allocated to Dudley Ridge. The District can store its Table A water in the IRWD Water Bank with half of the water being available for future use in the District's service area. The acquisition also includes certain participation rights in the Kern Water Bank allowing the District to store up to approximately 9,500 acre feet of water.

The District owns approximately 3,100 acres of agricultural land (Palo Verde Properties) in Riverside County, California. IRWD's Palo Verde Properties are located within Palo Verde Irrigation District (PVID), which has first priority rights on the Colorado River. The properties are included in a Metropolitan Water District of Southern California and PVID fallowing program under which MWD makes payments to landowners (up to approximately 970 acres of IRWD's Palo Verde Properties) in exchange for letting land lie fallow. Water that is conserved through fallowing is available for use within MWD's service area (which includes the District's service area). The District leases the Palo Verde Properties to tenant farmers for agricultural uses.

Syphon Recycled Water Seasonal Storage Reservoir

Syphon Reservoir, located north of Irvine, is a sixty-year-old water storage reservoir historically used for agricultural purposes. The District purchased Syphon Reservoir in January 2010, and in 2015 completed the process of converting the reservoir into a recycled water seasonal storage facility. Seasonal storage reservoirs allow the District to store excess recycled water produced in the winter months for use in higher demand summer months. This will increase water reliability by reducing the District's dependency on imported water from MWD used to supplement the recycled water system.

In 2013, the District completed a feasibility study to increase storage capacity in Syphon Reservoir from its current capacity of 450 acre feet to approximately 5,000 acre feet. Additional storage capacity would allow the District to utilize more of the recycled water it produces. An expansion of Syphon Reservoir to approximately 5,000 acre feet would allow for recycling 100% of the sewage flows tributary to MWRP. The District recently completed the preliminary design for the reservoir expansion and is advancing final design, which is anticipated to be complete in late 2023. Construction of the expanded reservoir is anticipated to be complete in Summer 2028.

Expanded Water Recycling Options, Resource Recovery and System Reliability

The District is continuing its program to increase the reliability of the sewage system by diversifying treatment options and increasing the reliability of critical sewage collections facilities. The goals of the program are to collect sewage in the most cost effective method available, create a high quality and reliable recycled water supply for irrigation and commercial uses and minimize environmental impacts and risks. Sewage collected throughout the District is treated at three locations: The Michelson Water Recycling Plant (MWRP), the Los Alisos Water Recycling Plant (LAWRP) and at the Orange County Sanitation District (OC San). The District owns and operates the MWRP and LAWRP and owns capacity in the OC San facilities.

The most recent example of expanded water recycling reliability was a major capacity expansion of the MWRP from 18 million gallons per day (mgd) to 28 mgd, completed in 2014. The two plants operated by the District currently have capacities of 28 (MWRP) and 7.5 (LAWRP) mgd, with a collective capacity of 35.5 mgd. Expanding existing infrastructure for sewage treatment has four primary benefits including:

- Increased recycled water production and utilization.
- Decreased exposure to third party treatment costs and operational constraints.
- Decreased dependency on imported water supplies.
- Lower total cost.

In addition to the projects identified above, the District evaluated alternative approaches to recover the solids generated by its water recycling facilities. The evaluation of alternative approaches for handling MWRP solids, historically conveyed to Fountain Valley for treatment by OC San, included consideration of many factors such as costs and potential community impacts.

As a result, in FY 2013-14, the District began construction of a new state- of-the-art organic dewatering and biogas recovery system at the MWRP. The system makes efficient and sustainable use of locally generated renewable resources by creating a beneficial use of biosolids and biogases that are produced during the sewage treatment/recycling process. This project aligns with IRWD's sustainable business practices, while at the same time creating an effective cost management of sewage/recycling services for IRWD customers. The biosolids treatment process allows for the conversion of biogas into electricity thereby further reducing the District's dependency on its electricity provider. The MWRP Biosolids and Energy Recovery Facilities began operation in December 2021.

Community Education and Outreach

With California in its third year of historic drought and the governor calling for voluntary reductions in water use, Irvine Ranch Water District has been mindful of the potential for message fatigue when asking customers to save water. COVID-19, inflation, and other crises have turned people off to messages about problems, and traditional top-down calls to action have grown stale. Breaking through that static, IRWD

in 2021-2022 took a different approach by leveraging humor to engage customers in conversation about drought and water savings.

Social media: IRWD's #HowDoYouDrought social media campaign set records for the District, with 5.1 million impressions and 33,243 likes, comments and shares on Facebook and Instagram. Set up as a sweepstakes, #HowDoYouDrought included open-ended posts that encouraged participants to comment, tag friends, and follow. Humorous pieces were designed to spark a reaction. Comments ignited lively customer debate on the state of water in California, providing an educational opportunity for the District to share links and resources to inform the community. Wastey, the worst mascot ever, was created as a part of the campaign.

Video series: Fiscal Year 2021-22 also marked the creation of The Shed Show, IRWD's landscape-themed video series designed to inspire and help customers save water outdoors. Episode 1 addresses the benefits of native pollinator gardens to save water and attract bees, birds and bugs that help plants reproduce, while delivering bursts of color to a garden. It features tips on plants, design, and irrigation. Episode 2 walks customers through the process of replacing turf with an eye-popping landscape of native and climate-friendly plants — proving that even small spaces can look lush and inviting. Episodes can be viewed at IRWD.com/ShedShow.

Water education: Students in IRWD's service area are virtually diving into sewage treatment, thanks to the wonders of computer-generated imagery. The District's award-winning Virtual Recycled Water Adventure, a joint project with Discovery Cube Orange County, is taking students into interactive, digital worlds where they can explore and learn about recycled water. 360-degree video pairs an operations staff member with a computer-generated robot named "Cleanbot" on an interactive adventure through IRWD's Michelson Water Recycling Plant. The project features searchable 360-degree video taken at the plant, allowing students to explore the headworks, settling tanks, Membrane Bio Reactor, ultraviolet light station, and chlorine contact basin. Virtual stations and activities helps explain the treatment process with tasks that include identifying nonflushable items in sewer water at the headworks; watching Cleanbot sing about troublesome fats, oils and grease; and "swimming" in activated sludge. This is the second 360-degree learning project completed in partnership with Discovery Cube, which coordinates IRWD's water education outreach with local schools. A similar tool was developed last year to describe the plants and animals living at the District's San Joaquin Marsh and the science behind IRWD's Natural Treatment System.

Outreach: The District's monthly "Pipelines" newsletter and quarterly gardening newsletter, "The Dirt," continued to inform customers and inspire them to appreciate the value of water. News articles promoting similar messages were published in local newspapers. Irvine Ranch Water District was profiled extensively in coverage about the drought throughout the year.

Also in FY 2021-22, IRWD implemented a suite of workshops, and creative and targeted outreach initiatives promoting water use efficiency. This included promotions for smart controller rebates, a "Mulch Madness" 50% discount program, and the District's highest turf removal rebate ever — at $5 for every square foot of lawn removed.

Looking ahead, IRWD approved plans to redesign and consolidate District websites. Future segments of The Shed Show will focus on segmented short clips addressing irrigation upgrades, and several drought-related events and community presentations are being planned to extend the successful outreach achieved this past year.

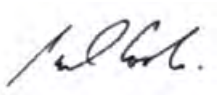
Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Irvine Ranch Water District for its annual comprehensive financial report (ACFR) for the fiscal years ended June 30, 2004 through June 30, 2021. In order to be awarded a Certificate of Achievement, IRWD was required to publish an easily readable and efficiently organized ACFR that satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and will be submitting it to the GFOA to determine its eligibility for another certificate.

Staff would like to acknowledge the IRWD Board of Directors for their support and for maintaining the highest standards of professionalism in the management of the District's operations and finances. We would also like to thank the dedicated employees of the District for their commitment to providing high quality service to the District's customers. The preparation of this report would not have been possible without the efficient and dedicated service of the entire Finance Department staff. We also wish to express our appreciation to all staff that assisted and contributed to the preparation of this report.

Respectfully submitted,



Paul A. Cook

Independent Auditor's Report

Board of Directors
Irvine Ranch Water District
Irvine, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and the aggregate remaining fund information of Irvine Ranch Water District (the District), as of and for the year June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of Irvine Ranch Water District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

During the year ended June 30, 2022, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87: Leases. Our opinion is not modified with respect to this matter.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the

District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Respo*nsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis*, *schedule of changes in net pension liability and related ratios, schedule of contributions – defined benefit pension plan, schedule of changes in the OPEB liability and related ratios, and schedule of contributions – OPEB* be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's

responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited the District's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 1, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the *introductory section* and *statistical section* but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December xx, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Irvine, California
December xx, 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the financial performance of the Irvine Ranch Water District (District) provides an overview of the District's financial activities for the fiscal year ended June 30, 2022. This section should be read in conjunction with the basic financial statements and notes to the basic financial statements, which follow this analysis.

Financial Highlights

- Total assets and deferred outflows of resources exceed total liabilities and deferred inflows of resources by $2,112.0 million (net position), consisting of $1,362.3 million in net investment in capital assets, $358.3 million restricted for water services and $391.4 million restricted for sewer services. This is an increase of $37.8 million or 1.8 percent over the prior fiscal year net position of $2,074.2 million.
- Total assets are $2,912.1 million, an increase of $19.3 million or 0.7 percent over the prior fiscal year. Total assets consist primarily of $401.1 million in cash and investments, $80.2 million in receivables, $2,029.8 million in net capital assets, and $384.0 million in noncurrent assets. The increase from the prior year is due primarily to a $26.0 million increase in a receivable from the Orange County Sanitation District (OC San), a $8.9 million increase in real estate investments, a $6.0 million increase in capital assets, a $5.2 million increase in investment in joint venture, a $3.9 million increase in other receivables for the water banking program agreements, and a $2.5 million increase in leases receivable. These were partially offset by a $20.9 million decrease in the District's cash and investments and a $13.1 million decrease in the fair value of pension benefits trust investments.
- Total liabilities are $802.7 million, a decrease of $59.1 million or 6.9 percent from the prior year. Liabilities consist primarily of $669.3 million of debt, net pension and OPEB liabilities of $64.6 million, accounts payable and other liabilities of $58.5 million, and swap liability of $10.3 million. The total decrease over the prior year is due primarily to a decrease of $34.9 million in net pension liability, total principal debt payments of $17.9 million made during the fiscal year, and a decrease of $10.0 million in accumulated losses associated with the fair value of interest rate swaps.
- The Irvine Ranch Water District Post-Employment Benefits Trust (Pension Benefits Trust) was established in June 2013 to assist in funding the District's CalPERS unfunded liability. As of June 30, 2022, the District's total pension assets (including the CalPERS and Pension Benefits Trust assets) as a percentage of its total pension liability is 121.1 percent. For more detail, see Note 13 of the Notes to the Basic Financial Statements.
- Total revenues are $271.9 million, a decrease of $47.6 million or 14.9 percent over the prior fiscal year. Revenues consist primarily of $188.2 million in water and sewer related revenues generated from rates, $70.8 million in property taxes, $16.4 million in real estate income and a $18.0 million reduction in the fair value of pension benefit trust assets. Operating revenues increased $9.4 million due primarily to a Board approved rate increase effective February 2022. In addition, the District recognized $3.9 million from the sale and exchange of the water banking program's banked water. Non-operating revenues decreased $57.0 million due primarily to decreases in the fair value of real estate assets and pension benefits trust investments.
- Total expenses are $280.4 million, an increase of $11.9 million or 4.4 percent over the prior fiscal year. Operating expenses consist primarily of $171.3 million in water and sewer related revenues to operating the systems, $79.0 million of depreciation, and $20.7 million of interest expense. Operating expenses increased $9.6 million due primarily to increased depreciation expense, increased costs associated with the imported water purchases, and increased costs associated with the water system maintenance. These were partially offset by decreased general and administration expenses due to lower pension expense and lower flows to OC San for handing, treatment, and disposal of sewage solids. Non-operating expenses increased by $2.3 million due to the write-off of customer accounts receivable as a result of the federal funding received from the California Water and Wastewater Arrearage Payment Program provided by the California State Water Resources Control Board.

Financial Highlights (Continued)

- Capital contributions are $46.3 million, an increase of $14.9 million or 47.5 percent over the prior fiscal year. This is due primarily to a $20.4 million increase in the number of donated facilities that were completed and donated from developers to the District and a $3.0 million increase in grants received, partially offset by a $8.5 million decrease in connection fees paid by developers.

More detailed analysis about the overall District's financial position and operations is provided in the following sections.

Overview of the Financial Statements

The basic financial statements of the District consist of the financial statements (the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows), Statement of Fiduciary Net Position, Statement of Changes in Fiduciary Net Position and notes to the basic financial statements. The basic financial statements are prepared using the accrual basis of accounting. This report also contains other supplementary information in additional to the basic financial statements.

Statement of Net Position depicts the District's financial position at June 30, the end of the District's fiscal year. The statement of net position shows all financial assets and liabilities of the District. Net position represents the District's residual interest after liabilities and deferred inflows of resources are deducted from assets and deferred outflows of resources. Net position is displayed in two components: net investment in capital assets and restricted for water and sewer services.

Statement of Revenues, Expenses and Changes in Net Position provides information on the District's operations and can be used to determine whether the District has recovered all of its costs through operating and non-operating revenues.

Statement of Cash Flows provides information on the District's cash receipts, cash payments and changes in cash resulting from operations, investments and financing activities.

Fiduciary Fund is used to account for assets held by the District as a custodian for the San Joaquin Wildlife Sanctuary (SJWS).

Notes to the Basic Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

The **Other Information** includes *required supplementary information* concerning the District's progress in funding its obligations to provide pension and other post-employment benefits to its employees.

Financial Analysis of the District

The following condensed schedules contain summary financial information extracted from the basic financial statements to assist general readers in evaluating the District's overall financial position and results of operations as described in this Management's Discussion and Analysis (MD&A). Increases or decreases in these schedules can be used as performance indicators to assess whether the District's overall financial position has improved or deteriorated. Other external factors such as changes in economic conditions, customer growth, and legislative mandates should also be considered as part of this analysis.

Financial Position Summary

The Statement of Net Position reflects the District's financial position as of June 30. The statement includes assets, deferred outflow of resources, liabilities, and deferred inflows of resources. The net position represents the District's net worth including, but not limited to, capital contributions and net investment in capital assets. A condensed summary of the District's total net position at June 30 is set forth below:

Table 1 - Summary of Net Position (in millions)

	2022	2021	Increase/(Decrease) Amount	Increase/(Decrease) Percentage
Assets				
Current assets	$ 498.3	$ 488.3	$ 10.0	2.0%
Capital assets, net	2,029.8	2,023.8	6.0	0.3%
Other noncurrent assets	384.0	380.7	3.3	0.9%
Total assets	2,912.1	2,892.8	19.3	0.7%
Deferred Outflows of Resources	32.1	44.9	(12.8)	-28.5%
Liabilities				
Current liabilities	69.9	64.4	5.5	8.5%
Long-term liabilities	732.8	797.4	(64.6)	-8.1%
Total liabilities	802.7	861.8	(59.1)	-6.9%
Deferred Inflows of Resources	29.5	1.7	27.8	1635.3%
Net Position				
Net investment in capital assets	1,362.3	1,336.7	25.6	1.9%
Restricted for water services	358.3	384.0	(25.7)	-6.7%
Restricted for sewer services	391.4	353.5	37.9	10.7%
Total net position	$ 2,112.0	$ 2,074.2	$ 37.8	1.8%

As shown in Table 1, the District's total assets increased $19.3 million or 0.7 percent during the current fiscal year. Current assets increased $10.0 million. Current assets include amounts due from other agencies relating to cash deposits held by OC San, the District's third-party provider for excess sewage flows, which increased by $26.0 million based on the agreements between the two agencies for future obligations. The increase in current assets also includes to a $3.9 million increase in other receivables relating to the water banking programs. The increase is partially offset by a $20.9 million decrease in cash and investments balances.

Capital assets increased $6.0 million or 0.3 percent during the current fiscal year. The District added $359.7 million in water and sewer assets during the year partially offset by an increase of $77.2 million in accumulated depreciation. During the current fiscal year, the $293.1 million Michelson Water Recycling Plant Biosolids and Energy Recovery Facilities project, a multiple year project was completed and transferred from the construction in progress to the sewer plant in service capital assets. The largest capital spending during the current fiscal year was $7.6 million for the Water System's General System Modification and Replacement Water System Project and $7.1 million for the Zone A to Rattlesnake Reservoir Pump Station Project.

Other noncurrent assets increased $3.3 million or 0.9 percent during the current fiscal year. Noncurrent assets include the District's real estate investments and the pension benefits trust investments which was established in 2013 to help fund the District's pension liability.

Financial Position Summary (Continued)

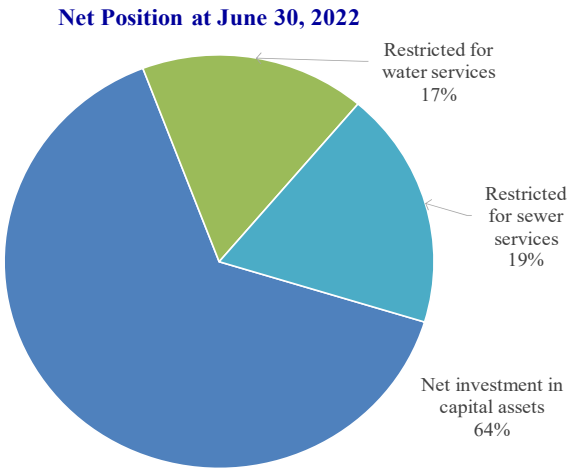
The real estate investments increased by $8.9 million due primarily to an increase in the fair value of real estate investments. The investment in joint venture increased by $5.2 million due primarily to a cash contribution to the Groundwater Banking Joint Powers Authority for property acquisitions. In addition, the District recorded a $2.4 million noncurrent leases receivable due to the implementation of the Governmental Accounting Standards Board (GASB) Statement Number 87: Leases. The increase is partially offset by a $13.1 million decrease in the fair value of pension benefits trust investments.

The District's deferred outflows of resources decreased by $12.8 million or 28.5 percent over the prior fiscal year. This is due primarily to a $10.0 million decrease in accumulated losses associated with the fair value of interest rate swaps and a $3.5 million decrease in pension and OPEB actuarial related changes in assumptions and experience.

The District's total liabilities decreased $59.1 million or 6.9 percent in the current fiscal year. This was due primarily to $34.9 million in net pension liability, $17.9 million in principal payments of the District's general obligation bonds, certificates of participation, and notes payable during the current fiscal year, and $10.0 million in accumulated losses associated with the fair value of interest rate swaps. The decrease was partially offset by a $1.4 million increase in OPEB liability and a $4.8 million increase in the accounts payable to various vendors.

The District's deferred inflows of resources increased $27.8 million or 1,635.3 percent in the current fiscal year. This was primarily due to a $25.3 million increase in pension and OPEB actuarial related changes in assumptions and experience and a $2.5 million increase in leases as a result of the implementation of the GASB Statement Number 87: Leases.

Net position at the end of the current fiscal year increased $37.8 million or 1.8 percent. Net position consists of net investment in capital assets and restricted net positions.



Net investment in capital assets are capital assets, net of accumulated depreciation/amortization and liabilities (such as debt) attributable to the acquisition, construction, or improvement of those assets. Net investment in capital assets was $1,362.3 million or 64.5 percent of total net position, an increase of $25.6 million from the prior fiscal year. The change is due primarily to $6.0 million in net capital asset additions, $17.9 million of debt principal payments and $2.2 million amortization of premiums in the current fiscal year.

Restricted net position for water services was $358.3 million or 17.0 percent of total net position. Restricted net position for sewer services was $391.4 million or 18.5 percent of total net position. Restricted net positions are restricted by legislation which imposes requirements that District assets be used only for the specific purposes for which it was formed.

Activities and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position summarizes the District's operations during the current fiscal year. A Summary of the District's changes in net position for the fiscal years ended June 30, is included in Table 2 below:

Table 2 - Revenues, Expenses and Changes in Net Position (in millions)

	2022	2021	Increase/(Decrease) Amount	Percentage
Operating revenues				
Water sales and service charges	$ 103.3	$ 96.6	$ 6.7	6.9%
Sewer sales and service charges	84.9	82.2	2.7	3.3%
Total operating revenues	188.2	178.8	9.4	5.3%
Non-operating revenues				
Property taxes	70.8	67.7	3.1	4.6%
Interest income	(0.8)	5.3	(6.1)	-115.1%
Increase (decrease) in fair value of investments	(3.8)	(4.6)	0.8	-17.4%
Real estate income	16.4	15.4	1.0	6.5%
Increase (decrease) in fair value of real estate investments	7.6	25.7	(18.1)	-70.4%
Pension benefits trust interest and dividends income	5.0	4.4	0.6	13.6%
Increase (decrease) in fair value of pension benefits trust investments	(18.0)	20.5	(38.5)	-187.8%
Other income	6.5	6.3	0.2	3.2%
Total non-operating revenues	83.7	140.7	(57.0)	-40.5%
Total revenues	271.9	319.5	(47.6)	-14.9%
Operating expenses				
Water services expenses	106.4	101.7	4.7	4.6%
Sewer services expenses	64.9	71.0	(6.1)	-8.6%
Depreciation	79.0	68.0	11.0	16.2%
Total operating expenses	250.3	240.7	9.6	4.0%
Non-operating expenses				
Interest expense	20.7	20.8	(0.1)	-0.5%
Real estate expense	6.6	5.6	1.0	17.9%
Other expense	2.8	1.4	1.4	100.0%
Total non-operating expenses	30.1	27.8	2.3	8.3%
Total expenses	280.4	268.5	11.9	4.4%
Income/(loss) before capital contributions	(8.5)	51.0	(59.5)	-116.7%
Capital contributions	46.3	31.4	14.9	47.5%
Change in net position	37.8	82.4	(44.6)	-54.1%
Beginning net position	2,074.2	1,991.8	82.4	4.1%
Ending net position	$ 2,112.0	$ 2,074.2	$ 37.8	1.8%

Revenues

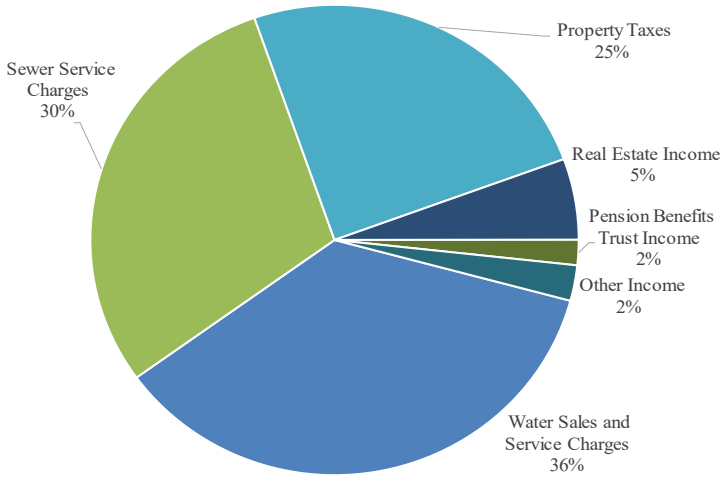
As shown in Table 2, the District's operating revenues total $188.2 million or 69.2 percent of total revenues. Water sales contributed $103.3 million or 54.9 percent to total operating revenues and sewer sales contributed $84.9 million or 45.1 percent to total operating revenues. Operating revenues increased by $9.4 million or 5.3 percent from the prior fiscal year. This is primarily due to a Board approved rate increase effective February 2022 as well as customer growth. In addition, the District recognized $3.9 million from the sale and exchange of the water banking program's banked water.

The chart below illustrates the sources of revenue for the fiscal year ended June 30, 2022.

Non-operating revenues total $83.7 million and account for 30.8 percent of total revenue for the fiscal year ended June 30, 2022. This is a decrease of $57.0 million or 40.5 percent from the prior fiscal year. The decrease in the current fiscal year is due to:

- A decrease of $55.8 million in changes in the fair value of the Pension Benefits Trust investments, real estate investments, and the District's fixed income investments.
- A decrease of $6.1 million in the District's fixed income investment interest income.
- An increase of $3.1 million in one percent and ad valorem property tax revenue associated with higher assessed values in the District's service area.

Revenues for Fiscal Year Ended June 30, 2022
(excluding changes in fair value of investments, real estate investments, and pension benefits trust investments)



- An increase of $1.0 million in income from the real estate investments.
- An increase of $0.6 million in the Pension Benefits Trust interest and dividends income.
- Other net increases of $0.2 million.

Expenses

As shown in Table 2, operating expenses total $250.3 million, of which $171.3 million relates to the cost of providing water and sewer services to the District's customers. Water service operating costs are 103.0 percent of revenues and sewer service operating costs are 76.4 percent of revenues. Water and sewer operating expenses, excluding depreciation, decreased by $1.4 million or 0.8 percent over the prior fiscal year.

Water expenses totaled $106.4 million, an increase of $4.7 million or 4.6 percent primarily due to:

- An increase of $3.7 million in water costs due primarily to higher imported water purchases.
- An increase of $2.5 million in electricity for potable and untreated water treatment and system maintenance.
- An increase of $1.9 million in expensed water projects related to the District's capital program.
- An increase of $1.5 million in operating supplies, equipment usages, and other professional fees.

Expenses (Continued)

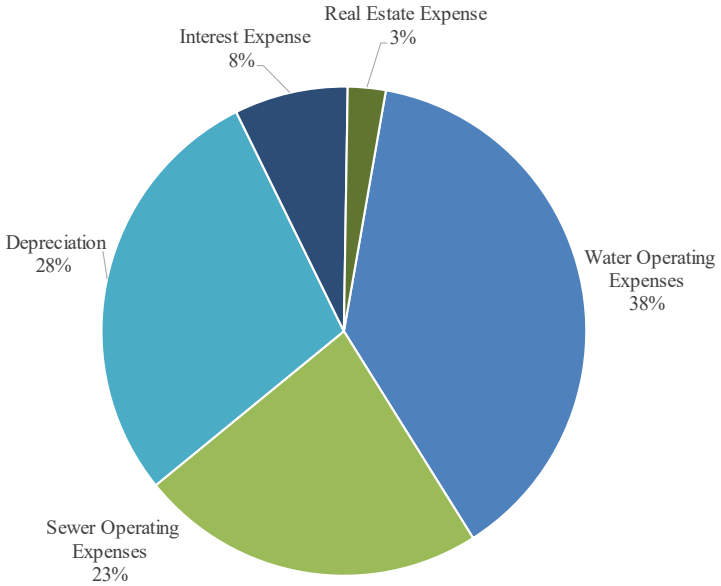
- A decrease of $5.2 million in general and administration expenses due to a decrease in pension expense.
- Other net increases of $0.3 million.

Sewer service expenses totaled $64.9 million, a decrease of $6.1 million or 8.6 percent over the prior fiscal year. The decrease is due primarily to:

- A decrease of $7.7 million in the cost of handling, treatment, and disposal of sewage solids sent to the District's third-party provider OC San due to lower flows and a full year operation of the biosolids facilities.
- A decrease of $3.7 million in expensed sewer and recycled water projects relating to the District's capital program.
- A decrease of $3.0 million in general and administration expenses due to a decrease in pension expense.
- An increase of $6.4 million in electricity, chemicals, operating supplies, and repair costs for sewage treatment and recycled water system maintenance.
- An increase of $1.4 million in untreated water purchased for the recycled water system to meet customer demands.
- An increase of $0.6 million in labor costs.
- Other net decreases of $0.1 million.

Depreciation expense totaled $79.0 million, an increase of $11.0 million or 16.2 percent over the prior fiscal year. The increase is the result of the completion of several capital projects.

Functional Expenses for Fiscal Year Ended June 30, 2022



Non-operating expenses totaled $30.1 million, an increase of $2.3 million or 8.3 percent from the prior year primarily due to:

- An increase of $1.4 million in other non-operating expenses associated with the write-off of customer accounts receivable as a result of federal funding received from the California Water and Wastewater Arrearage Payment Program provided by the California State Water Resources Control Board.
- An increase of $1.0 million in real estate expense.
- A decrease of $0.1 million in interest expense associated with the District's debt.

Capital Contributions

Capital contributions totaled $46.3 million, an increase of $14.9 million or 47.5 percent from the prior fiscal year. Donated facilities from developers increased $20.4 million due to an increased number of projects that were completed and donated to the District. Connection fees paid by developers were $10.4 million, a decrease of $8.5 million from the prior year due to a lower number of new units resulting from a slowdown in residential construction. The District also received $3.0 million more from grants / contributions from federal, state, and local agencies compared to the prior year.

Capital Assets

The District's investment in capital assets consists of the following as of June 30:

Table 3 - Capital Assets, Net of Depreciation (in millions)

	2022	2021	Increase/(Decrease) Amount	Increase/(Decrease) Percentage
Water assets	$ 1,273.6	$ 1,228.1	$ 45.5	3.7%
Sewer assets	1,682.2	1,367.9	314.3	23.0%
Less: accumulated depreciation	(1,133.1)	(1,055.9)	(77.2)	7.3%
Land and water rights	126.6	126.6	-	0.0%
Construction in progress	80.5	357.1	(276.6)	-77.5%
Total	$ 2,029.8	$ 2,023.8	$ 6.0	0.3%

Capital assets, net of depreciation increased $6.0 million or 0.3 percent in the current fiscal year. Construction in Progress added $102.1 million during the current fiscal year. Total projects transferred from Construction in Progress to Capital Assets and depreciated during the fiscal year ended June 30, 2022 were $378.7 million. The District's accumulated depreciation increased by $77.2 million for depreciation expense in the current fiscal year. The following is a list of the top 10 capital projects expenditures which accounted for 37.1 percent of total capital assets additions incurred in the current fiscal year (in millions):

Project Description	Amount
General System Modification and Replacement Water System	$ 7.6
Zone A to Rattlesnake Pump Station	7.1
Chlorine Gas Disinfection System Conversion	4.2
Rehabilitation of Collection System Siphons	4.1
Zone 1 Reservoir Replacement Interior Coating	3.3
Syphon Reservoir Improvements	3.0
Improvement of NTS Facility Plan Orchard Estates Retarding Basin	2.3
Zone C Pump Station Location	2.2
Woodbridge Recycled Water Pipeline Replacement	2.1
General System Modification and Replacement Recycled Water	2.0
Total	$ 37.9

Additional information on the District's capital assets can be found in Note 5 of the Notes to the Basic Financial Statements.

Debt Administration

As shown below in Table 4, as of June 30, 2022, the District had total debt outstanding of $669.3 million, a decrease of $19.6 million or 2.8 percent from the prior fiscal year.

Table 4 - Outstanding Debt (including current portions) (in millions)

	2022	2021	Increase/(Decrease) Amount	Increase/(Decrease) Percentage
General Obligation bonds	$ 535.3	$ 550.4	$ (15.1)	-2.7%
Certificates of participation	133.2	138.2	(5.0)	-3.6%
Notes payable	0.3	0.3	-	0.0%
Leases payable	0.5	-	0.5	100.0%
Total	$ 669.3	$ 688.9	$ (19.6)	-2.8%

During the current fiscal year, the decreases in the District's total debt were primarily due to $17.9 million in debt payments and $2.2 million of premium amortization. The decrease was offset by a $0.5 million increase in leases payable due to the implementation of the GASB Statement Number 87: Leases. The District's rated debt obligations have received the following ratings from the three major rating agencies:

Fitch Ratings:	AAA
Moody's:	Aa1
Standard and Poor's:	AAA

Additional information on the District's long-term debt can be found in Note 10 of the Notes to the Basic Financial Statements.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general review of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Executive Director of Finance and Administration at the Irvine Ranch Water District, 15600 Sand Canyon Avenue, Irvine, California 92618-7500.

(1) Summary of Significant Accounting Policies

(a) Reporting Entity

The Irvine Ranch Water District (District) was formed in 1961 as a special district under Division 13 of the California Water Code (the Act). The District provides potable and recycled water service as well as sewage collection, treatment, and disposal to users within its boundaries.

The District is divided geographically into eight water and ten sewer improvement districts (IDs), as well as several planning areas (PAs) that function as informal improvement districts. Each improvement district is a sub-fund of the District and their primary purpose is to allocate costs and funding on an equitable basis for the construction of water, sewer, and recycled water infrastructure. Most improvement districts have authority to issue general obligation bonds to finance the construction of capital facilities that were identified and valued in a Plan of Works specific to the improvement district. Each improvement district with authority to issue general obligation bonds also has the authority to levy and collect connection fees and ad valorem taxes on the land within its legal boundaries sufficient to meet its general obligation bond indebtedness.

Connection fees which are paid by developers and property taxes which are paid by property owners vary by improvement district based upon, among other considerations, total capital costs, ratio of developed to undeveloped land, and development densities; however, water and sewer user fees are uniform throughout the District.

Description of the Reporting Entity

The financial statements of the District include the financial activities of the following sub-fund improvement districts and planning areas:

111/222	Area Excluded from IDs
112/212	Former El Toro Marine Base
113/213	Former Tustin Marine Base
125/225	Developed/Underlay
240	Newport Coast/Newport Ridge
252	Santiago Hills
153/253	Irvine Business District /Spectrum /Shady Canyon/Laguna Laurel/East Orange
154	Santiago Canyon(s)
256	Orange Park Acres
185/285	Los Alisos Area
188/288	Portola Hills Commercial
110/210	Overall District Boundary

(1) Summary of Significant Accounting Policies (Continued)

(a) Reporting Entity (Continued)

Blended Component Units - Blended component units although legally separate entities, are, in substance, part of the District's operations since they have the same governing board. The District has both financial accountability and operational responsibility for the blended component units. The District has the following blended component units:

The Irvine Ranch Water District Water Service Corporation – In January 1997, the District formed a 501(c)(4) corporation for the purpose of financing and acquiring water, sewer and other public improvements. The Corporation was created to effect the merger of the Santa Ana Heights Water Company and the issuance of the 2002 Certificates of Participation, 2008 Refunding Certificates of Participation, 2010 Refunding Certificates of Participation, and 2016 Certificates of Participation. The Corporation's bylaws mandate that the members of the District's Board of Directors shall constitute the Corporation's five-member Board of Directors. The Irvine Ranch Water District Water Service Corporation does not issue separate financial statements.

Bardeen Partners, Inc. – In March 1991, the District formed a 501(c)(4) corporation for the purpose of accounting for the financial data and transactions for certain District real estate investments, including the investments in Wood Canyon Villas, Sycamore Canyon Apartments, and Irvine Technology Center. Bardeen Partners is governed by a Board of Directors consisting of the five members of the District's Board of Directors. Bardeen Partners does not issue separate financial statements.

(b) Basic Financial Statements

The basic financial statements are comprised of the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, the Statement of Cash Flows, the Statement of Fiduciary Net Position - Fiduciary Fund – Custodial Fund, the Statement of Changes in Fiduciary Net Position - Fiduciary Fund – Custodial Fund, and the Notes to the Basic Financial Statements.

(c) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The District's financial activities are accounted for as an enterprise fund (proprietary fund type). A fund is an accounting entity with a self-balancing set of accounts established to record the financial position and results of operations of a specific governmental activity. The activities of enterprise funds closely resemble those of ongoing businesses in which the purpose is to conserve and add to basic resources while meeting operating expenses from current revenues. Enterprise funds account for operations that provide services on a continuous basis and are substantially financed by revenues derived from user charges.

Fiduciary Fund is used to account for assets held by the District as a custodian for the activities of the San Joaquin Wildlife Sanctuary (SJWS) and are accounted as a custodial fund (fiduciary fund type).

Both the enterprise fund and fiduciary fund utilize the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as they are incurred. Internal activity has been eliminated in the accompanying basic financial statements.

(1) Summary of Significant Accounting Policies (Continued)

(c) Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with water and sewer operations. The principal operating revenues of the District are charges to customers for sales and services. Operating expenses include cost of sales and services, general and administrative expenses and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Capital contributions consist of contributed capital assets, connection fees, grants and other charges that are legally restricted for capital expenditures by state law or by the Board action that established those charges.

Net position of the District is classified into two components: (1) net investment in capital assets and (2) restricted net position. These classifications are defined as follows:

Net Investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation reduced by the outstanding balances of notes or borrowing(s) that are attributable to the acquisition of the asset, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets.

Restricted net position – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, the District uses unrestricted resources first, and then restricted resources as they are needed. For capital expenditures, legally available restricted bond proceeds are used first, then other restricted resources, and then unrestricted resources are used if needed.

(d) Property Taxes

The District is authorized under the Act to levy taxes on all taxable property (lands only) within its boundaries for the purposes of paying certain of its debt obligations, subject to certain limitations in the Act, the Revenue and Taxation Code and the California Constitution. The District also receives a portion of the County's 1% ad valorem property taxes from certain lands within its boundaries. Property tax revenue is recognized in the fiscal year in which the taxes are levied. The property tax calendar is as follows:

Lien date:	January 1
Levy date:	July 1
Due date:	First installment – November 1
	Second installment – February 1
Delinquent date:	First installment – December 10
	Second installment – April 10

(1) **Summary of Significant Accounting Policies (Continued)**

(d) **Property Taxes (Continued)**
The assessment, levy and collection of property taxes are the responsibility of the County of Orange, and are remitted to the District periodically.

(e) **Cash and Cash Equivalents**
For the purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near to their maturity that they present insignificant risk of changes in value because of changes in interest rates, and have an original maturity date of 3 months or less.

(f) **District Investments**
Investments are reported in the accompanying Statement of Net Position at fair value, except for certain investment contracts that are reported at cost because they are not transferable and they have terms not affected by changes in market interest rates.

Changes in fair value that occur during the fiscal year are recognized as increase (decrease) in fair value of investments reported for that fiscal year. Interest income includes interest earnings on the District's investments.

(g) **Pension Benefits Trust Investments**
Investments of the Pension Benefits Trust are reported in the accompanying Statement of Net Position at fair value.

Changes in fair value that occur during the fiscal year are recognized as increase (decrease) in fair value of investments reported for that fiscal year. Interest income is recorded on the accrual basis. Dividends are recorded on the payment date.

(h) **Real Estate Investments**
Real estate investments consist of a wholly-owned apartment complex and four commercial office properties. The District is also a party to a real estate limited partnership in which the District has more than a 50% ownership interest but does not exercise control. All real estate investments are reported at fair value. Changes in fair value that occur during the fiscal year are recognized as increase (decrease) in fair value of real estate investments reported for that fiscal year.

(i) **Fair Value Measurements**
Certain assets and liabilities are required to be reported at fair value. The fair value framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

(1) **Summary of Significant Accounting Policies (Continued)**

(i) **Fair Value Measurements (Continued)**
Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly and fair value is determined through the use of models or other valuation methodologies including:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are inactive
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These unobservable inputs reflect the District's own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk). These unobservable inputs are developed based on the best information available in the circumstances and may include the District's own data.

(j) **Inventory and Prepaid Items**
Water inventory related to water stored in its banking facilities in Kern County is stated at its purchase cost or at a rate equivalent to what the District would charge for storage. The District's warehouse materials and supplies are valued using the average cost method. Inventory is recorded when purchased, and expensed at the time the inventory is consumed. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

(k) **Capital Assets and Depreciation**
Capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated assets are valued at their estimated acquisition value on the date received. The District capitalizes all assets with a historical cost of at least $10,000 and a useful life of at least three years. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Depreciation is computed utilizing the straight-line method over the following estimated useful lives:

Buildings and Structures	3 to 100 years
Transmissions and Distributions	10 to 75 years
Machinery and Equipment	3 to 50 years

(l) **Compensated Absences**
The District's policy permits employees to accumulate earned but unused vacation and sick leave benefits up to certain limits. Earned vacations pay to a maximum of 400 hours (or more with written approval of the General Manager). Sick leave hours accrue at the rate of one day per month and employees may elect to receive cash for accumulated sick leave for up to 96 hours in excess of the first 80 hours accumulated. Fifty percent of accumulated sick leave up to a maximum of 960 hours may be paid upon termination of employment. All accumulated vacation and vested sick leave pay is recorded as expense at the time the benefit is earned.

(1) Summary of Significant Accounting Policies (Continued)

(m) Pensions

For purposes of measuring the net pension liability, deferred outflows and inflows of resources relating to pensions and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD)	June 30, 2020
Measurement Date (MD)	June 30, 2021
Measurement Period (MP)	July 1, 2020 to June 30, 2021

(n) Other Post-Employment Benefits (OPEB)

The OPEB liability, deferred outflows and inflows of resources relating to OPEB and OPEB expense have been determined by an independent actuary. Benefit payments are recognized when currently due and payable in accordance with the benefit terms.

GASB requires that the reported results pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD)	June 30, 2020
Measurement Date (MD)	June 30, 2021
Measurement Period (MP)	July 1, 2020 to June 30, 2021

(o) Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred amounts related to refunding charges, accumulated decreases in fair value of swap agreements, employer contributions subsequent to measurement date for pension and OPEB, and actuarial amounts related to pension and OPEB.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The deferred amounts related to actuarial amounts related to pension and OPEB and leases.

(1) **Summary of Significant Accounting Policies (Continued)**

(p) **Leases**

Lessee: The District is a lessee for the noncancellable leases of production well sites. The District recognizes a lease liability and an intangible right-to-use the lease asset (lease asset) in the basic financial statements. The District recognizes lease liabilities with an initial, individual value of $10,000 or more and a useful life of at least three years.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the District has determined is reasonably certain to be exercised. In those situations, the lease is amortized over the useful life of the underlying asset.

Key estimates and judgements related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments at present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the Statement of Net Position.

Lessor: The District is a lessor for the noncancellable leases of land properties. The District recognizes a lease receivable and a deferred inflow of resources in the basic financial statements.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable is adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

(1) Summary of Significant Accounting Policies (Continued)

(p) Leases (Continued)

Key estimates and judgements include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a re-measurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

(q) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(r) Comparative Financial Statements and Reclassifications

The information included in the accompanying financial statements for the prior year has been presented for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles. Certain amounts presented in the prior year financial statements have been reclassified in order to be consistent with the current year's presentation.

(2) Cash and Investments

Cash and investments as of June 30, 2022 are classified in the accompanying financial statements as follows (in thousands):

Statement of Net Position:	
District Cash and Investments	$ 401,056
Pension Benefits Trust Investments	94,828
Total Cash and Investments	495,884
Fiduciary Fund - Custodial Fund:	
Cash and Investments	933
Total Cash and Investments	$ 496,817

(2) Cash and Investments (Continued)

Cash and investments as of June 30, 2022 consist of the following (in thousands):

District Cash and Investments:		
Cash on hand	$	3
Deposits with financial institutions		2,713
Investments		398,340
Total District Cash and Investments		401,056
Pension Benefits Trust Cash and Investments:		
Equities - mutual funds		74,332
Fixed income bonds - mutual funds		20,459
Money market - mutual funds		37
Total Pension Benefits Trust Cash and Investments		94,828
Fiduciary Fund - Custodial Fund:		
Deposits with financial institutions		933
Total Cash and Investments	$	496,817

The following table identifies the investment types that are authorized for the District by the California Government Code, the California Water Code, and the District's investment policy, whichever is most restrictive. The table also identifies certain provisions that address interest rate risk and concentration of credit risk.

Authorized Investment Type	Maximum Maturity[1]	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Bankers Acceptances	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base value	None
Medium-Term Notes	5 years	30%	None
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
Orange County Treasury Pool	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Real Estate Investments	N/A	30%[2]	None

[1] Maximum maturity unless express authority has been granted otherwise by the Board of Directors pursuant to the California Government Code Section 53601.
[2] 30% of Replacement Fund, as authorized by the California Water Code.

(2) **Cash and Investments (Continued)**

Pension Benefits Trust (The Trust) Authorized Investment Strategy
The District recognizes that defined benefit plans and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the issue and in 2013, established a Pension Benefits Trust (The Trust) to substantially fund its CalPERS unfunded liability. The Trust's investment policy authorizes investment of Trust assets in financial instruments in three broad categories: equity, fixed income, and real estate. These financial instruments can include, but are not limited to, corporate bonds, commercial paper, U.S. government securities, common and preferred stock, real estate investment trusts, and mutual funds. Investments may include derivatives, options and futures as portfolio protection strategies. The following is a summary of the Trust's investment policy.

The Trust is governed by a Retirement Board (the Board) which consists of two IRWD Board members and the General Manager. The Board designates one or more investment advisors to manage the assets under their supervision subject to the laws of the State of California and Investment Guidelines established by the Board. The long-term asset allocation policy including the minimum-maximum asset allocation range for each asset class is as follows:

Asset Classes	Minimum	Maximum
Cash	0%	30%
Public Equity- Domestic & International	30%	80%
Private Equity	0%	5%
Fixed Income	10%	40%
Real Estate	0%	10%

The asset allocation policy will be pursued by the Trust on a long-term basis and may be revised if necessary due to market conditions. The Board will monitor the current asset allocation against the long-term allocation policy and rebalance as it deems necessary.

Cash equivalent reserves shall consist of cash instruments having a quality rating of A-1, P-1 or higher, as established by Moody's or Standard & Poor's. Bankers' acceptances, certificates of deposit and savings accounts must be made of United States banks or financial institutions or United States branches of foreign banks, which are federally insured with unrestricted capital of at least $50 million. Short-term corporate obligations must be rated A or better by Moody's or by Standard & Poor's.

(2) Cash and Investments (Continued)

Pension Benefits Trust Authorized Investment Strategy (Continued)
Equity investments are restricted to high quality, readily marketable securities of corporations that are actively traded on a major exchange. Not more than 5% of the total stock portfolio valued at fair value may be invested in the common stock of any one corporation. Ownership of the shares of one company shall not exceed 2% of those outstanding. Not more than 25% of stock valued at fair value may be held in any one industry category. The overall non-U.S. equity allocation should include a diverse global mix of at least 10 countries. The emerging markets exposure as defined by Morgan Stanley Capital International Inc. should be limited to 35% of the non-U.S. portion of the portfolio.

Fixed income securities of any one issuer shall not exceed 5% of the total bond portfolio, at time of purchase. The 5% limitation does not apply to issues of the U.S. Treasury or other Federal Agencies. The overall rating of the fixed income assets shall be at least "A", according to one of the three rating agencies (Fitch, Moody's or Standard & Poor's). In cases where the yield spread adequately compensates for additional risk, securities where two of the three rating agencies (Fitch, Moody's or Standard & Poor's) have assigned ratings of Baa3 or BBB- ratings, can be purchased up to a maximum of 20% of total fair value of fixed income securities.

Custodial Credit Risk
Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

(2) Cash and Investments (Continued)

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming near to maturity as necessary to provide the cash flow and liquidity needed for District operations.

Information about the sensitivity of the fair values of the District's and Pension Benefits Trust's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the investments by maturity (in thousands):

		Remaining Maturity			
Investment Type	**Amount**	**12 Months Or Less**	**13 to 36 Months**	**37 Months Or More**	**Not Applicable**
Federal Agency Securities	$ 39,661	$ 29,840	$ 9,821	$ -	$ -
US Treasury Note	315,245	227,560	87,685	-	-
Local Agency Investment Fund	43,434	43,434	-	-	-
Total District Investments	398,340	300,834	97,506	-	-
Mutual Funds - Equities	74,332	-	-	-	74,332
Mutual Funds - Fixed Income Bonds	20,459	229	6,542	13,688	-
Mutual Funds - Money Market	37	37	-	-	-
Total Pension Benefits Trust Investments	94,828	266	6,542	13,688	74,332
Total	$ 493,168	$ 301,100	$ 104,048	$ 13,688	$ 74,332

(2) Cash and Investments (Continued)

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of year-end for each investment type (in thousands):

District Cash and Investments:

Investment Type	Amount	AAA	Not Rated
Federal Agency Securities	$ 39,661	$ 29,683	$ 9,978
US Treasury Note	315,245	315,245	-
Local Agency Investment Fund	43,434	-	43,434
Total	$ 398,340	$ 344,928	$ 53,412

Pension Benefits Trust Investments:

Investment Type	Amount	
Mutual Funds - Equities	$ 74,332	(1)
Mutual Funds - Fixed Income Bonds	20,459	(2)
Mutual Funds - Money Market	37	(3)
Total	$ 94,828	

(1) Equity Mutual Funds as of 6/30/2022 include five "index funds" and are each comprised of diversified portfolios of equity securities. Credit ratings are not provided for Equity Mutual Funds.

(2) Fixed Income Mutual Funds are comprised of three diversified portfolios of fixed income securities. As of 6/30/2022, 62.59% of the holdings were rated A-AAA, 36.05% of the holdings were rated B-BBB, and 1.37% of the holdings were rated below B or Not Rated.

(3) The Money Market Mutual Fund is not rated.

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

(2) Cash and Investments (Continued)

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments are as follows (in thousands):

Issuer	Investment Type	Amount
FHLB	Federal Agency Security	$ 24,801
	Total	$ 24,801

Disclosures Relating to Fair Value Measurements

The District categorizes its fair value investments within the fair value hierarchy established by generally accepted accounting principles. The District has the following fair value measurements as of June 30, 2022 (in thousands):

District Cash and Investments:

		Fair Value Measurements	
Investment Type	**Amount**	**Level 1**	**Level 2**
Federal Agency Securities	$ 39,661	$ -	$ 39,661
US Treasury Note	315,245	315,245	-
Local Agency Investment Fund	43,434 (1)	-	-
Total	$ 398,340	$ 315,245	$ 39,661

Pension Benefits Trust Cash and Investments:

		Fair Value Measurements
Investment Type	**Amount**	**Level 1**
Mutual Funds - Equities	$ 74,332	$ 74,332
Mutual Funds - Fixed Income Bonds	20,459	20,459
Mutual Funds - Money Market	37 (1)	-
Total	$ 94,828	$ 94,791

(1) These are not subject to the fair value measurements classification.

(3) Interest Rate Swap Agreements

In September 2003, the District's Board of Directors approved a policy regarding the use of interest rate swap transactions. The policy provides that interest rate swap transactions will be designed to enhance the relationship between risk and return with respect to an investment or a program of investments entered into by the District; and/or to reduce the amount or duration of payment, rate, spread, or similar risk; and/or result in a lower cost of borrowing when used in combination with bonds or other indebtedness of the District. Pursuant to the policy, the Board of Directors may authorize general parameters for interest rate swap transactions while the Finance and Personnel Committee would structure any specific transactions within the Board-authorized parameters. The Treasurer, with the concurrence of the Chairman of the Finance and Personnel Committee, is authorized to enter into interest rate swap transactions that are within all authorized parameters.

The International Swaps and Derivatives Association, Inc. (ISDA) Master Agreement, including the schedule and credit support annex, is used as the form of contract with interest rate swap counterparties. The District is compliant with all Dodd-Frank Protocol provisions regarding swap advisor representation and transparency.

The outstanding interest rate swaps are pay-fixed, receive variable swaps ("fixed payer swaps"). As of June 30, 2022, the notional amount and fair value balance of the District's interest rate swaps are $60.0 million and $(10.3) million, respectively. For the year ended June 30, 2022, the increase in fair value of the fixed payer interest rate swaps was $10.0 million.

The fair value of the swap agreements at June 30, 2022 is calculated using a zero-coupon method (Level 2 inputs). This method calculates the future net settlement payments required by the swaps, assuming, for the LIBOR fixed payer swaps, that the current LIBOR forward rates implied by the LIBOR yield curves correctly anticipate future LIBOR spot interest rates. These payments are discounted using the spot rates implied by the current yield curves for hypothetical zero-coupon bonds due on the date of each future net settlement of the swaps.

The District's fixed payer swaps were executed in 2004 and became effective in 2007. The purpose of the fixed payer swaps was to hedge a portion of the interest rate risk exposure associated with the District's 100% variable rate debt structure at the time the swaps were executed. The interest rate swap notional amounts and maturities are not specifically related to a particular District debt issue, however are considered a hedge of a pooled portion of the District's variable rate debt exposure.

The following table displays the objective and terms of the District's interest rate swaps outstanding at June 30, 2022, along with the credit rating of the associated counterparty.

(3) **Interest Rate Swap Agreements (Continued)**

Current Year Active Interest Rate Swaps (in thousands):

Type	Objective	Notional Amount	Effective Date	Maturity Date	Terms	Counterparty Rating
Fixed Payer	Hedge of changes in cash flows on pool of variable rate debt issues	$30,000	3/10/07	3/10/29	Pay 5.687%; receive 1-Mo. LIBOR	Aa2/A+/AA
Fixed Payer	Hedge of changes in cash flows on pool of variable rate debt issues	$30,000	3/10/07	3/10/29	Pay 5.687%; receive 1-Mo. LIBOR	Aa3/A+/A+

The ISDA agreements for the above referenced interest rate swaps include a provision that the counterparties shall be required to post collateral should the mark-to-market value of the total interest rate swap portfolio with the respective counterparty, including any current outstanding swap accruals, exceed a threshold of $(15.0) million. The amount of the collateral posted shall be the amount of the mark-to-market value and outstanding swap accrual amounts in excess of $(15.0) million. As of June 30, 2022, the mark-to-market value of the total interest rate swaps with Citibank N.A. and Bank of America, N.A. as counterparties did not exceed the threshold amount.

Credit risk: The District is exposed to credit risk on interest rate swaps. To minimize its exposure to loss related to credit risk, the District's policy requires that the Finance and Personnel Committee evaluate and approve the counterparty creditworthiness of each counterparty prior to executing an ISDA Agreement, and all current swap agreements include collateral posting provisions. These terms require full collateralization of the fair value of interest rate swaps in asset positions (net of the effect of applicable netting arrangements) should the counterparty's credit rating fall below BBB+ as issued by Fitch Ratings and Standard & Poor's or Baa1 as issued by Moody's Investors Service. Collateral posted is to be in the form of U.S. Treasuries, or other approved securities, held by a third-party custodian.

The District has executed interest rate swap transactions with Bank of America, N.A. and Citibank N.A. Their ratings are Aa2/A+/AA (50% of net exposure to credit risk) and Aa3/A+/A+ (50% of net exposure to credit risk), respectively, as of June 30, 2022.

Interest rate risk: The District is exposed to interest rate risk on its interest rate swaps. On its fixed payer swaps, as the 1-month LIBOR index decreases, the District's net payment on the swap increases. Alternatively, on its fixed payer swaps, as the 1-month LIBOR index increases, the District's net payment on the swap decreases.

(3) Interest Rate Swap Agreements (Continued)

Basis risk: The District is exposed to basis risk on its fixed payer swaps because the variable-rate payments received by the District on these swaps are based on a rate or index other than interest rates the District pays on its variable-rate debt, which is remarketed daily or weekly.

Termination risk: The District or its counterparties may terminate an interest rate swap if the other party fails to perform under the terms of the contract. If at the time of termination, an interest rate swap is in a liability position, the District would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

Collateral requirements: The District's interest rate swaps include provisions that require the District to post collateral in the event its credit rating falls below A as issued by Fitch Ratings and Standard & Poor's or A2 as issued by Moody's Investors Service.

The collateral posted is to be in the form of U.S. Treasuries or other approved securities in the amount of the fair value of interest rate swaps in liability positions net of the effect of applicable netting arrangements. If the District does not post collateral, the swaps may be terminated by the counterparty. The District's credit rating is Aa1/AAA/AAA; therefore, no collateral has been posted at June 30, 2022.

(4) Inventories

Inventories consist of available water in storage and materials and supplies in the District's warehouse facilities. As of June 30, 2022, the District had 1,355.9 acre-feet of water stored in the Irvine Lake at a cost of $1.1 million. In addition, the District had 25,712.7 acre-feet of banked water in various water bank facilities at a cost of $5.3 million. Inventories at June 30, 2022 consisted of the following (in thousands):

Water in storage	$ 6,394
Materials and supplies	9,726
Total	$16,120

(5) Capital Assets

Capital asset activity for the year ended June 30, 2022 is as follows (in thousands):

	Balance June 30, 2021	Additions	Deletions	Balance June 30, 2022
Capital assets, depreciable:				
Land leasehold	$ 4,860	$ -	$ -	$ 4,860
Right-to-use leased asset	-	524	-	524

Capital assets, non-depreciable:				
Land and water rights	126,565	4	-	126,569
Construction in progress	357,075	102,145	(378,685)	80,535
Total capital assets, net	$ 2,023,783	$ 411,494	$ (405,499)	$ 2,029,778

Total projects transferred from Construction in Progress to Capital Assets and depreciated during the fiscal year ended June 30, 2022 were $378.7 million. The District's proportionate share of the Orange County Sanitation District's jointly funded capital assets decreased $17.7 million during the fiscal year ended June 30, 2022.

Certain administrative and general expenses relating to assets under construction are charged to construction-in-progress until the assets are ready for their intended use. The amount of administrative and general expenses capitalized to construction-in-progress for the fiscal year ended June 30, 2022 was $11.5 million.

(6) Orange County Sanitation District (OC San)

The District, with OC San, negotiated an agreement as of July 1, 1985, which has been amended from time to time. The District agreed to annually fund payment of the District's proportionate share of OC San's joint capital outlay revolving fund (CORF) budget requirements and certain capital improvements, calculated on an annual flow basis using the four highest months of actual flows, during the term of the agreement.

The capital assets associated with this agreement are co-owned by the two agencies and provide an operational benefit to both agencies. During the fiscal year ended June 30, 2022, the District received a credit of $23.6 million of the equity integration adjustment of OC San's capital assets. In addition, the District's CORF payments to OC San for the fiscal year totaled $5.6 million.

(6) Orange County Sanitation District (OC San) (Continued)

The District's share of the jointly funded capital assets and CORF in the amount of $67.7 million is included in capital assets in the District's basic financial statements.

In May 2018, the District and OC San agreed to extend the agreement, providing for treatment and disposal by OC San of District solids and the temporary lease of capacity in OC San's solids treatment and disposal facilities through December 31, 2021. The capacity lease for the fiscal year ended June 30, 2022, estimated at $0.3 million, is included in Sewer Services as an operating expense.

The accompanying basic financial statements reflect management's best estimate of balances pertaining to this agreement based upon information provided by OC San. Periodically this information is subjected to further review based on the performance of agreed upon procedures when the records for such review have been made available to the District. Adjustments pertaining to the accounting estimates associated with this agreement are recognized as the information for such adjustments becomes available. As of June 30, 2022, the District had a net receivable of $53.9 million from OC San which is reflected as a due from other agencies in the District's basic financial statements.

(7) Leases Receivable

During the current fiscal year, the District implemented GASB Statement No. 87, Leases. In prior years, the District entered into two agreements that leased the District's property to third parties. These leases are in effect through 2036 and 2041. Payments to the District are based on the terms in each agreement and include certain variable payments not included in the measurement of the lease receivable. During the fiscal year, the District received monthly payments ranging from $1,500 to $89,309 and recognized $0.1 million in lease revenue and $54,261 in interest revenue related to these leases. As of June 30, 2022, the District's receivable for lease payments was $2.5 million. Also, the District has a deferred inflow of resources associated with these leases that will be recognized as revenue over the lease terms. As of June 30, 2022, the balance of the deferred inflow of resources was $2.5 million. The following schedule is the expected future minimum payments under these agreements (in thousands):

Fiscal Year	Principal	Interest	Total
2023	$ 139	$ 57	$ 196
2024	115	54	169
2025	119	51	170
2026	123	49	172
2027	128	46	174
2028-2032	708	181	889
2033-2037	774	93	867
2038-2041	419	17	436
Total	$ 2,525	$ 548	$ 3,073

(8) Real Estate Investments

Real estate investments as of June 30, 2022 consist of the following (in thousands):

Real estate investments at fair value	$ 278,570
Other assets	1,772
Total	$ 280,342

The District has the following fair value measurements for the real estate investments (Level 3 inputs) (in thousands):

	Balance June 30, 2021	Increase / (decrease) in Fair Value	Balance June 30, 2022
Wood Canyon Villas, L.P.	$ 32,259	$ 1,935	$ 34,194
Sycamore Canyon Apartments	170,000	4,250	174,250
230 Commerce Office Property	12,000	240	12,240
Waterworks Way Business Park	11,600	232	11,832
Sand Canyon Professional Center	11,900	238	12,138
Sand Canyon General Office	33,250	666	33,916
Total	$ 271,009	$ 7,561	$ 278,570

Net real estate income as of June 30, 2022 is as follows (in thousands):

Real estate income	$ 16,361
Increase (decrease) in fair value of real estate investments	7,561
Real estate expense	(6,605)
Net real estate income	$ 17,317

(8) **Real Estate Investments (Continued)**

Included in real estate investments are two apartment properties and four commercial office buildings. The District, through Bardeen Partners, Inc., is the sole limited partner in Wood Canyon Villas, L.P. (Wood Canyon), and the sole owner of both Sycamore Canyon Apartments and a commercial office building (230 Commerce). Separate from Bardeen Partners, Inc., the District is the sole owner of three other commercial office buildings (Waterworks Way Business Park, Sand Canyon Professional Center, and Sand Canyon General Office).

The construction of Wood Canyon Villas, a 230-unit apartment property, was completed in 1993. The property is located in Orange County, California, and was 99% occupied at June 30, 2022. The Wood Canyon partnership agreement provides the District with a 9% cumulative preferred return on its unrecovered contribution accounts, as defined in the agreement ($6.0 million contribution). The property's fair value and the District's partnership interest were based on a fixed growth factor included in the limited partnership agreement.

In 1992, the District acquired a 450-unit apartment property (original cost, $34.1 million) in Orange County, California known as Sycamore Canyon Apartments. The property was 96% occupied at June 30, 2022. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2022.

In 2003, the District completed construction of the 41,000 square foot for-lease 230 Commerce professional office building located in Irvine, California. Land and construction costs for the project totaled $5.6 million and the building was 93% occupied as of June 30, 2022. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2022.

In November 2008, the District completed construction of a 37,200 square foot for-lease R&D office building located in Irvine, California known as the Waterworks Way Business Park. The building was constructed land owned by IRWD adjacent to a District water treatment facility. Land and construction costs for the office project totaled $9.0 million. As of June 30, 2022, the building was 100% occupied. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2022.

In April 2012, the District completed construction of a 16,350 square foot for-lease medical office building located in Irvine, California known as the Sand Canyon Professional Center. Land and construction costs for the project totaled $8.4 million and the building was 100% occupied as of June 30, 2022. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2022.

In August 2020, the District completed construction of a new for-lease 70,000 square foot office building located in Irvine, California known as the Sand Canyon General Office. Land and construction costs for the project totaled $25.4 million and the building was 100% occupied as of June 30, 2022. The property's fair value was determined using an appraisal valuation in 2021 and adjusted with a growth factor in 2022.

(9) Investment in Joint Venture

The District is a participant with the Rosedale-Rio Bravo Water Storage District (RRB) in a joint venture to design, build and operate a Kern Fan Groundwater Storage Project. Groundwater Banking Joint Powers Authority (GBJPA), a legally separate public agency, was created for that purpose effective July 1, 2020. GBJPA is governed by a four-member board composed of two appointees from the District and two appointees from the RRB. The District and the RRB are each obligated by contract to provide equal funding (50-50) of the costs and are each entitled to one-half of GBJPA's annual operating income or loss, if any. The District's net investment in the joint venture represents its proportionate share of capital and operating expenses of GBJPA. The District's investment in GBJPA was $6.1 million at June 30, 2022. Complete financial statements for GBJPA can be obtained from GBJPA's office at 849 Allen Road, Bakersfield, CA 93314.

(10) Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2022 is as follows (in thousands):

	Balance June 30, 2021	Additions	Deletions	Balance June 30, 2022	Due within One Year	Due in more than one Year

Certificates of Participation:					
2016 Certificates	9/1/2016	116,745	(2)	3/1/2046	5.00%

(1) Ad valorem assessments or, in lieu of assessments, in the District's discretion, charges for water or sewer service.
(2) Available water, sewer, and recycled water revenues.
(3) Proceeds from the sale of property.

General Obligation Bonds

The annual debt service requirements for the General Obligation Bonds, including principal and interest payments (based on variable interest rates at June 30, 2022 ranging from 0.45% to 0.88% and the fixed rate for the 2010B BABs issue and 2016 Consolidated issue) are as follows (in thousands):

Fiscal Year	Principal	Interest	Hedging Instruments Net	BAB Federal Subsidy	Total
2023	$ 14,365	$ 18,315	$ 3,201	$ (3,825)	$ 32,056
2024	14,775	18,110	3,201	(3,825)	32,261
2025	18,015	17,912	3,201	(3,825)	35,303
2026	18,710	17,501	3,201	(3,757)	35,655
2027	19,265	17,100	3,201	(3,696)	35,870
2028-2032	106,640	74,974	6,399	(17,746)	170,267
2033-2037	157,225	58,766	-	(14,422)	201,569
2038-2042	138,265	22,286	-	(3,825)	156,726

Plus: Unamortized premium	21,796	-	-	-	21,796
Total	$ 535,341	$ 248,502	$ 22,404	$ (54,921)	$ 751,326

(10) **Long-Term Liabilities (Continued)**

General Obligation Bonds (Continued)
The above table incorporates the net receipts/payments of the hedging instruments that are associated with the variable rate debt issue(s). The amounts assume that current interest rates on variable rate bonds and the current reference rates of the hedging instruments will remain the same for their term. As these rates vary, interest payments on variable rate bonds and net receipts/payments on the hedging instruments will vary. Additionally, the above table includes the most recent BABs subsidy reduction of 5.7% under the Congressionally-mandated sequestration which began in FY 2012-13. Refer to Note 3 for additional information regarding the hedging instruments associated with the debt of the District.

Certificates of Participation
In September 2016, the Irvine Ranch Water District Service Corporation issued $116.7 million of Certificates of Participation Series 2016 (the Series 2016 Certificates) to finance the cost of certain capital improvements and to refund a portion of the outstanding Certificates of Participation Refunding Series 2010 (the Series 2010 Certificates).

The annual debt service requirements for the Certificates of Participation, including principal and interest payments, are as follows (in thousands):

Fiscal Year	Principal	Interest	Total
2023	$ 3,940	$ 5,483	$ 9,423
2024	4,220	5,286	9,506
2025	4,555	5,074	9,629
2026	4,905	4,847	9,752
2027	5,225	4,602	9,827
2028-2032	32,145	18,701	50,846
2033-2037	15,415	12,198	27,613
2038-2042	19,665	7,940	27,605
2043-2046	19,580	2,507	22,087
Sub-total	109,650	66,638	176,288
Plus: Unamortized premium	23,532	-	23,532
Total	$ 133,182	$ 66,638	$ 199,820

(10) **Long-Term Liabilities (Continued)**

Notes Payable

The District has one outstanding loan, which was assumed as a result of its consolidation with the Santiago County Water District. The original loan amount was $1.3 million. The loan is payable semi-annually with interest at 2.32%. The loan matures in July 2025. Amounts required to amortize notes payable at June 30, 2022 are as follows (in thousands):

Fiscal Year	Principal	Interest	Total
2023	$ 76	$ 6	$ 82
2024	77	4	81
2025	79	2	81
2026	41	1	42
Total	$ 273	$ 13	$ 286

Leases Payable

During the current fiscal year, the District implemented GASB Statement No. 87, Leases. In prior years, the District entered into two agreements as the lessee for the right to use certain property for production wells. An initial lease liability of $524,259 was recorded at the beginning of the current fiscal year for one of the leases. As of June 30, 2022, the lease liability was $494,259. The District makes annual principal and interest payments of $30,000, adjusted periodically based on the terms identified in the lease agreement. The lease term ends on June 30, 2043 and the lease used an implicit interest rate of 2.32%. For the second lease, the annual lease payment for the year ended June 30, 2022 was approximately $224,000 and the lease term ends on June 30, 2039. No lease liability was recorded for the second lease since the annual lease payments are variable based on a formula. The annual lease payment requirements for the first lease, including principal and interest payments, are as follows (in thousands):

Fiscal Year	Principal	Interest	Total
2023	$ 19	$ 11	$ 30
2024	19	11	30
2025	19	11	30
2026	20	10	30
2027	20	10	30
2028-2032	109	41	150
2033-2037	122	28	150
2038-2042	137	13	150
2043	29	1	30
Total	$ 494	$ 136	$ 630

(11) Unearned Revenue

Unearned revenue at June 30, 2022 consisted of the following (in thousands):

Unearned revenue, current portion	$ 565
Unearned revenue, net of current portion	3,698
Total	$ 4,263

On November 10, 2008, the Board approved the South Orange County – Irvine Ranch Water District Interconnection Projects Participation Agreement (Agreement). The Agreement was effective on November 2008 between the District, City of San Clemente (CSC), Laguna Beach County Water District (LBCWD), Moulton Niguel Water District (MNWD), Santa Margarita Water District (SMWD), South Coast Water District (SCWD), Municipal Water District of Orange County (MWDOC), and Orange County Water District (OCWD). The purpose of the Agreement is to allow the South County water agencies (CSC, LBCWD, MNWD, SMWD, and SCWD) to reserve capacity in the District system and reimburse the District for various new intertie facilities which provide that up to 25 cfs of water supply per month may be made available during a water supply disruption. The total cost of the agreement was paid in full by each party in the fiscal year ended June 30, 2009. The amount of unearned revenue related to the South County Water Agencies is amortized over 20 years, the term of the Agreement. The amount of amortization for the fiscal year ended June 30, 2022 was $0.5 million.

(12) Letters of Credit

The District has letters of credit securing the payment of principal and interest on certain General Obligation Bonds. The letters of credit are issued in favor of the trustees and enable the trustees to make drawings against the letters of credit for payment of principal and interest amounts.

The terms of the letters of credit, as of June 30, 2022 are summarized as follows (in thousands):

Letter of Credit	Trustee	Amount	Expiration Date
Bank of America:			
2009 Series B Consolidated	U.S. Bank	$ 50,559	April 21, 2025
Sumitomo Mitsui:			
2008 Series A Refunding	Bank of New York Mellon	43,636	May 28, 2025
U.S. Bank:			
1993 Consolidated	Bank of New York Mellon	23,310	May 1, 2025
2009 Series A Consolidated	U.S. Bank	50,559	May 1, 2025

(13) Defined Benefit Pension Plan

Plan Descriptions

All qualified employees are eligible to participate in the District's agent multiple-employer public employee defined benefit pension plan which is administrated by the California Public Employees' Retirement System (CalPERS). CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by State statute and the District's Board of Directors. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at www.calpers.ca.gov.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. The Plan's provisions and benefits in effect at June 30, 2022, are summarized as follows:

	Hire Date		
	Prior to October 1, 2012	**On or after October 1, 2012 to December 31, 2012**	**On or after January 1, 2013**
Benefit Formula	2.5% @ 55	2.0% @ 60	2.0% @ 62
Benefit Vesting Schedule	5 Years of Service	5 Years of Service	5 Years of Service
Benefit Payments	Monthly for Life	Monthly for Life	Monthly for Life
Minimum Retirement Age	50	50	52
Monthly Benefits, as a % of Eligible Compensation	2.0% to 2.5%	1.092% to 2.418%	1.0% to 2.5%
Required Employee Contribution Rate	8.00%	7.00%	6.50%
Required Employer Normal Cost Rate	9.270%	9.270%	9.270%

In addition, the District made a $6.8 million unfunded liability contribution during the current fiscal year.

Employees Covered

As of June 30, 2020 (valuation date), the following employees were covered by the benefit terms for the Plan:

Active Employees	396
Inactive Employees or Beneficiaries Currently Receiving Benefits	313
Inactive Employees Entitled to But not Yet Receiving Benefits	212
Total	921

(13) Defined Benefit Pension Plan (Continued)

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

As of June 30, 2022, the total pension liability was determined using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirements of GASB 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table [(1)]	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	The Lesser of Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

[(1)] The mortality table used was developed based on CalPERS' specific data. The probabilities of mortality are based on 2017 CalPERS Experience Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from December 2017 that can be found on the CalPERS website.

(13) **Defined Benefit Pension Plan (Continued)**

Long-term Expected Rate of Return
The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows.

Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by asset class are as follows:

Asset Class [1]	Assumed Asset Allocation	Real Return Years 1 – 10 [2]	Real Return Years 11+ [3]
Public Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estates	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92%)
Total	**100%**		

[1] In the CalPERS' ACFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.
[2] An expected inflation of 2.00% used for this period.
[3] An expected inflation of 2.92% used for this period.

(13) Defined Benefit Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

The plan fiduciary net position disclosed in the GASB 68 accounting valuation report may differ from the plan assets reported in the funding actuarial valuation report due to several reasons. For example, for the accounting reports, CalPERS must keep items such as deficiency reserves and fiduciary self-insurance included as assets. These amounts are excluded for rate setting purposes in the funding actuarial valuation.

Changes in the Net Pension Liability

The changes in the net pension liability for the Plan were as follows (in thousands):

	Increase (Decrease)		
	Total Pension Liability (a)	**Plan Fiduciary Net Position (b)**	**Net Pension Liability/(Asset) (c) = (a) - (b)**
Balance at June 30, 2021	$ 306,889	$ 232,184	$ 74,705
Changes Recognized for the Period:			
Service Cost	6,161	-	6,161
Interest	21,815	-	21,815
Difference between Expected and Actual Experience	1,990	-	1,990
Contributions – Employer	-	9,569	(9,569)
Contributions – Employees	-	2,855	(2,855)
Net Investment Income	-	52,638	(52,638)
Benefit Payments, Including Refunds of Employee Contributions	(13,708)	(13,708)	-
Administrative Expense	-	(232)	232
Net Change	16,258	51,122	(34,864)
Balance at June 30, 2022	$ 323,147	$ 283,306	$ 39,841

(13) **Defined Benefit Pension Plan (Continued)**

Sensitivity of the Net Pension Liability to Changes in the Discount Rate
The following presents the net pension liability of the Plan, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate (in thousands):

	Discount Rate -1% (6.15%)	Current Discount Rate (7.15%)	Discount Rate +1% (8.15%)
Plan's Net Pension Liability	$ 82,868	$ 39,841	$ 4,195

Funding of CalPERS Plan and Pension Benefits Trust
The District recognizes that defined benefit plans and the related future pension obligations pose significant issues for many government agencies. The District has taken a proactive approach to address the issue and in 2013, established a Pension Benefits Trust to substantially fund its CalPERS unfunded liability. The Pension Benefits Trust provides the District with an alternative to CalPERS that allows for investment by a professional fund management team selected and monitored by the District. The Pension Benefits Trust holds the funding contributions for the District pending future remittance to the CalPERS pension trust fund which will pay all retiree benefit payments to employees associated with the plan. Future contributions will be transferred from the Pension Benefits Trust to CalPERS at the District's discretion.

As of June 30, 2022, the total value of the assets in the Pension Benefits Trust was approximately $94.8 million.

The following schedule shows the District's total pension liability, CalPERS assets, Pension Benefits Trust assets, and the relationship of the total pension liability (in thousands):

Fiscal Year [1]	Total Pension Liability	CalPERS Assets	Net Pension Liability/ (Asset)	Pension Benefits Trust Assets	CalPERS Assets as a Percentage of the Total Pension Liability	Pension Benefits Trust Assets as of Percentage of the Total Pension Liability	Total Pension Assets as a Percentage of the Total Pension Liability
06/30/20	$ 291,334	$ 222,867	$ 68,467	$ 78,389	76.5%	26.9%	103.4%
06/30/21	306,889	232,184	74,705	83,103	75.7%	27.0%	102.7%
06/30/22	323,147	283,306	39,841	107,930	87.7%	33.4%	121.1%

[1] As of the measurement date June 30, 2019, 2020, and 2021 respectively.

(13) **Defined Benefit Pension Plan (Continued)**

Subsequent Events
On July 12, 2021, CalPERS reported a preliminary 21.3% net return on investments for fiscal year 2020-21. Based on the thresholds specified in CalPERS Funding Risk Mitigation policy, the excess return of 14.3% prescribes a reduction in investment volatility that corresponds to a reduction in the discount rate used for funding purposes of 0.20%, from 7.00% to 6.80%. Since CalPERS was in the final stages of the four-year Asset Liability Management (ALM) cycle, the board elected to defer any changes to the asset allocation until the ALM process concluded, and the board could make its final decision on the asset allocation in November 2021.

On November 17, 2021, the CalPERS board adopted a new strategic asset allocation. The new asset allocation along with the new capital market assumptions, economic assumptions and administrative expense assumption support a discount rate of 6.90% (net of investment expense but without a reduction for administrative expense) for financial reporting purposes. This includes a reduction in the price inflation assumption from 2.50% to 2.30% as recommended in the November 2021 CalPERS Experience Study and Review of Actuarial Assumptions. This study also recommended modifications to retirement rates, termination rates, mortality rates and rates of salary increases that were adopted by the board. These new assumptions will be reflected in the GASB 68 accounting valuation reports for the June 30, 2022, measurement date.

Amortization of Deferred Outflows and Deferred Inflows of Resources
Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Net Difference between Projected and Actual Earnings on Pension Plan Investments	5 year straight-line amortization
All Other Amounts	Straight-line amortization over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period

The EARSL for the Plan for the fiscal year ended June 30, 2022 was 4.8 years, which was obtained by dividing the total service years of 4,397 (the sum of remaining service lifetimes of the active employees) by 921(the total number of participants: active, inactive, and retired). Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing (leaving employment) due to an event other than receiving a cash refund.

(13) **Defined Benefit Pension Plan (Continued)**

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended June 30, 2022, the District recognized pension expense of $3.14 million. At June 30, 2022, the District reported deferred outflows and deferred inflows of resources related to pensions from the following sources (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension Contributions made Subsequent to the Measurement Date	$ 10,467	$ -
Differences between Expected and Actual Experiences	3,419	35
Changes in Assumptions	-	239
Net Difference between Projected and Actual Earnings on Pension Plan Investments	-	26,134
Total	$ 13,886	$ 26,408

$10.5 million reported as deferred outflows of resources related to employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2023. ($23.0) million net of deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows (in thousands):

Fiscal Year	Deferred Outflows/ (Inflows) of Resources
2023	$ (5,612)
2024	(4,897)
2025	(5,587)
2026	(6,893)
Total	$ (22,989)

(14) Other Post-Employment Benefits

Plan Descriptions
The District administers three other post-employment benefits (OPEB) plans which are subject to changes based on the discretion of the Board:

- **PEMHCA:** The District provides an agent multiple-employer defined benefit healthcare plan to retirees through the California Public Employee Retirement System (CalPERS) under the California Public Employees Medical and Hospital Care Act (PEMHCA), commonly referred to as CalPERS Health. Employees are eligible for this lifetime benefit if they retire from the District and are eligible to begin drawing a CalPERS pension. Participation in PEMHCA is financed in part by the District through a contribution of $149 per month per participating retiree.

- **RHCAP**: The District also administers a single-employer defined benefit Retiree Health Costs Assistance Program (RHCAP), which provides medical benefits to covered employees and their eligible dependents. The duration of the benefit is based on employees' years of service as follows: 12 months of benefits for employees with 3-7 years of service; 24 months of benefits for employees with 8-9 years of services; 36 months of benefits for employees with 10-14 years of service; 48 months of benefits for employees with 15-19 years of service; and 60 months of benefits for employees with at least 20 years of service. Employees are eligible for this benefit if they retire from the District on or after age 55 with at least three years of service. The District reimburses retirees for eligible healthcare costs of up to $160 per month (for retirees with at least three years of service at the District), to a maximum of $600 per month after 25 years of service.

- **Death Benefit**: The District administers a single-employer defined benefit Retiree Death Only plan (Death Benefit). Employees hired on or before December 31, 2008 and who retire from the District on or after age 55 with at least 10 years of service at the District are eligible for term life insurance with a face amount equal to 100% of their final annual salary at the time of retirement. Employees hired after December 31, 2008 are not currently eligible for this plan.

(14) Other Post-Employment Benefits (Continued)

Employees Covered

As of the June 30, 2021 measurement date, the following employees were covered by the benefit terms under each Plan:

	PEMHCA	RHCAP	Death Benefit	Total
Inactive Employees or Beneficiaries Currently Receiving Benefits	114	46	-	160
Inactive Employees Entitled to But not Yet Receiving Benefits	89	-	135	224
Active Employees	408	408	123	939
Total	611	454	258	1,323

Contributions

The contributions for the District's various other post-employment benefits are based on pay-as-you-go financing requirements.

For the fiscal year ended June 30, 2022, the District's cash contributions were $0.5 million and estimated implied subsidy was $0.3 million resulting in total payments of $0.8 million. The following shows contributions by each OPEB plan (in thousands):

	PEMHCA	RHCAP	Death Benefit	Total
Cash Contributions	$ 203	$ 263	$ 20	$ 486
Estimated Implied Subsidy	332	-	-	332
Total	$ 535	$ 263	$ 20	$ 818

(14) Other Post-Employment Benefits (Continued)

Actuarial Methods and Assumptions Used to Determine Total OPEB Liability
The June 30, 2021 measurement date was used to determine the June 30, 2022 total OPEB liability, based on the following actuarial methods and assumptions:

	PEMHCA	RHCAP	Death Benefit
Actuarial Method	Entry Age Normal		
Actuarial Assumptions:			
Contribution Policy	Pay-as-you-go		
Discount Rate	2.16% at June 30, 2021 and 2.21% at June 30, 2020 (Bond Buyer 20-Bond Index)		
Inflation	2.75% Annually		
Mortality, Disability, Termination, Retirement	CalPERS 1997-2015 Experience Study		
Mortality Improvement	Mortality Projected Fully Generational with Scale MP-2020		
Salary Increases	3% Annually and CalPERS 1997-2015 Experience Study		
Medical Trend	Non-Medicare –7.0% for 2022, decreasing to 4.0% in 2076 Medicare (Non-Kaiser) – 6.1% for 2022, decreasing to 4.0% in 2076 Medicare (Kaiser) – 5.0% for 2022, decreasing to 4.0% in 2076	Not Applicable	
Minimum Increase	4.25% Annually	Not Applicable	
Participation at Retirement	Medical Coverage: 70% if eligible for RHCAP. Otherwise, 50% if currently in District's medical plan, 0% if not.	3 years of District Service: 100% Participate	100% Participate

Change in Assumptions
For the fiscal year ended June 30, 2021 measurement period, the discount rate was decreased from 2.21 percent to 2.16 percent based on the municipal bond rate.

(14) **Other Post-Employment Benefits (Continued)**

Discount Rate
The discount rate used to measure the total OPEB liability was 2.16 percent which was based on the Bond Buyer 20-Bond G.O. Index.

Changes in the OPEB Liability
The changes in the OPEB liability were as follows (in thousands):

	PEMHCA	RHCAP	Death Benefit	Total
Balance at June 30, 2021	$ 18,054	$ 3,584	$ 1,731	$ 23,369
Changes Recognized for the Period:				
Service Cost	1,194	225	38	1,457
Interest	420	81	39	540
Changes in Assumptions	157	11	6	174
Benefit Payments	(493)	(288)	(20)	(801)
Net Change	1,278	29	63	1,370
Balance at June 30, 2022	$ 19,332	$ 3,613	$ 1,794	$ 24,739

Sensitivity of the OPEB Liability to Changes in the Discount Rate
The following presents the OPEB liability, calculated using a discount rate that is one percentage point lower or one percentage higher than the current rate for the measurement period ended June 30, 2021 (in thousands).

OPEB Liability	Discount Rate - 1% (1.16%)	Current Discount Rate (2.16%)	Discount Rate + 1% (3.16%)
PEMHCA	$ 22,930	$ 19,332	$ 16,501
RHCAP	3,836	3,613	3,402
Death Benefit	1,926	1,794	1,675
Total	$ 28,692	$ 24,739	$ 21,578

(14) **Other Post-Employment Benefits (Continued)**

Sensitivity of OPEB Liability to Changes in the Healthcare Trend Rates (Continued)
The following presents the OPEB liability, calculated using health care cost trend rates that are one percentage point lower or one percentage higher than the current rate for the measurement period ended June 30, 2021(in thousands).

OPEB Liability	Healthcare Trend Rates -1%	Curent Healthcare Trend Rates	Healthcare Trend Rates +1%
PEMHCA	$ 15,864	$ 19,332	$ 23,940
RHCAP	3,613	3,613	3,613
Death Benefit	1,794	1,794	1,794
Total	$ 21,271	$ 24,739	$ 29,347

Subsequent Events
There were no subsequent events that would materially affect the results presented in this disclosure.

Amortization of Deferred Outflows and Deferred Inflows of Resources
Gains and losses related to changes in total OPEB liability is recognized in OPEB expense systematically over time.

The first amortized amounts are recognized in OPEB expense for the fiscal year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The amortization period differs depending on the source of the gain or loss. Straight line amortization over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits (active and retired) as of the beginning of the measurement period is used for each Plan.

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB
For the fiscal year ended June 30, 2022, the District recognized OPEB expense of $2.6 million which consisted of $2.2 million for PEMHCA, $0.4 million for RHCAP and $0.03 million for Death Benefit.

(14) Other Post-Employment Benefits (Continued)

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB (Continued)

At June 30, 2022, the District reported deferred outflows and deferred inflows of resources related to OPEB from the following sources (in thousands):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	PEMHCA	RHCAP	Death Benefit	Total	PEMHCA	RHCAP	Death Benefit	Total
OPEB Contributions made Subsequent to the Measurement Date	$ 535	$ 263	$ 20	$ 818	$ -	$ -	$ -	$ -
Changes in Assumptions	3,360	275	122	3,757	475	61	2	538
Difference between Expected and Actual Experience	1,341	210	-	1,551	-	-	98	98
Total	$ 5,236	$ 748	$ 142	$ 6,126	$ 475	$ 61	$ 100	$ 636

The District has $0.8 million reported as deferred outflows of resources related to employer contributions subsequent to the measurement date which will be recognized as a reduction of the OPEB liability in the fiscal year ending June 30, 2023. The District has $4.7 million deferred outflows and deferred inflows of resources related to OPEB which will be recognized as OPEB expense as follows (in thousands):

Fiscal Year	PEMHCA	RHCAP	Death Benefit	Total
2023	$ 548	$ 45	$ (9)	$ 584
2024	548	45	17	610
2025	548	45	9	602
2026	631	45	4	680
2027	687	58	1	746
Thereafter	1,264	186	-	1,450
Total	$ 4,226	$ 424	$ 22	$ 4,672

(15) Deferred Compensation Plans

Retirement for Part Time Employees
The District provides pension benefits for all of its part-time employees through a defined contribution plan, in lieu of providing social security benefits. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The plan is administered as part of the District's Section 457 plan. All part-time and seasonal employees are eligible to participate from the date of employment. For the year ended June 30, 2022, the District's payroll covered by the plan was $107,009. The District made no employer contributions. Employees contributed $8,111 for the fiscal year ended June 30, 2022.

Deferred Compensation
All regular, full-time District employees are eligible to participate in the District's deferred compensation program pursuant to Section 457 of the Internal Revenue Code (Plan) whereby they can voluntarily contribute a portion of their earnings into a tax-deferred fund administered by the District and invested through a third party provider. Pursuant to the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), effective January 1, 2002, employees may contribute the lesser of 100% of includible compensation or the maximum dollar amount allowable under Internal Revenue Code Section 457 in effect for the year. The dollar amount currently in effect for calendar year 2022 is $20,500.

Effective January 1, 2008, for employees with one year or more of services, the District provides 100% matching up to an annual maximum of 3% of the employee's base salary after one year of service. Such employer contribution amounts are deposited into a money purchase plan pursuant to Section 401(a) of the Internal Revenue Code. All full-time employees who have completed two years of regular, full-time service with the District, are eligible for an additional District contribution. Beginning with the first month following an employee's second anniversary date, the District will deposit to the employee's 401 (a) Plan account on a per-pay period basis an amount equal to 1% of the employee's base salary. During the fiscal year ended June 30, 2022, the District contributed $1.4 million to employee accounts under the 401(a) plan.

The assets in both plans are held in trust for the exclusive benefit of the participants and their beneficiaries, and are therefore not reported in the basic financial statements of the District.

(16) Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, and natural disasters for which the District carries commercial insurance.

(16) Risk Management (Continued)

Property, Boiler and Machinery insurance is provided by the Public Risk Innovation, Solutions, and Management (PRISM) formerly the California State Association of Counties Excess Insurance Authority (CSAC-EIA). Property insurance includes flood insurance for all properties, and earthquake insurance for the District's real estate investment properties. General and excess liability coverage and workers compensation insurance are provided through participation in the PRISM program. Pollution and legal liability coverage for the Irvine Desalter Project is provided by a policy with Ironshore Holdings, a Liberty Mutual Company.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Excess coverage insurance policies cover individual general liability claims in excess of $100,000, property claims in excess of $25,000 and workers compensation claims in excess of $125,000.

Changes in the reported liability resulted from the following (in thousands):

Fiscal Year	Liability Beginning of Year	Claims and Changes in Estimates	Claim Payments	Liability End of Year	Due within One Year	Due in more than One Year
2021	$ 1,738	$ 184	$ (173)	$ 1,749	$ 572	$ 1,177
2022	1,749	138	(237)	1,650	572	1,078

(17) Commitments and Contingencies

Legal Actions

The District is a defendant in various legal actions arising out of the conduct of the District's operations. Management believes that, based on current knowledge, the outcome of these matters will not have a material adverse effect on the District's financial position.

(18) Net Position

Net position at June 30, 2022 consisted of the following (in thousands):

Net investment in capital assets:	
Property, plant and equipment, net	$ 2,029,778
Less:	
Outstanding debt issued to construct capital assets:	
General obligation bonds	(535,341)
Certificates of participation	(133,182)
Notes payable	(273)
Leases payable	(494)
Deferred refunding charges	1,799
Total net investment in capital assets	1,362,287
Restricted net position:	
Restricted for water services	358,341
Restricted for sewer services	391,357
Total restricted net position	749,698
Total net position	$ 2,111,985

[1] During Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Post-employment Benefit Plans Other than Pensions (GASB 75), CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75.

[2] Includes any beginning of year adjustment.

(1) Defined Benefit Pension Plan – California Public Employees' Retirement System (Continued)

(a) Schedule of Changes in the Net Pension Liability and Related Ratio (in thousands) (Continued)

Notes to Schedule of Changes in the Net Pension Liability and Related Ratio
Benefit Changes: The figures above include any liability impact that may have resulted from voluntary benefit changes that occurred on or before the Measurement Date. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the Valuation Date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary.

Changes of Assumptions: None in 2019 to 2021. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. In 2017, the discount rate reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administration expense.) In 2014, amounts reported were based on the 7.5 percent discount rate.

(b) Schedule of Contributions (in thousands)

	Fiscal Year Ended June 30 [1]							
	2022	2021	2020	2019	2018	2017	2016	2015
Actuarially Determined Contribution [2]	$ 10,467	$ 9,569	$ 8,430	$ 7,185	$ 6,157	$ 5,450	$ 4,926	$ 4,524
Contributions in Relation to the Actuarially Determined Contribution [2]	(10,467)	(9,569)	(8,430)	(7,185)	(6,157)	(5,450)	(4,926)	(4,524)
Contribution Deficiency (Excess)	$ -	$ -	$ -	$ -	$ -	$ -	$ -	$ -
Covered Payroll	$ 39,655	$ 38,702	$ 37,389	$ 33,758	$ 32,213	$ 30,823	$ 28,802	$ 27,596
Contributions as a Percentage of Covered Payroll	26.40%	24.72%	22.55%	21.28%	19.11%	17.68%	17.10%	16.39%

[1] Historical information is required only for measurement periods from which GASB 68 is applicable. Fiscal Year 2015 was the first year of GASB 68 implementation.

[2] Employers are assumed to make contributions equal to the actuarially determined contributions. However, some employers may choose to make additional contributions towards their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions.

(1) **Defined Benefit Pension Plan – California Public Employees' Retirement System (Continued)**

(b) Schedule of Contributions (in thousands) (Continued)

Notes to Schedule of Contributions
The actuarial methods and assumptions used to set the actuarially determined contributions for the fiscal year ended June 30, 2022 were from the June 30, 2019 public agency valuations.

Actuarial Cost Method	Entry Age Normal
Amortization Method/Period	Level Percent of Payroll
Asset Valuation Method	Fair Value of Assets
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Payroll Growth	2.75%
Investment Rate of Return	7.00% Net of Pension Plan Investment and Administrative Expenses; includes Inflation
Retirement Age	The probabilities of Retirement are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015.
Mortality	The probabilities of mortality are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected on-going mortality improvement using 90% of Scale MP 2016 published by the Society of Actuaries.

Changes in Assumptions: On December 21, 2016, the CalPERS Board of Administration lowered the discount rate from 7.50 percent to 7.00 percent using a three-year phase-in beginning with the June 30, 2016 actuarial valuations. The minimum employer contributions for Fiscal Year 2021-22 were calculated using a discount rate of 7.00 percent.

Subsequent Event: The CalPERS Board of Administration has adopted a new amortization policy effective with the June 30, 2019 actuarial valuation. The new policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed using a level dollar amount. In addition, the new policy removes the 5-year ramp-up and ramp-down on Unfunded Accrued Liability (UAL) bases attributable to assumption changes and non-investment gains/losses. The new policy removes the 5-year ramp-down on investment gains/losses. These changes will apply only to new UAL bases established on or after June 30, 2019.

[1] Historical information is required only for measurement periods from which GASB 75 is applicable. Fiscal Year 2018 was the first year of GASB 75 implementation.

Notes to Schedule of Changes in the OPEB Liability and Related Ratio
Changes of Assumptions: For the fiscal year ended June 30, 2021 measurement period, the discount rate was decreased from 2.21 percent to 2.16 percent based on municipal bond rate.

For the fiscal year ended June 30, 2020 measurement period, the discount rate was decreased from 3.50 percent to 2.21 percent based on municipal bond rate. Mortality improvement scale was updated to Scale MP-2020. ACA Excise Tax was removed due to repeal of the law in December 2019.

For the fiscal year ended June 30, 2019 measurement period, the discount rate was decreased from 3.87 percent to 3.50 percent based on municipal bond rate.

(2) **Other Post-Employment Benefits (Continued)**

Schedule of Changes in the OPEB Liability and Related Ratio (in thousands)[1] (Continued)

Notes to Schedule of Changes in the OPEB Liability and Related Ratio (Continued)

For the fiscal year ended June 30, 2018 measurement period, the changes of assumptions were as follows:

PEMHCA	RHCAP	Death Benefit
Discount rate was increased from 3.58% to 3.87% based on municipal bond rate as of the measurement date.		
Demographic assumptions were updated to CalPERS 1997-2015 Experience Study.		
Mortality improvement scale was updated to Scale MP-2018.		
Medical claims costs were developed by Axene Health Partners based on demographic data for the CalPERS health plans provided by CalPERS and Axene's proprietary AHP Cost Model.	Not Applicable	
Short term medical trend was developed in consultation with Axene Health Partners' healthcare actuaries. Long-term medical trend developed using the Society of Actuaries Getzen Model of Long-Run Medical Cost Trends.	Not Applicable	
Participation at retirement for medical coverage was updated to 70% if eligible for RHCAP.	Not Applicable	
A 2% load on the cash liability was added to estimate the ACA Excise Tax.	Not Applicable	

For the fiscal year ended June 30, 2017 measurement period, the discount rate increased from 2.85 percent to 3.58 percent.

Statistical Section

Irvine Ranch Water District
Fiscal Year Ended June 30, 2022

This section of the Irvine Ranch Water District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Financial Trends Schedules – These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Net Position
Changes in Net Position

Revenue Capacity Schedules – These schedules contain information to help the reader assess the factors affecting the District's ability to generate its property and sales taxes.

Water Sold by Type of Customer
Water Rates
Largest Water Customers
Sewer Rates
Largest Sewer Customers
Ad Valorem Property Tax Rates

Debt Capacity Schedules – These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Assessed Valuation and Estimated Actual Value of Taxable Property and 1% Property Tax Revenue
Direct and Overlapping Property Tax Rates
Principal Property Taxpayers
Property Tax Collections/Delinquency
Outstanding Debt by Type
Outstanding General Obligation Bonds by Improvement District
Ratio of General Obligation Debt to Assessed Values
Ratio of Annual Debt Service Expenditures to Total General Expenditures
Debt Service Coverage

Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments.

Principal Employers
Demographic and Economic Statistics

Operating Information – These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

Operating Indicators by Function – Water and Sewer Service Connections
Operating Indicators by Function – New Service Connections
Operating Indicators by Function – Average Monthly Usage
Source of Supply and Demand in Acre Feet
Capital Asset Statistics
Full-Time Employees

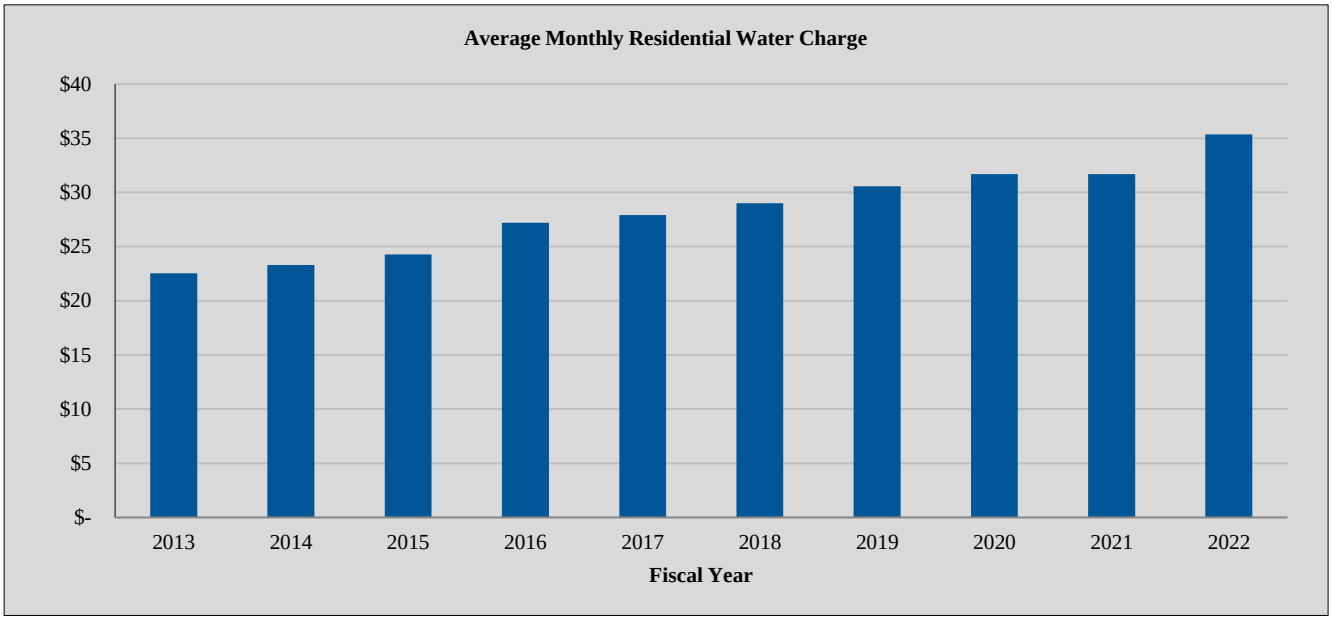
Water Rates [1]

For the Past Ten Fiscal Years

Fiscal Year	Fixed Service Charge	Base Commodity Rate (per ccf)	Average Monthly Residential Charge
2013	$ 9.30	$ 1.24	$ 22.53
2014	9.85	1.27	23.29
2015	10.50	1.34	24.28
2016	10.30	1.62	27.19
2017	10.30	1.65	27.90
2018	10.30	1.70	29.00
2019	10.35	1.89	30.58
2020	10.35	2.00	31.70
2021	10.35	2.00	31.70
2022 [2]	10.75	2.42	35.34



Source: Irvine Ranch Water District

Note:

[1] The water charge to the typical residential customer is based upon an average of 12 ccf per month. The first 5 ccf are at the District's low volume rate, which is $0.53 less than the commodity base rate in FY 2021. The fixed monthly service charge includes components to add enhancement and replacement funds to assist with the District's aging infrastructure.

[2] Rates increased effective February 1, 2022.

Source: Orange County Auditor-Controller and Orange County Tax Collector.

In 1978, the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor' (limited to a maximum increase of 2%). With few exceptions, property is only reassessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold.

Source: County of Orange Tax Ledger

Notes:

[1] The estimated levy for one percent revenue is generated internally and it is based on prior year receipts and developer growth projections.

[2] The estimated levy for G.O. tax receipts is based on the county's assessed value projection multiplied by the tax rate assessed within each improvement district.

[3] The General Obligation column for Collected tax receipts includes an unbudgeted utility tax revenue from improvement districts 190/290 that adds approximately $400K per year.

Source: Irvine Ranch Water District

Notes:

[1] The additional demands are met with runoff capture and imported water.

[2] Extremely dry conditions led to a considerable increase in demands.

[3] State mandated reduction in usage resulted in a significant decrease in overall demand.

[4] Significant rainfall resulted in a decrease in overall demand.

Source: Irvine Ranch Water District

Notes:

[1] Miles of Line include laterals.

[2] Total number of tanks excludes IRWD's storage capacity with East Orange County Water District. However, this capacity is accounted for in the maximum storage capacity estimate (467 AF). This number also includes the two 16-MG tanks at the Baker location and the newly constructed 4.3 MG Zone 1 Tank at the existing Zone 1 tank location.

[3] Excludes Serrano Water District's capacity in Irvine Lake, which equals 25% of total capacity.

[4] Accounts for active production wells only (Excludes SGU Injection Well).

[5] Excludes lift stations serving individual IRWD facilities.

REQUIRED AUDIT COMMUNICATIONS

Board of Directors
Irvine Ranch Water District
Irvine, California

We have audited the financial statements of Irvine Ranch Water District (the District) as of and for the year ended June 30, 2022, and have issued our report thereon dated December xx, 2022. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated March 4, 2022, our responsibility, as described by professional standards, is to form and express an opinion(s) about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you in our letter dated August 29, 2022.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and our network firms have complied with all relevant ethical requirements regarding independence.

We identified self-review threats to independence as a result of non-attest services provided. Those non-attest services included recording journal entries detected during the audit process. To mitigate the risk, management has compared the draft financial statements and

DRAFT

footnotes to the underlying accounting records to verify accuracy and has reviewed a disclosure checklist to ensure footnotes are complete and accurate.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note 1 to the financial statements. As described in Notes 7 and 10 to the financial statements, the District changed accounting policies related to leases by adopting Statement of Governmental Accounting Standards (GASB Statement) No. 87, Leases, in the fiscal year 2022. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements include:

- Judgments concerning which capital project expenditures should be capitalized and depreciated versus expensed in the financial statements and judgments concerning which projects should be placed in service.
- Judgements regarding the fair value of real estate investments.
- Judgments regarding the fair value of interest rate swap agreements.
- Judgements involving the calculation of the net pension liability and related transactions
- Judgements involving the calculation of the other post-employment benefit (OPEB) liability and related transactions.

We evaluated the key factors and assumptions used to develop the estimates and determined that it is reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

DRAFT

- The disclosure of investment fair value in note 2 to the financial statements
- The disclosure of interest rate swap agreements in note 3 to the financial statements
- The disclosure of pensions in note 13 to the financial statements.
- The disclosure of OPEB in note 14 to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Significant Unusual Transactions

For purposes of this communication, professional standards require us to communicate to you significant unusual transactions identified during our audit. There were no unusual transactions noted as a result of our audit procedures.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit. There was one uncorrected misstatement detected during the audit process to record unbilled customer accounts receivable for service that occurred in June and subsequently billed until after the end of the fiscal year.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. There were no material misstatements noted as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the District's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management in a letter dated December xx, 2022.

DRAFT

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

Other Information Included in the Annual Comprehensive Financial Report

Pursuant to professional standards, our responsibility as auditors for other information, whether financial or nonfinancial, included in the District's annual report, does not extend beyond the information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have read the information and considered whether such information, or the manner of its presentation, was materially inconsistent with its presentation in the financial statements.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Board of Directors and management of the District and is not intended to be and should not be used by anyone other than these specified parties.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

Finance Personnel Committee
Irvine Ranch Water District
Irvine, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of Irvine Ranch Water District (the "District") as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December xx, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

DRAFT

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINANCE AND PERSONNEL COMMITTEE

ANNUAL BOARD OF DIRECTORS' FEES

SUMMARY:

The Finance and Personnel Committee annually reviews the Board of Directors' compensation and recommends to the Board to either accept or deny a fee increase for the new calendar year. Pursuant to the District's Ordinance No. 1989-1 and enacted under Section 20202 et seq. of the California Water Code, the Board's meeting compensation increases on January 1 of each year, not exceed an amount equal to five (5%) percent, and no compensation for more than 10 days in a calendar month.

BACKGROUND:

The most recent Board of Directors' compensation increase was effective in January 2022. The current compensation for the Board of Directors is $315 per meeting, not to exceed 10 meetings per calendar month. In accordance with Section 20202 et seq. of the California Water Code, the Board's meeting compensation increases on January 1 of each year by five (5%) percent, subject to acceptance or rejection by the Board. If the Board approves a 5% increase, the resulting per meeting fee will be $331 (rounded to the nearest dollar).

Provided as Exhibit "A" is a survey of the Director Fees of other water districts for comparative purposes containing service connections and combined operating and capital budgets.

FISCAL IMPACTS:

A 5% increase has a nominal impact on the operating budget if accepted by the Board.

ENVIRONMENTAL COMPLIANCE:

This item is not a project as defined in the California Environmental Quality Act (CEQA), Code of Regulations, Title 14, Chapter 3, Section 15378.

RECOMMENDATION:

That the Board either accept or decline the five (5%) percent compensation increase for calendar year 2023.
